House-cleaning Time is Here What Does That Mean to You?

IT should mean a chance to make extra sales in lines that are particularly "saleable" at this Season.

The season when the sales of O-Cedar Polish reach their Peak—therefore, the time of the year for O-Cedar Window Displays.

The merchant who makes use of O-Cedar Advertising Material in his Windows and around his store, gets the benefit of the extra demand that comes at House-cleaning time for both O-Cedar Polish and the O-Cedar Polish Mop.

When a Man Trusts His Life to a Rope

He pays it about the biggest compliment it is possible for a man to pay.

There are more men trusting their lives to Plymouth Rope every day than to all other ropes made. For those who go down into the sea to save life or salvage wrecks, or hang suspended in mid-air while they work upon sky-scrapers or church steeples know that "Plymouth Rope is the Rope they can Trust." Others have been trusting it for nearly a century.

You can trust Plymouth Rope to build up your rope sales by giving customers a little more of strength and wear than they expect.

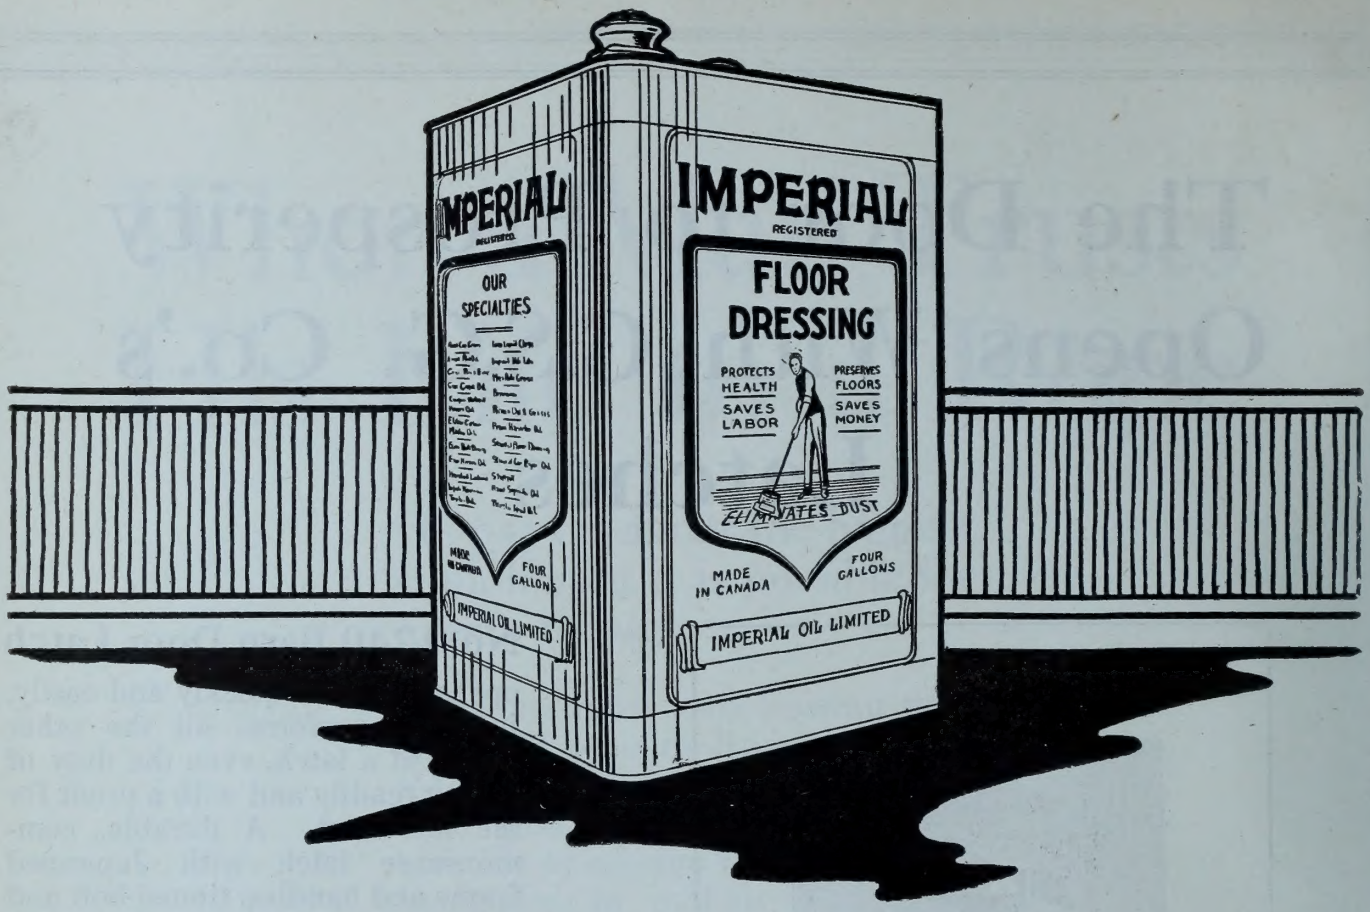
The Door to Prosperity Opens With C.S.G. Co.'s Latches

No. 1240 Barn Door Latch

opens all doors quickly and easily, just as it performs all the other duties of a latch, even the duty of selling readily and with a profit for the merchant. A durable, commonsense latch with Japanned frame and handles, tinned bolt and a Sherardized spring of piano wire that cannot rust. Packed one-quarter dozen in a carton, including padlock eyes. Weight, 175 lbs. per case.

The "Challenge" Latch

has opened a new door to profit for many a shrewd dealer, for it possesses more points of quality and value—selling points—than any other thumb latch on the market; for instance, it is made entirely of wrought steel and it is absolutely impossible for the thumb piece to work loose or get out of place.



Packed one-half dozen in a box. 12 dozen in a case. Weight, 180 lbs. per case.

Keeps Dust Down--

IMPERIAL
FLOOR DRESSING

Imperial Floor Dressing comes in one and four-gallon lithographed sealed cans, and in half-barrels and barrels. Ask the Imperial Oil salesman for prices and a demonstration.

Dirt is bound to accumulate in busy stores. But it can be kept from settling on your stock and shelves in the form of dust if you use Imperial Floor Dressing.

Customers will be attracted by the absence of dust in your store, by the neat appearance of your merchandise, by your "spick and span" displays and bright show cases.

One application of Imperial Floor Dressing cleans and preserves floors and prevents dust from rising. One gallon will treat upwards of 700 square feet and does not need renewing for weeks.

Imperial Floor Dressing is non-evaporating and non-gumming. It catches and holds the dust on the floor where it can easily be swept up and disposed of. It is the most sanitary and satisfactory dressing you can buy—or sell—for floors, linoleum or oil cloth.

Its effective use in your own place of business creates a big market for floor dressing among your customers. Talk to the Imperial Oil salesman about it.

The tool he should be using is a Starrett ———— ——

Have You This Tool In Stock?

There are four hermaphrodite calipers of Starrett make. One of these—the tool to be used here—is designed especially for laying out work such as marking lines parallel with the edge of a block, finding temporary centers, etc. Another, designed for less sensitive adjustment, is used where the requirements are not so rigid. Two of them have lock joints, permitting work over flanges, etc.

The caliper this machinist is using may be found in the new Starrett Catalog No. 22 MA. See if you have it in stock.

Westinghouse

Household Electric Irons

8 Selling Points

1 Few and simple parts.

2 The heating element very easy to replace when found necessary.

3 Practically all the heat is given off at the ironing surface. Radiation from the top is prevented by dead air space.

4 The heat not being taken by the ironing surface is stored in the heat-storage plates; this makes the iron retain the heat longer.

5 The heat is distributed over the entire ironing surface. The whole iron irons.

6 The weight is accurately balanced. The handle is always cool and just fits the hand.

7 Current can be turned off without a snap switch by pulling the connector away from the terminal.

8 The complete iron includes fireproof stand, cord, with separable attachment plug and receptacle.

Westinghouse Electric Household Appliances embrace Turnover Toasters, Toaster Stoves, Coffee Percolators, Chafing Dishes, Hot Plates, Curling Irons, etc.

Stevens

TRADE MARK
STEVENS
REG. U.S. PAT. OFF. & FGN.

MAKE THE BOYS YOUR CUSTOMERS

Think for a moment how much business the boy brings into your store in the course of a year.

The above illustration is used in our general consumer advertising for March. The boy of to-day is the man of to-morrow and if you start the boy right he's your friend when he grows up.

Put something in the window to catch his eye—then a little attention to his needs and his questions will make him your friend for life.

Stevens Rifles are priced within the range of practically every boy's bank. And when you sell him a Stevens there are many other things in your stock that he will want as well.

Most boys start with a Stevens and they will *this* year, too. Is your store going to be the one to get their business?

STEWART

No. 1 Clipping Machines

Made in Canada For Canadian Trade

Be Good to Your Business—Sell "Stewarts"

Spring Clipping time means sales to every horse and cow owner—if the machines are displayed in your store. Clipped horses are better protected from colds, heaves and pneumonia. They dry quickly, rest better and do more work. For cows, it assures greater comfort, better appearance and better health.

Stewart No. 1 Clipping Machines, ball bearing, have satisfied Canadian farmers for many years. They are the standard by which all others are judged.

Get your machines on display—your jobber has them.

Your Salesman—

HAVE you a place in your store for a purely "Canadian Made" product that will bring you an excellent trade each year?

Your customer sees many points of superiority as you talk. The wire is tough and elastic—drawn to proper size and well galvanized in our factory at Hamilton. The Frost Lock—the strongest part of the fence, the evenly-spaced uprights and the strong lateral wires are material for a selling talk that is bound to convince.

When you sell Frost Fence you make these purchasers of it regular customers, the reason being — they get something that measures up to their idea of what they ought to have.

Frost Fence is that kind of a product. It gives the kind of satisfaction that breeds good will, and not only brings your man back for further purchases but makes him a booster for your store.

Frost Fence is an asset to your business.

STORY FOR WEEK DATED MARCH 26, 1921. HULL IN 1851. BEING NO. 50 IN THE SERIES

Completing the Manufacture of Eddy Company Packing Cases

LEAVING the "wet machine" exactly the proper thickness for their purpose, the sheets of board which are now very thick, heavy and damp, proceed to machines which cut them to the right sizes for the sides of the cases they are to make. These may be for matches, or for toilet papers, or any other Eddy Company product as ordered.

The sheets of board are cut, and then carried to hydraulic presses which reduce their thickness, squeeze the moisture out of them, and make them into very firm, strong board. A pressure of 1,250 lbs. per square inch is applied. No wonder Eddy Co. cases can stand a railway journey safely.

From the presses the board goes to the kilns in which they are dried thoroughly by hot air driven against them by great fans. They emerge from the kilns, warped a little, dry, and very hard indeed. They have to be slightly dampened before they pass through the calendering machine which smooths their surfaces each side in turn.

The boards are now ready to go to the trimmers which cut them more closely to size to fit their places in the box sides they are required for. A special machine marks out on each board the necessary guide lines to show the bonds necessary in fastening. The assembling of cases from boards so clearly marked and accurately made is simple.

The strength of these Eddy Company packing cases is tremendous. The railway companies insist on a case that will resist a strain of 300 lbs. per square inch. Every Eddy Company case will stand at least 400 lbs. per square inch, and often 500 lbs. This ensures that you receive your goods from the Eddy plant in perfect condition as packed. The board cases for matches have a further merit, namely, that they tend to smother out any fire that might arise in their contents through careless handling Wood cases are not so fireproof.

"STERLING" Dairy Pails

We should be glad to supply, in addition to our general catalogue, information on Ranges, Stoves, Enamelled Signs, Tinners' Trimmings, etc., etc.

With body of the finest quality XXXX tin strongly wired, the ears are made of extra heavy steel, tinned, and are reinforced on the inside to the body by a steel band.

Another feature that gives great satisfaction is the outside soldering around the wires and ears —this leaves no crevices for milk to lodge and decay, and, therefore, ensures a more sanitary pail.

Davidson's pails are strong, sensible and durable.

"WELLWORTH"

CAST ALUMINUM

FRYING PAN

DOUBLE LIPPED

"Wellworth" ware is always scientifically designed to meet any special requirements that may be placed upon it. The numerous uses to which a fry pan is put makes it necessary that it should be well and strongly constructed.

The handle should be one that remains always cool. To meet this need we have equipped all our fry pans with ebonized wood handles, and in order that they may not be scorched or burnt by the flame, which may often steal up unnoticed at this point, we have placed on the metal casting part of the pan, an extension, beyond which the flame is not likely to travel.

The corn popping test is, perhaps, as severe a one as a fry pan can be subjected to. Try it.

All "Wellworth" fry pans are cast by our own secret process. The aluminum is thoroughly hardened throughout, and is of such density and strength that it cannot dent, break or bend in ordinary uses. Made in two sizes.

A Bronze Pump with One Moving Part

When discussing Water Systems, do not put the Westco down as an ordinary system, for that is just what it *is not.*

Ordinary systems have a cumbrous tank, and a multitude of moving, wearing parts.

The Westco System has no tank, no gear, no valve, no belt.

To give double assurance of its efficiency and durability the

Westco

Tankless Water System

is equipped with

An All Bronze Pump
New Westco Two-Pole Pressure Switch

The system is entirely automatic and runs smoothly and noiselessly. And as *it has only one moving part* it rarely gets out of order.

The Westco Tankless Water System is being handled by dealers all over the North American continent.

It is admitted to be the best selling outfit on the market.

Woman Remembers Long After Others Forget

WOMAN hates more than anything else to be "done" on a purchase.

If she buys something that doesn't come up to her expectations or doesn't prove its money's worth she'll vow to "get even."

She will steer all of her friends away from the store in which she bought the article. She'll even drum up trade for his competitor.

On the other hand, if she's ***pleased*** with a purchase she will come back to that store for more and she'll bring her friends to buy.

And what is it that pleases her?

Quality. The super kind of quality the woman sees, feels and finds in the New Canadian Beauty Electrical Appliance Line.

Stock the New Canadian Beauty Line and you'll appreciate the importance of ***Quality.***

We operate on a discount plan, which does not entail carrying large stocks. That means quick turnover—good profits.

Stock up, go after business hard, link up with our big, national, advertising campaign and—watch your profit column bulge!

Order through your jobber or, if you prefer, direct from us.

Ottawa Merchants on Tax Suggestions

Great Saving of Expense in Having Tax Collected From 15,000 Manufacturers and Importers Rather Than From 200,000 Retailers—Commission Agents and Peddlers Would Have Advantage of Retailer if Sales Tax Was Collected From Retail Merchant

A LARGE gathering of Ottawa retail merchants, members of the advisory committee of the Dominion Board of the Retail Merchants' Association of Canada, held here this week, unanimously went on record as being in favor of the substitution of a tax on sales, applied at the source, for the business profits war tax. The following resolution was adopted:—

"That if it is the intention of the Dominion Government to continue the tax known as the Sales Tax, as it is now set out in the Act, that it be collected at the source of supply, namely, from the manufacturer and the importer, and in this way it would be absorbed in the same manner as all systems of taxation are absorbed, and that the words 'manufacturer' and 'importer' be properly defined in the Act so as not to include retail merchants."

Ottawa retail merchants are "on their toes," so to speak, in regard to this matter, as was manifest by the animated discussions which characterized the meeting. There were representatives present from practically every trade in the city and quite a few volunteered to go to Toronto for the big conference of manufacturers, wholesalers and retailers March 30 and 31 and fight their case there.

Tax on Manufacturers and Importers

E. M. Trowern, secretary of the Dominion Board, addressed the meeting at considerable length and said that the present system of taxation was not working out satisfactorily. He thought the business profits war tax was a clumsy bit of legislation and the time had arrived for the introduction of a system which would be more equitable, and the tax more easily collected. He laid special emphasis on the importance of having the tax collected from manufacturers and importers, and not from the retailers, pointing out that such a system would save the country thousands of dollars.

He said it would be much easier to collect a tax from 15,000 manufacturers and importers, than from 200,000 retailers. Mr. Trowern had been in touch lately with retail merchants all over Canada and knew that they were heartily in favor of this form of taxation.

"One of the big objections we find to the present application of the tax is that certain retailers are being classed as manufacturers," said Mr. Trowern. "Officers of the Government figure out that a man is a manufacturer who makes anything, irrespective of what that thing is. We even find them trying to make out that a tinsmith is a manufacturer because he makes a tin cup or an elbow for a stove pipe now and again. It is not a question as to whether they are manufacturers in the sense we regard manufacturers in the ordinary business way, but the law states that a retailer is not a manufacturer. When the Act was placed on the statute books, it was not the intention of the Government or of the members of the House to regard retailers as manufacturers. The interpretation that has been placed on it has been done so by the officials of the Department of Inland Revenue, who are regarding the matter entirely differently from the meaning of the Act.

"My opinion is that a man who makes something in a retail shop—whose business is not altogether retail—is not a manufacturer. The officials of the Government view the matter in a different light and it is up to us to show them where they are wrong. We have to look after our own interests. No person is going to do it for us.

"The plan of taxation we are suggesting is very simple and has the hearty endorsation of hard-headed business men from coast to coast."

Many Inspectors Needed

A good point brought out in the discussion, and one which was considered by many as important, was that if the sales tax were collected from the retailer, every commission agent and peddler in the country would have the advantage of the retailer. In time the Government might get over this question by appointing a great army of inspectors, but this was just what the Government, in the interests of the country as a whole, should try to avoid. The appointment of a big squad of inspectors would mean a tremendous outlay of money.

Treasurer Dominion Executive

Henry Watters, Treasurer Dominion Executive Council and Dominion Board of the Retail Merchants' Association of Canada, who moved the resolution, said he knew there was a very serious state of mind created all through Canada by the loss that retailers were subject to by the one and two per cent. sales tax which is in operation at present. "When you buy from the manufacturer," he said, "you pay two per cent., and if you buy from the wholesaler or any other person there is one per cent. added, and I have yet to find the man who can pass that along in his business. My hearty approval goes to the absorption and concealment of that taxation until we have discovered a more scientific way of applying taxation."

Stewart McClenaghan, who is a member of the Advisory Committee of the Dominion Board, said he thought the sales tax applied at the source of supply was the simplest and most equitable system. He stated that the manufacturers had

Must Face a Period of Competition

Efficient Methods in Business Are Now Necessary to Win Through —Reports Indicate That Retail Turnover in Smaller Centres Has Recently Been Ahead of Last Year

Editor's Note:—The following is from an address delivered before the Kiwanis Club, Toronto, by Horace T. Hunter, vice-president of the MacLean Publishing Company, dealing with business problems and methods of meeting them.

MY business brings me into contact with several very important lines of merchandising—hardware, grocery, dry goods, drugs, men's wear, stationery, plumbing and steamfitting—and in addition to these the bank manager who acts as a sort of "business father confessor" to all of them. We try to develop the "from Missouri" attitude and although many manufacturers and wholesalers were convinced that the general public had instituted a "buyers' strike" and that business was at a standstill, we made direct inquiries from the retailers themselves. You may be as surprised as I was to learn the result. Retail merchants outside the big centres report that their sales for December, January and February exceeded their sales for the corresponding three months in the previous year; for the most part February business of this year has been ahead of February of last year.

It is important to note and has great significance, that in the smaller centres the retail merchants are keeping up their volume of sales. The following definite statements are convincing:

City or Town.	February Turnover	Stock Carried
Collingwood	2% inc.	same
Paris	6% dec.	12½% less
Peterborough	19½% inc.	5% less
Napanee	3% inc.	25% less
Tillsonburg	1% inc.	5% less
Ingersoll	25% inc.	10% less
Sudbury	same	20% higher
Sherbrooke, P.Q.	3% inc.	same
Mitchell, Ont.	20% less	10% more
North Bay	1% less	same
Hamilton	10% inc.	33% less
London, Ont.	inc.	less
Lindsay	1% inc.	2% less
Moose Jaw, Sask.	same	same
Calgary	same	larger

The above reports are from leading merchants in towns and cities mentioned. In many cases they are from the merchant holding unquestionably first place as far as volume of sales is concerned.

Turnover Not Profits

I am speaking of turnover, not profit. Many lines are being sold at reduced prices, but the fact that goods are being sold indicates that more goods will have to be made to take their place. Manufacturers and wholesalers have, however, had different experiences from those of retailers. Orders for their goods are being placed slowly.

Retailers are ordering to-day only for their immediate needs. A year ago they were buying six months or more in advance, owing to scarcity of goods and slowness of delivery. On a rising market it was good policy to get orders placed before further advance in price took place. To-day conditions are reversed. It has become again a buyers' market.

Every week reductions in prices are announced, therefore the merchant feels that the longer he can hold off buying the better price he is likely to get.

Fewer Brands

Retailers are reducing their stocks by carrying fewer varieties than formerly; instead of carrying three or four brands they are concentrating on one brand.

A Wise Policy

Who will say that this is not a wise policy?

Even the manufacturers and jobbers who are hungry for orders must realize that it is a matter of first importance that retail merchants safeguard their financial position. It is their duty not to overload the retailer, but to help him in every possible way to speed up his turnover.

Basic Conditions Sound

Basic conditions throughout the Dominion are sound. It was not to be expected that we could get through the readjustment without some disturbance. There have, however, been comparatively few failures. We have been very fortunate that there has been no debacle. The readjustment in prices has been gradual. Textiles, boots and shoes, furs, foodstuffs, hides, wool and cotton have followed each other in a fairly orderly procession on the downward grade. Had they all declined at once and in drastic manner, financial institutions would have been embarrassed and we would have had many failures.

Foreign Influences

But it would be a short-sighted policy and one that would invite disaster to examine only conditions in Canada. We cannot evade the effect of foreign competition, much as we would like to do so. European and Asiatic countries are in an impoverished condition and overwhelmed with debts. Lloyd George has stated the only way a country can improve its position is by selling goods to other countries. They must produce an exportable surplus and their exports must exceed their imports. In most of these countries there is no talk of an eight-hour day or a minimum wage. It is the old primitive fight for existence.

The indemnity levied on Germany extends over a period of forty years. By many this is interpreted to mean forty years during which everyone engaged in production in Germany must work longer hours and for less pay than is the custom in other countries with which they are competing.

Keen Competition

What does this mean? In my opinion it means the keenest competition the world has ever known.

Economists the world over are endeavoring to find a method of permitting Germany and other countries to pay their debts and re-establish a decent and healthy mode of living without exposing the creditor countries to this cut-throat competition. They have not yet succeeded.

Business Preparedness

I believe it behooves every business man to prepare for a prolonged period of keen competition. Now, I do not look on this as a gloomy picture, provided we are prepared for it. Mark Twain said everybody talked about the weather, but nobody ever did anything. I believe there are a few things each of us can do to put our respective businesses in shape to meet conditions that lie ahead of us.

Map Out Definite Policy

The first thing I would suggest is—map out a definite policy. Every firm and every individual should get down to brass tacks, should map out in writing a definite policy and fix the responsibility for carrying it out.

Speed Up Turnover

The day of long profits is past. I doubt if any of us will ever again see the day when a merchant could make more money by holding goods than by selling them. The motto for the future will be not big profits, but quick turnover. This, however, is no hardship to the efficient business man; 5 per cent. net profit with twelve turnovers a year is better than 20 per cent. profit with three turnovers in the year. It is safer. It tends to lower costs and this in itself stimulates business.

Labor Saving Devices

The installation of labor-saving machinery is another way of reducing costs. This includes many fixtures or equipment, which, after providing for interest on investment and depreciation, will lower cost of doing business.

The Tax Problem

The Excess Profits Tax and Luxury Tax, heavy income taxes were imposed to satisfy the public clamor. The past few years have demonstrated these taxes

Continued on page 44

Alternative Views on Turnover Tax

Finance Minister Wants Views of Retail Merchants—Intelligent Consideration Needed—One Class of Merchants Prefers Turnover Tax in Its Broadest Application While Others Propose Adjustments

Written for Hardware and Metal by Austin Campbell, of The Financial Post

THOSE who keep touch on the pulse of trade observe two distinct lines of thought among retailers on the question of the Turnover Tax.

Some stand emphatically for the scheme in its broadest application—these are in the minority. Others, while advocating the tax in theory, question its blanket application and propose adjustments. The matter is vital—it must receive the intelligent thought of all merchants. Its far-reaching effects, its potentiality for benefit and its possibilities for harm imperatively demand that it be studied in detail by every man, who, by its enactment, will become virtually a "collector of Government revenue and temporary custodian of public funds."

The problem intimately concerns every merchant, big and little, in Canada. The huge departmental store and the little "corner hardware" alike will be affected. Only in so far as each merchant studies the incidence of this proposed method of taxation to his own particular business—and places the fruit and conclusions of such study before the Minister of Finance — can an efficient, working system be evolved and a tax applied that will be effective and equitable.

The Merchant's Responsibility

Political matters are too often ignored —at least so far as individual action is concerned — this question is going to touch every merchant intimately. Under the first—an industry wide application of the system—every merchant will have to keep his books in perfect order and submit to regular inspection; he will have to figure the percentage amount of the tax into his overhead and distribute the same, through his selling price, over the range of his goods. The question before the tax department to-day is, "What do the retailers think?" Sir Henry Drayton is frankly willing to be shown; it is up to us as merchants and business men to produce the facts.

The Retailer Collects

More specifically the questions, from the retail standpoint, are, shall the retailer collect and pay the tax? or shall it be collected by the manufacturer or wholesaler? Herein the wholesaler joins the retailer by asserting that the most effective and economical method is to collect the tax from the manufacturer.

If, therefore, as its supporters claim, in the Turnover Tax lies the solution of the national fiscal policy, then, from the retailer's viewpoint, the solution of the Turnover Tax lies in collecting it at "the source."

While some retailers express a willingness to do the full work of collecting, a strong concordance of opinion favors the other plan. In all the letters which have reached Hardware and Metal, none sought exemption from payment, though the majority advocated the finding of a plan which would relieve the retailer and the Government from the hazard and expense of collection. A composite expression of these views may be summed up as follows:

"Let the manufacturer and wholesaler add to their invoices a high enough percentage to meet the requirements of Government revenue and we will gladly pay it. To impose an army of collectors and assessors over the large number of widely distributed retail stores in Canada would be folly. The evasion which occurred under the operation of the Luxury Tax, and the deliberate falsification of returns by some merchants, is undeniable evidence of the impracticability of any retail collecting system. We approve of the Turnover Tax —the consumer must pay it, but the tax must be collected at the source."

This is not holding the umbrella over one class while exposing another. The contention is based on practical reasons —economy of collection and economy of price. It would be almost impossible, some authorities claim, to spread a small tax equally over a wide range of merchandise. Either certain goods must be sold below cost and others overloaded with charges to equalize the loss, or the price of all goods — notably the small cheap articles—must be increased more than the actual amount of the tax. Both conditions bear unfavorably on the ultimate consumer.

The Manufacturer Collects

The second plan seems to be the only proposition that can be heartily endorsed by the retail trade. It has in fact the support of many manufacturers, and the unofficial approbation of the experts in the taxation department of the Federal Government. It allows for the exemption of certain specific commodities, such as all unmanufactured foods, and calls for a larger rate of percentage when passing from the hands of the producer, either to the retail consumer or to the retail trade. Broadly speaking, though with adaptations to particular circumstances, the scheme rests on the following conditions:

(1) All Canadian raw material products as originally derived from farm, fisheries, forest and mine, shall be exempt.
(2) A tax shall be collected at the first process from raw material to consumable product and at each subsequent sale for re-manufacture and upon final sale either to retail consumer or retail dealer.
(3) All importations shall bear tax.
(4) No wholesale or retail sale for consumption shall be taxable.

It is evident at once that a vast amount of Government work will thus be eliminated. The task of collecting and checking returns over all the retail stores in Canada would be saved. Granted that the law practically compels the retailer to keep books, and that Government systems already cover the country to collect Income and Business Profits Tax, these offer no adequate reasons why an expensive and burdensome system need be continued if a simpler and more economical method can be employed.

If an adequate revenue can be raised by a reasonable tax at a few sources, it would obviously be folly to impose on the country a wide system of collection. That this can be done by a moderate extension of the present Sales Tax is obvious, inasmuch as it has been previously shown in these columns that, of an estimated requirement from a Turnover Tax of $150,000,000, the Sales Tax is at present providing approximately $100,000,000.

Apply It Gradually

Retailers have accordingly a sound basis for their contentions and are supported therein by the members of the wholesale trade in Canada, who, though recognizing the difficulties, are: "Of the opinion that such Sales Tax could be easiest collected at the fountain head, namely, from manufacturers, and on importations."

The adoption of this plan would permit, if required, a gradual extension of the Sales Tax, until its application was

Continued on page 56

C.M.A. MAKES RECOMMENDATIONS RE TAXATION

After making a study of various forms of taxation a committee of the Canadian Manufacturers' Association has made the following recommendations to the Dominion Government:

"First: That the Business Profits War Tax Act shall not be re-enacted.

"Second: That the Income War Tax Act as regards corporations shall be repealed.

"Third: That the Sales Tax now in effect in Canada be amended and extended sufficiently to provide the necessary revenue."

Importance of Accurate Accounting

Montreal Hardware Merchant Has Proved the Value of Competent Accounting Staff and Efficient System—Accurate Records Required in Hardware Business Today—Developing Trade in Builders' Supplies

A typical spring window arrangement in the Madison Hardware, Inc., windows, Montreal, the left window showing an arrangement of paints, varnishes and specialties with color cards and other advertising literature used freely. Owing to the fact that the store is located in a district which is growing fast, and where new buildings are in evidence, the sales of such lines as these are very active. The other window also shows an arrangement of seasonably active lines, including electric and oil heaters, vacuum cleaners and kitchenware. A gasoline pump is at the curb in front of the store and frequent displays of automobile accessories are shown to attract the eye of motorists stopping for gasoline.

"I PAID $40 for that ledger because our bookkeeper told me we needed a better and more up-to-date ledger to take care of our business," said J. H. Gagne, of Madison Hardware, Inc., 5952 Sherbroke Street West, Montreal, in discussing with Hardware and Metal the importance of accounting. J. H. Gagne and R. Jacob form the partnership of the Madison Hardware, Inc., both having had extensive hardware experience before joining in their enterprise, in a new store, 15 months ago. Located in a section which is being rapidly built up, this store is enjoying a growing trade in builders' hardware coupled with the needs of the incoming tenants.

"We have learned through experience that a good bookkeeping system handled by an able bookkeeper is needed to carry on a retail store successfully," continued Mr. Gagne. "We have it in such shape that with a half hour's time devoted we can ascertain just how the financial end of our business stands from month to month. Two sets of books have been supplied since we opened our store 15 months ago. The first set was found to be too small to take care of our growing trade, so we opened new and larger ones, and I will repeat that both money and attention should be given the office end of a store, whether large or small.

Book Account or Credit

"A question I have often asked myself is why should our book accounts run into so much money? Would it not be possible to cut these in half? No doubt this same question is in the minds of a great many retail merchants, it being of very great importance in these times. However, we are endeavouring to reduce these and this is again where our bookkeeper is necessary. On opening we did run quite an extensive credit business, but I believe this can be eliminated to a great extent. A line of credit will still have to be run with the contractor or builder until he has completed his building, but other than these, and a few other exceptions, I can see no reason why we should carry the public on our books, over the 30 days or 60 days, as the case may be. How familiar the terms sound "2 per cent., 30 days, 60 days, net, 7 per cent. interest on overdue accounts." If we pay to have these statements on the top of our invoices and billheads, why should we not strictly adhere to them?

After The Builders' Trade

"On opening our store a little over a year ago, we at once saw that a great demand would be shown for builders' hardware. I might say that was one of the reasons we decided on our present stand. The locality was rapidly being built up, new apartments and dwelling houses were needed to house the growing Montreal. As you will notice we give this department a very prominent position here in our store right at the front, and we find this helps a great deal in our sales. When a contractor or builder has decided to erect a dwelling in our locality he will undoubtedly call on the nearest hardware store and at least find out if he can procure just what he wants and ask for prices. It is then that we get busy and show that we do carry a stock of builders' hardware and follow up this prospect."

"Do you go out after this trade, and solicit from the outside?" asked Hardware and Metal.

"We do, in fact we have to, to secure a lot of this trade. We also keep in close touch with the building permits, and if the building to be erected is in or near this section, we lose no time in getting in touch with the owner or the contractor. Asking him to visit our store, which is conveniently situated in

his locality and letting us show him what we can do for him, both in materials and price, will in many cases obtain the order."

Following Up With The Tenants

"When the building is completed and we have supplied the hardware, paints, wall finishes, varnishes, etc., we know our business has just commenced. A new occupant will need electric bulbs, garbage can, ash can, furnace scoop, coal hod, ash sifter, etc., etc. Our show windows help us then, and we devote one window to seasonable household requirements. When settled, their requirements will continue, and sales are made of floor varnishes, wax, varnish stains, furniture polishes and many other articles for retouching and refinishing their homes. Kitchen utensils also figure among these sales, and we find aluminumware sales increasing every month.

Blotter and all Directory as Advertising Means

"When introducing our lines on opening our store we used the small envelope sized blotter with our name attached, these were handed to our customers over the counter, and were also mailed to the people in the surrounding locality. This season we have a small telephone directory, a space for telephone numbers used mostly, and our name prominently printed at the bottom. Mediums of this kind we find keep our name well to the front, and assisted by courtesy and service inside our store, help us to get our goodly share of the hardware trade.

Gasoline Pump For Auto Accessories

"Perhaps we are fortunate in being located on a highway with a tremendous road traffic. We installed a gasoline pump and find our gasoline sales have steadily increased. This, however, is not all the benefit derived from the pump. Motor accessories, especially if displayed regularly in our window directly in front of the gasoline pump, where motorists are bound to see them, we find are becoming more and more in demand through our retail hardware store."

Paint Sundries or Specialties

Directly behind the display of builders' hardware comes the paint shelving, which occupies the wall spacing from about half way down the store and right across the back wall of the front store.

"Your paint sales will run in conjunction with the other building material, will they not, as each dwelling house erected has to be painted or varnished inside and out?" asked Hardware and Metal.

"Yes," replied Mr. Gagne, "we have a good demand for paints and varnishes, but we find that paint specialties or sundries show a steadier demand. In a new section, as we have here, tenants create a large demand for the smaller inside painting sundries, such as varnish, stains, smaller sized cans of paint, etc.

Building For This Season

"Building materials are still high, however, reductions have been made on most materials from the prices of the last two years. The housing shortage is still acute, and as many new homes are needed to-day as ever, so that the spring and summer this year should be active for us. This has already been confirmed by the fact that prospective builders have been in our store asking as to prices for 1921."

Being in a growing locality, where building has been very active in recent years, builders' hardware has found a very prominent position in the Madison Hardware, Inc.

Builders' hardware and other lines which are more especially required in a comparatively new and growing district are shown herewith. The Madison Hardware, Inc., Montreal, go after building business actively, for they realize that this means not only business in builders' hardware, but it means follow-up business from the tenants for electric fixtures, paints and varnishes, kitchenware and other such lines. This display of builders' hardware, both in the showcase and on the shelves, is located right at the front of the store, where it will receive most attention. In the showcase will be seen bathroom fixtures, brushes, flashlights, etc., all lines which sell actively in this class of trade. Electric heaters, portable lamps, iron grills, etc., are also active lines and it will be noted a sample of each is close at hand for ready reference by the salesman.

Getting After the Builders' Trade

REPORTS from various parts of Canada point to an active resumption of building within the past few weeks. This article on the Madison Hardware, Inc., Montreal, outlines the success this firm has had in going after builders' trade and following it up with efforts directed toward the tenants. Here are some advertising suggestions showing how other hardware merchants are advertising for seasonable business. A March tool sale is outlined by the Mills Hardware Co., Hamilton, illustrating a large number of builders' and mechanics' tools, bathroom fixtures, paints and varnishes. These are all lines required by the handy man around the house. The ad by Sumner Co., Moncton, N.B., is addressed to the builders and deals with builders' hardware, glass, paints, etc. The ad by Baxters' Hardware, Windsor, Ont., makes an interesting point, and the ad by McAvity's, St. John, N.B., gives a number of reasons why every man should have a set of tools.

Inaugural Ceremonies At W. Walker & Son Co.

New Warehouse and Office Premises of Toronto Hardware Firm are Officially Opened With Much Enthusiasm—"Merchant of Future a Specialist"

AN enjoyable social gathering, participated in by members of the staff of W. Walker & Son, Ltd., wholesale and retail hardware, Toronto, and to which guests representative of various branches of the trade were invited, was held in connection with the opening of the firm's new warehouse. The new building greatly increases the floor space available for receiving, storing and discharging stock and the second floor is fitted with modern equipment and other facilities for the staff. This building adjoins the rear of the retail hardware building which faces on Yonge Street.

For the social evening the new offices were tastily decorated and generous use was made of cards with brief messages emphasizing some of the principles to which the firm owes much of the success in its development in the hardware field.

With a brief address outlining the development of the firm and its aims for the future, W. A. Walker showed by means of illustrations how the business had grown in the past eighteen years. He compared the sales of $4,724.40 of 1903 with the sales of over half a million dollars in 1920, and also the various stages in the expansion of the firm as evident from figures showing that in 1903 the floor space amounted to 128 square feet as compared with 21,560 square feet now provided. Mr. Walker also illustrated how the business was now subdivided so that various departments came under the charge of W. I. Walker, W. J. Shaw and O. C. James, respectively.

Official Opening

C. G. Knott, sales representative in Toronto of the Steel Company of Canada, officially opened the new premises and in a few well-chosen words congratulated the management upon their foresight in making plans for such development and stated that with the expected development of the city the new building would at some future time be well in the heart of the city. Mr. Knott had figured it out that the Walker business had grown 169 times, in respect to area, since 1903. He left it to the gathering to imagine what the dimensions of the business would be ten or twenty years hence if development continued on the same scale.

Ideas Are Wanted

This was followed by an instructive address dealing with business conditions and the relations of employer and employee, by H. T. Hunter, vice-president the MacLean Publishing Company. In congratulating the firm upon its development and the completeness of its new premises and equipment, Mr. Hunter emphasized the importance of the right spirit among the personnel of the staff and expressed the opinion that the evident enthusiasm among members of the staff would no doubt result in the best use being made of the equipment.

"We are travelling through times, today, when the ownership of a business is not all velvet," said Mr. Hunter, "and there are problems to-day that we did not have a year ago or two years ago. In those years it was not difficult in many lines to make money, and the result was that we got a good deal of waste and inefficiency, but this is being sifted out. There are problems for the owner of the business when the store closes at six o'clock at night and he depends to some extent upon his staff for ideas. In giving this assistance the members of the staff are not only working for the firm but for themselves. Every member of the staff should consider they own the business, that is how a man becomes an owner.

Merchant a Specialist

"There has been much outcry against the merchant. In the past few years much has been said about the high prices and profits of merchants. The merchants themselves have done much to dissipate that idea but the impression still remains and we have got to look to the merchants themselves to explain their position, to show that they are performing a real service in the community; that it is a distinct advantage to be able to get the service rendered by retailers. If customers bought direct from the manufacturer to save the profits of the middleman, look at the inconvenience. The day of the merchant is not passing, but rather we are coming to the time when the merchant will be a specialist. To-day we have better merchants than before. You ask for hardware and you find the merchant is usually a specialist and is acquainted with the goods. We are coming to the time when the merchant will occupy a bigger position. I believe there will be fewer merchants as the inefficient are weeded out."

Business Conditions Not So Bad

Evidence was hereupon produced by Mr. Hunter pointing out that business conditions were not as bad as was generally thought, that progressive merchants were having just as big a turnover as last year but that manufacturers were not yet experiencing this revival in trade due to the fact that whereas formerly merchants ordered five or six months ahead they are now buying only as they require the goods.

Mr. Shields, R. G. Dun Company, Toronto, spoke briefly on the importance in these times of men in the selling end of the business paying strict attention to the securing of definite information as to the advisability of extending credit accommodation.

Games were indulged in enthusiastically by the members of the staff and guests, followed by a dance, and the proceedings were concluded with a tasty luncheon.

Group showing members of the staff of W. Walker and Son, Ltd., wholesale and retail hardware, Toronto, at the recent gathering in connection with the opening of the firm's new warehouse and office premises. The view shows a corner of the new office. Standing at the back, from left to right, are: C. G. Knott, the Steel Company of Canada; Mr. Shields, R. G. Dun and Company, and W. A. Walker.

Make Taxation Suggestions

IN the preparation of the Federal Budget and in making a decision as to the form of taxation to follow the Luxury Tax and possibly the Excess Profits Tax, the Minister of Finance is said to be in a receptive mood for suggestions from retail merchants. No doubt the tremendous influence exerted by this branch of business in connection with adjusting taxation matters last year has shown the Government that the opinions of retail merchants are valuable and must be considered in any matter which so vitally affects retail distribution.

It is therefore up to the retailers to get together and discuss the matter intelligently so that some constructive suggestions can be offered. Meetings of retailers, wholesalers and manufacturers are being arranged in Toronto and elsewhere within the next few days to discuss the matter from all angles and the voice of retail merchants in all parts of the country should be, if possible, of one accord. In the past when an opinion from the retailers has been asked for by the Government, various sections of the trade insisted on speaking for themselves and the result was that there was a discordant note which was given no attention. The Minister of Finance has again stated that attention will only be given where the retail trade of Canada is represented with one voice and where recommendations are made on which the great majority of merchants are agreed.

In order to assist in an intelligent consideration of the merits and demerits of the Turnover Tax which has been suggested to meet the requirements, Hardware and Metal is publishing a series of articles which deal in detail with the various points which affect the retail trade. This series commenced in the March 19th issue. Before going fully into the question, in company with other merchants, it would be well for the hardware merchant to keep himself posted on the details by a reading of these articles which have appeared in past issues.

One thing is sure, the money has to be collected to pay the country's debts. That money must be raised by taxation, part of which must be raised from a tax on some section of business. Merchants, whether retail or wholesale, must not let a desire to escape responsibility guide them in supporting one or another form of taxation. The best plan will be to place the tax where it will cause the least interference with the usual trend of business and especially with the actual sale of the goods over the retailers' counters.

Death Knell of Co-operative Stores

CO-OPERATIVE societies are organized by a group of non-business people, who, continually raving at the price charged by retail merchants, band themselves into a society and subscribe a certain sum by selling shares to form the capital with which to operate a retail store. Just how successful—or unsuccessful—these co-operative institutions usually turn out to be is interestingly set forth in the recent report of the Stratford Co-Operative Society.

The Stratford Co-Operative Society was founded about one year ago by a group of men composed of members of the local labor union, particularly the railroad section, a class of labor that has been drawing down a larger scale of wages than any other class of labor, certainly far larger than the average retailer. The labor union, claiming that the retailers were the cause of the high prices, set about to "remedy this evil" by starting a store of their own. They issued stock at $10 per share and a certain amount was subscribed. The first six months' report showed a net loss of something like $250 and the directors promptly "let out" the manager, claiming that it was through his mismanagement that the loss was incurred. Another manager was appointed, and this manager, probably being "egged on" by the directors to increase the turnover, promptly proceeded to do just that by cutting prices (at least so it is said), and we can safely presume so, as the report for the last six months shows a "handsome" gross profit of $1,557.28 on a turnover of $32,574.88. In other words, a gross margin of profit of 4.78 2-3 per cent. Certainly this is very illuminating, and the report also shows that the cost of doing business was 17.32 1-3 per cent., which netted the society a loss of $4,956.51 for the six months' period.

The directors attribute this loss to the "extraordinary lack of loyalty to their own institution shown by the people who own the business." In stating this, directors have stated the fact that has been the death knell of practically all the co-operative stores that have ever been organized, at least in Canada.

Accurate Records

IN order to profitably conduct a retail hardware business under present conditions one of the most essential things is for the owner to have within easy reach at all times a definite record of the business showing exactly how everything stands. This point is emphasized by a hardware merchant of Montreal whose experiences in this matter are outlined elsewhere in this issue. As in his case, an expenditure on accounting systems, which, at first glance may seem perfectly out of proportion, may prove to be worth many times the amount spent if the result is to provide such definite data that a clear course may be steered past the many pitfalls which beset the merchants' path when the market is in such condition as at present.

The consensus of opinion seems to be that turnover is suffering little if any, but of course profits are in many cases not as great as in the prosperous times of the last few years. It is evident therefore that care must be taken in buying and the stock closely watched to establish which are the lines mostly in demand. This is no time to keep slow movers in the stock for price declines may wipe out all the profit on them before they are moved. Another important point to remember is that every day the stock stays on the shelves adds further overhead charges against that stock and in these times it will not be long until failure to move this stock results in it representing a loss whether sold or not.

It is only by the keeping of accurate records which readily show all these facts that the necessary close watch can be kept on the business.

News of Western Canada

Robert Hobson Chosen President W. C. C. A.

President The Steel Company of Canada, Hamilton, Ont., Thought to Fittingly Represent Eastern Interests, Will Head the Western Canada Colonization Association

WINNIPEG. — The problem of bringing in more settlers to Western Canada and of thus speeding the development of this country will in future be handled in more effective manner by the Western Canada Colonization Association. Federal charter under which it is to operate has been granted and the chief executive officers have been appointed.

At a special meeting of the directors held in Saskatoon, Robt Hobson, President the Steel Company of Canada, Hamilton, Ont., was elected president and chairman of the board; M. A. Brown, of Medicine Hat, Alberta, vice-president and chairman of the executive committee and Major-Gen. A. D. McRae, of Vancouver, managing director. The association will operate with Winnnipeg as headquarters.

The officers of the association have in mind the increasing of the population of Western Canada and increasing the production of the Western Provinces. It is expected that the settlement of people along the lines of the Canadian National Railways will also help to lighten the burden of the national debt by providing more revenue for the railway.

Mr. Hobson was considered by the directors to fittingly represent Eastern interests which have assisted generously in financing the movement.

Those allied with the hardware trade have been more or less prominent throughout the existence of this organization, J. H. Ashdown, head of the J. H. Ashdown Hardware Company, was identified with the early formation of the organization and now Mr. Hobson becomes its active leader.

Resolution Favors Turnover Tax

Regina, Sask.—The resolution passed last week by the Retail Merchants' Association of Regina, favoring the establishment of a general tax on turnover to be applied to all business and professional men for the purpose of paying Canada's war debt, has been sent to the provincial headquarters in Saskatoon. According to Secretary Raymond the resolution will be sent from the provincial office to the various branches of the R.M.A. throughout Saskatchewan and a copy will also be forwarded to Ottawa.

The regular meeting of the Regina R. M. A. was held on Thursday of this week.

B. C. Credit Conditions Good

R. D. Dinning, manager of the Vancouver branch of the Canadian Credit Men's Trust Association, stated, in conversation with Hardware and Metal, that the credit condition throughout the province is good.

The retailers, according to this authority are carrying considerably less on their books than was the case in 1913. In fact, the jobbers are finding collections in much better shape than during the last period of depression.

Mr. Dinning, stating his own opinion, claimed that the present improved credit situation was due to the reserve of buying power shown by the amount of Victory bonds absorbed by this province.

Good Business Activity in Regina

Regina, Sask.—Armstrong, Smyth & have been more or less prominent Dowswell, hardware, report an exceptionally good year in the sale of electric sion cord, attachment plugs and such small electrical goods are also reported to have an active sale in this store.

In regard to automobile accessories this firm reports that a distinct movement is now commencing, and in the case of this store accessories are now in the forefront by the use of a showcase and table in the centre of the floor for heavy goods, such as jack pumps, etc. This firm contemplates a good year in accessories and an early start is being made by the arrangement of attractive window displays.

For the past two weeks a tool window has been on display in this store and it is stated to have fully paid, because with the opening of spring building prospects in Regina and district are said to be good. Many basements are being dug and foundations being laid. Wall finishes and other specialties are also reported to be having a good sale as the spring housecleaning season gets under way, many people desiring to get this job over around Easter time.

New Westminster, B.C., Co-operative Society Elect New Officers

New Westminster, B.C. — The New Westminster and District Co-operative Society was organized recently in the Labor Temple as an independent unit. New officers were elected and the local co-operative store was purchased outright on a cash basis. The local society will now conduct the co-operative retail business undertaking on its own responsibility.

The officers were elected as follows: President, D. MacDonald; vice-president, T. Smith; secretary-treasurer, F. Brown; chairman of organization, W. A. Bowcott; chairman of educational committee, Mrs. T. A. Barnard; chairman of auditing committee, W. Adams; chairman of social committee, Mrs. H. Edmonds. Steps were taken to secure incorporation.

Regina Merchants Discuss Taxes

The Retail Merchants' Association, of Regina, placed itself on record as approving of the principle of a tax on the turnover of all business and professional men, not to exceed one per cent. of the total turnover.

The motion was to the effect that all individuals or corporations desirous of taking up a business or profession in Canada should be required to take out a license from the office of the Collector of Inland Revenue, at a nominal figure, that every licensee should be required to keep an account of the amount of business done by him, and that at the end of each month he should be required to remit such a percentage of his profits as the government should see fit, this not to exceed one per cent. and that no exemption be granted from the tax.

Western Notes

Calgary, Alta.—Fire has destroyed the premises of the Blackie Hardware Co.

* * *

Punnichy, Sask.—The hardware and furniture business of L. M. Zavitz has been purchased by R. C. Mitten, of Saskatoon. The business will be called "The Punnichy Hardware" and will be under the management of F. J. Akitt.

Events in the Trade

Annual Meeting of C.M.A.

Alexandria, Ont.—David Courville is discontinuing hardware and furniture business.

Chatham, Ont.—F. E. Thompson has bought out the heating and tinsmithing department of Willard Hardware Co. Mr. Thompson was in charge of this department of the Willard Hardware Co. for the past ten years.

Perth, Ont.—The hardware business conducted for many years by James & Reid will in future be continued by George S. James and Lawrence James and will be known as James Bros.' hardware. D. W. Reid is retiring from the business. The firm started business over twenty-five years ago. Geo. S. James started out as a hardware clerk for Warren & McCarthy at the same corner as the present store occupies. Lawrence James entered the firm later, having commenced as clerk and salesman.

New Firms

Halifax, N.S.—T. L. MacDonald, formerly connected with Wm. Stairs, Son & Morrow, Limited, Halifax, has opened a retail store at 30 Spring Garden Road.

Burks Falls, Ont.—Beals & Ford have commenced hardware business in the Davison Block.

Obituary

Montreal.—The death is announced of C. A. Parent, one of the leading and oldest hardware merchants of Quebec city. Mr. Dunlop, of Canadian Tube & Iron Co.; F. Perego, of Steel Company of Canada; and J. R. Terrill, of Caverhill, Learmont & Co., were among those attending the funeral from Montreal.

* * *

The death is announced of C. J. Hescott, for eight years associated with the Northern Aluminum Co., Toronto, and the same organization in the United States under the name of the Aluminum Cooking Utensil Co. Mr. Hescott recently acted in the capacity of special representative for the company, handling personally some of the company's larger accounts in various parts of Canada. He had been ailing since January as a result of an attack of influenza, and died of pneumonia. He had been married only a year and a half and leaves a widow. Officials of the Northern Aluminum Co. speak of the high qualities of character and selling ability of the deceased.

Personals

S. W. Smith, manager Maritime Division, Brandram-Henderson, Limited, is visiting Montreal for a few days.

* * *

Colin J. McLeod, West Indies representative, McArthur-Irwin, Ltd., with headquarters at Georgetown, Demerara, is visiting his principals in Montreal.

* * *

Norman Holland, Holland Varnish Co., Ltd., is sailing on March 26th. He will visit England, France, Belgium and Germany and expects to return some time in May.

* * *

J. E. Lyons, of Caverhill, Learmont & Co., will fill the vacancy caused by the death of George Browne and will call on the hardware trade in the Eastern Townships and Quebec. Mr. Lyons is one of the firm's most experienced employees.

Burglars Enter Starke-Seybold Co.

Montreal.—A robbery, having its own significance in these times of burglaries and acts of violence, was committed in the show rooms of Starke-Seybold, Ltd., when sixteen revolvers of different calibres were stolen.

Entrance was gained from the roof of a low building adjoining the premises of the above firm, which is about six feet below the second story windows. A window of one of the offices was pried open, and outside this office is a locked showcase in which sample revolvers, razors, etc., are on display. The burglars opened this and stole all the revolvers with the exception of four which evidently could not be reached.

Immediately behind this show case is a wall case containing samples of rifles. These were left, although the glass door was broken. Another case showing flashlights was also broken but nothing taken. The burglars made their escape the same way as entrance was gained, as tags which had been on the revolvers were found on the roof of the adjoining building.

Incorporations

Openshaw & Bennett, Ltd., has been incorporated to buy, sell, manufacture and deal in iron, steel and other metals and in minerals, mechanical and electrical supplies, hardware, machinery, tools, etc. Capital is $50,000 and head office is in Montreal.

Annual Meeting of C.M.A.

The annual general meeting of the Canadian Manufacturers' Association will be held in the Chateau Frontenac, City of Quebec, June 7th, 8th and 9th, 1921.

Addition to Plant

New additions have recently been made to the plant of Smith & Hemenway Co., Inc., Irvington, N.J., manufacturers of "Red Devil" tools.

Cowan Hardware Employees Have Social Evening

London, Ont.—A very enjoyable time was spent when the employees of the Cowan Hardware, Ltd., London, were the guests at a supper given to them by the firm. Before adjourning for supper and social purposes the regular monthly store meeting was held for business and a number of good suggestions were acted upon for the coming spring business. Misses Madeline and Dora Chapman rendered solos acceptably, while Miss Verna Parkins recited with her usual aplomb. Geo. Clements outlined the scenario of a movie play which he is writing. At the close of the evening substantial bonuses were distributed to each one of the twenty-one members of the staff.

Reorganizing British Empire Steel Corporation

Important changes and a reduction of almost two-thirds in the total assets are shown in a revised balance-sheet of the British Empire Steel Corporation, which is now being prepared for consideration in its modified form by the shareholders of the three companies it is proposed to include. These companies are Dominion Steel Corporation, Nova Scotia Steel & Coal Company and Halifax Shipyards. In addition to these three, it was originally proposed to include some half dozen other enterprises, the largest of which was Canada Steamships. Total assets under the balance-sheet prepared in July last for the larger merger were $474,016,350, while the total under the new scheem is $168,736,285. It has been stated that the original charter, with an authorized capital of $500,000,000, would be retained, partly because the charter itself cost $75,000 cash, and partly because the British interests in the merger preferred to retain the name with which the enterprise started out last year.

Western Ontario News

George R. Wood has opened a tinsmithing and general repair shop on Water St., St. Marys.

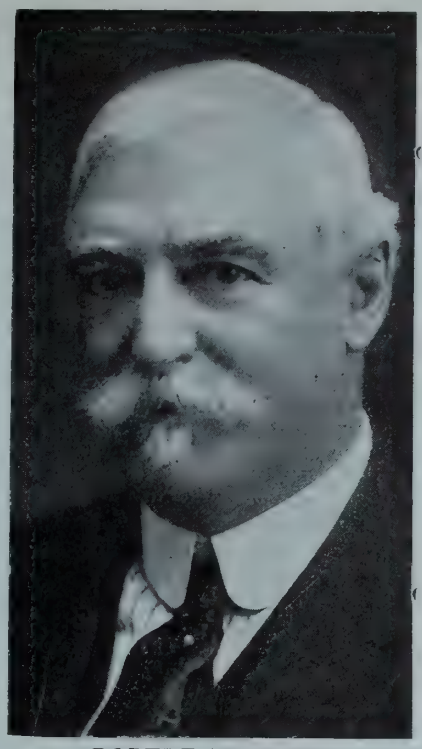
Early Display of Baseball Goods



Montreal.—A good deal of interest among young men and boys is being shown outside a window display of a local store on one of the main thoroughfares of Montreal. This window trim is a display of baseball goods and sundries.

Passing the window with the weather well down below the freezing point, some might consider baseball goods at this season more of a "space filler" than a business getter." But the proprietor on the inside does not think so and judging from the boys who have their faces well up to the glass looking in, he is right. When asked by Hardware and Metal if results were obtained from early displays of this kind, he stated, "We do not get actual sales for baseball goods at this season, and can hardly expect them. We do get results all right, but have to wait until next month to obtain them. The window is a reminder that the baseball season opens in Montreal the middle of next month."

When the season does open, permitting these boys to get on the different diamonds in parks and school grounds, they will not forget where they saw the early display of balls, gloves, mitts and bats.

English Electric Company Extending to Canada

A report from the Old Country is to the effect that the English Electric Company, which is making plans to extend operations to Canada, for which purpose Gordon F. Perry, president of the National Iron Corporation, has been appointed chairman of the Canadian Board of the English Electric Co., will shortly erect a factory in Toronto. This company is said to be one of the largest manufacturers of electrical machinery and equipment in the British Empire. It includes a number of influential English electrical firms.

ROBERT HOBSON

President the Steel Company of Canada, Hamilton, Ont., who was chosen as president of the Western Canada Colonization Association at its recent meeting in Saskatoon. It was thought Mr. Hobson fittingly represented Eastern interests which have helped to finance this plan of aiding the settlement and increasing the production of the Western Provinces.

Trade Agents In U. S. A.

Ottawa.—Representations that Canada should appoint trade agents in the United States are, it is understood, receiving the serious consideration of Sir George Foster, Minister of Trade and Commerce.

Annual Meeting of Nelson R.M.A.

Nelson, B. C., March 22.—The first annual meeting of the Nelson branch of the Retail Merchants' Association was held recently. Officers for the year were named, and the executive committee was named a canvassing committee to urge on all local retailers the advisability of getting into the association.

With the exception of A. T. Walley, who was elected first vice-president, all of last year's officers were re-elected. They were: President, W. J. Meigher; first vice-president, A. T. Walley; second vice-president, R. Andrew; treasurer, L. H. Choquette; honorary secretary, Ross Fleming; secretary, E. F. Gigot. The officers with the exception of E. F. Gigot, form the executive committee.

The matter of advancing the time one hour during the summer months was brought up and disposed of by a resolution advising the city council that the retailers were in favor of advancing clocks one hour from May 1 until October 1 inclusive, providing the scheme was generally favored throughout the dominion. The secretary was instructed to forward a copy of the resolution to the provincial executive of the association.

Canadian Traders Take Risk

Ottawa.—Signature of a trade treaty between Great Britain and Russia does not, it is stated, affect the position of the Dominion government, so far as commercial relations with the Soviet republic are concerned. The stand taken by the Dominion government, as heretofore, is that any Canadian who wishes to trade with Russia may do so, but at his own risk.

Biggest Dollar Day on Record

Moncton, N.B., Merchants Hold Successful Sale of Dollar Day Bargains and Report It as Most Successful on Record

MONCTON, N.B.—Despite pessimistic predictions the annual Dollar Day Sale of local merchants proved to be the best the Retail Merchants' Association have had so far. Though it is harder than it was a few years ago to find hardware that can be offered on a dollar day bargain counter, the hardware stores were right to the front and attractive window displays and large newspaper advertisements successfully tempted the buying public with such genuine bargains as polishing mops, two lanterns, bucksaw and file, nail hammer, combination hatchet, 15 rolls of toilet paper, 3 English chisels, English razor, pocket-knife, pair 5-inch nickelled scissors, pair 8-inch japanned scissors, pair carvers, etc. Ten per cent. was given off all other shelf goods—with the exception of those with fixed prices—20 per cent. off tinware, graniteware, china cut glass, aluminum, Pyrex and such lines. Combination sets for the kitchen containing 7 pieces regular price $1.50 for $1 proved popular. G. V. White, of Sumner Co., Ltd., was chairman of the Retail Merchants' Association advertising committee.

No Daylight Saving In Halifax

Halifax, N.S.—Owing to strong opposition from the labor organizations the city council decided not to put daylight saving into force in Halifax this year.

Moncton, N.B.—F. R. Sumner and R. P. Dickson, president and manager, respectively, of Sumner Co., Ltd., are on a visit to Upper Canada calling on various manufacturing centres.

Charles M. Schwab on European Conditions

Thrift and Industry Allowing Germany to Make Big Strides—Thinks Steel Prices Are "About Right"

CHARLES M. SCHWAB, arriving in the U. S. after six weeks spent in France and Italy, said:

"I take an optimistic view of the European situation. Things are opening up gradually. All I can say as to whether Germany can pay the reparations total demanded by the Allies is that she is making more rapid strides than is commonly believed. Thrift and industry in Germany will go a long way toward a rapid economic recovery. The people are trained to efficiency. Although I did not get into Germany this is my observation. France, Italy and England are gradually recovering.

"I did not close any contracts for Bethlehem Company while abroad as I did not go with that intention.

"As to whether or not we should have a higher tariff on steel to prevent the unloading of products from Germany and other European countries, all I can say is that I believe we should have a higher tariff on finished products."

When asked whether he thought Europe would be able to raise money for the purchase of steel and other American products, Mr. Schwab said he did not think this could be done at once. In answer to the question as to whether he thought steel prices were about as low as they will go, he said that he thought present prices were about right, all things being considered. "As to the question of there being too much steel capacity in the United States," he said, "we must keep in mind that many new concerns sprang up in the period of emergency, which will not be necessary under normal conditions."

Mr. Schwab was asked whether he considered that the large independents would eventually have to merge in order to safeguard against foreign competition and compete with the lower costs of the corporation. He answered this question, saying the bigger the business the more economically it could be conducted. While he would not express himself directly as predicting a merger of independents he emphasized the point that economic production is the important thing in the future and this could be accomplished more thoroughly by big business.

"Business Improvement Is Ahead"

Brokerage House in Western Canada Shows Aggressive, Optimistic Attitude in Regard to Business Conditions—1921 the "Go-Get-It" Year

WINNIPEG.—A Western Canada firm of brokers in Winnipeg has sent out a circular letter in regard to business conditions that has caused wide comment on account of its aggressive and optimistic tone. It is entitled "Business Improvement" and reads in part as follows:

"In spite of a new revolution in Russia, critical conditions in Poland and Roumania, Austria starving, Germany frankly adopting a course which can only lead to a new crisis, and a new administration just taking the reins in the United States—a business improvement is ahead.

"In fact the advance guard of same has arrived and already the general trade has awakened from the depression of the past few months, and are putting their houses in order for the coming increase in business. The lines that have taken the greatest slump and have shown the greatest inactivity will be the first to resume conditions bordering on normal.

1921—The "Go-Get-It" Year

"There are too many pessimists in business. The men who are complaining that everything is going to the dogs have got the wrong idea altogether. Every merchant who can look back over a career of any length must know that there is nothing particularly abnormal about the state of affairs that we have been passing through. The good old rule of supply and demand is still on the job and working right now. In fact, all things considered, the inevitable period of trade depression is being weathered much better than might reasonably have been expected.

"Business, in short, has come down out of the clouds and has its feet on the ground. Consequently, there will be no panic, nor even any serious trouble. The epidemic of public extravagance did not last long enough to be followed by any lengthy period of hard times. The buying capacity of Western Canada has not been impaired.

"Fortune awaits the man who puts brains and energy into the quest. The future is the time when business skill, foresight and courage are being put to the test. The reckless and inexperienced may suffer, but the prudent and capable have no need to fear. In addition to distributing products—we also distribute a 100 per cent. brand of optimism."

MUST FACE PERIOD OF COMPETITION

Continued from page 34

have had a boomerang effect. They have increased greatly the price of commodities and have killed off new enterprises and business extensions which would have given employment to many men who to-day find themselves out of work.

B. C. Forbes tells of an instance illustrating this point. Eight hundred sales agents and salesmen from all parts of the United States and Canada had recently gathered in a great convention hall. Several had complained that their territories were completely worked out and they needed new ones. Had this sort of talk been allowed to gather momentum the whole assembly might have been headed towards gloomy depression and despondency, probably with incalculably harmful after effects. Quick as a flash the senior executive leaped to the platform and shouted, "I'm going to stop this convention to get a shoe shine—call in a bootblack."

The dropping of a bombshell could not have produced a greater sensation. It was known that the convention was costing the company at least $250 per minute, yet the whole proceedings were halted in order that one man might get his shoes polished. In came the bootblack and while eight hundred men watched he did his work. It took five minutes. The shoe shine, therefore, cost $1,250.

The man whose shoes had been shined then said, in effect: "Both of the two bootblacks who preceded this fellow failed to earn even the $4 a day guaranteed by the company. The company every week had to make up the deficit. Then came this bootblack. He had no more prospects than the others, no larger territory, no better conditions of any kind; yet this bootblack earns from eleven to seventeen dollars per day. Gentlemen," he shouted, "it is not territory that counts—it is the man."

This is the spirit we need to-day and if it goes hand in hand with other efficient methods of production we need not fear the keen competition that lies ahead.

Advertising Doubly Beneficial

It is a peculiar fact that advertising is curtailed during any period of depression. I believe the reason for this is that business men expect either too much or too little from their advertising. Advertising is particularly valuable at this time because it not only performs the usual function of increasing sales and rendering more efficient all other departments of the organiaztion, but every advertisement calls aloud to the public that here is one firm going on record that it actually expects to do business. During the so-called buyers' strike many wholesale, retail and manufacturing firms called together their sales staffs and tried to inject pep into them and then flatly contradicted themselves by cancelling their advertising and thus saying plainly they really had no ex-

Twenty Years Ago

Items of interest reprinted from Hardware and Metal of March 30, 1901:

"To the wholesale and retail hardware merchants of Montreal the importance of the conference that took place last Thursday cannot be overestimated. The members of the retail association have succeeded in placing their grievances in their true light before the tribunal of wholesale merchants who have promised to do their utmost to mete out a full measure of justice."

* * *

"When President Martineau took the chair at the meeting of the wholesale and retail hardware merchants, he found around him the representatives of five wholesale firms: G. C. Caverhill, of Caverhill, Learmont & Co.; W. Starke, of Howden, Starke & Co.; A. M. St. Arnaud, of The Canada Harness Co.; John P. Seybold, of The Seybold & Sons Co. and A. Jeanotte, of L. H. Hebert & Co."

* * *

"The Mowat Hardware Co., of Trenton, Ont., have been incorporated with $10,000 capital stock."

* * *

"The Chatham, Ont., Binder Twine Co., Ltd., have been incorporated with $125,000 capital stock."

* * *

"The annual report of the secretary-treasurer shows that the Canada Paint Co.'s hockey club, Montreal, has had a successful season, winning eight games, losing two and three ending in a draw. Following were the players: W. Lamont, D. Brown, H. Stubbs, A. J. Munro, D. Miller, A. Russell, W. Spiers, T. Lawlor, R. Campbell and J. P. Milloy."

* * *

"The Canadian General Electric Co., Peterborough and Toronto, have secured 30 acres of land in Toronto Junction, where they first intend to erect a large general foundry to be followed by a pipe foundry."

* * *

"In the Ontario Legislature, Hon. John Dryden introduced a bill to amend the Shops' Regulation Act, one clause of which intended to place the onus of providing sanitary appliances on the owner rather than the tenant of the premises."

To Protest New Firearms Legislation

Hardware Retailers and Wholesalers Gather in Hamilton, Ont., to Discuss New Legislation—Deputation to Make Protest to Department of Justice

A MEETING of the executive of the Canadian Wholesale Hardware Association and the executive of the Ontario Retail Hardware Association was held in Hamilton, Ont., to discuss the new firearms legislation which has recently been outlined in Hardware and Metal. After a discussion covering the various phases of the matter it was decided that a deputation composed of executive members of the Ontario Retail Hardware Association should wait upon the Department of Justice at Ottawa with a view to having some of the restrictions on shot guns and rifles removed.

Under the present law it is exceedingly difficult, particularly during the hunting season, for hunters to go from one locality to another and it is felt arrangements can be made to eliminate many of the objectionable features of the Act.

Canadian Business to Get Start on U.S.

Production Superintendent of Peterboro' Works of Canadian General Electric Co.—More Liberal Purchase of Gilt-edge Canadian Securities in U.S. Would Help Adjust Exchange.

NEW YORK.—G. W. Gilman, production superintendent of the Peterboro works of the Canadian General Electric Company, with head offices in Toronto, is in the city to call on a number of large securities companies to urge them to send representatives into Canada to make a study of Canadian securities and present results of the survey to the public of the United States.

The Canadian securities, Mr. Gilman said, are splendid investments, yielding handsome returns, and their liberal purchase in this country will release in Canada millions of dollars that are needed for the development and expansion of the vast natural resources of that country.

Through the extensive sale of Canadian securities in this country the exchange rate will be lowered, Mr. Gilman said, greatly increasing the exports from this country into Canada. The present 15 per cent. difference in the exchange rate, he said, is causing a loss of much business that the United States would otherwise get. He believes this difference could be cut in two by a more liberal purchase of Canadian securities.

Mr. Gilman said that Canada was on the eve of a big business boom, and he predicted it would start in that country before it did in this country, "because," as he said, "of the backing natural resources always give to everything."

He said Canada was getting the best class of immigrants from every country, especially from the northwestern part of the United States.

DAYLIGHT SAVING WILL BE IN FORCE IN MONTREAL

Montreal, March 21.—From Sunday, May 1, to Sunday, October 2, daylight saving will be in force in the city of Montreal, according to the decision of the Administrative Commission. The city authorities will adopt shortly a formal resolution notifying the general public of the change of time by which it is proposed that timepieces be set one hour ahead during the period mentioned.

The Chambre de Commerce of Montreal have passed a resolution favoring daylight saving, and a committee composed of C. H. Catelli, F. E. Fontaine, Joseph Ethier and A. Prud'homme was appointed to wait upon the civic authorities and bring the recommendation to their notice.

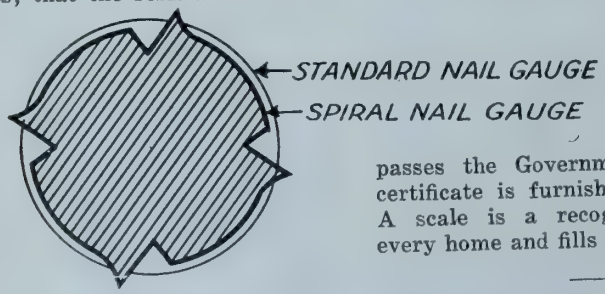
OTTAWA MERCHANTS

Continued from page 33

made up their minds to pass the buck and the retailers were to be the goats. The wholesalers were trying to unload their goods with as little loss as possible, while the retailers were selling their stuff with very little profit.

Fred Palen, local merchant tailor and a member of the association, who is being prosecuted by the Government in connection with the payment of the manufacturer's tax was present and took part in the discussion. In addition to being a prominent merchant, Mr. Palen is a returned soldier.

New Hardware Goods



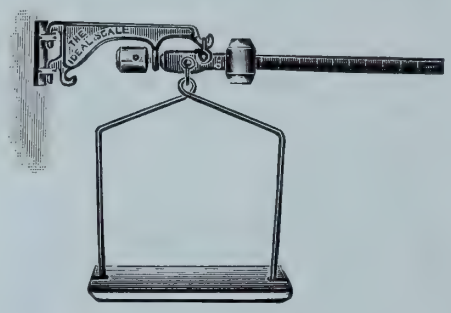
OFFERED TO CANADIAN HARDWAREMEN

SPIRAL WIRE NAIL

The Spiral Nail Company, of Canada, 116 Maitland St., Toronto, is marketing a spiral grooved nail as illustrated herewith. This type of wire nail has its circumference rifled with elongated grooves and ridges, said to be so constructed that wood may be penetrated with the least possible damage to the fibre. According to tests made by Professor Young, of Toronto University, the nail is said to have a better point than the ordinary nail, allowing it to be readily set by hand into position, to drive easier than the ordinary nail by at least 40 per cent; to hold better in direct tensile by more than 60 per cent; to be equal or a little stronger in shear; to be cheaper than the ordinary standard nail on account of there being more spiral nails to the pound. The price for the spiral nail is $1.00 above base per keg of 100 lbs. and on account of there being more nails to the pound it is said to figure out about 70 cents per keg cheaper than a 100 lb. keg of standard wire nails.

The makers state that in the tests it was noted that the spiral nails rotated proportionate to the pitch of the grooving when driven. This was said to be the case when the nail was driven either across or along the grain of the wood. The conclusions drawn by the company from the tests were that it takes at least 40 per cent. more energy to drive the plain nail than to drive the spiral ones; that the resistance to withdrawal in direct tension is much greater for the spiral nail, and that for 4-inch nails the shear resistances are about equal.

Enlarged Sectional View

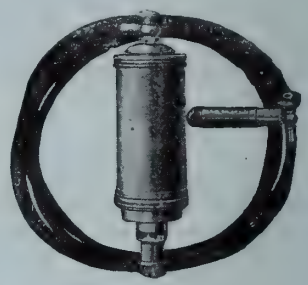


"WRICO" CONTRACTOR'S PAIL

A new galvanized pail, suitable for contractor's use, is now put on the market by the manufacturers, the E. T. Wright Mfg. Co., Ltd., Hamilton, Ont., the makers of the well known "Wrico" line.

The makers state that this pail is of exceptional strength and is well adapted to stand rough usage, and to handle heavy materials, such as sand, cement, gravel, crushed stone, and other building materials of similar nature. It has heavy 1-inch band iron rim around the top and also the foot. The ears are of forged steel and are rivetted strongly to the body. The pail heavily galvanized and is striped in blue.

IDEAL HOUSEHOLD SCALE



What the hardware trade has long been looking for is the claim advanced by Braun & Bonnick, Ltd., 86 John St., Toronto, Ont., for the Ideal household scale manufactured by them.

The Ideal, as can be seen from the illustration, is a beam scale. The capacity is 16 pounds, graduated to ounces. The beam is 12½ inches long, and is made of solid brass. The Ideal is said to be a low priced, accurate scale, and passes the Government inspection. A certificate is furnished with each scale. A scale is a recognized necessity in every home and fills many uses.

"UTILITY" SAFETY-GAUGE TIRE PUMP

It has been stated that 90 per cent. of tire trouble can be traced to improper inflation, and the Utility tire pump has been designed to give the correct factory pressure to the tire. With the Utility safety gauge pump it is claimed that it is impossible to over-inflate a tire. The Utility safety gauge is a combination pressure gauge and safety valve. To operate, set the gauge to the proper pressure recommended for the tire and attach pump to any convenient spark plug opening and start the motor. When the correct pressure is reached inflation automatically stops, it is stated, and the safety gauge emits a sharp piercing blast till removed, and not a pound of excess air can get into the tire. One model fits all cars except Fords, for which a special model is made, called the Utility Junior. The barrel and piston of the pump is made of brass, the safety gauge is of bar brass with engraved pressure scale, 50 to 100 lbs. in 5-lb. units. Ten feet of braid-covered rubber hose, tested to 1,000 lbs., is supplied with pump, which weighs 4½ pounds, packed for mailing. Enquiries should be made to the Hill Pump Valve Co., Belmont and Knox Avenue, Chicago, Ill., or the Zinke Company, 1323 S. Michigan Avenue, Chicago, Ill.

"Utility" Tire Pump

"ROSOR" MATCH STRIKER

The Hamilton Mirror Plate Co., Hamilton, Ont., is making a match striker which they called the "Rosor." This is especially adapted for automobiles, and was described in the March 19th issue of Hardware and Metal. Cut showing the same is shown herewith.

"Rosor" Match Striker

Weekly Hardware Market Reports

STATEMENTS FROM BUYING CENTRES

MARKETS AT A GLANCE

PRICES continue to decline slightly on various hardware lines, but there is a steadier tendency in the primary markets. Reductions have been made in the prices of tee and strap hinges, wrought butts, cistern pumps, sash weights, soldering coppers, shoe thread, car movers, English cast hollowware, mop wringers, cast washers, draw knives and chisels, glaziers' points and picture wire. Lower prices are also quoted on tacks. A new shoe finders' list is in preparation. Nail quotations are nominally unchanged although some slightly lower quotations are made by some wholesalers. Prices are being revised on heating stoves and new lists are not yet available, but it is understood that some lines are reduced slightly. Further small declines are made in prices of turpentine, linseed oil, rosin and shellacs. Lower quotations are being made on English standard galvanized sheets, and some makes of drill steel are also reduced. Wrought pipe and fittings are held unchanged and quotations on lead and zinc products are steadier. A little better demand is shown in the ingot metal market and prices are practically unchanged with a firmer tendency.

In outside steel markets a little more business is reported and the improvement, though small, is regarded as a beginning. Pittsburgh reports indicate that steel production has further declined during the past week though inquiries are more numerous. Except in sheets there has not been a noticeable decline in steel prices by the independent mills in the U.S. A decided improvement in business is reported by most wholesalers. A considerable proportion of the booked orders for spring goods have been forwarded and many orders are being received through the mails for paint products and spring lines, and the increase in buying is said to be very encouraging.

Montreal Markets

MONTREAL, March 24.—The declines on the hardware market this week reach many different lines both in heavier goods and shelf hardware. Light strap and tee hinges are now quoted at 10 per cent. off list, and in tools, chisels and standard drawing knives are lower. Soldering coppers and picture wire are also reduced in price. In the heavier goods, nails are now $5 base, the Samson car mover now selling at a decline. Sash weights, both in solids and sectionals, are one cent lower, and cast washers are now priced at 9 cents per pound. English standard galvanized sheets show a reduction of 75 cents on all gauges of Queen's Head and 50 cents throughout on Fleur-de-Lis. Cistern pumps are at reduced prices and English hollowware shows declines on iron pots, etc. Ingot metals are reported a little steadier.

Spring business is becoming more and more in evidence and most lines are to the front in the different warehouses, with many shipments already made.

Light Hinges 10% Off List

Montreal.

There has been a reduction made in light tee and strap hinges, and they are now quoted at 10 per cent. off list, former discount being 5 per cent. off. Following are the new prices under the new discount:

Light, net prices, per doz. pairs—3 in., strap, 90c; tee, 90c; 4 in., strap, $1.08; tee, $1; 5 in., $1.26; tee, $1.17; 6 in., strap, $1.53; tee, $1.35.

Small Decline in Chisels

Montreal.

Socket firmer and socket framing chisels show a slight decline and socket firmer are now quoted at 55 per cent. off, and framing 42½ per cent. off list.

Reduction in Drawing Knives

Montreal.

A slight reduction is also shown in standard drawing knives, these are now 42½ per cent. off list.

Nail Base, Montreal $5

Montreal.

Although wire nails have been selling at the above price in most quarters for the past few weeks, no change was made in quotations as other jobbers were maintaining the price of $5.20 base. However, the present prices, with uniformity from all jobbers, is $5.00 base. Cut nails are still selling at $5.75. There is a noticeable improvement in the movement of nails this last week, but sales continue in a sorting order, and few large deliveries are being made.

Wrought Pipe Moving Well

Montreal.

Wrought iron and steel piping continues to move in good quantities, sales on this commodity having kept up fairly well all through the quiet months. Stocks are also in good shape to meet the demand. List No. 49 is the selling basis, and it is thought that little change will be made in the prices for some little time. The newer list will be found on current market pages.

No Change in Fittings

Montreal.

There has been no change made in the prices of the different fittings, with a general sorting business being done. Stocks are ample and following are the present quotations:

Bushings, cast	22½%
Do., malleable	22½%
Flanges	20%
Plugs	20%
Flange Unions	7½%
Malleable Unions	35%
Dart unions, black	20%
Do., gal.	add 5%
Nipples, ⅛ to 4 in. close and short	40%
Do., long	50%
Do., 4½ to 8 in., close and short	30%
Do., long	40%
Couplings, 4 in. and under	20%
Do., 4½ in. and larger	Net list

Pound goods—	Black	Galv.
Class B	0 20	0 28
Class C	0 13	0 20

Add 17½%.

Soldering Coppers Reduced

Montreal.

Soldering coppers are now selling at

lower prices and following are the new quotations: 3 lb., 47 cts. lb.; 4 to 8 lbs., 45 cts. per pound.

Decline in Car Movers

Montreal.

There has been a reduction made in the price of Samson car movers and these are now quoted at $80.00 a dozen.

A Reduction in Picture Wire

Montreal.

A reduction is quoted on picture wire, and following are the new prices:

Picture Wire—No. 1, 35 yds., $1.50, 25 ft., 60c, per dozen; No. 2, 25 yds., $2; 25 ft., 75c; No. 3, 25 yds., $2.55, 25 ft., 95c.

Sash Weights Reduced

Montreal.

A reduction of one cent per pound is made on sash weights, both in solids and sectionals. Solids are now selling at 5 cts. a lb., and sections at 6 cts. per pound.

Cast Washers 9 Cents Per Pound

Montreal.

Cast iron washers are quoted at 9 cents per pound, former prices being from 10 to 11 cents.

Some Sheets Lower

Montreal.

Lower quotations are reached on the English standard galvanized sheets, the Queen's Head is 75 cents lower on all gauges and the Fleur-de-Lis shows a reduction of 50 cents throughout. The American standard prices are considered nominal, also black sheets and plates. Business is reported somewhat brisker in the past week, and better sales are being made in all sheets. Following are quotations:

PLATES—	
10 gauge	6 25
12 gauge	6 30
14 gauge	6 45
16 gauge	6 55
BLACK SHEETS—	
10 gauge	6 50
12 gauge	6 55
14 gauge	6 60
16 gauge	6 80
18-20 gauge	7 95
22-24 gauge	8 00
26 gauge	8 10
28 gauge	8 20

Sheets 36 in. wide, 10c per 100 lbs. extra.

GALVANZED SHEETS—	
U.S. Standard—	
10¾ gauge	10 25
28 gauge	9 75
26 gauge	9 50
22 to 24 gauge	9 35
20 gauge	9 15
18 gauge	9 15
16 gauge	9 00
14 gauge	9 00
12 gauge	9 00

English Standard—	Queen Head	Fleur-de-Lis
28 gauge	10 75	10 00
26 gauge	10 50	9 75
24 gauge	9 90	9 35
22 gauge	9 55	8 90
18 and 20 gauge	8 85	8 75

NOTE.—These prices are for full bundles, an extra charge of 25c to 35c per 100 lbs. is made for broken lots. These quotations are nominal.

Corrugated Sheets Quiet

Montreal.

Sales on corrugated sheets are small for this season, and the lighter gauges are said to be the only weights moving. This is attributed to the early season and when the weather permits building an improvement is expected. On the 28 gauge there is very little uniformity of prices, and they range from $7.50 to $9.50 per 100 square feet. Following are the list prices coming into effect the beginning of the year, with the reduction on the lighter gauges:

CORRUGATED SHEETS—	Per 100 Sq. Ft.
No. 28 gauge	9 50
No. 26 gauge	10 25
No. 24 gauge	16 00
No. 22 gauge	19 00
No. 20 gauge	22 00
No. 18 gauge	28 00

Less 7½%.

Lighter than 24 gauge and wider than 27 inches, 75c a square extra.

Small Pumps Reduced

Montreal.

Small cistern pumps are now selling under lower prices, both the pitcher and closed spouts are affected, and following are quotations on both:

Pumps, No. 2, pitcher spout, $3.10, closed spout, $4; No. 3, pitcher spout, $3.40, closed spout, $4.60; No. 4, pitcher spout, $4.05, closed spout, $5.

English Hollowware Lower

Montreal.

A decline upwards to 30 per cent. has been made on English hollowware, a new list with higher discounts being issued. This reduction includes prices on iron pots, oval pots, sauce pans, glue pots, etc., made of cast iron and tinned on the inside.

Lead Products Steady

Montreal.

No change has been made on the prices of the different lead products, and a general sorting business is being experienced. Pig lead has been somewhat stronger recently, and even the lower quotations on this metal have had no radical results on the lead products. Following are present quotations:

Lead pipe	0 12½
Lead waste	0 13½

Note.—Lead pipe is subject to a discount of 10%.

CouplingsLead traps and bends	10% off
Lead wool, lb.	0 13½
Lead sheets, 2½ lbs.	0 11
Do., 3 to 3½ lbs. sq. ft., lb.	0 10¾
Do., 4 to 8 lbs.	0 10

Cut sheets ¼c lb. extra and cut sheets to size, ¾c lb. extra.

Solder, guaranteed, lb.	0 26
Do., strictly, lb.	0 24
Do., commercial, lb.	0 21
Do., wiping, lb.	0 21¾
Do., wire lb.	0 34
Zinc, sheets, casks	0 14
Do., broken lots	0 15½

Prices on Freezers

Montreal.

Although a little early for any great activity in ice cream freezers these are now on display with a few sales being made. Following are this season's prices on the different sizes:

	Blizzard	Gem
1 quart	4 05	4 35
2 quart	4 80	5 20
3 quart	5 65	6 15
4 quart	6 95	7 50
6 quart	8 70	9 50
8 quart	11 30	12 20
3 quart	5 65	6 15
10 quart	14 75	15 95

Bar Iron and Steel Unchanged

Montreal.

Iron and steel are shown with no changes this week, with business offering a slight improvement over previous weeks. Although in the United States markets the prices have a downward tendency, and even in other Canadian markets lower levels have been reached there are no new quotations here. With stocks light throughout the dealers' business is liable to show much more activity in the near future. Following are the quotations:

Common bar iron, 100 lbs.	4 00
Refined iron	5 50
Iron finished machinery steel	4 05
Mild steel	4 00
Band steel	4 00
Single reeled machinery steel	6 80
Spring steel	6 00
Sleighshoe steel	4 00
Tire steel	4 20
Toe calk steel	4 90
Harrow tooth steel	4 15
Mining tool steel, per lb.	0 23
Black Diamond tool and cast steel	0 23

NOTE—Refined iron is approximately $1.50 per 100 lbs. over base, but fluctuates owing to unsettled market.

Band steel in scroll bdles., 50c per 100 lbs. extra.

Flats, iron and steel, 3-16 and thinner, 50c per 100 lbs. extra.

No Change in Waste Materials

Montreal.

Business remains quiet in the scrap metal markets. Dealers have experienced a very dull time in the past months, and this seems to be holding with them later than other years. The demand has shown practically no improvement, but the open weather will no doubt have a good effect on both buying and selling. Following are the nominal quotations:

DEALERS' BUYING PRICES.

Automobile tires	0 75
Yellow brass	0 06
Red brass	0 11
Light brass	0 04½
Scrap zinc	0 04
Lead, heavy	0 04
Lead, tea	0 02
Light copper	0 09
Heavy copper	0 11
Wrought iron, R. Rd., No. 1, per gr. ton	13 00
Malleable scrap (ton)	15 00
Pipe scrap (ton)	8 50
Stove plate, per ton	20 00
Heavy melting steel	15 00
No. 2 busheling	5 00
Boiler plate	0 11
No. 1 machinery cast, per gr. ton	$25 00 $28 00

Auto Accessories Sales Increase

Montreal.

Automobile accessories are now selling in much better quantities and jobbers state that business is now coming to hand very satisfactorily. The open winter which might have helped on the sale of lines such as tires, has not proved beneficial to other accessories, as owners of motor cars kept them in use rather than placing them in a garage for repairs. Prices on the many different lines have held fairly steady, and no very great changes are made for the spring demand.

Seasonable Goods Selling

Montreal.

Garden tools, spades and shovels, poultry netting, rubber hose, screen wire cloth, along with many other spring lines, are now to the front in the different jobbers' warehouses, shipments on many lines already made. Orders are somewhat smaller in many cases than in other years, but jobbers will expect repeat orders on many lines that dealers are buying light. Prices on practically all lines have held and will be found on current pages.

Ingot Metals a Little Steadier

Montreal.

There is a little steadier market reported on ingot metals this week, although a slight falling off was noted

the first few days. Practically no change is made on any of the local prices, with the demand continuing small.

TIN.—In London this metal has been unsettled, but closed at slightly higher quotations than last week at £157 for spot standard and £163 for Strails. The New York market is a little firmer, without much actual business being done. Straights were quoted at 28½ for spot delivery and 29¼ for future. Local price unchanged at 36½ cents.

COPPER.—Copper is stronger, showing slight advances all week in both London and New York. It is reported that several American smelters have temporarily closed, and this has evidently stiffened the market, present local prices are electro, 18 cts., and casting, 17¾ cts.

SPELTER.—This metal showed easier in the week, but closed firmer at £25/2/6 in London. East St. Louis has been fairly steady at $4.70. The local price shows no change at 8½ cents.

LEAD.—Lead in London also was lower at the beginning of the week, stiffening toward the end. The United States market has shown very little change. There has been a very little demand locally and the price remains steady at 6½ cents.

ANTIMONY.—The price on antimony is a little weaker in New York, with small demand. A few local enquiries have come to hand, but the price is unchanged at 7¾ cents.

ALUMINUM.—This metal continues quiet, but local price is slightly firmer at 35 cents.

Toronto Markets

TORONTO, March 24.—There are fewer changes of importance this week in prices and probably the chief ones are the revisions in prices of light and heavy strap and tee hinges and wrought butts. Prices are being adjusted on heaters, but the new lists are not available, but it is understood that the changes do not affect all lines. Other lines showing declines are soldering coppers, shoe thread, glaziers' points, drill steel, mop wringers, and some makes of washing machines. Bar iron and black and galvanized sheets are showing some lower quotations, but reductions are in wholesalers' prices and not in mill quotations. Compression goods, wrought pipe and fittings, lead and zinc products are held without change. Ingot metals are unchanged in price, but are showing an improvement in demand.

Business is stated to be showing a continued improvement. A considerable quantity of spring merchandise has already been shipped out. The improvement has been felt in the city trade, although it is reported as more pronounced through the country.

Heater Prices Adjusted

Toronto.

Last week's market report stated that there had been some reductions in prices of some lines of ranges, and that heaters had not been affected. It is understood that since then there has been some adjustments in the prices of certain lines of heaters, and though some of the new prices show a decline, some are unchanged, while others are said to show a slight increase. The new prices are not yet available, and further information will be given as soon as they are ready. The changes do not affect all ranges and cook stoves or all heaters.

Butchers' Cleavers and Steels

Toronto.

Shipments of butchers' cleavers and butchers' steels of English make are arriving now, but prices show little change and are practically the same as last year.

Mop Wringers Slightly Lower

Toronto.

A reduction of about 5 per cent. has been made in the price of the all steel Reliance mop wringer.

Pipe Prices Hold

Toronto.

Sales of wrought pipe are stated to be showing an increase this past week or so, and with building operations resuming the improvement is expected to be maintained. Supplies are in good shape and there should not be the shortage that was the case during the greater part of last season. Prices are holding at the changes made at the beginning of the month and will be found on current market pages.

Sad-iron Handles Reduced

Toronto.

Reductions have been made in the price of sad-iron handles and a japanned iron handle is being quoted at $1.60 per dozen.

TACK DISCOUNTS CHANGED

As we go to press a change is noted in discounts on tacks. The new discounts are 67½/15 per cent. off in place of the former discount of 65/15 per cent. off. Lists affected are—264, regular hardware tack list, and 265—capped goods list.

Gasoline Holds Unchanged

Toronto.

There is no change to report in prices of gasoline or coal oil and quotations remain unchanged at 42 cents per gallon for motor grade gasoline and 27 to 30 cents for coal oil, according to grade. A good steady demand has been experienced for both all through the winter.

Some Screw Drivers Lower

Toronto.

Some lines of black handled screwdrivers have declined from 5 to 7½ per cent. in price.

Butts and Hinges Revised

Toronto.

Prices have been revised on light and heavy strap and tee hinges and on wrought butts, making a reduction of approximately 10 per cent.

Nails In Better Demand

Toronto.

An increased demand for nails is reported by wholesalers this week. Retailers, it is stated, are not ordering as heavily as usual taken altogether, but sales have been fairly satisfactory. Prices are nominally unchanged and are $5.10 per keg, base, for wire nails, and $6.20 per keg, base, for cut nails.

Barbours Shoe Thread Reduced

Toronto.

A considerable reduction has been made in the price of Barbour's shoe thread, and the No. 8 is now quoted at $1.93 and the No. 10 at $1.98.

Compression Goods Are Holding

Toronto.

No changes have been made in valves and bibbs, and business is showing a slight improvement. As the season advances and building is resumed a bigger demand for these lines is anticipated. Prices remain unchanged and are the following:

Compression work, standard	34%
Fuller work, standard	30%
Bath cocks, compression	25%
Do., Fuller	25%
Flatway stop and waste cocks, standard	34%
Roundaway stop and waste cocks, standard	34%
Brass steam cocks, standard	10%
Globe, angle and check valves, standard	5%
J.M.T.	10%
J.M.T. C.	15%
Gate or straightway	7/10%
Jenkins Globe	10%
Radiator valves, standard	23%
Do., removable disc	38%
Basin Cocks—	
No. 1 and 1, Fuller pattern	30%
Quick opening	28%
Emco J. D. Valves	10%
Emco Check Valves	10%
Webber Gate Valves	15%

Some Washer Lists Reduced

Toronto.

A new list price has been made on three washing machines, the Patriot, Canada First and the Home, which are now quoted at $20 list in place of $23.75.

No Change in Rope Prices

Toronto.

Wholesalers report an increased demand for cordage. While retailers are still buying carefully and on a smaller scale than last year there is an appreciable improvement in sales. Prices show no change and pure manila is

quoted at 24½ cents per pound, base. Beaver manila and New Zealand hemp are still 20 cents, base, and sisal base remains 18 cents. The prices on binder twine were given last week, and will be found in the current market quotations.

Soldering Coppers Reduced

Toronto.

A reduction of about 12 per cent. has been made in the price of soldering coppers and the new base price for 4 pounds and up is 44 cents.

Better Demand for Fittings

Toronto.

There is a little better demand reported for pipe fittings and with a continued improvement in sales of pipe there will be bigger business in the various fittings. Prices are held at the recent changes and are the following:

Cast iron fittings	15%
Plugs, cast iron	20%
Do., solid	10%
Do., countersunk	net
Bushings	25%
Unions, ¼-in. to 2-in.	35%
Do., ⅛ in., 2½ to 4 in.	30%
Dart Unions, blk., ¼ in. to 2 in.	20%
Do., ⅛ in., 2½ to 4 in.	8%
Do., galvd., add to black	30%
Nipples, blk. and galvd., ⅛ to 4 in., close and short	40%
Do., 4½ in. and larger	30%
Do., long, ⅛ in. to 4 in.	50%
Do., 4½ in. and larger	40%
Do., running thread	20%
Couplings, 4-in. and under	20%

MALLEABLE FITTINGS

	Black.	Galvanized
Class A	0 60	0 75
Class B	0 25	0 35
Class C	0 16	0 25

Glaziers' Points Down 20 P. C.

Toronto.

A reduction of about 20 per cent. has been made in the price of zinc coated glaziers' points.

Corrugated Sheets Improved

Toronto.

A small improvement has been noticed during the past week in the demand for corrugated sheets, but it is thought that it may be a week or two yet before very much change is shown. Quotations which are holding at recent changes are the following:

CORRUGATED SHEETS—	Per 100 Sq. Ft.
No. 28 gauge	9 50
No. 26 gauge	10 25
No. 24 gauge	16 00
No. 22 gauge	19 00
No. 20 gauge	22 00
No. 18 gauge	28 00

Less 7½%.

Lighter than 24 gauge and wider than 27 inches, 75c a square extra.

Iron and Steel More Active

Toronto.

A little more activity is reported in iron and steel, and sales though small are more numerous. Stocks in wholesalers' hands are reported fairly heavy and much of it having been bought when prices were higher is selling at a loss. Quotations show a little variation, with $4.50 given as the base for bars in one or two instances, but the following quotations are pretty general:

Common bar steel, 3-16 in.	$ 4 50
Common bar steel, ¼ in. and heavier	4 00
Common bar iron, 3-16 in	4 50
Common bar iron, ¼ in. and heavier	4 00
Angle base	4 10
Horseshoe iron	6 00
Tire steel	5 95
Band steel	4 50
Spring steel	12 75
Crucible Cast Sheet Steel	35 00
Mining drill steel	23 00
Common Cast Tool Steel	20 00
Sleigh shoe steel	4 50
Norway iron	15 00
Toe caulk iron	6 70
Hoop Steel	6 00

Lead Products Are Steadier

Toronto.

Very little change is reported this week in lead or zinc products, though a small but steady increase in sales is reported by some wholesalers. Quotations on pig lead in the primary markets remain practically unchanged and demand continues light. There has been no further change in prices of lead products or of solder and quotations are as follows:

Lead pipe, list, per lb.	0 12½
Lead waste pipe, list, per lb.	0 13½
Do., over 8 in., list, per lb.	0 14½
Lead pipe is subject to a discount of 10%.	
Lead traps and bends	10%
Lead sheets, 4 to 6 lbs. sq. ft., in rolls, lb.	0 09½
Cut sheets, ½c to ¾c lb. extra and cut sheets to size 1c lb. extra.	
Solder, wire, lb.	0 36
Do., strictly, lb.	0 25
Do., commercial, lb.	0 22
Do., guaranteed, lb.	0 28
Do., wiping, lb.	0 22¼
Zinc sheets, per lb.	0 16

Lower Prices On Sheets

Toronto.

In some quarters there is reported to be a little increase in sales of sheets these last few days, but there is room for plenty of improvement yet, it is stated. Stocks appear to be sufficient for normal demands, and some wholesalers state that they are in the position of having to lose on much of the present stock which was bought at higher levels than present market values. Reports from United States steel markets indicate that there is very little interest in prices there, and the nominal quotations of the Industrial Board, made two years ago, are regarded as a dead letter. It is pointed out that Welsh tin plate can be laid down at New York, including freight and duty, at $4.75 per base box, whereas the nominal quotation of the Industrial Board is $7. Quotations here on sheets and plates are averaging 50 cents per hundredweight lower than those of the past few weeks. Prices quoted show a variation and reports indicate that price cutting has been responsible for the decline in quotations.

PLATES

10 gauge	5 75	6 20
12 gauge	5 80	6 25
14 gauge	5 85	6 30
16 gauge	5 95	6 40

BLACK SHEETS

14 gauge	5 80	6 80
16 gauge	5 90	6 90

18 and 20	7 90	8 90
16	7 75	8 75
12 and 14	7 70	8 70

An extra 40c per 100 lbs. is charged for Keystone brand copper bearing sheets.

An extra is now charged on galvanized sheets, 10¾ oz. and 28 ga., when shipped out in sheets 3 feet wide. The extra charged over prices shown above is 20c per 100 pounds. Other gauges show no change for different widths.

Prices shown are for full cases. An extra charge of 25c per 100 lbs. is made for less than case lots.

Garden Tools Moving

Toronto.

Garden tools are beginning to move and sales are more active. Rakes and hoes are being quoted at 50 and 10 per cent. off list and spades and shovels at 35 per cent. off.

Little Movement of Scrap

Toronto.

There is stated to be little change in the waste metal market. Dealers are doing little purchasing, and holders are not offering at present prices. The steel mills are not operating at more than 25 to 50 per cent. of capacity, and the outlet for scrap has not improved. The low prices of non-ferrous metals in the primary markets is not conducive to the movement of waste metals and little change is expected until conditions improve. The following are nominal quotations for fairly large quantities:

WASTE MATERIAL

No. 2 busheling		$13 00
Stove plate, per ton	19 00	20 00
Yellow brass	6 00	7 00
Red Brass		10 00
No. 1 machinery cast	24 00	25 00

Scrap pipe	8 00	9 00
Heavy lead pipe	4 00	4 50
Old rubbers, boots and shoes	2 00	2 50
Overseas lumbermen's rubber boots	1 50	2 00

Ingot Metals Show Improvement

Toronto.

An increase of business is noted in ingot metals and all primary markets are showing an improvement. This does not mean, however, that business is anything like it should be, but it is believed that the worst of the slump is passed and even a small increase is welcomed as an evidence of the turn of the tide. Last week's prices are generally maintained in local markets and little change is reported.

TIN.—This metal shows signs of being firmer, and though outside markets show little change in the last reports there is a better demand. Quotations here remain at 38 cents.

COPPER.—A slightly better demand is reported for this metal. Outside primary markets show little change in price, but a firmer tone in London. Substitutes for this metal have been largely employed during the reign of high prices and shortage, and the effects are being felt now that the demand for all metals has fallen off. Prices here for casting copper are unchanged at 18 cents.

LEAD.—There is a steadier tone to the lead market, and though the larger producers are not feeling any increase of business they are not anxious to force trade at the present low prices, which are unprofitable for operating at. A

little better tone is in evidence in the London markets. Quotations here remain at $6.

SPELTER. — Conditions still leave much to be desired in spelter markets, but there is a slight improvement. United States reports state that smelters there are operating at about one-fourth of capacity. Prices locally are unchanged at $7.25.

ANTIMONY.—A better demand is reported for antimony with prices unchanged. Quotations remain at 8 to 9 cents.

ALUMINUM.—Markets here are reported dull in this metal. A little better inquiry is noted in United States markets and prices are at same levels. Local quotations remain at 35 to 37 cents.

NEW SHOE FINDERS' LIST

A new shoe finders' list is now being prepared and new prices will be issued during the next week. While nothing definite is available in the way of information as to the revised prices there will undoubtedly be a number of revisions with some reductions.

London Markets

LONDON, March 24.—Prices of hardware commodities show little change this week. Linseed oil has declined slightly. Other reductions include cistern pumps, whiting and chick feed.

Business here during the past week has shown a decided improvement. The mild weather has created an early demand for many spring lines, and merchants report a good sale for poultry netting, screen wire, garden tools, paints, oils, stains and various other lines in demand during the spring months. Fishing tackle and base ball goods are also beginning to move out.

Collections are reported to be fair and are showing an improvement with an increase in the volume of business.

Linseed Oil Down Again

London, Ont.

Linseed oil is among the lines quoted lower this week, and the new price is 3 cents per gallon less. There is a good seasonable sale for this product at present. The following are the quotations:

	Raw.	Boiled
1 to 3 barrels, per gal.	0 92	0 95
3 to 5 barrels, per gal.	0 91	0 94
6 to 9 barrels, per gal.	0 89	0 92

Less bbls., add 15c gal.

Turpentine Is Unchanged

London, Ont.

The demand for turpentine is showing a decided improvement. No change has taken place this week in price and the following are quotations:

1 bbl. lots, $1.00 per Imp. gal.; 2 to 4 bbl. lots, 99c; 5 gal. lots, $1.15.

White Lead Sales Improving

London, Ont.

Sales of white lead in oil are showing an improvement and each week sees a better demand. There is no change of price and quotations are as follows:

	Tons.	Less.
Pure, per 100 lbs.	14 95	15.30
Elephant, per 100 lbs.	15 45	15 80

No Changes in Putty

London, Ont.

Prices of putty continue unchanged. There is just a fair sale for this at present, and that is all that can be said of the demand. With building operations soon resuming there should be more activity in this commodity. Quotations are the following:

Standard, 100 lb. drums, per 100 lbs., $7.05; 25 lb. drums, $7.30.

Pure, 100 lbs. drums, $8.55 per 100 lbs.; 25 lb. drums, $8.80.

Nail Demand Increases Slowly

London, Ont.

The demand for nails is showing a slow improvement and sales are steadily increasing. There is no change in prices and the following are the quotations: Wire nails, $5.10, base; cut nails, $6.40, base.

Window Glass Is Unchanged

London, Ont.

There is little new to report on window glass. At present business in this consists mainly of sorting orders and retailers show a reluctance to order far ahead. Prices are holding unchanged and quotations are 60 and 10 per cent. off list for single and double diamond and 60 per cent. off cut light list.

Rope Sales Still Light

London, Ont.

Rope sales are slow to show improvement and the demand still continues light for the season of the year. Prices are maintained and are the following:

Pure Manila, 24½ cents base.
Beaver Manila, 20 cents base.
New Zealand Hemp, 20 cents base.
Sisal, 18 cents base.

English Whiting Slightly Lower

London, Ont.

Quotations on English whiting are slightly lower on new stocks, and in barrels of about 335 pounds the price is $3.75 per 100 pounds.

Gasoline Lamps and Lanterns

London, Ont.

Good sales are being made of gasoline lamps and lanterns. The Coleman line, made in Canada, is quoted at $7.50 for the No. 327 lantern and $8.75 for the No. 329 lamp.

Lower Price On Solder

London, Ont.

Lower quotations are being made on solder and "Half and Half" is priced at 26 cents per pound.

Cistern Pumps Now Reduced

London, Ont.

New lower prices are in effect on cistern pumps and the open spout is now 35 per cent. off list, while the closed spout is quoted at 30 per cent. off.

Coaster Wagons Moving Well

London, Ont.

Coaster wagons are selling well now and the auto coaster wagon is quoted at 35 and 10 per cent. off list. Net prices figured at this discount on these lines are the following:

Net prices figured at 35/10%.

No. 00, $43.88 doz.; No. 01, $67.86; No. 1, $77.80; No. 2, $84.83; No. 3, $93.60; No. 4, $106.47.

Roller Skates In Demand

London, Ont.

Roller skates are having a good sale at present and the following are the prices of the better selling lines of the Union Hardware make: No. 3, $1.55 per pair; No. 5 B.B., $3.75.

Mops and Polishes Moving

London, Ont.

With the house-cleaning time at hand there is a good sale for mops and polishes and also for wallpaper cleaners. The following are the quotations on some of these lines:

O-CEDAR—Mops (complete with handle)—No. 1, $16.00 per doz.; No. 3, $16.00; No. 5, $16.00; No. 14, $16.00; No. 15, $10.00.

Polishes—4 oz. bottles, $2.40 per doz.; 12 oz. bottles, $4.80; quart cans, $12.00; ½ gal. cans, $20.00; 1 gal. cans, $28.00.

LIQUID VENEER—Mops—Regular, $20.00 doz.; Junior, $14.00.

Polishes—4 oz. bottles, $2.40 doz.; 12 oz. bottles, $4.80; quart cans, $10.00.

WALL PAPER CLEANER—Climax, $2.00 doz. tins; Absorbine, $1.60 doz. tins.

Poultry Netting Selling Well

London, Ont.

Shipments of poultry netting continue to go forward and sales are good at the present time. On the Canadian make the price for the 1-inch and 2-inch mesh is list plus 10 per cent.

Screen Wire Cloth Moving

London, Ont.

Booked orders for screen wire cloth are now going forward and the black painted wire cloth is quoted at $3.50 per 100 square feet.

Garden Tools Now Selling

London, Ont.

There is a good sale now for garden tools and they are selling at 50 and 10 per cent. off list. Harvest tools are quoted at this discount also. Spades and shovels are 35 per cent. off list.

Horse Clippers Selling Well

London, Ont.

A good business is being done now in horse clippers and the No. 1 Stewart clipper is quoted at $14 less 25 per cent. The upper plate is $1.25 list and the lower $1.75 list, both less 25 per cent.

Royal Purple Chick Feed Lower

London, Ont.

A reduction has been made in the price of Royal Purple chick feed and this is now 25 cents per hundredweight lower. The new quotations are as follows: 25-pound bags, $4.25 per 100 pounds, and 100-pound bags, $4.15 per hundredweight.

Winnipeg Markets

WINNIPEG, March 24.—There are a few important reductions in prices this week, although the price changes are not so numerous. Light tee and strap hinges have been reduced in price, and wrought butts are lower. Globe and Nicholson's files are quoted lower, and other lines showing reductions are cotton rope, candle wick packing and some lines of builders' hardware. Prices on some stoves and ranges have been revised, and show some declines. The quotations on wrought pipe remain unchanged. A gradual improvement in business is reported in the wholesale trade, and shipments of spring goods are now going forward. Orders for paint, varnish, and house cleaning needs are coming in better now and show an improvement in volume.

Candle Wick Packing Reduced

Winnipeg.

A reduction has been made in the price of candlewick packing and it is now selling at 48 cents per pound.

New Prices on Files

Winnipeg.

Nicholson's and Great Western files are reduced in price. Nicholson's are now quoted at 30 per cent. off list and Great Western at 50 and 5 per cent. off.

Linseed Oil Unchanged

Winnipeg.

No change in the price of linseed oil has been made this week and the price now in effect is $1.20 per gallon for raw and $1.23 per gallon for boiled.

No Change in Turpentine

Winnipeg.

The price of turpentine remains the same as last week and is quoted at $1.30 per gallon in barrel lots.

Light Tee and Straps Reduced

Winnipeg.

The prices have again been reduced on light tee and light strap hinges and are as follows:

	Light Tee.	Light Strap.
3 in., per dozen pairs	0 93	0 93
4 in., per dozen pairs	1 00	1 13
5 in., per dozen pairs	1 20	1 27
6 in., per dozen pairs	1 40	1 60
8 in., per dozen pairs	1 67	2 33
10 in., per dozen pairs	2 27	3 27

No Change in Wrought Pipe

Winnipeg.

The prices on wrought iron pipe remain without any change this week. Sales are seasonably light.

Lower Prices For Butts

Winnipeg.

The prices on butts have been reduced approximately 10 per cent. and are as follows:

No. 800—1 in., 33c; 1¼ in., 40c; 1½ in., 53c; 1¾ in., 60c; 2 in., 73c; 2¼ in., 80c; 2½ in., 88c; 3 in., $1.13; 3½ in., $1.60; 4 in., $2.27.

No. 838—1 in., 33c; 1¼ in., 36c; 1½ in., 47c; 1¾ in., 60c; 2 in., 67c; 2¼ in., 73c; 2½ in, 80c; 3 in., $1.07.

No. 840—2 in., 80c; 2½ in., $1.07; 3 in., $1.33.

No. 804—2 x 2 in., $100; 2½ x 2½ in., $1.20; 3 x 3 in., $1.73; 3½ x 3 in, $2.27; 3½ x 3½ in., $2.47; 4 x 4 in., $3.07; 4½ x 4½ in, $3.93; 5 x 5 in., $5.13.

Cotton Rope Declines Again

Winnipeg.

The price has been reduced this week on cotton rope and following are the latest quotations: 3-16 inch, 48 cents per pound; ¼ inch and up, 46 cents per pound.

White Lead Quotations

Winnipeg.

The price has been reduced on decorators' pure white lead and following are the new prices:

Decorators' Pure—1 lb., $18.60 per 100 lbs.; 2 lb., $18.60 per 100 lbs.; 5 lb., $18.10 per 100 lbs.; 12½ lb., $16.60 per 100 lbs.; 25 lb., $16.10 per 100 lbs.

New Paris Green Prices

Winnipeg.

Prices are just out for Paris green for 1921 season and are about 10 per cent. lower than last year's quotations. The following are the new prices:

	Full cases.	Less than cases.
1 lb. package, per lb.	0 51½	0 52½
½ lb. packages, per lb. .	0 53½	0 54½

Rosin Prices Are Lower

Winnipeg.

The market is easier in rosin and lower quotations are being made. Prices are now 19 cents per pound in barrel lots and 20 cents per pound in less than barrel lots.

Pittsburgh Markets

PITTSBURGH, March 24.—An increase in the volume of business is noted in the steel industry, though it is small and is regarded more as a reaction from the stagnation of the past few weeks than the beginning of a spring buying movement. The decrease in the Steel Corporation's operations has been more pronounced during the past week than in former weeks, and the independents are not operating any better than a few weeks ago. The only noticeable reductions in prices on the part of the independents in the past week have been on sheets, and carload lots can now be bought at the prices quoted a week ago on larger orders. Inquiries for pig iron are still small, but better than they have been, but the merchant furnaces will not recede from the regular quotation of $25 valley. The demand for Bessemer and foundry iron remains negligible.

PITTSBURGH, March 24.—There has been a further increase in the volume of steel business over that noted in last report, and in addition a little inquiry has appeared from steel works for basic pig iron. The beginning of improvement is very modest, but there is at least a beginning. It requires close scrutiny to discern any change, but business has been so bad that everyone is willing to make the effort necessary to see even a small improvement.

The improvement does not mark the beginning of a spring buying movement according to those who analyze the orders that come in. The buying is the beginning of a reaction from the extreme stagnation of the past few weeks, a stagnation that could not continue indefinitely, for the buying was far below the amount needed to keep operations going even on the limited scale that characterizes a period of hard times. That is, after every period of great activity there is a special period of stagnation during which time old orders are worked out and stocks are consumed. Then, if ultimate consumption does not increase, there must nevertheless be hand-to-mouth buying, and that is what is now starting.

A spring buying movement is to be expected, but it is not discerned yet. When it comes it will simply add to the activity, and it is certain to come very shortly. For the general and widespread improvement, from the long range viewpoint, one must still wait. That is in the uncertain future.

Production and Demand

While production of pig iron and steel products has been constantly declining, it has been far above the quantity of expressed demand. The latter is increasing, but for the two to meet the one must decline further and the other increase. The meeting will now occur in a very few weeks.

The independent steel interests are not operating any better than a few weeks ago, and indeed hardly as well. Previous records have indicated that the independents as a whole ran at nearer 30 per cent. than 25 per cent. in January and at nearer 25 per cent. than 30 per cent. in February. For the present rate, some estimates are 25 per cent. but others only accord the independents 15 or 20 per cent.

The Steel Corporation's operations have decreased more sharply in the past week than in former weeks, the Corporation's highest production having been in December and up to the middle of January, whereas the independents had already reached a point of curtailing operations. Generally speaking, it may be said that the Steel Corporation's declining operations have come just above four months later than was the case with the independents, this being the sequel to the Steel Corporation's holding its prices down late in 1919 and in

1920 while all the independents advanced their prices.

The Carnegie Steel Company, which was the highest operating subsidiary of the Corporation outside of the National Tube Company, has had the greatest decline. In the past week or ten days the Carnegie Steel Company has made a new record, by blowing out 13 blast furnaces in that short period, reducing the active number from 38 to 25. The company's high point was 48 furnaces active, for a time last January. Last week's ingot production by the Carnegie Company was about 45 per cent. of actual capacity, against about 60 per cent. the previous week. The ingot production by the Steel Corporation as a whole was about 45 per cent. last week against about 55 per cent. the previous week.

Except in sheets there has been no noticeable decline in the past week in steel prices done by independents. The Steel Corporation continues to maintain its prices and shows no signs of contemplating any reduction in the very near future. While it may not be clear to outsiders who have publicly suggested that the Steel Corporation ought to reduce its prices, it is plain to those in the trade that there would be no stimulus given to business by such action. The Steel Corporation's customers as a body do not desire that the Corporation reduce its prices at this time, and indeed not a few of them have placed themselves on record as fully approving the Steel Corporation's policy of price maintenance. It is a plain matter of business. These customers have stocks of steel or of finished wares or both, which they want to dispose of to the best advantage, and a reduction in the official steel prices would simply depreciate the value of this material. If the customers wanted to buy large quantities of steel the case would be different, but they do not.

Sheets can now be done in carload lots at 3.85c for black, when a week ago it required a larger order to bring out a price under 4c. Galvanized sheets are easy at 5c for carloads, with possibilities of shading this on larger lots. Blue annealed sheets are quite neglected, 3c. being commonly regarded as the market, but possibly a buyer with a fair-sized order might develop something less. The heavy gauges can, of course, be bought for considerably less, on the plate mill schedule.

Bars remain quotable at 2c and shapes and plates at 2.10c. These prices can now be done on single carloads, if the specifications are satisfactory, and that may represent a slight easing off, since a fortnight ago one would probably have to offer more than a carload to get such quotations. The minimum done on plates seems to be 1.90c, this being on a very attractive order.

Pig Iron

Inquiry for basic pig iron is small but it is easily the best seen for many weeks, there being live inquiry for 3,000 tons from a consumer west of Pittsburgh and inquiries for 1,000 tons each from a steel interest in the Shenango valley and a steel works in the Allegheny valley. The tone of the market is a shade better. The merchant furnaces will not budge a cent on these inquiries from their regular quotation of $25, valley. It looks now as though the steel works that had accumulated some iron by not slowing down their blast furnace operations as rapidly as they did their steel works will not dump the iron accumulated on the market but will keep it for their own use. There remain the brokers, who have some iron, and who will probably get the orders now going by shading $25, but the merchant furnaces feel that the iron will have to be gotten out of the situation some time and now is the best time.

Bessemer iron remains quotable at $27, valley, and foundry at $26, with no inquiry worth mentioning.

The offical report of pig iron production in 1920 has just been made, the total being 39,925,987 gross tons, against 31,015,364 tons in 1919 and the record of 39,434,797 tons in 1916. Capacity is about 45,000,000 tons, while production in the past week or so has crossed under the 20,000,000-ton line.

Where Does the Publisher Get Off?

His Rights Are Seldom Respected in the Matter of Contracts—Expected to Reduce His Rates and Give Better Service at the Same Time—Time That the Space-Buyer Played Fair With Press

LAST May there was a director's meeting called by one of the leading farm paper publishers. The record of business booked was submitted. It showed a splendid volume of advertising lined up for 1921, in fact, it was one hundred and two per cent. better than ever before.

The president addressed the meeting as follows:

"Boys, now that they are coming our way, we should do the things that are necessary to put this paper so thoroughly 'over the top,' that its supremacy can never be disputed.

"Let us invest this splendid income in making improvements that will give the advertiser the best proposition there is for the money in our field. Let us make it so good that there never can be any question about his coming back."

Accordingly, plans were perfected for a 20 per cent. increase in circulation. When this circulation was assured it was decided a new press would be required and it was ordered. To give the additional room and other proper facilities for good press work the floor space had to be greatly increased, hence the purchase of a building.

It also seemed, not only advisable, but just the right thing, to make a contract for a better grade of paper, and the extra amount necessary for this 20 per cent. increase added about $85,000 to the paper bill.

The next step was to increase the editorial service by the employing of two college professors. These men were engaged under contract to fill a larger paper.

Finally, a Research and Dealer Help Department was installed at a very considerable expense.

These directors planned to do the things that are most wanted by the advertiser, the advertising agent, the representative and even the reader of the paper, and those plans were made as a result of business actually booked.

All this in the month of May. Presto! Change! The tide turned. "From them which they have." Instead of getting the expected and usual amount of fall orders, added to the surplus on hand, in comes a string of cancellations.

Biff! Bang! Smash! Who cares for the publisher? "Truly we gave him a contract, but what of that? Cancel it—we don't think we can use the space to advantage." Not one in a hundred even grant the courtesy of an explanation. It is just a case of cold-blooded indifference to the publishers' rights or the value of an advertising agent's order.

What can the publisher do? He is under contract for his extra circulation. He is under contract for his extra housing facilities—his extra printing equipment and his extra paper. He cannot discharge his editorial force, neither can he discontinue his Research and Service Department. These improvements, made very largely in the interest of a better product for the advertiser, must be carried on.

January first appears on the horizon. Mr. Manufacturer and Mr. Agent take stock of the 1921 prospects and then they jointly decide that Mr. Publisher must reduce his rates to a pre-war basis or get no business. Yes, the decree has gone forth from a very considerable number, and it goes forth without the slightest assurance of what the support

Why Paint "Preservation" is Big Argument

Discussion of Standards Sought After in Paint Making Show Why "Preservation" Argument Is Important—Knowledge on These Points Will Help Hardware Merchant to Sell Paint

IN connection with the sale of paint, the suggestion has frequently been put forward that the hardware merchant and his salesmen should be as well acquainted with the article they sell as is possible. To this end this article by A. J. Webb, the Martin-Senour Company, Winnipeg, gives some interesting information outlining the manufacture of modern high-grade paint and briefly comparing early methods of paint making with those of to-day. He emphasizes the standards sought after in manufacture and shows how these standards make possible the real object of painting—namely, preservation.

Modern Paint-Making

The manufacture of ready mixed paints to-day is an interesting process and one on which the average dealer might perhaps welcome some information. In this small article, therefore, I propose to outline briefly the manufacture of paint as carried out to-day in our up-to-date factories and with all the assistance of most modern machinery.

We will, therefore, commence our imaginary tour of inspection on the top floor, where all the raw materials are kept which are used in making the paste or "mix" and which is the first step towards the manufacture of paint.

On viewing the top floor of a modern paint factory the visitor will note large machines, which are called "mixers." These machines are cylindrical in shape and are erected for the purpose of thoroughly mixing the dry colors, such as lead and zinc, with the necessary quantity of linseed oil, which is the first process we have to consider. It is very evident that after the dry zinc and dry lead are placed in the mixer and the oil added that some movement is necessary if there is to be a perfect amalgamation, so as to bring the result to the proper consistency before the next step is undertaken. Therefore, on inspecting these mixers one will find large strong prongs which go nearly to the bottom of the "hopper," while other strong metal prongs revolve, passing in and out of the stationary prongs and thus keeping the heavy paste on a continual move until it has arrived at the consistency when it is ready to be ground.

This particular time, of course, depends to a great extent on just what paint is being manufactured, also to the weather conditions. It can readily be understood that in cold weather the oil will have a tendency to be thick and turbid in character, while in hot weather the oil will flow more freely and, therefore, mix more readily.

When the mix is thoroughly completed the next and most important part of the modern paint-making commences. This takes place on the next floor lower down, where the mills are situated. Up to the present time all we have is a paste thoroughly mixed and this paste is now let down through inclined "sluices" to the "hoppers" of the waiting mills. In these hoppers we again have stirring devices similar to the mixers, which keeps the paste moving continuously and prevents any settling which would otherwise take place. A small automatically operated opening or "gate" is in the bottom of the hopper and feeds directly on to large stones, which actually do the grinding.

Pressure Varies

These stones are made from excessively hard stones and are cylindrical in shape and when in action revolve at a considerable speed. They are, in effect, similar to the ancient grinding stone for grinding flour, which everyone is more or less familiar with. By means of screw tension the pressure on these stones can be increased or decreased according to the desire of the operator. In the case of our high-grade paints these stones are forced close together, so close, indeed, that one cannot insert a postage stamp between them. This, of course, indicates a great amount of friction during the process, and it is a fact that these stones, subjected to this tremendous pressure, soon become smooth, and if they were not treated would soon become inefficient as regards grinding the paste.

At periodical intervals, therefore, these stones are taken apart from the mills, and furrows are ground in them by means of air drills, which naturally roughens the surface, and ensures the necessary friction that will ultimately give the velvety feel to the paste which all experts strive to obtain. The principle of centrifugal force is the one that is instrumental in eventually bringing this paste through the revolving stones and forcing it to emerge on the edge.

At this point something must be done to collect the paste, otherwise it would simply spatter off at a tangent and be lost. Therefore, a scraper is placed on the metal edge, which immediately encircles the stones, and as the paste drops on this little edge it is caught at one point by the scraper and diverted into a trough leading into large tanks, which are eventually to contain the thinners.

Methods of Testing

Great care must be taken when grinding a high-grade paint to see that it does not go through too fast, otherwise one cannot expect to find as velvety a paste as one wishes. Methods of testing the ground paste are various. Some old paint-makers test it by rubbing the paste between sensitive points of their fingers. The best method is to take a piece of glass and spread the paste on it with a knife, when any trace of roughness or grit would soon be felt against the smooth surface of the glass. After we have assured ourselves that the paste is perfectly ground the thinners must then be added.

Up to the present we have merely a heavy paste of lead and zinc and linseed oil, but quite impossible to paint with without the addition of thinners. We therefore come to the second part of our formula, which calls for the thinners, which consist of linseed oil, turpentine and dryer, without which our paste would be improper as a paint. These are added in the necessary quantities to ensure the paint being of the proper consistency and fluidity. Revolving paddles placed in these large tanks keep the mass of paint continually on the move, so that the paste is absorbed thoroughly by the thinners into its proper parts.

After a certain period of time we have our batch of paint thoroughly mixed and containing its proper pro-

portion of thinners, including, of course, dryer and turpentine.

Our next step brings us to the testing of the paint. One of the most certain tests is by weight. It is very obvious that if one puts in so many hundred pounds of dry material, so many hundred pounds of oils, dryers, turpentines, etc., that the net weight should, without question, be a certain number of pounds. If an Imperial gallon of this paint is then carefully measured and carefully weighed we arrive at the exact weight per gallon, while if the number of gallons produced is also carefully checked it is very obvious that the weight per gallon, multiplied by the number of gallons produced should equal the amount of weight we have put into our batch. If it does not then it would be an evidence that either some of the paste or some of the liquids had been left out. I merely mention this test as an evidence of the care that is taken to ensure that each batch of paint goes out identical as regards quality and consistency.

Test Covering Power

Our next test is for covering power. For covering power the paint is brushed out thin over colors of a very bright nature and entirely foreign in shade to the paint we are using. Thus white will be brushed over black, or red or green, all of which colors are exceedingly hard to cover, and the covering power is judged by the ability, or otherwise, of the paint to cover the color chosen.

Having satisfied ourselves that our covering power is good we next come to the question of the paint showing any tendency to run. Our method of determining this is as follows: We will take a large board painted with a bright, glossy paint and forming, of course, a most slippery surface, over which we will paint, fairly thickly, a coat of paint we are testing. When we have painted this coat over the board we will draw parallel lines across the board, thus showing a trace underneath of the color we have covered. If one could see these lines, so created, through a microscope one would observe quite a furrow across the board. This board is then stood upright in our testing room and left for twenty-four hours. If, after the expiration of that time these lines are found perfectly clear cut and showing no trace of any run, then it is absolutely certain that the paint which covers that board will show no run when applied on any job.

A suggestion for the arrangement of the paint department so that it may take the prominent place which it should have, especially at this season of the year, is given in the arrangement of the department shown herewith. Shelves and sections are used to keep the stock in such shape that every salesman knows just where to put his hand on anything required in paints, varnishes and specialties. To supplement the main display, a table is used. Some merchants use a stand, having graduated shelves for this purpose, with largest cans at the bottom. Color cards are placed where customers may handle them, and the arrangement of the shelves is such as to encourage customers to handle the cans. It has been found in this store that desire for possession is aroused in the customer handling the actual goods in his own hands.

Spring Campaign For Paint Trade

Banquet to Staff of Ingram & Davey, St. Thomas, and Other Hardware Men in Opening Shot in Spring Paint Campaign

ST. THOMAS, Ont. — A splendid chicken supper was recently tendered to the staff of Ingram & Davey, hardware, and to several other hardware men from outside points, marking the opening of a spring campaign for paint business. An illustrated lecture followed the banquet, in the Ingram & Davey store, this being conducted by F. J. Penberthy, vice-president and general manager of Lowe Bros., Ltd., Toronto.

Mr. Penberthy described the operation of manufacturing linseed oil from the moment the flax was harvested until the product was turned out at the factory. Incidentally Mr. Penberthy stated that the finest linseed oil manufactured is that obtained from Canadian flax.

In direct contrast to the modern, up-to-date methods employed in Canada, the primitive preparation of China wood, cut by the natives in China, was also illustrated. He also explained the method of obtaining various gums and shellac. Shellac was really made by an insect fastening itself on the leaves of tropical trees and sucking out the sap. This sap was syphoned through the body and spread over the eggs of the insect, the insect dying immediately after laying its eggs. The cocoon thus formed was taken and boiled and from it was extracted shellac.

White Lead

Mr. Penberthy also illustrated at length the manufacture of white lead, so widely used in paints. The white lead, he said, was made from pig lead. The lead was attacked by fumes from an acid until it corroded and took the form of a powder. The powder had to be thoroughly washed before it was fit for use. The majority of paint failures he declared to be the result of insufficient washings of white lead.

Many painters, continued Mr. Penberthy, contend they can mix paints better than the manufacturer. He refuted this and made clear his points by means of lantern slides of experiments made by both processes. In the machine mixed paints the zinc, lead and linseed oil went together and filled all the voids. It had remained for the contractor to prove this when mixing the different grades of gravel together to fill all the voids. No successful contractor used a coarse gravel only, and the same rule applied in the mixture of paints.

Some Repair Bills

Concluding, he briefly referred to the campaign of the paint manufacturers and the slogan: "Save the surface and you save all." Over $37,000 was being expended to teach the people of Canada to paint, he said. The slogan meant: "Paint and save repair bills." In the next three years the paint manufacturers intended to spend $100,000. They were building for the future, and he urged the merchants, salesmen, clerks, everyone, and especially the young fellows, to look up, not down, and build for the future.

The visitors present were: W. Lochead, Forest; J. A. Brownlee and staff, London; W. E. Wilcox, Tillsonburg; W. H. Cuddy, Strathroy, and H. N. Scratch, district representative of Lowe Bros., London.

ALTERNATIVE VIEWS ON TURNOVER

Continued from page 35

producing the required revenue. Retailers have long and bitter memory of the suddenly imposed Luxury Tax, and the confusion resulting from the many revisions and ever-changing exemptions which that hastily conceived measure required.

Sound, conservative business judgment argues that progress should be made slowly and safely in a measure so widely affecting the country. Business can ill withstand any more jolts or disruptions. Radical changes should be undertaken with caution and when, as in the application of this tax, such changes can be brought about gradually, there is no excuse for precipitate haste.

Opposite Opinions

There never was a question that had only one viewpoint. The retailer comes in for some criticisms and suggestions from those who believe that a Turnover Tax should be applied broadly.

These men point out that the retailer has apparently overlooked the fact that by paying the tax in advance, on his invoices to the manufacturer or through the wholesaler, he is tying up an additional amount of his capital. This they claim would be a serious matter for many small dealers and might even eliminate a number of them. The fact has to be admitted, even though the extra amount would not in any probability exceed 5 per cent., and might easily be less.

Obviously therefore, to protect themselves, retailers must not only prepare to carry this additional capital charge, but they must not neglect to include it as a direct cost of commodities and figure their profit percentage accordingly. This warning will not be needed by the more methodical and established merchants, though, until the Government required that proper records be maintained, it was a sad but actual fact that few retailers were accurately aware of their total costs of operation.

Seizing upon this idea, the critics further support their claims by asserting that most retail merchants protested when compelled to keep a set of books, but that their doing so resulted in greater satisfaction and profits to themselves. The point is well taken, but the inference that limiting this new tax to the manufacturers would cause the retailers to neglect bookkeeping is unsound. The law still exists and must be complied with, and inasmuch as the application of the tax to the retailer would necessitate even more book work, the latter, who very often does all this work himself, may well be pardoned if he seeks to avoid the extra labor.

Considering all the above viewpoints it is clear that the conference at the end of this month will have to make a decision from out of a multitude of varying counsel. The unsatisfactory experience with the Luxury Tax and the great expense of collecting the Business Profits Tax will, however, have a strong influence with the Finance Department, urging them to adopt whatever system promises a maximum of revenue from a minimum number of sources.

Swift Current Merchants Form R. M. A. Branch

Swift Current, March 22.—A branch of the Retail Merchants' Association has recently been organized here. The old organization was made the basis of the new organization. The meeting was well attended, with George Bowers in the chair. G. W. Anderson, organizer for Southern Saskatchewan, was present. New officers elected are: president, L. F. McLaughlin; first vice-president, A. J. Wigmore; second vice-president, Jack Wood; treasurer, A. E. Longmore, and honorary secretary, W. W. Cooper.

The secretary will later be appointed by the executive, which will be enlarged by a representative from each line of business, being selected to act as chairman of his particular group.

Provincial Organizer Anderson pointed out the advantages of the Provincial association and also of the greater Dominion organization.

They have in their Provincial head office departments dealing with freight and express, accounting, collection and insurance. They also have a solicitor whose offices are at the disposal of members up to a certain amount of service. Mr. Anderson showed where the association saves a great deal annually to its members in fire insurance through its re-insurance scheme.

GLIDDEN

JAP-A-LAC

HOUSEHOLD FINISHES

There is only one Jap-a-lac and that is Glidden Jap-a-lac. Like many another good product, Jap-a-lac is freely imitated. And as might be expected its imitators fall far short of the original.

Jap-a-lac has become a household word in homes throughout the Dominion. The excellent results it has given year after year have established for it an enviable position among household finishes.

Because of these facts it is important that you sell the genuine Jap-a-lac. Its true, lasting colors, long wearing qualities and worth of every kind assure satisfied customers for you and result in many repeat sales. It is in sales of this kind—sales without effort on your part—that your greatest profit lies.

There is a Jap-a-lac Household Finish for every home purpose. Stock up now with a complete line. Write for our dealers' proposition.

Weekly Paint Markets

Montreal

MONTREAL, March 24th.—Linseed oil and turpentine are featured this week with slightly lower prices, the flaxseed market showing a weakness the beginning of the week, and the Southern demand for turpentine still disappointing. White lead in oil and putty are maintained at former levels, while shellac has a change of a few cents per gallon. Window glass remains in its former state, namely, unsettled, with even lower figures now reached on its selling prices.

Ready mixed paints and varnishes are more active, and one manufacturer states a full capacity run. Orders are small, but coming to hand in good volume.

Linseed Oil Again Easier

Montreal.

A decline of 3 cents a gallon on the different quantities of linseed oil is quoted this week. This resulting from easier prices on the flax seed market, a lower level being reached the beginning of the week. A very small movement for this season is still shown, dealers apparently waiting until the last moment, when the consuming demand will necessitate buying. Whether the new Argentine crop will show a favorable market over the Western seed remains to be seen, as up to the present the Canadian market has been preferred. Present prices on the oil product are considered low enough to ensure good buying and the increased demand will in all probability have a firming tendency. Present quotations are the following:

1 to 2 barrels	0 92	0 94½
5 to 10 barrels	0 87	0 89½

Turpentine Also Easier

Montreal.

An easier tendency is again prevailing in the turpentine market, and quotations which have held for the past few weeks are now lowered to 95 cents in one barrel lots, a reduction of 5 cents per gallon. The Southern demand is not up to expectations at this date, and a big improvement at an early date is hoped for. Locally sales are still reported light.

Rosin is reported in a very unsettled state, and the turpentine situation in many respects is relative to the rosin market. Following are turpentine quotations:

TURPENTINE—	Per Imp. Gal.
1 barrel lots	0 95
2 to 4 barrel lots	0 92
Broken lots	1 00

Prices on White Lead Hold

Montreal.

There is no indication that lower prices will be given on white lead in oil, even with pig lead quoted at low figures, and in the past few days a slight stiffening has been shown in this metal. Heavy stocks are in the manufacturers' and jobbers' hand and the length of time required to corrode the finished product are two strong evidences against any immediate decline. However, with the season close at hand when white lead will show increased sales, thus allowing present stocks to become much lower, it is thought by some that lower figures will be ruling on this product later on in the season. Present quotations will be found on current paint pages.

Putty Prices Maintained

Montreal.

No change has been made in quotations on putty, and prices set in February are maintained. There is a little improvement in the demand this week, but with conditions prevailing on other markets buying is only being done for actual requirements, and it is still considered early for any activity in spring business. Following are the present quotations:

Standard Putty—	5 ton	1 ton	Less ton
Bulk barrels, 800 lbs.	$5 00	$5 25	$5 60
Bulk drums, 100 lbs.	6 00	6 25	6 60
Do., or tins, loose, 25 lbs.	6 25	6 50	6 85
Drums or tins, cased, 25 lbs.	7 00	7 25	7 60
1 lb. tins	9 75	10 00	10 35

Pure Linseed Oil Putty, $1.50 per 100 lbs. advance over above prices.

Shellac Sales Improving

Montreal.

As in the case of paint sales, shellacs are also more active during the past week, and these will in all probability be in good demand for some time now. There is a slight change in prices this week, amounting to approximately 15 cents per gallon. Prices are as follows on both orange and white:

Orange shellac, in barrels, $4.25; in one gal. jugs, $4.65; white, in barrels, or 5 gal. jugs. $4.75, in one gal. jugs, $5.15.

More Activity in Paint Brushes

Montreal.

More activity is now shown in paint and wall brushes, and business is reported quite satisfactory. Stocks were found to be very light and buying is now in evidence in good sorting quantities. Brooms, however, are still backward, especially of the better grades.

Demand For Glass Light

Montreal.

A little better movement is noticed in window glass, but is hardly worth mentioning. Spring sales are as yet small, leaving the situation much the same as has been reported in the last two months, very unsettled. The Belgian market is easier again and lower levels are reached from this source. The Belgian franc is now at a lower value, thus having its results on the glass market. A net price list is now used by some jobbers that reaches lower prices than 50 per cent. off the Montreal list. One large importer and jobber stated to Hardware and Metal that with the demand as it now stands and the spring of the year not the big buying season, he believed that any glass being sold was sold at cut prices to unload present stocks. From now until the late summer or fall months, when the demand is at its height, the window glass market is likely to remain in a more or less drifting state. Montreal glass list will be found on current paint section.

Paint and Varnish Sales

Montreal.

One local paint and varnish manufacturer stated to Hardware and Metal: "We are now running to full capacity and find business very satisfactory. Orders coming in, although smaller than in the few years previous, are very numerous, and in the last few days many 'rush' orders have come to hand. In one day this week we had 14 telegraphic orders to forward small amounts." The above statement demonstrates the present situation in the buying of paint. The manufacturers are well satisfied with this method the dealers have adopted, but whether the dealer himself will suffer through delayed shipments, or the paint customer not willing to await the arrival of his purchase, is quite another question. Reports indicate that the actual turnover is anticipated to be well up to other seasons.

Toronto

TORONTO, March 24.—A continued improvement in demand for paint and varnish products is felt in the trade this week and sales are gradually increasing in volume. The exceptionally mild weather is without doubt the cause of the early opening of the season and retailers are finding that

Hillcrest Flat White

Mutual Satisfaction to Merchant and User

No doubt you have often thought you would like to sell the best possible, inside flat white paint that can be obtained. You have the opportunity with "Hillcrest." We are absolutely sincere when we say that we do not believe a better product can be made. It is made from superior materials, by specially skilled men, under expert supervision.

If it is your desire to supply your customers with an inside paint that will prove itself superior to anything they have ever used, sell them Hillcrest Inside Flat White. The mark, "Hillcrest," is our endorsement that it is the best that can be produced. The "Hillcrest" salesman is ready to serve you, to advise and help you, when you think he can. Make friends with him—it pays.

We Also Manufacture:

Hillcrest Colors in Oil; Hillcrest Colors in Distemper; Hillcrest Colors in Japan; Hillcrest Porcelain White Enamel; Hillcrest Ebony Black; Spanish Enamel; Hillcrest Bath Enamel; Hillcrest Motor Car Enamel; Hillcrest Paste Filler; Hillcrest Crack Filler; Pearcy's Pure Prepared Paints; Hillcrest Barn Red Paint; Hillcrest Outside Gloss White; Hillcrest Inside Flat White; Hillcrest Aluminum Paint; Hillcrest Carriage Paint; Hillcrest California Gold Paint; Hillcrest Graphite Machine Paint Liquid; Hillcrest Orange Shellac; Hillcrest White Shellac; Hillcrest Oil Stain; Hillcrest Varnish Stain; Hillcrest Shingle Stain; Cottage Shingle Stain; Hillcrest Varnishes—all kinds; Hillcrest Pure Lead; Hillcrest Bronzing Liquid.

Watch for our Semi-Monthly Bulletin next Saturday.

West Toronto - - Canada.

Hillcrest Paint Products

If interested tear out this page and place with letters to be answered.

they are needing their spring supplies earlier than usual this year.

Prices continue practically unchanged. Linseed oil and turpentine show a small decline in price and inquiries have been more numerous. Shellac prices continue to show some lower quotations, but other staple lines are held without change. Window glass is little changed and retailers show a reluctance to place orders far ahead, but even in this some improvement is noted. Prepared paints and varnishes are moving out in better volume and no changes in prices are reported.

Paint Sales Increasing

Toronto.

An improvement in the demand for paints and varnishes is reported, and a better feeling is evident throughout the trade. It is stated that orders are smaller in most cases than last year, indicating that merchants are buying more carefully. The tendency is also to order more often than formerly. With the gradual increase in the volume of orders the fear that this year's business might all come in a rush has disappeared and manufacturers believe that they can cope with the demand. There is said to be a very good sale for interior varnishes and stains for house cleaning and decorating.

Shellac Prices Still Downward

Toronto.

Some lower quotations are made in shellac prices and quotations as low as $3.50 per gallon for orange in barrels and $3.90 in gallon jugs are made. For white shellac the quotations are from $3.90 in barrels and $4.30 in jugs.

Putty Sales Still Light

Toronto.

There is little new reported in putty, although with other paint lines there is a slight increase in sales noticed this week. Quotations are held unchanged and are as follows:

PUTTY—	Per 100 lbs.
Standard in 100-lb. drums	7 05
Do., 25-lb. irons	7 30
Do., bladders in bbls.	8 30
Do., less quantities	8 55
Pure, in 100-lb. drums	8 55
Do., 25-lb. irons	8 80
Do., bladders in bbls.	9 80

White Lead Moving Better

Toronto.

A better demand for white lead in oil is reported this week. With the approach of the season for outdoor painting sales of this product are expected to show more activity. No further changes are made in prices and from present indications it is believed that quotations in effect will be maintained. Quotations are as per current market pages.

Window Glass Little Changed

Toronto.

There is little change since the last report on window glass. An improvement is noted in the demand, and it is believed that within the next month the situation will be a little clearer and will have adjusted itself. The general quotations are 60 and 10 per cent. off list, although some wholesalers are using a net list.

Linseed Oil Down Five Cents

Toronto.

There has been a better demand for linseed oil this past week and it is felt that the present prices should encourage sales. A decline of 5 cents per gallon from last week's prices has been made and single barrels raw are quoted at 87 cents and boiled at 90 cents. With linseed oil it is nearly always unsafe to prophesy, but the crushers consider the present prices should stimulate buying. Following are the new quotations:

	Raw	Boiled
1 to 2 barrels, per gal.	0 87	0 90
3 to 5 barrels, per gal	0 86	0 89
6 to 9 barrels, per gal	0 84	0 87

Less barrels, add 15 cts gal.

Turpentine Declines Five Cents

Toronto.

Turpentine has also been reduced 5 cents a gallon this week, and at 95 cents per gallon is considered by wholesalers to have reached the lowest point. It may decline still further, but it is stated that present indications are against it doing so unless freight rates and exchange should be reduced. At present prices the producers in the Southern States are reported to be unwilling to force sales, and there is a tendency towards firmness. It is claimed that this year's crop cannot be marketed at present prices without a loss, and there is an inclination to hold back for an advance in prices. Inquiries have been more numerous here, and sales are beginning to show an improvement. The following are the present quotations:

TURPENTINE—	Per Imp. Gal.
1 barrel lots	0 93
2 to 4 barrel lots	0 94
5 gal. lots	1 10

WHERE DOES THE PUBLISHER GET OFF?

Continued from page 53

would be were a reduction made. Simply a question of "We insist upon lower rates."

There is no recognition of an improved service on the part of the publisher. There is no recognition of the fact that the farm paper publisher was the last of all commercial industries to raise prices, and then never raised them in proportion to the increase in cost of production.

There is no recognition of the fact that the publisher cannot reduce his overhead as can be done in other lines of business. There is no recognition of the fact that the publisher is probably the most decided loser by this epidemic of "cancellitis." Still he must go on—his issue must come out—he is under contract to his readers to supply a specific article, of a standard quality, and there can be no let-up, no matter what the advertising patronage may be.

There is no consideration of the fact that for years and years the press of this country has struggled and struggled through all kinds of hardships, until it put the very foundation under commercial America.

Let the space buyer play fair—be reasonable with the publisher. If you want to suck the blood out of business, starve the press. If you want to put out the fires under the boiler of your own industry, stop your advertising. If you want to cripple the express, the postal, the freight and the railroad service of the United States, stop your advertising. If you want to dull the intellect, cease to educate the buying population of the United States and spread pessimism, then withhold your patronage from the press.

On the other hand, if you want to see the glorious sunshine of business prosperity throughout the length and breadth of this land, jump to the front with the determination to do your part in its promotion. The surest way you can do that is by giving the publisher what is necessary in advertising patronage, and at a profitable rate, thus enabling him to put forth an optimistic, confidence-inspiring and trade-building enthusiasm that will compel business development.—Reprint from Printers' Ink, issue of January 27, 1921.

MUST FACE PERIOD OF COMPETITION

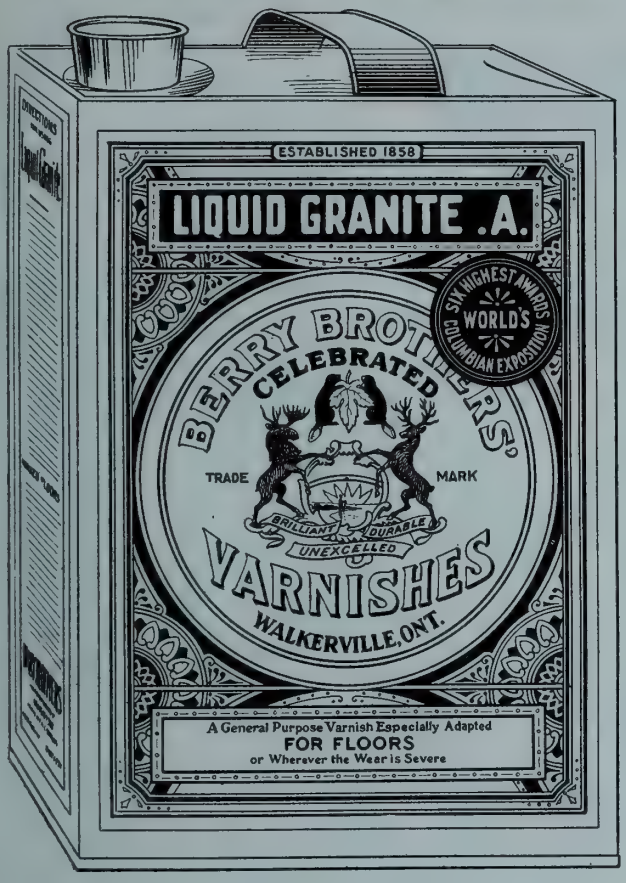
Continued from page 44

pectation of doing business.

In my opinion the firms which have done the most and which are still doing the most to get us through this readjustment period are the firms which have calmly "carried on" with regular advertisements in the trade newspapers, the magazines and general newspapers. There may not be as much business done in their line this year as last year, but it is a fairly safe bet they will get their quota.

Optimism is Essential

These are some of the tangible things we need to-day, but they will be of very little use unless we have also optimism, enthusiasm, courage and perseverance.



Trade Enquiries

Names and addresses of enquiries can be obtained only by those interested in such lines upon application to Department of Trade and Commerce, Ottawa, Canada. Please quote reference number when requiring addresses.

2808. **General goods.**—A large Johannesburg importing house, with branch at Port Elizabeth, requests catalogues and prices f.o.b. Canadian Atlantic ports or c.i.f. Cape ports from Canadian manufacturers of general hardware, furniture, glassware, crockery, cutlery. Fullest particulars requested with first letter, enabling orders to be sent at once for trial shipments.

2817. **Agency for hardware and building lines.**—A manufacturers' agent, with office at Cape Town, desires sole agencies in South Africa for Canadian hardware and building lines; also 3-ply veneer and asbestos cement sheets for ceilings and roofs.

Meet Spring Demand

for

Floor Varnish

with

Liquid Granite

Has no equal for Durability and Beautiful Finish—equally good for Wood, Oil-cloth or Linoleum—will not discolor, wear or scratch with hard usage.

A Dominion-wide advertising campaign of Liquid Granite and other Berry Brothers Varnish and Paint Specialties is creating a big demand which dealers will have to meet.

Keep your shelves well stocked with—

LIQUID GRANITE—The best and most durable floor varnish made.

LUXEBERRY WHITE ENAMEL—Comes in high gloss or egg shell finish, for use on wood, plaster, cement or metal.

BERRY CRAFT—A beautiful stain finish for all woodwork — wide variety of shades.

BERRY BROTHERS AUTO COLOR VARNISH — Unsurpassed for quality; comes in ten colors.

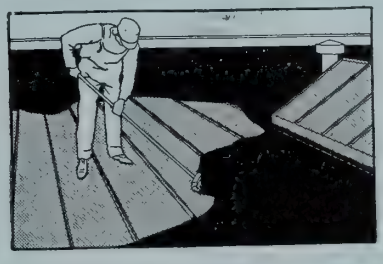
Garland Guaranteed Products



(Made in Canada)

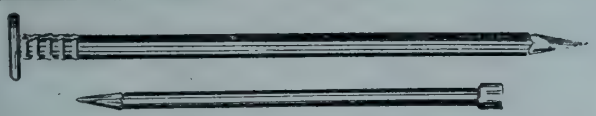
PROTEX ON FELT

PROTEX

A Protex roof is a continuous, one piece, plastic layer without a lap joint, seam or nail in it. Protex is a Plastic Asbestos Compound applied with a trowel and is guaranteed for ten years. Protex specifications do not require the tearing off of the old roof — instead we use it as a foundation.

SUPERCOTE ON TIN

SUPERCOTE



Supercote is a Semi-liquid Asbestos Roof Coating particularly made for protecting, preserving and waterproofing irregular, uneven surfaces such as Gravel and Corrugated Iron Roofs, but it can be used just as well, with the same satisfactory results on all other roofs such as Paper, Composition and Metal.

Also ask for circulars on Roof Paints, Industrial Paints, Concrete Floor Hardeners, Hot Surface Paints, etc.

Everlastic Liquid Roofing Cement.

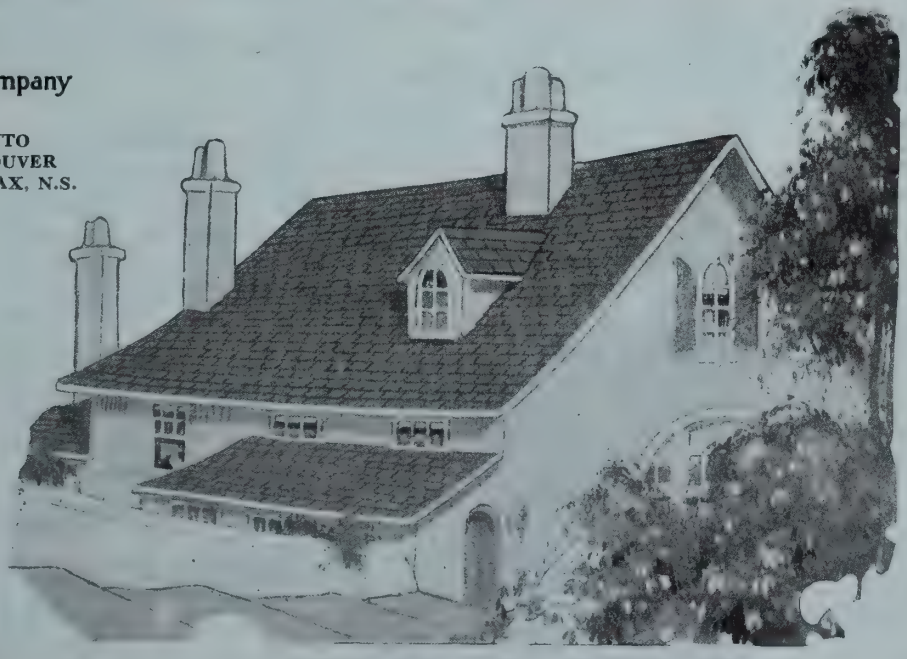
Plastic Elastigum Patching Cement.

Introducing Everlastic Multi-Shingles— (4 Shingles in One)

THE Barrett Company, Limited, which for 75 years has been recognized for its preeminence in the manufacture of roofing and roofing materials, is now manufacturing Everlastic *Slate-Surfaced* Multi-Shingles—the newest thing in roofing.

Every home owner wants a roof that is beautiful, durable and not expensive. Multi-Shingles have been developed to fill this demand. When laid they look exactly like individual shingles and make a roof worthy of the finest buildings.

The soft, natural-slate shades of red or green furnish color and texture to the roof and at the same time give it great durability, exceptional fire-resistance and freedom from painting. No artificial coloring is used.



Each strip of Everlastic Multi-Shingles is 32¼ inches long by 10 inches high. The self-spacing cut-outs are 8 inches apart and 4 inches deep by ½ inch wide.

They come in strong packages containing enough shingles for one-half square —50 square feet. Each color packed separately. Weight of package, ready for shipment, 90 pounds.

Be sure to look for the Barrett Everlastic trade mark on every package.

The Barrett Company LIMITED

THE GRAHAM NAIL WORKS
Operated by the CANADA METAL CO., Ltd.
TORONTO

Reed's Patent Plastic Asphalt Roof Cement

repairs cracked joints, nail holes and defective places on slate, metal, gravel and prepared roofs.

This cement will repair a roof WHERE SOLDER CANNOT BE USED.

It is VERY ADHESIVE and sticks firmly to anything, forming a tough leather-like skin over the top; WILL NOT RUN or loosen from joints or cracks in Summer or Winter.

For twenty-five years, in all climates, this cement has given perfect satisfaction and its supreme usefulness makes it one of the best-selling items in a hardware store when properly displayed.

Put up in 1, 5, 10, 125 and 500-lb. containers.

GEO. W. REED & COMPANY, LIMITED
37 St. Antoine St., Montreal.

O-Rib-O
Square Coal Chute

The Nos. 4 and 5 models of our Square Coal Chute illustrated here are of very neat appearance; that appeals to the careful householder.

The door is made with a flange which fits over the rim of the frame, making it both wind and water proof.

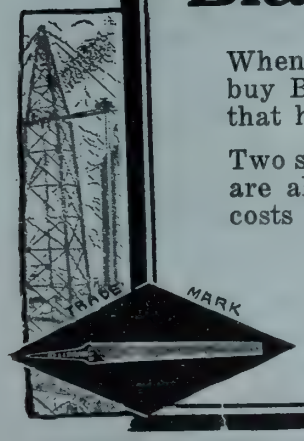
GLASS

GLASS—We are receiving regularly large quantities of Belgium glass. We stock or manufacture Plate, Bevelled Plate, Mirrors, Figured, Leaded, Wired and Prism Glass.

DELIVERIES—We can make immediate deliveries or spring import shipments.



PRICES—At a time when you want to buy at the lowest prices we urge you to place your orders with us. Our prices are attractive.

Write, Phone or Wire for Prices

HOBBS Manufacturing Company, Limited

MONTREAL TORONTO LONDON WINNIPEG

Black Diamond for Cutting

When you buy a file, you buy cutting service. For extra cutting value, buy Black Diamonds. Made since 1863 to a standard of file quality that has won highest honors at expositions and at the bench.

Two simple steps will lead to better filing except where Black Diamonds are already used. Our catalog is free for the asking. A shop trial costs nothing and will show convincing results.

Established 1863

"Save the surface and you save all", Paint & Varnish

Wa-Ko-Ver Stain
Beautifies All Woodwork

Not only does it beautify, but it wears like iron. You will find it pays in future sales always to recommend Wa-Ko-Ver Stain whenever your customers have worn floors or scratched woodwork to renovate. It restores the freshness of the floors or woodwork, pleases your customers, and makes permanent business for you. The established reputation of this effective, serviceable stain makes it a pleasure to sell. Good displays in your windows, on your counters, or other conspicuous places, remind visitors to your store, and people that would otherwise be "passers-by" of their need for Wa-Ko-Ver Stain. This sales-maker will handsomely reward a little sales-effort on your part.

The Trade Mark behind the "Hardware House of Quality"

DIAMOND A BRAND — ASHDOWN'S GUARANTEE

The Largest Wholesale Hardware Dealers in Canada

Duro Aluminum Ware

Makes Friends with the Housewife

Duro Aluminum Ware, "Just a Little Better," is a distinctive, sales-making line. This reliable Aluminum Ware is not sold by mail order houses or peddlers, but can be ordered direct from The J. H. Ashdown Hardware Co., Limited, the authorized Western Agents.

Tea Kettle

Cover, 5½ in. over all, dome-shaped with ebonized knob. Handle, flat steel, heavily retinned, with ebonized wood grip. Ears have notched handle rest to prevent handle from contact with kettle and becoming hot. Handle will stand erect when desired. Opening at end of spout large enough to fill from faucet without removing cover. Spouts are welded to the body.

Casserole

Equipped with 3-quart aluminum insert, 8 inches diameter with aluminum cover, handsomely finished and strongly made. A necessity on every housewife's table.

Convex Kettle

Large ears have notched handle rest to prevent the bail from contact with the kettle and becoming hot. Bail can also be locked in upright position when desired. Closely turned bead to prevent dirt and grease from entering. Raised bottom centres to avoid burning and prevent warping. Heavy Wire Bails. Inset Cover. Polished Finish. Inside X-Ray Finish.

Double Boiler

Both container and inset have heavy rolled edge. Inset can be used as a regular sauce-pan on account of improved pattern and the container as a convex sauce-pan. Cover made exceptionally heavy and fits either pan. Polished finish. X-ray inside finish.

Saucepan

Cool Steel Handles, heavily retinned, attached to pan with three rivets, which are not countersunk, and grip the utensil firmly and securely. Closely turned bead, to prevent dirt and grease from entering. Raised bottom centres to avoid burning and prevent warping. Polished Finish. Inside X-Ray Finish. Inset Cover.

Preserving Kettles

Ears have notched handle rest to prevent the bail from contact with the kettle and becoming hot. Bail can also be locked in upright position when desired. Closely turned bead to prevent dirt and grease from entering. Raised bottom centres to avoid burning and prevent warping. Tipper handle is attached with strong rivets and has hole for hanging. Polished Finish. Inside X-Ray Finish.

THE BUYERS' GUIDE

If what you want is not here, write us, and we will tell you where to get it. Let us suggest that you consult also the advertisers' index, facing the inside back cover, after having secured advertisers' names from the directory. The information you may desire may be found in the advertising pages. This department is maintained for the benefit and convenience of our readers. The insertion of advertisers' headings is gladly undertaken, but does not become part of any advertising contract.

Gaining New or Greater Distribution

is a well-recognized and familiar use of properly-directed, continuous advertising.

For either marketing on a national scale or by "Zone Methods" continuous, properly-directed advertising blazes the trail, carries your name, reputation and a knowledge of the product to the trade. It paves the way for the salesmen, lubricates your whole distribution system and creates friendly territory waiting to welcome your product and your travellers as your production expands.

A weekly message to the whole hardware trade of Canada through HARDWARE AND METAL—their recognized source of business information—will increase your distribution.

WANT ADS

If you want a buyer, clerk, salesman, traveler, position, you can reach the best men in the trade through these columns.

If you wish to buy or sell a business, or dispose of overstocks, you can reach a larger number of hardware men through this page than in any other way.

Rates (payable in advance) 2 cents per word. An additional charge of 10 cents for each insertion is made when Box Number is required. Each figure counts as one word. When panels are desired a charge of $1.50 is made for a panel 1 inch deep by 2⅛ inches wide.

Address all advertisements for this section to HARDWARE AND METAL, 143-153 University Ave., Toronto, Can.

HELP WANTED

WANTED SALESMAN WHO ABSOLUTELY knows how to sell paint. Must have at least 3 years' exclusive retail paint experience. A big thing for the right man. Mills Hardware Co., Hamilton.

Where Quality Counts

Furniture Polish is used on some of the most prized possessions of the housewife: her Piano, her Phonograph, her Buffet, her Mahogany Picture Frames. The Dealer, therefore, assumes a certain responsibility in selling furniture polish. That is why so many merchants—having investigated O-Cedar and found it all we claim—refuse to recommend any polish in which they cannot place that same reliance.

O-CEDAR POLISH has never been known to shirk the responsibility placed on it by either dealer or public. It never fails to live up to the expectations of the housewife.

Extensive Advertising is creating a bigger demand than ever.

O-Cedar Products—Mop and Polish—constantly make new friends; never lose old ones.

RICE LEWIS' NEWS

Spring Calls for a Renewal of Building—this Means Roofing Sales

"BEAVER BOARD" SHINGLES

"LINABESTOS" *Flame-Proof* BUILDING BOARD

ASBESTOS FIBRE CEMENT (*Liquid*)

READY ROOFINGS
"CROWN"
"JEWEL"
"EXCELLO"

WITH the opening of Spring comes a renewal of new building and repairing. No building, however leaky or in need of repair, can be left untenanted with the present demand for houses so insistent. We carry a most complete range of roofing and roofing materials, chief among which are the following:

"Beaver Board" Shingles

Made in two styles—the self-spacing shingle and the hexagon slab, both in blue or red with granite-coated surface. These are absolutely fire and weather proof. Guaranteed for 15 years. They are easily applied without experience.

"Linabestos" Building Board

is a wall board that has the combined advantages of the two greatest fireproofing materials known to modern science—asbestos and Portland cement. It is the only "absolutely fireproof" cheap building board which can be used as a finished surface with battens or to take a thin skin coat of plaster if a perfectly smooth surface is required for tinting, painting or papering.

Asbestos Fibre Cement

—a rubberlike, adhesive and tough preparation, made from finest asbestos fibre, creosote and durable oils. Makes any roof, no matter in what condition, absolutely proof against all climatic conditions. Easily applied over any kind of roof—metal, gravel, paper, wood or composition.

This preparation comes in a liquid form ready for immediate use.

Ready Roofings

"Crown"

—the lowest-priced grade for semi-permanent use, good value. Made in three weights, 1, 2, and 3-ply.

"Jewel"

—a better quality roofing made in 1, 2 and 3-ply, guaranteed for 3, 5 and 8 years, according to the weight.

"Excello"

This is our own high-grade prepared roofing. It is saturated with asphalt and has a rubber surface, guaranteed for 5, 10 and 15 years, according to the weight. Made in 1, 2 and 3-ply.

NOTE—We have a full line of plain and tarred sheathings and tarred roofing felts, also asbestos sheathing for use under shingles, etc.

Ask the "Rice Lewis" Man.

"Bagging" Your Trade—

With Klein bags is a profitable year-round business! Selling at firmly established retail prices, they assure a generous margin of profit.

Made by the same house whose reputation since 1857 has been built on the production of quality tools and accessories for linemen and electrical mechanics—Klein bags are naturally just a bit better—and *your trade knows it!*

The canvas bag pictured is made of *one piece* of heavy duck, reinforced at the bottom with the best heavy weight of bag leather. All seams are lock-stitched and welted—the bag's mouth is formed by a strong steel frame, the canvas being clinched between this frame and an inside secondary frame. The bottom of the bag is studded with strong steel studs, and the handles and straps are of the best harness leather.

Every Klein made product is stamped with the Klein trademark. It is your guarantee of quality and profit.

This is number one of a series of advertisements explaining the advantages of the Klein line to your trade.

There's more dope from where this came if you need it.

Write us for the name of your nearest jobber.

"America"
Trolley Hangers
The Dealers' Friend

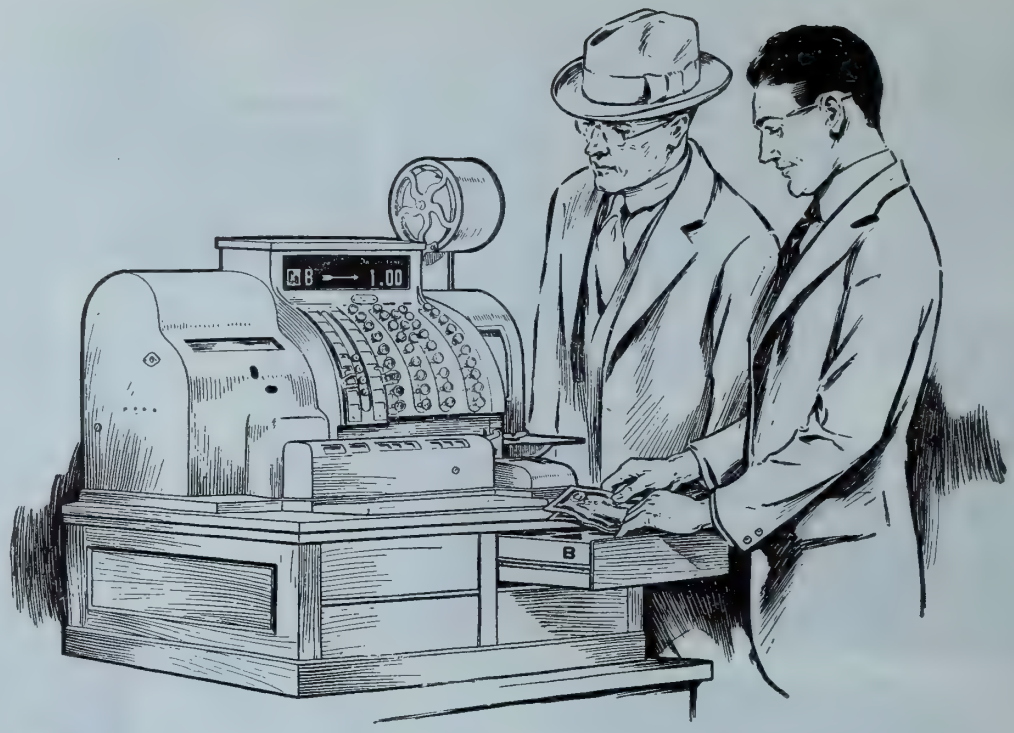
Steel Trolley Track

The "America" operates in the Hatch Trolley track—the only track supported by the famous corrugated track brackets. These brackets are, naturally, much stronger and better than ordinary, plain track brackets.

The Largest Sales of Any Trolley Hanger in the Dominion

If you are not now sharing in the sales of this "best seller" and others of the popular Canada Steel Goods Line, you are overlooking an opportunity for constant, profitable sales.

"America" is for warehouse, factory, garage and barn doors. It has tandem trucks, hardened roller bearings and an apron 6 in. long, 3¼ in. wide. This hanger appeals to customers because of the simple adjustments, anti-friction forged steel yokes and ability to stand hard usage.



Its popularity with consumers and its great demand are well founded—on merit.

With each pair of Hangers are included two End Caps, Bolts for Hangers and Lag Screws for Brackets. Packed one pair in a box complete with Screws and Bolts. Weight per dozen pairs, without Brackets, 95 pounds.

Clerk B has made a cash sale for $1.00

The indication at the top of an up-to-date National Cash Register gives publicity to every transaction. The merchant, the clerk, and the customer see this record.

This prevents mistakes in price and in making change. It removes temptation.

The record shown in the indication is printed on a strip of paper which is locked up inside the register. This record also is printed on a receipt for the customer.

The amounts indicated and printed are added into totals which show, at a glance, (1) the total business handled by each clerk, and (2) the total of each kind of transaction.

This assures the merchant that every sale is handled accurately. It also assures him of accurate records which give him control of his business.

This is the indication. "Ca" shows it was a cash sale. "B" is the clerk's initial. "1.00" is the price.

Charge sales are indicated by "Ch," received on account by "Rc," and paid out transactions by "Pd."

The same indication shows on both front and back of the register.

We make cash registers for every line of business

Linoleum and Floor Oilcloth Rugs

A Profitable, Fast Selling Line

AN active demand has sprung up throughout the Country for Linoleum and Floor Oilcloth Rugs—due first to the way they have filled a long-felt want for an inexpensive, durable and sanitary floor covering, and secondly, to our extensive Canada-wide Advertising Campaign.

Hardware Stores are now finding them most profitable to handle. They do not take up much space and they are in continuous demand. They are so attractive that your general display effect is enhanced where they are opened out and shown.

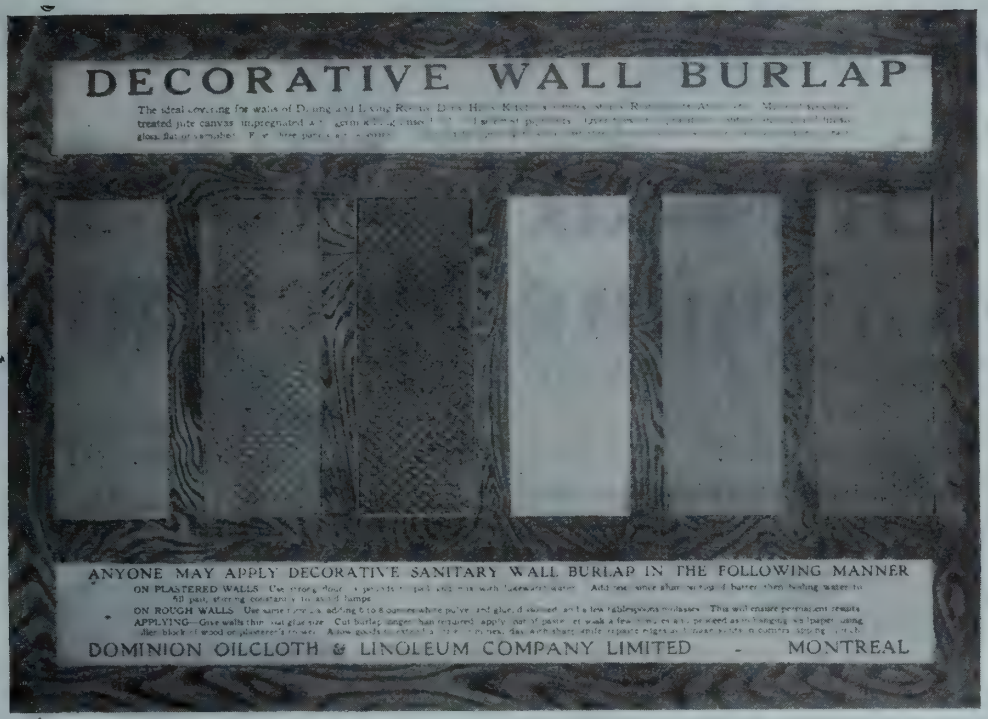
Linoleum and Floor Oilcloth Rugs, suitable for Kitchen and other rooms, and attractive stove mats, are made in the following sizes:

Floor Oilcloth, Mats and Rugs
3 feet x 3 feet
3 feet x 4½ feet
4½ feet x 6 feet
4½ feet x 7½ feet
6 feet x 9 feet
7½ feet x 9 feet
7½ feet x 10½ feet

Linoleum Rugs
6 feet x 9 feet
7½ feet x 9 feet
9 feet x 9 feet
9 feet x 10½ feet
9 feet x 12 feet
10½ feet x 12 feet
12 feet x 12 feet

Large rugs, 6 by 9 feet and over, are packed individually in cartons. Smaller sizes in rolls containing six—all of the same pattern.

IMPORTANT: These floor coverings are made in Canada to withstand Canadian climatic conditions by Canadian workmen. When you buy and sell these floor coverings you are buying the best, and, in addition, helping provide uninterrupted employment for these workmen.



Note.—Our Pattern Booklet, in Color, descriptive of nearly 150 patterns, will be forwarded no request.

What do you think of the Burlap Sales Booster?

HUNDREDS of Hardware Merchants will already have received their copy. Place it where it will work for you—on the counter as the silent salesman, and keep your stock well assorted to meet the growing demand.

Hardware Merchants throughout Canada will sell this year more Burlap than they ever thought possible. 1921 promises to be a banner year for construction, and, consequently, the banner year for sales of Burlap.

We shall also be glad to send you samples of Decorative Wall Burlaps in the three Oil-Coated shades—white, drab and green. You will be able then to show your customer the product—as he will receive it from you ready for applying to the wall just like wall paper, and for painting any desired shade.

Make up a starting order to-day. A small outlay will enable you to carry an ample stock of Decorative Wall Burlaps. Send for your Sales Booster.

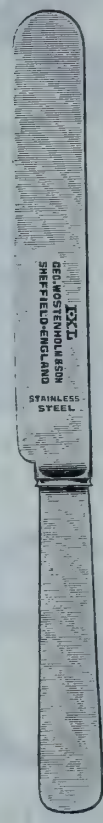
I-XL

Stainless Steel Knives

have now become so popular that no up-to-date merchant can afford to be without them.



We are now making substantial shipments to all the leading jobbers throughout the Dominion and would urge every retailer to see that his clerks have them to offer when required.

Stainless steel is a boon to the housewife as it absolutely does away with the knife board or cleaning machine, yet is always clean and bright for the table.

After extensive experiments we have finally overcome the many technical difficulties in tempering and are now combining all the virtues of stainless steel with a wonderful cutting edge.

Look for I-XL on the Blade.

The Eveready Line with the Ever-Steady Turnover—

Hitch Your Wagon to a *Star*

EVEREADY is the star-performer on the flashlight and battery circuit. It is kept busy responding to sales-encores, to the merry accompaniment of the well-known cash register bell.

Proof? Just you lay in a stock of Eveready Flashlights and Batteries. Display them where your customers can get their hands on them. The "Eveready" name itself is all the salesmanship required.

Eveready dealers, on an average, "turn" their stock of cases 4 times, and batteries 8 times a year. On cases alone, profits run exceptionally high on a small investment.

The Eveready jobbers in your district have an assortment that has proved a self-starter and a repeater. Get one of them to show you the line. If you don't know who the nearest jobber is, we'll tell you, if you'll just drop us a postcard.

Do that today and watch your sales-curve bend skyward.

Get Closer to that Customer —The Millwright

HOW many times have you tried to sell threading tools to the P. A. and neglected the Millwright? You'll find him a profitable source of new business.

He has—maybe—a helter-skelter collection of taps and dies. Some are there, others lacking — probably just the ones he will need for an emergency job.

Is the millwright planning to buy a complete set of assorted sizes sometime? Yes!

Will he buy it now if you urge him to? Well, try him!

Remember that a millwright, or his firm, should be a customer for the following:

A No. 5 *Little Giant* Screw Plate for making new bolts and threading rods, pulleys, couplings, machine bases, etc.

A No. 210A "*Trio*" Die Stock for threading pipe for carrying water, air, steam, or lubricants. (3 dies in one stock.)

GTD Pipe Wrenches for setting up and turning pipe of all sorts.

A No. 471 set of GTD Hexagon Rethreading Dies for dressing-over crossed and rusted threads.

There are few hardware dealers who cannot find in their neighborhood a millwright customer for the above tools—the aggregate sale of which ought to net them a handsome profit—and lead to other sales in addition.

A suggestion: Send us the names of a few millwrights or factory purchasing agents near you and we will help you circularize them for your benefit.

"W & B" Screw Wrenches are dependable *tools* for the heaviest duty because into each of their *parts* is put the skill and experience—the "know how"—gained during nearly half a century of wrench manufacture.

They contain no weak member. With head and bar drop-forged in one piece from specially selected steel, extra heavy jaw thoroughly case-hardened and an accurately made, solid steel screw, each part contributes its individual share toward the assured, dependable strength of the complete tool.

Two models—"Railroad Special," with iron handle, and Machinists' Knife Handle, "Made in Canada" and illustrated above, are the strongest and best heavy duty screw wrenches made. Seven sizes—6 to 21 inches.

A third model—"Agricultural"—is "Made in Canada" and is supplied at a lower price where the maximum of strength and service is not necessary. Five sizes—6 to 15 inches.

Story for Week Dated April 2, 1921 Being No. 51 in the Series

Delivering E. B. Eddy Company Products To The Retailer

Above is a photograph of the railway siding at the E. B. Eddy Company's plant in Hull with box cars waiting to be loaded with Eddy Company products. Speed in production is one characteristic of E. B. Eddy service. Speed in delivery is another. From this siding via Hull electric service to the main lines from ten to fourteen carloads of Eddy Company mixed products are despatched every day. The Eddy Company shipping staff employs at least thirty men constantly engaged in shipping Eddy Goods. Six auto trucks are used to convey smaller shipments to the various freight depots which are very conveniently situated for the maintenance of Eddy Company service. One of the fastest feats in delivering Eddy Company products was achieved in July last year when on the 10th a wire was received ordering one and a half tons of paper, fibre and manila. The same day the shipment left the plant, and a day later it was in Montreal. This was a large shipment but equally swift or even swifter service is often rendered by the Eddy Company with smaller shipments to the retail trade.

The Price Policy of PYREX

OTHER kitchen utensils have advanced in price as much as 100 per cent.

Since 1915 the maximum advance of PYREX has been only 20 per cent. On some of the numbers only 10 per cent.

This price policy has been made possible by the enormous increases in the demand for PYREX, which we now know will be even greater this year.

There is not only safety and surety in a complete stock of PYREX, but the quick, constant turnover insures a regular and dependable influx of profit.

Genuine PYREX is business insurance, undisturbed in price by violent fluctuations, undiminished in demand by public retrenchment.

The price policy of PYREX will be maintained—100 per cent. on the dollar, making it the safest and surest investment in housewares.

THE SIGNIFICANCE TO *YOU* OF THE MEMBERSHIP OF

HARDWARE & METAL

IN THE ASSOCIATED BUSINESS PAPERS, INC.

YOU depend upon Hardware and Metal for an unbiased and accurate report of all news affecting your business interests.

Probably, too, you give heed to its editorial counsel in many matters of considerable consequence. You have a right, therefore, to know about the policies and principles back of the important service rendered by Hardware and Metal.

The membership of this publication in The Associated Business Papers, Inc., means that it has achieved an exceptionally high publishing standard, and has subscribed unreservedly to these—

STANDARDS OF PRACTICE

The publisher of a business paper should dedicate his best efforts to the cause of Business and Social Service, and to this end should pledge himself—

1. To consider, first, the interests of the subscriber.
2. To subscribe to and work for truth and honesty in all departments.
3. To eliminate, in so far as possible, his personal opinions from his news columns, but to be a leader of thought in his editorial columns, and to make his criticisms constructive.
4. To refuse to publish "puffs," free reading notices or paid "write-ups"; to keep his reading columns independent of advertising considerations, and to measure all news by this standard: "Is it real news?"
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To supply advertisers with full information regarding character and extent of circulation, including detailed circulation statements, subject to proper and authentic verification.
8. To co-operate with all organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of the field which he serves, and then to strive in every legitimate way to promote that function.

If you have read the foregoing standards, there is not much left to be said, except to tell you that these principles are *present day realities* and not merely beautiful ideals for future attainment.

The Turnover Tax is Favored

Wholesaler Submits Figures Showing Turnover Tax of 1% Would Provide Sufficient to Abolish Excess Profits and Other Taxes—Credit Men and Retailers Agree if Tax Equitably Applied to All Branches of Trade—"Government Not Above Criticism," Says J. A. Banfield

MANY phases of the application of present and proposed forms of taxation were dealt with at the conference of retailers, wholesalers and manufacturers in Toronto on Wednesday and Thursday of this week. The conference was arranged with a view to giving the Minister of Finance some definite suggestions on which to frame the new form of taxation to raise needed revenue. The conference was conducted under the chairmanship of J. A. Banfield, president of the Dominion Board R.M.A., and with J. T. Stirrett, of the Canadian Manufacturers Association, acting as secretary.

After an inaugural address by J. S. McKinnon, president of the C. M. A., in which he emphasized the need for co-operation among business men, discussion commenced as to the proper definition of the terms "manufacturer," "wholesaler" and "retailer," but as this discussion tended to be prolonged and doubt was expressed as to the relative importance of the matter, further discussion on that point was deferred until after a discussion of suggested forms of taxation to be applied.

There were several minor altercations concerning this point, and some suggestions of a tendency on the part of certain bodies to "get from under," and, despite the efforts of Vice-President Watters, of the R. M. A., to secure the definitions, a motion proposed by M. C. Ellis and seconded by W. H. Lamont, H. S. Howland Sons & Co., Toronto, the purport of which was to postpone the defining of the various terms until after the discussion on taxation, was adopted.

Speaking to this motion, Geo. Douglas, Hamilton, Ont., a member of the C.M.A. committee on taxation, pointed out that defining the status of certain parties under the legislation was a matter of administration which the government would attend to after the method of taxation had been decided upon. T. W. Learie, representing the Canadian Credit Men's Association, agreed that what credit men wished to discuss was taxation.

In seconding the motion, Mr. Lamont stated that taxation was the fundamental and that it should be kept in mind what the various forms of taxation had provided the Government in revenue.

Message from the West.

Horace Chevrier, Winnipeg, representing the opinion of western retailers on the issue, pointed out that at the last meeting of western merchants it was decided that the tax should be collected at the source of manufacture or importation. In presenting this statement, Mr. Chevrier continued:

"Whatever affects the retailer is bound to be felt by the wholesaler, and vice versa. Any break that is put upon distribution goes back through the gradations of wholesaler and manufacturer, and has its effect upon them, their staff and their capital. If a sales tax were placed on the turnover of the retailer, it would be just as bad as the luxury tax placed on part of the turnover, and we know that the retailer had to absorb the tax in many cases. It was illegal to absorb it, but it was done because it was necessary to liquidate accounts and allow wholesalers and manufacturers to carry on.

"The retailers are closest to the public, and they have to distribute your goods. If they have to sell a sales tax as well, it is more than they can do. The least interference with sales means much loss. Put the brakes on trade by having a sales tax collected by retailers, and it will result in unemployment, unrest, waves of crime, and a continuation of the period of stagnation.

"We say the tax is absorbed, but remember business is not managed by angels or saints. We are wrestling to get our bread and butter, and if you make a tax to be absorbed you are encouraging the merchant to put the brakes on his selling energy. With a definite sum of taxation staring him in the face, the merchant will ease off if he is not pushed forward by the fear of debt, and he will be dulled by the fear that he will be fined for keeping up his turnover.

"We need to have the retailer recover his courage so he will be able to resist this continuously falling market and put him in a position to say, 'I will not continue to give away goods.'

"If the sales tax is put on the retailer, you will put a crimp in that determination. Some retailers will add the amount of the tax more than once to be sure they collect it, and this will bring further protests from the consumers.

"The retailer is the distributing plant for the manufacturers, and it is great folly to encourage any legislation that will hamper him. It is just as absurd as it would be for the retailer to hobble his delivery team and expect his delivery equipment to cover the ground."

What the Taxes Produce

W. H. Lamont gave some definite statistics bearing out a plan to adopt a turnover tax. He pointed out that the present taxation yielded a revenue of $110,000,000. The income and business profits taxes cost 2½% to operate, while the sales tax costs 1¼% to operate.

"We want to pay the tax in the simplest manner possible," said Mr. Lamont. "Our internal turnover, allowing for exports, agricultural and other products distributed without reaching a retail store, amounts to four billion dollars at the source. A fair average turnover, considering the stages these products pass through, is three times, thus giv-

TAX RECOMMENDATIONS

The joint conference on taxation of the manufacturers, wholesalers and retailers in Toronto resolved as follows:

1. That the Business Profits Tax be not re-enacted.

2. That the Income Tax on corporations be repealed.

3. That the present Sales Tax be adjusted so as to provide the additional revenue needed by the Dominion Government.

ing twelve billion dollars. An average profit of 15% each time brings in a profit of six billion dollars and an internal trade of eighteen billion dollars. That will produce $180,000,000 in taxation at 1%, which is about $70,000,000 more than the Government is getting now. We must impress upon the Government the need for economy and simplicity in taxation.

"Is it not reasonable, therefore, to ask the Government to repeal all three laws now in force and substitute a turnover tax? We do not want a sales tax shown in the invoice. The turnover tax operates more smoothly."

Speaking of the income tax, Mr. Lamont pointed out the big expense involved in furnishing the required information to the Government. He pointed to the fact that in England the income tax had been in force for years, and there were still many who were not paying it.

A representative of the C.M.A. committee on taxation outlined the stand taken by that body, namely, suggesting that the business profits tax be not reenacted, that the income war tax as affecting corporations be repealed, and that the sales tax be extended.

J. A. Banfield hereupon presented the resolution adopted by the R.M.A. to the effect that the tax be collected at the source of manufacture or importation.

"Is it fair," asked Mr. Banfield, "that the retailer must absorb the sales tax while the manufacturer and wholesaler do not have to absorb it? Put the tax at the source, we do not care what per cent. it is, and we will pay our share. We do not wish to evade the tax, but we want some form of tax by which everyone pays his share.

"We need $525,000,000. Is it going to be cheaper to collect it from the wholesaler and manufacturer than from the retailer?"

Mr. Banfield drew attention to the fact that in dealing with the Bankruptcy Act the necessity was seen of every retailer keeping books, and suggested the same plan would have to be followed in enforcing the taxes.

Indicating that present taxes were not being borne in equal share by all, Mr. Banfield quoted figures showing that Ontario farmers paid income tax totalling $67,974 last year, while Alberta farmers paid $361,218, and Saskatchewan farmers paid $340,900. He suggested that the Government was not collecting the present tax as it should.

Where Does Government Stand?

Stating that the Government was not beyond criticism in its handling of the country's business, Mr. Banfield mentioned that while the Minister of Finance was pointing out the necessity of curtailing imports, 67 ships were employed, or to be shortly employed, by the merchant marine, to carry on trade with other countries, and part of their function would be to bring imported goods to this country. He also referred to his recent trip to Jamaica on the "Canadian Fisher," which, through lack of foresight, had not been equipped to handle the products of the countries with which it was intended to trade.

"They can tell us what we should do, but as business people they should look into their own affairs. The retailers, wholesalers and manufacturers should be fairly dealt with, and we do not want the Government to send out propaganda telling us what we should do."

Mr. Douglas, member of the C.M.A. committee on taxation, stated that the present taxes were an outgrowth of the war, and the restrictions on business should now be removed. As a remedy he suggested that a 1% tax should be levied on every commercial transaction from the primary sale, this tax to be paid by the seller.

"The sales tax should be paid by the man who makes the sale, and it should not be passed on, except in the price he charges, and it should not be put on the invoice," said Mr. Douglas, who pointed out that a tax at the source would be pyramided and finally result in a tax of 5 to 10%.

"The retailer should pay 1% on his sales; he will get the same profits, and there will be no injustice. The most stable basis for taxation is upon the consumption of the country."

Mr. Banfield asked where the retailer would get the 1%, and Mr. Douglas drew attention to the previous statements of retailers that they were willing to share the burden. In regard to goods on which prices were fixed and on which the tax could therefore not be included, Mr. Douglas mentioned that in many cases to-day a 2% tax was being absorbed on such lines and that the proposed tax of 1% would lighten the burden.

Credit Man Speaks.

T. W. Learie, Canadian Credit Men's Association, emphasized the fact that we must make investments in our own country and that these investments must be made to pay. He pointed out that in some respects the sales tax was not favorably regarded, and stated that his association had concluded that the best method was the one which would place the burden equitably over the entire business of the country. He thought this could better be done by a percentage tax than by the accumulation of a large tax placed at the source. He stated that, though it might be difficult to collect the sales tax, if the penalties were made sufficiently severe there would be little attempt to evade it. He suggested that the sales tax could be paid every thirty days, and that in the outlying districts postmasters could collect it. He pointed out that a lump tax at the source was a menace to retailers, stating that a 5% tax on a stock of $100,000 would represent $5,000 of the merchant's money tied up in stock while it was on the store shelves. He concluded with the statement that his association favored a turnover tax equitably applied.

Finance Minister Appeals to Business Men

Sir Henry Drayton Meets Eastern Ontario R.M.A.—All Interests Must Pay in Taxes All They Can Afford

ALMOST two hundred Canadian business men and a score of local business women listened to an address by the Hon. Sir Henry Drayton, Minister of Finance, delivered at a luncheon in the Chateau Laurier, Ottawa, this week, under the auspices of the Eastern Ontario branch of the Retail Merchants' Association of Canada. Sir Henry's reception was most enthusiastic and the merchants probably never had the financial situation of Canada more comprehensively placed before them.

Sir Henry, in his speech, said: "You all know me, or of me. Some of you may not have been altogether favorably impressed in the past with the memories that my name evoked. In spite of this we have all got along pretty well together. I am sure, however, that the retail merchants realize the importance and necessity of stopping extravagance and luxurious buying and of stopping the apparently ever advancing high cost of living, even if it means standing some loss. I know you realize it because you did stop it to a great extent and I thank you.

"No thanks are due for the removal of any tax any more than there is any blame for the putting of it on. It is only put on when necessary and, like a plaster over a sore, should be taken off as soon as possible.

Will Consult Business Men

"I do not know your ideas as to how things should be run, but the best thing that he who is responsible for raising money should do is to meet his fellow Canadians like this before adopting any fixed programme. We have been trying to find out what is the best way to produce the largest revenue with the least inconvenience. The inescapable demands on the public purse are very great for the discharge of our obligations, obligations which every honest Canadian desires to see met. There is no room for selfish issues here or there. It is not a question of how much can I escape pay-

Staging A Successful Spring "Gun Opening"

Under Heading "Gun Men in Town" Advertisement by W. H. Thorne & Co., St. John, N.B., Outlines Visit of Representatives of Two Manufacturers of Guns and Ammunition—Large Numbers of Sporting Goods Prospects Gathered Into the Store—Help Store Salesmen

W. H. THORNE & Co., Ltd., St. John, N.B., have been putting a little "pep" into the rifle and shotgun business, and have given their large sporting goods department some valuable publicity. It happened that A. A. Dwight, representing the Remington Arms Co., of New York, and F. E. Fraser, representing the Birmingham Small Arms Co., of Birmingham, England, were in St. John at the same time, and had with them a full line of the latest models in rifles and shotguns. Mr. Fraser also had a splendid line of sportsmen's accessories, gun implements, etc. A bright idea struck J. W. Andrews, Thorne's sporting goods sales manager, and W. O. Bagnell, the department manager. The dry goods houses have spring openings, so why should not the hardware houses follow suit and have a spring opening? It was decided that Thornes would have a "great gun opening." Under the somewhat startling headlines, "GUN MEN" in town, Messrs. Thornes announced the date of March 24 as their gun opening, and that Mr. Dwight and Mr. Fraser would be at the service of the public on that day.

Send Out Invitations

A display stand was erected for the use of "the gun men," the rifle and gun show cases were cleaned up and well stocked with guns and rifles. One hundred and fifty invitations were mailed out to the well-known sporting men of the town, including schools, boys' clubs, trapshooting association, cadets, etc. Almost before Mr. Fraser and Mr. Dwight arrived on the scene in the morning some of the sportsmen were on the job, and by ten o'clock there was a good crowd in attendance. In fact during the whole day there would be no less than a dozen or eighteen customers there all the time. Business men would leave their offices for a few minutes, run into the Thorne store and examine the guns and rifles on view and then return to work. It is estimated that about one hundred sportsmen called, and they one and all expressed their delight with the goods shown. A great deal of interest was shown in one type of air rifle. Mr. Fraser ably demonstrated the working of this rifle and it appeared to be the centre of attraction. Another rifle that created a good amount of interest was the 303 sporting model.

Displaying Other Equipment

Mr. Fraser's display of gun implements caused quite a sensation, and many sportsmen saw for the first time

The sporting goods department of W. H. Thorne & Co., St. John, N.B., where the novel device to create interest in guns and ammunition, as outlined in this article, was carried out. Guns and ammunition are shown at the rear, guns arranged in a glass case and ammunition on the shelves alongside. Bicycles are shown in a prominent location now that the bicycling season is again at hand. Other seasonable sporting goods lines are also on display.

equipment that was of the greatest aid to keeping the gun or rifle in good condition. The Remington man, Mr. Dwight, put in some hard work showing his pump guns, rifles and ammunition. One of his special features was the exhibition of some Remington shot shells that had been under water several days and were still able to be used and would work in the pump gun. This fact was hard to be believed by the visiting sportsmen, but seeing convinced them. Mr. Dwight also had on view a showcard showing the records of Remington ammunition and guns, also an announcement was published stating that the guns and rifles on view could be seen in action at the gun club. Mr. Dwight was able to give the visitors to the store much valuable information.

GUNMEN IN TOWN.

A. A. Dwight, representing the Remington Arms Company of New York, and Mr. Fraser, representing the Birmingham Small Arms Company of Birmingham, England, are in town.

Both these gentlemen carry most up-to-date Fire Arms and will be at the service of the public all day Thursday in the Sporting Department of W. H. Thorne & Co., Ltd.

Mr. Fraser has samples of some very high grade Guns and an exceptionally fine line of Gun Cleaning Implements. Mr. Dwight has with him the last thing in High Power Rifles and 20 Ga. Repeating Shot Guns.

Anyone interested in looking over these lines will do well to visit Thorne's Sporting Goods Department on Thursday.

This is the wording of an ad which appeared in St. John, N.B., papers outlining the event which was to take place at the W. H. Thorne & Co. store. It carries a heading particularly striking in view of the frequency of hold-ups taking place in many parts of the country. Needless to say it was anxiously read by many of the citizens.

An Interested Visitor

O. J. Killam, the high man for Canada, who broke 296 birds out of a possible 300, was an interested visitor, and did some good shooting with the B.S.A. air rifle. Mr. Fraser reported to Hardware and Metal that he was having a very successful tour, and so far as he had been had received orders at every town, showing that the gun and rifle business was picking up again.

"Gun Opening" for All Merchants

This "gun opening" has caused considerable interest in St. John, and could be carried out by merchants all through Canada with good results. One of the pleasing features in connection with this demonstration was the fact that several country residents made it a point to drop in and look over the lines on view. These men had seen the announcements in the local papers, and, as many farmers are keen sportsmen, they naturally made the most of the opportunity. In conversation with Mr. Andrews, he said, "This demonstration is going to give our gun and rifle business the biggest boost that it has ever had, and we are going to get some good sales. We are not pressing the visitors to buy, but just getting them interested, their own desires will prompt them to purchase. We want them to feel that we are at their service, and are in a position to give them just what they want."

Stimulate Store Salesmen

These demonstrations have a stimulating effect on the salesmen, and they learn many pointers from the men who are experts in the gun and rifle business. In the case of the Thorne demonstration, the sporting goods salesmen showed a keen interest in the whole affair, and kept Mr. Dwight and Mr. Fraser busy answering questions. These salesmen proved themselves to be quick in picking up the special points of the guns and rifles on view, and were demonstrating with almost the same ease as the factory representatives.

W. H. Thorne & Co., Ltd., are proving themselves to be "live" merchants, and have carried out several undertakings which have given them much good advertising. They are firm believers in up-to-date merchandising methods.

During the Christmas season they put out a pamphlet entitled "Thorne's Christmas Herald." This was illustrated and priced and brought in a large amount of business. During the world series baseball games between Brooklyn and Cleveland last year they erected a huge score board on the outside of their Prince William Street store. This was watched daily by hundreds of citizens. In connection with the Thorne phonograph department, the leading moving picture house has been hired on several occasions, and tone tests have been carried out in which the artiste sang in comparison with the instrument. The lights would be turned out and the guests would be left to judge whether it was the phonograph or the artiste they were listening to. Although the firm of W. H. Thorne & Co., Ltd., is more than half a century old, and the founder is still at the head, the business methods are of 1921 variety.

Two Definite Tax Proposals Submitted

Conference in Toronto Divided on Merits of Straight Turnover Tax and Sales Tax at Increased Rates—Manufacturer Warns Against Tax Being Collected Till Goods Are Sold.

CONTINUING the tax discussion at the Thursday conference of retailers, wholesalers and manufacturers in Toronto two definite proposals were submitted to the resolutions committee with instructions for that body to draw up a suggestion that would likely satisfy a majority of the manufacturers and merchants gathered.

The alternative merits of a straight 1 per cent. turnover tax and the sales tax at increased rates collected solely from the manufacturers and on importations by customs divided the conference into two groups.

A. C. Pyke, secretary of the Wholesale Grocers' Association, submitted the proposals of that body which were in substance identical with those presented by the Canadian Manufacturers' Association and as outlined elsewhere in this issue.

The third proposal is "That the sales tax at an increased rate be collected solely from manufacturers and on importations by the customs, which tax would be included directly in the manufacturers' costs. Or as an alternative, if this third suggestion is not possible, then we recommend that the sales tax now in effect should be increased, and if necessary extended to other lines now exempt, sufficiently to provide necessary revenue and that the provisions and regulations regarding the collection of this tax as at present in operation be continued."

Consumer Foots the Bill

G. Douglas, Hamilton manufacturer, characterized the scheme of the manufacturers and the grocers as a proposal that would inevitably make the consumer foot the whole bill. He stated that the proposal was unsound because it would be pyramided and the tax, which began with 5 per cent. on all imported raw material and which would amount to at least another 5 per cent. on the manufacturer, would when it reached the consumer amount to at least 10 per cent., not counting intervening profits.

"Make no mistake, the manufacturer will pass on that 5 per cent. tax to the retailer, who will pass it on to the consumer," said Mr. Douglas.

F. N. Stewart warned against letting the Government take $200,000,000 out of the business of the country by collecting the tax on the article as it was being manufactured. "The least tax possible should be imposed on any article while it is in either the manufacturing or distribution stage. Such money is withdrawn from business circulation. Let us keep those millions until we step up to the counter and buy our goods."

Continued on page 56

Improving Hardware Store Display Facilities

New Premises Occupied by Adams & Vandusen, Hardware Merchants, Picton, Ont., Designed to Concentrate Certain Stocks and Allow More Effective Display.

THE hardware business of Adams & Vandusen, Picton, Ont., recently outgrew its former premises, making necessary the construction of the fine new store shown herewith. This store is 30 feet in width and 80 feet in depth, giving considerably more floor space than was previously occupied and allowing of much improved display facilities. The members of the firm are strong believers in the necessity of having modern equipment and good display facilities to develop hardware business along the right lines.

The new hardware store of Adams and Vandusen, Picton, Ont., which provides much more floor space than was formerly occupied and allows of better display facilities than was the case with the former store, located right alongside the new premises. Further extensions are being planned to this store during the coming summer.

The basement of the store is full size, with concrete floor and a 7½-foot ceiling, allowing plenty of room for the plumbing shop and department devoted to heavy tinwork such as repairing cheese vats, etc., of which this firm gets considerable trade. At the rear of the store on the main floor is located the tinshop where tinsmithing of a lighter character is carried on.

Separate Department for Stoves, etc.

The floor above the store is used as a sales department for stoves, washers, refrigerators and other such articles, and here is also kept the reserve stock. Here plenty of natural light is provided and the stock, well polished and neatly arranged, is kept in best order. It has also been found advantageous to centralize these lines by themselves in a department located away from the main store because of the fact that they are articles which are sold only after much consideration and much examination on the part of the customer. It has been found that the privacy of this department and the elimination of interest detracting influences has helped the salesmen in dealing with customers.

This firm in 1908 bought out the business formerly carried on by I. N. Waite. Up until this spring the stock consisted of tinware, stoves, furnaces, paints and oils, etc., but now a stock of general hardware has been added, the new premises making such development possible and advisable. The senior member of the firm formerly travelled in Western Ontario for Lewis Bros., Montreal.

In addition to the building shown herewith, an iron-covered shed is also used for storage purposes, and owing to the fact that space is still limited, the firm is already planning an addition to the new store, to be built this summer.

Value of Display

It will be noted that the display windows are used to best advantage. This has been an important point in the selling activities of this firm. A seasonable display of paint is shown in one window with some rolls of building paper, garden tools, etc., placed in front of the store and in the other window is a display of washers, tubs, butter churns, stock foods, etc., all seasonable lines in the district in which the store is located.

Special effort is applied to the sale of such lines as are displayed throughout every phase of the store's activities, whether it be the advertising, personal effort or use of circulars or letters. In this way all effort is concentrated on certain seasonable lines and maximum results are secured.

Successful Demonstration Of Electric Ranges

A most successful demonstration of electric ranges was held by Ingram and Davey, of St. Thomas. The firm followed its usual method of advertising the demonstration in advance and then backing this up by very attractive store and window displays. A number of sizes and styles of ranges were shown and were arranged most attractively. That a very live interest is being taken in cooking electrically by housewives was shown by the large number of women who attended the demonstration. A big point emphasized in connection with cooking by electrical ranges, in addition to the freedom from having to bother watching a fire, is the big saving in whatever is being cooked. This is especially noticeable in cooking meats and when pointed out to women is a big talking point. The obvious convenience of the stoves, merely pressing a button to start or stop the heat, the regulating devices, the fine appearance the stoves make in a home, and the long service they render were all emphasized.

The firm sees a big future coming in the electrical stove trade now that retrictions regarding power have been lifted. With the extension of the hydro lines into rural districts splendid opportunities for sales will be developed. Already a number of the stoves have been sold and like any other article that gives continuous service and satisfaction each is in itself a splendid advertisement that brings other sales.

Industrial Activity in Oshawa

According to an Oshawa man, conditions in the automobile plants in that town are constantly improving, and the McLaughlin, Chevrolet and Oldsmobile shops are all running. The rate of production, of course, is not up to normal, but it is increasing. "I have no definite figures," said our informant, "but I should say that around 60 per cent. at least would be their present rate of operation."

"Another thing that we can judge by," he said, "is the unemployment, which has practically ceased. Some of the men who were skilled in certain lines of work in the auto shops who were let out some months ago have been brought back to work, and some time ago all the married men had been given their places back. Fittings Limited is also working on a fairly good basis, and they must have about 80 per cent. of their normal staff at work now.

Advertising and Window Display

A GREAT many hardware lines lend themselves admirably to effective publicity during the spring and early summer months. At the change of the season people are generally in a mood for anything which suggests an early return of summer weather and well planned advertising at this time of the year can be made to produce big returns.

Herewith are some samples of advertising being done on seasonable lines by some hardware firms. Screen doors and windows will soon be in vogue. A few days of mild weather soon start the flies on their annual pilgrimage and during the month of April there will be a call for this means of protection. A number of screen doors and windows are illustrated in the ad by Stanley Mills Co., Hamilton, Ont. Specifications are outlined in detail showing the height and width when closed and opened, and prices.

There are also many requirements for the lawn which will be in demand during April. These include lawn mowers, hose, hose nozzles, ring sprays, hose menders, hedge shears, watering cans, hose reels, etc. This list might also be extended to lawn rollers, garden rakes, trowels, and other such tools which are generally required in the fixing up of the lawn in the spring. Each line is well illustrated, briefly described and price marked.

Wheel Goods

As the streets are cleared of ice and snow various lines of wheel goods again come forward. There are certain lines such as baby carriages, etc., which are necessary where there is a young family, and then there are the amusement lines of wheel goods, such as scooters, wheelbarrows, automobiles, tricycles, jiggers, etc., which are in demand as soon as the weather becomes warm enough for the children to play outdoors. There is a wide range of such goods as shown in the ad by Ingram & Davey, Ltd., St. Thomas, Ont., and this line offers a good chance for some effective advertising.

For the Changeable Weather

McKelvey & Birch, Ltd., Kingston, Ont., are advertising oil heaters as an article of comfort during the changeable weather of spring. Recent cold spells in various parts of the country, following upon a brief spell of exceptionally mild weather, provide a good argument for such advertising. When the furnace is let out for the summer there will be many chilly days and evenings before the warm weather becomes settled and an oil heater in the house may be very acceptable at that time. The heater is easily carried from room to room and it can be regulated so as to provide just sufficient heat to keep each room comfortable as it is occupied.

Grouping Spring Needs

An ad grouping a number of spring needs for housecleaning and other requirements is a good suggestion at this time of the year, providing the ad. is well laid out and illustrated. A recent ad by a Toronto hardware firm groups the following items: Step ladders, wash boards, electric lamps, house brooms, garden tools, clothes lines, roofing, building papers, paint brushes, paints, mops, steel wool, wall tints, floor and furniture polish, floor wax, waxing brushes, wall scrapers, wall paper cleaner, etc. There are some other seasonable lines which can be added but it is not wise to attempt to group too many articles in such an ad. It is better to group articles of a class such as housecleaning requirements, garden and lawn tools, paints, varnishes and specialties, etc.

Suggestions for Month of April

Spring housecleaning is on in full force and as it is difficult to make an attractive arrangement of lines suitable for such a display, this suggestion will be of help. Here is found a wide assortment, each individually prominent and price marked.

The spring fishing season will soon be commencing—it has already commenced in some of the more temperate parts of the country. Here is an effective suggestion for a spring display of fishing, camping and other such requirements. It shows a natural setting designed to remind the angler of his favorite fishing haunts.

Hardware and Metal

Canada's National Hardware Weekly

PUBLISHED EVERY SATURDAY SINCE 1888 BY

The MacLean Publishing Company, Limited

Montreal TORONTO, CANADA Winnipeg

SATURDAY, APRIL 2, 1921

IT is interesting to note that increased operation in the automobile industry is creating some betterment in the steel situation. There has however, been a tendency to overrate the effect on the steel industry of resumption of automobile manufacture in view of the fact that all motor vehicles built in 1920 consumed only 5 per cent. of the year's steel output.

A Broader Outlook

IN dealing with industrial conditions and the outlook for the manufacture of brass goods in Canada, a manufacturer whose views are expressed elsewhere in this issue, points to the increasing export demand for Canadian brass goods as an important factor which indicates not only a wide field of potential demand for such products, but a means of assisting Canadian manufacturers to maintain production during the dull periods in domestic trade. The export market for Canadian brass goods is at present limited to South America and South Africa, but so favorable an impression have our products made in those markets that extension to other export markets is likely to follow rapidly. An interesting feature of this development is that formerly English manufacturers of brass goods practically controlled these foreign markets and it is only recently that Canadian manufacturers have secured a foothold.

The export market undoubtedly provides a valuable opportunity for Canadian manufacturers to widen their field of trade and the result will be to improve Canadian credit abroad as well as to develop this country industrially. In this connection it is interesting to note that Canada's Merchant Marine, by which the development of export trade is facilitated, showed a profit of over three-quarters of a million dollars during 1920. Forty-seven vessels were kept busy throughout the year plying the waters between Canada and foreign countries, while the ocean going cargo carriers of some other countries which formerly were prominent in export trade were rusting at their docks.

The experience of the brass goods manufacturer, as outlined, is being duplicated by Canadian manufacturers of other lines as well and the tendency to look upon the markets of the world as a logical outlet for Canadian products instead of confining attentions to developments only within our own borders will help to smooth out the problems of the readjustment period and place Canada in a foremost position industrially.

Not Beyond Criticism

AT the conference of retailers, wholesalers and manufacturers in Toronto the discussion along lines of proposed taxation was departed from in some cases to give voice to the opinions which certain bodies hold regarding the administration at Ottawa. The appeal of the Minister of Finance for Canadians to restrict importations, especially of luxuries, such as foreign fruits, etc., was thought to have little foundation in view of the fact that importations are evidently looked for by the Government to keep the 67 odd vessels of the Canadian Government Merchant Marine in profitable operation. J. A. Banfield, president of the Dominion R.M.A., was recently on a trip to Jamaica on one of these vessels, and criticized the methods of the Government in failing to provide the vessels on that service with the facilities necessary to successfully carry the products of the countries with which it was desired to trade and in other ways.

Mr. Banfield at another stage in the proceedings rebuked the Government for its alleged failure to collect the present income taxes. He quoted figures showing that the farmers of Ontario were paying income tax of only about twenty per cent. of what the farmers of Saskatchewan or Alberta are paying.

These statements were no doubt made to show that the Government was not beyond criticism and that in view of these facts the administration at Ottawa was not justified in charging retailers with being a party to any plan which would damage the country's industrial fabric.

Optimism Based on Facts

MANY optimistic reports have in the past been forthcoming concerning the developments of the automobile industry in the immediate future. Some of these reports have tended to discount the seriousness of the situation which really existed among automobile manufacturers during the recent "quiet" period of business. In this connection it is interesting to note there is a feeling among certain branches of the trade to-day that there has been a good deal of "camouflage" or false propaganda spread by those whose interests would best be served by having the trade believe that conditions were better than they really were. While this may have been the case in the earlier stages of the period referred to, there has recently been more of a tendency for everyone to be honest with themselves to put forth the true facts. Credence is therefore given the reports at present forthcoming from the various centers of automobile manufacture pointing to a resumption of activity on a fairly broad scale and this is looked upon as a hopeful sign for the continued development of the industry during the year.

Canada, has, in the manufacture and sale of automobiles, parts and accessories, an industry of remarkable proportions and an industry in which future development will be of great importance to the hardware trade. Canada now has nearly half a million motor vehicles registered, and the early resumption of manufacture should result in greatly exceeding this number during the present year. The large number of cars now in use in Canada will guarantee a large trade in accessories and the continuation of automobile manufacture on the scale achieved in recent years will provide a rich field of accessory business for the future.

News of Western Canada

Conditional Sales in Alberta

Amendment Passed by Alberta Legislature of Vital Interest to Retail Merchants

THE Alberta Legislature at its last session passed an amendment to the Bills of Sale Ordinance requiring that all conditional sales of goods must be registered in order to protect the vendor of the goods in the case of the purchaser being adjudged a bankrupt; otherwise the goods become the property of the trustee for the general benefit of the creditors.

The amendment, assented to April 10, 1920, is as follows:

Chapter 4, paragraph 35, of the Bills of Sale Ordinance, being chapter 45 of the Consolidated Ordinances of the Northwest Territories, 1898, is amended as follows:

1. By adding thereto the following section as 9 (b):

"9. (b) The delivery of any goods or chattels by any person into the possession of a retail merchant for sale by such retail merchant on account of the owner thereof, shall, in the event of such retail merchant making an assignment for the benefit of creditors or being adjudged a bankrupt, render such goods and chattels as are unsold at the time of the assignment or bankruptcy, available for the payment of the creditor or creditors of such retail merchant, unless a copy of the contract by virtue of which the title or ownership of such goods or chattels is retained in the seller or vendor, is filed, pursuant to the provisions of this ordinance:

"Provided always that in the event of such contract not containing a description of such goods or chattels sufficient to satisfy the provisions of section 12 hereof, such description verified by affidavit may be endorsed on such contract or attached thereto, and shall for the purpose of this section be deemed to be a part of said contract."

Another Woolworth Store

Woolworth's Stores will build what is said to be "one of Canada's largest stores" in Winnipeg, commencing operations in May, R. A. Connable, executive official of the company, announces. He refuses to reveal the site of the proposed mammoth structure because the purchase has not yet been completed. It will be a "temple of commerce," like the parent structure in New York, he declares.

Senior Counsellor of Alberta Travellers

Calgary, March 28.—H. Goodland was elected senior counsellor of the United Commercial Travellers of Alberta, Calgary Council No. 304, at the annual meeting of the council held recently. F. V. Truesdale is past senior counsellor. Other officers appointed were: Junior counsellor, J. Maxie; secretary-treasurer, M. F. Ramage; conductor, Mr. Dingle; page, Mr. Kelly; sentinel, Mr. Cameron; chaplain, Mr. Martin.

Executive committee, Paul Naftel and George O'Neil (two-year term), Thos. Loney and Mr. McIntyre (one-year term); representatives to grand council, M. F. Ramage and F. V. Truesdale; auditors, G. Hunter, Mr. Keith and Mr. McIntyre.

Leroy J. Chown was initiated as a new member. A vote of thanks was passed to J. Maxie for his able and untiring efforts in connection with approaching the Alberta legislature with regard to obtaining better hotel and eating house accommodation for commercial travellers. His mission was successfully carried out and immediate action promised by the Government in the matter.

Amend Bankruptcy Act

An amendment to the Bankruptcy Act provides that the interim receiver may, under the direction of the court, summarily dispose of any perishable goods and carry on the business of the debtor for all conservatory purposes. It also provides that "any insolvent debtor whose liabilities to creditors provable as debts under this Act exceed $500 may, at any time prior to the making of a receiving order against him, make to an authorized trustee appointed pursuant to section fourteen with authority in the locality of the debtor, and, in cases occurring in the province of Quebec, residing in the judicial district wherein is situated the locality of the said debtor, if there is one, and if there is none to any authorized trustee, an assignment of all his property for the general benefit of his creditors. An assignment so made is in this Act referred to as an 'authorized assignment' and every assignment of his property other than an authorized assignment made by an insolvent debtor for the general benefit of his creditors shall be null and void."

Western Notes

Winnipeg. — Stephenson-Russell, Ltd., have moved from 356 Main Street to more commodious premises at 57 Victoria Street, where they have ample warehouse space and every facility, including trackage, to handle their stock of household hardware.

FINANCE MINISTER APPEALS TO BUSINESS MEN

Continued from page 36

ing, but of how much can I afford to pay and still make a profit on my business?

"I do not suggest that any of you should carry on your business at a loss. I hope you will approach the entire question with a desire of doing as much for Canada as you can and not with the hope of escaping with the least effort possible.

"After all I realize business is business whether you are in a small or large establishment. The business of a country resembles that of a corporation. It is not the volume of business which means success or failure, but the result of that volume of business after you have closed your books. Some of my political friends claim that the larger the volume of business done the better is the country progressing. No national growth is successful unless made possible by foreign trade. It is of course the great desideratum. But with nations as with individuals the mere size denotes little. Sometimes mere size means liabilities—loss. But are conditions what you would like to see them? While we have less employment relatively, we have it. Less social unrest, still we have some.

"If the weight of figures is the whole question then we never were so prosperous as today. We never before had so many facilities for ease and comfort. Never have we had so many commodities and luxuries coming into the country. During the eleven months ending Feb. 1 our trading increased enormously in spite of the drop in prices and the state of the economic and industrial world. During the year ending Feb. 1, 1920, our total trade amounted to $2,110,000,000. In the eleven months ending Feb. 1, this year, our trade amounted to $2,288,000,000, an increase of $178,000,000. Does this make you think? Has a lot of money come into the country, or a lot more gone out?"

Events in the Trade

Fire Loss

Capreol, Ont. — The Reid Hardware suffered loss by fire in a conflagration which swept the business section of the town. The firemen were endangered by gasoline tanks and cartridges which exploded.

* * *

Moncton, N.B. — The warehouse and machine shops of the Record Foundry & Machine Co. have been destroyed by fire.

Moves to New Premises

Toronto.—Max Silverman, hardware, is now located at 33 Queen Street East.

Personal

W. P. Walsh, Halifax; E. J. Cookson, Toronto; and R. Bernier, Quebec, outside representatives of the Martin-Senour Co., Ltd., are visiting the head office in Montreal.

G. L. Cohoon, manufacturers' agent, is now visiting his principals in the Old Country, and expects to be away from his Montreal office until the latter end of April.

McClary's Hamilton Address

In the March 19 issue of Hardware and Metal a report appeared that the McClary Mfg. Co. had opened a branch store at 177 Sherman Street, Hamilton. This report was confused with some other details. The McClary Mfg. Co. have no connection with the retail store conducted by N. Fisher at the above address. The company's branch warehouse in Hamilton has been at the corner of York and Bay Streets for some years.

Making Steel Sash

London, Ont.—Operations were commenced last week by Steel Sash, Limited, makers of window sashes. This organization secured the Canadian patent rights from the American firm operating at Paterson, N.J. It is stated that total business in Canada for these products amounts to $2,000,000 annually. Three other plants make a similar line of products in Canada.

Axe and Spring Factory Resumes

St. John, N. B.—The axe and spring factory of Messrs. Campbell & Fowler, Ltd., has resumed operations, and is now working full time. The men have agreed to adopt the company's terms, and have practically all returned to work. The strike lasted over six weeks, and was caused by the employees refusing to accept a ten per cent. reduction in their wages. This reduction was made in order to meet competition. Mr. Campbell reports that they are filled up with orders for automobile springs. This is one of their big lines.

Western Ontario News

Petitions are in circulation at Stratford, Ont., by the clerks asking for Wednesday afternoon half holidays from May to September.

* * *

L. W. O'Connor has been appointed manager of a new firm at Galt, Ont., Hi Speed Tools, Ltd., which will manufacture tools, gauges and other lines.

* * *

Lenden & Cook, the Leamington Hardware and the Greenhill Hardware, all of Leamington, Ont., have decided to close every Friday afternoon from April 1 to October.

* * *

Tyrrell H. Duncombe, formerly of St. Thomas, Ont., has organized the Duncombe Overrunning Clutch Co., of Detroit, which will manufacture a coaster for automobiles, which it is claimed will result in a very important saving in gasoline.

* * *

Fire, which broke out about midnight on Sunday in the general store of A. C. Martin, at Coatsworth, Ont., completely destroyed the block, causing a loss of $20,000. Mr. Martin will reopen for business as soon as possible.

* * *

London, Ont.—On a charge of breaking into the hardware store of W. H. Cuddy at Strathroy recently William Benjamin was sentenced to two and a half years in Kingston penitentiary and his comrade, Albert Ashton, to two years and five months. The youths were given six months for shopbreaking in Toronto last October and four days after they were released robbed Mr. Cuddy's store.

* * *

Another young man who has been giving merchants all through Western Ontario trouble was put where he will not do any more harm for some time when Magistrate Graydon sent Mervin Wickett to Kingston for three years. Just how many merchants this youth fleeced by tendering worthless cheques is not known, but in London alone he was found guilty on six counts.

Building Outlook Good in London

London, Ont. — Present indications point to one of the best building seasons for some time, not only in this city but in the country also. A large number of new homes will be erected in the city. In the country there will be new houses, extensive improvements to present dwellings and a number of splendid new farm buildings and stock barns. Inquiries for roofing and for other materials have been coming in steadily and in increasing volume as weather conditions permitted owners to see their way clear to proceed.

In London at the present time there is not a house to be had for rent. There is not an apartment of any kind to let and hotel accommodation is at a premium. Work is proceeding on the demolition of buildings on the site on which the new million dollar hotel is to be built. In addition W. J. Lashbrook is getting out plans for a 100-room addition to the Hotel Belvedere.

Official word was received this week from Wabash, Indiana, that work will commence on June 1 on the new Canadian plant here of the Service Motor Truck Co. Three factory buildings and a large power house costing in all $300,000 will be started and the firm plans to add other buildings later. About 1,000 men will be employed before the end of the year. Paul W. Moore has been appointed manager.

The Ruggles Motor Truck Co. is also planning to erect another large addition to its plant. Orders have been coming in in large numbers for export business.

Work on the new warehouse to be erected here for the Crane Company to handle hardware and plumbing supplies will, it is stated, be started in a few weeks.

With this work, a $750,000 collegiate, two new public schools, and a large new factory for the W. T. Rawleigh Co., there will be a big demand for builders' hardware and materials.

Doings in Ottawa and District

Contractors and Building Trades Council Lock Horns

Ottawa.—A life-sized scrap is on in Ottawa between the contractors and the Building Trades Council, with "collective bargaining" as the principal bone of contention. Another dispute which has a prominent place on the stage is that concerning the right of the workers to demand a closed shop on all jobs, and sandwiched in between the two is a resolute determination on the part of some of the crafts to secure increased wages, in spite of the marked reduction in the cost of living.

All is not peaceful in the ranks of the building trades and the next few days will decide whether or not there is to be a serious split in those ranks.

Successful Automobile Week

Ottawa has just drawn the curtains on a most successful automobile week. Ex-Alderman J. G. McGuire, who is one of the leading dealers both in cars and parts, told the local representative of Hardware and Metal that sales had been easily 100% better than expected.

The experience of most dealers has been that there has been an unusually heavy demand for the moderate-priced car. There is not the call this year that there was last for the pleasure and touring cars. The big call is for cars for transportation purposes only. Ottawa is growing rapidly and the outlying districts are receiving their fair quota of population. It is mostly these people who are buying the cars to take them to and from their places of business in the city.

In addition to the increased demand for low-priced cars there has been active trading in parts, particularly during the last couple of weeks, and while some dealers are complaining that business is dull, the majority are well pleased with the business they are doing now.

It had been planned to have a big parade in connection with automobile week, but owing to the uncertainty of the weather this was postponed indefinitely.

Winchester Sales For 1920 Over $18,000,000

The election of officers of the Winchester Company and subsidiary organizations held recently in New Haven resulted as follows:

Winchester Company—John E. Otterson, president; Daniel W. Weeks, vice-president; R. E. Anderson, secretary-treasurer; John P. Hager, assistant secretary; Richard R. Williams, Jr., A. E. Hodgson, asssistant treasurers. Board of directors—Thomas G. Bennett, chairman; John E. Otterson, C. S. Sargeant, Jr., R. E. Anderson, O. A. Schreiber, Louis K. Liggett, John P. Hager.

Winchester Repeating Arms Company—John E. Otterson, president; Henry Brewer, vice-president and secretary; Frank G. Drew, vice-president; R. Earle Anderson, treasurer; John P. Hager, assistant secretary; A. E. Hodgson, assistant treasurer. Directors—Thomas G. Bennett, chairman; A. W. Hooper, Geo. E. Hodson, Henry Stoddard, Winchester Bennett, Victor M. Tyler, James T. Moran, John E. Otterson, C. S. Sargeant, Jr., Louis K. Liggett.

Barney and Berry, Inc.—R. E. Anderson, president and treasurer; H. M. Wilcox, vice-president; D. B. Hoar, clerk. Directors—R. E. Anderson, H. M. Wilcox, Henry Brewer, W. E. Maxson, F. A. Maycumber.

Mack Axe Company—W. E. Maxson, president; Edwin Pugsley, vice-president; R. D. Jack, vice-president; R. E. Anderson, secretary-treasurer; H. F. Holton, assistant secretary. Directors—E. D. Bell, A. P. Weitzel, W. E. Maxson, R. E. Anderson, Edwin Pugsley, R. D. Jack.

The annual report of the Winchester Company and subsidiaries showed that the sales in 1920 amounted to $18,042,247.04 and that the net consolidated earnings were $1,048,683.04. In his report as president, Mr. Otterson pointed out that the commercial sales of 1920 exceeded any previous year and he painted a bright future for the company in the

Flint Varnish & Color Works Moves to Toronto

Montreal.—On April 15, the sales department of the Flint Varnish & Color Works of Canada, Ltd., will be moved to 63 Bay Street, Toronto. J. J. Riley, the present director of sales, will remain in charge.

The reason given for this change is to speed up the work of handling orders between the sales department and the factory, and in harmony with present conditions, to reduce the cost of operation. No change of selling policy is involved.

AMONG KINGSTON HARDWARE DEALERS

Expect Active Accessory Business

Kingston dealers interviewed stated that they are looking forward to an exceptionally good year in the sale of automobile accessories. And judging by the number of motor licenses issued there is no sign of a slump in business. D. H. Wightman, the local issuer of licenses, has already issued about 1,000 passenger car licenses, 80 commercial truck licenses and also 10 motorcycle licenses. The real rush, however, is not expected until the middle of April as there are hundreds of car owners who have not yet taken them out of winter storage.

On account of the war tax being removed it is expected that the sale of cars will be much larger than usual.

Kingston Notes

Kingston.—It is an ill wind that blows no person good, according to an old saying, and the fitting out of vessels at this port means much to the local hardware men, for there is much hardware needed on these vessels. It is estimated that the sum of $30,000 is being expended in the fitting out of vessels here this season.

William Mitchell, who for many years kept a hardware store on Princess Street, and who closed up his business to go overseas, is now with McKelvey & Birch, one of the oldest established hardware houses in Kingston, and has taken full charge of the hardware department.

Charles Simmons, hardware merchant, has been elected a member of the executive committee of the Retail Merchants' Association. The association is a live organization and is doing much to help the retail trade here.

Percy B. Chown, hardware merchant, was honored by being elected as chair man of the fire and light committee of the city council for a second term, and is one of the most progressive men around the council board. He has served on the council several years, and prior to entering the city council served for a number of years on the board of education. He is also chairman of the membership committee of the board of trade, and a hard worker in the city's interests. As in his own business, Mr. Chown believes in getting first-hand information, and is present at nearly every fire that occurs in the city, in order that he might see how the blaze is handled and study the needs of the department. Percy is not content to be a spectator, however, but dons a rubber coat and gets into the thick of it with Chief Armstrong and his men. And as a result when he advises his colleagues on the fire and light committee he knows what he is talking about.

Kingston Hardware Merchant Honored

Kingston.—A well-earned honor has been bestowed on Allan Lemmon, tinsmith and hardware merchant here, in his election as chairman of the board of education. Mr. Lemmon has been a member of the board for seven years, and has given much of his time to the question of education. He served as chairman of the property and management committee as well as many special committees and has rendered able service to the board.

Mr. Lemmon is married, with a family, and one of the city's young business men who, in spite of the fact that his own business takes much of his time, finds time to serve the city.

Hardware Letter Box

Information on trade topics will be gladly supplied to subscribers through this department.

SPRING ASSORTMENT

The Sumner Company, Limited, Moncton, N.B.—Could you tell us who puts up automobile spring assortments under the name Stevens?

(Answer.)—The company putting up this line is Stevens & Company, 375 Broadway, New York City.

* * *

AUTOMOBILE WASHING BRUSH

The Sumner Company, Moncton, N.B.—Can you give us the name of a company making an automobile washing brush which is attached to a hose nozzle?

(Answer.)—We understand this is made by the Osborne Mfg. Company, Cleveland, Ohio.

* * *

ACME FOOD CHOPPER

The George Taylor Hardware Co., Ltd., Timmins, Ont.—Will you kindly advise us who manufacture the Acme food chopper?

(Answer.)—Landers, Frary & Clark, New Britain, Conn., represented in Canada by A. Macfarlane & Co., Montreal, Que.

"WEAR EVER" ALUMINUM WARE

B. Caplan & Son, 220 Queen St. E., Toronto, Ont.—Kindly give us the address of makers of the Wear Ever Aluminum ware.

(Answer.)—The Northern Aluminum Mfg. Co., 158 Sterling Road, Toronto, Ont.

* * *

VERANDAH CURTAINS

R. C. Cowan, Drumbo, Ont.—Please inform us where we can get verandah curtains on spring rollers, made of awning duck.

(Answer.)—J. J. Turner & Sons, Peterborough, Ont.; the Woods Mfg. Co., Ltd., Ottawa, Ont.; the Central Tent and Awning Works, Port Arthur, Ont.; Guelph Tent and Awning Co., Guelph, Ont.; Montreal Tent, Awning and Tarpaulin Co., Montreal, Que.; Robert Soper, Hamilton, Ont.; Windsor Tent and Awning Co., Windsor, Ont.

* * *

STAIR TREADS

W. Utting & Son, Niagara Falls, Ont.—Kindly advise us where we can get steel stair treads or step treads.

(Answer.)—Dennis Wire and Iron Goods Co., Toronto and London, Ont.; Darling Bros., Ltd., 120 Prince Street, Montreal, Que.

* * *

FLOOR WAXING AND POLISHING

Iroquois Falls Merchandising Co., Ltd., Iroquois Falls, Ont.—Where can we get a machine for waxing and polishing floors.

(Answer.)—The Supreme Mfg. & Sales Co., 2672 Dundas St. W., Toronto, Ont., manufacture a floor waxer and polisher.

Catalogs and Booklets

A review of new catalogs, etc., as published by manufacturers, wholesalers and others in the trade for the information of hardware dealers.

IDEAL "POWER" LAWN MOWERS

The Ideal Power Lawn Mower Co., of Lansing, Mich., issue a handsome and attractive booklet illustrating their power lawn mower. The upkeep of public parks and large grounds has always been a big, expensive job, but with the power mower it is now possible to mow and roll lawns in an easier and more economical manner. It also eliminates the hoof-printed sod and the disfigured shrubbery that are inevitable with horse-drawn mowers. The booklet shows upwards of forty illustrations from actual photographs of Ideal power mowers at work in different public parks, institution grounds and private estates. A large publicity advertising campaign is being carried out by the manufacturers in magazines and newspapers that have been selected with the idea of reaching the largest number of prospective buyers. The standard Ideal power mower has a cutting width of 30 inches, and is stated to average three-quarters of an acre per hour at a speed of 2¾ miles per hour. The Ideal Junior is built on the same lines as the model 30, but is of lighter weight and has a 22-inch cut. For large areas, golf courses, etc., there is the Ideal Tractor-Triplex mower with a cutting width of 84 inches, and a 4 cylinder, 15 horsepower engine operating at a speed of 5 to 7 miles per hour. The Aikenhead Hardware Co., Ltd., Temperance St., Toronto, Ont., are the Canadian agents and distributors for Ideal power mowers.

* * *

H. S. HOWLAND SONS & CO.

The special spring, 1921, issue of Howland's Bulletin, issued by H. S. Howland Sons & Co., Toronto, is the finest and most complete catalog of seasonable hardware lines which has been issued by that firm. There are 192 pages of splendidly illustrated descriptions of various lines of hardware for spring trade and the generous use of color makes bright reading throughout. The front cover has a seasonable illustration showing an army consisting of various vegetables, marching forward with banners. A farmer lad with hoe over his back is preparing for seeding time. A complete index is placed at the front of the book for handy reference. Spring sporting goods, garden tools, farm requirements, paints and brushes, labor-saving devices, kitchenware, electrical goods, builders' hardware, automobile accessories, are specially featured, each line being well illustrated and described. Copies are available to the trade upon request.

* * *

PEASE FOUNDRY COMPANY

New price lists have just been issued by the Pease Foundry Co., Ltd., Brampton, Ont., and 118 King St. E., Toronto. These lists cover the Pease "Economy" and "Brampton" furnaces, as well as the boilers and steam and hot water heaters and all parts, repairs, specialties, etc., made by this company. The lists will be sent to the trade on application.

* * *

SHORT CUTS TO POWER TRANSMISSION

A handbook for belt users, entitled "Short Cuts to Power Transmission," recently issued by the Flexible Steel Lacing Co., 4607-31 Lexington St., Chicago, Ill., has been prepared with the idea of eliminating the technical formulas common to belting problems. The information given is stated to have been carefully gathered, the object being to simplify old practices with proven modern methods. The manual comprises ten chapters covering all types of belts with the methods of employing them; their care, dressing, lacing, etc. The various troubles and problems that belt users have to contend with are thoroughly and concisely dealt with, and the booklet also contains numerous tables, diagrams and hints on how to get the best use out of belting and pulleys. All interested are invited to send for a copy of the manual.

* * *

HARDWARE SPECIALTIES

A number of booklets on various lines of hardware specialties have been prepared by Lyons and Marks, 38 Yonge St., Toronto, Ont., wholesalers of hardware lines, glassware, aluminumware, etc.

The booklets are illustrated price lists giving description and prices of a few of the varied lines carried in stock. Copies will be sent on request. Among those already issued are booklets on Feather Dusters, Steel and Wire Brushes, Window Rubbers, Janitor Supplies, Aluminum Scoops, Crate Openers and Nail Pullers, Nail Sets and Punches. Other booklets are in the course of preparation.

Questions and Answers Re Taxes

INCOME TAX (MUNICIPAL AND GOVERNMENTAL)

(Question.)—Has a man who pays an income tax to the Government to pay an income tax to the municipality in which he lives on the same income that he pays tax on to the Government, and if so what rate would he have to pay to the municipality—that is, should the land in the municipality be assessed at, say, three-quarters of its value or should it be assessed at full value, or should, say, one hundred dollars of an income be assessed at three-quarters of its value, say, $75, or should it be assessed at its full value while the rest of the property in the same municipality would be assessed at three-quarters of value?

Should the Council levy the same rate on income as on other property in the municipality. Also, is it compulsory for assessor to assess income or can he assess other property in the municipality and not assess any income whether the council should be willing for him to do so or not? That is, if the council of the municipality did not care whether or not the assessor assessed income, can the assessor assess other property in the municipality and let the income go without being assessed, or is it law that he has to assess income no matter what the council thinks.—Charles Snow, hardware, etc., Kagawong, Ont.

(Answer.)—According to the plan being followed elsewhere in Ontario a retail merchant's tax payable to the municipality is really a business tax (you refer to this as an income tax). In such cases as have come to our notice, while an Income Tax statement is made to the municipality, this, in the case of retail merchants, is only to find out what income they may have apart from their business. In their cases the so-called income tax is payable as a business tax on the assessed value of their property. Thus you can see that the basis of taxation on income in the municipality is different to the basis of the income tax payable to the Government, the latter being figured on the basis of your net profits after all exemptions have been deducted. Every municipality sets its own rate usually in mills on the dollar. Property for business tax is never assessed at full value, in the city of Toronto it is on the basis of 60 per cent. (in your case this may be different). Yes, the same rate of taxation generally applies in all cases of taxation charged by the municipality. It is customary for assessment of all property to be made by the same assessor.

Trade Enquiries

Names and addresses of enquirers can be obtained only by those interested in such lines upon application to Hardware and Metal. Please quote reference number when requiring addresses.

2809. **Handles (pickaxe and hammer).**—A South African importer desires immediately prices f.o.b. Atlantic ports and samples of Canadian-made axe and hammer handles.

2814. **Hardware and tubular wheelbarrows.**—A Johannesburg manufacturers' agent requests Canadian manufacturers of hardware, and especially tubular wheelbarrows, to send catalogues or illustrations, f.o.b. prices, and shipping terms.

2819. **Hardware agents.** — Commission agents, representing several large Canadian manufacturers, are desirous of securing the exclusive agency for a good hardware manufacturing firm, covering territory in the British West Indies. Most suitable lines are builders' tools, nails, screws, etc.

Brass Goods Manufacture Again Active

Resumption of Automobile Industry and Export Trade Have Helped Canadian Brass Goods Manufacturers

RENEWAL of activity in the automobile industry and an increasing export demand have provided improved conditions for Canadian brass goods manufacturers, according to A. H. Tallman, secretary-treasurer the Tallman Brass & Metal Co., Toronto.

Without appearing too optimistic and yet discounting any need for pessimism Mr. Tallman states that the sales of his company for March were double those of either February or January and further increases are anticipated in the next few months.

"Of course, it is a gradual process to get back to anything like we were before the slump came. We are a long way from normal yet, but as I see it there is a healthy undertone that augurs well for the upward trend increasing in volume. I think that by summer conditions will be better than they are now," he said.

Mr. Tallman stated it was well that the process of declination and restoration of conditions had come gradually. Without being gloomy at all, he believed that in certain spheres the decline had not run its full course as yet, but any disadvantages that might accrue through that were more than outweighed by the healthy stimulus all industry seemed to have derived of late.

Export Trade

Respecting the export trade, Mr. Tallman said this market at present was limited to South America and South Africa. He did not care to hazard an opinion how fruitful these markets would prove for Canadian-made brass goods, but to date the volume of sales had been very encouraging. Shipping services were good, and customers had made prompt payment. One circumstance in connection with the South African market that afforded his firm satisfaction was the fact that English manufacturers had always virtually controlled it until recently, when Canadian manufacturers began to get a footing there. The latter had found that there was a good demand for high-class brass fixtures.

The domestic market was reported as being good by Mr. Tallman, with indications pointing to a gradual but steadily increasing volume of sales. Revival of the automobile industry had also brought increased business to the company, mainly in the form of aluminum castings.

Big Increase in Canada's Imports

Exports Declined During Twelve Months Ending February, 1921—Increase in Duties Collected—Exports to United Kingdom Drop

OTTAWA.—An increase of $296,191,543 in the value of goods imported into Canada during the twelve months ending February, 1921, as compared with a similar period ending February, 1920, is shown by a statement issued from the office of the Dominion Bureau of Statistics. The statement shows that during the twelve-month period ending with the close of March free goods were imported into Canada to the value of $419,043,563, and dutiable goods to the value of $871,023,983, making a total of $1,290,067,546. For the period ending with February, 1920, free goods to the value of $344,793,465 found their way into Canada, and dutiable goods to the value of $649,082,535, or a total of $993,876,003.

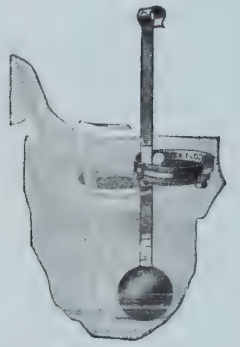
The duty collected on imports during the twelve-month period just ended totalled $190,327,407, as compared with $177,766,266 in the previous twelve months.

The value of domestic goods sent out of the country was somewhat more than 42 millions less during the twelve months under review than in the previous twelve-month period. Domestic goods were exported during the twelve months ending with the close of February to the value of $1,214,204,132, as compared with $1,246,341,600 in the twelve-month period immediately preceding.

It is noticeable in this connection that the exports to the United Kingdom during the twelve months just closed were to the value of $322,563,091, while in the preceding period they amounted to $507,092,308, a most substantial drop. Exports to the United States, on the other hand, rose from $456,667,986 to $551,678,226.

Imports from the United Kingdom during the twelve-month period just closed were to the value of $223,001,254, as compared with $106,799,857 in the previous twelve months. Imports from the United States also show an increase from $763,097,561 in the twelve-month period ending February, 1920, to $887,308,983 in that ending February, 1921.

New Hardware Goods



OFFERED TO CANADIAN HARDWAREMEN

KRAFT HARDWARE SACKS

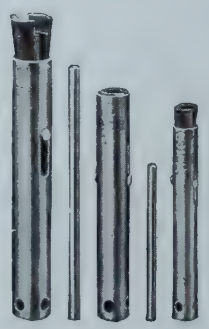
The Continental Paper Products, Ltd., 147 Booth Street, Ottawa, Ont., are manufacturing a line of extra heavy, reinforced bottom, kraft sacks especially made to withstand heavy usage, and specially adapted for the hardware trade. The bags are stated to be of leathery toughness, and the company will be glad to submit samples and prices to interested parties.

APEX GASOLINE GAUGE

The Apex gasoline gauge has been designed especially for Ford and Chevrolet cars and the makers, the Apex Electric Mfg. Co., 1410 W. 59th Street, Chicago, Ill., state that it shows accurately at all times the amount of gasoline in tank. It is possible with the Apex gauge to ascertain the contents of the gasoline tank as easily in the dark as in daytime, it is claimed, and it is not necessary to remove the gauge when filling. The indicator is made of clock-tempered spring steel with etched figures. No tools are required to instal this device—simply replace the old filler cap with the Apex gasoline gauge.

Apex Gasoline Gauge

MERRY GARDEN CULTIVATOR



The Atlantic Machine and Mfg Co., 429 Prospect Avenue, Cleveland, Ohio, are manufacturing an auto cultivator and mower, which will do nearly everything round the garden but heavy ploughing, it is stated. It is designed to accommodate all the Planet, Jr., attachments, and will harrow, cultivate, weed, rake and mow. The makers claim that it will do the work of four men with hand machines, and can be worked within half inch of the plants. A pulley can be attached to the motor and utilized to run churn, washing machine, water pump or other work round the house or barn that is suitable for a 2 h.p. engine. The lawn mower can be attached ready for use in two or three minutes. The engine is a one cylinder vertical, developing 2 h.p., with high tension magneto, using neither batteries nor coil. Gears are incased in dust proof housing, and the gasoline consumption is one gallon for 4 to 8 hours' running, according to the nature of the soil and work. The length over all is 70 inches. Width outside of traction wheels 17 inches. A 30-inch lawn mower with five blades or 31-inch with 4 blades can be attached to machine, or 3-row seeder, adjustable to plant from 10 inch to 20 inch rows, both as extras.

UTILITY UNIVERSAL WRENCH SETS

The Hill Pump Valve Co., Chicago, Ill., state that their Utility wrench set has all the advantages of an expensive 16-piece socket wrench set at a smaller cost. The Utility set operates without screws or parts to get out of order. It is said to adjust itself automatically, as the fingers would if the strength in them were sufficient to turn the nuts. At a small additional cost a brace handle is included in the set, to turn extra stubborn nuts.

The Utility combination wrench set duplicates the advantages and parts of the Universal set, and in addition includes a brace handle for extra stubborn nuts, at a small extra cost.

The Zinke Company, 1323 S. Michigan Avenue, Chicago, Ill., are sales agents for these wrench sets.

Utility Wrench Sets

NO. 482. OFFSET SOCKET WRENCH

A new offset socket wrench has been put on the market recently by the Goodell-Pratt Company, Greenfield, Mass. This wrench, as can be seen from the cut, is made specially to reach in those inaccessible places where the ordinary wrench is useless as a rule. The makers state that this wrench is manufactured from high-grade steel and will not break, twist or bend at the crucial moment. The sockets are made in the different standard sizes.

No. 482 Socket Wrench

APEX PUMP CONNECTION

The Apex Pump Connection is made by the Apex Electric Mfg. Co., 1410 W. 59th St., Chicago, Ill., and they claim that it will positively not blow off the tire valve. It is said that it can be instantly attached to the tire valve by one-half turn of the lever which compresses the rubber bushing, fastening the connection securely to the tire valve, thereby permitting it to become locked, so that it will not leak or blow off. An upward turn releases the connection. There are no threads to get blurred. This connection is said to fit any tire valve and can be used on wire as well as disc wheels.

Apex Pump Connection

Weekly Hardware Market Reports

STATEMENTS FROM BUYING CENTRES

MARKETS AT A GLANCE

THE outstanding feature in the hardware markets this week is a new list showing lower prices on steel pipe and the reductions in prices of building papers and sheathings, covering practically all tarred and dry fibres.

Other price reductions include sash cord, ship spikes, wrapping twines, solder, plumbers' oakum, steel wool and oilcloth binding. Several lines of small tools have also been reduced in price. Scrap metals show lower quotations, and hot water boilers and radiators are showing a decline. Linseed oil, shellacs and rosin are slightly lower. Common sad irons are advanced in price slightly. Prices on bar iron and steel and black and galvanized sheets show no change, and compression goods and lead products are also held. Ingot metals are irregular with little change in quotations, but a firmer tone is evident in several of these on outside markets, and it is believed that the bottom has been reached.

The primary steel markets continue to show a decline in steel ingot production with prices of steel products holding practically unchanged. Except for a decline in pig iron prices caused by efforts to reduce accumulated stocks, prices are maintained and there is less disposition to quote concessions than a month ago.

Most wholesalers report a continued increase in business, with an improvement in sales, which show an increase over last month. A good feature is the larger number of mail orders being received from retailers and instructions to forward goods which have been booked for later delivery, showing that the consuming demand is picking up.

Montreal Markets

MONTREAL, March 31.—Offering the chief feature of the market reports this week is the reduction of three points on wrought iron and steel pipe, with list No. 50 now the selling basis. Another feature is the lowering of fibre sheathings and papers, the reduction covering practically all lines of dry and tarred fibres. Sash cord again shows a decline of 5 cents per pound, and ship spikes are reduced 50 cents per 100 pounds base. Tacks and capped goods are now selling at changed discounts, and a new shoe finders' list has many changes to lower prices. In the waste material market some extensive reductions are made, with trading reported still very dull. Rope, nails, and all other spring goods are remaining steady, likewise pipe fittings and lead products. Galvanized and black sheets, corrugated sheets, bar iron and steel are unchanged in prices but are by no means considered steady. There is an outstanding advance this week, and that is on common sad irons. Ingot metals continue to show more strength with a gradual improvement noted.

Sash Cord Reduced 5c Per Pound

Montreal.

Sash cord is again reduced, quotations now being 5 cents lower than previously. Following are the present prices: Nos. 8 to 12, 50 cts. lb.; No. 7, 51 cts., and No. 6, 52 cts. per pound.

Discounts on Tacks Changed

Montreal.

New discounts are given on the regular hardware tack list, they being 67½/15 per cent. off in place of the former quotation of 65-15 per cent.

Capped Goods 67½/15 Off

Montreal.

The capped goods list is also lowered from 65/15 per cent. off list to 67½/15 off.

Reduction in Ship Spikes

Montreal.

Pressed or ship spikes are reduced 50 cents on the base prices, and following are the present quotations: 5/16 dia. and smaller, $7.00 base; ⅜ and larger, $6.50 base.

Shoe Finders' List Changed

Montreal.

It is understood that a new shoe finders' list, not yet available, shows revisions and reductions in many lines.

Baseball Goods Now Selling

Montreal.

With the opening of the open weather, jobbers state that baseball goods are beginnig to move. Sales are not heavy up to the present, but with the present weather continuing, these goods should soon be in good demand. Following is a list of the best sellers in the Reach line with the retail price opposite the jobbers' dozen prices:

	Per doz.	Retail ea.
BASEBALLS—

Common Sad Irons Advanced

Montreal.

Common sad irons are now selling at

slightly higher quotations, following being the new selling prices: up to 5 lbs., 18 cts.; 6 lbs. and over, 17 cts.

Rope Sales Slightly Improve

Montreal.

Although rope is still reported in a slow movement for the present season, sales have shown a slight improvement in the past week. Prices are remaining steady at the decline of February last and are as follows: pure manila, 24½ cts. base; Beaver and New Zealand hemp, 20 cts.; sisal, 18 cts.; and lathyarn, 18 cts. base.

Mops and Polishes Active

Montreal.

With many other spring lines moving at this time, polishing mops and furniture polishes are in good demand. Following are quotations on the O-Cedar and Liquid Veneer lines:

LIQUID VENEER — Mops, regular, $20 doz.; Junior, $14. Polishes, 4 oz. bottles, $2.40 doz.; 12 oz. bottle, $4.80 doz.; quart cans, $10 doz.

O-CEDAR—Mops, No. 1, $16 doz.; No. 3, $16; No. 5, $16; No. 14, $16, No. 15, $10. Polishes, 4 oz. bottles, $2.40 doz.; 12 oz. bottles, $4.80; quart cans, $12; ½ gal. cans, $20; 1 gal. cans, $28.

Better Demand for Nails

Montreal.

Wire nails are in better demand from week to week. Shipments continue smaller than usual at this season, but sales are favorable compared with other goods moving at this time. Prices are holding at $5 base for wire, and $5.75 base for cut nails, f.o.b. Montreal.

Wrought Pipe Down 3 Points

Montreal.

Both wrought iron and steel pipe are reported at a reduction of three points on all sizes. The new list was not available, but it is understood the new number will be No. 50, with the above reductions quoted. This is the second list applicable to piping in the last few weeks, as list No. 49 was issued in this month showing a reduction on steel pipe, the wrought iron remaining unchanged at that time. The new list will be found in the Toronto market report.

Fittings are Unchanged

Montreal.

There is a gradual increase in the demand for the different lines of fittings, and with the new lower list on piping, this may also act as a stimulus to these. Following are the present quotations:

Bushings, cast	22½%
Do., malleable	22½%
Flanges	22½%
Plugs	20%
Flange Unions	7½%
Malleable Unions	35%
Dart unions, black	20%
Do., gal.	add 5%
Nipples, ⅛ to 4 in. close and short	40%
Do., long	50%
Do., 4½ to 8 in., close and short	30%
Do., long	40%
Couplings, 4 in. and under	20%
Do., 4½ in. and larger	Net list

Pound goods—	Black	Galv.
Class B	0 20	0 28
Class C	0 13	0 20

Add 17½%.

Gasoline and Coal Oil Steady

Montreal.

No change has been made in gasoline or coal oil, and prices are held at 39 cts. for motor grade gasoline, and 28 cts. for coal oil.

Bar Iron and Steel Unchanged

Montreal.

There has been no change made in prices of the different bar irons and steels. A little better demand is shown on many lines, but there is said to be lots of room for further improvement. Jobbers have fairly light stocks on hand and are not encouraged to replenish their supplies while the demand remains light. Following are present quotations:

Common bar iron, 100 lbs.	4 00
Refined iron	5 50
Iron finished machinery steel	4 05
Mild steel	4 00
Band steel	4 00
Single reeled machinery steel	6 80
Spring steel	6 00
Sleighshoe steel	4 00
Tire steel	4 20
Toe calk steel	4 90
Harrow tooth steel	4 15
Mining tool steel, per lb.	0 23
Black Diamond tool and cast steel	0 23

NOTE—Refined iron is approximately $1.50 per 100 lbs. over base, but fluctuates owing to unsettled market.

Band steel in scroll bdles., 50c per 100 lbs. extra.

Flats, iron and steel, 3-16 and thinner, 50c per 100 lbs. extra.

Papers and Sheathings Decline

Montreal.

A general reduction has been made in sheathings, dry and tarred papers. This decline affects the products of different manufacturers. Following is a list of the more commonly used. Roofings show no change.

Dry sheathing, No. 2, per roll	0 95
Tarred sheathing, No. 2, per roll	1 25
Surprise sheathing, per roll	1 05
Heavy dry sheathing, per 100 lbs.	4 55
Heavy tarred sheathing, per 100 lbs.	4 75
Cyclone dry, per roll	1 45
Do., tarred, per roll	1 55
Tarred felt, per 100 lbs.	5 35

Scrap Materials Much Easier

Montreal.

Reductions are made in scrap materials, both ferrous and non-ferrous metals being lowered. With practically all lines as shown below quoted at a change, heavy melting steel has the greatest decline, and is now $8.50 per 100 lbs. Business is still light among the dealers, and it is a question whether these lower prices will increase the demand. However, the opening of navigation may stimulate trade, and dealers are watching the outside markets, hoping they will offer a favorable condition to export. Following are nominal quotations:

DEALERS' BUYING PRICES.

Automobile tires	0 75
Yellow brass	0 05
Red brass	0 09
Light brass	0 04
Scrap zinc	0 04
Lead, heavy	0 03½
Lead, tea	0 02
Light copper	0 08
Heavy copper	0 10½
Wrought iron, R. Rd., No. 1, per gr. ton	12 00
Malleable scrap (ton)	11 50
Pipe scrap (ton)	8 00
Stove plate, per ton	18 00
Heavy melting steel	8 50
No. 2 busheling	4 00
Boiler plate	0 08
No. 1 machinery cast, per gr. ton	$25.00 28.00

Corrugated Sheets Still Nominal

Montreal.

The list prices on corrugated sheets are unchanged and are as under. However, with the 28 and 26 gauges practically the only weights in demand at present, quotations vary to some extent on these sheets. There is very little improvement in sales, but with the open weather continuing, business should increase. Following are the list prices:

CORRUGATED SHEETS—	Per 100 Sq. Ft.
No. 28 gauge	9 50
No. 26 gauge	10 25
No. 24 gauge	16 00
No. 22 gauge	19 00
No. 20 gauge	22 00
No. 18 gauge	28 00

Less 7½%.

Lighter than 24 gauge and wider than 27 inches, 75c a square extra.

No Change in Sheets

Montreal.

Quotations on sheets and plates are nominally unchanged. In some quarters the demand is reported a little heavier than in the previous weeks, but there is still room for a great improvement. The United States steel markets still show an unsettled condition, with some independents offering attractive figures with little response from the trade. Local stocks are gradually becoming smaller, and jobbers state a loss is being carried on sales made at these figures. The following quotations are more or less nominal:

PLATES—	
10 gauge	6 25
12 gauge	6 30
14 gauge	6 45
16 gauge	6 55
BLACK SHEETS—	
10 gauge	6 50
12 gauge	6 55
14 gauge	6 60
16 gauge	6 80
18-20 gauge	7 95
22-24 gauge	8 00
26 gauge	8 10
28 gauge	8 20

Sheets 36 in. wide, 10c per 100 lbs. extra.

GALVANZED SHEETS—	
U.S. Standard—	
10¾ gauge	10 25
28 gauge	9 75
26 gauge	9 50
22 to 24 gauge	9 35
20 gauge	9 15
18 gauge	9 15
16 gauge	9 00
14 gauge	9 00
12 gauge	9 00

English Standard—	Queen Head	Fleur-de-Lis
28 gauge	10 75	10 00
26 gauge	10 50	9 75
24 gauge	9 90	9 35
22 gauge	9 55	8 90
18 and 20 gauge	8 85	8 75

NOTE.—These prices are for full bundles, an extra charge of 25c to 35c per 100 lbs. is made for broken lots. These quotations are nominal.

Lead Products Prices Steady

Montreal.

Prices on the different lead products are unchanged this week, and it is thought if pig lead continues firmer, present quotations may in all probability be advances rather than any further declines. The demand is fair and sorting shipments are being made in good numbers. Following are present quotations:

Lead pipe	0 12½
Lead waste	0 13½

Note.—Lead pipe is subject to a discount of 10%.

Couplings Lead traps and bends	10% off
Lead wool, lb.	0 13½
Lead sheets, 2½ lbs.	0 11
Do., 3 to 3½ lbs. sq. ft., lb.	0 10¾
Do., 4 to 8 lbs.	0 10

Cut sheets ¼c lb. extra and cut sheets to size, ¾c lb. extra.

Solder, guaranteed, lb.	0 26
Do., strictly, lb.	0 24
Do., commercial, lb.	0 21

Do., wiping, lb.	0 21¾
Do., wire lb.	0 34
Zinc, sheets, casks	0 14
Do., broken lots	0 15½

Chisel Quotations

Montreal.

In the market report of March 26, socket firmer and framing chisels were reported as having shown a small decline. This should have referred to the chisels made by the Galt Edge Tool Co., the quotations for other makes remaining at 45 per cent. for Canadian make and 30 per cent. for American makes.

Ingots Show Improvement

Montreal.

With the exception of antimony, which is a little weaker, other ingot metals have a firmer tendency and continue to show an increase in business. It is felt the bottom has been reached in most cases, and dealers welcome the revival of trade, even if it is small. Local prices are practically unchanged from last week's quotations.

TIN.—This metal has shown considerable strength during the week and, although the rise is not expected to hold, and easier prices are looked for during this week, tin should have a gradual increase in strength to a higher level. Local price unchanged at 36½ cents.

COPPER.—Copper continues stronger, advancing to 12⅝c in New York. Present indications are that this metal will continue stronger until a 13-cent basis is reached. A slightly better demand is also shown in this metal. Prices are 18¼ cts. for electro, and 18 cts. for casting.

SPELTER.—There is little improvement looked for in spelter until the steel situation improves, and it continues dull. Present prices are lower than pre-war prices, and are considered a good purchasing quotation. East St. Louis now quotes $4.65. Price here is unchanged at 8½ cts.

LEAD.—A slight improvement continues to be shown both in London and New York in lead, with East St. Louis closing at $4.10. Both of these outside markets are reported quiet, with the local demand having a little improvement. Quotations locally are maintained at 6½ cts.

ANTIMONY.—Antimony has a weaker tendency in New York. High grade English antimony is again offered at a slight premium over the ordinary grades, and present quotations are 7¾ cts. for ordinary, and 8½ cts. for English.

ALUMINUM.—The market for aluminum is still reported dull, and very few inquiries are coming to hand. Local price continues unchanged at 35 cts.

Toronto Markets

TORONTO, March 31.—The feature of the week in price changes is a new list on pipe showing a reduction of about three points in steel pipe. This is the second decline within a month in steel pipe prices. Prices are steadier on hardware commodities and fewer changes are recorded. Among lines showing lower prices are solders, plumber's oakum, wrapping twines, steel wool, oilcloth binding, picture wire and some lines of smaller tools. Hot water boilers and radiators have been reduced in price. Bar iron and steel and black and galvanized sheets and plates are holding at recent declines, and it is evident that business in these goods has not increased to any great extent. Prices on ingot metals are unchanged, but a firmer tone is shown on copper and lead on outside markets. The waste metal market has not shown any revival of business and is still dull.

Wholesalers report a continued improvement in orders, and in shelf and builders' hardware there is a decided increase of activity. Tools also show more activity. Collections are better than they were.

Plumber's Oakum Declines

Toronto.

A reduction has been made in the price of plumbers' oakum and the new selling price is $3.75 per bale of 50 pounds.

Oil Cloth Binding Reduced

Toronto.

Oil cloth binding has been reduced in price and the new quotations on zinc and brass are given as follows:

OIL CLOTH BINDING—	Zinc.	Brass.
4/4, per dozen	$1 10	$1 90
6/4, per dozen	1 65	2 40
8/4, per dozen	2 20	3 80
¾-inch, per box of 50 yds.	1 75	2 60
⅞-inch, per box of 50 yards	2 10	3 10

Steady Sale of Range Boilers

Toronto.

There is a little better demand for range boilers, but the greater part of the sales are for present requirements, and buyers are not stocking heavily. Some lower quotations are reported in the 30-gallon standard boiler and an electric welded boiler is quoted at $11.50 and a riveted boiler at $12.50, although the standard quotations on riveted boilers are being held by some jobbers. Following are the general quotations:

RANGE BOILERS—	Standard	Ex. Heavy
30 gallon	$13 00	$15 00
35 gallon	15 00	17 00
40 gallon	17 00	19 00
52 gallon	24 00	28 00
66 gallon	32 00	38 00
82 gallon	40 00	50 00
100 gallon	50 00	60 00
120 gallon	60 00	70 00

Corrugated Sheets Moving Better

Toronto.

A little increase of business is reported in corrugated sheets. It is recognized that it is a little early yet for these lines, but the mild weather is causing more attention to be shown and orders are being placed. Quotations which are unchanged are as under:

CORRUGATED SHEETS—	Per 100 Sq. Ft.
No. 28 gauge	9 50
No. 26 gauge	10 25
No. 24 gauge	16 00
No. 22 gauge	19 00
No. 20 gauge	22 00
No. 18 gauge	28 00

Less 7½%.

Lighter than 24 gauge and wider than 27 inches, 75c a square extra.

Wire Strainer Prices Down

Toronto.

There has been a reduction in the price of the different wire mesh sink, soup and gravy strainers, and the new quotations are from 10 to 15 per cent. less than previous prices.

Pipe Fittings Unchanged

Toronto.

No changes have taken place in pipe fitting prices and quotations remain at recent changes. Business is variable, but a slight increase is reported in some quarters. Stocks are said to be ample for current demands. The following are the present quotations:

Cast iron fittings	15%
Plugs, cast iron	20%
Do., solid	10%
Do., countersunk	net
Bushings	25%
Unions, ¼-in. to 2-in.	35%
Do., ⅛ in., 2½ to 4 in.	30%
Dart Unions, blk., ¼ in. to 2 in.	20%
Do., ⅛ in., 2½ to 4 in.	8%
Do., galvd., add to black	30%
Nipples, blk. and galvd., ⅛ to 4 in., close and short	40%
Do., 4½ in. and larger	30%
Do., long, ⅛ in. to 4 in.	50%
Do., 4½ in. and larger	40%
Do., running thread	20%
Couplings, 4-in. and under	20%

MALLEABLE FITTINGS	Black.	Galvanized
Class A	0 60	0 75
Class B	0 25	0 35
Class C	0 16	0 25

Rope Prices Improving

Toronto.

A better feeling is evident in rope and cordage and sales are more numerous. While orders generally are lighter in bulk than last season, wholesalers are hopeful that the business will pick up as the season advances and what the sales lack in size will be made up in numbers. Prices remain unchanged and are given in the current market pages. The new binder twine prices are also shown there.

Steel Wool Reduced

Toronto.

Prices on steel wool show a small reduction, and the No. 2 small and also the 1-pound packages, which have been scarce for some time, are now on the market again.

Valves and Bibbs Holding

Toronto.

Prices are held unchanged on valves and compression work. Sales continue

fairly light, and though a small improvement during the past month over the previous one is reported, the majority of the sales are of a sorting variety. Stocks are adequate for the demand. The quotations are as follows:

Compression work, standard	34%
Fuller work, standard	30%
Bath cocks, compression	25%
Do., Fuller	25%
Flatway stop and waste cocks, standard	34%
Roundaway stop and waste cocks, standard	34%
Brass steam cocks, standard	10%
Globe, angle and check valves, standard	5%
J.M.T.	10%
J.M.T. C.	15%
Gate or straightway	7/10%
Jenkins Globe	10%
Radiator valves, standard	23%
Do., removable disc	38%
Basin Cocks—	
No. 1 and 1, Fuller pattern	30%
Quick opening	28%
Emco J. D. Valves	10%
Emco Check Valves	10%
Webber Gate Valves	15%

Nails Improve But Slowly

Toronto.

A little better demand for nails is reported by some wholesalers, but it is nothing like as good as it should be. It is thought that an improvement will be felt when new construction gets under way, as little building is in operation at the present time, and it is evident that many retailers have been holding off buying. Prices are nominally unchanged and the wire nail base remains at $5.10 per keg. The cut nail base is still $6.20.

Wrapping Twines Are Lower

Toronto.

A reduction has taken place in the price of hemp wrapping twine in the quarter and half-pound balls, and the decline amounts to about 20 per cent.

Gasoline Is Held

Toronto.

Coal oil and gasoline are holding unchanged and are quoted at 38 cents per gallon for motor grade gasoline and 27 to 30 cents for coal oil, according to grade. Sales are fairly brisk for the season of the year.

Mossberg Wrenches Are Down

Toronto.

The Mossberg line of socket and other wrenches have been reduced and are now quoted at 10 per cent. off list.

Building Papers Reduced

Toronto.

A little better demand is felt for roofings and building papers and sheathings. With the mild weather prevailing there has been more of a call for papers and roofings than usual this past winter and more activity is expected as soon as building operations become general. Prices are reported to have been reduced on dry and tarred sheathings but the new quotations were not available at time of going to press.

Braided Picture Wire Lower

Toronto.

There is a decline in the price of picture wire and the braided bright wire is now priced as follows:

BRIGHT PICTURE WIRE—	25-ft. coils.	25-yd. coils
No. 0, per dozen	$0 42	$1 00
No. 1, per dozen	0 67	1 60
No. 2, per dozen	0 80	2 10

Radiation Is Reduced

Toronto.

The discounts have been changed on hot water boilers and on hot water and steam radiators, making a decline of from 10 to 12 per cent. The new discount on round hot water boilers is 55 per cent. off list and standard column window radiators are 48 per cent. off list for water and 49 per cent. for steam.

Soil Pipe Unchanged

Toronto.

Sales are seasonably light on cast iron soil pipe, but with the building season approaching a little more interest is being shown. Quotations are unchanged and are to be found in current market pages.

Some Lower Whisk Prices

Toronto.

There is a good sale now for whisks, and some of the better lines have been reduced in price, and are about 10 per cent. lower.

Eavestrough Prices Hold

Toronto.

With the season advancing there is a little more demand for eavestrough and conductor pipe and conductor elbows. Prices are maintained at the changes which went into effect early in the year and quotations will be found on current market pages.

Little Improvement in Bars

Toronto.

The amount of business in iron and steel shows little variation during the closing days of the month from what it did at the beginning, but it has been spasmodic, with an improvement followed by a falling off. In the United States markets pig iron production is being further curtailed all the time, and out of 166 merchant furnaces only 27 are now operating and several of these are expected to blow out in the near future. This curtailment is bound to have a sustaining influence upon price of iron, it is believed, although some time may elapse before stocks are absorbed. Quotations show no change from the last report and are as follows:

Common bar steel, 3-16 in.	$ 4 50
Common bar steel, ¼ in. and heavier	4 00
Common bar iron, 3-16 in	4 50
Common bar iron, ¼ in. and heavier	4 00
Angle base	4 10
Horseshoe iron	6 00
Tire steel	5 95
Band steel	4 50
Spring steel	12 75
Crucible Cast Sheet Steel	35 00
Mining drill steel	23 00
Common Cast Tool Steel	20 00
Sleigh shoe steel	4 50
Norway iron	15 00
Toe caulk iron	6 [illegible]
Hoop Steel	6 00

Solders Are Slightly Reduced

Toronto.

Slight reductions are noted in solder quotations, but lead products generally are unchanged and the primary lead markets are inclined to be firmer. A small increase in business is reported, but the present movement is by no means active. Quotations are the following:

Lead pipe, list, per lb.	0 12½
Lead waste pipe, list, per lb.	0 13½
Do., over 8 in., list, per lb.	0 14½
Lead pipe is subject to a discount of 10%.	
Lead traps and bends	10%
Lead sheets, 4 to 6 lbs. sq. ft., in rolls, lb.	0 09½
Cut sheets, ½c to ¾c lb. extra and cut sheets to size 1c lb. extra.	
Solder, wire, per lb.	0 34
Do., strictly, lb.	0 24
Do., commercial, lb.	0 22
Do., guaranteed, lb.	0 27
Do., wiping, lb.	0 22
Zinc sheets, per lb.	0 16

Sorting Orders For Sheets

Toronto.

A slight increase in the demand for sheets is reported by some wholesalers, but the improvement is not yet up to the average for the month. The lower quotations ruling have evidently drawn little extra business, and it seems apparent that buying is largely confined to present requirements. Wholesalers' stocks are ample for ordinary demands, but it is believed that very small stocks are being carried by most retailers. The price of galvanized sheets is regarded as low by comparison with steel products in general. In the United States the sheet mills are operating at a low rate, although at a better one than early in the year when many of the independent mills were closed down. The quotations here remain nominally unchanged from the last report and are as under:

PLATES

10 gauge	5 75	6 20
12 gauge	5 80	6 25
14 gauge	5 85	6 30
16 gauge	5 95	6 40

BLACK SHEETS

14 gauge	5 80	6 80
16 gauge	5 90	6 90
18-20 gauge	6 25	7 25
22-24 gauge	6 30	7 30
26 gauge	6 35	7 35
28 gauge	6 50	7 50

Prices shown are for full cases. An extra charge of from 25c per 00 lbs. is made for less than case lots. An extra 10c per 100 lbs. is also charged on sheets 36 in. wide.

GALVANIZED SHEETS

Premier and Apollo

10¾ oz.	8 90	9 80
U. S. 28	8 50	9 50
U. S. 26	8 20	9 20
22 and 24	8 05	9 05
18 and 20	7 90	8 90
16	7 75	8 75
12 and 14	7 70	8 70

An extra 40c per 100 lbs. is charged for Keystone brand copper bearing sheets.

An extra is now charged on galvanized sheets, 10¾ oz. and 28 ga., when shipped out in sheets 3 feet wide. The extra charged over prices shown above is 20c per 100 pounds. Other gauges show no change for different widths.

Prices shown are for full cases. An extra charge of 25c per 100 lbs. is made for less than case lots.

Scrap Metals Still Low

Toronto.

There is little change in the waste material market. Buying is on the light side and no immediate change is looked for. With the steel mills operating at a low rate there is little call for scrap, and the same applies to non-ferrous metals. The consumers of scrap have stayed out of the market except for domestic requirements. Inquiries have been few and sales of small quantities. While a slight improvement in the price of virgin metals is giving the market a better tone, expectations that business

would soon improve have not been realized. The following are nominal prices for fairly large quantities:

WASTE MATERIAL

No. 2 busheling	....	$13 00
Stove plate, per ton	19 00	20 00
Yellow brass	6 50	7 50
Red Brass	....	10 00
No. 1 machinery cast	24 00	25 00
Heavy melting steel	15 00	16 00
Heavy copper	10 50	11 50
Scrap zinc	3 75	4 25
Light brass	4 00	4 50
R.Rd. wrought iron, No. 1, gr. ton	13 50	14 50
Scrap pipe	8 00	9 00
Heavy lead pipe	4 00	4 50
Old rubbers, boots and shoes	2 00	2 50
Overseas lumbermen's rubber boots	1 50	2 00
Auto tires	0 50	1 00
Solid tires	0 75	1 25
Tea lead	1 75	2 00

Steel Pipe Again Reduced

Toronto.

A reduction has been made in the price of steel pipe again, and it is down about three points. This is the second decline this month, as a new list showing a reduction of about four points came into effect on March 1. Wrought iron pipe remains unchanged. There is very little improvement in business, it is stated, and there is still a reluctance to increase stocks more than is absolutely necessary. With new building operations soon commencing it is expected that more activity will be shown and sales will become larger. The new list, No. 50, which became effective March 28, is as follows:

Price List No. 50 March 28th, 1921

Standard Buttweld Pipe S/C

Per 100 feet.

Size	Steel Blk.	Steel Galv.	Gen. Wrot. Iron Blk.	Gen. Wrot. Iron Galv.
⅛ in.	$ 6 50	$ 8 50	$	$ ....
¼ in.	4 89	6 99	5 91	8 01
⅜ in.	4 89	6 99	5 91	8 01
½ in.	6 50	8 03	7 95	9 48
¾ in.	7 99	10 06	9 95	12 02
1 in.	11 82	14 88	14 71	17 77
1¼ in.	15 99	20 13	19 90	24.04

10L in.	2 54	3 18	3 41	4 05
10 in.	3 28	4 10	4 39	5 21

Ingot Metals Irregular

Toronto.

Business in ingot metals is reported to be irregular again, and the demand is very "scrappy." Prices generally have been maintained, and in outside markets a firmer tone is shown both in copper and lead. With the absence of quotations from London, where markets have been closed on account of holidays, the American markets have been quiet.

TIN.—There has been a steady uptrend on London markets in tin and the total gain for the week has been about £12. New York markets gained $2 during the week and consumers are showing more interest, although the orders placed are small. Price locally remains unchanged and is 38 cents.

COPPER.—The copper market is firmer but there is little business doing. Advances of one-quarter cent a pound have been made on United States markets, due, it is stated, to the closing down of several copper mines and the contemplated curtailment and shut-down of some of the large producers, together with an increased demand for copper and brass products. Prices also advanced £2 on London markets. Quotations here remain at 18 cents for casting copper.

LEAD.—A firmer tone is reported in the lead market, but there is little movement. The output is reported as being curtailed, and the larger producers have advanced their prices, making the first advance in lead prices since August 12, 1920. London markets show an upturn although the demand has dwindled. Prices locally are unchanged at $6.

SPELTER.—This metal has been the weakest of all this week though prices are holding unchanged. Few sales are reported and the market is dull and sagging. Quotations here remain at $7.25.

ANTIMONY.—This metal is quiet with demand negligible. Heavy arrivals on United States markets led to shading of prices. Quotations here are still 8 to 9 cents.

ALUMINUM.—A revival in the automotive industry is leading to an increase of activity in this metal. Prices on outside markets remain nominally unchanged.

London Markets

LONDON, March 31.—Slight reductions went into force this week on several lines including linseed oil, turpentine, shellacs, tacks and screw and strap hinges.

There is a good volume of business here, and both wholesalers and retail merchants report an improvement. Orders are larger and more numerous each week and prospects look bright for excellent business in the near future. Collections are improving, and are again considered good.

Linseed Oil Down 5 Cents

London, Ont.

Sales are improving for linseed oil and the quotations are down 5 cents per gallon this week. Prices are the following:

	Raw.	Boiled.
1 to 2 barrels, per gal	0 87	0 90
3 to 5 barrels, per gal.	0 86	0 89
6 to 9 barrels, per gal.	0 84	0 87

Less barrels, add 15 cents per gal.

Turpentine Decines Again

London, Ont.

Turpentine has declined again this week and the new prices are 5 cents per gallon less. There is a good sale for this commodity now, and with the painting and house-cleaning season at hand the demand is growing each week. Stocks in hands of most retailers are low as buyers have been holding back this season. The following are the present quotations:

1 barrels lots, per Imperial gal.	0 95
2 to 4 barrel lots, per Imp. gal.	0 94
5 gal. lots, per Imp. gal.	1 10

Lower Shellac Prices

London, Ont.

There has been a further reduction in the price of white and orange shellac and quotations are about 50 cents per gallon less. New quotations are the following:

	Orange.	White.
1 gal. jugs, per gal.	$4 10	$4 60
½-gal. jugs, per gal.	4 25	4 75
¼-gal. jugs, per gal.	4 50	5 00
1-pint bottles, dozen	7 40	8 40
½-pint bottles, dozen	3 90	4 45
¼-pint bottles, dozen	2 50	2 70
⅛-pint bottles, dozen	1 40	1 55

Lower S & S Hinge Prices

London, Ont.

Reductions have been made in the price of screw and strap hinges, and these are now 15 per cent. off list in place of 5 per cent. The new net prices are the following:

Net prices figured at 15 per cent. off.

6-inch, per dozen pairs	$ 3 65
8-inch, per dozen pairs	4 08
10-inch, per dozen pairs	5 44
12-inch, per dozen pairs	5 95
15-inch, per dozen pairs	6 37
18-inch, per dozen pairs	9 45
21-inch, per dozen pairs	10 54
24-inch, per dozen pairs	13 60

Tacks are Reduced

London, Ont.

A new discount is quoted on tacks, making a decline of about 10 per cent. They are now quoted at 67½/15 per cent. off list. The following are new net prices on some of the better sellers, figured at the new selling discount:

BLUED CARPET TACKS—6-oz., 52 cents per doz. pkgs.; 8-oz., 68c; 10-oz., 83c.

TINNED CARPET TACKS—6-oz., 62 cents per dozen pkgs.; 8-oz., 80c; 10-oz., 97c.

CUT TACKS—1-oz., 22c doz. pkgs.; 1½-oz., 29c; 2-oz., 31c; 2½-oz., 32c; 3-oz., 34c; 4-oz., 42c; 6-oz., 60c; 8-oz., 73c; 10-oz., 85c; 12-oz., $1.00; 14-oz., $1.15; 16-oz., $1.31; 18-oz., $1.50; 20-oz., $1.65.

New Shoe Finding List

London, Ont.

Reductions are being made in the price of shoe tacks and shoe rivets, and a new list is in preparation and will be found in another column.

Glaziers' Points Reduced

London, Ont.

A decline has taken place in the price of glazier's points and the new price of the zinc coated is 13 cents per ½-pound package.

Light Tee and Straps Lower

London, Ont.

Light tee and strap hinges have been reduced and the new price is 10 per cent. off list.

Handing the Paint Customer $5 Worth of Knowledge With Every $1 Can of Paint

Merchant Should Test Out Line of Paint He Carries so as to Have Definite Knowledge of What It Will Do—First Step in Advertising Is To Paint Your Own Store

By JOHN DREWE, Winnipeg Paint and Glass Co., Winnipeg

THIS subject naturally includes all paints, stains, varnishes, brushes; in fact, everything that goes with an up-to-date paint business.

The first necessary factor is that you must have good paint and varnish, and in Canada this is not difficult because there are a considerable number of old reliable established firms who for years have been making a first-class product.

After selecting the goods manufactured by a reliable firm it will be up to you personally to know that the goods are good, and the only way you can do this is by taking a brush and cans of paint, or varnish, or stain, properly mixing them, and then testing them out thoroughly as to covering power and proper method of application on various materials.

Must Always Have a Paint

The paint business is somewhat different from other businesses, as you must always have the best quality to make a success. It is quite legitimate for a dry goods man to sell silk for one purpose and cotton for another. The paint man, however, must *always* have a paint, the basis of which is *pure linseed oil,* no matter whether it is fine house paint, or an ordinary oxide barn paint; the paint can not be good without the linseed oil.

Now if you have followed out the various steps outlined you will have what you should have, "an absolute belief in the line you handle." You know the goods are good, you have applied them yourself, have discovered the difficulties that might arise and have overcome them, so that you are now in a position to give to the customer what very few dealers do, and that is, to hand to the customer $5 worth of paint knowledge with every $1 can of paint.

Securing Good Will

Just try this out for a month. Have your staff and yourself give full information to every customer as to exactly how to mix and apply the paint; also warn them of the many things that will harm the paint, and the first thing you know you will have what our British friends prize so much, but which we do not in this country seem to realize the value of, namely, *"good will."*

The speaker then went on to emphasize how the dealer could "cash in" in other directions. First, to make paint an outstanding feature in the store; do not leave the goods on back shelves, or in a warehouse. Have a regular department in the front of the store, making it a *"twelve months a year"* dividend producer by having proper show tables decorated with the manufacturers' splendid advertising we get now.

Paint is not only a spring proposition, but it can be made an "all-the-year-round proposition." There is no better time than the winter to have inside work done. The automobile painted, the binders and implements and wagons properly painted, and you can help all this by keeping these lines properly before the public in a prominent place at the proper time.

Windows and Advertising

Dress your windows in conjunction with your advertising. Scheme your advertising out at least a month ahead. Have a story to tell to your public that is an interesting one and the *first step in your advertising should be to paint your own store and your own home first.*

Travel around your own town and surrounding country, know the many places that require preservation by the use of paint. Write courteous personal letters to these prospects and then follow up these letters a little later on by personal visits. Too many of us are merely storekeepers. The trade that walks into your store requires but a small amount of salesmanship to take orders from, but if you will leave good clerks in your store and personally get out into your town and country and get in close personal touch not alone with your regular customers, but with prospective ones, not only will your sales of paint be increased, but sales of many other lines which you then would have the opportunity of bringing before the public. And what the speaker considers most important is to link yourself up with the *"Save the Surface"* campaign.

Preach the insurance value of paint for *all* surfaces, of buildings and implements. Many a man who would not paint for decorative purposes would certainly paint when he realizes that he is losing more by not painting than if he went without fire insurance.

Use the *"Save the Surface"* slogan the year around, in your ads and on your office stationery of all kinds; in short, know your goods, know their capabilities, give your expert experience and knowledge to the public and you will be astounded at the increase in your business.

JAP-A-LAC Renews Linoleum

Giving new life and protection to linoleum is but one of the hundred uses Jap-a-lac finds in the home. Refinishing chairs, woodwork, furniture, stoves, radiators, pipes, etc., all bring savings in actual cash.

You can make this kind of business a source of great profit to you. Especially if you handle Jap-a-lac. This wonderful Glidden product is so well known that it requires hardly an effort on your part to sell large quantities of it. Nearly every housewife has used Jap-a-lac and its remarkable quality has made a life-long customer of her.

By selling *genuine Glidden Jap-a-lac* you not only derive the profits it nets you, but you are surrounding your entire business with Jap-a-lac reputation. Write for dealer proposition to-day.

The Brush Department

Selling Brushes At Housecleaning Time

Sanitary Argument Is Effective in Selling Housewives Brushes and Brooms for Spring Housecleaning — Automobile Owner is Also a Prospect for Spring Cleaning of the Car

THE manufacture of brushes has become a highly specialized industry. Modern practice has made necessary the development of new types of brooms and brushes to serve new purposes and this very specialization has provided the hardware merchant with a splendid selling argument. Brushes as provided for various phases of housecleaning, painting, etc., have greater utility since they have been made to special patterns according to the work expected of them. Another advantage of selling these lines is that they at once suggest what use they were made for and so if placed in a prominent location will appeal to the customer and will oftentimes sell themselves.

With the spring housecleaning season at hand, there is opened up a tremendous field for brush selling. Much is being done these days to educate people to better sanitary conditions in the home. This is the basic argument of many lines receiving a good sale to-day. This argument can well be applied to all styles of brushes and the argument will carry much weight while the housecleaning season is at its height. Trims can be arranged showing the various brushes in actual use and this effort can well be linked up with the local advertising.

The automobile season is also commencing early this year and for the motorist who overhauls his own car there are numerous brushes which will be of assistance in this work.

It is also noteworthy that the woman of the house very often conducts the finishing of woodwork, furniture and walls in the home, in connection with spring housecleaning. She must therefore be taken into consideration in arranging the displays and in writing the advertising.

"Save the Surface" Campaign Committee Meet

Plans for Spring Campaign Discussed—Jurisdiction of Winnipeg Committee to Include Edmonton, Saskatoon and Other Cities

A MEETING of the Save the Surface Campaign Committee was held in the Board of Trade Building, Montreal, for the purpose of taking up matters in connection with the spring campaign. Mr. Royal Cluxton, of the Canada Paint Company, was elected to a vacancy on the national committee. Approval was given to a suggestion from Winnipeg that the local Save the Surface Committees formed recently in Edmonton, Saskatoon, Moose Jaw and Regina, be brought within the jurisdiction of the Winnipeg committee, and that representatives of each of these districts be included upon the Winnipeg committee. It was felt that this proposal would co-ordinate the work in the prairie provinces and prevent overlapping.

Arrangements were made for forwarding pamphlets to Winnipeg for distribution at the exhibition of the Winnipeg Home Building Association. Window transparencies are also to be sent out to the trade with a request that dealers make use of these in store windows.

A warehouse will be erected shortly by an American plumbing and hardware supply company on York Street, London, Ont. The new building will be three stories in height and will cover approximately 4,000 square feet.

The Smiths Falls Malleable and Castings Co., Ltd., Smiths Falls, Ont., recently incorporated, have increased their capital stock from $150,000 to $750,000 and provision is made for the manufacture of steel castings. The company plan to double the capacity of their No. 2 plant and also equip a machine shop.

TWO DEFINITE TAX PROPOSALS

(Continued from page 38)

Returning to the turnover tax plan as recommended by W. H. Lamont and seconded by Mr. Ellis, as outlined elsewhere in this issue, Mr. Ellis stated that by a license scheme no business man could evade this gross sales tax. He pointed out that by that scheme every manufacturer, wholesaler, retailer and jobber would be licensed by the Government and every manufacturer and wholesaler would be forbidden to sell goods to an unlicensed man. By the straight turnover tax there would be no tax on goods until they were sold. By the other scheme tax money would be tied up in articles on the shelves. The three things most necessary for any adequate system of taxation were a license system, the minimum of taxation and the easy absorption of the tax by business. By the turnover tax he claimed these matters could be applied most effectively.

(List as referred to in market item.)

Shoe Finders' New List

Toronto.

The new shoe finders' list which was reported in the last issue of Hardware and Metal is now available and is given below.

SHOEFINDERS' TACKS

Adopted March 24th, 1921.

Shoe Rivets—In 1-lb. Papers.

Steel Wire—16 gauge and heavier—3½/8, $21.50 per 100 lbs.; 4-4½/8, $18.50; 5-5½/8, $17.75; 6-6½/8, $17.25; 7-7½/8, $16; 8-8½/8, $15.25; 9/8-11½/8, $14.25; 12/8-17/8, $13.50.

17 gauge—add $1.00.

18 gauge—add $2.00.

Brass Wire—16 gauge and heavier—3½/8, $74.50 per 100 lbs.; 4-4½/8, $70.50; 5-5½/8, $69.25; 6-6½/8, $68.25; 7-7½/8, $67.50; 8-8½/8, $67; 9/8-11½/8, $66.50; 12/8-17/8, $66.

17 gauge—add $1.50

18 gauge—add $3.50.

Hob and Hungarian Nails

11, 12, 13 gauge and heavier—⅝ in. and shorter, $21.50 per 100 lbs.; 3½/8 and longer, $21; 3/8 in. and shorter, $22.50; 3½/8 in. and longer, $22; 3/8 in. and shorter, $23.25; 3½/8 in. and longer, $22.75.

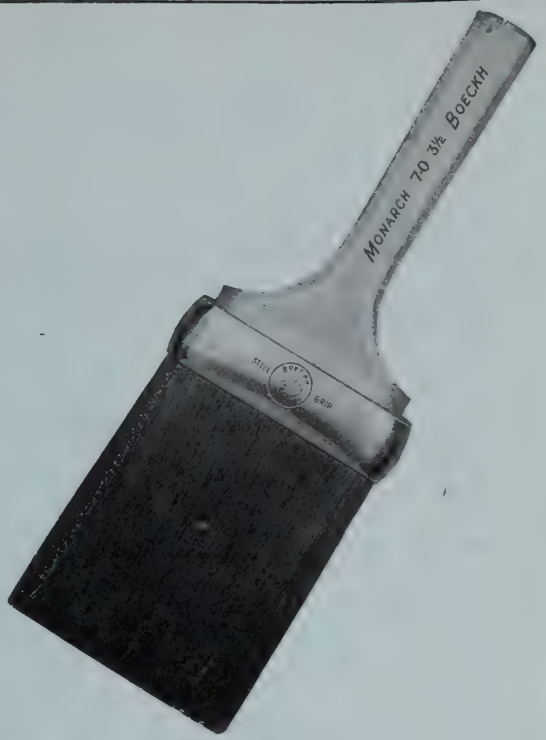
If in bulk deduct 50c net.

Channel Nails—In 1-lb. papers.—3/8 in., $24.25 per 100 lb.; 3½/8 in., $22.25 4/8 in., $21.75; 4½/8 in., $21.25; 5/8 in. and longer, $20.75.

Shoe Tacks

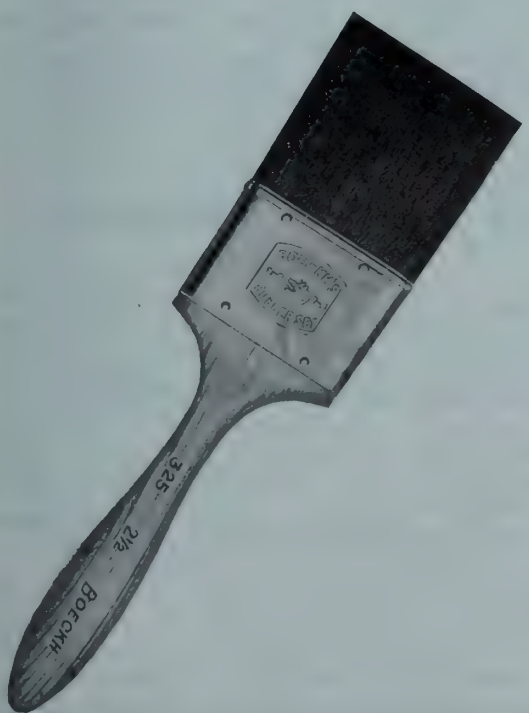
In dozens—1½ oz. and smaller, $43.75 per 100 doz.; 2 oz., $52.25; 2½ oz., $59.25; 3 oz., $68; 3½ oz., $76.50; 4 oz., $85; 5 oz., $100; 6 oz., $116; 8 oz., $150; 10 oz., $187.

ENAMELLED AND TINNED SEAMLESS HOLLOW-WARE COOKING, KITCHEN, HOUSEHOLD UTENSILS, ETC.



The Welsh Tinplate & Metal Stamping Co., Ltd., Cambrian Works, Llanelly, South Wales, the largest manufacturers in the United Kingdom, who guarantee that every piece offered for sale is manufactured throughout in their own works at Llanelly, are now open to consider applications for Representation in Canada East of Winnipeg and the Maritime Provinces.

Only applications from firms already in the Trade with established connections will be considered, and these should give full particulars in first instance to avoid unnecessary correspondence.



Early Spring— Early Painting

Are You Ready Now?

Every hardwareman knows the opportunities of sales for Spring Painting. This year there are abundant indications of an early Spring, with all of an early Spring's requirements for early paint brush sales. Is you stock right? Have you sorted up on brushes? Brush sales are "related sales." Have you the right brushes to suggest with every paint sale and to suggest sales of paint with every brush?

The Bristles Can't Come Out — *They Are Rubber Set*

There is satisfaction and inspiration in selling Boeckh's Brushes. They give the confidence that comes with handling a line with "a brush for everything." Sales of Boeckh Brushes invariably make satisfied customers. The pleased and contented customers build business by influencing their friends in your favor. It's the sure and lasting foundation of successful retail trade.

Weekly Paint Markets

Montreal

MONTREAL, March 31.—The featured changes in the paint markets this week are the lowering of quotations on shellac and linseed oil. Both white and orange shellac show a decline of approximately 50 cents a gallon, and linseed oil is again reduced to 87 cents for raw and 89½ cents for boiled in one-barrel lots. White lead in oil and putty are remaining unchanged on a steady market. Turpentine is reported slightly firmer in the South, while there is no change in the window glass situation.

An increasing business continues in paints and varnishes with the approach of more open weather. The demand continues to a large degree in mail orders for rush shipments.

Linseed Oil Again Lowered

Montreal.

A five cent reduction throughout on linseed oil has again been made. This is said to be the result of the slump in the seed market last week, as in the last few days the market for raw seed shows a firmer tendency. With the demand for oil up to the present very small, crushers are facing the market with comparatively light stocks. Likewise there is very little stock in the jobbers' hands. Therefore with the approach of the painting season there is a likelihood of firmness in the linseed oil situation at a very early date. With these conditions prevailing, the present low figures are considered a good purchasing price. It is also stated that importers have not been encouraged to bring in supplies at the low levels that have prevailed. However, with this opinion expressed as to the present situation, arguments can still be given for a continued unsettled market, with further slight revisions likely. Following are the present quotations:

1 to 2 barrels	0 87	0 89½
5 to 10 barrels	0 82	0 84½

Shellac Again Lowered

Montreal.

Quotations on shellac again show a decline of approximately 50 cents a gallon. There is still little uniformity of prices given by the different jobbers, but this reduction is apparently general. Shellac has been in a very unsettled state for some time and reductions have been made from time to time at irregular intervals. The movement at present is confined, to a great extent, in accompanying sorting orders of paints and paint products, thus the activity is not as great as in other seasons. Following are quotations at the present decline:

Orange shellac, in barrels, $3.80; in one gal. jugs, $4.10; white, in barrels, or 5 gal. jugs, $4.25; in one gal. jugs, $4.55.

White Lead in Demand

Montreal.

White lead in oil is now in fairly active demand, a large improvement being shown the last week or two, and although shipments are not as heavy as they might be, the volume of business is kept up by the numerous orders now coming to hand. Prices on this product remain steady, and it is felt this condition will prevail during the spring months at least. In the primary market, pig lead continues at a low figure, also linseed oil. However, pig lead has showed slight advances at recent dates. Stocks now on hand were corroded with much higher levels on these two basic materials, and white lead manufactured today requires some length of time before it is in the marketing stage. Quotations are $14 in 5-ton lots, $14.50 in 1-ton lots, and $14.85 in less quantities.

Putty Remains Unchanged

Montreal.

Putty is held on a steady market for the present at least. With the demand continuing light, there will in all probability be little change in the quotations during the busy season. Following are present prices:

Standard Putty—	5 ton	1 ton	Less ton
Bulk barrels, 800 lbs.	$5 00	$5 25	$5 60
Bulk drums, 100 lbs.	6 00	6 25	6 60
Do., or tins, loose, 25 lbs.	6 25	6 50	6 85
Drums or tins, cased, 25 lbs.	7 00	7 25	7 60
1 lb. tins	9 75	10 00	10 35

Pure Linseed Oil Putty, $1.50 per 100 lbs. advance over above prices.

Turpentine Prices Steady

Montreal.

There has been no change made in the quotations of turpentine this week, and dealers claim that present prices are a good mark to buy at. This product is well below what is considered the right level at this time, taking into consideration other commodities in the paint and paint product field. In the last day or two turpentine is a little firmer in the Southern markets, but the improvement is very slight and the demand is not encouraging. However, lower prices than those now quoted are hardly thought probable, as it has been the opinion for some time that increased demand was required to bring about any relief, and with the open weather now well at hand this should be increased as each week passes. Following are quotations:

TURPENTINE—	Per Imp. Gal.
1 barrel lots	0 95
2 to 4 barrel lots	0 92
Broken lots	1 00

Little Change in Window Glass

Montreal.

There are practically no new developments in the window glass situation, the market remaining in a wavering state, with an easier tendency rather than any firming up. The Belgian market continues to offer attractive figures, considering present quotations, with little buying being done. Jobbers' stocks are gradually becoming lower with the present demand, which is by no means heavy for the present season. Quotations remain at 50 per cent. off Montreal list, with some still quoting from a net list.

Paints and Varnishes

Montreal.

As the spring season and open weather gradually approaches, the demand for paints, varnishes and paint products steadily increases. Rush orders continue to come in and mail orders are very numerous. Prices on all lines remain steady and few alterations in any of the quotations may be epected during the busy spring and early summer months.

Glaziers' Points Reduced

Montreal.

There has been a reduction made in the price of glaziers' points and these are now selling at 10¼ cents per half-pound package.

Toronto

TORONTO, March 31.—Very few changes are noticed in paint or varnish products this week. Linseed oil and turpentine are both held at last week's prices. Shellac continues to be quoted at lower levels, and the tendency of rosin, despite its present low price, is still downwards. White lead in oil and putty are held unchanged, and paint prices show no alterations. Window glass is still in an unsettled state and sales are not much improved. Paint brushes are in better demand and are moving out well. Sales on ready mixed paints and allied products continue to show a gradual improvement, and that barometer of the retail state of trade, the mail order, is showing a good steady increase. Many retailers' stocks are

A SANITARY
SANI-FLAT
FLAT OIL PAINT

"Save the surface and you save all" Paint & Varnish

A Can and Its Label

The Benjamin Moore label on a can of paint is your assurance of contents 100% perfect. Sani-Flat is fully guaranteed to give entire satisfaction; it is 100% perfect. Sani-Flat is absolutely non-poisonous as it contains no lead, and is especially adapted for walls where a soft, velvet finish is desired. It works easily and sets slowly, showing no laps or brush marks, and is of great body and covering qualities. Non-changeable; the white positively will not turn yellow with age. Washable, and can be cleaned with water without injury.

Benjamin Moore & Co.

A Moore Agency Builds Business

Save the surface and you save all" Paint & Varnish

SIGN OF MERIT
BEST B M & Co MADE

none too large to cope with a decided increase in demand and during this next month or so a big volume of business is anticipated.

Mixed Paint Sales Improve

Toronto.

There is a further improvement reported in ready mixed paint sales, although the demand is inclined to fluctuate. Generally, however, business is more brisk and retailers are beginning to feel the spring movement. Shipments going forward are usually smaller in size than those of a year ago, but mail orders are more frequent. No changes are reported in any paint or varnish products.

Better White Lead Sales

Toronto.

There has been a gradual increase of business in white lead in oil and sales are more numerous than they have been this season. Prices are held without change and are as per market pages.

Putty Sales Slightly Increased

Toronto.

A little increase in putty sales is reported, but buyers are not in the mood for placing season's orders, it is stated, and are only purchasing for present needs. Prices are holding firmly at recent changes and are the following:

PUTTY—	Per 100 lbs.
Standard in 100-lb. drums	7 05
Do., 25-lb. irons	7 30
Do., bladders in bbls.	8 30
Do., less quantities	8 55
Pure, in 100-lb. drums	8 55
Do., 25-lb. irons	8 80
Do., bladders in bbls.	9 80

Rosin Tendency Downward

Toronto.

Rosin prices continue to show a decline on southern markets, and the tendency would seem to be still downwards. Stocks in factors' hands are said to be larger, and they are more anxious to sell than earlier in the year. Prices here are quoted at $6 per hundredweight in barrels and 9 cents per pound on smaller quantities.

Shellacs Are Steadier

Toronto.

There is a better demand for shellacs and the prices appear to be steadier, although some lower quotations are reported. Prices range from $3.50 per gallon for orange and $3.90 for white.

Window Glass Still Unsettled

Toronto.

Some wholesalers report a little better demand for window glass, but sales are still far from big. The tendency to cut prices to secure orders seems to be gradually passing, but the market is still unsettled. The future of the Belgian market appears still uncertain though an improvement in exchange is noted. Some lower prices are reported from United States markets, but is believed to be an effort to reduce stocks, as is the case here, and the production is greatly curtailed, many of the factories being closed down. Where the old list is being used the discount is still 60 and 10 per cent. off for case lots and 60 per cent. off cut light list.

Paint Brushes Moving Better

Toronto.

There is a better movement of paint brushes now, and sales improved in quantity and size. Prices are firmly maintained and with the bristle market in its present condition little change is likely for some time. It will probably be two or three months before the future tendency of this market is apparent, and it is believed that there is little chance of lower prices this season.

Linseed Oil Prices Steady

Toronto.

No change has been made this week in the price of linseed oil and single barrels of raw are again quoted at 87 cents per gallon and boiled at 90 cents. The demand is a trifle better and with a continued improvement in paint and paint products there should be a much better sale in the course of the next month. The flax seed market shows little change but the Argentine market is easier and though little or none of that seed is on the domestic market, it is possible that a further decline may have an influence on home markets. The next three or four weeks will possibly show a bigger demand for seed and oil. Quotations remain as follows:

	Raw	Boiled
1 to 2 barrels, per gal.	0 87	0 90
3 to 5 barrels, per gal	0 86	0 89
6 to 9 barrels, per gal	0 84	0 87
Less barrels, add 15 cts gal.		

Turpentine Prices Unchanged

Toronto.

A better demand for turpentine is reported this week and inquiries are coming to hand more often. The price locally is unchanged from last week and single barrels are quoted at 95 cents per gallon. A little easier tone is evident on Savannah markets, and stocks in hands of factors are fairly large. The tendency of both turpentine and rosin, in the opinion of some wholesalers, is still downwards and there is every indication that dealers and factors are now more anxious to sell than they were formerly and are endeavoring to reduce heavy stocks. Present quotations here are as follows:

TURPENTINE—	Per Imp. Gal.
1 barrel lots	0 95
2 to 4 barrel lots	0 94
5 gal. lots	1 10

Rosins At Very Low Price Levels

Rosins at Lower Price Than for Eleven Years —May Cut Down Production—Present Prices Said to be a Loss to Producers

THE consumers of rosins, and the dealers in rosins have to-day the unusual opportunity of securing rosins at a lower price than the average price for any year in the past eleven years, even including the frightfully demoralized period that came soon after the beginning of the war when, owing to the cutting off of foreign demand and the consequent shrinkage in values, it was found necessary to take steps in the middle of the producing season to cut down production sharply and bring about more profitable values by the reduction of available supplies, a condition that may occur again this year about July or August when producers become convinced that they are operating at heavy losses with no hope for the entire season unless drastic steps are taken, says the Naval Stores Review, Savannah, Ga.

It is probably not true of any other great commodity that the recession in values has carried the prices down to the lowest average in eleven years, lower than the four years before the war, lower than the four years of the war, lower than at any time since the war. The cost of timber, the cost of supplies, the cost of food stuffs, the cost of everything, in fact, save labor, is so much higher than before the war, or at any time in the past eleven years, that the present prices represent a direct heavy loss to the producer on every barrel of rosins marketed. Common sense tells one that this condition cannot continue, will not be permitted to continue through the season. The operators will go on for a time with the making of rosins on whatever basis they have arranged for 1921, hoping, as they seem to do, that general business conditions will improve with the spring and early summer, that foreign requirements will expand, and that better quotations will gradually be established and the industry put on a price level where there will at least be no loss. Disappointed in these expectations, with their assets shrinking from week to week, it is not difficult to see despair once more settling down on the turpentine farms from North Carolina to Texas and a general movement to slash production as was done soon after hostilities began in 1914. The effect of reduction of production then was to move prices to higher and higher levels. The effect will be the same this time. The consumer who does not see that he is missing a golden opportunity when he can buy rosins away below the cost of production is simply blinded by the desire to get a valuable commodity for nothing. The dealer who fails to see the opportunity to stock up on cheaper rosins than he ever believed would again be possible is likewise apt to miss the tide. The table of prices above is well worth the study of both classes—and of producers, as well. It is an object lesson to the latter, showing how they are once more throwing away their energies, their timber, their money and not even getting husks in return.

O.P.W.

Says Ottawa Pete:

"Save the surface and you save all" *Paint & Varnish*

"Here's a Letter that Shifted Paint"—

It ain't new and it ain't mine—all of which makes it none the worse. It's just that good for a paint dealer that it's worth our while to use this page to pass it on to you.

My Dear Mr. or Mrs. McLivin:
This will serve to introduce a competent painter and interior decorator, who is identified with our store. He comes with our recommendation. Perhaps you desire information regarding painting, varnishing, wall tinting, etc. He will answer your questions. He will quote prices on doing the job himself, or he will assist you in the selection of materials for smaller jobs you can easily do yourself. We suggest that you will not regret taking advantage of this opportunity. Professional advice is always valuable.

This letter brought a host of orders to a Paint Dealer to the south of us. And, usually, a letter that gets results down South can get 'em up North, too. The letter was very neatly printed and the scheme that went with it was just as neat.

The correct names and addresses of a long list of homeowners in the community were carefully filled in at the head. Arrangements were made by the dealer with a personal painter, who handed it in at the front doors and usually stepped in behind it. Most often, he was back in two or three days with ladders, brushes and PAINTS.

All of which brings us back to the Ottawa folk and the livest line of paints and varnish that you can handle—lines that move and boost your profits. If you would like us to call on you, drop us a line and start things MOVING.

Ottawa Paint Works

Floor Wax Moving Well

London, Ont.

There is a good sale now for floor wax and with the house-cleaning time at hand the demand is increasing. Prices on Old English wax and on Johnson's are the following:

	Johnson's.	Old English.
No. 1 size, per tin	$1 00	$1 00
No. 2 size, per tin	2 00	2 00
No. 4 size, per tin	3 50	3 50

Less 33 1-3 per cent.

Little Change in Nails

London, Ont.

There is no change in nail prices and little change in the demand. The sales continue light for the time of the year. The price remains $5.10 for the wire base and $6.40 for the cut base.

Window Glass Unchanged

London, Ont.

There is no change to report in window glass. Prices remain the same and the demand is only slightly improved. Quotations are still 60/10 per cent. off list for single and double diamond and 60 per cent. off light list for cut lights.

Fair Sale of Putty

London, Ont.

The demand for putty is slightly heavier and there are fair sales just now. The prices remain unchanged and are as follows:

	100-lb. drums.	25- lb. drums
Standard, per 100 lbs.	$7 05	$7 30
Pure, per 100 lbs.	8 55	8 80

White Lead Sales Improve

London, Ont.

With the painting season beginning there is an improvement each week in the sales of white lead in oil. There is no change in price and quotations are as follows:

	Tons.	Less tons.
Pure, 100 lbs.	$14 95	$15 30
Elephant	15 45	15 80

Poultry Netting; Good Demand

London, Ont.

There is an excellent demand for poultry netting at present and sales are good. The Canadian make is quoted at 10 per cent. above list for 1-inch and 2-inch mesh.

Screen Wire $3.50 Square

London, Ont.

Screen wire cloth is moving out well now and the painted black screening is priced at $3.50 per 100 square feet.

Spades and Shovels Moving

London, Ont.

There is a very good sale now for spades and shovels, and garden tools are also moving out well. The garden and harvest tools are selling at 50/10 per cent. off list and shovels at 35 per cent. off list. The net prices on some of the better selling shovels are the following:

FULL POLISHED—Black Cat or Star, $16.60 per doz.; Fox or Olds, $17.25; Bull Dog or Jones, $19.85.

Spring Business Promising

London, Ont.

An increase in the demand for various lines denotes the opening of the spring season, and sales in paints, varnishes, alabastine, electric and hand washing machines, wringers and many other household lines are showing promise of good business.

Winnipeg Markets

WINNIPEG, March 31.—Prices have remained steadier during the past week, but a few lines are showing lower prices. Black and galvanized sheets have been reduced in price and bright staples and galvanized poultry netting staples are lower. Coiled spring wire is quoted at a reduction, and other lines showing declines are churns, anvils, wrapping paper, ice cream freezers, food choppers, soldering coppers, twist drills and several lines of small tools. New lower prices are made on steam and hot water boilers and radiation.

Business is improving only slowly, and it is hoped that with an earlier spring trade will move more briskly. Orders for paints and varnish and various house cleaning needs are arriving in fair volume, and a little better feeling is pervading the jobbing trade.

1921 Binder Twine Prices

Winnipeg.

New prices are now issued for this year's binder twine. These quotations are slightly lower than last year's opening prices and are as follows: Binder twine—B, 19 cents per pound; A, 21 cents per pound. Net, November 1, 1921.

Rope is Quiet

Winnipeg.

Very little improvement is realized in sales of rope and business remains quiet for this season of the year. Last year at this time large orders were received for rope, but up to the present orders received have been for small quantities. With navigation now opening up and the consuming demand near at hand, an improvement is looked forward to. Prices are unchanged.

Twist Drills Reduced

Winnipeg.

Prices have been reduced on twist drills this week and are now quoted at the following:

No. 108 40 per cent. off list.
No. 9, 40 per cent. off list.
No. 105, 25 per cent. off list.
No. 112, 25 per cent. off list.
No. 104A, 22½ per cent. advance.
Morse Twist Drills, 25 per cent. off list.

English Plane Irons Reduced

Winnipeg.

This week has brought about lower prices on English plane irons and these are quoted at the following:

	Single.	Double.
2-inch, per dozen	$6 50	$11 90
2⅛-inch, per dozen	6 80	12 35
2¼-inch, per dozen	7 75	13 60
2⅜-inch, per dozen	8 50	14 90
2½-inch, per dozen	9 00	15 80
2⅝-inch, per dozen	9 85	17 25
2¾-inch, per dozen	11 20	18 75

Wrought Iron Pipe Improved

Winnipeg.

Wrought iron and steel pipe have been reported more active during the past week, and supplies are now easier to obtain from the mills, which have been able to ship back orders and shortages during the winter months. Stocks have been depleted, but are in better shape now. New steel pipe prices are announced just before going to press.

Peter Wright Anvils Decline

Winnipeg.

The price on Peter Wright anvils has been lowered this week and the following are the new quotations:

Up to 69 lbs., 29½c per lb.; 70 to 79 lbs., 28½c per lb.; 80 lbs. and over, 27½c per lb. Clip Horn, 80 lbs. and over, 28½c per lb.

Lower Prices For Wire

Winnipeg.

The prices have been reduced on coiled spring wire and galvanized wire. The following are the prices now quoted:

COILED SPRING WIRE—No. 9, $7.05; No. 12, $7.30.

GALVANIZED WIRE—No. 8, $8.05; 9, $7.00; 10, $8.05; 11, $8.15; 12, $7.25; 13, $7.45; 14, $8.55; 15, $9.30; 16, $9.55.

Staples Marked Down

Winnipeg.

The prices have been marked down for bright fence staples and galvanized poultry netting staples. Following are the prices now quoted:

FENCE STAPLES—(Bright)—Fort William, $5.80; Winnipeg, $6.45.

POULTRY NETTING STAPLES—⅞-in. galvanized, in 10-lb. boxes, $11.50 per 100 lbs.; in bulk, $9.80 per 100 lbs.

Wrapping Paper is Reduced

Winnipeg.

The price of wrapping paper has been reduced a trifle and is now quoted at $12.20 per 100 pounds.

Blizzard Freezers Down

Winnipeg.

The prices of Blizzard ice cream freezers have been marked down a little and are quoted at the following:

BLIZZARD—2-qt., $5.00 each; 3-qt., $6.00; 4-qt., $7.50; 6-qt., $9.50.

Soldering Coppers Reduced Again

Winnipeg.

The price has again been reduced on soldering coppers and followning are the latest prices:

1-lb., 55½c per lb.; 1½-lb., 51½c; 2-lb., 48c; 2½-lb., 47c; 3-lb., 45c; 3½-lb., 45c; 4 lbs. and over, 44c.

Black and Galv. Sheets Reduced

Winnipeg.

Prices have again been revised on black and galvanized sheets and are somewhat lower. Following are the present prices:

The Best Floor Varnish

Wringers Down in Price

Winnipeg.

The prices have been reduced on several lines of wringers and new quotations are as follows:

Regent, $69.00 per dozen.
New Easy, $76.50 per dozen.
Universal, $49.50 per dozen.

Linseed Oil Price Holds

Winnipeg.

Linseed oil prices remain unchanged here this week and are quoted at $1.20 per gallon for raw and $1.23 for boiled.

Turpentine Has no Change

Winnipeg.

The price of turpentine has not changed this week and remains at the same price of $1.30 per gallon in barrel lots and 10 cents per gallon extra for smaller lots. Containers, 25 cents per gallon extra.

Lower Prices For Churns

Winnipeg.

The prices have been marked down for both hand and power churns and these are quoted as follows:

	Hand	Power.
No. 0	$ 9 00	$11 00
No. 1	9 00	11 00
No. 2	10 00	12 00

No. 4	13 00	17 00

Pittsburgh Markets

PITTSBURGH, March 31.—Since the first signs of an improvement in the demand for steel products were observed about three weeks ago, the increase in buying has been extremely moderate, and the opinion is that the tendency to expand is held in check by the fact that steel prices are not yet adjusted to a permanent basis. There is no established market and will not be, it is thought, until the Steel Corporation acts. When that will be is uncertain, but the view is that the Corporation is waiting for buyers to take hold.

Production continues to steadily decline. Prices on bars, shapes and plates are practically unchanged, with business chiefly in car load lots. On larger quantities the concessions are stated to be less than could have been secured a month ago. Standard steel pipe is being shaded, and an extra 2½ to 5 per cent. discount is being quoted by some independent mills. Foundry pig iron has declined $1. The market has been nominal in basic pig iron for some time and some plants having accumulated stocks are offering their surplus at $23, which is supposed to be a little under replacement cost.

PITTSBURGH, March 31.—About three weeks ago the first signs of an increase in demand for steel products appeared, and the experience now accumulated is that the improvement is of extremely moderate proportions. No one is disappointed, for very little was expected. The only point about the improvement is that the turn has been rounded. Business has not become so good that there is any danger of its going the other way, for it has scarcely any room in which to grow worse.

Since the first of the year the question has been whether there would be a spring buying movement. There was no serious expectation that the turn of the year would bring increased activity, but there is almost invariably an improvement in spring, unless the business has been done in advance. Probably there is now a tendency for business to expand, the tendency being checked by recognition of the fact that steel prices are not yet adjusted to a basis that would likely prove more or less permanent.

There is much discussion of the United States Steel Corporation's attitude on prices and its probable action. The independents, although a couple of months ago they began on a rather broad scale to cut the Steel Corporation or Industrial Board prices, have not even by this time made a definite and stable market. Independent prices went down sharply for two or three weeks and since then they have scarcely been sagging. The level is fairly well defined now, but it is not established by buying. It is chiefly a carload market, with plain indications that on large lots some of the independents would make further concessions, of indefinite amount. Thus there is no established market, and there is no tendency for the market to seek a definite and stable level. In the circumstances it is recognized everywhere that the matter is left for the Steel Corporation to settle. The real market will come when the Steel Corporation acts. It does not follow that the prices the Steel Corporation names will become absolutely the market. Independents may cut those prices slightly, or they may be unwilling to go altogether as low. Or, some may cut the prices and some refuse to meet them. Nevertheless, the Steel Corporation prices will, according to the common view in the trade, represent the market in general, furnishing a schedule in which buyers can have considerable confidence.

The Corporation has not acted and there is no indication as to when it will act. Some men, chiefly outside the trade, have criticized the Corporation for not acting, while many, chiefly within the trade, warmly commend the Corporation's course as being the wise one. Those who criticise the Corporation speak as if business would develop if the reductions were made.

This divergence of opinion arises from confusion between cause and effect. A reduction in prices does not cause people to buy unless they are ready to buy. When people are ready to buy and expect lower prices, failure of prices to decline will cause them to delay buying. The proponents of a price reduction by the Steel Corporation have assumed that price reduction would cause buyers to take hold. Those in the trade are convinced that buyers are not ready yet, and assume that when the Steel Corporation see that buyers are ready it will reduce prices. In other words, a disposition on the part of buyers to take hold must be regarded as a cause for the Steel Corporation to reduce prices, not a result of its doing so. Hence the proper view to take of the present situation is that the Steel Corporation is waiting until buyers are ready to take hold. Then the Corporation will reduce prices and will be glad that the occasion, now being waited for, has arrived. To reduce prices before the buying disposition is developed would be to waste an important psychological influence. Besides, a great many customers of the Corporation do not wish it to reduce prices. They have stocks of raw material and manufactured goods to work off.

Production

Week before last it was estimated that the Steel Corporation was down to a 45 per cent. operation. That estimate, which was quite general, proves to have been incorrect, as the Corporation actually produced steel in the week at 49 per cent. of capacity. Last week, however, it may have gone down to a 45 per cent. rate, as the general tendency of the Corporation's operations is a declining one. The independents have continued to peg along at an average of about 20 per cent., though there are numerous changes in the active list. One mill may close for a week or two while another resumes. Newspaper accounts of mills resuming or closing must not be taken at face, as in some cases the resumptions are emphasized and the stoppages omitted, or vice versa.

Assuming the correct percentages of present operations to be 45 per cent. for the Steel Corporation and 20 per cent. for the independents, the Corporation is producing steel ingots at the rate of 10,000,000 tons a year and the independents at 6,000,000 tons, making 16,000,000 tons altogether, or about 30 per cent. of the total.

QUALITY · PROTECTION · DURABILITY

Like The Links of A Chain

JUST because different surfaces are subjected to different kinds of wear there must, of necessity, be a particular varnish to meet each particular need.

And there is—in the Sherwin-Williams "Cover the Earth" line. MAR-NOT, SCAR-NOT and REXPAR meet the three distinct varnish requirements about the home, for floors, for furniture and wood work, and for outside surfaces.

Sherwin-Williams dealers have, therefore, a complete chain of varnishes to meet every customer's varnish requirements, each product exactly suited to the purpose for which it is intended.

Salesfolk Who Draw No Salary

Tommy, Betsy, and their friends are selling Vitralite Tints for you every day. Just because their work costs you nothing, don't make the mistake of overlooking their persistent efforts.

Reaching the better-class homes of your community through such quality magazines as the Atlantic Monthly, Century, Country Life in America, Harper's, House Beautiful, Review of Reviews, Scribner's and World's Work, the Tommy and Betsy advertisements are developing a call for Vitralite Tints as great or greater than the demand for the incomparable white Vitralite. This is no season to miss quality sales — if Vitralite Tints are not in your stock, write for the introductory proposition.

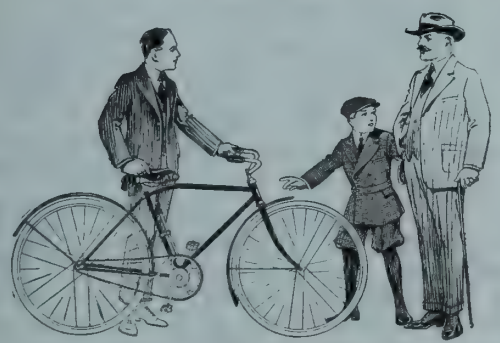
CARTER'S

Always Recommend



CARTER'S GENUINE DRY RED LEAD

It is worth recommending. A highly oxidized and very finely ground Red Lead that is always pure, always uniform and very economical. The best protection paint for metal work, railway and marine work, steam pipes, etc.

Carter's Genuine Orange Lead, Genuine Dry White Lead and Litharge are of a similar high quality. Write for prices and particulars.

The Carter White Lead Company of Canada, Limited, 91 Delorimier Ave., Montreal

The "Small Town" Dealer Can Make Money Selling C·C·M· Bicycles

"That's the Bike I Want, Dad!"

THERE isn't a town so small that there are not a number of boys and girls in it who want bicycles. In the surrounding district are many farm boys and girls who would find a bicycle a quick and easy way of getting to school.

And there are school teachers, clergymen, carpenters and others who are "live" prospects for bicycles.

It is really surprising how many sales enterprising C. C. M. dealers make in small towns. The business is there if you **go after it.**

Spring is here—the BIG season for bicycles. Now is the time to get into the business.

Write to-day for agency terms on one of the popular C.C.M. lines:—

Red Bird—Massey—Cleveland—Perfect—Columbia
Gendron—Ivanhoe

If This Were *Your* Window —

Here is a suggestion for a Univernish Window Display—easily arranged, attractive and convincing—one that will beckon the passer-by into your store for supplies of **"The Varnish that lasts longest."**

Univernish needs little introduction to the people of your community. It is known to them already through big space consumer advertisements appearing in Canadian publications of national circulation.

Tell them through your window displays that you sell Univernish. You can meet their every color requirement because Univernish is made in a wide range of transparent wood colors as well as a clear varnish.

Write us to-day for all particulars of our dealer proposition.

"Save the surface and you save all" *Paint & Varnish*

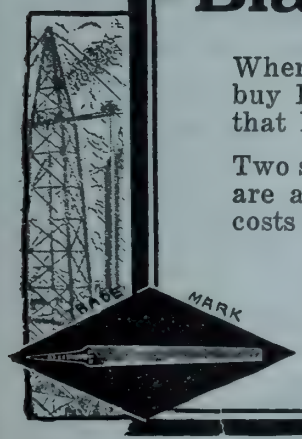
GLASS

GLASS—We are receiving regularly large quantities of Belgium glass. We stock or manufacture Plate, Bevelled Plate, Mirrors, Figured, Leaded, Wired and Prism Glass.

DELIVERIES—We can make immediate deliveries or spring import shipments.



PRICES—At a time when you want to buy at the lowest prices we urge you to place your orders with us. Our prices are attractive.

Write, Phone or Wire for Prices

HOBBS Manufacturing Company, Limited

MONTREAL TORONTO LONDON WINNIPEG

Black Diamond for Cutting

When you buy a file, you buy cutting service. For extra cutting value, buy Black Diamonds. Made since 1863 to a standard of file quality that has won highest honors at expositions and at the bench.

Two simple steps will lead to better filing except where Black Diamonds are already used. Our catalog is free for the asking. A shop trial costs nothing and will show convincing results.

Established 1863

SILKSTONE

(REGISTERED TRADE MARK)

FLAT WALL COLOURS

Suppose you write us to-day about Silkstone and other lines that will benefit your business? We know you want to satisfy customers and build permanent, lasting trade; Silkstone is one of a line that does that to perfection.

You can sell it because Silkstone beautifies walls at less cost than wall paper. It can be washed easily without rubbing off. Its soft, silky finish gives an artistic effect much appreciated by home lovers. It is economical, durable and satisfies good taste.

Let us show you that it is profitable to sell. If a thing sells well and pays the merchant well, you certainly want it working for you in your store, don't you?

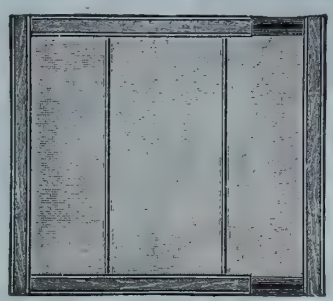
The Trade Mark behind the "Hardware House of Quality"

DIAMOND A BRAND — ASHDOWN'S GUARANTEE

The Largest Wholesale Hardware Dealers in Canada

Kasement Skrene Dores

Cost No More and Wear Longer



There are no other screen doors like Kasement Skrene Dores on the market to-day. The strongest and lightest made. A man weighing 200 pounds can swing on a "Kasement" door like a gate, without damaging door or hardware.

They cost no more than any make of good door—wear longer, and they are the cheapest in the end.

A complete set of nickel-plated "Kasement" hardware, packed in individual cartons, is furnished with each door.

Fit perfectly, even on a casement that is "out of line." May be hung in 15 minutes. Save time and labor. Made of selected B. C. fir, thoroughly air-dried and excellent quality mesh wire cloth, black painted. Plain designs, neat, attractive, and in a variety of finishes.

We guarantee "Kasement" Skrene Dores not to sag, warp, or pull apart, and to give absolute satisfaction. We authorize dealers to refund purchase price if customer is not entirely satisfied.

Window Screens

Offer a Wide Field of Sales and Profit

These reliable, dependable screens offer a wide field of sales and profit. Many of last season's screens in the hands of consumers have been badly stored through the winter or otherwise abused so that they must be replaced this season.

These popular screens are made of hardwood, and oil finished. The edges of the wire cloth are entirely covered with wood. Angle irons fit closely to the wire, leaving no space for flies to enter. Perfectly adjustable by means of double dovetailed tongues.

Window Ventilators

Keep Out Dirt and Rain

The Continental is a leader. Made with sanitary cloth, this Ventilator is of selected hardwood, oil stained and finished in "Mission Oak." A fine mesh cotton cloth, buff-colored and specially treated, forms the center of the ventilator, and acts as a filter, therefore keeping out all drafts, dirt and dust, rain and snow, and at the same time permitting the constant circulation of fresh air. Specially adapted for use in the home, schoolroom, offices, factories, institutions and hospitals, etc.

Mathematics Are Useful BUT—

Only simple arithmetic is necessary in figuring out which lines really net an instant profit. But favorable "After-Effect" is much more important than first profit. For is it not the key to further sales?

In selling a

Maxwell
Food Chopper

there is the usual fair profit, plus satisfaction to the user — the favorable "After-Effect" — from which *You* will reap both direct and ultimate benefit. Your shoulder behind this line will prove a good investment.

DOOR CHAINS
NEW STYLE

Electric Welded Link Chain (brass plated) on Cast Brass Mount.

A big demand is being shown for this door chain as a protection against burglaries, which are now so common.

Made in Canada.

Toronto Lock Mfg. Co.

Toronto Canada

SIMONDS

CROSS-CUT SAWS

Cut easy, saw fast and stay sharp longer than other brands. They are fully guaranteed. Hardware dealers should get our catalog and prices.

Simonds Canada Saw Co., Limited

ST. JOHN, N.B. MONTREAL, QUE. VANCOUVER, B.C.

HARDWARE & METAL is the only weekly hardware paper in Canada and is read by practically every worth-while buyer, both wholesale and retail, in Canada. HARDWARE & METAL is the logical medium to use if you have a message for the Canadian hardware trade.

If interested tear out this page and place with letters to be answered.

THE BUYERS' GUIDE

If what you want is not here, write us, and we will tell you where to get it. Let us suggest that you consult also the advertisers' index, facing the inside back cover, after having secured advertisers' names from the directory. The information you may desire may be found in the advertising pages. This department is maintained for the benefit and convenience of our readers. The insertion of advertisers' headings is gladly undertaken, but does not become part of any advertising contract.

HYGIENIC KALSOMINE

For Economical Spring Decorating

Thousands of neglected walls need cleaning and redecorating this Spring, and your customers will want a good, sanitary finish which can be easily applied—one that is artistic, yet not expensive. Hygienic Kalsomine is the answer.

It is made in all popular shades and has unlimited decorative possibilities.

It is easily applied, spreads farthest, and dries without imperfections. It mixes completely in hot water, eliminating waste and the work of straining.

Hygienic Kalsomine affords a legitimate margin of profit and brings in large returns through continuous sales.

Valuable Booklet Free

"The Home Decorator" shows many artistic color combinations possible with Hygienic Kalsomine. It will help you solve your Spring Decorating Problems. Write for copy to-day.

"Save the Surface and you save all" Paint & Varnish

Registered **Floglaze**

The Finish that Endures

Home and Farm Shades

for bigger turnover and bigger profits

Floglaze

Home and Farm shades can be used on practically everything about the home and farm—for finishing all interior and exterior articles, whether wood, or metal. Gives a brilliant, high lustre and long wearing surface.

Floglaze

Home and Farm brings to your paint department a concentrated and complete line of "Superior to Paint" finishes. This enables you to realize a maximum of profit at a minimum investment of capital.

Universal usefulness increases retail turnover and produces bigger profit.

With strong assurance in and keen enthusiasm about Floglaze Home and Farm you can make ready for a bumper crop of 1921 sales. Get in line to cash in on this proposition.

We invite your enquiry for our booklet "A Guide to Larger Profits," which shows where larger profits can be made with Floglaze—the finish that endures.

MEAKINS BRUSHES

Repeat Sales

Meakins Brushes have brought many dealers increased business. Meakins Brushes are a profit-making line that leads to repeat sales. These reliable, efficient brushes are made from selected materials by experienced mechanics. You can "sell" your prospect on the fact that the bristles will not come out. Every Meakins Brush is Rubber Set.

Meakins Brushes are known from coast to coast for their durability. When the consumer asks for paint brushes, he naturally expects Meakins. Order through your jobber.

Write for complete catalogue.

The tool he should be using is a Starrett ——— ——

Have You This Tool In Stock?

There are four hermaphrodite calipers of Starrett make. One of these—the tool to be used here—is designed especially for laying out work such as marking lines parallel with the edge of a block, finding temporary centers, etc. Another, designed for less sensitive adjustment, is used where the requirements are not so rigid. Two of them have lock joints, permitting work over flanges, etc.

The caliper this machinist is using may be found in the new Starrett Catalog No. 22 MA. See if you have it in stock.

Barrett Roofings, Cements Industrial Paints etc.

Everlastic "Rubber" Roofing.

Everjet Elastic Carbon Paint

Everlastic Liquid Roofing Cement.

Plastic Elastigum Patching Cement.

Introducing Everlastic Multi-Shingles—(4 Shingles in One)

THE Barrett Company, Limited, which for 75 years has been recognized for its preeminence in the manufacture of roofing and roofing materials, is now manufacturing Everlastic *Slate-Surfaced* Multi-Shingles—the newest thing in roofing.

Every home owner wants a roof that is beautiful, durable and not expensive. Multi-Shingles have been developed to fill this demand. When laid they look exactly like individual shingles and make a roof worthy of the finest buildings.

The soft, natural-slate shades of red or green furnish color and texture to the roof and at the same time give it great durability, exceptional fire-resistance and freedom from painting. No artificial coloring is used.

Each strip of Everlastic Multi-Shingles is 32¼ inches long by 10 inches high. The self-spacing cut-outs are 8 inches apart and 4 inches deep by ½ inch wide.

They come in strong packages containing enough shingles for one-half square —50 square feet. Each color packed separately. Weight of package, ready for shipment, 90 pounds.

Be sure to look for the Barrett Everlastic trade mark on every package.

The Barrett Company LIMITED

MONTREAL TORONTO
WINNIPEG VANCOUVER
ST. JOHN, N.B. HALIFAX, N.S.

Modern home showing effect secured by use of Barrett Everlastic Multi-Shingles.

TRADE M MARK

Roofing and Building Papers That Continually Boost Your Store

Building Papers, Tarred Felt, Sheathings and Tar Products, and Wrapping Paper of all kinds that give service in use, reflecting credit on the dealer and inspiring confidence in all the lines he sells—that's the McArthur line.

Drop us a line for an interesting little booklet on Roofing Materials. It will tell you of each one of our lines—reasons why they sell, and serve the consumer so that you hold his future trade.

We cannot tell of all the lines here, but, for instance, "Black Diamond" Tarred Felt is pure wool tarred roofing felt, from selected woollen rags saturated with pure coal tar, producing the most durable roofing felt possible to make.

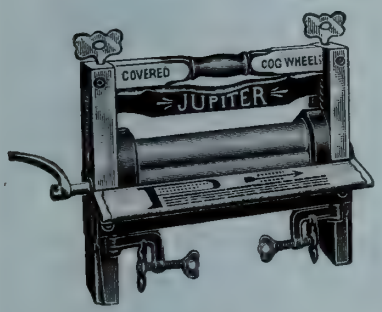
"Seafoam" Electric Washer

THERE IS NO DULL SEASON FOR DOWSWELL PRODUCTS

The BICYCLE BENCH Wringer, which accommodates two tubs, has steel ball bearings, covered cog wheels and reversible water board which conducts water into either tub. The frame is of seasoned hard maple which will not warp or crack.



Extra High Grade Rolls, warranted 3 years in family use.

A most complete wringing outfit.

The MONITOR ROTARY LAWN CLOTHES DRYER is an extremely handy device that saves many steps and much hard labor carrying a heavy clothes basket around the yard through wet and snow. It can be carried out, set up, and taken in by a woman, as it is light in weight though very strong. Hangs a large assorted wash. When taken down leaves the lawn level and clear, stores in a small space, and lines are always clean.

7-ft. arms—150-ft. line.

The JUPITER Wringer, for round or square tubs, is fitted with highest grade rolls, 11 x 1¾ ins., warranted 5 years in family use; steel ball bearings and covered cog wheels. It is the highest grade obtainable, and on account of its long wearing and easy running qualities is the most economical.

MADE IN CANADA **SOLD BY ALL JOBBERS**

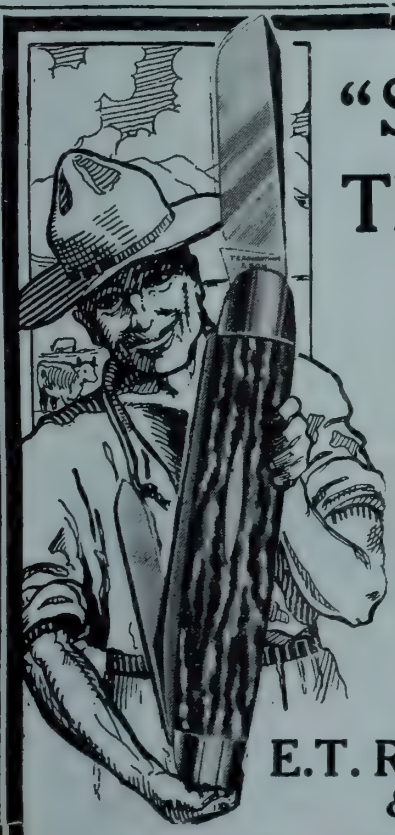
Reed's Patent Plastic Asphalt Roof Cement

repairs cracked joints, nail-holes and defective places on slate, metal, gravel and prepared roofs.



This cement will repair a roof WHERE SOLDER CANNOT BE USED.

It is VERY ADHESIVE and sticks firmly to anything forming a tough, leather-like skin over the top; WILL NOT RUN or loosen from joints or cracks in Summer or Winter.

For twenty-five years, in all climates, this cement has given perfect satisfaction and its supreme usefulness makes it one of the best-selling items in a hardware store when properly displayed.

Put up in 1, 5, 10, 125 and 500 lb. containers

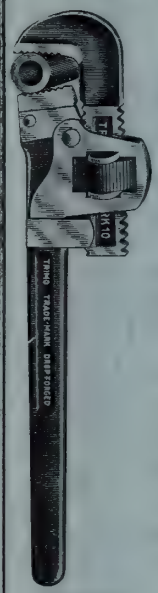
Arrowhead Saws

Vanadium Steel

How you sell saws depends partly on your salesmanship. You can sell a poor saw but once; to sell saws successfully and build yourself a permanent business you must sell good saws. To give good saws distinction and individuality they must have the desirable selling points of superior saws.

Arrowhead saws have those points; the hang, set, temper and finish are right, and they sell right. Arrowhead saws attract, sell and satisfy your customers. Their satisfactory performance in service creates confidence in your store, and in your other lines of goods.



T. F. Shurly Company, Limited
St. Catharines
Ontario

We make many kinds of saws that will better business for your establishment; Cross-cut, Hand, Buck and Circular Saws.

Ask for the Shurly Catalog.

TRIMO

THE WORD TRIMO

Stands for good tools made by the Trimont Mfg. Co., which are the following:—

The Trimo Pipe Wrench

The Trimo Chain Pipe-Wrench

The Trimo Nut Wrench

The Trimo Pipe Cutter (Hand)

The four good points that make **Trimo Pipe Wrenches** superior are the **Spiral Spring** always in place—**Steel Frames** that will not break—**Nut Guards** that protect adjustment nut—and the **Inserted Jaw** in handle that can be replaced when worn.

In design and construction it is the best torch of this type on the market to-day.

Detroit Torch

Takes Little Space

Our No. 42 Auto or Electricians' Torch has oblong tank and is very popular with mechanics desiring a tool that will take up little space in a kit.

Tank is made of heavy brass throughout. Supports on botton of tank prevent torch from tipping over when placed on bench—not in the way when torch is not in use. Fitted with patented tapered burner, with hook and support for soldering coppers. Valve wheel is of wire and always cool, giving operator full control of flame at all times. Automatic pump of simple construction forms the handle.

Better Business Comes to the "Gutta Percha" Dealer

When people go out of their way to boost the store of a certain dealer, it is because the goods that dealer sells give satisfaction. When people go out of their way to boost a certain tire, it is because that tire has won their confidence and their enthusiastic recommendation.

The reason for the bigger business done by "Gutta Percha" dealers is found in the fact that "Gutta Percha" Tires give such unqualified satisfaction.

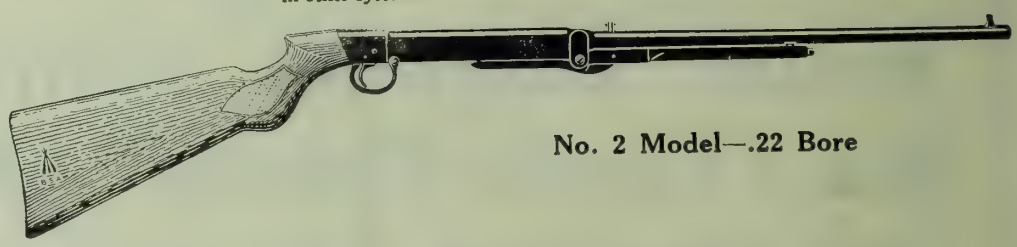
B·S·A



AIR RIFLES

No. 1 Model—.177 Bore

The Method of Cocking the B.S.A Air Rifle is here illustrated. The patent form of lever mechanism is used, instead of the barrel as in other systems.

No. 2 Model—.22 Bore

A Useful, Accurate Rifle—Not a Toy

This is a good proposition for the merchant. There is a well-defined need and demand for air rifles in this country—particularly for a practical, useful rifle like these B.S.A. types. They are powerful, yet short ranged; accurate and safe.

Here are the principal features of the B.S.A. air rifle summarized for busy buyers' attention:

It has no breech joint through which compressed air can escape; it has an accurately fitting, air-tight, breech plug, which forms the pellet chamber; "the rotating breech plug has many important advantages, chief among which is the great uniformity of result from round to round."

Arms and Explosives. The patent, separate lever is used instead of the barrel as a spring-compressing lever; it has improved forms of back and front sights; an aperture or peep backsight can be properly fitted and used on it (by reason of the rigidity between barrel and cylinder); the barrel is rifled with greatest engineering skill, especially to deal with the specially shaped B.S.A. pellets; every part is interchangeable; the piston (or main) spring is very easily replaced; the highest class of steel only is used. The life of the rifle is thus practically everlasting.

FREE DEALER ELECTROTYPES

Electrotypes of any or all of these advertisements will be sent, free of charge, to dealers who agree to use them in their local papers.

C.S-2 will occupy a space 4½″ deep on two columns. C.S-3 will occupy a space 5″ deep on three columns. C.S-4 will occupy a space 6″ deep on two columns. C.S-1, not shown here, is similar in size and style to C.S-4. It is especially prepared for dealers who give **free** crank-case service.

Liberal space is provided at the bottom of each advertisement for dealers' names.

Order by number.

Build Up Your Automotive Trade—

Imperial Polarine Crank-Case Cleaning Service Will Do It

Motorists are realizing more and more the importance of crank-case cleaning service. Most motorists prefer to have the job done by men who understand it thoroughly. Naturally they look to their dealers.

A modern crank-case service will increase your sales on all automotive lines. It will bring you new trade and it is the best good-will builder you can put to work.

All dealers who establish a crank-case service will reap rich rewards. Those who advertise this service will profit most. Your name at the bottom of one or more of the above advertisements in your local paper frequently will go far to establish your firm as headquarters for Imperial Polarine and Imperial Polarine crank-case cleaning service.

The Imperial Oil salesman can give you some good suggestions regarding establishing and operating an Imperial Polarine crank-case cleaning service department. Ask him about it.

You should have a copy of our interesting new booklet, "Automotive Lubrication." Write to 56 Church Street, Toronto, for booklet and free electrotypes.

A Sales Plan Which is Guaranteed

By the Manufacturer

For the promotion of

D-B CARBON REMOVER

The manufacturers have such explicit confidence in **D-B Carbon Remover** that they are willing to stake all their sales on **QUALITY alone!**

Through the extensive sales campaign every motorist will be informed that dealers let them try **D-B Carbon Remover** without expense. They are going to ask you for it. Will you have it in stock? Of course you will!

Give them a can on trial, and if it does not serve the purpose, they return it to you, and it costs them nothing.

You do not lose anything either, because **WE WILL PAY YOU FOR THE RETAIL VALUE ON ALL CANS THAT ARE RETURNED AS UNSATISFACTORY!**

"We have confidence in our product"

AUTO JACK says:

D-B Carbon Remover is the only way to clean the engine without moving the cylinder head and it is NOT injurious to the metal.

WANT ADS

If you want a buyer, clerk, salesman, traveler, position, you can reach the best men in the trade through these columns.

If you wish to buy or sell a business, or dispose of overstocks, you can reach a larger number of hardware men through this page than in any other way.

Rates (payable in advance) 2 cents per word. An additional charge of 10 cents for each insertion is made when Box Number is required. Each figure counts as one word. When panels are desired a charge of $1.50 is made for a panel 1 inch deep by 2⅛ inches wide.

Address all advertisements for this section to HARDWARE AND METAL, 143-153 University Ave., Toronto, Can.

Acornette Pump Connection

ECONOMY!

The Improved Acornette makes a timely appeal to motorists because it gives them more for their money.

The Acornette design prevents buckling and retards chaffing of the rubber washer. The result—Acornette grips the tire valve tighter and the washer lasts longer.

"Thru your jobber—his service is economy."

Ruberoid Roofing brings Business to You

The co-operation extended by The Standard Paint Company of Canada, Ltd., assures Ruberoid Dealers the maximum of business with a minimum of expenditure of sales effort. Ruberoid Advertising in the leading magazines, farm publications and newspapers, linked with local newspaper advertising featuring the dealers' names, brings many unsolicited sales.

With Ruberoid Roofing in your store your roofing business will grow. Your customers know Ruberoid Roofing—know that it has stood the test of time on hundreds of roofs for nearly thirty years. And they have great confidence in the policy of The Standard Paint Company of Canada, Ltd., to produce, in Ruberoid, the best prepared roofing that can be made.

Write *to-day* for information regarding the Ruberoid Merchandising Plan which protects the dealer by eliminating competition.

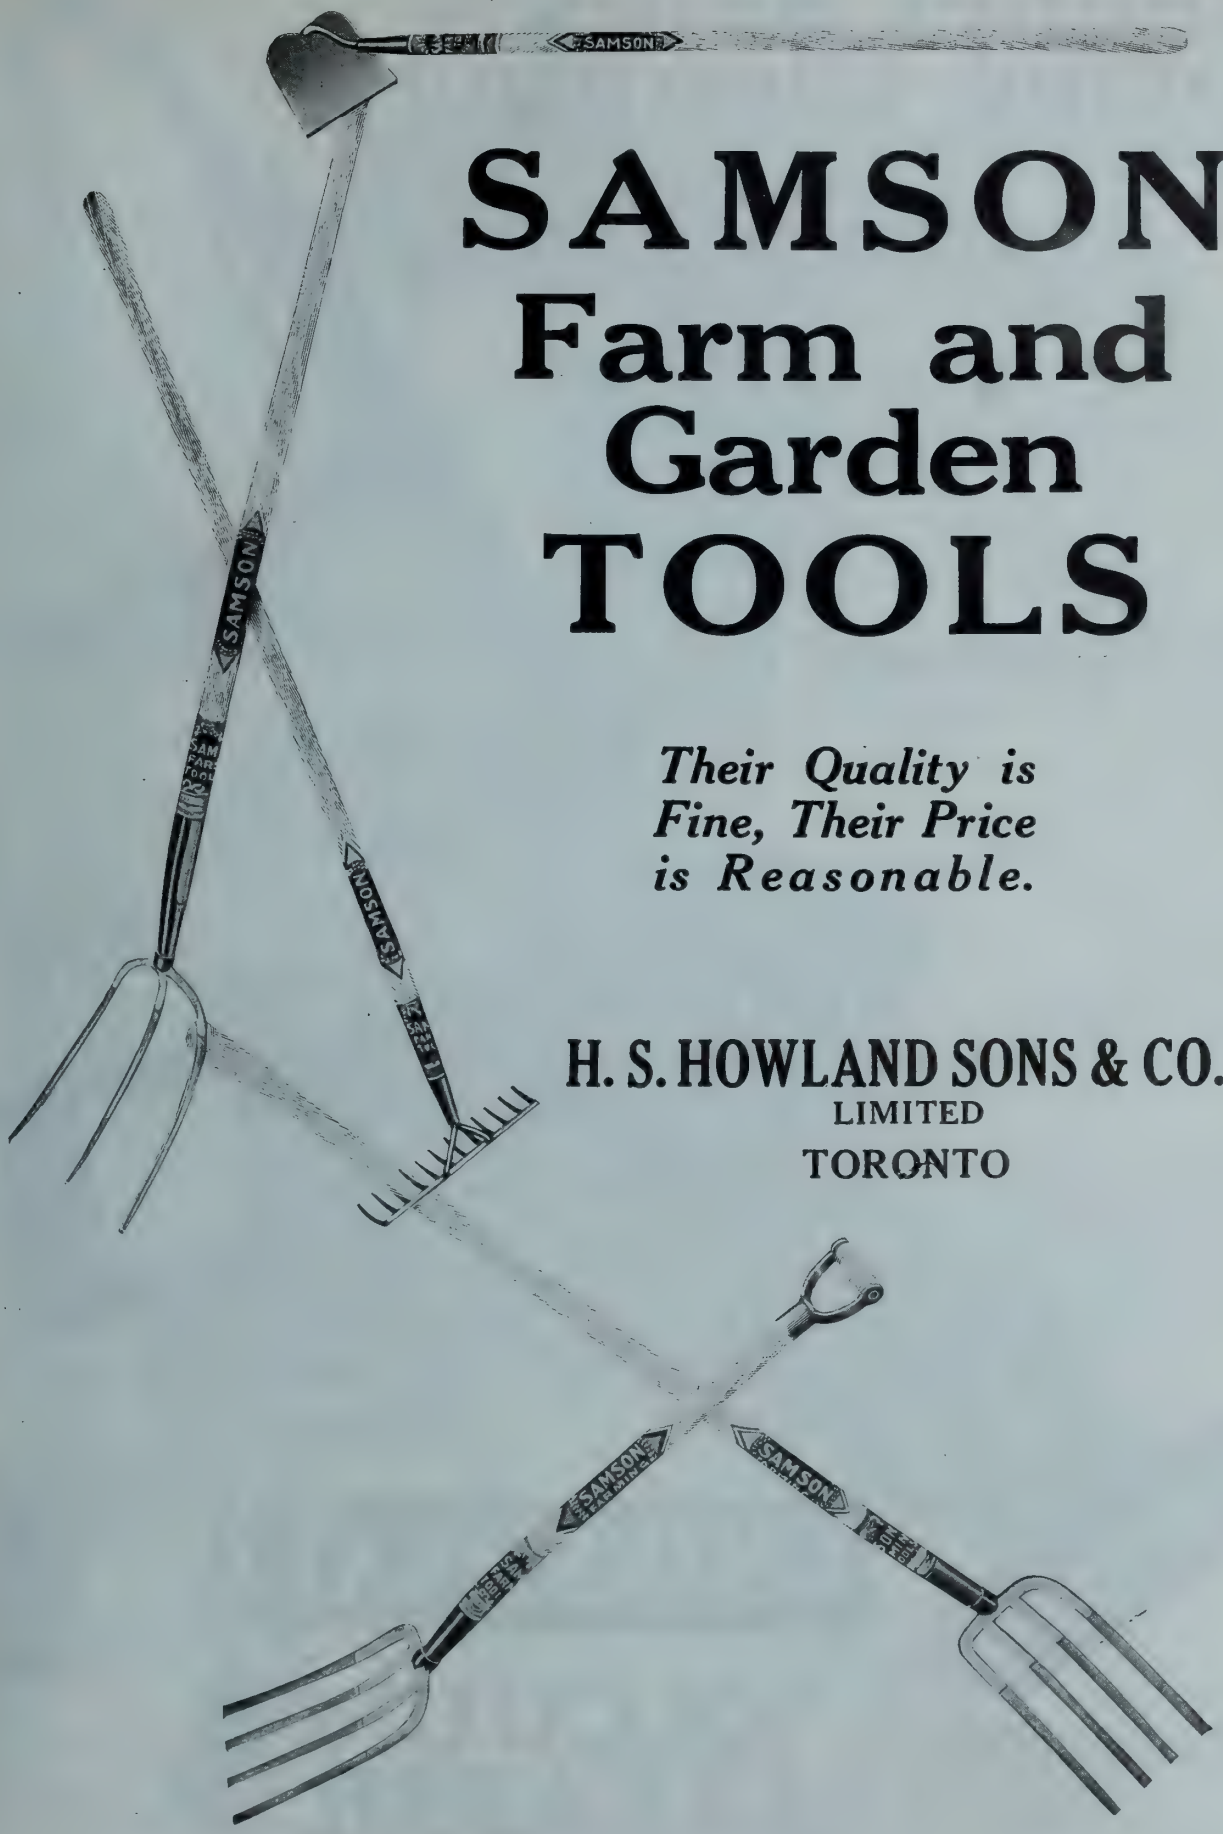
O-Cedar Polish

—*from every angle,* A PROFIT-MAKER FOR YOU

THE high esteem in which O-Cedar Products are held by merchants, is, of course, due chiefly to the profit-possibilities of the goods. These profit-possibilities are in evidence every way you consider the line!



First, from the angle of "profit per sale."

Second, from the viewpoint of "frequent turnover."

Third, from the consideration of "customers' satisfaction."

And last, but not least, for the reason that the price of O-Cedar Products is well-maintained. Merchants easily get the full price for O-Cedar Polish and the O-Cedar Polish Mop—thus making sure of the full profit they are intended to have on every O-Cedar Sale.

Cleaner Sales for Spring Cleaning

SOME women will never see the day that they are not blind to their best interests. Many will approach spring housecleaning with all the joy of a kid taking a dose of sulphur and molasses. Others will use the "Universal" Cleaner and benefit accordingly.

IT'S an ill-wind that blows no dust from some woman's eyes. Now is the time to clear the housewife's vision to the wisdom of using the "Universal" Cleaner. Show her the easy way out of the dusty past into the dustless future.

THE popularity of the "Universal" greatens with its good work. Its quality and price are conspicuously right. The "Universal" guarantee is all-inclusive. It protects the dealer against every form of trouble—insures the buyer every kind of satisfaction.

"America" Trolley Hanger

Largest Hanger Sales in the Dominion

The America is easily the most popular for warehouse, factory, garage and barn doors. America operates in the Hatch Trolley Track—the only track supported by the famous corrugated track brackets. Much stronger and better than the plain track brackets.

The America moves smoothly on tandem trucks and hardened roller bearings. Apron 6 in. long, 3¼ in. wide. This efficient hanger appeals to customers because of the simple adjustments, anti-friction, forged steel yokes, and ability to stand hard usage.

With each pair of Hangers are included two End Caps, Bolts for Hangers and Lag Screws for Brackets.

Packed one pair in a box complete with Screws and Bolts.

Weight per dozen pairs, without Brackets, 95 pounds.

When a Man Trusts His Life to a Rope

He pays it about the biggest compliment it is possible for a man to pay.

There are more men trusting their lives to Plymouth Rope every day than to all other ropes made. For those who go down into the sea to save life or salvage wrecks, or hang suspended in mid-air while they work upon sky-scrapers or church steeples know that "Plymouth Rope is the Rope they can Trust." Others have been trusting it for nearly a century.

You can trust Plymouth Rope to build up your rope sales by giving customers a little more of strength and wear than they expect.

"JEWEL PIPELESS" FURNACES

The Finest One-Register Furnace on the Market

Right now we can see that the introduction of this furnace is going to make the year 1921 the banner year for our dealers, breaking all past sales records. This is only natural, because "Jewel Furnaces" have always been producers of large sales for our dealers, and the "Jewel Pipeless" contains the same high qualities that have made the name "Jewel" famous from coast to coast.

Your customers, when buying a heating apparatus, want mainly real Quality Heaters that will give good service for many years.

When you sell them a "Jewel" you sell them what they want.

All materials entering into the manufacture of "Jewel" Furnaces are highest grade and they are erected by skilled mechanics under the supervision of experts, which ensure the dealer and user entire satisfaction.

Safeguard your reputation as a furnace installer by selling your customer a "Jewel Pipeless," a furnace that is built on knowledge derived from experience.

Take another look at the illustration and ask yourself if the "Jewel Pipeless" is not the most durable, efficiently constructed, and neatest appearing furnace you have yet seen.

No other line offers you, Mr. Dealer, so great an opportunity to give to your customers the best that their money will buy.

March Sales EXCEEDED OUR EXPECTATIONS

In spite of the fact that some fence manufacturers have eliminated the dealer and are selling direct to the farmer, our sales to dealers during March went over the top by a big margin. This proves that the farmer still prefers to purchase from his local dealer, where he can see the fence before he buys, and get the dealer's guarantee that it will give years of service under ALL climatic conditions.

The average farmer naturally wants to buy his fence as cheaply as possible, but his first consideration is QUALITY.

You can meet this requirement by selling him Peerless Fence, which is heavily galvanized to prevent rust—our guarantee goes with every roll.

If you are not handling fence you should be, and this is the season for making big sales. Peerless Dealers are backed up with advertising in farm papers, direct mailing folders, and many other forms of publicity. We have an attractive agency proposition to offer. Our new Spring Catalogue is just off the press. It fully describes and illustrates all styles of Peerless Fence, Gates and Steel Posts—write for your copy to-day.

Ball Bearing Shearing Machine

Point out to your customers that getting 15% more wool quickly pays for the machine, even if they have but small flocks.

Stewart Machines attractively displayed in your window bring business to your store. Farmers to-day see no need for swollen wrists or hands, caused by hand blade shearing, when a Stewart Machine removes the wool in less time, with less labor, in better condition to bring top market prices.

The Stewart No. 1 Clipping Machine is another quick selling member of the Stewart family. Has no equal for clipping horses, cows and mules. Tell your customers that a clipped horse dries quicker, rests better, and works more.

Our advertising campaign in Canada's leading farm journals, backed by your window display, will bring you a profitable selling season.

Your jobber has Stewart Machines; better order them now, display them well and get the early sales of the spring season.

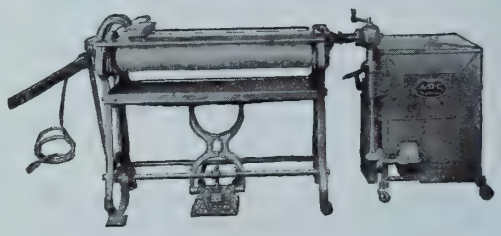
A B C



The One Complete Line of Home Laundry Equipment

Built by the big and successful firm of Altorfer Bros. Company, pioneers in the industry; extensively advertised for years; distributed by leading wholesale distributors, near to you, who allot exclusive dealerships; in the A B C *complete line*, as a dealer you are offered the opportunity to combine shipments of assorted washers and ironers, reducing freight costs—you have but one famous name, "A B C," to stress and to advertise—and you enjoy exceptionally liberal discounts, together with unusually broad and willing selling and advertising assistance. Write for full particulars concerning any or all of the A B C products described below.

ABC *Super-Electric Washer*

Combined cylinder—vacuum—oscillating type washer. All the advantages of other washers in one for the price of one. Copper or galvanized tubs. Also equipped for power drive.

ABC *Electric Laundress*

Washes—Wrings—Irons—with a single motor

The *only* complete home laundry unit. Detachable wringer. Ironer shaft attaches to wringer post. Saves cost of extra motor.

The "Iron All" attachment superbly irons the difficult operations—ruffles, collars, cuffs, children's dresses, etc.

ABC *Electric Ironer*

Foot pedals apply and release ironing pressure. 45-inch roll and shoe. One-piece steel ironing roll; 8-inch diameter, 7-inch non-warping ironing shoe. Result: faster, uniform work. Shoe drops back 4 inches. Enclosed parts. Independently motored —or furnished to operate off any A B C washer.

ABC "*Alco*" *Washer*

Dolly type. Underneath drive. Single or twin tub. Over-size motor. Machine-cut gears insure absolutely quietness of operation. Also furnished for power drive off gasoline engine.

A FULL LINE UNDER ONE FAMOUS, NATIONALLY KNOWN NAME—*Investigate!*

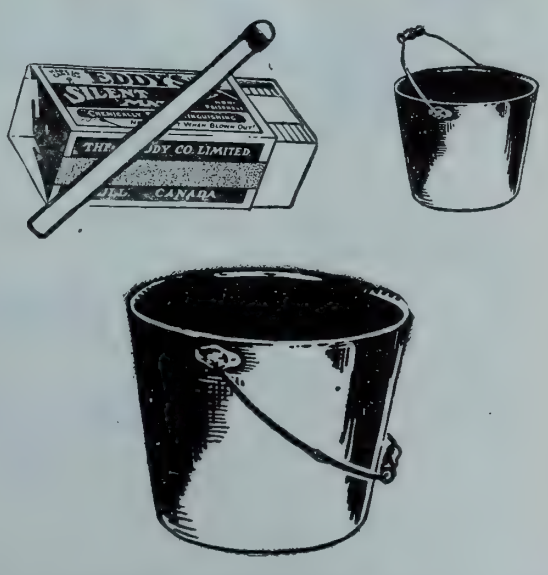
"FROM THE TREE TO THE TRADE"

A Weekly Story of E. B. Eddy Products

Story for Week Dated April 9th, 1921 | Hull in 1851 | Being No. 52 in the Series

Mysterious River Chasm at Hull Where President Nearly Drowned



THIS picture, taken in the very heart of the E. B. Eddy Company's great plant at Hull, shows the mysterious, bubbling, swirling pool below the power house, which has for many a long year been known as "The Devil's Hole." The water of the river comes thundering into this great chasm in fuming volumes. How it gets out again is an unsolved mystery. No one has even discovered the outlet. Logs, planks and rubbish from the mills have vanished in this dark, swirling pool, and never have any of them been traced again. There is a story that a horse and wagon went over the edge into "Devil's Hole" and completely disappeared. One man, however, has had the terrible experience of falling into the "Devil's Hole" and lives to tell the tale. That man was George Millen, who is to-day President of the Company. Forty-six years ago this summer, Mr. Millen was carried into the dark, dangerous pool by the bursting of a flume. He went under heavily clad in his big boots and stout clothes. To this hour he remembers how the bubbles passed endlessly before his darkening eyes as he felt himself being sucked down by the relentless current. But he grabbed at a plank, and by a miracle of Heaven it held him till help could be rushed to him. Had he perished that day E. B. Eddy would have lost his right-hand man, and the great plant might never have grown to what it is to-day, for George Millen's inventive skill is behind many of its most profitable marvels of machinery.

The ONE Moving Part

It is quite possible for the same statements to be repeated so often that they lose their ability to impress.

We have constantly asserted that the

Westco

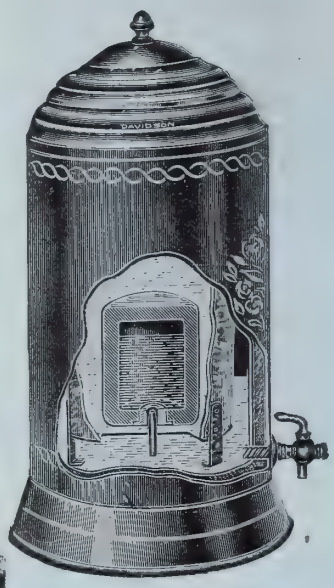
Tankless Water System

has **only one moving part,** and, lest you may think this phrase has become hackneyed, we will explain it.

This **one moving part** is a circular disc or wheel called the impeller. It has a determined number of blades on its rim. Spinning at high speed, it causes the water to be drawn by powerful suction from the source of supply and discharged under strong pressure and large capacity at the outlet.

It is very simple, and the fact that the system has **only one moving part** minimizes the possibility of trouble and service expense.

And to further assure its efficiency—a degree of efficiency that has caused Dominion-wide comment—we have equipped the systems now going on the market with an



All Bronze Pump and New Westco Pressure Switch

Dealers all over Canada are finding this a profitable line to handle, and are taking advantage of our Dealer's Co-operative Plan. Write us for particulars.

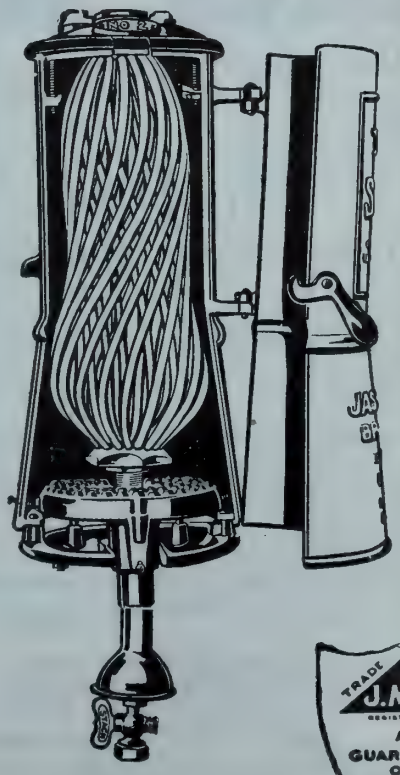
True Economy



Stack Heater

The Stack Gas Water Heater will heat water in one minute.

The almost perpendicular copper pipes in the Stack Heater offer no hindrance to the natural tendency of water to rise when heated.

Take note of the small size and large number of coils; this means quick heat. The numerous small pipes will naturally heat water quicker than one big pipe because of the greater heating surface offered.

More hot water with smaller consumption of gas—that's true economy.

Demon Grip

Welded Steel Pump Rod Couplings

Wherever steel pump rod couplings are used you will find the Demon Grip. Following are the reasons why it sells:

Made of Steel—same as the rod.
Hot Forged—perfect hex.
Welded—makes solid job.
Strongest—over three times as strong as a malleable.
Packing—twenty-five in a box to go on your shelf.

Novel—the above advantages make a novelty of a very staple article. The DEMON GRIP cannot help attracting attention.

Send your Jobber an order to-day.

Construction Features Show Durability

DESIGN: Straight, sturdy lines that make the stove look as if built for service. Handsome in the extreme. A style that makes any woman proud to have it in her kitchen.

COLOR: Nesco Grey—just enough of greenish hue to give character. Beautiful, clean, attractive.

STOVE HOLES: Set well to the front of stove so as to leave more shelf room at back. Flame is round; kettles are round; so are the stove holes.

BURNERS: Here's the heart of the stove. Perfect burning and perfect operation are necessary. A blue flame containing an inner flame gives intense heat without smoke. Air comes in through perforated tubes and within the centre of the inside tube forms gas as it is heated and rises in flame. The burner bowl is lowered into the oil column and the oil is fed to the flame through a stationary non-burnable wick. To extinguish, the burner bowl is simply raised up out of the oil. What oil is left in the wick burns out.

The Four Burner NESCO

TOGGLE JOINT: The raising and lowering is done by a toggle joint which cannot get out of order and which stays exactly where it is put. The flame cannot flare up or go out because the burner has moved.

ROCKWEAVE WICK: A woven non-burnable wick, sets stationary in the burner bowl. It simply serves to feed to the flame. It can be wiped off to clean—can be reversed, and is long lasting.

NO SMOKE: As the burner bowl containing the wick is raised up out of the oil to extinguish and the oil is burned out of wick, when left standing there can be no seepage of oil onto the chimney cylinders. Such accumulation must be burned off when lighting and this causes smoke and smell. A faster feed gives a less economical flame, but cannot produce smoke. Chimneys are always dry—hence no smoke.

EASY TO CLEAN: All parts are easy to get at and the supply pipe line is easily opened and flushed.

Just See Them in Action

IF one of your objects in business is to sell articles that will give your customers every ounce of satisfaction they expect, you would do well to link up with the New Canadian Beauty line.

In making these appliances we have one idea all the way through! That is, to make every appliance perfect in every single detail.

In fact, we have been criticized (by competitors) for the extra pains we take in turning out our appliances. But as these extra efforts result in the production of appliances that always please the men and women who buy them, we have flatly refused—and will continue to refuse—to cheapen the production of the New Canadian Beauty line.

Our line is the complete line—manufactured in Canada by a purely Canadian company—employing Canadian labor—using Canadian material.

The New Canadian Beauty Appliances are the result of long and careful study of what Canadian women expect and like. They are not just copies of other appliances—**they are appliances that other manufacturers are attempting to copy!**

The finish, for instance, is perfect. Inspect any New Canadian Beauty Appliance as critically as you please and you will find no flaw.

See our appliances in action and you will need no further testimony as to their value. They do their job quicker; give **more heat for the power used.**

They make a capital window display, and they are rich in the most convincing kind of selling talk.

Our national advertising is heavy and covers all sections of the community. It is designed to be of direct benefit to New Canadian Beauty dealers. Our set of window cards is most attractive and effective. We will be pleased to send a set to any dealer who has a stock of our goods.

Our discount plan is sure to interest you, because it is sound. It does not entail carrying large stocks. That means quick turnover—good profits.

Let us hear from you soon. Write to-night for our proposition.

Defining Various Branches of Trade

Definitions of "Manufacturer," "Wholesaler" and "Retailer" Set Down by Joint Conference for Guidance of Finance Minister in Applying Taxation—Final Decision Now Rests With Government—Some Fundamental Facts

THE recommendations of the joint conference of retailers, wholesalers and manufacturers in Toronto in regard to taxation matters have been passed on for action in connection with the forthcoming Budget.

One wholesaler who was a member of the Resolutions Committee states that the report means very clearly and plainly that the manufacturer and wholesaler shall pay the tax and it will be made ample to provide the revenue.

This wholesaler further points out that it is the intention of the plan that the retail trade shall not pay the sales tax adjusted as proposed. "I do not think any other system would be accepted by the Government," he stated. "I think the Government would not be prepared to collect a tax from 200,000 merchants throughout the country. It is unthinkable. It is not logical."

Apart from this objection the report seems to have created a fairly favorable impression among the trade. The report does not endorse the turnover tax or the suggestion from the Retail Merchants' Association, leaving this to the Minister of Finance with the assurance that the trade will raise the necessary revenue through the application of the sales tax.

Define Gradations of Trade

For the assistance of the Finance Minister, definitions of various branches of trade were definitely set down so that there would be no misunderstanding. The acceptance of these definitions is expected to help the case of the tinsmiths and others who are being categorized as manufacturers. These definitions are as follows:

Manufacturers—Persons, firms or corporations who produce, manufacture, process or assemble articles or materials into salable articles or materials. This, it was pointed out, would not interfere with an appeal for exemption from the merchant tinsmiths and similar business men.

Wholesalers—For the purpose of the Act, a wholesaler shall be construed as being a person, firm or corporation who assembles in his warehouse a full line of goods carried in his special branch of business, and distributes them to the trade, but who has no retail counter and does not sell to the consumer.

Jobbers—Persons, firms or corporations who sell for the purpose of resale and who have no retail counter, and do not sell to the consumer.

Retailers—Persons, firms or corporations who sell to the user or consumer, or who have a retail store or counter; this classification to include, in addition to their classification as manufacturer or wholesaler, the departments or agencies of such manufacturers or wholesalers who have such departments or agencies through which sales are made to the user or consumer.

Satisfaction has been expressed that the adjustment of the sales tax, the abolition of other taxes regarded as restrictive of business and an active campaign for Made-in-Canada goods will give business considerable impetus.

Despite the many conflicting viewpoints and opposing opinions expressed at the recent joint tax conference of the manufacturers, wholesalers and retailers, three satisfactory resolutions were prepared and were finally accorded unanimous approval.

Resolved that:—

1. The Business Profits Tax be not re-enacted.
2. The Income Tax, in so far as it applies to corporations, be repealed.
3. The present Sales Tax system be adjusted to produce the required Dominion Government revenue.

The curious anomaly was witnessed of a conference unanimously agreed on the last resolution as worded, but widely divided upon the application and interpretation of such resolution.

Tax Should Be Extended

The cleavage lay between the manufacturers and the retailers, the former claiming that the sales tax should be extended—as is proposed in the United States—so as to be paid and collected by manufacturers, wholesalers and retailers alike. The retailers hold—and they are supported by the wholesalers—that the tax should be collected "at the source"—that is, from manufacturers and importers only. The retailers did not thus seek to avoid their tax liability. They frankly proposed that though the tax be collected in the above manner, it be passed on down to them either directly on invoices or in any manner suitable to the manufacturers and importer. Notwithstanding this interpretation, the manufacturers were unable to embody a "method of application" in their resolution.

Some Fundamental Facts

The final decision as to operation rests then with the Finance Department. Having the necessary statistics of internal trade and commerce available, it is obviously the function of the Government tax experts to decide upon ways and means. There are, however, a number of funda-

mental facts governing the problem, which, if fully understood, will, it is felt, indicate that the points of disagreement between the various sections of the conference are not serious. The following statement details these facts briefly:

First—It is proposed that the business profits tax be not re-enacted and that the income tax on corporations be repealed.

Figures prepared by competent authorities on conditions in England, United States and Canada indicate that the elimination of the above taxes will remove an average of 20 per cent. from the present prices of commodities. To be conservative then let us accept that a net saving of 5 per cent. on a broad range of all cost of living would be thus effected. This is almost too evident to admit of dispute.

Second—The total percentage impost involved in any sales or turnover tax has never been found to exceed 3¾ per cent. The average in fact has always been shown to be nearer 2½ per cent. Consequently the saving effected by the abolition of the two first above mentioned taxes should permit us to pay the percentage of sales tax charges—and have a comfortable margin over.

Third—The present sales tax, with its minimum impost of 2 per cent., applied as it is on a very small proportion of Canada's commerce, together with the manufacturer's tax, is yielding revenue at the rate of $100,000,000 per year.

Fourth—The revenue required from the present system of taxes, and which would necessarily be expected from any new system of taxation, has been calculated at $200,000,000.

Fifth—The total yield from a broad sales tax at 1 per cent. has been variously estimated at from $180,000,000 to nearly $500,000,000.

From the above facts and figures, the following conclusions are necessary and evident.

Exempt Raw Materials

1. All original raw material products of forest, fishing, agriculture and mine, whether used for consumption by individuals or as raw materials for manufacture, should be exempt from sales tax.

2. The income tax must be applied on all non-sales tax paying companies or individuals to a large enough extent to equalize any competitive disadvantages.

3. The required revenue can be produced either by doubling the present 2 per cent. minimum of the sales tax or by doubling the extent of its application on commerce.

4. Cancelling the present tax system will effect sufficient economy to pay the necessary sales tax impost.

5. The sales tax will permit a general reduction in commodity prices, and will lessen the load on the consuming public.

Obvious Advantages

The above statements are made less to reiterate the business-like value of a sales tax than to provide figures to disprove certain objections that have been honestly raised against the proposition.

Its advantages are obvious:

It will be cheaply and easily collected.

It will yield the required revenue, promptly and regularly.

It will bear equally and in proportion on all the people.

It will emancipate commerce at a crucial time in the nation's industrial health.

It is the final modern system of business taxation.

Making Your Income Tax Returns

The Absolute Necessity of Filling in These Papers, Makes it Essential That Every Merchant Should Thoroughly Understand the Procedure—Instructions How to Go About It

IT is important that all should understand there can be no evasion of the income tax law. The income tax papers must be filled in. The tax commissioners have their instructions. It is the desire of Hardware and Metal to aid its readers in their difficulties in this matter. A detailed explanation of the papers to be filled in at this time is therefore interesting.

Obtain three copies of Form T1, fill in on page 1 complete answers to each question except item 6 on list, which a merchant in business on his own account need not fill unless he trades under some name or sign not his own christian and surname.

Now turn to page 4 of returns sheet. You have the option of making a statement of your trading account on your own account sheets or of filling in this page. Whichever way you do it, use the greatest care and regard for accuracy. It is far better to pay a few dollars tax than be pulled up short and fined for making a careless, slipshod or false return.

Page Four of Return Sheet

Total value of merchandise sold during year.

Inventory of stock at cost at beginning of business year.

Add cost of all goods bought for resale, including freight and express charges.

Total.

Total value merchandise in stock at end of business year. Subtract.

Extend this last total to outer column and again subtract, as it will show your gross profits for year 1920. Enter every other kind of income derived from your business, such as cream agency or insurance commission.

Total gross profits.

A knowledge of your total expenses for the following items is absolutely essential. Dig up and total this information:

Wages actually paid to employees, not to proprietor.

Rent of store, stable or garage.

Advertising, depreciation on delivery outfit at 10 per cent.

Horse feed, horse shoeing.

Gasoline, oil and tires for truck.

Cartage when paid to outside firm or teamster.

Telephones, including long-distance calls.

Office supplies, such as books, counter check books, bill heads, files, etc., and postage stamps.

Interest on borrowed capital used in business.

Bank charges and exchange on cheques.

Heating store, lighting store, also water (if any).

Taxes on business premises (not on dwelling).

Business tax. Motor truck license.

Insurance on stock, fixtures, horses, rigs or motor truck.

Depreciation to store equipment and utensils, at 10 per cent.

Cost of wrapping paper, bags and twine, also ice.

Freight and express (outward charges only).

Take a sheet of foolscap paper and make a complete list of the above items. Scrutinize your files and books. Get out the exact cost of each item. Total up the whole expenses cost and subtract from gross profits; this will leave net trading profits for year 1920 and when making the return to your tax commissioner see that a copy of the expenses sheet is securely fastened to the official return sheet, also keep a copy yourself.

Turn Back to Page Two

Leaving page 4 for a few minutes we will turn back to page 2, taking the questions by their own serial number:

No. 1. Many merchants to-day have adopted the sensible plan of paying themselves a wage or salary each month, and paying back into the till for their own hardware goods, etc. So if you

draw a wage from out your business enter total amount here, also any gratuities or pension. If none, say "none."

No. 2. Mark "none" here. This query is for doctors and professional men, not merchants.

No. 3. As you have already shown all your income from commissions on page 4, mark this item "See page 4."

No. 4. Enter here net amount of your trading profits from page 4, which includes the commissions from cream agency, etc.

No. 4. (a) Give actual value of goods drawn from out store and for which you have not paid back cash into the till. See your answer to item No. 1 on this page of return.

No. 5. Enter here the total rent you have collected from your tenants, without deductions, and give location of the properties. If you have none mark "none."

No. 6. Enter the amount of interest or dividends received from investments or stock of Canadian companies. If none, say so, but should you have any and have the share certificates deposited with bank for a loan, deduct carrying charges.

(2) Follow the same course as above in this sub-section. Pay attention to footnote to this item.

No. 7. If you hold any mortgages, notes or debenture bonds or have interest accruing at bank on savings account enter it here.

No. 8. Few merchants hold such positions. There is really no profit and seldom any pay, but should you be deriving any monetary benefits enter here.

No. 9. Income from war bonds, less carrying charges. Make separate entry of 1919 issue, less carrying charges. The latter are not exempt from this tax.

No. 10. Enter here any other source of income, such as "rum running," "bootlegging" or "special license inspector's fees" or any other unlikely occupation for a respectable merchant.

No. 11. Total the column.

Filling Page Three

No. 12. As you have made out a complete list of all your business and trading expenses, it is unnecessary to do more than write "See page 4," or "attached sheet."

No. 13. You have already entered in your expenses account the interest charges on borrowed trading capital, so this item deals only with charges you pay on mortgages on property you own and have rented to a third party, or should you own and not rent your business premises and have money borrowed thereon. Pay attention to footnote to this item.

No. 14. Enter amount of taxes you pay on property you own and have rented to a third party.

(a) Premiums paid for insurance on property you own and have rented to others.

(b) Repairs to your property which you rent to others, but give location and names of persons who received payment for work done.

No. 15. You did not deduct anything for bad debts on page 4 or on attached sheet, so enter here the actual amount you have written off and of which you have ceased to expect payment.

No. 16. It is impossible to get claims accepted for loss on your stock of saleable goods or the house you occupy, but you can claim depreciation on property you own, and have rented to others, i.e., for fair wear and tear, say 5 per cent. on brick and 7½ per cent. on frame properties.

No. 17. Show net income from war bonds which are exempt from income tax, also under No. 8, on page 2, if any.

No. 18. Contributions to patriotic purposes or in cases where you are contributing towards support of a relative unable to keep himself, or his family, state the case fully and give names, which will be verified by the commissioner of taxation.

No. 19. Total the column.

Assets and Liabilities

When you made up your books at the end of your business year, you quite naturally made a record sheet of these items before opening your books for the new year.

Assets (You Own)

1920 stock on hand.
Cash and balance at bank.
Retail accounts on your books.
Customers' notes you hold.
Value of real estate, buildings.
Value of real estate (land).
Trucks, rigs or tools.
Office furniture and fixtures.
Horses.
Other investments and bonds.

Liabilities (You Owe)

Total of your trading debt.
Notes you have to meet.
Loans on property.
Loans for business only.
Unpaid interest.
Other business debts.
Total both columns.

The last, is the question of what you have to pay to the inspector, if anything.

Continued on page 42

With the warm weather approaching there are a variety of electrical lines which can be put to the front. There is always a good argument for the use of electric ranges, grills, toasters, percolators, etc., in the summer months, when it is desired to eliminate as much heat as possible. To attract interest this window has an illuminated sign, "Do It Electrically." Some branches of leaves are shown in the background to designate the summer season.

Some Forceful Circular Letters

Giving Circular Letters the "Twist" That Secures the Attention of the Prospect—Comprehensive Range of Hardware to Which This Effort Can Be Applied

PROMINENT among the selling methods adopted by the George Taylor Hardware Ltd., Cobalt, Ont., is the use of circular letters. A number of these letters, reproduced herewith, contain a message right to the point and constructed in such language and style as to secure favorable attention. These letters are sent out to prospects for the particular line dealt with, and can be distributed by means of direct mail to a prospect list, by enclosure with parcels or personal distribution over the counter. The method is less important than the fact of getting such data before the prospects at the time when they should be giving thought to the line mentioned.

That the application of this selling help is comprehensive can be seen from a glance at the letters reproduced, which range from rubber boots to mining equipment and automobiles.

At the present time, when hardware merchants are giving consideration to every plan which will help business, it is interesting to note that the plan of sending out form letters has been followed by this firm to good advantage. To others in the trade there will be some helpful suggestions in the following letters. Note that the signature of the assistant manager is placed on each letter to give it a more personal touch.

* * *

Rubber Boots

Opening with an extract from a local parody well known to all, the attention of the reader is at once attracted to this letter dealing with rubber boots. A parallel is drawn between "wet" propaganda, now evident in Ontario, and the "dry" propaganda of the letter in the interests of sales of rubber boots:

Gentlemen:

"But it's HOB-NAILED BOOTS
And a flannel shirt
And Cobalt Town for mine."
(Extract from The Cobalt Song.)

Many a time have you hoped to swell that famous chorus in days gone by; in the good old days when the Big Gin Rickies really flowed and the voice of the siphon was heard in the land.

But—this letter is not "wet" propaganda. On the contrary, we are interested in keeping people dry—particularly Miners. Hence we are handling the famous —— RUBBER BOOTS. Prices follow:

No. — —— (Laced half length) ..... —— pair
No. — —— (Knee Boots) ..... —— pair
No. — 12″ Leather Top ..... —— pair
No. — Hip Boot ..... —— pair

VOTE—"4 YESES" and keep dry.

Yours truly,

THE GEORGE TAYLOR HARDWARE LIMITED.

Asst. Mgr. Cobalt Branch.

* * *

Motor Trucks.

A letter in the interests of motor trucks for delivery purposes gives information that a railroad is to be built nearby and there will be much business for the firms who have adequate delivery facilities. The letter follows:

Dear Sir:

A pessimist is a man who wears both belt and braces. He is fearing the worst. But why should any business man in the North feel unduly depressed this year? There is business waiting for you around the turn of the road—more than you realize. There is going to be a railway built on the Quebec side of the lake this year. Where do you suppose the contractors are going to get their supplies — the enormous quantities of groceries, meat, flour and feed, fruit, and the hundred things that are needed in railway construction?

FROM THE FIRM WITH THE BEST DELIVERY SERVICE. That's the answer. You will eventually come to motor trucks—either on your own initiative or through force of competition. Your competitors are buying trucks.

The —— Truck will do your delivery work to your own and your customers' satisfaction.

PRICE —— delivered to any point in this locality.

Remember, you don't have to have ALL the cash.

Yours truly,

THE GEORGE TAYLOR HARDWARE LIMITED, COBALT.

* * *

Automobiles.

Pointing out that motorists in the district had a good time last year through the use of their cars, the following letter makes a bid for motor car trade. Additional reasons why the prospect should make up his mind to purchase a car are outlined as follows:

Dear Sir:

We want you to begin thinking about a Motor Car for the approaching season.

You know that car owners last year had a pretty good time in this neighborhood; they followed the baseball games with greater comfort than you did; they went to the beaches and parks when they felt like it; they went fishing in the township streams when the fishing was good. You must admit that the roads in Temiskaming are a lot better than they used to be. You can go somewhere now, in comfort and with speed.

This year there are additional reasons why you should own a car. For one thing, THE PRICE IS LOWER. Gasoline is cheaper. The roads are better than ever. Your range of travel is wider now that the Temiskaming bridge is completed.

Begin early to think about a car, because there is going to be a shortage, due to curtailment of production during the "blue" period just passed. People who get the car notion at the last moment are going to be disappointed this year, as formerly.

Finally, don't overlook the fact that there is a Guarantee Payment Plan.

Yours truly,

THE GEORGE TAYLOR HARDWARE LIMITED, COBALT.

* * *

Ore Car Trade.

Everyone is interested in news of an accident, so the following letter dealing with Ore car business opens with a state-

That Bring in Definite Results

Using Local News Items of Interest, Appealing to Desires for Recreation, etc., Used to Advantage—Letters Used in Conjunction With Local Advertising Bring Good Results.

ment to the effect that it was by accident that a new field of business was opened up in this line:

Gentlemen:

AN ACCIDENT!!

It was quite by accident that we discovered we could compete on Ore car business in the Western Coalfields.

To be sure, we had been supplying the gold and the silver operators of Northern Ontario, to the practical exclusion of outside competition in this line, but we had not looked as far afield as Alberta until suddenly we got several inquiries from the coal mines. Quoting them on our usual close margins, we got the orders and filled them satisfactorily.

This experience has led us to seek western business. There are a number of reasons why we can compete. We are jobbers of iron, and buy our car material direct from the mills. It is as cheap to freight the finished product west as the raw material. Labor and power (both air and electric) are plentiful and reasonable. Finally, we have the equipment and experience necessary.

If you use wooden body cars, we can quote you delivered prices on the irons. We build cages, skips and all kinds of structural iron equipment. It will be a pleasure to us to have your blue prints and to figure with you on your requirements.

Yours truly,

THE GEORGE TAYLOR HARDWARE LIMITED, COBALT.

* * *

Motor Cars.

Watching the various types of automobiles pass along the streets each day, the prospective buyer is apt to wonder which car is the most popular. The following letter starts right out with a statement as to the number of cars in the district and the number of two certain makes which are handled by this firm:

Dear Sir:

You will be surprised to learn that 445 automobiles are owned and driven in Temiskaming. Twenty-five makes of cars are included in that number; sixty per cent. of the total are make of ——, the cars we handle.

It is interesting to speculate upon the sum total of enjoyment derived from motor cars in this district by the two or three thousand people who habitually use them. After all, a man who can afford to purchase a moderately priced car rather owes it to his wife and family to provide this healthful pleasure. The North is not so full of diversion that any should be passed up. The beaches, ball parks, picnic spots, fishing grounds, and swimming holes are easily accessible to the man with a car.

Here is another point. We have more car orders booked right now than we have ever had at this date in previous years. We have a limited number to sell, and we do not wish to give any prospective buyer a disappointment.

Price. It is not anticipated that any further price reduction will be made this year.

Remember that all cash down is not necessary—we can sell you cars on installments.

Yours truly,

THE GEORGE TAYLOR HARDWARE LIMITED, COBALT.

Sells 35 Pairs Rubber Boots From An Ad.

TAYLOR'S SATURDAY BARGAINS

Wet Feet! No!

Not if you wear a pair of our genuine Hi-Press Rubber Boots. Here is your opportunity.

Saturday only we are offering these HI-PRESS RUBBER BOOTS at cost price. Be prepared for the wet weather.

See Our Window Flash Lights See Our Window

Our Saturday Bargain Prices Apply on Cash Purchases only. Goods Delivered as usual.

The George Taylor Hardware Limited

Cobalt Branch

A sample advertisement used by the George Taylor Hardware Ltd., Cobalt, Ont. Such advertisements are combined with the circular letters outlined elsewhere in this article, and by concentrating on certain lines, good results are said to have been secured. Thirty-five pairs of rubber boots were reported to have been sold as a direct response to this advertisement.

The use of such circular letters as are outlined herewith is by no means a new departure. Many of the most progressive hardware firms in the country have been using such letters for some time to back up other sales effort. It is wise, in conducting such a plan, to see that all selling effort is coordinated; thus if a certain line is to be emphasized in the letter, make a dead set on that line with the use of displays, advertising and personal effort.

Every merchant has enough current material with which to work in order to make these letters timely and sufficiently appealing to be read. It requires some little extra effort to give this material the right twist to get the reader's interest and then to apply it to the line being advertised. Practice will soon enable the merchant to do this with ease, and he will then notice a big improvement in his letters and advertising matter.

Hardware and Metal

Canada's National Hardware Weekly

Member Audit Bureau of Circulations Member Associated Business Papers

The Only Weekly Hardware Paper in Canada

PUBLISHED EVERY SATURDAY SINCE 1888 BY

The MacLean Publishing Company, Limited

Montreal TORONTO, CANADA Winnipeg

SATURDAY, APRIL 9, 1921

THE SUGGESTION has been made that German goods may be entering Canada through Switzerland. At any rate the trade returns would seem to justify an inquiry as to whether such goods are coming to Canada under markings which mislead as to the country in which such goods are produced.

* * *

THE BOARD investigating the claim for increased telephone rates has given judgment in favor of the telephone company for a revision of its rates on the prevailing basis. This will mean slightly increased rates for business telephones in some districts and slight decreases in other cases. Merchants will be glad to note that the message rate basis has not been approved as it was feared this complication might affect retail business by curtailing 'phone orders.

* * *

IN CASE merchants in some municipalities have wondered why the legislation in regard to firearms as outlined in recent issues of Hardware and Metal has not been applied in their districts, attention is drawn to the fact that this amendment to the Criminal Code is what is commonly termed a "police law." It is effective only when applied by the police. Unjust discrimination is claimed, chiefly from some parts of rural Canada, which point out that in one municipality it is enforced while in the next municipality it is not enforced.

* * *

IN CONNECTION with the revision of the U.S. tariff it is stated that industries affected by Schedule "A" of the tariff law, which applies to chemicals, oils and paints, etc., are most certain to receive increased protection in the measures now in course of preparation. The extent to which higher tariffs against imports are likely to affect Canadian products can be ascertained from a glance at figures of Canada's trade for ten months ending January, 1921, which show exports of Canadian paints, pigments and varnishes to the U.S. of $137,999, and exports of Canadian chemicals and allied products totalling $9,256,138. Taking chemicals as a whole the U.S. is our largest buyer but in paints, varnishes and pigments that country is our smallest buyer.

Death of G. F. Stephens

THE sudden death of Mr. G. F. Stephens, late president of G. F. Stephens & Company, Winnipeg, and a pioneer in the paint and varnish industry of Canada, adds another name to the long list of outstanding Canadian business men who have passed away during the last year. Mr. Stephens was a pioneer in the business development of Western Canada having commenced business in Winnipeg in 1882 and he represented one of the few remaining leaders of the early days in the West, who served as a link connecting the past and the present. The severing of that link has caused much regret among those who were associated with Mr. Stephens. A number of tributes to the sterling character and ability of the deceased have been forthcoming from leaders in the paint and hardware business. Mr. Stephens' death is a distinct loss to his personal and business associates and also to the business life of that portion of the country with which he was so long identified.

Where Danger Threatens

AN interesting commentary on the cause of business failures in Canada and how these compare with failures in the United States is found in figures which have recently been prepared by Bradstreets. These are outlined as follows:

Percentages of Causes of Business Failures

	United States		Canada	
	1920	1919	1920	1919
Due to				
1—Lack of capital	32.3	30.3	34.1	35.8
2—Unwise management:				
Incompetence	32.5	38.2	20.8	20.1
Inexperience	6.6	5.6	8.1	5.4
Unwise credits	1.6	1.3	2.4	2.6
Group Total	40.7	45.1	31.3	28.1
3—Extravagance, neglect:				
Extravagance	1.2	1.1	.6	.8
Neglect	1.3	1.7	2.9	2.4
Group total	2.5	2.8	3.5	3.2
4—Outside influences:				
Others' failure	1.2	1.1	1.3	1.8
Competition	1.3	1.1	.8	..
Group total	2.5	2.8	2.1	1.8
5—Speculation, fraud:				
Speculation	.6	.7	.5	1.3
Fraud	7.0	7.0	9.9	8.9
Group total	7.6	7.7	10.4	10.2
6—Specific conditions	14.4	11.3	18.6	20.9

It would perhaps be unwise to draw too many inferences from these figures, particularly in so far as comparing the abilities of Canadian and U. S. merchants is concerned, but there are a number of truths emphasized by these statistics which every merchant can well bear in mind. For example, it is evident that the two foremost causes of business failures are lack of capital and unwise management due chiefly to incompetence. Other causes such as inexperience, unwise credits, extravagance, neglect, outside influences, competition, speculation, fraud, are all contributary causes but they are less important than the two mentioned.

This summary provides the merchant with a concise statement showing the most serious dangers which threaten his business and he should be on his guard against them. Under prevailing conditions, when the most attention must be given retail business in the interests of maintaining turnover and when the price level is gradually receding, the question of financing becomes most important and the necessity of keeping the business in liquid shape is most evident.

Therefore the present is a time when even more than usual attention must be given to ward off the dangers which threaten and by keeping these statistics in mind the merchant will know where to look for the most serious trouble.

Board of Trade Advise Turnover Tax

Replies to Questionnaire Favor This Form of Tax — Chairman of U. S. Business Men's National Tax Committee Speaks

MONTREAL. — Members of the Montreal Board of Trade, by their replies to the questionnaire recently sent out, show that a large majority favor the general turnover tax, which is also approved by the board's committee on federal taxation. The questionnaire consisted of five questions, as follows:

1. Do you favor a continuation of the present business profits tax?
2. Do you favor the continuation of the present sales tax?
3. Do you favor a continuation of the remnant of the luxury tax still in force?
4. Do you favor a general turnover tax?
5. If you do not favor any of the above mentioned schemes, what other system of taxation do you suggest?

About 80 per cent. of members who answered the questionnaire favor the turnover tax unconditionally, others would like it on terms. There were 520 replies and only 174 of these favored the present sales tax unconditionally. Incidentally about 130 replies favored the luxury taxes, and some voted for their extension. But there was no agreement as to what constituted luxuries.

M. D. Rothschild, chairman of the Business Men's National Tax Committee, addressed the members at their meeting on Thursday, March 31st, he also favoring the gross sales or turnover tax, hoping it would be in force in the near future both in Canada and the United States. Mr. Rothschild spoke in part as follows:

Pyramiding of Sales Tax

"The main point against increasing the sales tax at its source was the fact that to get the necessary revenue a much heavier tax would have to be levied than if its imposition were more widespread. That meant that pyramiding by the various hands through which goods passed would result in a smaller proportion of the ultimate consumer's money reaching the Government in the form of revenue. The belief is that something less than one per cent. would be sufficient for revenue-raising with a general turnover tax levied on manufacturers, wholesalers and all retailers whose turnover was not less than say $5,000, and figures had been prepared showing that in this case prices to the consumer would never be raised more than 3½ per cent., generally less. and the loss by pyramiding would be slight, practically all the money going to the Government. But to get sufficient revenue it might be necessary to levy a tax perhaps as high as 10 or 12 per cent. if imposed only on importers and manufacturers, and the resulting pyramiding as goods went through different hands before reaching the consumer would be much greater. The loss of revenue would be much heavier in this way than it could be from a general turnover tax.

Included in Overhead

"As to the retailer, the small merchant would be exempted, while practically all others keep books and could establish month by month what their turnover was. It would then be a simple matter to include the tax as part of their overhead. To keep supervision over all tax-paying concerns, it would be necessary to have a system of licensing, but retailers and others are already licensed, and no extension of that would be needed."

From the result of the replies to the questionnaire received, the committee strongly recommended that the council should make representations to the Minister of Finance urging its adoption as one of the principal methods of raising the necessary revenue. After full consideration and discussion of this report it was unanimously approved by the council which will presently take action towards fulfilment of its recommendations.

Bad Debts in Income Tax Returns

SO many enquiries have come to Hardware and Metal as to what disposition should be made of bad debts in making out the Income Tax returns, that a definite ruling has been secured from T. W. Breadner, Commissioner of Taxation, Ottawa, as follows:—

Editor, Hardware and Metal,
Toronto, Ont.

Dear Sir,—I am in receipt of your letter of the 22nd ultimo, in which you ask how the matter of bad debts is dealt with by the Department for the purposes of the administration of the Income War Tax Act.

I would advise you that there are two methods, either one of which may be taken advantage of by the taxpayer. The first method is for the taxpayer to write off in his profit and loss account the actual bad debts ascertained to be worthless during the year. The Department will allow the amount of such bad debts written off, provided same have been incurred since the commencement of the operation of the Income War Tax Act. Any debts incurred prior to that time and written off in Income Tax periods are not allowable deductions for Income Tax purposes.

The second method is for the taxpayer to establish a reserve for the purpose of providing for accounts which may subsequently be uncollectable. The amount written off in this way is allowed as an expense if same is reasonable, having regard to the outstanding accounts of the taxpayer. No ruling has been, or will be, given as to what percentage of accounts receivable may be written off for this purpose, as it must be apparent to you that every claim of this nature must be considered on its own merits. What may be a reasonable reserve in one case may be too large or too small in another case, and even in a similar line of business, having regard to the class of customers of the respective taxpayers.

I trust this will give you the information you require.

(Signed) T. W. BREADNER,
Commissioner of Taxation.

Ottawa, 4th April, 1921.

To Encourage Shooting

Montreal. — Appreciating the importance of strengthening Canada's position in rifle shooting, the Dominion Rifle Association has extended recognition to the 8,000 members who comprise 196 clubs which are units of Dominion Marksmen, and from now on graduates of Dominion Marksmen will be immediately eligible to free membership for a period of one year in the Dominion Rifle Association, and will be issued certificates recognizing their proficiency as riflemen.

This information was received at the headquarters of Dominion Marksmen in Montreal in a telegram from Col. R. J. Birdwhistle, of Ottawa, secretary of the Dominion Rifle Association, which reads as follows: "Executive committee approves gold medal scheme, and will issue certificates as desired, in addition will give one year's membership in association to winners."

The Dominion Marksmen scheme was inaugurated in January, 1917. Today the membership is 8,266, consisting of boys from 12 to 19 years of age, and the number of clubs 196, extending from coast to coast. Intense interest has been taken in this organization since its inception by schools, cadet corps, Boy Scouts and other similar organizations which have formed units to enter.

Twenty Years Ago

Items of interest reprinted from Hardware and Metal of April 13, 1901:

"The Canada Horse Nail Co., Montreal, has been incorporated with $100,000 capital stock. The company has during the past 35 years manufactured horse nails exclusively, but owing to the present war in prices on this article it is proposed to make provision to enlarge their manufacturing facilities to manufacture horseshoes and other such articles."

* * *

"W. H. Carrick, general manager of The Gurney Foundry Co., Ltd., Toronto, left this week for a visit to Great Britain and Ireland."

* * *

"Morgan Bros., whip, saddlery and harness manufacturers, Hamilton, Ont., were destroyed by fire on Thursday night. Loss is estimated at $35,000, insurance $30,000."

* * *

"Harry Philbin has registered as proprietor of Philbin & Co., hardware, Westmount, Que."

* * *

"The stock of Alex. Ramsay & Son, wholesale paint and oil dealers, Montreal, has been partially damaged by fire and water; insured."

* * *

"The merchants Employees' Ass'n of Nanaimo, B.C., is bestirring itself to secure the boon which its members enjoyed last year, namely, a weekly half-holiday. Nanaimo has the distinction of being the only city on the Coast where this matter is dealt with in an organized manner."

* * *

"The Ontario Powder Co. has been incorporated with capital of $100,000 taking over the business of manufacturing and selling explosives carried on by D. Smith and C. A. Macpherson, of Kingston, under the name of the Ontario Powder Works."

* * *

"On the Clemow property which has frontage on Rideau St., McKenzie Ave and Sussex St., Ottawa, a palatial 10 storey hotel is to be erected."

More Activity in Auto Tire Selling

DISCUSSING the automobile tire situation with a manufacturer this week Hardware and Metal was informed that the past month has seen a considerable revival in tire sales, and it was pointed out that in the case of this manufacturer demand was such that the factory time has had to be increased from 8 to 10 hours daily. It was stated that the open winter prevailing in most parts of Canada has enabled many motorists who would otherwise lay up their cars to keep them in use. Disliking to put on new tires while the snow and ice is on the ground, many of these motorists are now prospects for a new set of tires. During the winter the snow acts as a cushion and with the use of reliners and other such materials the old tires will give service, but it was pointed out that with the resumption of warm weather these old tires will not stand the extra pressure and will give out.

Some hardware merchants have been advising customers that the resumption of activity in tire selling, coupled with the fact that tire production for some months has not been up to normal, may produce a tire shortage when the usual summer rush season arrives. Buying is reported by manufacturers to be seasonably active and it is also stated that merchants are placing orders on longer time than formerly, indicating that they have more confidence in demand and prices.

Review of the Steel Industry

With Adverse Conditions Prevailing, A Good Year Is Shown—Robert Hobson, President, Steel Company of Canada, Reviews Last Year's Operations in Annual Report

THAT the year 1920 carried with it difficulties for the manufacturer portrayed in the following quotation taken from the report of Robert Hobson, president of the Steel Company of Canada. Freight rates and wages are dealt with, but the chief obstacle that had to be overcome was the matter of fuel supply. Mr. Hobson's report follows in part:

"Increased freight rates were imposed both in Canada and the United States and the average rates we now have to pay are fully 100 per cent. higher than they were before March, 1918. Labor conditions were not as satisfactory as they should have been, considering the high rates of wages that we were paying. The rates of exchange paid on coal, ore, etc., purchased in the United States were high during the year."

Fuel Difficulties

"Our most serious trouble was the matter of fuel supply. The whole continent was affected. The shortage was so great that we, like all other steel producers, could not get anything like our fuel requirements. The shortage was due almost entirely to the car supply. We had our own mine to draw from and had early in the year placed contracts with other companies, but, notwithstanding these precautions, we were forced to buy spot coal at high prices. Even after using ur best endeavors, we were able to secure only sufficient coking coal to keep one of our blast furnaces in full operation throughout the year. With the exception of our blast furnaces, all the other plants were kept fully occupied.

"Against these adverse conditions we had a large demand for our goods at profitable prices. In October, however, new business began to fall off, but our booked orders enabled us to run full until about the middle of December, when we found it necessary to begin to reduce operations very materially."

INCOME TAX RETURNS

Continued from page 37

You will enter in space for gross income from foot of page 2 the total of that column and, directly below, the total from page 3, then subtract, which will give the net income.

Your Taxable Income

Now subtract $1,000 if you are unmarried or $2,000 if you are married. This gives the taxable part of your net income, but there is yet to be deducted the normal tax of 4 per cent. on interest on your Victory bonds which are not of 1919 issue. You are also instructed to deduct $200 for each of your children under 18 years.

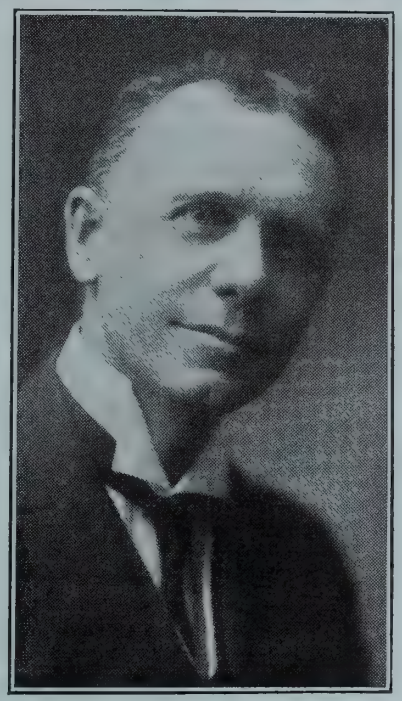
After deducting every one of above items you will pay to inspetcor 4 per cent. on the net amount, up to and including $5,000. Net incomes over $5,000 are subject to super or surtax graduating from 1 per cent. for the first thousand to 65 per cent. on incomes of one million.

It may be best to enclose a cheque for the full amount due to the department. Otherwise there will be interest at the rate of 5 per cent. on the unpaid balance.

We have endeavored to make the answers to the various questions so plain that every reader can by careful reading and a little thought fully understand.

St. John Merchants' Annual Banquet

Large Representation of Hardware Merchants at St. John Gathering—Spirit of Co-operation Among All Branches of Hardware Trade—Associated Ad. Clubs to Put on Organization Campaign in New Brunswick



ST. JOHN, N.B.—Practically every hardware merchant in St. John was at the annual banquet of the St. John branch of the Retail Merchants' Association of Canada. A strongly optimistic note marked the gathering of the retailers, and although they realized that there were difficulties still to be overcome before readjustment would be complete, they felt that matters were righting themselves in a very satisfactory manner.

Many prominent speakers told of the advantage of the association, and outlined present conditions in Canada today. The principal guest of the evening was F. W. Stewart, of Montreal, who spoke eloquently on present conditions and what might be expected in the future. A. N. McLean, president of the association, occupied the chair. The first speaker was His Worship Mayor Schofield. He paid a tribute to the association and said that the city officials appreciated the work done by the association in the city, and were glad at all times to hear their views. He told of efforts to keep the tax rate down, and of the progress the city had made in a sane way. It was now in a good position as compared with other cities. He read a list of per capita expenditure of several cities, showing St. John to be one of the lowest. He suggested that the Retail Merchants' Association discuss the subject of hydro development when it found an opportunity, as this would be ready in about a year and the question was how to distribute the power in the city.

Appeals For Unity

Stanley C. Emerson, of Emerson and Fisher, Ltd., hardware merchants, made a strong appeal to the merchants for unity, and showed the necessity of all working together. W. S. Fisher, of the Enterprise Foundry, Ltd., Sackville, N.B., in a brief address caused much laughter by giving figures showing that the manufacturer was the first man to go when hard times came, then he was followed by the jobber, but the retailer survived until the last minute. He added that the manufacturers of today were doing all in their power to co-operate with the jobber and retailer, and fully realized that one could not be successful without the other.

Robert A. Macauley made a strong and forceful speech, pointing out the needs of the association and asking for closer co-operation on the part of the members. He stated that the organization was a national one and reached from coast to coast, and must eliminate from the public mind that the organization was a narrow one or worked for selfish ends. The consumer did not pay all the taxes and all must bear a part of the burden. He touched on group legislation and said that the association should combat this. The chairman then read a telegram from the Associated Advertising Clubs, meeting at Hamilton, telling of a campaign of organization that would be made in New Brunswick. The chairman then called on F. W. Stewart, the speaker of the evening.

F. A. DYKEMAN,
St. John, N.B., elected President of the local branch of the Retail Merchants Association at the annual meeting.

Retailers Keep Manufacturers in Business

Speaking on the conditions throughout Canada, he said that there had been a disappearance of profits on the part of most concerns. The general impression was that the manufacturer did all he could to hurt the retailer. Such was not the case as they realized that they kept them in business, and in some cases the manufacturers were supplying the goods and acting as banker as well. He wanted the Retail Merchants' Association to feel that the manufacturers were working with them, and that many of them were advising their customers to make their purchases cover a period of no longer than from sixty to ninety days. Buying for short periods would do much to stabilize business conditions and put merchandising on a firm basis. Price advances had covered a long period but the decline only a few months. Some things had gone too low, and would react, while others had not yet reached their lowest point. Conditions in the United States were in a much more unsettled condition than in Canada, and he cited instances where Canadian factories were still operating but United States factories in the same lines of business were closed down.

Mr. Stewart showed that declines in raw material did not affect the finished product until several months later, and regretted that the press did not make this clear when announcing declines in raw materials. The transportation problem was a serious one and had a marked influence on prices. Transportation charges should be such as to encourage haulage east and west. He favored high rates on short hauls and low rates on long hauls.

Hopeful Outlook

In concluding, he said that the retailers should encourage the sale of goods produced in Canada, but the Canadian manufacturer should see that his goods were equal to those of any other country. He said that very few articles were produced in Canada that were not equal to those of any other country, and that great strides had been made in the last few years. The business outlook was hopeful and encouraging.

The annual business meeting was held immediately after the speeches, A. N. McLean, the retiring president, being in the chair. The election of officers resulted as follows: Honorary president and chairman of the advisory board, A. N. McLean; president, F. A. Dykeman; vice-president, R. A. Macauley; second vice-president, J. H. Marr; secretary, S. E. Fisher; treasurer, M. E. Grass. Partial advisory board: A. O. Skinner, E. W. Daniel, A. E. Everett, S. C. Emerson, H. H. Scovil, H. Magnusson, C. McConnel, F. S. Thomas, H. Everett, D. Magee, J. McPherson, A. A. McIntyre, J. H. Vaughan, P. Rising, P. Levine, C. H. Smythe, H. C. Brown, A. R. Campbell, W. H. Turner, H. M. Jones, W. Hawker.

A hearty vote of thanks was given the retiring president for his untiring energy in the work of the association during the past year.

F. A. Dykeman, the new president of the St. John Branch of the Retail Merchants'

News of Western Canada

Hardware Shown at Western Exposition

Home Building Exposition in Winnipeg to Stimulate Building Activity Produces Interest in Exhibits of Hardware and Other Firms

WINNIPEG.—Keen interest has been taken in the exposition designed to stimulate home building. Crowds thronged the Board of Trade building from early morning until night viewing the exhibits. The exposition was entirely of an educational nature. Its conception arose from the urgent need of greater housing accommodation in Winnipeg and district and every exhibit was for the purpose of assisting the prospective home builder.

Every bit of material required to contruct a home and the latest and most modern appliances necessary for comfort within the home were to be found.

Realizing the importance of some such step to arouse the building industry from the inertia into which it has fallen in recent years, business men and workers combined to present the building proposition in its true light. In all there were 102 booths showing building material and house furnishings from kitchen utensils to builders' hardware and the latest in home equipment. Builders were there with model homes in various styles, ready to quote prices, furnish plans and specifications and show samples of materials required.

Every afternoon and evening there was a lecture and motion pictures dealing with building problems. Lectures on Home Furnishing and Decorating, and The Value of Owning Your Own Home, were among the subjects dealt with. Among the exhibitors at the show were the following: Chas. D. Kirk, plumbing and heating; Anthes Foundry, Ltd., sewage disposal; Crane, Ltd., hardware and pipe fittings; Clare Bros. Western, Ltd., heating systems; J. H. Ashdown Hardware Co., builders' hardware; A. Kellough, plumbing; S. C. Johnson & Son, floor wax; General Supply Co. of Canada, heavy hardware; Brantford Roofing Co., Ltd., roofing; Peace Metal Weather Strip; the Barrett Co.; Consolidated Plate Glass Co., Ltd.; the Maytag Co.; Kaustine Co. of Western Canada, Ltd., sanitary closets; the Marshall-Wells Co.; D. Ackland & Son; the John Stevens Co.; the Pedlar People, Ltd.; Winnipeg Paint Club; Winnipeg Paint & Glass Co.; Wear-Ever Aluminum.

Joins Peart Bros. Hardware, Regina

Geo. F. Irons, who has represented the Canadian Yale & Towne, Ltd., in Western Canada for the past three years, and prior to that time was for nine years with the James Walker Hardware Company of Montreal, has become associated with Peart Bros. Hardware Co., Regina.

James Bending Addresses Western Convention

The manager and travelling staff of the McClary Manufacturing Company were addressed by James Bending, Western manager of the Louis McLain Co., Ltd., of Toronto. The subject was Aluminum Ware. Mr. Clark presided. Mr. Bending took his hearers back to 1808 to the time when Davy, the English chemist, gave aluminum to the world, and traced the history of this metal.

Western Notes

Prince Albert, Sask.—John Erickson, hardware merchant, of Canwood, Sask., was in the city recently and stated that business in his district was improving and that prospects for spring are good.

* * *

Saskatoon, Sask.—William J. Birney has just taken over the hardware business formerly conducted by C. E. Houlding, corner Avenue A and 20th Street, Saskatoon, Sask.

* * *

Winnipeg.—Fire which broke out at 619 Portage avenue caused damage to the building occupied as a hardware store by W. H. Bridgman.

* * *

Winnipeg.—Frank Hemstreet, formerly assistant manager of the paint and wall paper department of the T. Eaton Co. in Winnipeg, has opened Hemstreet's Community Paint and Hardware at Corydon and Lilac Streets.

Canada and France to Exchange Exhibits

Ottawa.—A resolution providing for ratification of the trade agreement between Canada and France was moved by Sir George Foster in the House of Commons.

Sir George Foster explained, in answer to a question, that it was proposed that exhibition trains carrying French products would be run from city to city in Canada. The articles of manufacture would be exhibited and moving pictures of the country and its industries would be shown. The railways were providing the cars and would move them about. The cost to the Government was very slight. Similar facilities were being provided for Canadian demonstration trains to be carried through the different cities in France.

ST. JOHN MERCHANTS HOLD BANQUET

Continued from page 43

Association of Canada, has always been one of the live members of the association and has probably attended more meetings than any other member. Mr. Dykeman is at the head of a large and flourishing business, but has always found time to interest himself in the welfare of the association, and has always been a generous donor whenever it has been necessary to raise funds for any association affair. It was Mr. Dykeman who introduced the plan of having all advertising schemes passed by the association before any of the members bought space. This idea was the outcome of several complaints that merchants had been forced to take space in worthless (from an advertising point) programmes and books. Practically every week in St. John some affair was being carried out, and the merchants found that they were spending an enormous amount of money under the charge of advertising, for which they were getting no returns. The merchants now make a cash donation for any worthy cause, but do not connect it with their advertising accounts. Mr. Dykeman is an eloquent speaker, and has on many occasions delivered helpful and instructive addresses at conventions. He is also well posted in community affairs, and has ever had a watchful eye on the city fathers at the city council. Merchants, citizens and clerks are well satisfied with the choice of Mr. Dykeman for president of the Retail Merchants' Association.

The Founder of Winnipeg Paint Firm is Dead

Death in California of G. F. Stephens, President G. F. Stephens & Co., Ltd., Winnipeg

ANNOUNCEMENT is made of the death in Pasadena, California, of George F. Stephens, president of G. F. Stephens & Co., Ltd., Winnipeg, and a pioneer in the paint industry of Canada. Mr. Stephens died very suddenly and though he had been ill for several weeks it was not known by friends in Winnipeg that he was in a serious condition. It is a coincidence that Mr. Stephens was a close friend of A. B. Stovel, another prominent Winnipeg business man who died a few days prior in the South.

LATE GEORGE F. STEPHENS, President of G. F. Stephens & Co., Limited, Winnipeg, whose death in California is announced.

Mr. Stephens was born at Tally-Ho, near Collingwood, Ont., and entered the hardware business at Owen Sound, Ont., later removing to Montreal, where he entered business with the hardware firm of Ben MacPherson Co. In 1882 he came to Winnipeg and founded the business on Market Street, which was incorporated in 1901.

He was a supporter of the Y.M.C.A., and for many years was president. He was also a member of the First Baptist Church and had served as a deacon. In the financial world Mr. Stephens was director of the Standard Trusts Company. He was a member of the Canadian Club, St. Charles Country Club and the Manitoba Club.

Mr. Stephens possessed to an unusual degree a high sense of business integrity,

Paying Tribute to Late G. F. Stephens

George Henderson, President Brandram-Henderson Ltd., Montreal, and President The Canadian Paint, Oil & Varnish Association:

"Although my personal acquaintance with the late Mr. G. F. Stephens has been limited to a period of about seven years, I know more of him than this term of years would probably have permitted by reason of the fact that he was a very old friend of my father, the late Joseph R. Henderson.

"As much as thirty-five to forty years ago they were intimate, calling each other by their Christian names in a day when this was not so common as at present, and I have never heard my father speak of Mr. Stephens except as not only a man of ability and marked capacity, but also as one of outstanding and uncompromising honesty and simplicity of character.

"I never went to Winnipeg that I did not seek his advice on some matter of interest to the trade in general, and I never sought it without being most helpfully rewarded."

* * *

John Irwin, Managing Director McArthur, Irwin, Ltd., Montreal: "My first acquaintance with the late Mr. G. F. Stepens was coincident with my arrival in Winnipeg in 1905. At this time I was a young man inexperienced in the ways of the West, representing a firm that competed directly with the merchandise manufactured by the firm of G. F. Stephens & Co., Ltd. Notwithstanding the fact that the whole life of Mr. Stephens was centred in the welfare and success of the firm he had founded, his reception of me was most courteous and kindly. With the ripening of our acquaintance, the strength and wisdom of his counsels became more and more apparent, and the good which grew out of the discussion of business problems with him was to me most valuable. I count myself fortunate in having been privileged to enjoy the benefit of his ripe judgment and business acumen.

"Mr. Stephens' pleasing personality, patient manner, and unshaken loyalty to anything that concerned the interests of the paint and varnish industry were outstanding characteristics of a nature in every way admirable. With his passing, the paint and varnish industry, particularly in the West, will have sustained a loss that for long will be keenly felt."

* * *

W. S. Fallis, Vice-President and Managing Director, The Sherwin-Williams Co. of Canada, Ltd., Montreal:—

"It was my privilege to know the late Mr. Stephens intimately for many years, and to count him a close friend, both in and out of business.

"His integrity and ability made his influence a very potent one, not only in that portion of the community with which he was most closely connected and which he served so well, but with the entire Western portion of Canada.

"Those of us who knew him will feel very deeply indeed that in his passing we have not only sustained a keen personal loss, but that the country at large is the poorer through the taking off of an esteemed and distinguished citizen and pioneer in the upbuilding of business in Western Canada."

* * *

Walter B. Ramsay, President, A. Ramsay & Son Co., Montreal:—

"While I have had the pleasure of knowing the late Mr. George F. Stephens all my life, my father, the late Alexander Ramsay, was a personal friend of his, and had had business transactions with him for upwards of forty years.

"I have always heard Mr. Stephens spoken of as 'a gentleman of the old school,' with the highest of business principles, congenial and whole hearted, and everyone who had the pleasure of knowing him could only speak of him in the highest of terms.

"Mr. Stephens' death means a great loss to the paint and varnish trade, and in fact to the whole community at large."

* * *

T. F. Moneypenny, Vice-President and Sales Manager The Imperial Varnish & Color Co., Toronto:—

"The paint and varnish trade, all over Canada, and more especially in the Western Provinces, will have experienced an almost irreparable loss in the death of Mr. G. F. Stephens.

"We have always honoured Mr. Stephens both as a pioneer and as a business man, and who has had a wide and beneficial influence in the rapid development of the Canadian West. He had an influence that extended far beyond the paint and varnish trade into spheres that sought the development of the better sides of commercial, social and religious life. Although his active contact with the Eastern paint and varnish trade was limited, we believe his loss will be keenly felt only to a degree less than in Winnipeg.

"As a man, we have always looked upon him as one of the stalwarts in all that was honourable and upright in all phases of life."

* * *

J. H. Ashdown, President J. H. Ashdown Hardware Co., Winnipeg:—"He was one of our best citizens, respected and loved by everybody who knew him. I think everyone would mourn his death."

Allow us to present the *"Oakville"* line

Some of the Features of the "Oakville" Potato and Vegetable Pot

"Oakville" Ware Will Outwear Any Ware

Made to meet the requirements of the Canadian housewife for a potato and vegetable pot that is made of high quality aluminum.

The new "Oakville" Potato and Vegetable Pot has the **welded spout,** neatly finished and made of heavy gauge metal.

Each spout is fitted with strainer which facilitates straining without loss of contents.

The lock-tite handle holds the lid on during the straining operation. Does not fall down to the side and come in contact with the heat.

Cannot burn the hands with steam while straining.

Send a trial order to-day.

Alex. Gibb, manufacturers' agent, Montreal, met with an accident recently, fracturing his left arm.

* * *

D. Deschamps, formerly travelling salesman for Lewis Bros., Ltd., Montreal, has been appointed secretary and treasurer of Ste. Anne de Bellevue, Que.

* * *

Mr. Miller, of the O. B. North Co., New Haven, Conn., saddlery hardware, is calling on the hardware trade in Montreal this week.

* * *

J. E. Adcock, of Adcock & Brewer, Ltd., Montreal, manufacturers' representatives, is starting on a business trip through the Western provinces, calling on the jobbing trade.

* * *

Col. Robt. Starke, Starke-Seybold, Ltd., will spend the next two weeks in Atlantic City. Col. Starke is recovering from his recent illness, although he has been at his office during the past few weeks.

* * *

Frederick Arnold Farrar, advertising director for the Glidden Co., has made several trips recently to the various Glidden divisions, in the interest of advertising, travelling in company with Chas. S. Kennedy, director of merchant sales.

D. M. McDougall, Northern Ontario representative, Starke-Seybold, Limited, made a business trip to Montreal this week.

* * *

W. S. Leslie, president, A. C. Leslie & Co., has returned from his visit to Atlantic City.

* * *

George Caverhill, Caverhill, Learmont & Co., has just returned from a seven weeks' trip to the Southern States, having spent four weeks in Augusta, Georgia, and three weeks in Atlantic City.

* * *

A. H. Jenkins, of A. C. Leslie & Co., is now back at his office feeling much improved after his two weeks' rest in Peterboro.

Western Ontario News

Allan Lynn has purchased the hardware business of Charlesworth & Coulter at Wheatley, Ont., and will take possession shortly.

* * *

The death took place at St. Thomas, Ont., of Walter C. Else, aged 51, until recently general manager of the Still Manufacturing Co. He had been with the firm for 34 years.

* * *

Tenders are being called this week for the removal of the buildings on the property recently purchased at London, Ont., by the Crane Company and work will be started shortly on a large new warehouse, it is stated.

Toronto Branch C. M. A. Annual Meeting

The twenty-first annual meeting of the Toronto Branch of the Canadian Manufacturers' Association will be held on Thursday, April 21, next, in the Luncheon Club, twentieth floor of the Board of Trade Building, King and Yonge Streets, Toronto.

Dinner will be served at 6 p.m., after which the business will be taken up.

Beatty Bros.' Staff Convention

A convention of the Ontario hardware and washer salesmen of Beatty Bros., Ltd., was recently held at the head office of the firm. The improved white cap washer which is being brought out by Beatty Bros., Ltd., was introduced to the salesmen and various angles concerning the sale of the product fully discussed. Throughout the convention each salesman wore a white cap symbolic of the product.

Two Industries Locate Plants in Hamilton

Hamilton. — Two new industries, the Fuller Brush Co., of Hartford, Con., and the Coffield Washer Co. have decided to erect plants in Hamilton, so Industrial Commissioner C. W. Kirkpatrick has announced.

The Fuller Brush Co. employs 1,700 hands in its plant at Hartford and had a turnover last year of $5,000,000, it was stated. About 100 hands will be employed in the Hamilton plant, but it is expected that that number will be substantially increased in another year.

The Coffield Washer Co. will, is is said, manufacture a new type of electric washing machine. It is supported by local capital and will commence operations in a few weeks. About 50 hands will be employed at the start.

Capt. L. Lott Not Appointed to Owen Sound Wire Fence Co.

Attention has been drawn by the Owen Sound Wire Fence Co., Ltd., Owen Sound, Ont., to the fact that the report appearing in March 26 issue of Hardware and Metal to the effect that Captain Lloyd Lott, formerly of the Sarnia Fence Co., has been appointed sales manager of the Owen Sound Wire Fence Co. is incorrect.

Ontario Division C.M.A. Annual Meeting

The second annual meeting of the Ontario division of the Canadian Manufacturers' Association will be held on Tuesday, April 26th, next, in the Royal Connaught Hotel, Hamilton.

Sold Cartridges To Minor

A Toronto hardware merchant has been prosecuted for selling a package of cartridges to a boy fifteen years of age. The statutes make it illegal to negotiate a sale of ammunition to any person under the age of sixteen. It is an unfortunate fact that the cartridges sold to this minor resulted in a tragedy. This merchant stated that he always used his own judgment, never relying on the statement as to age of the applicant. This case emphasizes the care which should be taken in the sale of ammunition.

Address on White Lead

John R. MacGregor, of Chicago, Ill., will address the Paint Superintendents' Club on the subject of white lead at the Engineers' Club, 90 King Street West, Toronto, on the evening of April 7th.

Doings of Kingston Merchants

The Canada Cutlery Co., Ltd., one of Kingston's latest industries, has commenced the manufacture of pocket and pen knives. C. A. Eaton is the general manager. Members of the Canadian Manufacturers' Association who were in the city recently paid a visit to the plant and were much impressed with it.

* * *

One of the most attractive spring displays among the local hardware stores is that of McKelvey & Birch. One of the big windows is given over entirely to a display of garden tools and a card in the window reads as follows: "Glorious spring time is here. We can guarantee you health and wealth with a vegetable garden. You supply the muscle. We will supply the tools."

* * *

Kingston, Ont.,—There was a meeting held here of the Ontario District Council of the Sheet Metal Workers. At this meeting the question of a death benefit was broached and it is likely to be established. Messrs. McKay and J. H. Kennedy were appointed a committee to interview the Ontario Government to urge legislation in the interests of the craft. The following officers were elected: President, H. W. McKay, Toronto; vice-president, R. Dowe, Kingston; secretary-treasurer, George March, Hamilton.

* * *

J. A. Dalton, of Dalton's wholesale hardware, was this week honored by being elected commodore of the Kingston Yacht Club. Mr. Dalton has been identified with the yacht club for many years and has taken an active interest in all its activities.

Report from the village of Westport states that the automobile business is keen. Many new machines have been added to the long list of those owned there.

FOUNDER OF PAINT FIRM

Continued from page 45

fair dealing, and those qualities that inspire confidence, coupled with good business judgment and a breadth of vision.

The late Mr. Stephens is survived by his widow, formerly Alice M. Christie, of Bowmanville, Ont., and two sons, Laurence C. Stephens, a director of G. F. Stephens & Co., Ltd., and Dr. George F. Stephens, superintendent of the General Hospital, Winnipeg. M. F. Christie, managing director of G. F. Stephens & Co., Ltd., who has been associated with Mr. Stephens since the inception of this business, is a brother-in-law of the deceased.

Tool Company Buys Property

Toronto.—The British-Canadian Tool & Machine Company, Ltd., have bought from the King Street Mission the property at 506-516 King Street East for $23,000, and will erect a $40,000 factory on it. The property has a frontage of 100 feet and a depth of 200 feet.

Tinsmiths and the Sales Tax

A misinterpretation has been put upon a statement made in Hardware and Metal in regard to the liability of tinsmiths to collect tax as manufacturers. The tinsmith, while relieved of the liability of taking out a manufacturer's license and collecting sales tax pending the outcome of the test case to decide the status of such a retailer, is not relieved from paying sales tax on metals purchased by him. He must pay the sales tax to the party from whom he purchases his galvanized iron, tinplates, etc., but he does not collect sales tax as a manufacturer from his customers.

JOHN RANKIN,

hardware merchant of Mitchell, Ont., who is retiring after twenty-four years of business in that town. He is succeeded by George Ratz and Sons. Mr. Rankin was at one time very active in local affairs, having been Town Treasurer, but in recent years his health has failed, making necessary his retirement.

Galvanoid Wire Cloth

The line advertised by Kasement Skrene Dore Co., Toronto, in the March 19th issue of Hardware and Metal was incorrectly quoted as Galvanized Wire Cloth. This should have read Galvanoid Wire Cloth.

MANUFACTURER WISHES TO ESTABLISH PLANT IN CANADA.

A United States manufacturer, who is considering the opening up of a plant in Canada, has asked Hardware and Metal to supply the names of suitable towns in which a suitable building, etc., could be secured. This manufacturer would also wish to locate at a place where there are good shipping facilities and also electric power.

If any of H. and M.'s readers wish to send in any details regarding available locations for plants, or particulars of special inducements, etc., we will gladly pass the information along to this manufacturer.

Doings in Ottawa and District.

The danger of a possible strike in the building trades has been averted temporarily by the action of the Building Trades Council which, at a meeting this week, reversed its decision made a few days ago to stand for collective bargaining, and decided, on a majority vote, to deal with the contractors by individual unions in negotiating the 1921 agreements.

* * *

Ottawa's future as an industrial centre was spoken of in no uncertain terms by G. N. Gordon, M.P., for Peterboro who addressed the local Kiwanis Club this week. He said: "Ottawa is destined to be one of the greatest industrial centres in Ontario as well as being the most beautiful city in Canada." He had made an inspection of the city and had noted the possibilities of securing much hydro power close at hand. In this respect Ottawa was apparently better situated than any other Ontario city with the exception of cities in the Niagara River district. He pointed out that the use of motors had made a modern city grow, and the natural facilities here would undoubtedly enable Ottawa to make rapid advances.

News of the Maritimes

Moncton, N.B.—F. R. Sumner and R. P. Dickson, of Sumner Co., have returned from a business trip to Montreal, Toronto, Hamilton and other upper Canadian cities.

* * *

Moncton, N.B.—F. E. Fraser exhibited at Sumner Co., Ltd., for two days, the first rifles and shot guns of British manufacture to be shown here since the war. These were from the plant of the Birmingham Small Arms Co., of Birmingham, England. Much interest was taken, especially in the 303 cal. Lee-Enfield action sporting and the 22 cal. target rifles.

* * *

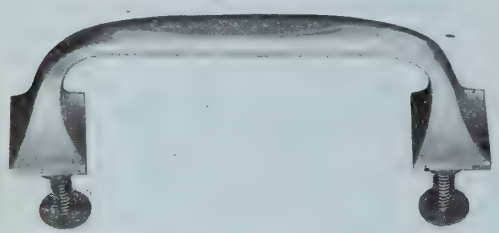
Moncton, N.B.—C. B. Murray, of Sumner Co., retail, has been placed on the road, taking the territory formerly covered by B. A. (Bud) Taylor, who is now sales manager.

* * *

Charlottetown, P.E.I.—A bill coming before the legislature to incorporate the Prince Edward Island Light, Heat and Power Company, with a capital of $2,000,000, marks another step in the development of a project designed to extend light, heat and power by electricity to all parts of Prince Edward Island, from one big central power house using coal for generating power.

Manufacture Small Sporting Goods

Craig Cowan Co., Toronto, have commenced the manufacture of baseball goods and other small sporting goods.



New Hardware Goods

OFFERED TO CANADIAN HARDWAREMEN

NEW OFFSET DOOR PULL

A new offset door pull has been put on the market by the Toronto Lock Mfg. Co., Ltd., Toronto, Ont.

This door pull has been designed to do away with the danger and annoyance of having fingers or knuckles cut or bruised in opening or closing the door when pull is near to jamb.

Offset Door Pull

The pull can be used on right or left hand doors and is suitable for the narrow style of light doors. It is made of solid brass, in all standard hardware finishes and is neat in appearance, no screws appearing in face as it is fastened from inside of door.

NEW A.B.C. IRONER

The new A.B.C. electric ironer, manufactured by Altorfer Bros. Co., Peoria, Ill., is said to be unique as it has been designed to operate either as a separate unit, with motor, or in conjunction with A.B.C. electric washers, utilizing the power of the washer and dispensing with the need for a motor on the ironer. In the latter case the purchaser saves the cost of a motor. Other features include a foot control by which the ironing pressure is applied and released by foot pedals, leaving one's hands entirely free to guide the clothes and linens. The foot pedal is 10 inches wide and is made large to enable the foot to find it without it being necessary to remove the eyes from the work being done. The pedal is locked by a ratchet at whatever point is depressed. Another improvement is the "Iron-All," an auxiliary shoe separately gas heated and operated on the main ironing roll. The makers claim that it will do intricate work that ordinary ironers cannot handle. The ironing shoe is 7 x 45 inches and is heated over its entire surface. When released the ironer drops 4 inches, enabling the user to wax and clean it, and there is said to be ample space for a hand and cloth to reach every inch of its surface. The centre of the roll is of smooth steel electrically welded in one piece and is thickly padded. All moving

A.B.C. Ironer

parts are enclosed and gears are packed in oil and have a dust tight casing. The Canadian representative for Altorfer Bros. is C. D. Henderson, Box 123, Brantford, Ont.

A NEW "DURO" ROASTER

A new "Duro" aluminum oval roaster has been added to the "Duro" line of aluminum ware by the manufacturers of this ware, W. D. Shambrook & Co., Hamilton, Ont., and is said to be the first roaster of its kind to be made in Canada. The dimensions of the roaster are 18¼ inches long, 11¼ inches wide and 8¼ inches in height. The roaster is stated to be of heavy gauge sheet aluminum. Air chamber in bottom of

"Duro" Roaster

base will prevent burning and cover fits snugly, retaining all the juices and preventing the shrinkage of the meat. It is large enough for a good sized turkey, is seamless and easy to keep clean and has polished finish and riveted handles. The indented cover insures automatic basting.

"DRYCLENE"

Dryclene is a name of a new window cleaning powder about to be placed on the Canadian market. It is made in London, England. The manufacturers point out that Dryclene requires no water. A little of the powder is sprinkled on the duster and rubbed on the glass. The claim is made for it that it will not smear or scratch the glass; that it will not soil the hands or damage paint work; that it will clean brass, copper and metals, as well as glass, also cutlery and steel instruments. It is put up in three different sized tins —two ounces, five ounces and one pound, also in bulk. La Fontaine & Harvey, 122 London Wall, London, England, are the export agents of the Dryclene Company.

"STEEN" KEYLESS COMBINATION LOCKS

The Steen keyless combination lock being manufactured by the Triple Metals Corporation, Waukegan, Ill., is stated to be simple and yet unpickable. There are no springs to snap or break, and it is claimed that it can be opened as easily in the dark as in the day time. The cases are made of steel, electrically welded and nickel plated, and also in solid brass. The locks are made in three-number combinations, with a case 1¾ inches by ½ inch. The staple of the padlock is 1 inch long by ¼ inch. The shackle of the cycle lock is 7½ inches

Keyless Combination Lock

long, and the motorcycle lock has a 9-inch staple. A trunk lock is also made, size 6½ inches by 3⅞ inches. Every combination is registered and will be furnished to the owner at any time by inquiry through a responsible dealer.

Weekly Hardware Market Reports

STATEMENTS FROM BUYING CENTRES

MARKETS AT A GLANCE

FURTHER reductions have been made this week in prices of cotton goods, sash cord, some lines of woodenware such as step ladders, clothes bars, lawn swings, also on wrapping twines, clothes lines, pipe wrenches, blacksmiths wrenches, glass butter churns, boat and barrel nails, carpenters' chalk, stair rods and eyes, tire tape, chair nails, pipe fittings, and some lines of food choppers. Fuel oil, linseed oil and turpentine are also being quoted lower. Heavy hardware such as bar iron and steel, black and galvanized sheets and plates, wrought pipe, lead products and nails are holding steady in price. The ingot metal market is still listless and irregular with tin showing a decline, and the market is affected by the coal strike in Great Britain.

The iron and steel industry in primary U.S. markets has not as yet experienced the ordinary spring demand, and business is largely in carload lots. The Pittsburgh reports indicate that the steel pipe market is weaker, with shading of prices. The U.S. sheet market is lower on black and galvanized sheets, but other products have shown little change for the past month.

A continued improvement in the demand for spring lines and shelf hardware is reported by wholesalers, but heavy lines are still moving slowly. Good sales are reported in oil stoves, and electric stoves and ranges are moving well.

Montreal Markets

MONTREAL, April 7.—Many of the smaller goods are offered at lower prices this week while the heavier goods, with the exception of pipe fittings, remain steady. Fittings have new discounts on most kinds, causing lower quotations. Among the shelf goods is a reduction in stair rods and eyes, and wrapping twine. "Jewel" and "Model" meat choppers, and "Dazey" glass churns also show a decline. Stillson wrenches of Canadian pattern are now 50% off list. Cotton clothes lines, tire tape and chair nails are also lower. Blacksmiths' vises have revised prices. Sheets, bar iron and steel, corrugated sheets and lead products are holding unchanged. Ingot metals are rather irregular, some unchanged, while others are slightly easier. Spring business continues to improve, and jobbers report that trade seems to be now coming back into its proper place.

Slight Decline in Stair Rods

Montreal.

New prices are now out for stair rods of the different sizes, showing a slight reduction. Following are the quotations on both rods and rod eyes:

STAIR RODS—¼ x 24 in., $1.70 per doz.; 26in., $1.85; 28 in., $2; 30 in., $2.20; 32 in., $2.30; 5-16 x 26 in., $2.25; 27 in., $2.85; 28 in., $3; 30 in., $3.10; ⅜ x 30 in., $4.20; 32 in., $4.60.

STAIR ROD EYES.—¼ in., $2 per gross; 5-16 in., $2.30 gross, ⅜ in., $2.70 gross.

Wrapping Twine Down

Montreal.

There has been a reduction of from 15 to 20 per cent. made on wrapping twine, both in balls and in cones. Following are the new prices: 3 ply in balls, 40 cents per pound; 4 ply in balls, 43 cents per pound; 3 ply in cones, 37 cents per pound.

"Jewel" and "Model" Choppers Reduced

Montreal.

Both the "Jewel" and the "Model" meat choppers show a reduction in prices, and following are the new quotations:

JEWEL.— No. 15, $23.25 doz.; No. 25, $24.75; No. 30, $39.

MODEL.—No. 5, $24 doz.; No .6, $25.50; No. 7, $39.

Stillson Wrenches 50% Off

Montreal.

Through a change in discounts Canadian pattern Stillson wrenches are now quoted lower. The present discount is 50 per cent., formerly being 45 per cent. off list prices.

Wrought Pipe Under List No. 50

Montreal.

Wrought iron and steel pipe is now selling under list No. 50, as stated in last week's Hardware and Metal would be shown this week. The reduction of approximately 3 points covers steel piping only, the wrought iron remaining unchanged. This is the second reduction made on steel pipe this month, and in both new lists issued wrought pipe is unaltered. Following is list No. 50:

Price List No. 50 — **March 28th, 1921**

Standard Buttweld Pipe S/C

Per 100 feet.

10 in.	3 28	4 10	4 39	5 21

Pipe Fittings Reduced

Montreal.

Through a change in discounts on many lines of pipe fittings, these will now cost less. The changes are slight in most cases, bushings for example were quoted at 22½ per cent. off, and are now selling at 25 per cent. off list prices. Pound goods also have new discounts, now being plus 10 per cent., formerly they were plus 17½ per cent. Stocks are ample and well sorted, with the demand well kept up in sorting orders. Following are the new quotations:

Bushings, cast	25%
Do., malleable	25%
Flanges	27%
Plugs	22½%
Flange Unions	20%
Malleable Unions	40%

Dart unions, black	20%

Pound goods—	Black	Galv.
Class B	0 20	0 28
Class C	0 13	0 20

Add 10%.

Net Prices on Soldering Coppers

Montreal.

While there is no change in prices of soldering coppers, some jobbers quote them by the pair rather than by pound prices, and following are the prices per pair of each weight:

SOLDERING COPPERS—1-lb., 52c per pair; 1½-lb., 70c; 2-lb., 95c; 2½-lb., $1.15; 3-lb., $1.30; 4-lb., $1.75; 5-lb., $2.20; 6-lb., $2.60; 8-lb., $3.50.

Dazey Churns Show Reduction

Montreal.

The Dazey glass churns will not cost quite so much, a reduction of about 5 per cent. being shown on the different sizes. Following are present quotations:

DAZEY CHURNS—No. 10, $11.50 doz.; No. 20, $19.20; No. 30, $24; No. 40, $30.50.
EXTRA JARS FOR ABOVE.—No. 10, $3.60 doz.; No. 20, $6.30; No. 30, $9; No. 40, $11.25.

Cotton Clothes Lines Lowered

Montreal.

There has been a small reduction in cotton clothes line, amounting to about 5 to 10 per cent. Cotton goods have been shown at reductions quite frequently in the last few months, and this week the clothes lines again feature. Following are the present prices: 30 feet hanks, $1.85 dozen; 40 feet, $2.30; and 48 feet hanks, $2.75 dozen.

Reduction on Tire Tape

Montreal.

Revised prices are quoted on tire tape, resulting in lower prices on the different sizes. One ounce rolls will now cost 72 cents per pound, 2 ounce 70 cents, and 8 ounce 66 cents per pound.

Blacksmiths' Vises Lower

Montreal.

A reduction of nearly 10 per cent. has been made on blacksmiths' vises of the different sizes or weights. Following are the new net prices:

30 in., $14.75 each; 50 in., $15.25; 60 in., $17.25; 70 in., $19.80; 80 in., $23; 90 in., $28.50.

Polishes Sell Well

Montreal.

At this season of the year both furniture and metal polishes are in good demand and jobbers state they are now selling well. Following are prices on well known lines:

LIQUID VENEER — Mops, regular, $20 doz.; Junior, $14. Polishes, 4 oz. bottles, $2.40 doz.; 12 oz. bottle, $4.80 doz.; quart cans, $10 doz.
O-CEDAR—Mops, No. 1, $16 doz.; No. 3, $16; No. 5, $16; No. 14, $16, No. 15, $10. Polishes, 4 oz. bottles, $2.40 doz.; 12 oz. bottles, $4.80; quart cans, $12; ½ gal. cans, $20; 1 gal. cans, $28.
BRASSO METAL POLISH.—¼ pt., $1.55 doz.; ½ pt., $2.90; 1 pt., $5.70; qts., $11.40.
SILVO.—No. 3, $1.50 doz.; No. 6, $2.50 doz.

Small Reduction in Chair Nails

Montreal.

Brass headed chair nails show a slight reduction. This is said to be the result of these now being made in Canada, as the Dominion Tack Co. are now manufacturing. Following are present prices:

CHAIR NAILS. — Bulk, per 1,000. — No. 41, $1.70; No. 42, $1.15; No. 43, $1.15.
In 100s.—No. 041, $2; No. 042, $1.35; No. 043, $1.20.
In 50s.—No. 0041, $2.20; No. 0042, $1.70; No. 0043, $1.35.

Ware Prices Holding

Montreal.

There is no change in prices of the different wares, quotations remaining steady. Tinware in such commodities as milk cans, milk pans and dairy pails is now active for spring demand. Enamelled and galvanized wares are also moving in a general sorting way, sales improving as the season opens. Aluminum ware has shown a fair demand all during the early spring months, showing an increased popularity in this line.

Gasoline and Oils are Held

Montreal.

Prices on gasoline and coal oil are held without change. Gasoline is quoted at 39 cents for motor, 44 cents for the higher grade, coal oil selling at 28 cents. Lubricating oils and gasoline are now selling in good volume as the motor season has opened at an early date.

Sheets Still Nominal

Winnipeg.

Present stocks of sheets continue to rule the quotations to a large extent, and prices are held as being nominal. From week to week the sales are reported larger, but are still below the average for this month. With dealer stocks low a much heavier demand was anticipated at this date, but a hand-to-mouth business still prevails. Production is still curtailed in the United States and operations are at a low rate. It is quite apparent that the low figures offered at recent dates will not stimulate buying. Following are present quotations:

PLATES—	
10 gauge	6 25
12 gauge	6 30

NOTE.—These prices are for full bundles, an extra charge of 25c to 35c per 100 lbs. is made for broken lots. These quotations are nominal.

Corrugated Sheets Improved

Montreal.

There is a slightly improved demand for corrugated sheets, but not up to normal considering the open weather. However, a better feeling is evident than has been shown in the past quiet months. List prices are unchanged, although it is reported better quotations may be obtained for quantities in the lighter gauges, and these are the only weights moving at this time.

No. 20 gauge	22 00
No. 18 gauge	28 00

Less 7½%.

Lighter than 24 gauge and wider than 27 inches, 75c a square extra.

Lead Products Unchanged

Montreal.

There is little new to report on lead products this week, prices remaining unchanged and considered fairly steady. Pig lead, which has shown recent declines, and continued to have an easy tendency, has now firmed considerably. Sales on the different lines are better during the past week, and with these tendencies prices are liable to be firmer rather than show further declines. Prices are as follows:

Lead pipe	0 12½
Lead waste	0 13½
Note.—Lead pipe is subject to a discount of 10%.	
CouplingsLead traps and bends	10% off
Lead wool, lb.	0 13½
Lead sheets, 2½ lbs.	0 11
Do., 3 to 3½ lbs. sq. ft., lb.	0 10¾
Do., 4 to 8 lbs.	0 10
Cut sheets ¼c lb. extra and cut sheets to size, ¾c lb. extra.	
Solder, guaranteed, lb.	0 26
Do., strictly, lb.	0 24
Do., commercial, lb.	0 21
Do., wiping, lb.	0 21¾
Do., wire lb.	0 34
Zinc, sheets, casks	0 14
Do., broken lots	0 15½

Scrap Metal Market Dull

Montreal.

Buying continues light in scrap metals, and an improvement is not yet shown. Enquiries are coming to hand a little better, but actual business seems to hold back. With the steel mills in their present condition, there is practically no call for scrap, and ferrous metals are much in the same position. Whether the opening of navigation will stimulate trade seems doubtful. However, dealers are hopeful that outside markets will show some improvement. Following are nominal quotations:

DEALERS' BUYING PRICES.

Automobile tires	0 75
Yellow brass	0 05
Red brass	0 09
Light brass	0 04
Scrap zinc	0 04
Lead, heavy	0 03½
Lead, tea	0 02
Light copper	0 08
Heavy copper	0 10½
Wrought iron, R. Rd., No. 1, per gr. ton	12 00
Malleable scrap (ton)	11 50
Pipe scrap (ton)	8 00
Stove plate, per ton	18 00
Heavy melting steel	8 50
No. 2 busheling	4 00
Boiler plate	0 08
No. 1 machinery cast, per gr. ton	$25.00 28.00

Iron and Steel Unchanged

Montreal.

Deliveries to merchants of bar iron and steel are reported with little change, or-

ders still being small. Jobbers have fair stocks on hand, and do not feel inclined to stock up any heavier at present. This has had its ill effects on the pig iron production in the United States, and until present stocks become lower there is likely to be little improvement. Following are the local quotations:

Common bar iron, 100 lbs.	4 00
Refined iron	5 50
Iron finished machinery steel	4 05
Mild steel	4 00
Band steel	4 00
Single reeled machinery steel	6 80
Spring steel	6 00
Sleighshoe steel	4 00
Tire steel	4 20
Toe calk steel	4 90
Harrow tooth steel	4 15
Mining tool steel, per lb.	0 23
Black Diamond tool and cast steel	0 23

NOTE—Refined iron is approximately $1.50 per 100 lbs. over base, but fluctuates owing to unsettled market.
Band steel in scroll bdles., 50c per 100 lbs. extra.
Flats, iron and steel, 3-16 and thinner, 50c per 100 lbs. extra.

Little Change in Ingots

Montreal.

There is little change in ingot metals, although some metals are slightly down in price from last week's quotations. The trend has also been slightly downward in London, caused by the coal strike, but taking everything into consideration, the market has held fairly well. The future action will depend almost entirely on conditions in the Old Country.

TIN.—Tin has eased a little, but not as much as might be expected. In New York it has held quite firm and it is not easy to get future quotations for fear of a duty being imposed. Local price a little easier at 36 cents.

COPPER—This metal has eased in London and New York follows suit. However, it is felt that copper is in a better position than it has been for some time. Casting is quoted at 17¾ cents, and electro at 18 cents.

SPELTER—It is fully expected that the United States Government will impose a duty on this metal, thus shutting out the importers. Spelter continues firm, although there is no change in price. Now quoted at 8½ cents.

LEAD—Lead is the firmest metal on the list, and will, it is expected, continue so. The trust price has advanced 15 points during the week. The local price is also a little higher at 6¾ cents.

ANTIMONY—There is no change in antimony, the market remaining quiet with no change in prices. Chinese or ordinary is quoted at 7¾ cents and English spelter at 8½ cents.

ALUMINUM—The market for aluminum remains dull, and very few enquiries are coming to hand. Local price continues at 35 cents.

Toronto Markets

TORONTO, April 7.—Hardware prices generally are inclined to be steadier and show few changes, although some important reductions have been made in the past few days. Pipe fittings have been further revised and are showing some declines. The new prices on building papers and sheathings are lower. Some lines of woodenware are reduced with lower quotations on clothes bars, step ladders and lawn swings. Cotton wrapping twines and sash cords have been reduced in price again, and other lines quoted lower include fuel oil, boat and barrel nails, and carpenters' chalk. Pipe is held at the decline noted last week, and sheets and plates, bar iron and steel, lead and zinc products, and roofings are holding unchanged. Ingot metals are weak with tin lower. Business is showing a slow gradual improvement, but heavy hardware is still backward and dull. Spring lines are reported to be moving well.

Clothes Bars Are Lower

Toronto.

Reductions have been made in the prices of wooden clothes bars, and the new quotations on three of these sizes are the following:

CLOTHES BARS—No. 4, $11 per doz.; No. 5, $13; No. 6, $16.

Some Step Ladders Reduced

Toronto.

A reduction of approximately 12 per cent. has been made in the prices of some step ladders, and the following are the new quotations:

STEP LADDERS, per foot—Shelf Lock, 32c; Faultless, 4 ft. to 8 ft., 45c; Faultless, 10 ft., 12 ft., 14 ft., 53c.

Corrugated Sheets Improving

Toronto.

Business is reported to be picking up a little in galvanized corrugated sheets and an increase of sales is likely during the next month. Prices continue to hold at previous quotations and are the following:

CORRUGATED SHEETS—	Per 100 Sq. Ft.
No. 28 gauge	9 50
No. 26 gauge	10 25
No. 24 gauge	16 00
No. 22 gauge	19 00
No. 20 gauge	22 00
No. 18 gauge	28 00

Less 7½%.
Lighter than 24 gauge and wider than 27 inches, 75c a square extra.

Lawn Swing Reduced

Toronto.

The Ontario four-passenger swing has been reduced in price about 15 per cent. and is now quoted at $8.50 net.

Maxwell Washers and Wringers

Toronto.

Revisions have been made recently in some of the Maxwell line of washing machines and wringers and the following are the prices of list No. 60:

WASHING MACHINES—Popular, list, $14.50; Economic, $16; Puritan, $19.50; New Champion, $22.75; Home, $20; Vacuum, $27; Home Water Motor, $28.

List less 25 per cent.

WRINGERS—Blue Belle, list, per doz. $115; Blue Belle folding B, $164; Rival, $105; Model, $91; Royal Canadian, $94; Imperial, $102. List less 25 per cent.

Freight equalized with Montreal, Ottawa, Toronto, Hamilton, Kingston, London or St. Marys, on shipments of ¼ dozen washing machines and upwards, and ½ dozen wringers and upwards.

Sad-Iron Handles

Toronto.

In the issue of March 26 a quotation of $1.60 per dozen was reported on sad-iron handles. This information was given to Hardware and Metal in good faith, but a mistake was made in taking the manufacturer's revised price as per gross instead of per hundred. The quotation should be $2.15 per dozen.

Spring Shipments Rope Moving

Toronto.

Business continues to make a slow but steady improvement in rope and twines. Sales are not large, but as the tendency in all lines is to buy smaller and more frequently the trade believe that they are getting their share of business. The prices of rope and binder twines will be found on current market pages.

Compression Work Steady

Toronto.

There is no change to record in prices of valves and bibbs. No great increase in sales has been noticed yet, but wholesalers state that an improvement is shown in each month's business. The following are the current quotations:

Compression work, standard	34%
Fuller work, standard	30%
Bath cocks, compression	25%
Do., Fuller	25%
Flatway stop and waste cocks, standard	34%
Roundaway stop and waste cocks, standard	34%
Brass steam cocks, standard	10%
Globe, angle and check valves, standard	5%
J.M.T.	10%
J.M.T. C.	15%
J.M.T. Gate Valves	15%
Gate or straightway	7/10%
Jenkins Globe	10%
Radiator valves, standard	23%
Do., removable disc	38%
Basin Cocks—	
No. 1 and 1, Fuller pattern	30%
Quick opening	28%
Emco J. D. Valves	10%
Emco Check Valves	10%
Webber Gate Valves	15%

Slow Improvement in Nails

Toronto.

Sales continue to show a small increase in wire nails, but the demand is not as active as it should be. Many believe that a bigger demand for nails will be noticed when new building construction gets under way, as it is understood that the majority of retailers' stocks of nails are small and not adequate for a normal demand. While building construction is not expected to be normal this season it is estimated that it will be heavier than was expected two months back. Wholesalers report wire nails unchanged at $5.10 per keg, base, and cut nails at $6.20, base.

Gasoline Prices Holding

Toronto.

There is no change reported in coal oil or gasoline prices. The demand is stated to be fair for the season of the year. Quotations for coal oil range from 27 to 30 cents per gallon, net, and for gasoline 38 cents for motor grade.

Fuel Oil Down One Cent

Toronto.

A reduction has been made in the price of fuel oil, and the new quotations are one cent per gallon lower. Tank cars are now quoted at 8.20 cents per gallon and barrels at 10.20 cents.

Bar Iron and Steel Unchanged

Toronto.

Wholesalers report but little change in business in bars or angles. Sales are better than earlier in the year, but increases have been so slight and gradual as to be hardly noticeable. Inquiries are a little more numerous but buying is still largely for immediate requirements. It is reported that Belgian bars are being offered on United States markets both at the Atlantic and Pacific coasts as well as on the Gulf at ½ cent per pound under the prices being asked at Pittsburgh. It remains to be seen what effect this will have on the U.S. mill prices. It is noteworthy, too, that Germany has secured orders for rails for South America at much lower prices than the lowest United States quotations. Wholesalers' stocks here are in fair shape and no changes in prices are recorded. Quotations are the following:

Common bar steel, 3-16 in.	$ 4 50
Common bar steel, ¼ in. and heavier	4 00
Common bar iron, 3-16 in	4 50
Common bar iron, ¼ in. and heavier	4 00
Angle base	4 10
Horseshoe iron	6 00
Tire steel	5 95
Band steel	4 50
Spring steel	12 75
Crucible Cast Sheet Steel	35 00
Mining drill steel	23 00
Common Cast Tool Steel	20 00
Sleigh shoe steel	4 50
Norway iron	15 00
Toe caulk iron	6 70
Hoop Steel	6 00

New Pipe Prices Hold

Toronto.

As reported in the last issue of Hardware and Metal a new list is out on pipe and is numbered 50. It shows a reduction of about three points on steel pipe, but wrought iron pipe continues unchanged. A smaller demand is reported for piping at present, and it is believed that stocks on the whole are in fair shape now. A falling off in orders for tubular goods is also reported from United States pipe mills, which until recently had been operating at a better rate than other steel product mills. List No. 50 will be found on current market pages.

Some Pipe Fittings Revised

Toronto.

Some revisions have been made in the price of pipe fittings and black and galvanized malleable pound goods are slightly lower, and unions, bushings and plugs are reduced about 10 per cent. The discount on unions is now 40 per cent., bushings and plugs 25 per cent. A little increase in sales is reported but is small yet. Stocks are said to be ample. The following are the present quotations:

Cast iron fittings	15%
Plugs, cast iron	25%
Do., solid	10%
Do., countersunk	net
Bushings	25%
Unions, ¼-in. to 2-in.	40%
Do., ⅛ in., 2½ to 4 in.	30%
Dart Unions, blk., ¼ in. to 2 in.	20%
Do., ⅛ in., 2½ to 4 in.	8%
Do., galvd., add to black	30%
Nipples, blk. and galvd., ⅛ to 4 in., close and short	40%
Do., 4½ in. and larger	30%
Do., long, ⅛ in. to 4 in.	50%
Do., 4½ in. and larger	40%
Do., running thread	20%
Couplings, 4-in. and under	20%

MALLEABLE FITTINGS

	Black.	Galvanized
Class A	0 60	0 75
Class B	0 23	0 32½
Class C	0 15	0 23

Cotton Wrapping Twine Lower

Toronto.

A reduction of from 12 to 20 per cent. has been made in the price of cotton wrapping twines in balls and cones. The 3-ply balls in 5-pound cotton sacks are now quoted at 42 cents per pound and the new price for cones is: 3-ply, 38 cents per pound; 4-ply, 41 cents.

Sash Cord Reduced Again

Toronto.

Another reduction has been made in the price of sash cord, and sizes 8 to 12 are now quoted at 50 cents per pound, No. 7 at 51 cents and No. 6 at 52 cents.

Carpenter's Chalk Reduced

Toronto.

Reductions have been made in the price of carpenters' chalk, and red and blue are now quoted at $2.80 per gross, net. The new price on the white is $2.25 per gross.

Building Papers: Lower Prices

Toronto.

The reductions reported last week in dry and tarred sheathings or building papers are now announced and constitute a decline in prices of from 10 to 15 per cent. The new quotations are the following:

Dry Fibre, No. 1, per roll of 400 sq. ft.	$1 45
Do., No. 2	0 95
Tarred Fibre, No. 1	1 55
Do., No. 2	1 25
Surprise or Stag Fibre	1 05

Boat Nails Are Reduced

Toronto.

New lower prices are made on boat and dory nails, and the new discount on the black is 60 per cent. and on galvanized 45 per cent. The previous discounts were 55 per cent. and 35 per cent. respectively. Quotations are the following:

BOAT NAILS—Per 100 lbs. List.—¾ in., $32; ⅞ in., $30; 1 in. and 1⅛ in., $28; 1¼ in., $26; 1½ and 1¾ in., $24; 2 and 2¼ in., $23; 2½ and 2¾ in., $22; 3 to 6 in., $21.

Packed in 25 lb. boxes.

Discount, black, 60%; galvanized, 45%.

40c allowed off above prices if packed in 100-lb. kegs.

Barrel Nails Are Lower

Toronto.

Reductions have been made in barrel or coopers' nails and these are now quoted at net list, a decline of approximately 10 per cent. The following are the new prices:

BARREL and COOPERS' NAILS—¾ in., $9.75; ⅞ in., $9.25; 1 in., $9; 1⅛ in., $8.50.

Oakum Prices Revised

Toronto.

Prices have been revised on oakum and are lower. Plumbers' oakum is being quoted at $8.25 per 100 pounds and marine at $17.

Lead Products Are Firm

Toronto.

A fair amount of business considering conditions is reported by a large manufacturer of lead products. Stocks in wholesalers' hands are stated to be ample and no changes in prices are noted. The primary lead and zinc markets are firmer and as predicted advances have been made in pig lead by leading United States producers. Prices are $5 a ton higher than a week ago. Quotations on lead and zinc products here remain as follows:

Lead pipe, list, per lb.	0 12½
Lead waste pipe, list, per lb.	0 13½
Do., over 8 in., list, per lb.	0 14½
Lead pipe is subject to a discount of 10%.	
Lead traps and bends	10%
Lead sheets, 4 to 6 lbs. sq. ft., in rolls, lb.	0 09½
Cut sheets, ½c to ¾c lb. extra and cut sheets to size 1c lb. extra.	
Solder, wire, per lb.	0 34
Do., strictly, lb.	0 24
Do., commercial, lb.	0 22
Do., guaranteed, lb.	0 27
Do., wiping, lb.	0 22
Zinc sheets, per lb.	0 16

Sheets Reported Slow

Toronto.

There is little new reported in black and galvanized sheets or in plates. A slight improvement is reported on each week's business, but it is small and is hardly noticed. Quotations generally continue to hold and though some lower prices are reported they are said to be in "seconds." It is stated that there has been an increase of activity in United States sheet metal mills during the past week or so, but the sheet industry as a whole is not producing more than at the rate of 30 per cent. of its mill capacity. Quotations here are nominally unchanged and are as follows:

PLATES

10 gauge	from 5 75 to 6 20
12 gauge	5 80 6 25
14 gauge	5 85 6 30
16 gauge	5 95 6 40

BLACK SHEETS

14 gauge	5 80 to 6 80
16 gauge	5 90 6 90
18-20 gauge	6 25 7 25
22-24 gauge	6 30 7 30
26 gauge	6 35 7 35
28 gauge	6 50 7 50

Prices shown are for full cases. An extra charge of from 25c per 00 lbs. is made for less than case lots. An extra 10c per 100 lbs. is also charged on sheets 36 in. wide.

GALVANIZED SHEETS

Premier and Apollo

10¾ oz.	8 90 to 9 80
U. S. 28	8 50 9 50
U. S. 26	8 20 9 20
22 and 24	8 05 9 05
18 and 20	7 90 8 90
16	7 75 8 75

12 and 14	7 70	8 70

An extra 40c per 100 lbs. is charged for Keystone brand copper bearing sheets.

An extra is now charged on galvanized sheets, 10¾ oz. and 28 ga., when shipped out in sheets 3 feet wide. The extra charged over prices shown above is 20c per 100 pounds. Other gauges show no change for different widths.

Prices shown are for full cases. An extra charge of 25c per 100 lbs. is made for less than case lots.

Waste Materials Not Improved

Toronto.

There is no improvement to report in the waste material market, and consumers are unwilling to buy. With present low prices producers prefer to let their material lie as freight and loading charges frequently absorb the prices quoted. Prices on heavy melting steel are easy and nominal, and stove plate is firm. Red and yellow scrap has very little demand, but lead scrap has been fairly heavy. The following prices are for fairly large quantities and are nominal.

WASTE MATERIAL

No. 2 busheling	....	$13 00
Stove plate, per ton	19 00	20 00
Yellow brass	6 50	7 50
Red Brass	....	10 00
No. 1 machinery cast	24 00	25 00
Heavy melting steel	13 50	14 50
Heavy Copper	10 50	11 00
Scrap zinc	3 75	4 25
Light brass	4 00	4 50
R.Rd. wrought iron, No. 1, gr. ton	13 50	14 50
Scrap pipe	8 00	9 00
Heavy lead pipe	4 00	4 50
Old rubbers, boots and shoes	2 00	2 50
Overseas lumbermen's rubber boots	1 50	2 00
Auto tires	0 50	1 00
Solid tires	0 75	1 25
Tea lead	1 75	2 00

Ingot Metals Listless

Toronto.

Ingot metals are reported listless and irregular. Tin is weaker and has declined while other metals are practically unchanged. The price of most non-ferrous metals is regarded as extremely low at the present time and is in some cases below the cost of production and the fact is demonstrated that notwithstanding the professions of political economists low prices do not alone stimulate business.

TIN.—This metal is weaker this week and is showing a decline. There has been a decline of £8 on London markets, due largely to the effects of the coal strike. United States markets are easier but not to the same extent. Prices locally are down 2 cents to 36 cents per pound.

COPPER.—Copper is showing no life. The announcement of further copper mining companies in the United States closing down, with the fact that firms producing 75 per cent. of the United States copper output are now completely closed, had a strengthening influence on copper values. Quotations were advanced and had it not been for the British coal situation, values would have moved up higher, it is believed. Quotations here are unchanged and casting copper is quoted still at 18 cents.

LEAD. — Business here is reported dull in lead. On United States markets advances of about $2.50 per ton were made in prices, but London markets declined about 10s during the week. Prices here remain at $6.

SPELTER.—Prices have been maintained except on London markets, but business has been very dull in spelter, and sales few. Quotations locally are unchanged at $7.25.

ANTIMONY.—This is dull and markets present no new features. Prices are unchanged at 8 to 9 cents.

ALUMINUM. — Consumers are still out of the market, it is reported, but an increase in inquiries is expected as the result of expansion in automotive lines. Prices remain unchanged and 30 cents is quoted here.

London Markets

LONDON, Ont., April 7.—Most prices are remaining firm in hardware lines but some declines are noted and probably the chief feature is the reduction in dry and tarred fibres and sheathings. Steel pipe is showing a lower quotation and the other reductions include sash cord and wrapping twines, clout nails and soldering coppers. Linseed oil and turpentine are again lower in price.

Business is reported as good and continues to show a steady improvement. Seasonable lines are in good demand. Merchants are buying more freely for their immediate needs and sorting orders each week are larger. Collections are reported to be good.

Linseed Oil Down 2 Cents

London, Ont.

Linseed oil has declined two cents per gallon this week. There is a good sale for this product now and the demand should continue to increase in volume. Present quotations are the following:

	Raw.	Boiled.
1 to 2 barrels, per gal.	0 85	0 88
3 to 5 barrels, per gal.	0 84	0 87
6 to 9 barrels, per gal.	0 82	0 85

Less barrels add 15 cents per gal.

Turpentine Declines Again

London, Ont.

A reduction of five cents per gallon has been made this week in the price of turpentine. This is meeting with a good demand now and sales are improving. The new quotations are as follows:

1 barrel lots, per Imperial gallon	$0 90
2 to 4 barrel lots, Imp. gal.	0 89
5 gal. lots, Imp. gal.	1 05

White Lead Sales Improve

London, Ont.

There is a good seasonable demand for white lead in oil at the present time and the sales are increasing in number. Prices show no change and are the following:

	Tons.	Less tons.
Pure, per 100 lbs.	$14 95	$15 30
Elephant, per 100 lbs.	15 45	15 80

Window Glass; Fair Sale

London, Ont.

Window glass is meeting with a fair sale here at present, but the demand is not large. There have been no further changes in price and the discount off list for single and double diamond is still 60 and 10 per cent. off. Off the cut light list the discount is 60 per cent.

No Change in Putty

London, Ont.

Putty is holding unchanged with sales only moderate. The following are the quotations on pure and standard:

Standard, 100 lb. drums, $7.05. per 100 lbs.; 25 lb. drums, $7.30. Pure, 100 lb. drums, $8.55 per 100 lbs.; 25 lbs. drums, $8.80.

Nail Sales Somewhat Improved

London, Ont.

There is an improvement in the demand for nails and sales are showing some increase. Prices are held unchanged and the wire nail base is still $5.10 per keg, and the cut nail base $6.40.

Brisk Sale of Horse Clippers

London, Ont.

There has been a brisk sale of horse clippers during the past month, and the Stewart No. 1 B. B. is quoted at $14, less 25 per cent.; the Handicap at $2.80 net, and the Newmarket at $3.50 net.

Lower Sash Cord Price

London, Ont.

Reductions have been made in the price of sash cord, and the new quotations are about 5 cents per pound lower. No. 6 is now quoted at 52 cents per pound No. 7 at 51 cents, and Nos. 8 to 12 at 50 cents.

Cotton Wrapping Twines Decline

London, Ont.

There has been a decline in the price of cotton wrapping twine and the new price in 3 pound balls is 43 cents per pound for 3 ply and 46 cents for 4 ply.

Building Papers Lower

London, Ont.

A reduction has taken place in the price of building papers, dry and tarred fibres and sheathings, and the new lower prices are the following:

Plain Fibre, No. 1, $1.45 roll; No. 2, 95c. Tarred Fibre, No. 1, $1.55 roll; No. 2, $1.25. Surprise, $1.05 roll.

Soldering Coppers Reduced

London, Ont.

Soldering coppers are reduced in price and the new lower base price is 42 cents per pound. The new net quotations on the various sizes are as follows:

Continued on page 64

Introducing a 'Decorative Service' Department

Novel Plans for Showing Color Schemes to Prospects—Store Equipment Which Shows Paint Stock to Best Advantage—Testing Paint Shipments as They Arrive—Giving the Customers the Information They Want.

A MERCHANT who has adopted several novel plans to encourage paint trade and who has experienced a rapid growth in his paint business has compiled a sort of diary of his experiences setting forth how he planned his department right from the beginning and how he has prepared to overcome all obstacles. He writes as follows:

"Before deciding upon the brand of paint I intended to adopt I went around to a number of paint manufacturers, secured samples of their lines and tested these out on various buildings under various circumstances. After making these tests I picked on the line which I am now carrying on my shelves.

"After I decided on the brand of paint, the next thing was to equip the store to sell it most effectively. Wooden shelves were built along the walls on both sides of the store, and at the back. The shelves were eight tiers high, the top shelf being for the large one gallon can, the second for half gallon can, and so on down to the smallest size at the bottom. This meant, of course, that the depth of these shelves varied according to the size of cans they were to carry. In other words the difference between the top shelf and the second shelf was several times the difference between the two bottom shelves. This is a point which can be kept in mind, as it improves the appearance of the store enormously, and the cans are all uniform around the store.

Wall Colors Shown

"The shelves are devoted entirely to cans of paints, varnish and shellacs. Flat wall colors are displayed on the floor of the store, an easel being used for this purpose about four feet high and two feet wide all the way down. These easels carry large pieces of beaver board. The bottom illustrates the base of any room and is interchangeable, so as to allow any shade of paint or varnish to be shown. The top of the beaver board carries the molding to illustrate same as the base. The beaver board is also arranged so that a piece can be attached at right angles to illustrate the ceiling. This is also interchangeable, so that the customers can see in a minute the various color schemes available in their home.

Decorative Service Dept.

This merchant points to the advantage of operating a decorative service department. The object of this system is to give a customer some idea of colorings that can be used throughout the home. Under this scheme the customer is also provided with approximate costs of same. No charge is made for this service, and there is no obligation on the customer whatever to buy. This merchant has had forms printed about 10 inches long by 6 inches wide. These carry a series of questions dealing with conditions in home, both interior and exterior, and questions as to what is desired. When a customer comes into the store and makes enquiries regarding color schemes, one of these forms is handed to her, and she is allowed to take this home to fill in at her leisure. She then returns these to the store and merchant prepares the color schemes, later dropping her a letter to advise her that these are ready for her inspection. Invariably she then goes into the store, where she is shown models of different homes, with her own color scheme on the house.

Clerk to Test Shipments

What this merchant claims is one of the most important items in a hardware store which stocks paint and varnish is to have a clerk that can test shipments as they come in. The best and easiest test, he says, is the glass test. Start by cutting about a dozen pieces of glass, two inches wide by eight inches long, so as to have all in uniform size. When wanting to make a test, simply pour a little paint or varnish on the glass to cover about half the length of the glass, and stand up to dry. Let it dry for ten hours, and any man with any experience at all in the paint line can soon tell what kind of merchandise he has received. If the paint on the glass is smooth then the shipment is all right, but if it is lumpy and runs, it is probably a poor batch in the manufacturing, he stated. After the test dip your glass in turpentine and the paint will come off, and the glass is ready for the next test.

How Many

of Your Customers Have Delayed Painting Their Cars?

RAMSAY'S AUTO ENAMEL

is "The Right Enamel to Enamel Right"

A suggestion from you to paint their cars with Ramsay's Auto Enamel opens the way for many sales of other lines you carry.

When you sell Ramsay's there is profit for you and a satisfied customer.

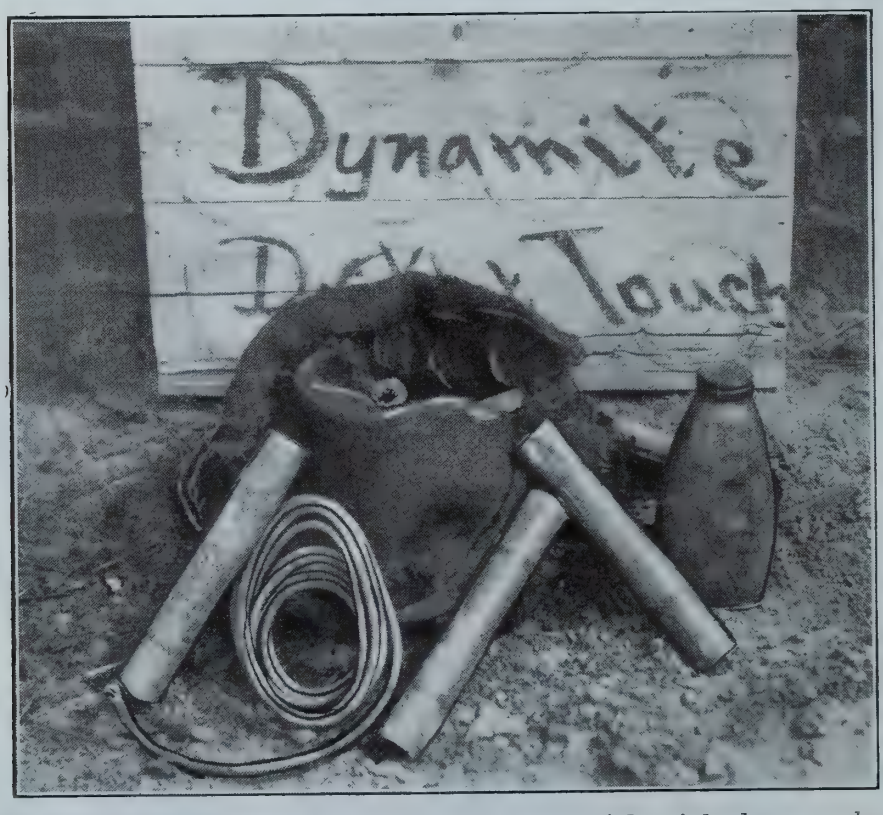
Much Paint Consumed in Repairs



Sales of Paint on Gallonage Basis Equal to or Larger Than Last Year—Large Portion of Paint is for Repairs—Lack of New Building Therefore Not So Serious

MONTREAL.—"Paint manufacturers have nothing to fear for the output of their products from present indications, and week to week shows a decided improvement," said W. S. Fallis, vice-president and managing director Sherwin-Williams Co. of Canada, Ltd., discussing the matter with Hardware and Metal. It was also stated that in the opening months of this year the volume of business, judging by the amount of money involved, was only a few points less than last year. With the decline in prices, this would bring the gallonage equal to, if not exceeding, the year previous.

Mr. Fallis also quoted President Cornish, National Lead Co., in his report to the shareholders, which stated "75 to 85 per cent. of paint is used for repairs, leaving 15 to 25 per cent. for consumption on new buildings."

With building operations not as promising as other years, seemingly this will have no drastic effects on the paint trade. It being also noted that unemployment, caused by little activity in new building, assisted the household consumption of paint and paint sundries.

Explosives For Varnish Factory

A SOMEWHAT unusual incident and one which might have produced very far-reaching results was the discovery of the above articles consisting of ten and a half sticks of dynamite, twenty feet of fuse, a tin of gunpowder and a box of explosive caps, in a car of coal which was being unloaded at the plant of the International Varnish Company, Toronto.

A gang of men had commenced emptying the car by the shovel method, when they discovered this batch of explosives, sufficient to blow up a portion of the city. The police took the explosives in charge. The car had been shipped from Pennsylvania and it is thought the explosives were for use in the mine and had been left in the car by mistake. The car was of the self-dumping style and it is held that if the coal had been emptied by opening the shoots the explosives might have been detonated. It was a narrow escape for the varnish company and for other buildings in the vicinity.

Active Sorting In Paints, Etc.

That paint business is showing good signs of improvement is the statement made to Hardware and Metal by Mr. Higgins, local manager The Glidden Company, Toronto, who pointed out that an active sorting business was being done at present. Retailers were said to be ordering with a little more confidence than formerly, though business is still being placed for only short periods.

Questioned as to the effect of a resumption of building on the demand for paints, varnishes, etc., Mr. Higgins stated that this all depended on the class of building. He drew attention to the fact that a large office building recently constructed in Montreal made such generous use of marble, metal and waxed floors that only a very small portion of paints and varnishes were used. The resumption of activity in house building would, it was stated, help increase the demand for paints and varnishes. Mr. Higgins anticipates that the early spring and summer will help to increase business as the season progresses.

Rosin and Turpentine Imports From United States

Exports of rosin from the United States to Canada during January, 1921, amounted to 2,571 barrels valued at $27,728 and turpentine exports to Canada amounted to 42,245 gallons valued at $37,890.

Montreal's New Hotel

Montreal.—Work on Montreal's new hotel is expected to commence this month, the contract now being awarded. The name of the firm whose tender has been accepted is withheld, pending the conclusion of the necessary legal formalities.

It is understood that Canadian labor and Canadian material will be used in the construction as far as possible and some 2,000 men will in all probability be employed, the majority of these drawn from Montreal and district.

The building cost is estimated at $6,000,000. The building will contain 1,050 rooms, 30 stores and 40 offices. The construction will be steel and fireproof, with a grey stone and grey brick exterior. Provision will also be made for a roof garden and a banqueting hall capable of seating 2,000 for convention purposes.

DEATH OF G. F. STEPHENS

Many tributes to the late G. F. Stephens, president of G. F. Stephens & Co., Ltd., Winnipeg, whose death is announced, appear in the Western news section of this issue.

THE PAINT

OF MERIT

QUALITY

Quality is responsible for the very popular sale of all-Canada Paint Products. The high standard of our formulae for Paints, Varnishes, White Lead, Putty, Dry Colors and Insecticides have for fifty years been strictly maintained and wherever possible improved. Honesty of Quality is the greatest asset the merchant can offer his customers and is the surest guarantee of permanent growth and profits.

The Canada Paint Company's agency proposition rests firmly and securely on the foundation of superior quality, backed up by advertising and sales-promoting support of the strongest and most effective kind. This advertising and sales-promoting is concentrated on the farmer and property owner and is directing the paint business of every community into the store of the Canada Paint Company's agent.

May we send you particulars of our attractive agency proposition?

"ELEPHANT"
White Lead

The widespread popularity of Elephant White Lead and Elephant Pure Putty is due to the high standard of quality which is a distinguishing feature of all Canada Paint Products

If interested tear out this page and place with letters to be answered.

Weekly Paint Markets

Montreal

MONTREAL, April 7.—The paint markets are again featured by a decline in quotations on linseed oil and turpentine, both having a reduction of 5 cents per gallon. The demand for both of these products is reported light for this season of the year. White lead in oil and putty are unchanged in prices and are expected to remain at steady figures throughout the spring demand. Shellac is also maintained at its recent decline. Window glass is still in a wavering condition, with a slight increase in demand. Ready mixed paints and varnishes continue to show an increase in activity, a good volume of business still being done in mail and rush orders.

Linseed Oil Still Lower

Montreal.

Following a slump in the flax market the latter end of the week linseed oil again registers a decline, and is now quoted at 82 cents for raw and 85 for boiled in one barrel lots. A slightly firmer tendency has been shown the beginning of this week over the recent falling off in flax, but the market is by no means steady. Domestic seed is now far below the figures that were thought probable or even possible at this season with no settling effect in sight other than a great increase in demand that is hoped will prevail at an early date. Foreign seed is by no means encouraging, although slight improvements were noted all week. The demand for oil is reported by some crushers here as having a decided increase this week, while others state a very gradual improvement. Following are the present quotations:

1 to 2 barrels	0 82	0 85
5 to 10 barrels	0 80	0 83

Turpentine Has Easier Tendency

Montreal.

There has been a further reduction of 5 cents a gallon on turpentine, bringing the price now down to 90 cents in one barrel lots. Locally very little demand is in evidence, although the season of the year is now well at hand when buying should commence in earnest. The demand in the United States and Savannah markets is the ruling factor in turpentine, and the report for the week from the South indicates that paint and varnish manufacturers seem to be in possession of fair supplies, and jobbers are still purchasing in a purely hand-to-mouth fashion. Present quotations are as follows:

TURPENTINE—	Per Imp. Gal.
1 barrel lots	0 90
2 to 4 barrel lots	0 87
Broken lots	1 00

White Lead Selling Well

Montreal.

A steady market prevails on white lead in oil, and an increased volume of business is the only notable change this week. Sales are quite satisfactory considering paints and other paint products. Present prices will be found on current paint market pages.

Putty Unchanged: Sales Improve

Montreal.

With prices on putty remaining unchanged, sales are reported much improved. The purchases, however, are confined to present day requirements, full season's demand orders not being placed by the merchants. Manufacturers expect a sorting business throughout this season. Following are the unchanged quotations:

Standard Putty—	5 ton	1 ton	ton
Bulk barrels, 800 lbs.	$5 00	$5 25	$5 60
Bulk drums, 100 lbs.	6 00	6 25	6 60
Do., or tins, loose, 25 lbs.	6 25	6 50	6 85
Drums or tins, cased, 25 lbs.	7 00	7 25	7 60
1 lb. tins	9 75	10 00	10 35

Pure Linseed Oil Putty, $1.50 per 100 lbs. advance over above prices.

Little Improvement in Shellac

Montreal.

Orange and white shellac is now selling in better quantities, but buying is still curtailed and only actual requirements of the dealers being forwarded. Shellacs have been on a very unsettled basis all through the early months, and it is believed this is one of the factors for merchants holding back in their purchases. Prices are held at the decline quoted last week and are as follows:

Orange shellac, in barrels, $3.80; in one gal. jugs, $4.10; white, in barrels, or 5 gal. jugs, $4.25; in one gal. jugs, $4.55.

No Settlement in Window Glass

Montreal.

With a continued slight improvement in the demand for window glass, the market is still in a wavering condition. There are practically no new developments in the Belgian market, it remaining dull and unchanged as far as the Canadian importer is concerned. United States firms offer very attractive figures with little response. The sales that are made today, while comparatively few in number, in the majority of cases are at cut prices, and evidently all sources are still anxious to unload. Montreal jobbers still maintain that quotations are unchanged at 50 off Montreal list, while net lists with underselling prices are used in many quarters.

Paints and Varnishes

Montreal.

Mail orders are continuing to come to the hands of paint manufacturers in good numbers, keeping the volume of business well up, signifying that dealers are now reaping the benefit of the mild and open weather, and paint sales are increasing. Orders are remaining comparatively small, but manufacturers are realizing more and more that a fairly good season is ahead of them. Varnishes are still a little backward as far as sales to large corporations and concerns are concerned, but the dealer demand is commencing to show a satisfactory activity. Present prices are maintained on all lines and will in all probability continue so during the spring season.

Toronto

TORONTO, April 7.—Prices remain unchanged on most paint products, but there is a further lowering of shellac prices, and linseed oil and turpentine have declined again. Turpentine, however, is expected to be firmer as the Southern markets have strengthened again. In white lead and putty there is no change, and paint and varnish prices are holding, while the window glass situation is unchanged. Dealers and manufacturers both report an increased demand for paint and allied products and sales while not large are numerous and satisfactory. The early spring weather has been favorable for outside painting and a good deal of work is in progress. Last month's business is generally stated to have shown a distinct improvement over earlier months and an optimistic feeling regarding the future seems evident.

Turpentine Down Five Cents

Toronto.

Despite a stronger Southern market and an advance in prices at Savannah prices on turpentine are 5 cents per gallon lower than last week's quotations. Some wholesale dealers look for an ad-

HILLCREST REGISTERED
A GUARANTEE OF QUALITY

Pearcy's Prepared Paints

One of the oldest and most reliable prepared paints on the market to-day. This well-liked, saleable line of paints has given complete satisfaction for over 40 years. In brushing, covering and spreading qualities it cannot be excelled, nor has it any superior in wearing qualities.

When the "Hillcrest" salesman calls he'll be glad to tell you about this reliable, trustworthy line of pure prepared paints and point out to you the benefit to your business in handling a line that has stood the most convincing test of all—the test of time. Make friends with the "Hillcrest" salesmen; they'll serve you loyally, and they represent a house that stands behind, and co-operates with, the merchant.

We Also Manufacture;

Hillcrest Colors in Oil; Hillcrest Colors in Distemper; Hillcrest Colors in Japan; Hillcrest Porcelain White Enamel; Hillcrest Ebony Black; Spanish Enamel; Hillcrest Bath Enamel; Hillcrest Motor Car Enamel; Hillcrest Paste Filler; Hillcrest Crack Filler; Pearcy's Pure Prepared Paints; Hillcrest Barn Red Paint; Hillcrest Outside Gloss White; Hillcrest Inside Flat White; Hillcrest Aluminum Paint; Hillcrest Carriage Paint; Hillcrest California Gold Paint; Hillcrest Graphite Machine Paint Liquid; Hillcrest Orange Shellac; Hillcrest White Shellac; Hillcrest Oil Stain; Hillcrest Varnish Stain; Hillcrest Shingle Stain; Cottage Shingle Stain; Hillcrest Varnishes—all kinds; Hillcrest Pure Lead; Hillcrest Bronzing Liquid.

Hillcrest Paint Products

Watch for our Semi-Monthly Bulletin next Saturday

If interested tear out this page and place with letters to be answered.

vance in prices here, while others state that with large stocks on hand in the South there is a possibility of even lower quotations than the present. The demand is showing greater strength and may have an effect on prices. Present quotations here are as follows:

TURPENTINE—	Per Imp. Gal.
1 to 2 barrels, per gal.	0 80
3 to 5 barrels, per gal.	0 79
6 to 9 barrels, per gal.	0 77

Linseed Oil at 80 Cents

Toronto.

Another small decline has taken place in the price of linseed oil and single barrels of raw are now quoted at 80 cents per gallon. The future tendency is still uncertain and it is reported that the flax seed market has dropped considerably in the past few days, while the situation in England is unsettled and the market is very weak there. Notwithstanding this crushers regard the present prices as very favorable and it is pointed out that in comparing present prices with pre-war ones there is 12 cents to be taken into consideration on account of extra freight rates, etc., which would give a very low price in comparison. A better demand is reported this week and the following are present quotations:

	Raw.	Boiled.
1 to 2 barrels, per gal.	0 80	0 83
3 to 5 barrels, per gal.	0 79	0 82
6 to 9 barrels, per gal.	0 77	0 80

Less barrels, add 15 cents per gal.

No Change in Putty

Toronto.

There is no change in putty prices. Sales are slightly improved, it is stated, but there is room for improvement. There is no sign of any change and quotations remain as follows:

PUTTY—	Per 100 lbs.
Standard in 100-lb. drums	7 05
Do., 25-lb. irons	7 30
Do., bladders in bbls.	8 30
Do., less quantities	8 55
Pure, in 100-lb. drums	8 55
Do., 25-lb. irons	8 80
Do., bladders in bbls.	9 80

White Lead Moving Better

Toronto.

An increase in the sales of white lead in oil is reported, and there has been a much better movement this past week or so. With outdoor painting shortly in full swing there is likely to be a good demand for this product from now on. Prices are steady and no further changes are expected. Prices are given on current market pages.

Shellacs Still Lower

Toronto.

The prices on shellac continue downwards, and quotations of $3.25 to $3.50 per gallon in bulk for orange shellac are given. On white shellac the bulk prices range from $3.65 to $4. In one-gallon jugs the quotations for orange are $3.80 to $4.25 and for white $4.25 to $4.50. Business continues to show a gradual improvement and sales are more numerous.

No Change in Glass

Toronto.

There is little change this week in the window glass situation. Sales are below the average, it is stated, though a small increase of business is reported. The tendency appears to be for hand to mouth buying still, and stocks are not heavy. With new building construction showing some renewal of activity a better movement in window glass should be observed. Prices remain nominally unchanged and wholesalers selling from old list are still quoting 60 and 10 per cent. for single and double diamond. The cut light list is quoted at 60 per cent. off.

Prepared Paints In Demand

Toronto.

A better demand is being experienced by manufacturers each week and sales although not large are fairly satisfactory. From reports to hand from all sources it looks as if this season will see smaller orders and more frequent ones than has been usual in the past. With smaller stocks mail orders are more in evidence and there is less of a tendency to wait until the traveller comes around before reordering. Business is reported as very fair in varnish stains and floor paints and enamels. Prices continue to hold unchanged on most lines and little change is expected.

Prices on Window Glass

Toronto.

Statements have appeared in some of the Canadian daily papers this week announcing a cut in the price of window glass made by the American Window Glass Co., of Pittsburgh, Pa. These reductions in U. S. glass prices were recorded in last week's issue of Hardware and Metal, but it is pointed out by wholesale glass firms that the declines do not affect Canadian markets. Glass prices here have been reduced from 50 to 55 per cent. since last fall, whereas the U. S. market has held fairly firmly, and prices on Belgian glass are lower than the U. S. market prices.

Improved Outlook For Turpentine

Stiffening of Prices in Primary Markets in Past Week—Season May See Higher Average Than Expected—Light Buying of Rosin Until New Crop Appears

THE new year opens with a somewhat brighter outlook for spirits turpentine, with some improvement in prices during the week, as the result of the needs apparently of one or two dealers, the official quotation advancing to 52½ cents yesterday, a gain during the week of 7½ cents, says "The Naval Stores Review," Savannah, Ga. The buying has not been general enough as yet to make a strong foundation for improved prices to rest on, but as the supplies in dealers' hands are not large, receipts for some weeks to come are light, and consumers are poorly supplied, the general feling is that turpentine is in a more healthful state than it has been and that the season may see a higher average than looked for in the depths of the depressed feeling now slowly subsiding. he stocks in the United States are small, but 29,000 barrels at the three main ports against 97,000 two years ago and 126,000 three years ago. The deliveries from week to week at London continue heavy and the stocks there are being pulled down steadily, so that an import demand is now expected from there much earlier than had been anticipated. The rosin situation, though, remains very unsatisfactory. The French market seems to have become thoroughly demoralized, and the last advices report that French bales have been sold in London on a basis of about $2.85 Savannah, with lower grades below that figure. A Review corespondent, stated that on March 15 French rosins were quoted at $3. This can hardly last long, though, and is regarded as the result of distress rosins being forced on the market. At home the rosin demand still remains small, despite the attractive prices offered to consumers. Advices from different sections indicate consumers prefer to await the new crop movement and its effect on values before buying at all freely. Encouraging signs, though, are to be found in the improvement in building operations recently throughout the country, the lowering of interest rates, the resumption of activities in automobile and other large industries on a scale more closely approaching the normal and the growth of the feeling of confidence that the country has passed through the crisis and is on the up grade, with a prospect of improvement slow but persistent and probably quite marked by the closing of the summer.

TRADE WITH WEST INDIES

Ottawa.—The House of Commons is considering a resolution approving the trade agreement between Canada and the West Indies. Sir George Foster suggested that discussion should be deferred until the bill based on the resolution came up for second reading. This was agreed to, the resolution carried, and a bill based on it was given first reading.

GLIDDEN

Two Sturdy Helpers

Floorette and *Wearette,* the two Glidden helpmates, not only help to keep things spick and span around the home, but they also help the dealer land a goodly portion of this profitable home business.

Floorette is a floor varnish that is made to *last and beautify.* With *Floorette* guarding the floors, your customers can feel sure that their floors will stand extremely hard wear.

Wearette is an equally efficient household helper. Employed on interior surfaces that are subjected to hard wear, this Glidden Household Varnish will be found unusually enduring.

Like all Glidden products, *Floorette and Wearette* find ready acceptance among customers. The well-known Glidden name and green label have already won the confidence of the public and make the selling of Glidden products easy.

Corn Planters Costing More

London, Ont.

The Eureka corn planter is costing more this season and the new higher prices are as follows: Nos. 3 and 4, $18 per dozen.

Rope Sales Slowly Improve

London, Ont.

The sales of rope and cordage are improving slowly and sales are slightly heavier each week. There has been no change in prices, which are the following:

Pure Manila, 24½c lb. base; Beaver Manila, 20c base; New Zealand Hemp, 20c base; Sisal, 18c.

Poultry Netting Selling Well

London, Ont.

The demand for poultry netting continues and the sales are good at present. Selling prices are list plus 10 per cent. for the 1 inch and 2 inch mesh in the Canadian make.

Garden Tools in Demand

London, Ont.

There is a better demand each day for garden tools, and sales show improvement from week to week. Fifty and ten per cent. off list is quoted, and spades and shovels, which are in fair demand, are selling at 35 per cent. off list.

Shoe Finders' List Down

London, Ont.

The new shoe finders' list which is now available shows a decline of about 5 per cent. from previous prices.

Screen Wire Moving Well

London, Ont.

A good movement is being observed in screen wire cloth at present and the black painted wire cloth is quoted at $3.50 per 100 square feet.

Coaster Wagons Selling Well

London, Ont.

An active demand is being felt for coaster wagons just now and stocks are moving rapidly. On the auto wheel line the prices are list less 35 and 10 per cent.

Lawn Mowers Active

London, Ont.

There is a very good movement in lawn mowers at the present time, and the booked orders for these are rapidly being shipped out. Quotations and net selling prices are the following:

Taylor-Forbes Make.—Starr, 10% off list; Woodyatt, 10% off list; Daisy, 15% off list; Empress, 15% off list.

Brockville Makes.—"K" line, 12 in., $10.10 each; 4-blade x 14 in., $10.50; 16 in., $10.91; 18 in., $11.65.

"C" line.—4-blade x 14 in., $11.05 each; 16 in., $11.60; 18 in., $12.05; 20 in., $13.10.

"BB"—4-blade x 14 in., $12.85 each; 16 in., $13.45; 18 in., $14.10; 20 in., $14.45.

Screen Door Hardware Selling

London, Ont.

With the approach of the warmer weather there is a good movement of screen door hardware and the spring hinges are quoted as follows:

No. 20 or No. 200, japanned, $2.50 dozen pair; No. 50, double-acting, japanned, $7; No. 44, loose pin, japanned, $3.

Lawn Hose Being Shipped

London, Ont.

The season for garden requisites is opening up earlier than usual, and shipments of lawn garden hose are beginning to be made and booked, orders in many cases going forward. Orders are being filled at the following quotations:

Corrugated Hose.—½ in., 19c ft.: ⅝ in., 21½c; ¾ in., 25c; 1 in., 40c. Less 5% in 500-ft. reels.

Hose—3 ply x ½ in., 11½c ft.; ⅝ in., 14c; ¾ in., 15½c. 4 ply x ½ in., 13c ft.; ⅝ in., 16c; ¾ in., 17c. 5 ply x ½ in., 15c ft.; ⅝ in., 17c; ¾ in., 19c.

Hose Fittings Quotations

London, Ont.

The season's business is starting on hose fittings and the following are the prices being quoted on these goods:

Hose Fittings.—Galvd. Bands—½ in., 36c doz.; ⅝ in., 48c; ¾ in., 48c; 1 in., 75c; 1¼ in., $1,40; 1½ in., $1.75.

Cast Splicer.—½ in., 70c doz.; ⅝ in., 85c; ¾ in., $1.

Brass Couplings—½ in., $2.65 doz.; ⅝ in., $3; ¾ in., $3; 1 in., $5.75.

Brass Splicers.—Coppers.—½ in., ⅝ in., ¾ in., $1.15 doz.

Winnipeg Markets

WINNIPEG, April 7. — Among the most important price changes this week is a new lower price on black and galvanized pipe. Soft and mild steel in rounds and squares has been reduced to $5.95 base. Some oil quotations are a trifle lower. Auger bits, ice-cream freezers, boat spikes, wheel casings, nail boxes, and axle greases are reduced in price. Shot guns and rifles have been revised in price and are a trifle lower. Business is improving very slowly, but there is an optimistic feeling here that a greater improvement will be felt shortly.

Wrought Iron Pipe Reduced Again

Winnipeg.

Prices on wrought iron pipe have been again reduced. Stocks are in good shape and it is moving much better than has been the case for the past few months. List No. 50 is the new selling basis now and is given here below:

BLACK PIPE.

F.O.B.

Pails—10-lb., list $1.50; 15-lb., list $2; 25-lb., list $2.95.
Half barrels, list $8.20 per 100 lbs.
Barrels, list $7.60 per 100 lbs.
Mica, 10% off.
Tins—48-1, list $7.95; 12-3, list $5.65; 24-3, list $11; 12-5, list $9.15; 6-5, list $4.90.
Pails—10-lb., list $1.80; 15-lb., list $2.50; 25-lb., list $3.65.
Half barrels, list $9.35 per 100 lbs.
Barrels, list $8.75 per 100 lbs.

Ice Cream Freezers Reduced

Winnipeg.

The prices for Blizzard ice cream freezers have again been reduced and are as follows:

2-qt., $4.75 each; 3-qt., $5.75; 4-qt., $6.75; 6-qt., $8.25.

Fibre Wash Tubs Reduced

Winnipeg.

The prices on fibre wash tubs dropped a trifle this week and are given below:

No. 3, $18 doz.; No. 2, $21.10; No. 1, $24.35; No. 0, $29.55.

Oil and Gasoline Prices

Winnipeg.

The following quotations are made on motor oil and gasoline. En-ar-co motor medium and heavy, per gallon, $1.15; extra heavy, $1.25. White Rose gasoline, 43 cents per gallon.

Pittsburgh Markets

PITTSBURGH, April 7.—The iron and steel situation is now clearly defined. Any doubt there may have been as to the nearby future of the trade is resolved, as there has been buying in the past few weeks and the character of the buying is well established. When there was a complete absence of demand there was naturally doubt as to what would be the character of the demand when any developed.

Practically the universal experience of the steel producers is that of doing a carload business. That is true of the Steel Corporation quite largely when it receives releases on orders previously held up, though the Corporation does receive some releases of larger volume, and it is the usual experience of the independents when receiving new orders. It is only occasionally that a good sized order is placed, this being for some piece of construction work. The regular manufacturing consumers, as well as the jobbers, are calling for material in carload lots. In many cases the specifications show that the material called for is required to piece out on stocks already in hand. Some jobbers and manufacturing consumers have gotten to the point where they need to take steel in general, but in most cases it is a matter of rounding out stocks, which have been getting ragged.

There is nothing that can be called a "spring demand" and that is distinctly disappointing. There was no occasion for disappointment in January, when predictions made in December that there would be a revival in demand after the turn of the year failed of verification, for such predictions had not been well founded. January is not a month in which steel demand normally increases. March is such a month. The rate of steel consumption at the beginning of April does not appear to be larger than the rate at the beginning of January, and probably it is less. It is true that some industries are more active, much stress being laid upon this fact in various reports, but on the other hand many industries are less active, and not much is said about that.

Steel Prices

There is no deadlock on steel prices. Buyers give no intimation that there is any price at which they would really take hold. If there were any large demand to be developed by reducing prices the United States Steel Corporation would undoubtedly make the reductions it is certain to make eventually. The majority of the Steel Corporation's customers seem to be well satisfied with the Corporation's policy of holding to the Industrial Board schedule, and they could hold this view for no other reason than from having stocks of raw or manufactured material they wish to liquidate on the best terms possible. Of course those who are in the market to make fresh purchases secure the lowest quotations obtainable, but their buying is of small volume. While the total quantity of material now being specified is small, the probability is that the bulk of it is in the form of specifications against old contracts or releases for shipment against orders previously held up. In the case of the Steel Corporation this business is, of course, at the regular Corporation or Industrial Board prices, while in the case of the independents there are probably adjustments to the existing independent market as commonly quoted.

Bars remain quotable at 2c for carload lots with desirable specifications, shapes and plates being correspondingly 2.10c. These prices were possible a month ago, but concessions obtainable on large lots are probably smaller now than then. Seeing that it is two months since the independent market broke, and there has been no actual decline in these three important commodities for a month, it is plain that the break is over. The independent market is more or less stabilized, and the next important development will probably be the Steel Corporation's reduction, which may occur very soon or not for several months. While it is always somewhat dangerous to prophesy, there is reason for making this prediction. With their very light operation the independents have high costs, much higher than they would have with the same wage rates and raw material costs. They could reduce their production costs by having a larger operation, and that would be an incentive to cut prices further, but if much more business were to be obtained by making prices the Steel Corporation would be influenced by the condition as well, and would reduce its prices. Hence it seems reasonable to conclude that the independents are unlikely to reduce their prices much if at all until the time comes for the Steel Corporation to make its reduction. The common view is that when the Corporation acts on prices it will endeavor to make one reduction that will cover the whole ground.

The sheet market is lower by about $2 a ton on black and $4 on galvanized, at 3.75c for black and 4.80c for galvanized. These prices can be done on carload lots if the specifications are attractive. On large lots the concessions from the carload price are less than when the carload market was higher, and it is not altogether certain that any concessions could be secured, except on the heavy gauges of galvanized, the difference in production cost between heavy gauge and 28 gauge being greater than the gauge differentials in the standard list.

A Nice, Clean Profit
and Satisfied Customers

MANY energetic hardware dealers make a nice, clean profit every year selling the well-known

C·C·M· Bicycles

You can do the same. These bicycles are heavily advertised. They are the choice of the vast majority of Canadian riders. Cyclists know they can bank on C. C. M. quality.

You can sell C.C.M. bicycles with enthusiasm because you know they will give satisfaction. And every one you sell means a nice, clean profit for you.

If you are not a C. C. M. dealer, write us by next mail for an agency for one of these C. C. M. Bicycles.

C. & L. No. 206 Double Blunt Needle Torch

The Best Two Quart Torch made

This Torch is designed for extra heavy work in any kind of weather. Can be used with Gasoline or Kerosene. It is fitted with our new Patented Burner which produces tremendous heat and is made of generator metal. It has two needles. The lower is a shut-off needle and the upper a cleaner needle. **It is impossible to enlarge the orifice,** saving a large percentage of burner troubles. Sold everywhere under the maker's guarantee. Write for catalog. Jobbers supply at factory price.

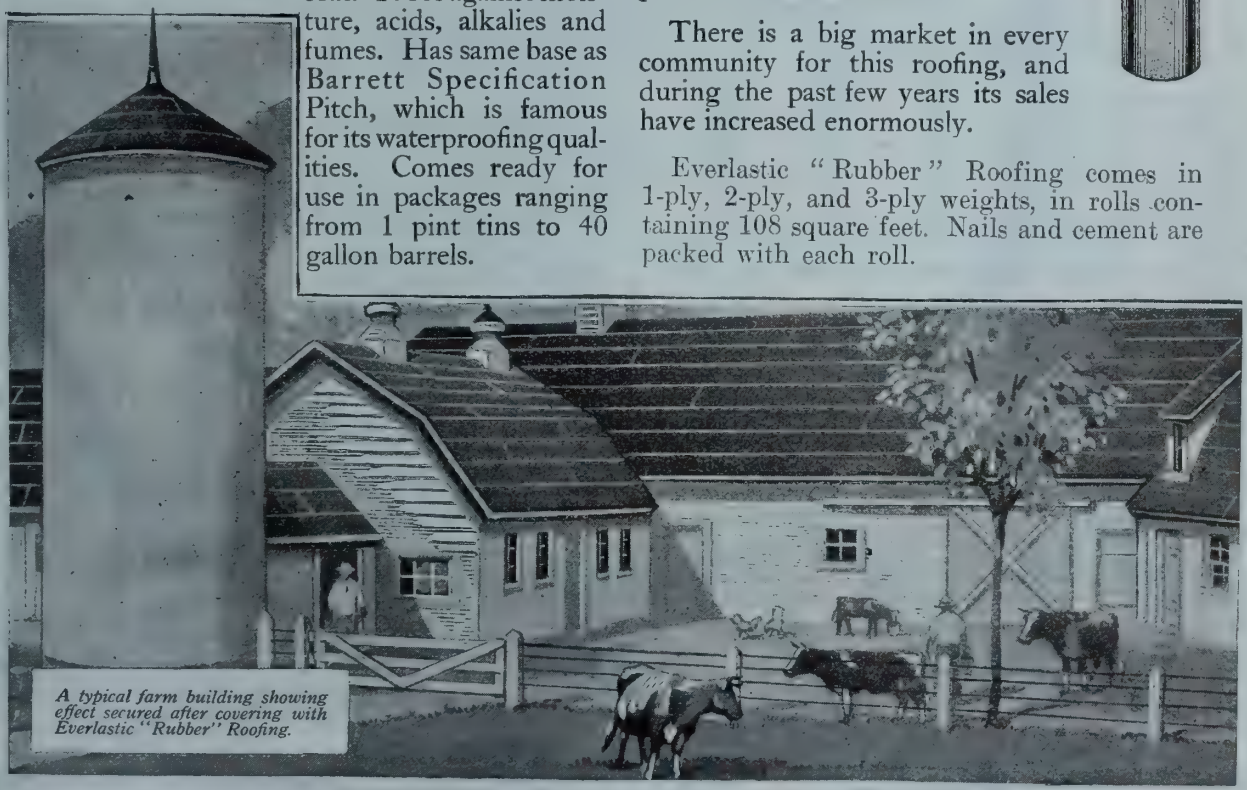
Barrett Roofings, Cements Industrial Paints etc.

THE name "Barrett" on any product is the identifying mark of a quality article. Barrett products are fast sellers because they insure customer satisfaction. The products described below are the result of long years of manufacturing experience and each of them is the best product on the market for its particular use.

Our advertising in the leading publications and newspapers is telling your trade that the Barrett trademark is always a sure pledge of dependability.

Everlastic Liquid Roofing Cement

Unequalled for resurfacing worn-out prepared and "rubber" roofs. Has the consistency of thick molasses; is easy to apply and dries quickly into a hard, elastic, wonderfully durable coat. Proof against moisture, acids, alkalies and fumes. Has same base as Barrett Specification Pitch, which is famous for its waterproofing qualities. Comes ready for use in packages ranging from 1 pint tins to 40 gallon barrels.



Everlastic "Rubber" Roofing

This is a popular priced roll roofing of unusually high quality. It is made of the best grade of waterproofing materials and will give your customers the same sure satisfaction it is giving thousands of users in all parts of the Dominion.

There is a big market in every community for this roofing, and during the past few years its sales have increased enormously.

Everlastic "Rubber" Roofing comes in 1-ply, 2-ply, and 3-ply weights, in rolls containing 108 square feet. Nails and cement are packed with each roll.

A typical farm building showing effect secured after covering with Everlastic "Rubber" Roofing.

TINKER TOM'S TALKS.

No. 306

Isn't it queer how people act when prices are tumbling? Last year, with 28-gauge Galvanized Sheets selling at 12 cents everybody was ready to get some—now, with the price below 8 cents the dealer lets his stock run entirely out. Maybe I'm wrong, but I believe in keeping enough stock on hand to enable me to transact business. There's no money in "passing up orders."

Ask your jobber for to-day's price on "PREMIER" GALVANIZED IN CANADA SHEETS—You'll be surprised.

TINKER TOM.

If interested tear out this page and place with letters to be answered.

HOBBS Manufacturing Company, Limited

MONTREAL TORONTO LONDON WINNIPEG

Black Diamond for Cutting

When you buy a file, you buy cutting service. For extra cutting value, buy Black Diamonds. Made since 1863 to a standard of file quality that has won highest honors at expositions and at the bench.

Two simple steps will lead to better filing except where Black Diamonds are already used. Our catalog is free for the asking. A shop trial costs nothing and will show convincing results.

Established 1863

SILKSTONE

(REGISTERED TRADE MARK)

FLAT WALL COLOURS

Beautify Walls Economically

Silkstone beautifies walls at less cost than wall paper. It can be washed easily without rubbing off. Its soft, silky finish gives an artistic effect much appreciated by home lovers. The economical side of Silkstone, its beauty, its durability and gratifying service are all factors in the splendid sales it enjoys. It sells profitably with mutual satisfaction to merchant and customer.

The satisfaction it gives is a delight to the conscientious merchant who tries to serve his customers well and build permanent trade. Silkstone fills the bill for the Canadian housewife. She has tried it and liked it, and uses it whenever walls need beautifying, without regard to season. Silkstone is a year-round seller. Let us show you what's in it for you—write.

Dazey Churns

Clean, Sanitary, Time-Saving

The Dazey Churn is the only one that produces butter in its natural condition. In place of breaking the tissues in which the butterfat or oil is contained and bringing this into a mass, the Dazey dasher drives the cream across the slanting wings and rolls up the globules in their natural condition into grains about the size of rice. During this building-up process, the caseine and other butter-making properties in cream, usually lost with other churns, stick to and roll up with the butter globules, which is the reason the Dazey makes more butter.

With the Dazey it is possible to churn in 2 to 5 minutes.

Sanitary—Because there is nothing to absorb the cream and become rancid as with wooden churns.

No. 25

"Champion" Cream Separators

A High Quality Machine That Gives Service

The "Champion" Patented Centrifugal Cream Separator represents just what it implies, simplicity, perfection in action, with mechanical construction of the highest. The materials and every portion connected with it are the very best that experience, mechanical skill, and money can apply. The "Champion" Separator in its inventions, design and entire construction, is the product of the trained mind of a mechanical engineer, with over one-quarter of a century practical experience in inventing, designing, and manufacturing cream separators. The "Champion" Cream Separator has many other improvements that are well worth dwelling upon.

To get business you must go after it.
Others do it through this paper
—why not YOU?

O-Rib-O
Volcano Chimney Top

The Deflector — the lower slanting part shown — receives wind through the sloped opening, directing it over the chimney on the "blow-pipe" principle, creating and maintaining a continuous draft.

Cures the worst chimneys, and closes sales with a bang. Homes, stores, churches, factories are all your prospects.

Order to-day.

Let Miss Simplicity Do It

Our motto is "Efficient Service." We give a liberal guarantee, prompt shipment of orders and supply you with free advertising matter to assist you in making sales.

YOU want a real leader—one that will sell quickly and easily and bring quick turnover, good profits. You want to increase business, to make new and profitable customers—

Then *let Miss Simplicity do it.*

There is a proved market everywhere for an electric clothes washer like Miss Simplicity. It is priced quite low and yet embodies all the right qualities. It is just what the average housewife will buy because she can afford it.

You can take pride and pleasure in saying to your customers, *"Let Miss Simplicity do it."*

Miss Simplicity makes easy sales because of its handsome appearance and moderate price and then makes other sales because of its perfect operation and sure customer satisfaction. Everything about Miss Simplicity will commend itself heartily to you. Made of the very best materials, assembled with every care, thoroughly inspected and tested and with our absolute guarantee behind it.

What more could you want? Write to-day for some further particulars and our dealer offer.

Thor 75 Automatic Electric Ironer

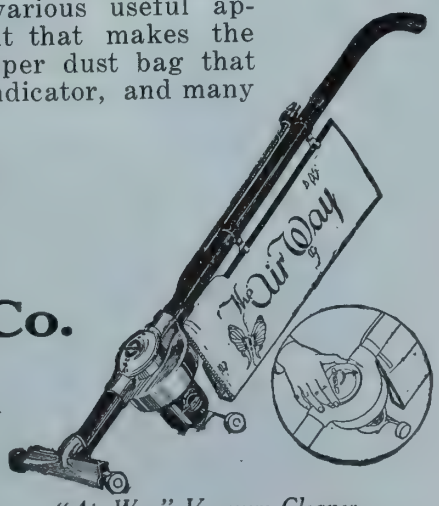
THE 100% IRONER

Here is a new home Ironer which is so far advanced that all comparison is removed. It has the features for which dealers have been wishing to boost their Ironer business. This Ironer is rapidly becoming as popular with the housewife as the Thor Washer.

Here are the features which offer material for the most convincing sales talk ever given on a home appliance:

Automatic control
No hand or foot levers
Two-speed roll
Self-aligning shoe
Large swivel casters
Collar and cuff attachment
Four-position shoe
Direct drive—no belts
Light weight
Easy to install

HURLEY MACHINE COMPANY, LIMITED
TORONTO



The Air-Way Electric Cleaner

The National Electric Heating Company takes pride and pleasure in offering the celebrated Air-Way Electric Cleaner to the trade of Canada.

The Air-Way is good for your business, because it is crammed full of exceptionally convincing selling points: The hollow suction handle makes it light enough to be easily picked up and applied to hangings, mouldings, high ledges, etc.; no stooping is necessary to attach the various useful appliances supplied with the Air-Way; the universal joint that makes the handle as flexible as the human wrist; the sanitary paper dust bag that can be burned or thrown away; the transparent dust indicator, and many other features close sales for you.

We offer booklets, pamphlets, electros and other helps to dealers. The National Electric Heating Company, Limited, is prepared to support the merchant who handles the desirable Air-Way Electric Cleaner with the same close co-operation that has always been our constant aim in the past.

Ask for literature that will make clear to you the exceptionally interesting points of superiority in this excellent machine.

Can You Supply the Tool He's Looking For?

Nine depth gages are included in the Starrett line. Two of these—one of which this machinist is looking for—are designed primarily for measuring to close limits the depth of grooves, holes, or irregular parts. Three others are invaluable where accurate measurements are necessary on work such as gaging the depth of holes and recesses in jigs, dies, fixture work, etc. The other four gages are popularly used on work which calls for less accuracy.

Can you supply this man with the tool he should have? Check up your stock with the new Starrett Catalog No. 22-"M A"

TRADE MARK

Roofing and Building Papers That Continually Boost Your Store

Building Papers, Tarred Felt, Sheathings and Tar Products, and Wrapping Paper of all kinds that give service in use, reflecting credit on the dealer and inspiring confidence in all the lines he sells—that's the McArthur line.

Drop us a line for an interesting little booklet on Roofing Materials. It will tell you of each one of our lines—reasons why they sell, and serve the consumer so that you hold his future trade.

We cannot tell of all the lines here, but, for instance, "Black Diamond" Tarred Felt is pure wool tarred roofing felt, from selected woollen rags saturated with pure coal tar, producing the most durable roofing felt possible to make.

WIRE HOOPS FOR KEGS *and* BARRELS

STRAIGHTENED RODS
COPPERED AND TINNED WIRE

The quality of our product is highly commended.

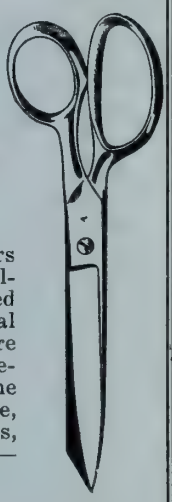
THE GRAHAM NAIL WORKS
Operated by the CANADA METAL CO., Ltd.
TORONTO

"GALVANOID" 14 MESH SCREEN WIRE CLOTH

Will out-wear ordinary black wire by many seasons.

It is an improved galvanized wire—galvanized after it is woven, then a coat of transparent enamel is baked on.

It has a beautiful gray finish, will not glisten in the sun and acts like a lace curtain—you can see out but cannot see in.



"Galvanoid" costs no more than "galvanized" and very little more than "black."

We carry a stock in all standard widths, 18″ to 48″—Write for sample and price.

KASEMENT SKRENE DORE CO.
269 West Richmond St., Toronto

"ACME" Leads 'em All

Famous Since 1874

"Acme" cast Shears, Scissors and Tinners' Snips excel in quality and finish for low priced cutlery. The special material and strengthening elements are controlled from the raw material to the finished product. The blades are tough and durable, and have the Acme famous, keen and sharp cutting edges—famous the world over.

"ACME" Shears and Scissors are profitable to import: discriminating importers do not hesitate to carry adequate stocks. Our exceptional manufacturing facilities enable us to satisfactorily fill orders and to quote interesting prices.

A COPY of our No. 6 Illustrated Catalogue—"The Scissors Encyclopaedia"—will be sent on request. All prices F.O.B. Bridgeport, Conn.

Arrowhead Saws

Vanadium Steel

How you sell saws depends partly on your salesmanship. You can sell a poor saw but once; to sell saws successfully and build yourself a permanent business you must sell good saws. To give good saws distinction and individuality they must have the desirable selling points of superior saws.

Arrowhead saws have those points; the hang, set, temper and finish are right, and they sell right. Arrowhead saws attract, sell and satisfy your customers. Their satisfactory performance in service creates confidence in your store, and in your other lines of goods.

T. F. Shurly Company, Limited
St. Catharines
Ontario

We make many kinds of saws that will better business for your establishment; Cross-cut, Hand, Buck and Circular Saws.

Ask for the Shurly Catalog.

An Axe is as Strong as its Handle

STILL'S

—will give you a stronger working tool, for **STILL'S HANDLES** are made from the best of Canadian Woods.

The sale of

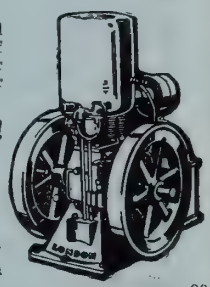
STILL'S HANDLES

far exceeds all other makes.

There's a reason.

Axe, Pick, Sledge and Hammer Handles, Cant Hook and Peavie Handles.

It pays to sell **STILL'S.**



J. H. Still Mfg. Company
ST. THOMAS -:- ONTARIO

"Perfect" is a Bold Word

But, nevertheless, we use it in describing the

LONDON ENGINE

Perfect in design, workmanship, material and efficiency — perfect with the same degree of accuracy as the shells turned out by our mechanics, expert mechanics, during the war years.

Reliable Dealers Everywhere!

The "London" is a fully guaranteed engine that will bring prestige with its sale.

MAPLE LEAF SAWS

No. 54 Lance Tooth Pruning Saw

Buy All CANADIAN MADE Goods

Just the Saw for Spring Trade! Fine teeth near the point, and the fast, clean-cutting lance tooth on the rest of the blade make it suitable for the smallest twig or the largest branch. Made of Jessop's best steel. Reinforced handle. Large, easy grip.

See our catalogue for other styles of Pruning Saws.

SHURLY-DIETRICH CO., LIMITED, GALT, CANADA

THE PROGRESSIVE MANUFACTURING CO.
Torrington, Conn., U.S.A.

FORSTNER BITS

bore their way right through tough, hard, knotty, cross-grained wood and leave a smooth hole and clean surface. That's performance. THEY DIFFER FROM ALL OTHER BITS, BEING GUIDED BY THE RIM INSTEAD OF THE CENTRE. That's scientific construction. They bore any arc of a circle and can be guided in any direction. That's adaptability. Made for Brace-made Machines. Packed singly; packed in sets That's convenience. And they sell to Wood Workers, Carpenters, Cabinet Makers and others. That's why you should sell them. Order through your jobber to-day.

HOYT METALS

PROOF!

Hoyt Metals are used by every shop and factory that prides itself on maximum production. That the sales of Hoyt Metals amount to $10,000,000 annually is convincing proof of the satisfaction in using or selling these efficient metals. Always cool running. Anti-friction quality and unequalled endurance are superior features of these popular metals.

THE STANLEY WORKS NEW BRITAIN, CONN., *Branch Offices* *New York - San Francisco Chicago - Los Angeles - Seattle*

The Old Way

—and the New

-turning inches into ounces

-turning pounds into dozens

Both are every-day, necessary practices in the Hardware Trade.

You may buy rope or wire, for instance, by the pound; you may prefer to sell it by the foot. Again, take the case of bolts, nuts, screws, or other small articles. You are selling them by the dozen. To count them by hand is laborious, time-losing business; to weigh them is quick and easy. Your problem, then, is to transform your pounds into dozens.

THE INTERNATIONAL DAYTON HARDWARE SCALE

performs both the tasks above mentioned with marvelous speed and accuracy.

THE WIRE RACK—gives you the extra platform accommodation necessary to weigh coils of rope, wire, rubber hose, etc., with ease, and to check up against profit leaks in the process.

THE COUNTING SCOOP — Another exclusive feature, enables you to compute in a moment the number of small articles in any given bulk. It is invaluable at **stock-taking time.**

From Tip To Tip It's Built To Give Service and Speed

The day of thumb-weighing and guesswork in the Hardware Trade has passed. The up-to-date way is the Dayton way. It protects profits and assures the square deal, which means satisfied customers.

International Business Machines Co., Limited

For your convenience we have Service and Sales Offices in Vancouver, Winnipeg, Walkerville, London, Hamilton, Toronto, Ottawa, Montreal, Quebec, Halifax, St. John's, Nfld.

Also manufacturers of International Dayton Scales and International Electric Tabulators and Sorters

House-cleaning Time is Here! What Does That Mean to You?

IT should mean a chance to make extra sales in lines that are particularly "saleable" at this Season.

The season when the sales of O-Cedar Polish reach their Peak—therefore, the time of the year for O-Cedar Window Displays.

The merchant who makes use of O-Cedar Advertising Material in his Windows and around his store, gets the benefit of the extra demand that comes at House-cleaning time for both O-Cedar Polish and the O-Cedar Polish Mop

'RICE LEWIS' NEWS

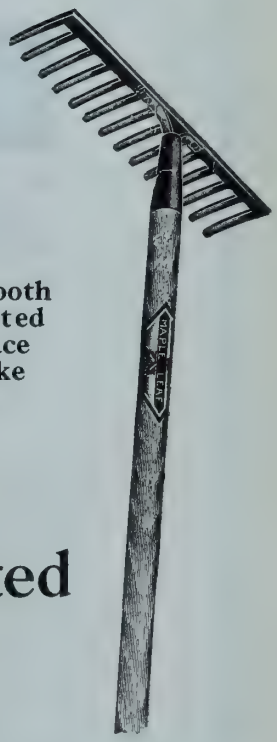
Lady Hoe, Solid Shank

Ask the Rice Lewis man about Schoener Handy Hoes and Garden Hand Plows —they're Efficient Cultivators

—now for the backyard farmer

5 Prong Invincible Garden Cultivator

These fine warm days are finding the home-man taking a general survey around his backyard farm. Visions of new life are here and there becoming evident—a tiny sprout poking its head through the earth—a bud breaking from its hiding-place in the dead-looking branches.



Regular "Pull Easy" Cultivator showing different adjustments

Now is the time to turn the enthusiasm of the backyard farmer into sales of garden tools. Your stock of hoes, rakes, spades, cultivators, etc., should be given prominent display.

If your stock needs replenishing we will be pleased to have you call on our service. Our stocks are complete and prices are right.

Ask the "Rice Lewis" man, or write direct.

$150 Saved

on the Hanging of Every

The Old Way

The Lawson Way

Lawson Nu Jamb Spring Hinge

LAWSON Nu Jamb Spring Hinges are applied directly to door jambs *without hanging strips*. No strips to buy, finish or mortise. The saving on each hanging is at least $1.50. Dealers everywhere prefer them. A Western dealer recently said:

"Since I've been showing LAWSON'S hinges, customers won't buy others. The hinge that requires no strips outsells all the others put together."

Stock LAWSON hinges, compare sales with ordinary hinges, note how easily they sell once you explain the direct-application feature, and you too will prefer to handle LAWSON'S hereafter.

Write today for illustrated catalog describing in detail this and other styles of Lawson Spring Hinges, for residence, office and factory doors, gates, etc.

An Old, Reliable Salesmaker

"Canada"

Flexible Steel Door Hanger

Cannot Jump the Track

The "Canada" runs smoothly and easily on anti-friction, steel roller bearings, using the same track as our famous "National" Hanger.

Commercial conditions invite liberal stocking of Builders' Hardware for a record-breaking building season—Canada is short more than 40,000 homes. She has more autos than any other country excepting one. Autos in Canada continue to increase in number. Between the increasing number of cars and their necessary housing and the inevitable building activity to restore the balance of supply and demand in buildings, the Canadian merchant can profit by "preparedness" on builders' and garage hardware. Order now.

The Braced Rail, shown above at the left, is 1¼ x 3/16 inches and is furnished in lengths of 4, 6, 8 and 10 feet; 8 lengths to the bundle.

The "Canada" comes neatly and conveniently packed, one pair in a box complete with bolts. Be sure to include "Canada" in your order.

Imperial Floor Dressing comes in one and four-gallon lithographed sealed cans and in half-barrels and barrels. Ask the Imperial Oil salesman for prices and a demonstration.

Draws Trade--Holds Trade

IMPERIAL
FLOOR DRESSING

A spotless store advertises itself. It draws steady trade from old customers and creates new customers. Freedom from dust is the first essential of a spotless store—Imperial Floor Dressing will do the job quickly and effectively.

Why? Because Imperial Floor Dressing holds dust to the floor. It cleans and preserves floors and prevents warping and checking. It fills in the pores and cracks of wood, and regular sweeping with a stiff broom removes **all** the accumulated dust and dirt.

Imperial Floor Dressing does not gum or evaporate. One gallon is sufficient for treating upward of 700 square feet. One application will last for several weeks.

It is the most sanitary and economical dressing you can buy for your floors. It is also a fast-selling, profitable line to handle.

The Imperial Oil salesman will gladly demonstrate the superior quality of Imperial Floor Dressing the next time he calls on you.

Get Closer to that Customer—The Large Building Contractor

EVER think of the vast amount of *threading* to be done by contractors erecting large buildings, warehouses, etc.

Their cranes, hoisting engines, air drills, etc., must be kept in first class working order, requiring numerous screw-thread repairs. They must thread and fit an amazing amount of pipe for water, steam, drainage, etc.

Look up this profitable trade. Where building is planned or already going on, the following GTD sets can be sold to the contractors if properly explained by you.

A No. 7 *Little Giant* Screw Plate, cutting nine sizes, for threading repairs to mixers, cranes, steam shovels, air drills, etc.—any bolted construction.

Nos. 261A & 262B *Little Giant* Pipe Stock and Die sets, cutting ¼ to two inches, for water, air, gas and steam pipes.

A No. 244 Spiral Fluted burring reamer with bit-brace shank for enlarging holes and removing burrs.

Along the above lines a profitable business with structural contractors can be developed—if you emphasize the "Set" idea and give a real prominence to the completeness of the entire line of GTD threading tools.

A further suggestion: We will aid you in cultivating the above type of business if you will send us a few names of contractors engaged in building work near you. Send us the names and we will write them fully as to their need for GTD tools—thus building trade for you.

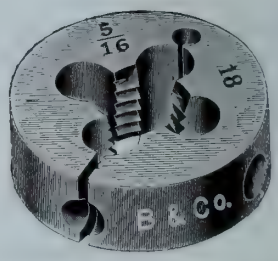
BUTTERFIELD

Machinists cannot afford to use the wrong tool. The wrong tool does a bad job and the casting has to be "scrapped" at heavy loss.



Hardwaremen, both wholesale and retail, also need the right tools to build up their tool departments into highly profitable investments. Butterfield Tools are the right tools to build hardware business; for about half a century they have been proving it throughout the Canadian hardware trade. If you have never stocked Butterfield Tools it will pay you to investigate and learn how well they sell and how much you profit.

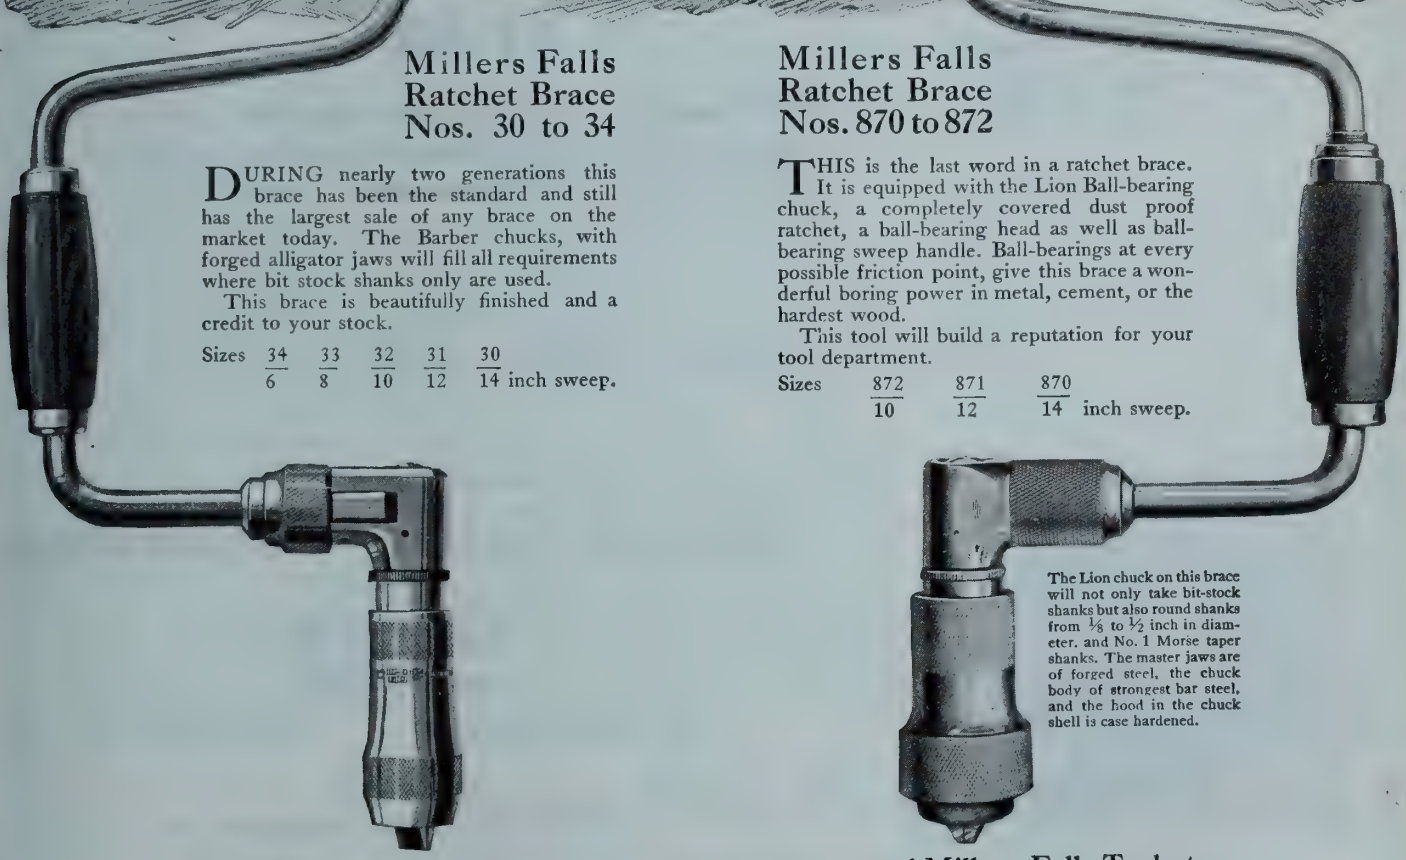
Millers Falls Tools

Carpenters Will Need These Bit Braces For Spring Building Work

Millers Falls Ratchet Brace Nos. 30 to 34

DURING nearly two generations this brace has been the standard and still has the largest sale of any brace on the market today. The Barber chucks, with forged alligator jaws will fill all requirements where bit stock shanks only are used.

This brace is beautifully finished and a credit to your stock.



Sizes 34 33 32 31 30
6 8 10 12 14 inch sweep.

Millers Falls Ratchet Brace Nos. 870 to 872

THIS is the last word in a ratchet brace. It is equipped with the Lion Ball-bearing chuck, a completely covered dust proof ratchet, a ball-bearing head as well as ball-bearing sweep handle. Ball-bearings at every possible friction point, give this brace a wonderful boring power in metal, cement, or the hardest wood.

This tool will build a reputation for your tool department.

Sizes 872 871 870
10 12 14 inch sweep.

The Lion chuck on this brace will not only take bit-stock shanks but also round shanks from ⅛ to ½ inch in diameter. and No. 1 Morse taper shanks. The master jaws are of forged steel, the chuck body of strongest bar steel, and the hood in the chuck shell is case hardened.

YOUR stock should contain a complete assortment of Millers Falls Tools to insure your getting your share of the demand that will come with spring and summer building. Ask us for suggestions on what you should carry.

Introducing the Triumph Churn

WE wish to introduce to the trade our latest production—the Triumph Churn, for which we prophesy a wide popularity and long, successful career. It is a new departure in churns, and hits a remarkably low price level.

We worked for months on its production. In planning, building and perfecting it we secured the expert advice and assistance of the leading butter-makers of Canada. It is now ready for extensive marketing, and can be sold with every confidence.

Its capacity is approximately five gallons of cream. It is built of xxxx Tin of the same quality and finish as the stock used in our xxxx Straight Dairy Pails. The body is 12¼″ diameter and stands 13″ high.

The bottoms are of the same quality tin as the body, and are drawn with a rim 1″ deep. They are double seamed to the body, the same as the bottoms of our xxxx Dairy Pails. All seams are filled flush with solder.

The side handles are made tubular like milk-can handles, and the covers are rimmed and dome shaped. They have a ventilation hole and stationary handle.

The Triumph Churn is provided with a faucet for drawing off buttermilk and for ease in washing the butter. The dasher is built of two half-circle sections of selected seasoned hardwood, each part being perforated with the correct number of holes for doing the best work.

These two sections interlock at right angles in such a manner as to churn the cream back and forth from top to bottom and side to side in a fashion which is particularly effective for producing fine butter. These dashers are turned by a small crank handle.

The only parts which require washing are the body, cover and dashers, and they are easily separated. It can be cleaned much more quickly and easily than any other churn.

It is a decidedly effective churn, particularly for the farmer with only a few milking cows, and it sells to the consumer at a price to not only appeal to him but to net the retailer a satisfactory profit.

Get full information from your jobber, or write us direct.

It Pays to Sell Horse Insurance

The loss of the services of one horse, for one day, may cost your customer more than to outfit every horse in his stable with Tapatco Brand Horse Collar Pads. When you sell a man this serviceable, efficient Collar Pad and make chaffed, galled or bruised shoulders an unknown quantity among his teams, he bears good-will toward you and your store, and feels confidence in other goods sold there.

The snug-fitting comfort of Tapatco Pads is due to their cushion of soft, pliable padding. This cushion protects the horse's shoulders from every form of collar pressure. The famous Tapatco stapling device (Patented in U.S., Dec. 1, 1914; Patented in Canada, April 6, 1915), for attaching hooks, gives a firm hold that outlasts even the splendid wearing qualities of the fabric itself.

VAN DER LINDE RUBBER COMPANY

STEWART

No. 9 Ball Bearing Shearing Machine

Made in Canada
For Canadian Trade

Retail Price:
Eastern Canada
$22.00.
Western Canada
$23.00.

Gets All the Wool For Your Customers

The wool left unclipped by hand blade shearing is a dead loss. It equals the entire fleece from one sheep in seven. Farmers want machines that save them money. That's the record of the Stewart No. 9 Shearing Machine: Gets all the wool in one unbroken blanket; no ridges or second cuts; fibre is longer and better, bringing highest prices. Even on small flocks the machine quickly pays for itself.

Hand blade shearing causes swollen wrists and hands and aching backs. Machine shearing is easy, fast, and the work is pleasant.

All these selling points will help you convince customers and close sales.

Another excellent source of sales and profits is the Stewart No. 1 Clipping Machine for horses, cows and mules. Clipped horses are better horses. They dry quickly, rest better, do more work. The loss of the services of one horse, for one day, may cost more than a Stewart Clipping Machine. Clipping is good horse insurance.

Good displays and the judicious use of these convincing selling points will make many profitable sales for you. Your jobber has Stewart Machines—order now.

What Would You Think of a Manufacturer—

—who wrote to you with a lead pencil—"We are saving much money because we do not use typewriters and telephones"? You might well wonder whether his merchandise was as much out of date as his business methods.

You know that modern time and labor saving appliances are not added expenses, but that they have superseded slower and more costly processes.

The concern which uses your business paper to tell you its business story is simply using a modern piece of selling machinery to make it easier for you to buy intelligently with the least waste of your time and theirs.

For the right kind of advertising shortens the distance between human minds just as certainly as the railroad shortens the distance between places. It is still possible to walk from New York to Chicago, and it is still possible for a business to get along without advertising, BUT—

—bear in mind that the seller who does not advertise does NOT save the cost of advertising, for it costs more to do the work of advertising by other means. Consistent advertisers are progressive merchandisers, and it pays to do business with them.

You are invited to consult us freely about Business Papers or Business Paper Advertising.

No.	Length	Width	Height
170	18¼ in.	11¼ in.	8¼ in.

Self-basting, heavy, seamless roaster. Air chamber in bottom of base prevents burning. Riveted handles. Cover fits pan snugly, retaining all the juices and prevents shrinkage of the meat. Easy to clean. Holds large-sized turkey. Indented cover for automatic basting. Polished finish.

DOUBLE BOILER

Made in 3 sizes, 1½, 2 and 3 quart. Both container and inset have heavy rolled edge. Inset can be used as a regular Sauce Pan on account of improved pattern and the container as a convex Sauce Pan. Cover made exceptionally heavy and fits either pan. Polished finish. Ex-Ray inside finish.

No. 315 "Duchess" Tea Pot—four-pint. Spout is welded to pot. Attractive ebonized handle.

Double-lipped Sauce Pan with socket handle and ebonized wood. A most popular line. Made in three sizes: 1, 2 and 3-quart.

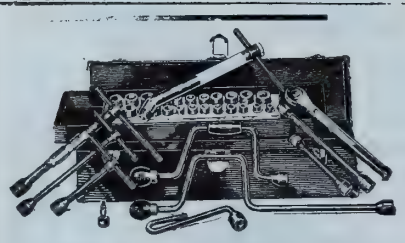
BILLMONT

The Junior Wrench

Cut from a solid bar of steel—with a T bar handle that slides past obstructions and permits a full turn on the nut or bolt. And there's a real grip to be had on that nickeled centre piece that does not revolve with the wrench.

The nose piece or socket opening takes 24 sizes in Billmont sockets—they snap in and hold firm—thereby really making a wrench that will operate with a will on 24 different sized nut or bolt jobs.



The new Billmont merchandising plan opens to at least one dealer in every locality the way to serve every garageman, repairman and car owner with super socket wrenches and sockets at a generous profit and with an ever-widening circle of trade expansion.

Billmont Master Dealers are backed up by a systematic, organized support that is simply irresistible as a business builder and which makes itself felt wherever wrenches are used.

We want good dealers—live, progressive men—who will match a line of marvellous efficiency with the "go-getter" spirit that puts real merit across.

Write for our proposition and let us show you a plan of co-operation that puts the punch into every merchandising factor from manufacturer to user.

Restrict Sales Tax to Source of Supply

After Much Consideration Dominion Board R.M.A. at Ottawa Has Decided to Recommend Course of Action—Retailers Must Not be Guided by Suggestions of Other Organizations—Ask For Definitions of "Manufacturer" and "Importer"

From Special Ottawa Correspondent Hardware and Metal

IN the following carefully prepared statement, which is for the consideration of retail merchants throughout Canada, and a copy of which has been forwarded to the Minister of Finance, the Dominion Board Retail Merchants' Association of Canada points out some objectionable features regarding any proposal to place a sales tax on retail merchants. The keynote of the statement is that retail merchants must not be guided in this important matter by what other organizations suggest. The matter has been thoroughly considered by the board and by important branches of the association throughout the country, and there appears to be no other adequate solution than that the tax be collected at the source of supply, the Government having all the facilities for collecting the same at a comparatively small cost. The statement and recommendations of the Dominion Board follow:

Considering the experience that all classes of retail merchants have had in all parts of Canada with regard to the operations of the luxury tax, and also with regard to the present sales tax, under which the Dominion Government is endeavoring to compel a large number of retail merchants to take out a manufacturer's license and collect a sales tax from their customers, and which is being strongly opposed by us in the courts, it is very essential that whatever system of taxation is proposed for the future should be free from annoying complications and be collected at the lowest possible cost.

Investigation and Enquiry

The question of securing the best and the most economic method has received very careful thought and attention by the members of the Dominion Executive Council and Dominion Board of our association, and, as a result of our investigation and enquiry, the following resolution was unanimously adopted and presented to the Dominion Government:

Resolution

Whereas if it be the intention of the Dominion Government to continue the sales tax and extend its application to those engaged in the retail trade, we recommend that such tax be collected at the source of supply, namely, from the manufacturer and the importer, and carried as the present sales tax is carried, thus achieving the desired end, and more economically collected, and in this way the tax would be absorbed in the same manner as all systems of taxation are absorbed, and that the words, "Manufacturer" and "Importer" be properly defined in the Act so as not to include retail merchants.

The Cost of Collection Must be Considered

A great many proposals have been advocated by various commercial and financial organizations, as well as by some portions of the press. The arguments they present only confirm our belief that retail merchants must not depend upon other organizations who have not given the retail problem proper consideration to advise them regarding the retail trade. Our proposal, which is set forth in the above resolution, places the proposed tax at the source of supply, and as the Government now has all the facilities for collecting the same the additional cost will be very small.

There Should Be No Discrimination

The argument used by some that as the tax is passed on from the manufacturer to the wholesaler, to the retailer, and to the consumer, it will be pyramided, has no value whatever when we consider that the proposed tax is a very small matter in comparison with the rate of duty and revenue tax that is collected on some manufactured and imported articles at the present time, and no one would ask the importer or manufacturer to refrain from placing his profit on the duty he paid. Duty is part of the cost, and a sales tax should also be part of the cost; the only difference we see is that Customs officials who collect duty at the port of entry and through the Revenue Department are paid for their services, but those who are asked to collect a sales tax at the source of supply and who pass it on to the retail merchant, who in turn passes it on to the consumer, receive no remuneration for their services.

The Plan of Collection Must Be Simple

Our plan as set out in our resolution does not require the Government to engage a vast army of tax collectors, auditors, inspectors, bookkeepers, and clerks, etc., to travel all over Canada and collect a turnover tax from two hundred thousand retail merchants when the amount required can be collected at the source of supply at a very small cost.

The Same Rate on All Retail Sales Would Be Unfair

To place a tax of one or two per cent. on the sales of all classes of retail merchants, irrespective of the amount of profit they make, is absolutely unfair to the retail merchant who is compelled to make a large turnover in order to secure a small profit. To differentiate between the rate of percentage to be applied to each line of retail trade would cause great confusion and its application would be very injurious to general store merchants who carry nearly all classes of merchandise which bear varying percentages of profit. This is one point that is entirely overlooked by those who advocate a tax on the turnover or sales of all retail merchants.

Peddlers and Agents Would Escape

Then, again, if the Government should

decide to collect a sales tax from all classes of retail merchants, the thousands of peddlers and agents who travel from place to place selling goods would escape taxation, and in this way retail merchants would be discriminated against.

All Taxes and Costs Are Passed On

The argument put forth by some that by placing the tax at the source of supply, viz., on the manufacturer and the importer, and having it passed on to the retail merchant, it would mean that the retail merchant would be compelled to pay this tax to the manufacturer and the importer when he purchased the goods, whereas if he paid a tax on his sales he would only pay when he sold the goods. This argument is deceptive and misleading because it infers that the manufacturer and the importer is asked to pay a tax to the Government on their sales and not pass it on to the retail merchant. We are all well aware that, no matter whether it is taxes or other costs that are paid out by the manufacturer or the importer, they are all passed on to the retail trade in one form or another, and they become part of our cost.

Must Be Collected at the Source

Our strong objection to having a sales tax or turnover tax collected from retail merchants is the enormous cost that will be incurred in collecting it. As loyal Canadians we want to see the war debt paid. We want everyone to pay his share, and we want the amount to be collected done so at the lowest possible cost. This cannot be done by endeavoring to collect it from two hundred thousand retail merchants, and engaging an enormous staff of collectors, clerks, inspectors and auditors, etc., but it can be collected at a very small cost by collecting it at the source of supply.

When the Government attempted to collect a revenue from patent medicines through war revenue stamps the cost of the collection was reported to be about sixty-two per cent., and in addition to this enormous cost many retail merchants were compelled to pay large sums through fines and other court proceedings when the placing of the stamps on the bottles had been overlooked. We strongly opposed this system from its inception and we hope that no similar system will be adopted.

There Is Only One Issue to Consider at Present

In our opinion, we must not, at the present time, allow any other issue than the one that is now before us to confuse our present plan, and that is to see that the largest amount of money is collected at the lowest possible cost, and with the least possible annoyance to the retail trade, and to leave other issues to be taken up as they arise. We therefore ask all retail merchants to do all they possibly can to have our proposal adopted by the Government.

U.S. Steel Price Revisions Cause Stir

If Sheet and Pipe Prices Are Also Reduced Entire Output Will be Down $7 to $8 Per Ton —Operations at 35% of Normal

STEEL Corporation prices and those of a number of independent steel companies have become identical on some products and in close relation on others, as the result of several interesting developments of the past few days. The new turn has caused more stir than the steel market has known in months, and its effect on the volume of business is being widely canvassed, says the Iron Age.

Late last week several independent steel manufacturers announced an advance of $2 per ton in steel bars and of $2 to $4 per ton in plates and structural shapes. On Tuesday afternoon, April 12, the Steel Corporation made public a list of reductions in its prices, effective on the following day. The new list is shown in the market section of this issue. Wire products were retained at $3.25 for wire nails and $3 for plain wire.

Some consumers had intimations last week of the expected action of certain independent companies. It was stated that the lower prices recently named had brought out little business and had resulted in losses. Buyers were allowed to cover at the lower prices just before the advance, and as a result bookings last week were larger than the average for March.

No announcement concerning wages is made by the Steel Corporation, but it is estimated that if its sheet and pipe prices, which do not appear in the published list, are reduced to those lately quoted by independent producers, its entire output will have come down an average of $7 to $8 per ton. Its 1920 earnings, if all credited to steel, represented $12.82 per ton.

Operations at steel works in March were at the smallest rate on record, in proportion to capacity, and indications already point to a larger output in April. Uncertainty as to the Steel Corporation's price policy having now been removed, for a time at least, freer specifications are looked for. This week the average of Steel Corporation and independent operation is probably 35 per cent.

Several wire companies which have been selling wire nails recently at $3 advanced within the week to $3.25, which has been the Steel Corporation's price. The extra for galvanizing is put at 70 cents. Annealed fence wire these same producers retain at $3, which was the Industrial Board level.

An independent producer of steel pipe made a reduction of $10 per ton in its prices this week, and some of its competitors have already followed. Whether a rebound will come, in line with the strategy of the week in some other products, is yet to be determined.

The sheet market has shown wide variations, some of the lowest prices being made by mills which buy sheet bars in the market. One Ohio mill that has been counted a low-priced seller, has advanced its price to 4 cents for black, 3.10 cents for blue annealed and 5.10 cents for galvanized, though it cannot be said that the low prices recently named have disappeared.

Cast iron pipe is one product for which there is a full-fledged demand. Lettings are numerous and new inquiries are developing with every week.

Woodstock Merchants To Present Case

WOODSTOCK, Ont.—The question of whether or not the local water and light commission will continue to deal in and sell elctrical fixtures and supplies, in opposition to the wishes of the local dealers in these appliances, formed the topic of considerable discussion at a recent meeting of the water and light commission.

A communication from the city council was read in which it was stated that the council felt that the dealers, who objected to the commission's handling of goods in opposition to the regular dealers in these articles, were right in their objection. The communication showed that the council believes that the commission should cease selling and dealing in these appliances.

A communication was also read from the local Brotherhood of Carpenters and Joiners. This communication upheld the commission and expressed the hope that they would continue to sell supplies. Following the reading of these communications a general discussion was indulged in, when the members gave their opinions in the matter.

Mayor Paul, who was present, stated that the city council was representative of the people of the city and that when objections of this kind were raised the council was quite within its rights to deal with the matter.

After considerable discussion it was felt that before taking any definite steps in the matter the commission would be wise to hear representatives from the dealers. W. K. Harvey accordingly moved that the chairman of the dealers' association be advised that the commission desired that a deputation wait on the commission at its next meeting and present their case. Mr. Harvey also included in his motion any other bodies who might be interested in the matter. The motion carried.

Outlook for Seasonable Hardware Lines

Early Spring and Resumption of Building Activity Stimulate Trade in Seasonable Hardware—Advise Well Sorted Stock of Builders' Hardware—Start "Swat the Fly" Advertising—Selling Screen Doors—Shortage of Some Lines of Fishing Tackle

DISCUSSING the business outlook in so far as builders' hardware is specially concerned, A. C. Jones, N. Slater Co., Ltd., Hamilton, made the following statement to Hardware and Metal:

"Business in general has been in a see-saw condition for some time, due to the buyers' strike, which apparently has been in effect up to the present. The dealers have delayed buying, expecting reductions, and in turn the jobbing trade have been doing likewise, and it has got to the point where most manufacturers have to do the same thing, with the result that it will mean a shortage of goods when the demand comes.

Expect Active Building

"There is no doubt in my mind that we will enjoy a good building season throughout Canada this year. In fact, it is surprising the amount of house building that has commenced in the past week. It is the fine weather that puts the pep into people and business. The dealer with the goods on hand will be the man who will get the business that is going.

"It is generally felt that the manufacturers are called upon at this stage to carry a big stock on hand for the trade and be in a position to supply the immediate demand as it develops. Every merchant must anticipate his wants ahead, the same as manufacturers, to assure delivery of goods when required.

"We are encouraging the trade as far as possible to keep their stocks well sorted up to take care of the demands. We are not encouraging them in any way to place large orders, but as stated above the merchant with goods will be the one to make the sale. We believe from now on it will be the optimistic merchant who will get the biggest part of 1921 business.

"We are doing everything in our power to keep stocks up in readiness, but some dealers will be disappointed, but the wise man will be prepared.'

BUILDERS' HARDWARE STOCKS LIMITED

"From a survey which we have made in Canada, we find that the wholesale and retail stocks of builders' hardware are limited," stated D. R. Fowler, Canada Foundries and Forgings Co., Brockville, Ont., to Hardware and Metal. "Small stocks are being made up by the manufacturer, but unless early buying is done, these stocks will not be sufficiently large to take up ordinary requirements. There seems to be a disposition on the part of the trade to stay almost entirely out of the market, and therefore manufacturers are curtailing their production accordingly, and will not gamble on even an average stock."

Screen Doors and Windows

Discussing the outlook in regard to screen doors and windows, E. W. Harold, Sanderson-Harold Co., Ltd., Paris, Ont., made the following statement:

"A careful study of our accounts for a period of years reveals this fact, viz.:

"SWAT THE FLY"

The suggestion is made in this article that local campaigns for eliminating the flies from the home be commenced by hardware merchants. Window screens, screen doors, fly swatters, etc., can be featured in the campaign.

A spring window in the M. Philbin Hardware Co., Montreal, showing an arrangement of sporting goods in the window on the left, containing tennis and baseball requirements, thermos bottles, flashlights, etc. In the right hand window is shown an arrangement of automobile and bicycle accessories, featuring tools for the motorist who overhauls his own car in the spring, and many other lines designed to increase the utility or comfort of the motor car during the spring and summer months.

Building is being done on a slightly better scale in some parts of Canada, according to reports made by certain manufacturers in the article herewith. Merchants can keep a close watch on local developments and help to stimulate interest in tools for new construction and also for repair work, by the use of such a window display as is shown herewith, featuring saws, spirit levels, planes, drills, chisels, etc.

Those dealers who have stayed with us the longest and on whom we depend for the largest share of our business, are the ones who buy carefully along the following lines: say, four styles of doors, the common door, one line at medium price, and one or two good lines, keeping always a range of sizes in stock throughout the season. The same applies to screen windows. Keep in stock the lines which past experience has taught you sell the best. It is not necessary to order six 14-inch high windews because there are six on the list.

Ad. Suggestion

"Re advertising, screen doors are a line which advertise well in the papers. A 'swet the fly' heading gets the attention desired. Electros can be used to good advantage. A sample of each door may be hung from a post inside the store for display, or four doors may be clamped together in the form of a square on a revolving basis, as an alternative.

"Regarding repeat business, we are making preparations for just such another season as 1919 was, and hope to be able to handle all orders for immediate shipment with which we are favored. We have several large specifications from jobbers, who are preparing for the same eventuality.

"With reference to prices, we do not anticipate there will be any change this season, but cannot make any predictions regarding next year."

* * *

SELLING SCREEN DOORS

Some suggestions on the sale of screen doors from W. H. Cunningham, Kasement Screne Dore Co., Toronto, are as follows:

"Because we've always thought so, does not make anything an actual fact; yet here are a few ideas about screen doors that many householders and dealers have been holding to for years and almost think they are logical.

"For instance, the idea that any kind of a cheap door is good enough for a back door. When you stop to consider it, the back door is used far more than the front door and, if anything, should function even better than the front because it is used more and there are usually more flies around the back door.

"Then again, is the cheap door the cheapest? The dealer who is building his business on the sound foundation of rendering a real service to his customers, should realize that the cheap door does not stand up and has to be replaced sometimes before the season is over. By selling his customer a well-made door, the dealer is actually saving money for the customer and establishing a confidence with his trade. No matter how low a price the householder pays for an article, if it does not stand up, he blames the dealer.

Early Spring Makes Big Demand for Screens

"There is every indication of an early spring and a hot summer; screen door stocks are limited with the retailers, manufacturers and jobbers, and this season should see the stocks well cleaned up.

"It has been unfortunate this year that the manufacturers had to advance their prices over 1920, but the screen door manufacturers point out that they have to buy their lumber and raw materials practically a year ahead, and they were forced to buy when lumber and other prices were very much higher than when 1920 supplies were bought. The increased freight rates have also been a serious factor in increasing cost.

"The prospects for lower prices for this season do not appear to be promising."

* * *

FISHING TACKLE

Conditions in the fishing tackle business are outlined by J. B. Kennedy, managing director the Allcock, Laight and Westwood Co., Toronto, in the following statement to Hardware and Metal:

"We find there is still a very great scarcity of American reels, and practically all lines of English fishing tackle, especially the flies, high grade English split cane rods, and gut hooks, and we fear a great many dealers will not have complete stocks on these lines; and from appearances it is doubtful if the condition will be totally remedied even after another season on account of the large amount of labor which was diverted from the fishing tackle industry during the war and has not found its way back.

"So far as business is concerned, the season is opening up very early and the demand for fishing tackle of all descriptions is more than brisk. Indications from all directions point to a very large trade in fishing tackle, and in fact all sporting goods."

Holds Saw-Tooth Guessing Contest

Much Interest in Saws is Aroused by Sumner Co., Moncton, N.B. —Many Buyers Attracted to the Store for Valuable Hardware Prizes Given to Winners—One of the Novel Schemes to Maintain Interest of Buyers

SUMNER CO., Ltd., Moncton, N.B., have just concluded a very successful contest, the basis of which was the guessing of the number of teeth on saws shown in one of the store's display windows. The contest lasted for a period of ten days commencing on a Monday and ending a week from the following Thursday. The contest was, of course, designed to help acquaint customers with the particular line of saws handled by this firm, and all advertising matter helped toward this end.

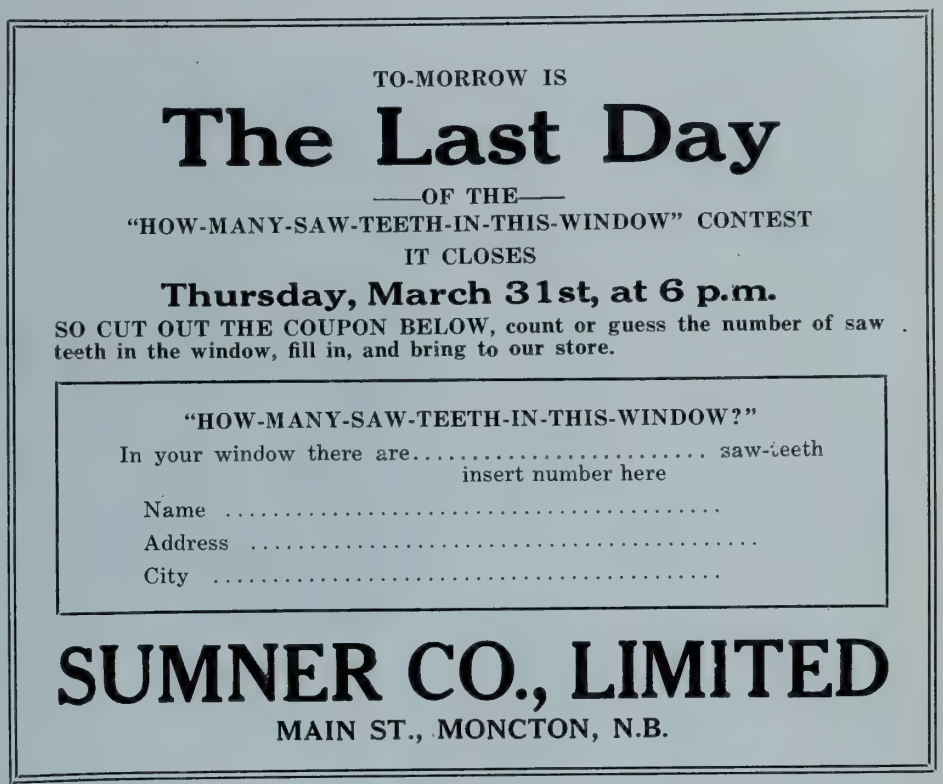
Due notice was given prior to the opening of the contest by means of advertisements run in local newspapers. The ads used for this purpose were illustrated with a saw and were headed "A Contest Open to All." Next the opening and closing dates were emphasized and then the conditions, as follows, were outlined:

"Count or guess the number of teeth in the saws in our window. To give you a working basis we will let you count the teeth in any saw in stock.

"Come in and get a contest coupon, fill in your name and address and the number of saw teeth you calculate the window contains and deposit it in the box.

"This box will be opened at the end of the contest by the following judges: J. C. Keating, Moncton Times; W. K. C. Parlee, Moncton Transcript; A. E. MacNutt, manufacturing jeweller, who will count the teeth, and determine the winners of the three substantial prizes on exhibition in the same window.

Three Prizes



"These are well worth working for and will be awarded to the three persons who come nearest to figuring out the number of saw teeth in the window as first, second and third prizes.

"Prizes suitable for either men or women are offered and these can be exchanged by the winners for anything in the store of equal value they would prefer.

"We would be only too glad to serve you in any way when in our store but guesses are absolutely free, you are not required to make a purchase of any kind.

"Get busy."

Advertising matter during the progress of the campaign consisted of ads containing a coupon, as illustrated herewith, it being necessary to clip the coupons to file an entry. The coupons can be so designed as to indicate what paper they have been taken from, thus giving some basis for figuring out which one reaches the largest portion of readers interested.

Sample of the ads. used by Sumner Co., Ltd., Moncton, N.B., during the progress of the "How-Many-Saw-Teeth-in-this-Window" contest, showing the coupons which were to be clipped out to bear the answer as an entry in the contest.

Results of Contest

At the conclusion of the contest the judges met in the Sumner Co. store and established the fact that the saws in the window contained 12,348 saw teeth. The nearest correct answer was 12,360, the second was 12,460 and the third 12,218. A statement to this effect, signed by all three judges, appeared in the local newspapers following the decision.

Some indication of the response is gleaned from the following: There were 19 guesses between 12,000 and 13,000, and of several hundred guesses they ranged from 2,500 to 50,000, with one guess of 1,552,000 and one guessed "As many as looked in the window," which may have been near the correct number, as a great deal of interest was taken in the contest, and many inspected the window who did not hazard a guess.

The prizes offered by Sumner Co. were as follows: First prize, if won by a man, a Disston hand saw; if won by a lady, a Canuck bread mixer. Second prize, if won by a man, a Stanley plane; if won by a lady, a set of Mrs. Potts' sad irons. Third prize, if won by a man, a Smart's nail hammer; if won by a lady, a pair of carvers, each exchangeable for any article in the store of equal value.

Change Shooting Regulations

All restrictions as to trapping and killing hares and rabbits in Ontario have been abolished by the Fish and Game Committee of the Legislature, with the result that there will be an open season for these animals all the year around. Season for shooting woodcocks was advanced a month and will be from September 15 to October 15, instead of from the latter date to November 15. The committee deferred action on a request from the Essex County Wild Life Association to prohibit shooting of wild ducks in the counties along the shore of Lake Erie during the month of September.

Hardware and Metal

Canada's National Hardware Weekly

Member Audit Bureau of Circulations Member Associated Business Papers

The Only Weekly Hardware Paper in Canada

PUBLISHED EVERY SATURDAY SINCE 1888 BY

The MacLean Publishing Company, Limited

Montreal TORONTO, CANADA Winnipeg

SATURDAY, APRIL 16, 1921

SPEAKING of the hardware merchant as a resourceful type and able to turn almost any situation to his own advantage, it has been suggested that the enforcement of total prohibition will greatly increase the demand and price of spirit levels, thus creating a new and important field for business.

Steel Price Revision

THE anticipated reduction in the base selling price of many of its products has been made effective by the U.S. Steel Corporation. Interest will now be centred in the effect of these reductions, particularly in view of the fact that price reductions made recently by independent mills have had little stimulating effect. The Corporation schedule is, however, looked upon as more or less of a standard and its revision to lower price levels will, it is expected, have considerable effect. The railroads have been looked to as likely to require large quantities of steel at the new prices, but they are admittedly in poor financial position at present to be much of a buying factor.

Some such stimulus as is provided by this reduction was needed in the U.S. steel industry. This fact is evident from a statement of the Iron Age to the effect that in proportion to capacity the operations of the steel works during March were at the smallest rate on record.

Some idea of the extent of the reductions may be gleaned from the fact that steel billets are now the lowest since February, 1916, though still practically double the price prevailing at the outbreak of war. This comparison extends pretty well through all the products affected, and no doubt the present ratio is based on the question of wages which on the per tonnage basis are practically double the scale of 1914.

There are those who claim that the reductions are not as large as they should be. In this connection it is noted that while Welsh tin plate, according to reports, can be laid down in New York at $5.00 per base box, the reduced Corporation price is $6.25 per box. It would seem, from these figures, that action by the Corporation in regard to wages will have to precede much further revision on its products. The recent hesitation of potential consumers, because of the feeling that prices would go lower, may be removed by the present revision and the steel industry given some much needed stimulation.

Proposed Taxation

AS much interest is now centering on matters of taxation in Canada, with special regard to the effect of proposed taxation upon the retail merchant, it is interesting to note that a bill has been introduced in the U.S. Senate designed to impose a tax of 1 per cent. on all turnovers, with an annual exemption of $6,000, the effect of this being to exempt smaller farmers and tradesmen. Advantages claimed for this are simplicity of assessment and collection, a low tax rate applying uniformly on all commodities and absence of complicated features which make it difficult for the taxpayer to know at any time what his tax liabilities are. This form of tax is expected to enable the elimination of the excess profits tax as is the desire in Canada. The rate might be varied according to the amount of revenue required.

This tax is to be levied on the gross value of goods whether raw material or manufactured or partially whether of domestic or foreign origin, and is to be collected at time of change of ownership by sale, lease, or barter, whether for cash, credit or on instalment basis.

The tax described is a sales tax and as an extension of the sales tax now operating in Canada, has been recommended by organizations of merchants in this country, some similar form of taxation to that outlined may be expected in Canada. It differs in some details, however, one being that the U.S. tax is evidently to be collected at each change of ownership whereas Canadian retail merchants have strongly protested against any such tax entering into their dealings with customers over the counter. No doubt the most satisfactory form of taxation will be that collected from one branch of trade in which are the minimum number engaged and who are in best position to render accurate returns, and a tax which can be immediately absorbed and not shown in the final dealings with the consumer.

An Important Industry

WHILE a temporary lull is now evident in the automobile industry, this is the result of general conditions prevailing and it is expected that it will before long be operating at a pace somewhat nearer to normal. The automobile and accessory industry has assumed large proportions in Canada in recent years. This fact is borne out by a report for 1919 just issued by the Dominion Bureau of Statistics. Since that year occurrences in the industry are pretty well known to everyone, 1920 seeing both high and low points in production activity and the first few months of 1921 seeing a gradual trend toward increased activity. Since this report was issued in 1919 additional plants have come into operation and allowance must be made for these.

The statistics showed that export trade has come to be an important factor in the automobile and accessory trade of Canada. Exports of automobiles increased in value from five million dollars in 1918 to sixteen million in 1920. In 1919 there was eight million dollars invested in the automobile accessory industry in Canada and thirteen million in repair shops. Materials to the value of fifty-one million dollars were used in the manufacture of automobiles, while five million dollars' worth of material were used in making accessories. Products of automobile plants were valued at eighty million dollars and products of accessory plants at eight and one-half million dollars. Rated according to total investment in automobiles the provinces of Canada were in the following order: Ontario, Saskatchewan, Manitoba, Quebec, Alberta, British Columbia, Nova Scotia, New Brunswick and Prince Edward Island.

Manufacturers, Importers to Apply Tax

Retailers Have Made no Objection to Present Sales Tax and Extension of This Means of Taxation Would Provide Revenue and Eliminate Dangers of Tax Collected by Retailer, Says R. Hawkins, Smiths Falls, Ont.

Written for Hardware and Metal by R. Hawkins, Smiths Falls, Ont., Executive Member of the Ontario Retail Hardware Association

IN regard to the best solution of the taxation problem to raise the required revenues to take the place of the luxury, business profits tax and income taxes; I have given this subject some consideration during the past year, and from information available up to the present, I arrived at the conclusion that the most practicable and satisfactory way will be to ask the manufacturers and importers to add such percentage to their invoices as may be necessary to take the place of luxury, business profits and income taxes, and I venture the assertion that the objections to this method will be practically nil if fairly tried out. It removes from the public the irritation incidental to the collection, by retailers, of taxes direct from the consumers.

The manufacturers and jobbers have more complete records and systematic methods of accounting and can turn in to the Government, say monthly, the amount due. One transaction in this way would probably equal two thousand transactions, if carried on to the retailers, when we consider that one sale by a manufacturer would probably equal one hundred sales by retailers. There are probably twenty retailers to one manufacturer, so we can see the enormous amount of clerical work saved both to the Government and the business people by collecting this revenue at the source of production or importation.

No Objection to Sales Tax

I think few, if any, merchants objected to paying the two per cent. or more per cent. as the case may be on their invoices during the past year, a portion of this being absorbed by the merchants, particularly goods on which there is a fixed retail price, while on other lines this tax, with transportation charges, may be added to the cost price. This item would have to be increased to include the revenue tax passed on from manufacturers.

If done in this way, I submit that the desired revenue can be obtained expeditiously and efficiently at the minimum cost and with the least irritation and annoyance to the general public.

Defines "Manufacturer"

Another question arises in conjunction with this, viz.: "What constitutes a manufacturer?" I would suggest as a minimum standard for a manufacturer, something like the following: A manufacturer is one who operates a shop, factory or plant in which power other than hand power is utilized in the process of manufacture, wherein not less than four persons are employed for a period of not less than six months during the year.

R. HAWKINS,

Hardware merchant, Smiths Falls, Ont., a member of the Executive Committee of the Ontario Retail Hardware Association, who gives his views in regard to taxation.

Should a retailer or jobber be owner or part owner of a factory, as above, he or she shall be classed as a manufacturer in so far as his or her interest may appear in said factory.

I might enlarge on this question, giving more reasons and views from different angles, but have endeavored to condense the points aimed at without encroaching upon the valuable space in Hardware and Metal. If I have succeeded in offering any hints that will be of service in the cause of war revenue tax, I will be pleased at having done so.

Close Steel Plant

Montreal.—The plant of Armstrong, Whitworth of Canada, Limited, at Longueil, will be closed down. On behalf of the management it was stated that owing to the failure of the Dominion Government to give tariff protection on the manufacture of locomotive steel tires this line of manufacture had to be discontinued. The company also made high speed and carbon tool steels. During the war the company employed several thousand men, but this number had dwindled gradually to a few hundred since the armistice. The company is a branch of the steel firm which operates the Elswick yards on the Tyne in England.

Excise Tax and Tariff Rulings

Sales Tax Licenses for 1921-1922.

The Sales Tax licenses issued by the Department of Customs and Inland Revenue last expired on the 31st of March and must be renewed by all manufacturers, wholesalers or jobbers dealing in goods subject to the Sales Tax.

Notices have been sent by the Department of Customs and Inland Revenue to all licensees with a form on which applications for renewal may be made. The department states that licenses must be renewed not later than April 30.

* * *

Exemptions

Domestic articles, which are consumable stores, and the following list of articles, viz.: fuel oil, illuminating oil, lubricating oil, kerosene or coal oil over .725 specific gravity, may be delivered free of Sales Tax, under regulations, for use as ships' stores to any vessel bound on an ocean voyage to a port outside of Canada, or to vessels clearing for the deep sea fisheries, seal fisheries, or for delivery to British and foreign warships and telegraph cable ships, for use on such vessels.

* * *

What Is "Sheet" Steel?"

Sheet steel, cut in circular form, is to be rated as "sheet" when 30 inches and over in diameter. Sheet steel circles less than 30 inches in diameter to be rated under tariff item 454. This line of demarcation applies also to aluminum, copper, brass, zinc and other metal circles.

Steel tanks, glass enamelled lined, ruled to be dutiable under tariff item 454, less than 50 per cent. of the metallic surface thereof being enamelled. The rate of duty under item 454 is 30 per cent. general tariff.

News of Western Canada

Canadian R. M. A. Functions Best

British Columbia Secretary of Retail Merchants' Association Speaks of Relative Merits of Canadian and U.S. Associations

VANCOUVER (Special). — Mr. Hougham, British Columbia secretary for the R.M.A. of Canada, attended the second annual convention of the Washington State Retailers' Association recently held at Tacoma, Wash. In commenting on organization affairs among our friends to the South, Mr. Hougham stated that while the number of associations in the State of Washington exceeded quite considerably the number of branches of the R.M.A. in British Columbia, and the total membership of them all reached a greater total, the results were not commensurate.

"As I see it," said Mr. Hougham to Hardware and Metal, "the trouble is that there is a lack of singleness of effort that militates against their greatest success. There were 22 secretaries at the convention. Each had his own local troubles which he was eager to have solved, but there is no parent body which can assure any local of state-wide support. Each organization is a complete unit in itself and necessarily the amount of effort required to achieve anything like unanimous action is simply colossal. Each unit must bear almost as much per capita expense as a parent body might function on, and yet there is not the one organization that can speak for the whole.

"At present, association affairs seem to be in the condition found here several years ago, when the hardware merchant considered the dry goods man's troubles a matter for only the dry goods man to settle and the jeweller refused to get himself perturbed over what the grocer struggled with.

"Until they all feel that they are retailers first, and that any problem affecting retailers is of concern to all retailers, they must find their protests so scattered as to be almost futile. All the elements unfriendly to the retail trade of both countries have some definite action which they propose to take. The only successful way for the retail trade to protect itself is for the retail trade to speak with one voice.

"There is not in existence a coast to coast organization, speaking with the authority of every state organization, as the R.M.A. speaks in Canada. This will no doubt be accomplished at some date, and then constructive action can be looked for," said Mr. Hougham.

Ashdown's Staff Held Hard Times Dance

Winnipeg.—About one hundred couples attended the Hard Times dance held in the offices of the J. H. Ashdown Hardware Company. The room was tastefully, if somewhat unusually, decorated with old newspapers and cuttings from comic sections. Supper was served in tin dishes, and ice cream in cones.

The following prize winners are announced: Ladies' comic, Mrs. Ritchie; second, Mrs. Potter. Ladies' hard-time costume, Mrs. Sanger, Miss Murray. Men's comic, Mr. Turner, Mr. Wood. Men's hard-time, Mr. Pitch, Mr. Ellis.

Mr. McClelland acted as judge of costumes, and Mr. Fleming was the police officer who inflicted fines upon those who were too well dressed.

Speaks on Credits

Calgary, April 12.—Alderman Frank Freeze recently addressed the Associated Commercial Travellers at their usual monthly luncheon. He spoke on "Credits and Finance," and his remarks were exceedingly interesting. Alderman Freeze is the manager of the Calgary branch of the Canadian Credit Men's Association, Ltd., and is an authority on the subject of credits.

Twenty-five new members were added to the membership roll at the last meeting of the A.C.T. and there are a number of applications already approved by the chairman of the membership committee, Pat Walsh.

The president, J. T. McCulloch, presided at this meeting. A dance was held in the evening at the McDonald Academy.

Saskatchewan R. M. A. Will Meet on June 8, 9 and 10

The annual convention of the Saskatchewan Retail Merchants' Association will be held at Saskatoon on June 8, 9 and 10.

Western Notes

Rivers, Man.—J. Moxley, hardware, has been succeeded by Moxley and Forman.

Benito, Man.—Gordon Dykeman and Co., hardware and implements, have sold the implement business.

Strathmore, Alta.—A. B. Foote has bought the Strathmore Hardware Co. business from G. T. Berry. Mr. Foote is from Success, Sask.

Red Deer, Alta.—Day Hardware Co. has been sold to McPherson Bros., Calgary. The store will be operated by the latter firm as a link in its chain of hardware stores. The Day Hardware Co. had been in business here for ten years.

Small Crop of Hemp

Reports from inspectors of Philippine hemp at Manila indicate a small crop this year. Receipts at Manila average from 20,000 to 25,000 bales per week lower than normal. One week during the past month receipts were only 17,000 bales, as compared with 66,000 bales for the same time in 1920, and 60,000 in 1919. Exports to the United States for a period of three weeks in January dropped from 63,000 bales in 1920 to 15,000. Other foreign shipments from Manila during this same period were 3,000 bales as against 17,000 bales a year ago, and 7,000 two years ago.

Prices have been fluctuating within a very narrow range, but demand is not very great as cordage makers are shy. With but few exceptions Manila merchants continue to hold out for their terms. At one time it was reported that one of the largest shippers had refused to make further offerings altogether.

The Mexican sisal market seems to have been affected by the hemp situation, and remains stagnant. Even at 5c Gulf ports there is practically no buying.

Further Increase in 'Phone Rates

Ottawa.—A further increase of two per cent. on rates and charges for exchange service has been allowed the Bell Telephone Company by the Board of Railway Commissioners, in a supplementary judgment to that issued April 1.

An error in computation is the reason given for the increase from 10 to 12 per cent.

The Income Tax Returns of Partners

The Case of the Merchant Who Gives Goods in Payment for Produce Purchased From Farmers Is Also Dealt With—The Man Who Has Sold Out Must Make Returns for Last Year

Article No. 2, by G. G. YORKE

IN CONTINUING the advice on income tax, I desire to remove all possible obstacles from our readers' path, and while this contribution will deal to a large degree with the returns of partners in business I wish to digress for a few minutes in order to deal with produce bought by our readers in rural districts from their farmer customers and on which the storekeeper makes next to no profit. If he breaks even after allowing for lost egg cases, breakages, and Spring market changes, without counting the time of himself and clerks, he does fine.

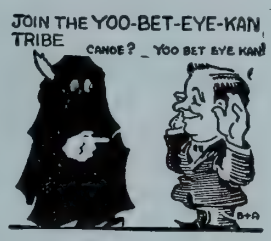
Open Produce Account

In most cases produce is taken in for goods traded out. Should there be a few dollars coming to the farmer's wife, the merchant pays out the difference in cash. Now where does he get off at in making his income tax return if he shows his total purchases of produce in detail as goods bought for re-sale, and enters into daily cash sales the amounts of cheques he receives from the wholesale produce firms, and which go into his annual sales, but, on which he makes no profit whatever?

The one best way is to set aside in a separate drawer, or open a new account at your bank, name it "Produce Account," sufficient funds to take care of your purchases for two weeks, say $500.00. Pay from it for all produce bought, and pay into it all cheques received from your wholesale produce firms. It involves very little time or labor, and will save a world of trouble when making your returns, for it is purely an exchange account, and can be ignored altogether when making the income tax return, except you will enter the sum involved in the assets column on page 4 as "cash in hand or at bank."

Two Classes of Partnership

There are two classes of partnerships, active and sleeping. The active partner participates in managing or other active direction of the business and takes his share of the net profits derived from it. He is entitled to a "tax free" income of $1,000.00 if unmarried, also the usual allowances on tax free Victory Bonds. If he be married, his "tax free" income is $2,000.00, the usual allowance of $200 for each child under 18 years, and rebate on tax free Victory Bonds.



Each partner will make out and sign identically similar returns, but showing at foot of page 4 his own share of the net profits, deducting his own personal allowances and enclosing his own cheque to the inspector of taxation. Partners will of course observe last week's instruction regarding pages 2 and 3; where other items enter into their individual cases, they must show every source of income and expenditure required by the department.

A sleeping partner, that is, a person having an investment in a business at a fixed rate of interest, and who receives it regardless of how much or little the store is making in profits, need not make a return of the expenses account. He will show profits, or interest, derived from the business, and state rate of interest thereon—upon page 2 of his income tax return sheet.

Must Still Make Returns

A few days ago a merchant sold out his business. After doing so he asked me if he would be required to make a return of his trading account for last year? I answered yes, just as correctly as if he held the business to-day, for this return deals exclusively with trading in 1920, and does not take into consideration the development of the present year which will require a separate return a year hence.

WILL YOU JOIN?

The "Yoo-Bet-Eye-Kan Tribe" are being organized. E. C. Atkins & Co., Inc., Indianapolis, are sending out as an enclosure in letters cards bearing the illustration shown herewith and setting forth the following resolution, as qualifications for membership:

I Resolve

(1) *To keep a stiff upper lip and my powder dry.*
(2) *That I'll never be discouraged.*
(3) *That I'll fight hard for new business.*
(4) *That I won't be a quitter.*
(5) *To analyze myself daily to overcome my weakness.*
(6) *To have the courage to act on a sudden hunch.*
(7) *To get acquainted with those about me—I might like 'em.*
(8) *To be cordial—it's the better half of personality.*
(9) *To sing a song every day.*
(10) *To not envy the other fellow, but to get out and dig.*
(11) *To succeed.*

Real merchants, those who keep common sense books and make their periodical stock-takings, will easily make the grade. But the slipshod, rule of thumb fellow, who guesses everything, including his profits, will receive a rude jolt at the hands of the Inspector of Taxation this year.

MILLIONS NOW INVESTED IN ELECTRICAL INDUSTRY

Ottawa.—The Dominion Bureau of Statistics has just issued a preliminary report for 1919 on the electrical apparatus industry in Canada. Of the 95 plants specified, 64 are in Ontario and 16 in Quebec. The province of Quebec, however, has over $20,000,000 invested in this industry as against $25,500,000 in Ontario. The total Canadian investment in this industry is $45,956,399. The bill for salaries and wages came to $9,685,000 for 9,560 employees. Of these 1,226 earned over $30 per week and 3,000 earned over $20. Materials used during the year cost $15,257,617, of which copper accounted for about one-third. The 95 factories in question turned out goods valued at $34,187,658. These include dynamos, generators, transformers, motors, storage batteries, incandescent lights, wires and cables, electric stoves, heaters, irons and fans, as well as fuses, carbons and repair supplies.

OPPOSE FIRE INSURANCE LEGISLATION

The Canadian Manufacturers' Association has lodged a protest against the suggested placing of a 15 per cent. tax on unlicensed insurance. This legislation if adopted would add a provision that in the case of any insurance against fire on property situated in Canada, effected in any unlicensed insurance company, the person effecting such insurance shall pay to the Minister of Finance for consolidated revenue fund a sum equal to 15 per cent. of the total net cost of such insurance so effected but not to exceed in any case 15 cents for each hundred dollars of insurance for one year or a proportionate sum for any longer or shorter period. The C.M.A. committee which investigated the matter reported that such a tax would be most undesirable as the unlicensed companies have been responsible for the maintenance of reasonable rates and have helped reduce fire waste through the encouragement of the use of sprinklers and other appliances, and that the revenue so derived would be negligible.

Events in the Trade

Business Changes

Hearst, Ont.—T. V. Anderson, hardware, has sold out.

Port Perry, Ont.—W. U. and D. Carnegie have been succeeded by Carnegie Hardware Co.

Capreol, Ont.—W. B. Reid has purchased the furniture and hardware stock of H. E. Hawkins since his recent fire and has rented the building formerly occupied by Mr. Hawkins.

Fire Loss

St. Catharines.—A spark from a yard engine at the Thorold plant of the Beaverboard Company started a fire in a 400-yard pile of pulp and scrap-paper which for some time menaced the main building.

Personal

Jessie Prescott, president of Prescott Auto Parts Co., Webster, Mass., was in Montreal this week.

* * *

Ross H. McMaster, vice-president and local manager in Montreal of the Steel Company of Canada, has been appointed a director of the Merchants' Bank.

* * *

John Baillie, vice-president and managing director of the Dominion Oilcloth and Linoleum Co., Ltd., and president Canada Linseed Oil Mills, Ltd., has been appointed a director of the Merchants' Bank of Canada.

Entered by Burglars

Montreal.—Two branch stores of M. Philbin Hardware Company, Montreal, were visited by burglars this week. In each place, such articles as hunting knives, razors, watches and cartridges were taken.

* * *

B. J. McCormick Resigns From Canada Foundries & Forgings, Ltd.

Announcement is made of the resignation of Col. B. J. McCormick as general sales manager of the Canada Foundries & Forgings Ltd. In consequence, it is stated that the office of general sales manager in that company has been abolished. Local sales offices will be maintained at the various plants in Brockville and Welland.

In conversation with Hardware and Metal, Mr. McCormick stated that he was not in a position to make a statement as to his future plans, but that he would probably be severing his connection with the hardware trade. During his association with this trade Mr. McCormick has made a large number of friends.

U.S. Firms to Woodstock

Woodstock.—President Rea of the Board of Trade has received word that the American Ironing Machine Co. of the United States has decided on Woodstock as the site of its Canadian plant, and will start manufacturing within a few weeks. The Kirsch Manufacturing Co., another U. S. firm, has also decided to come to this city, and is expected to establish itself here shortly.

Appointed Canadian Agents

Fraser & Co., 10 Hospital St., Montreal, have been appointed sole Canadian agents for L. H. Hagan Co., Ltd., Christiania, Norway, manufacturers of skis, ski harness and ski poles. Fraser & Co. will carry heavy stocks at Montreal of ash and hickory ordinary, jumping and racing skis, also flying skis. Huitfeld ski harness in two grades, the new Hagan harness, rattan and fibre discs will also be carried.

Exhibition of Manufacturers

Montreal.—A "Made in Canada" exhibition is announced for one week, opening on May 21st and closing on May 28th. The Coliseum building on Guy street has been secured for this exhibition, and preparations for the show are now under way.

The exhibition is being held under the management of the Made in Canada Exhibition Company, of which M. D. Plunkett is managing director. The exhibitors will be some of the best known Canadian manufacturers, who promise unusually attractive displays.

Western Ontario Notes

Among the donors of prizes for the annual spring show held at Hensall last week was the hardware firm of Bonthron & Drysdale.

* * *

A tennis association was organized at St. Mary's, Ont., this week, and John Lind, of the Cement Company, was elected honorary president.

* * *

Robert Bonthron, who has been seriously ill for several months at his home in Hensall, has recovered sufficiently to be out again.

Stanley Hopper has completed negotiations by which he becomes owner of a half interest in the business of Joseph Hopper, of Coatsworth, Ont.

* * *

Work commenced this week at Walkerton, Ont., on a new office and showrooms for the R. E. Truax Co., manufacturers of sashes and doors.

* * *

The Toronto Veneering Co. contemplates locating in Southampton, Ont., and a by-law for $20,000 will be submitted to the ratepayers shortly.

* * *

H. L. Martinson, hardware merchant at Cottam, Ont., is one of the leading chicken fanciers of the district, and this spring is busy with a large new poultry house.

* * *

The Retail Merchants' Association of the Border Cities has completed arrangements for a big annual picnic to be held on June 9. The Border manufacturers are co-operating with the merchants, and it is planned to have every factory close on the day of the outing.

* * *

An impressive incident in connection with the services in the First Congregational Church at London on Sunday evening was the unveiling of a memorial in honor of Pte. Arthur Robins, who went overseas with the 135th battalion and was killed in action. Pte. Robins was a son of Fred Robins, for many years with the Hobbs Hardware Co.

* * *

The hardware firm of Brewer and Harrison, of Parkhill, Ont., was this week awarded the contract for galvanized iron work and for hot air heating for new $15,000 church at Brinsley, Ont. The Hobbs Hardware Co., of London, was awarded the contract for glass.

* * *

Plans are being rushed and work will be commenced shortly on a new three-story warehouse at London, Ont., for the Crane Company, of Montreal, which will distribute hardware and plumbing supplies for Western Ontario from this branch.

Fuller Brush Co. Opens in Hamilton

Hamilton, Ont.—The Fuller Brush Company are locating a plant here, installing equipment in the building formerly occupied by the Canadian Cartridge Company.

London Hardware Merchants Meet

London, Ont.—At the regular monthly meeting of the London Retail Hardware Association the members enthusiastically endorsed the project for the erection of a large new arena in London. John A. Brownlee and Thomas Purdom, Jr., were appointed a committee from the Hardware Association to co-operate with the general committee which has been formed by London business men to push the arena project along. It is planned to build a $150,000 structure in the Western Fair grounds, where it can be used in connection with the exhibition, for various meetings and shows through the summer and for hockey during the winter. The hardware men generally expressed the opinion that the project was not only a good one from a sport standpoint but a public spirited move generally and decided to assist in every way.

Further revision of hardware prices took place at the meeting and the members of the association are following the market tendencies very closely and marking goods accordingly.

The splendid warm weather has resulted in spring business getting under way most satisfactorily and the general opinion expressed by the merchants was that a most satisfactory year is ahead. An excellent turnover in paints and varnishes has already begun and in the next few weeks the hardware men are looking for one of the best seasons they have ever had. There is a big movement reported in builders' hardware also, with the prospects of even increased business as various contracts get under way. City trade was reported excellent and country trade every bit as good.

Novel Display of Aluminum Ware

London, Ont.—A simple and very attractive plan for obtaining the maximum amount of display value from a window dressed with aluminum utensils was worked out this week by a local store. The floor of the window is covered with the larger articles, with price cards and display cards placed at conspicuous points. At the rear three display tables were arranged on which smaller lines are exhibited. The massed effect of so much shining aluminum is striking in itself and there was no doubt of its effect upon the housewives. Crowds of women were constantly before the window and their discussions regarding the articles on display showed the keen interest they took in the goods. The firm had one of the largest and most successful sales of aluminum ware it has ever had and no small credit for the big turnover is frankly given to the pulling power of the window and the advertising that was used to back it up.

AMONG KINGSTON HARDWARE DEALERS

Kingston, Ont.—At a meeting of the retail hardware men of the city held in the Board of Trade rooms, an association was formed. William Mitchell, who for many years conducted a hardware store on Princess street, and who is now manager of the hardware store of McKelvey & Birch, was elected president, and Allan Lemon secretary. Some years ago the retail hardware men in Kingston had a strong organization, but for some reason there was not the "pep" behind it that was necessary, and interest lagged, and the organization finally went out of existence. However, there is much enthusiasm over the reorganization and much good is looked for as a result of the merchants getting together. Co-operation is the chief keynote of the organization.

The principal item of business before the initial meeting was that of working out a system for the merchants to keep tab on bad debts. It is the intention of the merchants to stand together and, by co-operation, they intend to minimize the bad debt evil.

It is the intention of the association to meet from time to time and take up matters of interest to the trade.

* * *

Kingston, Ont.—Hardware men here report that while business was slack in many lines up till the beginning of this week, the usual spring rush has now commenced. There is a keen demand for garden tools, paints and varnish.

* * *

Lemmon & Sons have been very busy installing boilers in cheese factories in this district. A boiler has just been installed in the cheese factory at Battersea, and the firm is now engaged on one in the cheese factory at Murvale.

* * *

Kingston Business Men Make Tax Recommendations

Kingston.—The Board of Trade has passed a resolution strongly recommending that the present tax, known as the two per cent. sales tax, be increased to the extent thought wise by the Government to provide the revenue that the Government may decide should be produced by a tax on business.

In the board's judgment, this method of taxation, a tax on invoice, or a tax at the source, is the only one under which a retail business tax can be collected economically and with fairness to all.

The board objects to a turnover tax or to a tax on total receipts, on the ground that it would be impossible to collect it completely, and would, therefore, with uneven collection, be manifestly unfair.

Form Ad Club

St. John, N.B.—The business men of St. John, N.B., have completed the formation of the St. John Advertising Club, affiliated with the Associated Advertising Clubs of the World. A large number of the leading merchants have become members, and judging by the enthusiasm shown at the meeting during the final arrangements it is going to be one of the most important clubs of its kind in Canada. The officers are as follows: President, R. A. Macauley; vice-president, S. L. Emerson (of Emerson & Fisher, Ltd.); secretary-treasurer, T. F. Drummie; additional members of the executive, R. H. Watts, H. V. MacKinnon, S. K. Smith, H. H. Scovil. The object of the club is to study advertising as applied to individual and community enterprises.

* * *

Discuss Taxation

St. John, N.B.—At the regular meeting of the Board of Trade in St. John, N.B., held on April 4, a resolution was adopted that a tax be placed on the goods at the point of manufacture and point of entry into the country, rather than a turnover tax to be collected from the retailer. A. H. Wetmore, who moved the adoption, said that the idea was not to get rid of taxes. All countries were faced with the necessity of raising large revenues, and different methods had been tried. The turnover tax had been strongly recommended, but the way to apply and collect it had yet to be worked out. The chance of evading it was also great. The cost of administration and checking up the tax would also be large. Instead of collecting three or four turnover taxes one tax could be collected at the point of manufacture. The question was not how to evade the tax, but how to distribute it equitably among the people and be sure of the government collecting it.

Additions to Staff of the Torrington Co.

Announcement is made at the general offices of the Torrington Company, Torrington, Conn., of the addition of A. W. Calendar to the Canadian sales staff of the Torrington Electric Vacuum Cleaner organization. Mr. Calendar will make his headquarters at Toronto. The announcement follows the establishment of a new Canadian production unit on vacuum cleaners at Upper Bedford, near Montreal. F. A. Loudon will continue to act as representative for the Upper Provinces, with headquarters at Upper Bedford. Mr. Calendar was formerly office manager at the Springfield, Mass., needle plant of the Torrington Company.

Hardware Letter Box

Information on trade topics will be gladly supplied to subscribers through this department.

EDEN ELECTRIC WASHING MACHINE

Edwin Chown & Son, Kingston, Ont.—Can you give us the address of the manufacturers of the Eden electric washing machine?

(Answer).—The Canadian address is the Gillespie-Eden Corporation, 266 King St. W., Toronto, Ont.

QUICK MEAL OIL STOVE

J. Bundy, Pickering, Ont.—Kindly inform us where we can procure repairs for the Quick Meal No. 30-42 oil stove.

(Answer).—The Jas. Stewart Mfg. Co., Ltd., Woodstock, Ont., can supply you with these.

IRON CEMETERY POSTS

Frank Dafoe, Madoc, Ont.—We have an enquiry for 700 iron posts for marking plots in a cemetery and would be glad to know where we could procure these.

(Answer).—Dennis Wire & Iron Goods Co., London, Ont.; Beatty Bros., Ltd., Fergus, Ont.; Canadian Allis-Chalmers, Ltd., Toronto, Ont.; McGregor & McIntyre, Ltd., Toronto, Ont.; Reid & Brown Structural Steel & Iron Works, Ltd., Toronto, Ont.; Standard Foundry & Machine Co., Ltd. Longeuil, Que.; Aikenhead Architectural Iron Works, Ltd., Toronto, Ont.; Shipway Iron, Bell & Wire Mfg. Co., Ltd., Toronto, Ont.

BANNER CHIEFTAIN STOVE

The George Taylor Hardware Co., Ltd., Timmins, Ont.—Kindly advise us who manufacturesthe Banner Chieftain stove?

(Answer).—We understand this stove is made by the Galt Stove & Furnace Co., Ltd., Galt, Ont.

MAYTAG WASHING MACHINE

John E. Ford, Comber, Ont.—Please let us know who handles the Maytag washing machine in Ontario?

(Answer).—Our information is that there is no Ontario distributor at present. Whites, Ltd., Collingwood, Ont., used to handle this machine, but have discontinued it. You could get machine or parts from the Maytag Co., Winnipeg, Manitoba, or Newton, Iowa.

PREMIER VACUUM CLEANER

J. G. Tweddle, Fergus, Ont.—Could you advise us where we could procure repairs for the Premier Vacuum Cleaner?

(Answer).—The Electric Vacuum Cleaner Co., Cleveland, Ohio, are the manufacturers of this machine. The Canadian branch is the Premier Vacuum Cleaner Co., 28 Adelaide St. E., Toronto, Ont., from whom repairs can be obtained. The Canadian General Electric Co., Ltd., King St. W., Toronto,

BATHROOM FITTINGS

M. Weichel & Son, Ltd., Waterloo, Ont.—Kindly advise us who are the makers in Canada of nickel-plated and white-enameled bathroom fixtures?

Answer.—The Gendron Mfg. Co., Ltd., Toronto, Ont.; Kinzinger, Bruce & Co., Ltd., Niagara Falls, Ont.; The Jas. Morrison Brass Mfg. Co., Ltd., Toronto, Ont.; The Jas. Robertson Co., Ltd., Toronto, Ont.

SUNBEAM OAK REPAIRS

W. A. MacLaren, Hensall, Ont.—Kindly advise us where we could get repairs for the Sunbeam Oak heater?

Answer.—This heater is made by the McClary Mfg. Co., Ltd., London, Ont., etc., and they can furnish you with all repairs.

EXCELSIOR MANUFACTURERS

Kelly & LeDuc, Hull, Que.—Can you give us a list of firms manufacturing excelsior?

Answer.—Following are Canadian manufacturers and a few U.S. firms: Rankin & Co., Toronto, Ont.; Atkins & Hardy, Owen Sound, Ont.; Delany & Pettit, Ltd., Toronto, Ont.; Excelsior & Wood Wool Co., Ltd., Toronto, Ont.; Fibre de Bois Compagnie, St. Gabriel de Brandon, Que.; Hopper Bros., Truro, N.S.; Nova Scotia Bedding Co., Ltd., Windsor Junction, N.S.; Restmore Mfg. Co., Vancouver, B.C.; Wm. Rutherford & Sons, Ltd., Montreal, Que.; Simmons, Ltd., Montreal, Que.; Jesse B. Snyder, Floradale, Ont.; Roswell B. Warner, Inwood, Ont..

POLISHING LATHE AND MOTOR

Frederic Sara & Co., Calgary, Alta.—Can you give us the names of some firms who could supply a small polishing lathe with 220 electric motor?

Answer.—The Canadian Machinery Corporation, Galt, Ont.; The Garlock-Walker Machinery Co., Ltd., Toronto, Ont.; The Canadian Hanson Van Winkle Co., Ltd., Toronto, Ont.; H. W. Petrie, Ltd., Toronto, Ont.; The A. R. Williams Machinery Co., Ltd., Toronto, Ont.

PHONOGRAPH MOTORS

Samson & Filion, Quebec City, Que.—Can you give us the names of firms manufacturing phonograph motors?

Answer.—W. H. Banfield & Sons, Toronto, Ont.; General Phonographs Corporation of Canada, Ltd., Toronto and Kitchener, Ont.; The Russell Motor Co., Ltd., Toronto, Ont.; Stephenson, Inc., 1 W 34th St., New York, N.Y.; The Thomas Mfg. Co., Dayton, Ohio; Leonard Markets, 165 William St., New York, N.Y.

COMBINATION MOP WRINGERS

Thompson & Sutherland, Ltd., New Glasgow, N.S.—Can you give us the names of Canadian manufacturers of combination mop wringers and buckets?

Answer—Our information is that there is no Canadian manufacturer of these goods and they are all imported. The following is a list of manufacturers: Theo J. Ely Mfg. Co., 25th and Ash Sts., Erie, Pa.; Erie Mop & Wringer Co., Erie, Pa.; United States Mop Co., Toledo, Ohio; Bushnell Novelty Co., Mansfield, Ohio; Bouquet-Brownson Co., St. Paul, Minn.

Catalogs and Booklets

A review of new catalogs, etc., as published by manufacturers, wholesalers and others in the trade for the information of hardware dealers.

VITRIFIED CLAY PRODUCTS

The Vitrified Clay Pipe Publicity Bureau of 9 East Wellington St., Toronto, Ont., have issued a brochure on the construction of chimneys based on the recommendations of the National Board of Underwriters. The booklet, which is illustrated by diagrams and plates, shows the methods advocated by experts to insure safety and security from fire risks in constructing chimneys and flues, and also safe methods to follow in building fireplaces in dwelling houses. Illustrations are also shown of top finishes of chimneys and roof flashings. Those interested in the subject are invited to write to above address for a copy of Bulletin No. 10.

"LINOGRAMS"

A booklet entitled "Linograms" and which is the first of what is intended to be a series has been published by the Dominion Oilcloth & Linoleum Co., Ltd., Montreal, Que. Linograms is an illustrated 16-page, 6 in. by 9 in. booklet printed in colors and is stated to be published in the interests of Canadian merchants selling floor coverings and to create increased interest in the sale of linoleum, floor oilcloth and rugs. Sale helps, window trimming ideas and advertising suggestions are a few of the features in this issue and merchants handling this line or contemplating doing so are invited to write for a copy of the booklet.

Trade Enquiries

Names and addresses of enquirers can be obtained only by those interested in such lines upon application to Hardware and Metal. Please quote reference number when requiring addresses.

2889. **Closet seats.**—A Liverpool firm ask for quotations on polished and unpolished birch, polished stained oak, and stained mahogany closet seats.

2890. **Closet seats.**—A Liverpool firm inquire for plain ring, single extension, and double extension closet seats in stained and polished hardwood.

2891. **Electric fans for steamships.** — A Liverpool firm make inquiry for electric fans for steamships.

2892. **Electric heating and cooking apparatus.**—A Liverpool firm are interested in offers of the above.

2893. **Representation in South Africa.**—The managing director of an important firm of manufacturers' agents, with numerous branches in South Africa and Natal, will arrive in Canada shortly and desires to get into communication with Canadian manufacturers with a view to representation. He has a thorough knowledge of South African trade and has been a manufacturers' agent for about fifteen years; is principally interested in carpets, linoleum, hardware and similar goods.

2907. **Asbestos, leather belting, electric material, and other technical articles.** — A Milanese house are anxious to open up correspondence with Canadian firms.

Letters to the Editor

Communications expressing the opinions of subscribers concerning matters of interest to the trade.

Editor, Hardware and Metal:

The following happened this week: A farmer near our town or who trades here, but not a very heavy buyer from us, has respectfully informed us that he could buy from the catalogue house at much lower prices, etc., than in Grand Prairie. He came in yesterday and asked us to go on his note at the ——— bank for about $130. We explained that our bankers and wholesale firms would not allow us to do this and wanted to know why he had to have this money. He informed us that a certain stove firm peddled ranges through this section a little over one year ago, selling them on time. He bought one although the writer informed him we sold a range at a lower price and much better range. We also pointed out that these people had neither conscience nor sentiment but would demand their pound of flesh when the note came due or issue a writ and this is what he wanted the money for, to pay them off or writ would be issued.

We made a proposition to him and will advise you how we come out.

Those range people peddle ranges through Alberta under a Dominion license and do not have to take out a municipal license. How is that?

In closing my advice to the retail hardware men; Join the Retail Merchants' Association and get your competitors to join. The best $20 or $25 fees you ever spent. James Kellas, the Provincial Secretary in our Province, is a wonder, and I cannot see why the retailer who in the past has been a football for the financial institutions, manufacturers, wholesalers and customers, should not come into his own. Join the association, boys, whether you are in Alberta or Prince Edward Island.

L. C. Porteous
Porteous Hardware Co., Ltd.
Grand Prairie, Alta.

Twenty Years Ago

Items of interest reprinted from Hardware and Metal of April 20, 1901:

"The Vancouver branch of the James Robertson Co., Montreal and Toronto, has been reorganized. C. A. Godson, who acted as manager of the Vancouver branch, has been admitted into full partnership and the firm will now be known as the Robertson-Godson Co."

* * *

"A. A. Brown, representative of the McClary Mfg. Co., Montreal, who traveled for many years all over Ontario, has just been elected to the position of elder of St. Paul's Presbyterian Church, Montreal."

* * *

"The Gurney-Tilden Co., Hamilton, have added a storey to their foundry building and have secured land for further additions."

* * *

"Incorporation notices include the Sydney Hardware Co., Ltd., Sydney, N.S.; Munro & McIntyre, starting hardware business in Alvinston, Ont.; the Acadia Copper Co., Ltd., Halifax."

* * *

"Mr. Harry Dwight Smith, manager of the promoting department of the Sherwin-Williams Co., Cleveland, and editor of the company's two bright publications, has paid a visit to the New York, Boston and Montreal branches of the company."

* * *

"Lewis Bros. & Co., Montreal, Canadian agents for the Birmingham Small Arms Co., Ltd., expect to do a good trade in military rifles this summer. It is thought that the military spirit engendered by the South African war will lead to a more widespread use of the rifle in Canada."

Roofing Concern Changes Its Name

Standard Paint Co. of Canada, Ltd., to be Known as the Ruberoid Co., Ltd., Montreal

MONTREAL.—The Standard Paint Company of Canada, Ltd., the manufacturers of roofing, etc., for many years, has changed its name to the Ruberoid Co., Ltd.

This change is made in order to create a closer connection between the name of the products, which have always been marketed under the name Ruberoid, and the title of the company.

The change will in no way affect the products or the personnel of this concern. The Ruberoid Co., Limited, will continue the manufacture of the same products and maintain the same high standards that have always characterized the manufacturing processes and sales policies of the Standard Paint Company of Canada, Ltd.

The offices and plants of the Ruberoid Co., Limited, will be the ones operated by the Standard Paint Company of Canada, Ltd.

Old Country Manufacturer Comments on Canada's Prosperity

Manufacturers in United Kingdom, he States, Have Not The Same Advantages Over Other Countries as in Pre-War Days—No Cheap Labor, Coal or Transportation

DAVID PERRY, of Perry and Hope, Glasgow, Scotland, manufacturers of colorings, zinc oxide, etc., has been in Canada for some time. Discussing business conditions with a representative of Hardware and Metal, he remarked that here in Canada he thought there was a good deal of prosperity, and Canadian business men were not suffering from trade depression to the same extent as other countries. Mr. Perry, with his wife and daughter, is returning to Scotland at the end of this week, after a five months' tour around the world. He had just come across Canada from Vancouver, on his arrival there from Australia. He has had an opportunity to study conditions in Australia, New Zealand and now in Canada.

Not the Same Advantages

"Conditions are very much better here than in the Old Land, although there is some improvement over there," Mr. Perry added. "Old Country manufacturers, however, since the war, have not the same advantages over manufacturers on this side as they had once. We have no longer any such thing as cheap labor, cheap coal or cheap transportation. These things have passed, and competition is more difficult. It just seems that all the tariff of the world are a wall around us. As a result of these new conditions, a great deal of new manufacturing is going to open up in the colonies.

Want Canadian Business

"As regards our own business, we are not selling in the Canadian market to any extent. Some years ago it was our intention to open a factory in Canada, but the idea was abandoned. Ultimately it might be that we will locate in Canada. During my short stay in Canada I have come to the conclusion that there is a big field here. Owing to the unfavorable exchange situation existing between Canada and the United States there is an evident desire to buy in the Old Land, Canadian buyers being able to profit by our unfavorable exchange in Canada."

Mr. Perry is also keenly interested in the re-establishment of soldiers, and in New Zealand. Australia and Canada, has been giving some study to the problem as dealt with in these countries. He is actively engaged in his own city of Glasgow with this matter, as he was during the war, with the entertainment and care of soldiers from the colonies as well as from the British Isles.

New Industry

Mt. Dennis, Ont.—A Brantford firm engaged in the manufacture of fireproof shingles has secured a site in Mount Dennis and are proceeding to build at once. Their employment roll is guaranteed as being between 300 and 400, and their output from 40 to 60 cars a week.

General Forgings and Stampings, Ltd., has been incorporated to manufacture, sell and deal, etc., in automobiles, motor trucks, and vehicles of all kinds, with capital stock of $900,000 and head office at Merritton, Ont.

* * *

The Happy Thought Foundry Co., Ltd., to carry on the business of manufacturers and dealers in furnaces, general machinery, iron founding, etc., with capital stock of $500,000 and head office at Brantford, Ont.

These two pages will give the B-H agent some idea of the extensive publicity we give to all the B-H products.

In every town where we have an agent there appear in the local newspaper, advertisements such as are suggested here.

All very attractively displayed and imprinted with the name and address of the B-H agent—all drawing attention to his store where

"The Better Paint"

can be obtained—where may also be found a suitable product for every requirement in which a brush is used.

New Hardware Goods

OFFERED TO CANADIAN HARDWAREMEN

MITCHELL STEERING WHEEL

The Mitchell Brass Foundry, Windsor, Ont., are manufacturing a clear room steering wheel for use in all cars having gasoline and spark throttles below the steering wheel. Several advantages are claimed for the Mitchell clear room steering wheel, and it is said to offer a secure and efficient lock, preventing theft, with comfort in getting in and out of car and

Mitchell Clear Room Wheel

a better steering wheel than the one usually included with the car. The operation of locking wheel and of removing and replacing same are stated to be very simple and easy, and the limited space in small cars is no disadvantage. To operate pull out the spring bolt and lift up and away from the steering column. To detach the wheel tilt and then lift upwards. There is no mechanical contrivance to get out of order. The wheel has a walnut finish wood rim with an aluminum spider and is made in 15-inch and 17-inch sizes.

BEEBY UNITY RANGES

Beeby & Aikins, Ltd., Ottawa, Ont., in introducing the Unity line of ranges claim that they are unique in that they embody a combination of new ideas not found in other lines.

It is stated that the Unity range will burn anything that is combustible with efficiency and economy, using wood, coal of any kind, and natural or artificial gas. The manufacturers claim that the construction and performance of the Unity gas burner gives the range outstanding merit and forms the basic principle of a new departure in the construction of a cooking range. The burner is stated to be so designed that the movement of the gas valve handle automatically controls and regulates the right proportion of primary and secondary air and gas to produce the proper combustion, overcomes the objectionable back fire in the mixing chamber, and removes a menace to health by reducing four-fifths of the carbon monoxide gas. It is stated that the burners will burn equally as well with a coal fire as without, being protected both from deposits of soot, dust and ashes as well as from the accidental boiling over of utensils. The ovens are 18 inches by 12 inches in the opening. The range is provided with a hot blast air chamber which is claimed to prevent the condensation of gases which are ordinarily wasted and preventing the formation of smoke when soft coal is used. The water front is a steel coil pipe embedded in the fire front plate presenting more surface to the fire and less liable to crack than the cast iron type, it is claimed.

The Beeby Unity range is made in four types, A for coal, wood or gas, B for gas with fireless oven, C for gas with duplex oven, and D for coal and wood.

"SPECO" FOR SOLDERING

The Special Chemicals Co., Highland Park, Ill., are manufacturing and are shortly placing on the Canadian market a new form of sal ammoniac for cleaning and tinning soldering irons, called "Speco." It is said to be the only completely fused form of sal ammoniac. The makers claim that it is supplanting the crystalline form of lump sal ammoniac with its dirt, waste and inconvenience. In Speco the crystals are

"Speco" Soldering

made into a solid block without binder or undesirable foreign substance, it is stated, and one pound of Speco is said to go as far as five times as much lump sal ammoniac.

It is put up in ½ and 1-pound cakes in individual cartons and is claimed to be unaffected by atmospheric conditions, to keep indefinitely, is odorless and can be carried without danger of rusting tools.

UPRESSIT SHAKER COVERS

The Upressit Corporation of New York City is putting on the Canadian market a device for salt and pepper shakers designed to keep the holes free during hot and damp weather. To clear the holes a pressure at the centre of the shaker is necessary. The Upressit shaker top may be removed and replaced by a simple pressure of the finger. The pressure expands therein, thus permit-

"Upressit" Shaker Tops

ting the cap to be removed. To close again the rim is pressed and the shaker is resealed. The Upressit shaker is of white glass artificially fluted. The cap is plated with silver. The Upressit Products Corporation also manufactures Upressit caps for bottles, tins, jars, etc. The illustrations show the salt and pepper shakers.

"NUREXFORM" DRY LEAD ARSENATE

A new form of lead arsenate for spraying is being put on the Canadian market by the Canada Rex Spray Co., Ltd., Brighton, Ont., and has been called "NuRexform." This product is said to be the result of extensive experiments, and the following claims are made for it—that it stays in suspension in water all day; covers the surface of leaf and fruit better than the old forms of lead arsenate; is more adhesive and will not wash off. The old form of lead arsenate when sprayed on foliage is said to collect or draw together in spots and particles, leaving a large percentage of the surface with no protective covering at all. This defect is claimed by the makers to have been overcome by the invention of "NuRexform," and its use is said to give fruit and vegetable growers greater protection against insect pests.

Weekly Hardware Market Reports

STATEMENTS FROM BUYING CENTRES

MARKETS AT A GLANCE

FURTHER price reductions on hardware lines are the chief feature of the hardware markets. Lower prices are now in effect on wire and cut nails, and on bright and galvanized fence staples, logging tools, sash weights, wrought iron washers, leather belting, iron bench screws, cotter pins, boiler rivets, wire clothes lines, pipe wrenches and linseed oil. Some makes of padlocks have been considerably reduced in price and lower quotations are made for fall booking on ash sifters, sleigh bells and chimes, lantern globes, and lamp chimneys.

An advance has been made in the price of veneered chair seats, while heavy hardware, including bar iron and steel, wrought pipe, black and galvanized sheets, show little change. The scrap market continues at a low ebb with little sign of improvement. The ingot metal market continues dull although prices are holding fairly well. The British strike is affecting the situation.

The feature of the week in the steel markets is the announcement of price revisions by the U.S. Steel Corporation. Substantial reductions have been made in prices of several steel products. The effect on the market will be seen later. On many products the new prices will enable them to be sold at recent quotations and allow a profit where formerly such prices were sacrifice quotations to close out stocks. Buying in the steel and metal markets is still largely confined to actual requirements and conditions are not considered favorable for heavy buying. Wholesalers state that their sales are showing a steady improvement and business is increasing in volume. Some repeats on booked orders for spring goods are reported and with stocks unusually low it is believed that there will be need of replacement as the season advances.

Montreal Markets

MONTREAL, April 14.—Featuring the hardware markets this week is the reduction on wire nails, cut nails and fence staples. Wire nails are now quoted at $4.55 base, f.o.b. Montreal, cut nails $5.10 base, galvanized and bright staples at $6.25 and $5.25 respectively. Logging tools show a decline of approximately 15 per cent. Iron bench screws and sash weights are also lower. Wrought iron washers are now selling at 50 per cent. off list.

For fall deliveries, lamp chimneys, lantern globes, sleigh bells and chimes are shown at reduced prices. Boat nails and boiler rivets are also among the declines. The only advance for the week is on chair seats, these having been advanced about 10 per cent. In the heavy goods, sheets, corrugated sheets, bar iron and steel, lead products, pipe and pipe fittings are remaining unchanged, while ingot metals also hold well.

Wrought Iron Washers Lower

Montreal.

There has been a change in discount on wrought iron washers, and these are now selling at 50 per cent. off list, formerly being 45 per cent. off.

Cotter Pins 82½-20 P.C. Off

Montreal.

Cotter pins will now cost less, the new discount being 82½ and 20 per cent. off list prices.

Lumbering Tools Down

Montreal.

A reduction of approximately 15 per cent. has been made on logging tools, including such articles as pike poles, canthooks, peavies, etc. The former discount was 5 per cent. off, while the new discount is 20 per cent. off list prices.

Wire Nails $4.55 Base

Montreal.

Wire nails have been reduced in price, and the new quotation f.o.b. Montreal is $4.55 base. This is a reduction of 45 cents per keg or 9 per cent. Sales of wire nails are continuing smaller than other years at this time, but they are moving in fairly good volume in small shipments. New construction will be the only factor to bring on an increased demand as dealers are only buying for actual requirements and no increase in sales is made by the reductions coming through the last few months.

Cut Nails Also Reduced

Montreal.

Cut nails also show a decline of 65 cents per keg in price. The new quotation f.o.b. Montreal is $5.10 base.

Decline in Chimneys and Globes

Montreal.

It is understood at time of going to press that a reduction of approximately 5 per cent. was made on lamp chimneys and lantern globes, but new net prices were not available.

Better Movement in Corrugated Sheets

Montreal.

A decided increase in business is reported on corrugated sheets after a quiet period of winter months when dealers were not placing their orders for spring requirements. Merchants throughout the country are still purchasing in small quantities, but the actual demand has apparently followed the open weather. Following are the unchanged quotations, although there is a variation of prices on the two lighter gauges, with slightly better prices obtainable.

CORRUGATED SHEETS—	Per 100 Sq. Ft.
No. 28 gauge	9 50
No. 26 gauge	10 25
No. 24 gauge	16 00
No. 22 gauge	19 00
No. 20 gauge	22 00
No. 18 gauge	28 00

Less 7½%.

Lighter than 24 gauge and wider than 27 inches, 75c a square extra.

Sheet Sales Small

Montreal.

There is a little better demand for sheets, both black and galvanized, but hardly worthy of note. Present stocks are fully ample, and jobbers are not encouraged to buy except in accordance with sales now being made. The report of an advance in steel prices in the United States from sources that have been offering attractive figures did not come as a surprise to many dealers, and one local jobber stated he expected it and wondered it did not come at an earlier date. It is apparent that recent quotations from many U. S. fields were below productive costs, and failed to locate any

revival or activity in their output. The action taken by the Steel Corporation of lowering the prices on their output is also looked on with general interest. Local prices are nominally unchanged this week but are quoted as having a range, as a variation exists from different quarters. Following are the quotations:

PLATES—	
10 gauge	6 25
12 gauge	6 30
14 gauge	6 45
16 gauge	6 55
BLACK SHEETS—	
10 gauge	6 50
12 gauge	6 55
14 gauge	6 60
16 gauge	6 80
18-20 gauge	7 95
22-24 gauge	8 00
26 gauge	8 10
28 gauge	8 20

Sheets 36 in. wide, 10c per 100 lbs. extra.

GALVANZED SHEETS—

U.S. Standard—

10¾ oz.	9 25	10 25
28 gauge	8 75	9 75
26 gauge	8 50	9 50
22 to 24 gauge	8 35	9 35
20 gauge	8 15	9 15
18 gauge	8 15	9 15
16 gauge	8 00	9 00
14 gauge	8 15	9 00
12 gauge	8 00	9 00

English Standard—	Queen Head	Fleur-de-Lis
28 gauge	10 75	10 00
26 gauge	10 50	9 75
24 gauge	9 90	9 35
22 gauge	9 55	8 90
18 and 20 gauge	8 85	8 75

NOTE.—These prices are for full bundles, an extra charge of 25c to 35c per 100 lbs. is made for broken lots. These quotations are nominal.

Sleigh Bells Will Cost Less

Montreal.

Of interest to those who book for fall delivery on sleigh bells and chimes will be the announcement of a reduction of approximately 5 per cent. on the lines manufactured by C. O. Clarke & Bro.

Decline in Boat Nails

Montreal.

Through a change in discounts boat nails are now lowered in price. The new discount on black is 60 per cent. off, and galvanized 45 per cent.

Fence Staples 50 Cents Lower

Montreal.

Wire fence staples, both bright and galvanized, show a reduction of 50 cents per 100 pounds this week. Following are the new quotations:

FENCE STAPLES—	Kegs	Less
Bright	5 25	6 25
Galvanized	6 25	7 25

Boiler Rivets $6.50 Base

Montreal.

There has been a change made in the base price of boiler rivets, and these are now selling at $6.50 base.

Bench Screws Lowered

Montreal.

New lower prices are now quoted on iron bench screws and are as follows: 1 inch, $13.75; 1⅛ inch, $17; 1¼ inch, $20.

No. 50 Harness Buckles List Price

Montreal.

No. 50 harness buckles are now quoted at list price, formerly selling at plus 10 per cent. Steel axle clips are quoted at 10 per cent. off.

Bar Prices Unchanged

Montreal.

The demand for iron and steel bars is still small considering the season of the year, only sorting orders being received. With the curtailment of pig iron production in the United States comes the report of an advance in steel quotations in many quarters, while the Steel Corporation have lowered the prices on their output. Whether this will have any immediate effect on local quotations in the near future is hard to determine at present. Stocks are fairly heavy in local warehouses. Following are present quotations:

Common bar iron, 100 lbs.	4 00
Refined iron	5 50
Iron finished machinery steel	4 05
Mild steel	4 00
Band steel	4 00
Single reeled machinery steel	6 80
Spring steel	6 00
Sleighshoe steel	4 00
Tire steel	4 20
Toe calk steel	4 90
Harrow tooth steel	4 15
Mining tool steel, per lb.	0 23
Black Diamond tool and cast steel	0 23

NOTE—Refined iron is approximately $1.50 per 100 lbs. over base, but fluctuates owing to unsettled market.

Band steel in scroll bdles., 50c per 100 lbs. extra.

Flats, iron and steel, 3-16 and thinner, 50c per 100 lbs. extra.

Scrap Market Does Not Improve

Montreal.

The long period of inactivity in waste materials shows very little improvement, notwithstanding the open weather. Inquiries are not coming to hand in seasonable numbers, and have had a tendency to become less in the last few weeks. Dealers state that the lower prices that were put into effect a week or so ago may have a tendency to open the situation, but with the steel production as it now stands little improvement may be expected in the ferrous metals. Non-ferrous metals are much in the same position, showing practically no demand. Following are the nominal quotations:

DEALERS' BUYING PRICES.

Automobile tires	0 75
Yellow brass	0 05
Red brass	0 08½
Light brass	0 04
Scrap zinc	0 04
Lead, heavy	0 03½
Lead, tea	0 02
Light copper	0 08
Heavy copper	0 10½
Wrought iron, R. Rd., No. 1, per gr. ton.	12 00
Malleable scrap (ton)	11 50
Pipe scrap (ton)	8 00
Stove plate, per ton	18 00
Heavy melting steel	8 50
No. 2 busheling	4 00
Boiler plate	0 08
No. 1 machinery cast, per gr. ton	$25.00 28.00

Compression Goods Hold

Montreal.

Prices are remaining steady on the different lines of compression goods. The business in these continues fair, and brass valves have shown considerable activity during the past few weeks. Following are the present quotations:

Compression work, standard	34%
Fuller work, standard	30%
Bath cocks, compression	25%
Basin cocks, Fuller No. 0	30%
Do., Nos. 1 and 2	30%
Flatway stop and waste cocks, standard	34%
Roundway stop and waste cocks, standard	34%
Brass steam cocks, standard	10%
Radiator valves, standard	23%
Do., removable disc	38%
Globe, angle and check valves, standard	5%
Gate or straightway	Net
Jenkins globe	10%
Jenkins gate valves	10%

Wrought Pipe Fairly Active

Montreal.

There continues a better feeling on wrought iron and steel pipe, and deliveries are now being forwarded in good numbers. The volume of business in piping has kept up fairly well all during the early months of the year, due to dealers being able to replenish their stocks after the shortage the latter end of last year. List No. 50 is now the selling basis, effective March 28, and will be found on current pages.

Pipe Fittings Unchanged

Montreal.

There has been no further change in quotations on the different kinds of fittings since the slight reduction of last week. A good sorting business continues, with stocks now in good shape in practically all kinds and sizes. Following are present quotations:

Bushings, cast	25%
Do., malleable	25%
Flanges	27%
Plugs	22½%
Flange Unions	20%
Dart unions, black	20%
Do., gal.	add 5%
Nipples, ⅛ to 4 in. close and short	40%
Do., long	50%
Do., 4½ to 8 in., close and short	30%
Do., long	40%
Couplings, 4 in. and under	20%
Do., 4½ in. and larger	Net list

Pound goods—	Black	Galv.
Class B	0 20	0 28
Class C	0 13	0 20

Add 10%.

Gasoline and Coal Oil Hold

Montreal.

Quotations on coal oil and gasoline are unchanged. Coal oil is selling at 28 cents, motor grade gasoline at 39 cents and the higher grade at 44 cents. Fuel oil is quoted at 9.40 per gallon in tank cars, 11.40 in barrels.

Chair Seats Advanced

Montreal.

Veneered chair seats are quoted at an advance of approximately 10 per cent. over former prices. Following are the new quotations on the different sizes:

Chair Seats.—12 in., $1.60 dozen; 13 in., $1.70; 14 in., $1.85; 15 in., $2.10; 16 in., $2.35; 18 in., $3.15.

Garden Hose Now Forwarded

Montreal.

Manufacturers of garden hose state that supplies for this season are now nearly all forwarded, and report an exceptionally good year. Many jobbers are shipping, while others are still carrying fairly heavy stocks for later deliveries. Following are quotations on the best selling grades and sizes:

Lawn Hose.—½ in. x 3-ply, plain, 11½c per ft.; ½ in. x 4-ply, plain, 13c; ½ in. corrugated, 19c; ¾ in. x 3-ply, plain, 15½c; ¾ in. x 4-ply, plain, 17c; ¾ in. corrugated, 25c.

Rope Selling Better

Montreal.

A gradual increase in sales of rope is noted but the movement is not as fast as it should be at this season even yet. This year has been very quiet on rope, however the early summer months will no doubt bring a much heavier demand when the actual needs will become

greater. Prices remain unchanged at 24½ cents base for pure Manilla, 20 cents for Beaver or New Zealand hemp, and 18 cents base for sisal and lathyarn.

Lead Products Steady

Montreal.

Prices on all lines of lead products are unchanged. With the firming of pig lead these products have been able to hold on a steady market, and although a reaction would not be surprising to some dealers, lower prices are thought unlikely in the finished products for some little time at least. There is a gradual increase in the demand for all lines, and jobbers are now waiting for the building trade to open, with ample stocks on hand. Prices are as follows:

Lead pipe	0 12½
Lead waste	0 13½
Note.—Lead pipe is subject to a discount of 10%.	
CouplingsLead traps and bends	10% off
Lead wool, lb.	0 13½
Lead sheets, 2½ lbs.	0 11
Do., 3 to 3½ lbs. sq. ft., lb.	0 10¾
Do., 4 to 8 lbs.	0 10
Cut sheets ¼c lb. extra and cut sheets to size, ¾c lb. extra.	
Solder, guaranteed, lb.	0 26
Do., strictly, lb.	0 24
Do., commercial, lb.	0 21
Do., wiping, lb.	0 21¾
Do., wire lb.	0 34
Zinc, sheets, casks	0 14
Do., broken lots	0 15½

Reduction in Sash Weights

Montreal.

A reduction of one half cent per pound has been made on sash weights, both solids and sections. Solids are now selling at $4.50 per 100 pounds, and sectionals at $5.50.

Ingot Metals Hold Well

Montreal.

Markets on the different ingot metals are holding remarkably well. The London market also continues to advance despite discouraging news from that source. It is unlikely, however, that this advance will continue, but it is generally felt that the bottom has been reached on practically all ingots, and any changes in the future will be for the better.

TIN—This metal has advanced steadily in London and has now touched the highest point since the latter part of February. Whether this will be maintained is hard to determine, but this is a decided improvement in tin, as last week it was reported easier. New York continues to hold firm. Local prices are a little higher at 36½ cents.

COPPER—Although copper has been a little easier in New York owing to the fear of exports being cut off, the trade was rather encouraged by the news of an order of 2,000,000 lb. being placed by Germany. With production curtailed as it is, this may have a stimulating effect on the market. Local prices are unchanged at 17¾ cents for casting and 18 cents for electro.

SPELTER—The United States markets remain unchanged on spelter, but a firmer tone has been shown in London. It is generally felt this metal should continue to improve. Local price is unchanged at 8½ cents.

LEAD — Lead shows continued strength in London with steady advances being made. Opinions differ as to the future of this metal, and some state they would not be surprised if a reaction would set in. Local quotations are a little easier at 6½ cents.

ANTIMONY—Stocks of antimony are still quite heavy, while the market remains very dull. Chinese antimony is quoted at 7½ cents, high grade English 8½ cents.

ALUMINUM—Business is still reported dull in aluminum, with price remaining unchanged at 35 cents.

Toronto Markets

TORONTO, April 14.—The chief feature of the price changes this week is the reduction in wire nails and fence staples. Leather belting has been reduced about 10 per cent. Other declines include pipe fittings, pipe wrenches, padlocks, cotter pins, mops, wire clothes lines, ash sifters, and lamp chimneys and lantern globes.

Black and galvanized sheets are showing some lower quotations, but prices are holding on corrugated sheets, bar iron and steel, wrought pipe and other heavy hardware lines. There is little business reported in ingot metals and prices are showing little change.

A better business is reported in shelf hardware and in spring and summer lines which are moving satisfactorily although in smaller lots than last season. Some repeats on booked spring orders are already reported, showing that stocks are not heavy and need early replacement.

Fence Staples Are Down

Toronto.

A reduction of 50 cents per 100 pounds is reported on fence staples, both bright and galvanized. The new quotations on these are the following:

FENCE STAPLES—

	25-lb. boxes.	100-lb. kegs.
Bright, per cwt.	$6 25	$5 25
Galvanized, per cwt.	7 25	6 25

Wire Nails Reduced 45 Cents

Toronto.

A reduction has been made in the price of wire nails and the new base price is 45 cents per keg lower. The new base price is $4.65 per keg, f.o.b. Toronto, Hamilton, London, or Milton, and $4.75, Collingwood and Owen Sound.

Trimo Wrenches are Lower

Toronto.

A decline has taken place in the price of the Trimo wrench and the new net prices of these are as follows:

TRIMO WRENCHES—

8 inch, per dozen	$16 90
10 inch, per dozen	18 80
14 inch, per dozen	26 25
18 inch, per dozen	37 50
24 inch, per dozen	54 50

U. S. STEEL CORPORATION MAKES SUBSTANTIAL PRICE REDUCTIONS

The anticipated action of the U. S. Steel Corporation in reducing prices has materialized with an announcement by E. H. Gary of substantial reductions in the base selling price of the company's products. The new prices become effective immediately and are as follows:

Heavier billets, 4x4, from $38.50 to $37 a gross ton; slabs, $42 to $38 a gross ton; sheet bars and small billets, $47 to $39 a gross ton; bars, $2.35 to $2.10 per 100 pounds; plate, $2.65 to $2.20 per 100 pounds; structural, $2.45 to $2.20 per 100 pounds; wire rods, $57 to $48 a gross ton; plain wire base, $3.35 to $3 per 100 pounds; tin plate, $7 to $6.25 per base box; wire nails, per keg, $3.25, base.

New Carpenter's Chalk Prices

Toronto.

Prices on carpenter's chalk have been revised and the new quotations are as follows: Red and blue, per gross net, $2.65; white, $2.15.

Revisions in Fittings

Toronto.

Some further revisions have been made in fittings and the declines range from about 5 to 7 per cent. Cast iron fittings are now quoted at 20 per cent. off list. The old discount was 15 per cent. Bushings go from 25 to 30 per cent. off. Unions from 30 and 35 per cent. to 35 and 40 per cent. Dart Unions also show a decline. Sales are yet light and little orders except for present requirements are reported. The following are the present quotations:

Cast iron fittings	20%
Plugs, cast iron	27½%
Do., solid	10%
Do., countersunk	net
Bushings	30%
Unions, ¼-in. to 2-in.	40%
Do., ⅛ in., 2½ to 4 in.	35%
Flanged Unions	20%
Dart Unions, blk., ¼ to 2 in.	29%
Do., ⅛ in., 2½ to 4 in.	14%
Do., galvd., add to black	**30%**
Nipples, blk. and galvd., ⅛ to 4 in., close and short	40%
Do., 4½ in. and larger	**30%**
Do., long, ⅛ in. to 4 in.	50%
Do., 4½ in. and larger	40%
Do., running thread	**20%**
Couplings, 4-in. and under	**20%**

MALLEABLE FITTINGS

	Black.	Galvanized
Class A	0 60	0 75
Class B	0 23	0 32½
Class C	0 15	0 23

Miller Padlocks are Lower

Toronto.

A reduction has been made in the price of Miller padlocks, amounting in most lines to about 20 per cent.

Stillson Wrenches Lower

Toronto.

The Canadian make of Stillson wrench has been further reduced in price and is now quoted at 50 per cent. off list. The new net prices figured at this discount are the following:

Net prices.
6 in., each, $1; 8 in., $1.13; 10 in., $1.25; 14 in., $1.75; 18 in., $2.50; 24 in., $3.63; 36 in., $6.75.

Cord Mops Are Reduced

Toronto.

There has been a decline in the price of the heavy twisted twine mops of the Dandy or Challenge type, and these are now selling about 20 per cent. lower.

Wire Clothes Lines Down

Toronto.

A reduction has been made in the price of galvanized wire clothes lines and these are now quoted approximately 10 per cent. lower.

House Numbers in Demand

Toronto.

At this time of the year there is a good call for house numbers owing to removals, house cleaning, etc., and the different kinds, brass, white enamel and aluminum, are selling well. The aluminum have been reduced in price recently and are now put up on handy display cards.

Hammock Hooks are Lower

Toronto.

Hammock hooks are beginning to move now and the swivel plate hook is quoted at $1.20 per single dozen.

Lamp Chimneys are Reduced

Toronto.

A decline has taken place in the price of lamp chimneys and in case lots of six dozen these are now quoted at $11.25 for size B and $13.85 for size A.

Decline in Lantern Globes

Toronto.

Lantern globes have been reduced in price and the long or short pattern are now quoted per dozen as follows: 1 dozen lots, $1.65; 3 dozens, $1.55; 6 dozens at $1.35 per dozen. This is a decline of about 15 per cent.

Stoves and Ranges

Toronto.

This is usually regarded as a quiet time for stoves and ranges, but within the next few months many young couples are just starting housekeeping and will be needing cook stoves and ranges, and in the spring there are always a good number of ranges sold to customers who are changing their place of abode. Many lines of cook stoves and ranges have been recently reduced about 10 per cent. as was reported a short time back. The booking for fall delivery has hardly started yet and manufacturers state that present stocks are not large and a good-sized order would in many cases be hard to fill. Materials are easier to procure than was the case last season and it is anticipated that stocks will be in better shape for the coming season. Gas ranges and combination ranges of gas and coal and wood are meeting with a good demand, and there is a good, steady, growing sale for electric ranges and cook stoves.

Oil Stoves in Demand

Toronto.

Orders booked during the winter for oil stoves are now going forward, and with the approach of warmer weather a good movement is looked for, although the blue flame oil stove is practically an all the year round seller now. Some repeats of booked orders are already reported and are due probably to the fact that many retailers placed smaller orders than usual at the end of last season. There has been no change of prices since last spring and these are quoted at the same prices which were in effect at the end of last summer.

Corrugated Sheets Improve

Toronto.

A continued improvement in the demand for corrugated sheets is reported, though smaller than normal. Prices remain firm and quotations are the following:

CORRUGATED SHEETS—	Per 100 Sq. Ft.
No. 28 gauge	9 50
No. 26 gauge	10 25
No. 24 gauge	16 00
No. 22 gauge	19 00
No. 20 gauge	22 00
No. 18 gauge	28 00

Less 7½%.

Lighter than 24 gauge and wider than 27 inches, 75c a square extra.

Lawn Mowers Being Shipped

Toronto.

Booked orders for lawn mowers have in most cases been shipped out and are reported to be generally lighter than last year. It appears as if retailers have ordered less than their usual requirements and with an ordinary demand there is likely to be a sorting up required before the season is far advanced. Prices are holding firm at the quotations made last fall.

Booked Rope Orders Moving

Toronto.

Spring shipments of rope are being made and a smaller buying tendency is reported. Stocks are not regarded as heavy and wholesalers look for repeat orders to make up for smaller spring shipments. Prices are unchanged and quotations will be found on current market pages.

Compression Work Unchanged

Toronto.

No changes are reported in prices of compression work, though a downward tendency is expected by some on valves, following reductions on some of these lines in the United States. Business continues light for this season of the year, but some slight improvement is shown in some directions. Quotations are as follows:

Compression work, standard	34%
Fuller work, standard	30%
Bath cocks, compression	25%
Do., Fuller	25%
Flatway stop and waste cocks, standard	34%
Roundaway stop and waste cocks, standard	34%
Brass steam cocks, standard	10%
Globe, angle and check valves, standard	5%
J.M.T.	10%
J.M.T. C.	15%
J.M.T. Gate Valves	15%
Gate or straightway	7/10%
Jenkins Globe	10%
Radiator valves, standard	23%
Do., removable disc	38%
Basin Cocks—	
No. 1 and 1, Fuller pattern	30%
Quick opening	28%
Emco J. D. Valves	10%
Emco Check Valves	10%
Webber Gate Valves	15%

Coal Oil Prices Hold

Toronto.

Prices on coal oil and gasoline are holding unchanged. The quotations for oil are 27 cents to 30 cents per gallon according to grade, and motor grade gasoline is quoted at 38 cents net.

Bar Iron is Slow

Toronto.

No changes are reported here in bar iron or steel prices. Business is stated by wholesalers to be light and showing very few signs of improvement. Consumers are not anxious to buy or place orders beyond their immediate requirements and it is said not to be a question of price at all. It is reported that some of the mill prices in the Youngstown district have been advanced on steel bars this last week "to bring selling price more in line with the cost of production." At the same time some of the leading producers in the Chicago district have made cuts of $6 a ton in bar iron. The following quotations are general here:

Common bar steel, 3-16 in.	$ 4 50
Common bar steel, ¼ in. and heavier	4 00
Common bar iron, 3-16 in	4 50
Common bar iron, ¼ in. and heavier	4 00
Angle base	4 10
Horseshoe iron	6 00
Tire steel	5 25
Band steel	4 50
Spring steel	12 75
Crucible Cast Sheet Steel	**35 00**
Mining drill steel	23 00
Common Cast Tool Steel	**20 00**
Sleigh shoe steel	4 50
Norway iron	**15 00**
Toe caulk iron	6 75
Hoop Steel	6 00

Pipe Sales are Small

Toronto.

Pipe is held at the change made two weeks ago and list No. 50 is being used. A small increase in demand is reported by some wholesale houses, but taken on the whole sales are small and are for present requirements. Stocks as a rule are small and the retailer is playing safe by buying from hand to mouth. Prices are to be found on current market pages.

Lead Goods Are Steadier

Toronto.

There is little change reported in sales of lead and zinc products. Manufacturers are finding a small but steady increase for these lines as the season advances, but sales are usually small in size. Prices of lead in the primary United States markets continue to show a firmer tone, and English prices have also strengthened but the demand continues weak. Many are of opinion that prices of lead products are as low as may be expected. The following are current quotations:

Lead pipe, list, per lb.	0 12½
Lead waste pipe, list, per lb.	0 13½
Do., over 8 in., list, per lb.	0 14½

Lead pipe is subject to a discount of 10%.

Lead traps and bends	10%
Lead sheets, 4 to 6 lbs. sq. ft., in rolls, lb.	0 09½
Cut sheets, ½c to ¾c lb. extra and cut sheets to size 1c lb. extra.	
Solder, wire, per lb.	0 34
Do., strictly, lb.	0 24
Do., commercial, lb.	0 22
Do., guaranteed, lb.	0 27
Do., wiping, lb.	0 22
Zinc sheets, per lb.	0 16

Leather Belting Reduced

Toronto.

A reduction has been made in the price of leather belting and the new quotations are 10 per cent. lower. The new discounts are 15 and 10 per cent. off extra quality, and 15/10/10 per cent. off standard quality. The discounts apply to list of November 4, 1920.

Canada Plate Lower

Toronto.

Lower quotations are in force on Canada plate and $9.50 to $9.75 is the price named on boxes of 52 sheets. There is not much demand at the present time and stocks are ample for all requirements. From present indications stocks this fall should be in good shape and there should not be the shortage of last season. Tin plate prices are also being quoted lower, and the tendency is downwards. It is reported that Welsh tin plate is being offered at New York at over $1 per box below the Pittsburgh quotations.

Wares Show More Activity

Toronto.

With the coming of spring there is a little more activity reported in wares but sales generally are reported to be smaller than usual at this time of the year and it is apparent that both wholesalers and retailers are keeping stocks low so that in the event of price declines their losses would be minimized. Prices on nearly all lines of wares, excepting copper ware, have remained firm and shown little change.

Columbia Bell Ringer Batteries

Toronto.

The Columbia Bell Ringer, a new line consisting of two dry cells sealed into one unit, is on the market and is meeting with a good sale. As its name implies it has been specially manufactured for electric bells and is expected to fill a want. It is priced at 98 cents each in lots of one dozen.

Boiler Tubes : Small Demand

Toronto.

The demand for boiler tubes is much lighter than the season of the year warrants. Prices continue to hold firmly on most sizes although some prices would be shaded for quantities.

Eavestrough Demand Better

Toronto.

An improvement in the demand for conductor pipe and elbows and eavestrough is reported. From now on the sale in these goods should be larger. Prices continue to hold unchanged at prices made early in the year, and quotations will be found on current market pages.

Welded Range Boilers Selling

Toronto.

A steady sale for range boilers is noted and a small increase in the demand for the standard 30-gallon size is reported. The electric welded boiler is being quoted at $11.50 and $11.75 in the 30-gallon size. and the standard riveted boiler at $12.50. Other sizes are priced as follows:

RANGE BOILERS—	Standard	Ex. Heavy
30 gallon	$12 50	$15 00
35 gallon	15 00	17 00
40 gallon	17 00	19 00
52 gallon	24 00	28 00
66 gallon	32 00	38 00
82 gallon	40 00	50 00
100 gallon	50 00	60 00
120 gallon	60 00	70 00

Fall Ash Sifter Prices

Toronto.

The new prices for Banner ash sifters for booking for fall delivery are announced and are a reduction from the prices in effect this last season. The new quotations are the following:

BANNER ASH SIFTER—No. 1, $5.50; No. 2, $2.90; No. 3, $1.90.

Asbestos Products Little Changed

Toronto.

The demand for asbestos products, sheathings. roofings, asbestos shingles, etc., is not yet showing much increased activity but with a better outlook for building than was expected earlier in the season larger sales are anticipated. Prices show little change and while labor costs, freights, etc., remain at present levels there appears not much reason to expect any substantial change it is stated.

Sheet Market Weak

Toronto.

Although the majority of wholesale dealers state that no change has been made in the price of sheets lower quotations are made by others and it is fairly evident that a fair-sized order could be placed at lower than the prevailing quotations. There appears to be an effort to keep stocks down as low as possible and buying continues light and sorting orders are placed more frequently, so as to take advantage of any decline in prices. The operations of the United States independent sheet mills are reported to have dropped to about 25 per cent. of capacity. Further declines in prices are noted in the Youngstown district and quotations are made at 50 to 60 cents below those of last week on galvanized sheets. Black and galvanized are also quoted lower with practically no demand. The attitude of the Steel Corporation regarding future prices is being looked forward to to bring stability to the market. An announcement regarding their new prices has just been made. Quotations here show a range and are as follows:

PLATES

10 gauge	from $5 00 to $6 00
12 gauge	5 05 6 05
14 gauge	5 10 6 10
16 gauge	5 20 6 20

BLACK SHEETS

14 gauge	5 10 to 6 10
16 gauge	5 20 6 20
18-20 gauge	5 75 6 75
22-24 gauge	5 80 6 80
26 gauge	5 85 6 85
28 gauge	6 00 7 00

Prices shown are for full cases. An extra charge of from 25c per 00 lbs. is made for less than case lots. An extra 10c per 100 lbs. is also charged on sheets 36 in. wide.

GALVANIZED SHEETS

Premier and Apollo	
10¾ oz.	8 60 to 9 60
U. S. 28	8 20 9 20
U. S. 26	7 90 8 90
22 and 24	7 75 8 75
18 and 20	7 60 8 60
16	7 45 8 45
12 and 14	7 40 8 40

An extra 40c per 100 lbs. is charged for Keystone brand copper bearing sheets.

An extra is now charged on galvanized sheets, 10¾ oz. and 28 ga., when shipped out in sheets 3 feet wide. The extra charged over prices shown above is 20c per 100 pounds. Other gauges show no change for different widths.

Prices shown are for full cases. An extra charge of 25c per 100 lbs. is made for less than case lots.

Slow Waste Material Market

Toronto.

Business in waste materials is reported to be almost at a standstill, and though consuming plants are operating more actively they have sufficient supplies on hand to meet their present requirements. The line that has shown the most demand has been No. 1 cast scrap. In copper and brass the demand has been very dull. Prices are still largely nominal and the following are for fairly large quantities.

WASTE MATERIAL

No. 2 busheling		$13 00
Stove plate, per ton	19 00	20 00
Yellow brass	6 50	7 50
Red Brass		10 00
No. 1 machinery cast	24 00	25 00
Heavy melting steel	13 50	14 50
Heavy Copper	10 50	11 00
Scrap zinc	3 75	4 25
Light brass	4 00	4 50
R.Rd. wrought iron, No. 1, gr. ton	13 50	14 50
Scrap pipe	8 00	9 00
Heavy lead pipe	4 00	4 50
Old rubbers, boots and shoes	2 00	2 50
Overseas lumbermen's rubber boots	1 50	2 00
Auto tires	0 50	1 00
Solid tires	0 75	1 25
Tea lead	1 75	2 00

Cut Nails Reduced

Toronto.

A reduction of 60 cents per keg has been made in the price of cut nails, which are now quoted at $5.10 per keg base f.o.b. Montreal. The extras for galvanizing are, under 1 inch $3.50 per 100 pounds and on 1 inch and over, $3.

Wrought Iron Washers Lower

Toronto.

A decline has taken place in the price of wrought iron washers and the new discount is 50 per cent off list. The previous discount was 45 per cent.

Cotter Pin Discount Changed

Toronto.

The discount on cotter pins has been changed from 82½ and 10 per cent. to 82½ and 20 per cent. off list.

Metals Flabby and Irregular

Toronto.

The ingot metal market has been described as flabby and irregular, and trading this week has been dull. The labor situation and prospective strike in Great Britain is affecting metals in all markets and dealers are little inclined to either buy or sell until the situation has been cleared up. Prices show practically no change, quotations easing

a shade one day and firming again the next but with an entire absence of demand prices seem to be immaterial.

TIN.—This metal has been dull with prices unchanged here. London markets have fluctuated with the developments of the strike but dealers are said to be out of the market. United States markets were weak. Quotations remain at 36 cents per pound.

COPPER.—Prices continue low in copper markets and it is regarded as having reached bottom. United States markets are dull and sales to Europe have decreased. The domestic demand is stated to be disappointing to United States producers. Local quotations are unchanged and casting copper is still at 18 cents.

LEAD.—A slightly firmer tone is shown in lead markets. The demand remains light and the spurt of buying early in the month seems to have subsided. United States markets show little change while London is slightly firmer. Six dollars is still the local quotation.

SPELTER.—The market has been very dull in this and transactions are few and far between. In spite of this prices have held firmly and quotations here are unchanged at $7.25.

ANTIMONY.—The market is dull and quiet. Few inquiries come to hand and quotations are unchanged. Prices 8 to 9 cents per pound.

ALUMINUM.—Business is still quiet with the market firm. United States market reports show an advance there due to increased inquiries from consumers. Thirty cents is still quoted here.

London Markets

LONDON, April 14.—The chief lines affected by price changes this week are wire nails and fence staples which are both reduced in price. Other lines showing lower prices are fence hooks, Stillson wrenches, Banner ash sifters, and linseed oil.

The hardware merchants of this district have been enjoying some real live business during the past week. Many stores are greatly increasing sales by holding demonstrations of paints and varnish stains, oil stoves, electric washing machines and other household appliances. Customers are attracted by these demonstrations by the valuable information they receive from the trained and well posted demonstrators, and sales on other goods are often made. Collections continue to be good.

Linseed Oil Down 5 Cents

London, Ont.

A further reduction of 5 cents per gallon has been made in the price of linseed oil this week and better sales are being experienced. The present quotations are the following:

	Raw.	Boiled.
1 to 2 barrels, Imperial gal.	0 80	0 83
3 to 5 barrels, Imp. gal.	0 79	0 82
6 to 9 barrels, Imp. gal.	0 77	0 80

Less barrels, add 15 cents per gal.

Turpentine Prices Hold

London, Ont.

Prices are held this week on turpentine and no changes are reported. There is a good demand for this product at present and sales are much improved. Quotations are the following:

1 barrel lots, 90c per Imp. gal; 2 to 4 barrel lots, 89c; 5 gal lots, $1.05.

Wire Nails Are Down

London, Ont.

Reductions have taken place in the price of wire nails, and the new base price is 45 cents per keg lower. New quotations are the following:

London, $4.65 base.
Owen Sound and Collingwood, $4.75 base.
Windsor, Walkerville and Sandwich, $4.65 base.
Carload freight allowed.

Fence Staples Are Reduced

London, Ont.

Fence staples have again been reduced in price and are now quoted at 50 cents per 100 pounds lower. The new prices are as follows:

Bright—100 lb. kegs, $5.25 per 100 lbs.; 25 lb. boxes, $6.25 per 100 lbs.

Galvanized, 100 lb. kegs, $6.25 per 100 lbs.; 25 lb. boxes, $7.25 per 100 lbs.

Fence Hooks Down 50 Cents

London, Ont.

A reduction of 50 cents per 100 pounds has been made in the price of fence hooks, and these are now quoted at $6.50 per 100 pounds in kegs, and $7.50 per cwt. in 25 pound boxes.

Stillson Wrenches Reduced

London, Ont.

The Canadian make of Stillson wrench has been reduced about 10 per cent. and is now quoted at 50 per cent. off list. The new net prices figured at this discount are the following:

New net prices figured at 50 per cent. off.
6 in., $1 each; 8 in., $1.13; 10 in., $1.25; 14 in., $1.75; 18 in., $2.50; 24 in., $3.63; 36 in., $6.75.

New Ash Sifter Prices

London, Ont.

The new booking prices for fall delivery on Banner ash sifters have been issued and are lower than this last season. The new quotations are as follows:

No 1, $7. each; No. 2, $3.10; No. 3, $2.10.

New Carpenters' Chalk Prices

London, Ont.

New lower prices have been issued on carpenters' chalk and the red and blue are quoted at $2.80 per gross, net, and the white at $2.25.

Aluminum House Numbers Lower

London, Ont.

New lower prices have been made on aluminum house numbers and these are now selling at 50 cents per dozen.

White Lead Sales Increase

London, Ont.

Sales on white lead in oil are showing an increase each week now, but the quantity moving is not as large as it might be. Quotations are holding unchanged and are as follows:

	Tons.	Less Tons.
Pure, per 100 lbs.	14 95	15 30
Elephant, per 100 lbs.	15 45	15 80

Rope Orders Being Shipped

London, Ont.

The booked orders for rope are being shipped out each week now. There is no change in prices and pure Manila is quoted at 24½ cents, Beaver Manila and New Zealand hemp at 20 cents and sisal at 18 cents.

Screen Doors and Windows Move

London, Ont.

The orders which have been booked for screen doors and screen windows are now moving out. Prices on the Sanderson Harald make are the following:

SCREEN DOORS—(grained only)—No. 1, $23.25 doz.; No. 2, $28.00.

Grained, Filled and Varnished—No. 21, $35, doz.; No. 21½, $36.50; No. 24, $36.50; No. 3, $38; No. 6, $39.75; No. 8, $41; No. 9, $46.15; No. 28, $42.

SCREEN DOORS—No. 12, $4.40 doz.; No. 12½, $4.90; No. 1, $4.25; No. 13, $4.80; No. 14, $5.15; No. 14½, $5.45; No. 15, $5.90; No. 16, $8.15.

No. 2, $5.65 doz.; No. 3, $6.20; No. 4, $6.60; No. 5, $7.25; No. 6, $7.80; No. 7, $8.40; No. 8, $9.10; No. 9, $9.90; No. 10, $12.20.

Good Sale For Netting

London, Ont.

There is a good sale at present for poultry netting and in some districts stocks are low. The Canadian make is selling at list plus 10 per cent. for both 2-inch and 1-inch mesh.

Screen Wire Cloth Selling

London, Ont.

There is a good movement of screen wire cloth and sales if not large are numerous. Prices are $3.50 per 100 square feet for the black painted cloth.

Spades and Shovels Selling

London, Ont.

Sales are more numerous on spades and shovels and on garden tools now. The selling price of garden tools is list less 50 and 10 per cent. and on spades and shovels list less 35 per cent.

Base Ball Goods Moving

London, Ont.

A good movement is in progress on baseball goods and the Reach line is in good demand. The quotations on some of the best sellers are the following:

BALLS—No 9, $21.75 doz.; 1L, $19.80; 0J, $18.60; 3C, $16.80; 4A, $10.00; 7, $8; 9X, $6; 8, $4.80; 9, $4; 9R, $3.20; 11B, $2.

GLOVES—HH, $100, doz.; KG, $88; O.B.L., $81; OOW, $69; 04, $57; S.W., $48; SWN, $51; 9G, $40; 2N, $33; 10N, $26.20; 4G, $22.80; 18X, $15; 19A, $10.80.

MITTS—No. 6A, $160 doz.; 32, $144; 500, $120; 30N, $96; 3I, $80; BP, $60; 200, $48; 160, $40; FPN, $33; 65, $21; M, $14.40.

BATS—13/0, $28.20 doz.; 12/0, $28.20; 109, $20; 100, $20; 2/0, $16; 1/0, $16; 81, $10; 83B, $8; 87, $4.80.

MASKS—0W, $8 7do.; 20S, $66; 30S, $54; 40S, $42; XX, $28.80; 3M, $16.80.

Fishing Tackle in Demand

London, Ont.

The demand for fishing tackle is pretty good just now and sales are increasing. Some of the better selling lines are priced as follows:

KIRBY FISH HOOKS—No. 1 to 12, 16c per 100; 1/0, 20c; 2/0, 21c; 3/0, 23c; 4/0, 27c; 5/0, 30c; 6/0, 35c.

DOUBLE GUT FISH HOOKS—1 to 10, $2.75 gross; 1/0, $3; 2/0, $3.15; 3/0, $3.50; 4/0, $6.
GUT CINCINNATI BASS HOOKS—No. 17, 70c doz.; 18, 65c; 19, 60c; 20, 55c; 21, 50c; 22, 45c; 23, 45c.
STEEL FISH POLES—BB x 6 ft., 7 ft., 8 ft., and 9 ft., $2.25 each.
BBG x 6 ft., 7 ft., 8 ft. and 9 ft., $3.00 each.

FISH REELS—(Hendryx)—No. 024, $5.50 doz.; 206 PN, 8; 290 L, $19.80; 14, $32.50; 16, $34.50.

FISH LINES—No. 201, $2.35 gross; 202, $2.90; 203, $3.25; 204, $3.65; 205, $4.15; 210, 80c doz.; 212, $1.25; 460, $1.45; 462, $1.85. Ontario corded, 90c doz.; Crimson Beauty corded, 90c doz. Rival corded, $2.50 doz. Silkaline corded, $1.50.

Winnipeg Markets

WINNIPEG, April 14.—Prices are steadier on hardware commodities this week. Among the lines showing lower prices are axe handles, galvanized range boilers, spool wire, galvanized clothes lines, egg crates, plumbers' oakum, linseed oil, and certain lines of stoves and ranges. Sales are not increasing to any extent on wrought iron pipe, black and galvanized sheets, or bar iron. These lines are holding at recent changes. Wholesalers report a small but gradual increase in business and sales are showing an improvement over last month. The consuming demand appears to be picking up and much better business is expected this month.

Baseball Goods Selling

Winnipeg.

With the approaching warmer weather jobbers state that baseball goods are beginning to move. Sales are not as heavy as they were this time last year, but it is expected that the demand will soon be greater and as large a business will be done in this line as last season. Prices continue to hold.

Rope Demand Slightly Improved

Winnipeg.

Although the movement of rope has been very slow, business in this line seems to be picking up and this week has shown a marked improvement. Prices are remaining steady at the decline made in February.

Spool Wire Declines

Winnipeg.

Prices have declined on wire on spools and are as follows:

Hair, plain or silvered, 15 per cent. off.
Brass, ¼ lb. spools, net list.
Brass, ½ lb. spools, 15 per cent. off.
Copper, ¼ lb. spools, 12½ per cent. off.
Copper, ½ lb. spools, 5 per cent. advance.

Linseed Oil Declines

Winnipeg.

Sales are improving for linseed oil and the quotations are down 15 cents per gallon this week. Prices are as follows: Raw, $1.05 per gallon; boiled, $1.08 per gallon.

Turpentine Prices Hold

Winnipeg.

The price of turpentine remains unchanged this week and $1.30 per gallon in barrel lots still holds; 10 cents per gallon extra is charged for smaller lots. Containers, 25 cents per gallon extra.

Galvanzied Range Boilers Decline

Winnipeg.

The prices of galvanized range boilers have declined and are as follows:

30 gal., $13 each; 35 gal, $15; 40 gal., $17; 52 gal, $24; 66 gal, $32; 82 gal., $40; 100 gal, $50; 120 gal, $60.

Wrought Iron Pipe Unchanged

Winnipeg.

Wrought iron pipe prices remain the same as quoted last week. There is very little improvement in business, it is stated, and there is still a reluctance to increase stocks more than is absolutely necessary. With new building operations soon commencing it is expected that more activity will be shown and sales will become larger. The new list which became effective March 29 will be found on current market pages.

Galvanized Clothes Lines Reduced

Winnipeg.

The prices of galvanized clothes lines have been lowered and are as follows: 19 x 100 feet, $7.25 per dozen; 19 x 50 feet, $4.40 per dozen.

Egg Crates Reduced

Winnipeg.

The price has been lowered on folding Humpty Dumpty egg crates and are now quoted at $7.50 per dozen.

Plumbers' Oakum Declines

Winnipeg.

A reduction has been made in the price of plumbers' oakum and the new selling price is $5 per bale.

Pittsburgh Markets

PITTSBURGH, April 14.—The chief feature of the week in the steel markets is the reduction in prices by the Steel Corporation, word of which has come to hand since the accompanying article was written. It is too early to judge what effect these declines are likely to have on the market, but opinions have been expressed that they are not drastic enough and will have to be followed by further reductions at an early date.

Prior to the announcement of the price reductions by the Corporation some of independent mills had advanced their quotations on bars, shapes and plates, in the hope, it was believed, that the other independents would follow their example and the Corporation would accept that basis.

Steel production for the month of March was at the rate of about 40 per cent. of capacity for the whole industry.

PITTSBURGH, April 14.—An interesting incident is the announcement by the Republic Iron & Steel Co. of an advance of $2 a ton in its prices for bars, shapes and plates, the advanced prices being 2.10c for bars and 2.20c for shapes and plates. The company made no change in its prices on tubular goods or sheets. It is inferred in the trade that the Republic Company took this action as an experiment, in hope that other independents would do likewise, and that the Steel Corporation would reduce its prices to this basis. The balance of probability is that the other independents will not follow. The theory is a good one, for it is certain the Steel Corporation will reduce its prices at some time, and when it does it will, of course, go at least as far as the lowest prices made by independents. While Republic's regular prices were 2c on bars and 2.10c on shapes and plates there have been some sales at several dollars a ton less, when a fair sized tonnage was involved, with attractive specifications. Republic's advance does not cost anything, since very little business was being booked at the old prices, and a reduction can be made at any time, or competitive prices can be met without any formal reduction being made.

On the same day that the Republic Company announced the advance in its prices on bars, shapes and plates, the Steel & Tube Co. of America, formerly the Mark Manufacturing Co., announced an entirely new schedule of prices on tubular goods, at $10 a ton below the Industrial Board or Steel Corporation prices. The action was entirely unexpected and has caused considerable comment. In line pipe a reduction of $10 from the nominal prices means nothing since line pipe sold weeks ago at a greater concession, and the reduction does not mean a great deal as to oil country goods generally, but in standard steel pipe it is very important, for the shading in this line has been only $2 to $4 a ton. The company's basing discount on standard steel pipe is now 62½ per cent., against the regular published discount of 57½ per cent. shown in the discount lists of other mills. What action the other makers will take remains to be seen, nothing having been done thus far. The market as a whole cannot be quoted at the reduced price of this one interest, not because one good-sized producer could not supply all

Paint Turnover Depends on Knowledge

Dealer Will be Asked Many Questions and Has Opportunity to Increase Sales—Patience Required in Making Satisfied Customers—Encouraging Sales in Large Quantities

"KNOW your stock and you need not worry about sales."

This is the gist of the contention made by a hardware merchant who recently discussed paint matters with HARDWARE AND METAL. This merchant has spent a lifetime in connection with paints and painting materials, and his experience has taught him a great many lessons which he has found valuable and which he is now applying in the pursuit of his retail merchandising.

It was clearly manifest to a representative of HARDWARE AND METAL who called recently that if the man behind the counter knows his stock, there will be no difficulty whatever in making a sale to his customer. In the first place, this merchant contends that the average customer does not possess a clear idea of what he wants when he goes into a store for paints. And this is where the dealer figures and where his knowledge is brought into play most effectively. There is no class of business, perhaps, where the salesman is called upon for more information and where he can advise to better purpose than in connection with the sale of such material. It is up to him in a general sense to give the customer what is suited to his work, rather than what he has asked for. This may be done without offence.

This point was illustrated by referring to a past experience of his in which he could not secure from the manager of a business with which he was connected the amount of goods which he wanted and which he felt sure in his own mind he could sell. This was a new line being manufactured by the firm, and he went out on his own account and took orders. When he returned the manager asked him if he had done any business and he advised him to look for his orders the next morning. In the meantime he had taken a train for an out-of-town point and when he returned the manager expressed his surprise at the amount of business secured. The orders had, as a matter of fact, entirely broken the stock which had been made up in anticipation of orders being received.

Sell the Big Cans

Asked as to whether the dealer could sell the large sizes, in disposing of paint, he said it was a matter of education upon the part of the dealer. HARDWARE AND METAL has often encountered dealers who claimed that they could not sell half gallons and gallon sizes, particularly the latter. According to this merchant, this matter of education can be undertaken and the customer persuaded to take the larger sizes without any difficulty. All this, of course, tends to swell the sales of the dealer, for if the gallon size can be disposed of to a considerable extent it means that the user is applying a larger amount of paint and will, eventually, become a bigger buyer. He will undertake bigger painting jobs when he becomes more confident.

It may also be that at the present time many users find that they can buy a brush and apply paint after a little experience nearly as well as a man who has been at the job for a long time. In any case the suggestion of the dealer should be used to the very best advantage in persuading the customer to buy in the larger cans and thus save on his total outlay.

Handling the "Odd" Customer

One of the experiences which this merchant related has been that of encountering a lot of peculiar individuals among those that buy from him. Many people who come to buy do not seem to know just what they want and here the salesman has to use his ingenuity in making suggestions. It calls for an exercise of considerable patience on the part of the dealer as well.

Speeding Brush Sales

This store makes a big display of brushes and these are sold in large quantities. Asked as to how he had developed sales along this line the merchant said that when a man had bought a quantity of paint he would usually say, "Now what about a brush?"

" 'Just turn around, please,' and, looking behind him, the man will see the variety of brushes we have for sale. He therefore can make a selection of just what he wants and there is no difficulty in making the sale."

The brush display is effective. A small table is placed lengthwise of the store and above this a rack has been made for various sizes and styles of brushes which gives a display that cannot fail to meet the eye of every customer entering the store. This rack has sections of oblong boxes so placed as to permit of the brushes reclining at an angle of about 45 degrees and 6 to 12 brushes in each section. There are nearly two dozen of these sections, and for smaller brushes a large tray is used underneath and placed on the table.

For small brushes used by sign painters and artists, (of which large quantities are sold, samples are fastened to cardboard and kept in drawers. A customer entering and wanting one of these brushes is shown the various kinds and prices are affixed at the top of the particular brush. It is very easy then for the salesman to refer to the box containing these brushes and confusion and time is saved.

In connection with the sale of brushes this merchant's long experience has stood him in good stead.

Get Out of the Rut!

IS your paint department stalled in the mire of Indifferent Demand and Slow Moving Stocks? Is your progress towards really worth while paint sales slow and uncertain despite constant effort on your part?

There's a way out of the Rut! The Sherwin-Williams Paint Agency will start you and start you right—on the straight road to paint selling success. Other dealers, dissatisfied with the showing of their paint departments, have investigated the S.W. proposition and found it the most direct path to increased paint sales and satisfied paint customers.

S-W Agency Highway to Paint Selling Success

QUALITY Supreme, Consumer Advertising and all round selling co-operation furnish the irresistible motive power that keeps the S.W. Dealer's paint department running swift and smooth.

A postcard to us to-day will bring you all particulars of this attractive agency proposition by return mail.

The Brush Department

Useful Brush Selling Suggestions

Now is Good Time to Apply Some of the Effective Plans Adopted by Other Hardware Merchants to Increase Brush Sales

SPECIAL attention is now being given to pushing sales of paints, varnishes and other specialties, for spring housecleaning and painting. Hardware and Metal has visited a large number of hardware stores in the past few weeks and in most cases found paint departments well to the front and in most cases window displays of paints were arranged. A notable feature of these displays was the fact that in almost every case brushes were shown in conjunction with the paint cans.

No doubt the encouragement of painting will increase the use of brushes, but it should be kept in mind that brushes for various purposes represent a large variety which may well be shown in a prominent place in the store and given their due of publicity through the display windows. At this season of the year there are many lines in the hardware stock which should be given special attention and brushes should not be overlooked. An effective arrangement of brushes for housecleaning purposes and for applying various paints, both exterior and interior, can be used to good advantage. Many merchants have also found it a good plan to arrange a table divided into sections, each containing a certain type of brush, and have this display set right near the paint display so that the customer's attention will be drawn to each.

The article in the paint department of this issue, showing how a dealer developed large paint sales by giving attention to the customer's requirements and assisting in every way, shows also how large paint brush sales were developed by making suggestions as to their use and preservation. His brush display table was inclined at an angle so as to encourage the attention of the customer. Smaller sizes in brushes are attached to cards and kept handy for reference. These and many other suggestions have been made by other hardware merchants from time to time and now is a good time to apply them.

DEVELOPMENT OF PAINT TRADE

Continued from page 58

There are many who desire to use a lettering brush who may have only superficial knowledge. He claims that his connection with the trade for so long has enabled him to know immediately what a customer needs for a given work and it is important therefore to advise the buyer, and the buyer appreciates this.

Advertising

Using one of the larger dailies for advertising, this merchant does not hesitate to name his price. Regarding this, he said, "If you put something definite before prospects they are more likely to come prepared to buy. This makes a definite proposal which, if a man is interested in it, will likely lead to a sale."

In connection with this advertising he claims that he has been able to trace direct results to the publicity he has used in the daily paper. He believes the response made through his advertising has been attributable very largely to the fact that he has named his price and that if he had not done so he would not have had near so much response.

The fact that he possesses a wide knowledge of the business has not prevented his learning from the methods of others. And beside this he realizes that there is much to learn in many different ways if one is to keep abreast of the times.

Active Building In London

London, Ont.—Spring building is getting under way with a rush here and hardware merchants report a steady volume of business in all lines of builders' hardware. An encouraging feature of the general building program is the large number of residences being erected of the better class houses, ranging in prices from $5,000 to $10,000. At the present time there is not a house or an apartment to be rented in the city. There is a big demand for homes to rent, but no one is building this class of property at present. In conversation with Hardware and Metal a prominent city architect gave it as his opinion that there will be little speculative building until the labor market meets reductions that have been made in prices of merchandise. Labor, he declared, is more than sixty per cent. of the cost of a house. If bricklayers, carpenters, and others would agree to a reduction of ten cents an hour great numbers of people would go ahead and build and the workers themselves would benefit by having ten contracts for every one they get now. Business generally, he said, would be stimulated, and it would be better all round and the workers would still be getting a fair wage.

Canadian Flax— Fibre Twine

The Canadian Government has for some time been studying the possibilities of recovering and utilizing straw from flax grown for seed. In its more recent work it has sought to ascertain the value of the conclusions reached in previous investigations to discover some means of separating the flax straw without materially injuring the fibre and to obtain figures on the cost of converting the fibre into cordage, felt, and other products. The investigation included a comparison between matured straw and straw frozen before maturity. The conclusions drawn in regard to these qualities were that grain straw could not be decorticated, and that fully matured straw was slightly better than almost mature frozen straw for fibre production.

The fibre ultimately obtained was chemically treated in specially prepared vats by a fermentation process which requires only a few hours. After being thus treated the fibre was shipped to a cordage factory where it was made into binder twine and baled. The twine has not been tested sufficiently under field conditions to justify a definite pronouncement of its value. Commercial twine and rope were also made, but definite conclusions regarding their value have likewise not been established. Waste material was found useful for felting purposes, and when mixed with 20 per cent. of animal hair it could be used for insulating.

In these experiments 77 tons of flax straw, taken from 173 acres, gave 17½ tons of raw fibre, which, when further refined, produced 347 bales of 90 pounds each of treated fibre. From 123 of these bales there was manufactured 5,987 pounds of cordage. With regard to the cost of production, it has been worked out that one ton of straw of seed-producing flax will give 249 pounds of binder twine and 142 pounds of felting material, and that the binder twine was manufactured by the process followed at a cost of 13.54 cents per pound and the commercial twine for 20.54 cents per pound.

"Save the Surface" Spring Campaign Launched

Active Work Until June, Recommencing in August—Window Trim Material Available—Hardware Merchants' Co-operation is Valuable

THE "Save the Surface" campaign is again being launched along lines somewhat similar to those of last year.

The spring campaign has already begun and will continue in active operation until early in June. Then, commencing again about the end of August it will continue for about six weeks. It is estimated that practically the whole adult population of Canada, both rural and urban, will be reached through the extent and variety of this campaign, as some 45 publications scattered throughout the length and breadth of the country are carrying the advertisements.

The third year of the campaign brings with it also, in addition to the country-wide series of advertisements in these publications, the issuing of a very attractive window trim and a transparency, the latter being a reproduction of the well-known slogan "Save the Surface and you save all, Paint and Varnish."

Where Hardware Merchant Comes In

A large sum of money is being expended by the subscribers to this campaign of national education, and one of the chief points of contact with the purchasing public is the hardware merchant's store. Hardware merchants can co-operate in this form of advertising as it will enable them to link up their own stores with the series of advertisements appearing in the papers in their particular territory, and thus turn to definite personal advantage the benefits accruing from the national character of the committee's advertising. When the buyer sees constantly the "Save the Surface" advertisements and then in the window or on the door of the local merchant's store or in the merchant's local advertising he is confronted with the slogan and window trim, if he has not already come to recognize the common sense advantages of the use of the materials these advertisements urge, he will certainly commence to wonder what this sign he sees posted everywhere means, and should soon become convinced that it is not idle talk, and, as a natural result, become a regular prospective customer for such materials as he is convinced will be the means of saving him money.

These window trims and transparencies are now being issued to the various paint and varnish manufacturers, who will distribute them to their agents, but failure to receive same by any dealer will not in any way prevent him from writing and asking the secretary of the committee, 509 Royal Trust Chambers, Montreal, for a supply, when they will be gladly forwarded.

Encouragement in Naval Stores Outlook

Prices at Levels Capable of Much Building Up—Potential Requirements For Turpentine, Rosin, Etc., Are Large

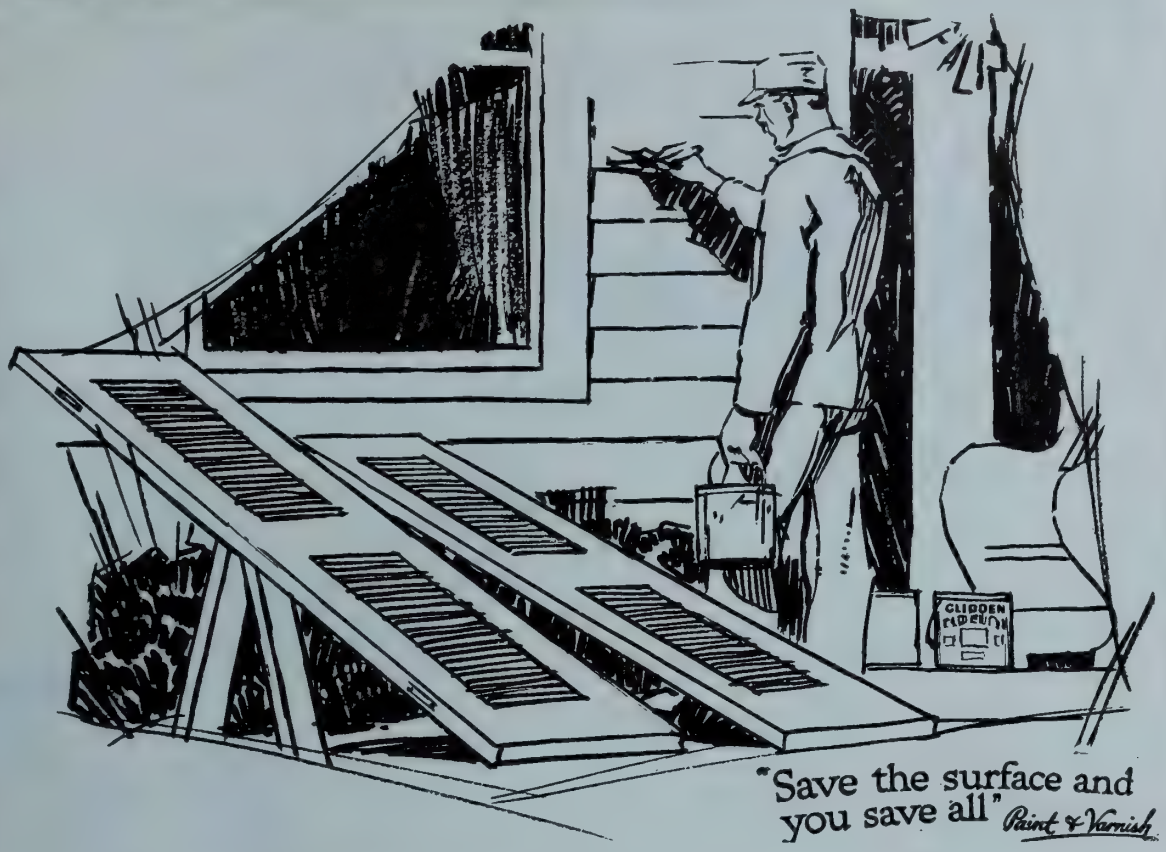
"IT is naturally expected that there will be a decrease in the production, but probably not to any great extent," says the Naval Stores Review, Savannah, Ga., dealing with conditions in the naval stores market. Active pushing of the industry is, of course, chilled by the unprofitable prices, in marked contrast with the extreme inducement existing last year. Then the big business in lumber doubtless took some land out of the field of naval stores production. On the other hand, the larger cuttings of last year will continue to produce, although there may be hardly any new cutting this season. It is said that the greater abundance and cheaper cost of labor will stimulate producers to work the existing crops for all they are worth, thus in a measure offsetting the lack of new cutting. The producer is liable to strive to get more barrels, as he gets so much less per barrel, and he is unable to see how his making a little move will have any bearing on the general market price.

As to prices, the trade is now in extreme depression, just the reverse of conditions a year ago. It is recognized that while turpentine is very low as compared with the prices of the last year or two, and also with the cost of the last crop, still the price is higher than the figures which were familiar several years earlier. And some think that deflation will eventually carry prices back to the old time levels, an idea which takes no account of the changed conditions in the production of the leading southern commodities.

The situation is not without the elements of encouragement and hope. In the first place, stocks are by no means large, particularly of turpentine, and no great surplus remains to be absorbed. In the meantime, there is still an enormous potential demand to be satisfied, especially from abroad. Requirements for rebuilding and restoring devastated Europe remain to be filled sooner or later. Political and financial unsettlement have hitherto prevented the normal operation of this foreign demand, but these conditions must be expected to improve in the natural order of developments. Any substantial accession to the demand, either foreign or domestic, will not find any corresponding increase in the available supply.

The realization that there is no excessive surplus on hand, and that there is an immense world shortage in the commodities manufactured out of naval stores, may before long result in a more optimistic view being taken as to market probabilities. A year ago the price level was at heights from which very severe declines were to be apprehended. This year starts off with prices at levels from which prices are entirely capable of building up; and the final results of the year may prove gratifying to a degree which might now seem extremely improbable.

British Firms Interested in Canada



F. W. Field, the British Trade Commissioner for Ontario, will be shortly returning to Toronto from the United Kingdom. Mr. Field left Toronto in the middle of October last year, and during his stay in the United Kingdom he has interviewed over 540 British manufacturers interested in trade with Canada. He has addressed numerous Chambers of Commerce, Rotary Clubs, etc., and visited over forty factories and plants. The principal commercial and industrial centres in England, Scotland and Wales were visited, and Mr. Field found a widespread interest existing amongst British manufacturers regarding trade conditions, and prospects of doing business in the Dominion. It is anticipated that many United Kingdom manufacturers will be visiting Canada this year with a view to establishing business connections.

During the period of the British Industries Fair, Mr. Field was in attendance at the White City, and met many buyers from Canada. The attendance at the fair was highly satisfactory, nearly 65,000 visiting the White City. Overseas buyers came from fifty different countries.

Paints and Varnish Exports to Canada From U. S.

Exports of paints, varnishes, etc., from the United States to Canada during January, 1921, were as follows:

White lead, 5,378 lbs., valued at $534; ready mixed paints, 3,431 gals., valued at $6,517; varnish, 6,367 gals., valued at $11,731; oxide of zinc, 90,290 lbs., valued at $9,061.

"Save the surface and you save all" *Paint & Varnish*

Confidence in Glidden Paint

Because the name Glidden is known throughout the Dominion for good quality in paint and varnish materials is one reason why you can have every confidence in Glidden Endurance Paint. Glidden Varnishes stand in high esteem by painters everywhere. So with Glidden Enamels. Glidden Jap-a-lac is a household word. This name also stands for Paint—Glidden Endurance Paint—a pure lead and pure zinc paint having just the right proportions of those paint pigments and paint liquids that produce enduring ability.

Not the cheapest paint you can sell per gallon, but by far the most profitable paint you can handle when "turnover" and general consumer satisfaction are considered.

Let us mail you our special paint proposition.

THE GLIDDEN COMPANY, LIMITED
Toronto, Ontario
BRANCHES: Montreal and Winnipeg

Weekly Paint Markets

Montreal

MONTREAL, April 14.—Again offering the feature of the paint markets this week is the further reduction made in quotations on linseed oil, the new lower level of 77 cents for raw oil being reached. Turpentine is unchanged and a better feeling is manifest. White lead in oil and putty are held and show a steady increase in demand, more especially in white lead. Shellac remains at former quotations, prices still varying from different quarters. Window glass still wavers, the only improvement being a slightly firmer tendency on the Belgian market.

Paints and paint specialties are now moving well, and as one manufacturer states, "It reminds us of old times."

Linseed Oil 77 Cents

Montreal.

A new lower record has been reached in linseed oil this week, quotations being 77 and 79½ cents in one-barrel lots, with the usual lower quotations for quantities. One may well ask, "When will the bottom be reached?" The only forecast on the future of the seed market is that when the violent fluctuations are over a much healthier condition will be shown. While it is almost out of the question to predict the future trend of the oil market, still the general impression is that an advance is due rather than a further receding. The demand continues to improve, but the condition of the market is certainly no encouragement to the dealer. Following are quotations:

1 to 2 barrels	0 77	0 79½
5 to 10 barrels	0 75	0 77½

90 Cent Turpentine Holds

Montreal.

Quotations on turpentine are holding at 90 cents a gallon in one barrel lots. Tendencies now lead to a somewhat firmer condition than has been shown since the peak was passed last year. The Savannah market showed an advance during the week and fair sales were recorded which would indicate a revival of trade. The local demand is reported with a gradual increase, and it has been felt all through the declining period of turpentine that increased volume of business would be the one ruling factor to stabilize prices. Following are quotations for both quantities and small lots:

TURPENTINE—	Per Imp. Gal.
1 barrel lots	0 90
2 to 4 barrel lots	0 87
Broken lots	1 00

Putty Quotations Steady

Montreal.

There is no change in quotations on putty, with sales of small quantities being shipped in fairly good numbers. A heavy demand is not looked for at this season other than what building activities actually require. Following are present quotations:

Standard Putty—	5 ton	1 ton	ton
Bulk barrels, 800 lbs.	$5 00	$5 25	$5 60
Bulk drums, 100 lbs.	6 00	6 25	6 60
Do., or tins, loose, 25 lbs.	6 25	6 50	6 85
Drums or tins, cased, 25 lbs.	7 00	7 25	7 60
1 lb. tins	9 75	10 00	10 35

Pure Linseed Oil Putty, $1.50 per 100 lbs. advance over above prices.

White Lead Now Active

Montreal.

White lead in oil is now selling in good volume and the past week has shown a further decided increase in sales. There have been indications of a rather unsettled market on this product in the last few weeks, there being talk of price shading here and there, and certain concessions were being made by some corroders and jobbers to obtain business. However, there were no actual reductions heard of and a more settled feeling now exists. Quotations are holding at $14 for five ton lots, $14.50 in one ton lots, and $14.85 in less quantities.

Fair Demand for Shellac

Montreal.

Shellac is now selling in much better quantities, and each week brings a better feeling. Orders are of a smaller nature than is usual at this season, but the unsettled condition that has prevailed in shellac for some time now has no doubt caused the dealer to buy only for actual requirements more so than in other paint commodities. Local quotations are unchanged for this week although a variation in prices still exists. Following are quotations that are asked by most houses, with some upholding slightly higher levels:

Orange shellac, in barrels, $3.80; in one gal. jugs, $4.10; white, in barrels, or 5 gal. jugs, $4.25; in one gal. jugs, $4.55.

Glass Situation Unchanged

Montreal.

Other than a slight stiffening in the Belgian market, there is very little change to note in the window glass situation. Reports from that source have been more encouraging in the last week. Local jobbers are still trying to dispose of their stocks and many are continuing to offer better quotations to obtain business. Montreal glass list with a discount of 50 per cent. is still the selling basis.

Paints, Varnishes and Specialties

Montreal.

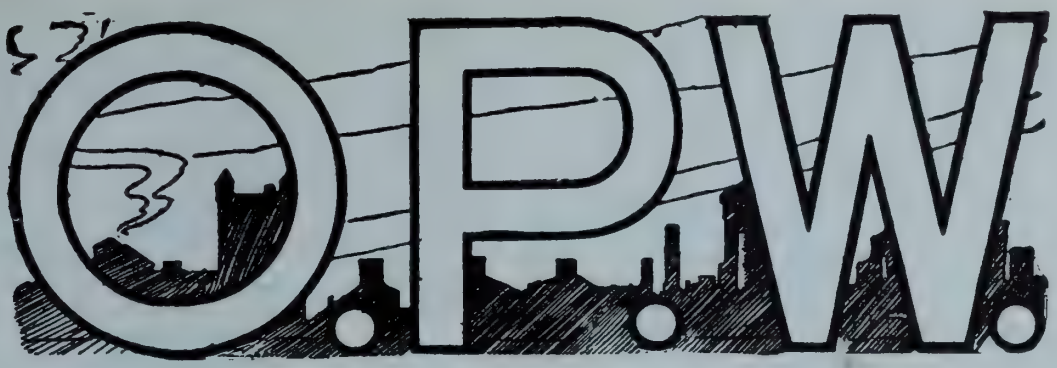
The improvement in paints, paint specialties and varnishes continues, and as one manufacturer expresses himself, "reminds us of old times." Orders, however, continue small, denoting that the dealer will still only buy his present-day requirements. Present prices are held on all products with little likelihood of any changes being made for some time at least.

Toronto

TORONTO, April 14.—Prices generally show little change in paint or allied products. Linseed oil markets are weaker and rosin is showing lower levels. Shellac is holding at recent declines and there is no change in putty, white lead or paints and varnishes. Window glass is now being sold from the list adopted by several Montreal jobbers recently with $11 as the first break, and 50 per cent. off is being quoted. Paints, varnishes and other lines are moving out very satisfactorily and though orders have not been on the scale of last season there is a feeling that business will go on more steadily through the summer instead of having the rush come early in the spring as formerly and then drop off as the mid-season approaches.

Turpentine is Steadier

Toronto.



The situation appears to be a little steadier in turpentine. A more optimistic view is being taken of conditions in Southern markets and with a better demand advances have been made in United States prices. Some dealers look for an advance here as soon as the demand increases. There has been an improvement shown but it has not been maintained and buying is still light. Quotations are unchanged and are as follows:

TURPENTINE—	Per Imp. Gal.
1 barrel lots	0 90
2 to 4 barrel lots	0 89
5 gallon lots	1 05

Linseed Oil is Uncertain

Toronto.

The situation in regard to linseed oil appears to be somewhat uncertain. Crushers report a decline in the price of flaxseed, probably in sympathy with

Says Ottawa Pete:

"Save the surface and you save all" *Paint & Varnish*

Spring's Just 'round the Corner

and young men's fancies may be lightly turned to thought o' love. All of which don't alter the fact that the married ones are thinkin' paint, and the women are all for brightenin' up the homes and chasin' out the dirt and gloom.

And say, were there ever as many buildin's in your neighborhood that needed paintin' quite as much? It's the same everywhere. Even the magazine writers are talkin' about it, blamin' the war and fancy prices—"The Aftermath," I guess they call it. All of which don't alter the fact that they've got to be painted—right now. Fine! And, say, if that promised resumption of buildin' takes place, how about Spring, 1921, being your biggest season yet?

All of which leads to Ottawa and the folk there who make pure paints at fair prices and specialize on co-operatin' with their dealers.

Check up your stock and order early, especially on the following lines:

O.P.W. House and Floor Paints, Jas-per-lacs, Floor Enamels, Auto and Carriage Enamels, Lac Shades, Art Enamels, Roof and Barn Paints, Shingle Stains, etc.

We're eager to get the word from you. Send us a postcard and we'll be along in no time at all.

Ottawa Paint Works

Limited

OTTAWA, CANADA

Branches: MONTREAL and TORONTO

If interested tear out this page and place with letters to be answered.

other grain, but other by-products beside oil have declined in value and tend to absorb the difference in costs. At the present time the English market is in a very uncertain state and is having an influence on oil markets here. Prices of linseed oil may decline further, but at the same time the market is said to be very sensitive and it would take little to cause an advance in prices it is believed. Quotations are 3 cents lower and are as follows:

	Raw.	Boiled.
1 to 2 barrels, per gal.	0 77	0 80
3 to 5 barrels, per gal.	0 76	0 79
6 to 9 barrels, per gal.	0 74	0 77

Less barrels, add 15 cents per gal.

New Glass List Adopted

Toronto.

For some little time there has been a variation in the window glass lists, and some jobbers have been quoting from the old list while others have been using a net list of their own. A list was adopted recently by Montreal wholesalers and has at last come into use here. The prevailing discount is 50 per cent. off, and the first break is $11. It was not satisfactory to buyers as they were sometimes uncertain what list was being quoted from, and it is believed that with the list firmly established prices will become more stabilized. The following is the new list:

GLASS LIST

United In.	Star or 16 oz.	Double or 24 oz.
Up to 25	$11 00	$16 40
26 to 40	14,00	20 90
41 to 50	15 00	23 00
51 to 60	16 00	24 00
61 to 70	17 00	25 00
71 to 80	.....	27 00
81 to 84	.....	34 00
85 to 90	.....	36 50
91 to 94	.....	37 25
95 to 100	.....	43 75

Discount box glass, 50 per cent.
Cut size sheet glass, 60% off list of Nov., 1919.

Rosin Prices Are Easier

Toronto.

Some lower quotations are made on rosin and the price is now $5 per 100 pounds in barrels and 8 cents per pound in smaller quantities.

White Lead Sales Small

Toronto.

Sales on white lead in oil are stated to be more numerous, but still small in size. Apparently retailers are not certain of the future tendency and are endeavoring to keep stocks down to the smallest minimum so as to take advantage of any change in the market. Quotations are unchanged and are as per market pages.

Putty Shows No Change

Toronto.

No changes are reported in putty and sales are still small. With building operations showing any increase there should be a better demand and it is believed that retailers' stocks are small. Prices are held and are the following:

PUTTY—	Per 100 lbs.
Standard in 100-lb. drums	7 05
Do., 25-lb. irons	7 30
Do., bladders in bbls.	8 30

Prepared Paints in Demand

Toronto.

A much better demand for paints and varnishes is reported by manufacturers, and there is a belief that the demand will show a steady increase. Stocks in retailers' hands are said to be small and though the policy is to keep them down as far as possible they are bound to need replacement and manufacturers are looking forward to a steady sorting up trade during the summer months. Prices on dry colors and colors in oil are showing very few changes and varnishes and enamels are holding firm, and no changes are expected at present.

PITTSBURGH MARKETS

Continued from page 57

the current inquiry, but because it is a Western concern and while quoting on the basis of Pittsburgh plus freight to destination it would not sell in the East since then it would have to absorb freight.

Steel prices in general show no change, the market dragging along in this respect much as in the past few weeks. On most products the independents have made a sort of market, though by no means a clearly defined one, at prices ranging from $7 a ton on bars to $18 on galvanized sheets below the Industrial Board or Steel Corporation prices. The Steel Corporation has taken no action. The trade is still speculating as to when the Corporation will make a move as to prices and wages. There is no buying pressure, however, and no evidence that if the Corporation should reduce its prices a buying movement would start. There is no question, however, but that eventually the Corporation must reduce, for otherwise buyers will have no confidence in the market and would not buy if they were otherwise disposed to do so. When the Corporation does reduce prices the reduction will probably be quite extensive.

In some quarters it is being remarked that the Corporation ought to reduce prices, so as to start a buying movement, and it is remarked that in the past a buying movement generally followed sharp reductions in steel prices. Buying could not thus be forced, however. These observers confuse cause and effect. In the past, when the steel producers reduced prices they did not do so arbitrarily, but waited until they could see that there was latent demand, so that the demand, though latent, was really the cause of the reduction. Just now there is no such demand. The mills would be keen enough to see the demand if it existed. The average consumer is more interested in seeing prices maintained so that he can dispose of his stocks than in seeing prices reduced against purchases still to be made.

Steel Corporation Tonnage

The United States Steel Corporation's unfilled obligations amounted to 6,284,765 tons at the end of March, showing a decrease during March of 649,102 tons, an amount equal to 46 per cent. of capacity for the month. Shipments were at about 51 per cent. and the difference between these, only 5 per cent., represents the net bookings, or the total bookings minus any cancellations that may have occurred. It is improbable there were any cancellations of importance, so that evidently the Corporation booked scarcely any new business in March. References are frequently made to the rate at which the Steel Corporation is receiving business, but that is another matter, the reference being to shipping orders, in many cases merely "releases" against orders previously suspended, and thus not new business in the sense of being reportable as additional unfilled obligations. The Corporation's operations now are on old business and on specifications now being received against old contracts, chiefly the former.

Steel Production

Production of steel ingots by the Steel Corporation in March is understood to have been at about 51 per cent. of capacity. From this, and the report compiled by the American Iron and Steel Institute showing the monthly production of 30 of the steel producing companies, it can be computed that the independents during March produced at 31 per cent. of their capacity, and this, with the Corporation operation, makes an average for the industry as a whole of about 40 per cent. Evidences have been coming out of late that the trade reports have tended to underestimate the rate at which the independent steel companies are operating. It is very difficult to make accurate estimates because plants and departments are starting and stopping all the time. Perhaps the personal element enters, by each independent objecting to its full production being known, for fear its competitors would think it is cutting prices more than is the case. It should be noted that the monthly ingot report is not a precise guide to the total production because some steel interests do not report, and they may be operating at much higher or lower rates than are those that do report.

The West Leechburg Steel Co. has formally announced a price of 2.75c on hot rolled strip steel. The market has been difficult to quote of late, there being so few sales to define prices. Cold rolled strip can be done at about 5.70c, the nominal price being 6c.

APPOINTED CANADIAN AGENTS

Ottawa, Ont.—British Canadian Distributors, Ltd., have been appointed agents for Canada for Apollo spark plugs.

Giving the Consumer What He Wants

Can you do that? When a customer walks in your store and requests a high quality line of enamel or house colors, can you give him satisfaction and bring him back for more? You can if you stock, sell, and push Moore's Paints and Varnishes. Moore's House Colors can be used to the last drop, and will give splendid, lasting results. Morelustre Enamel is a high-grade enamel which can be used with equally good results on either exterior or interior work, and is made in twelve beautiful shades and put in small-size packages for the benefit of the consumer. Sell Moore's Paints and give the consumer what he wants. "Impervo" Porch and Deck; "Tile-Like," Mooramel, Auto Finish, "Muresco," "Impervo" Varnishes, Morelustre Enamel, Barn Paint, Moore's Floor Paint, Sani-Flat, High Gloss Enamel, Carriage Enamel, Wagon and Implement Paint, Shingle Stain.

Salesfolk Who Draw No Salary

Tommy, Betsy, and their friends are selling Vitralite Tints for you every day. Just because their work costs you nothing, don't make the mistake of overlooking their persistent efforts.

Reaching the better-class homes of your community through such quality magazines as the Atlantic Monthly, Century, Country Life in America, Harper's, House Beautiful, Review of Reviews, Scribner's and World's Work, the Tommy and Betsy advertisements are developing a call for Vitralite Tints as great or greater than the demand for the incomparable white Vitralite. This is no season to miss quality sales — if Vitralite Tints are not in your stock, write for the introductory proposition.

New "Mother Goose" Box for Viko Toy Sets

A box so attractive and unusual, we've had it copyrighted! Each square in the checkered design bears a gay, familiar figure from the rhymes of Mother Goose. (Details of design shown in panels at left and right.)

The box is printed in five bright colors, and, to children, appeals like a vivid and beloved storybook. It is both entertaining and instructive.

VIKO Toy Sets include many combinations of handsome aluminum dishes, or shining miniature cooking utensils. Packed in "Mother Goose" boxes, these Sets will meet with a ready sale the whole year 'round. Place your orders for Christmas trade now.

HOBBS Manufacturing Company, Limited

MONTREAL TORONTO LONDON WINNIPEG

Black Diamond for Cutting

When you buy a file, you buy cutting service. For extra cutting value, buy Black Diamonds. Made since 1863 to a standard of file quality that has won highest honors at expositions and at the bench.

Two simple steps will lead to better filing except where Black Diamonds are already used. Our catalog is free for the asking. A shop trial costs nothing and will show convincing results.

Established 1863

"Save the surface and you save all" Paint & Varnish

"Save the surface and you save all" Paint & Varnish

Wa-Ko-Ver Stain
Beautifies All Woodwork

Not only does it beautify, but it wears like iron. You will find it pays in future sales always to recommend Wa-Ko-Ver Stain whenever your customers have worn floors or scratched woodwork to renovate. It restores the freshness of the floors or woodwork, pleases your customers, and makes permanent business for you. The established reputation of this effective, serviceable stain makes it a pleasure to sell. Good displays in your windows, on your counters, or other conspicuous places, remind visitors to your store, and people that would otherwise be "passers-by" of their need for Wa-Ko-Ver Stain. This sales-maker will handsomely reward a little sales-effort on your part.

The Trade Mark behind the "Hardware House of Quality"

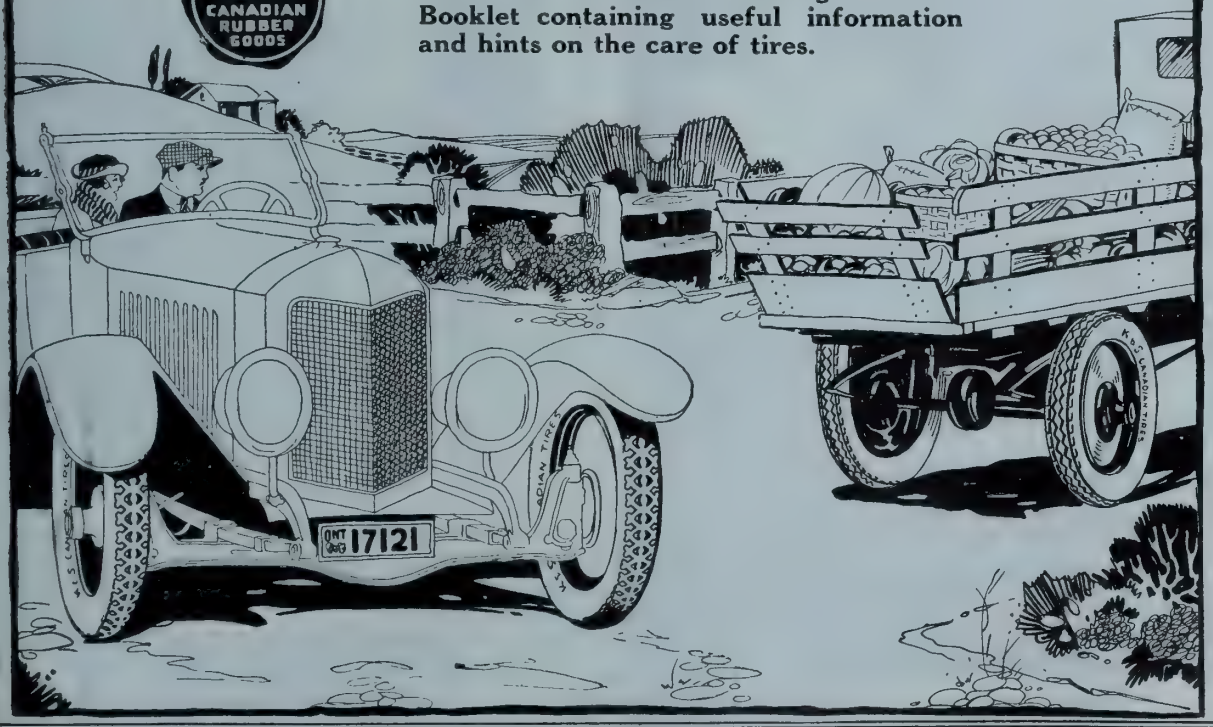
DIAMOND A BRAND
A
ASHDOWN'S GUARANTEE

The Largest Wholesale Hardware Dealers in Canada

K&S. TIRES

Give You More Than You Pay For

K. & S. Tires for trucks and passenger cars always outlive their guarantee, a feature that makes them popular with the motorist and truck driver.



The Commercial tread, for trucks and business purposes, is a sturdy non-skid of remarkable wearing qualities.

The "K. & S." tread, for passenger cars, as illustrated, carries the highest guarantee in Canada—7,000 miles on small car, 6,000 miles on large cars.

K. & S. Canadian Tires are guaranteed for reliability and performance.

K&S. CANADIAN RUBBER GOODS

Write us for FREE Mileage Record Booklet containing useful information and hints on the care of tires.

O-Rib-O
Volcano Chimney Top

The Deflector — the lower slanting part shown — receives wind through the sloped opening, directing it over the chimney on the "blow-pipe" principle, creating and maintaining a continuous draft.

Cures the worst chimneys, and closes sales with a bang. Homes, stores, churches, factories are all your prospects.

Order to-day.

Now is the time to feature them

The two Dougall lines here shown are well worthy of a prominent place in your Spring displays.

DOUGALL DA-COTE

The motor car enamel that is good enough for the professional and easy enough for the amateur.

At a time when many car owners in your locality are **thinking** of painting, Dougall Da-cote, which is specifically made for the home painting of automobiles, will prove an exceptionally good feature line. The Da-cote color range includes all the most popular shades.

DOUGALL UNIVERNISH

The Varnish That Lasts Longest

For interior or exterior woodwork—wherever a beautiful, durable, washable varnished surface is required. Washing with hot water and soap will not injure a Univernished surface. Wash it, scour it, scrub it as much as you like—it will not turn white. Now is the time to arrange for your display of these popular selling lines.

"Save the surface and you save all" *Paint & Varnish*

THE BUYERS' GUIDE

If what you want is not here, write us, and we will tell you where to get it. Let us suggest that you consult also the advertisers' index, facing the inside back cover, after having secured advertisers' names from the directory. The information you may desire may be found in the advertising pages. This department is maintained for the benefit and convenience of our readers. The insertion of advertisers' headings is gladly undertaken, but does not become part of any advertising contract.

TANKS

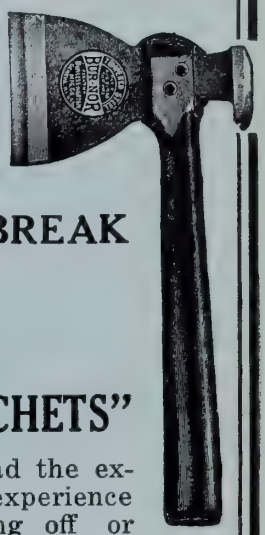
Gasoline Tanks

For Underground Storage

Made of the finest copper steel procurable, welded and then painted on the outside with Anti-Rust, Acid-Proof black paint, these tanks are practically rust and corrosion proof. For handling gasoline only the very best is safe. The thorough test all our tanks undergo before leaving our factory is a guarantee of their reliability. The prices are most reasonable.

Oil and Gasoline Tanks

Here's a tank made of copper-steel with handy screw cap opening at top for filling and faucet in side near bottom for drawing off contents. Another reliable tank at a moderate price. These tanks have been giving satisfactory service wherever sold.



Your money back if not satisfied

Write us for prices and send us addresses of possible customers to whom we can send literature direct for you. We also manufacture baths, dairy equipment, sanitary closets, etc.

The Steel Trough & Machine Co., Ltd.
TWEED, ONTARIO, CANADA

HARDWARE & METAL is the only weekly hardware paper in Canada and is read by practically every worth-while buyer, both wholesale and retail, in Canada. HARDWARE & METAL is the logical medium to use if you have a message for the Canadian hardware trade.

Say to Your Customers---

"YOU CAN'T BREAK

REGISTERED BUR-NOR TRADE MARK

ALL-STEEL HATCHETS"

They must all have had the exasperating, dangerous experience of hatchet heads flying off or handles breaking and putting the hatchet out of service when needed.

And they can't break Bur-Nor Hatchets in any ordinary usage, for the Bur-Nor is an all-steel hatchet with hollow steel handle, reinforced and securely riveted to the head. We will send you a window display which includes a testing machine showing that a 300 lb. strain will not break the Bur-Nor Hatchet, whereas 160 lbs. will break an ordinary hickory handle.

Blade is high carbon steel, oil tempered, and holds its cutting edge.

Hatchet is rust-proof because it is finished in black enamel.

The Bur-Nor is the most economical hatchet you can sell or your customer can buy.

Effective Window Display and Wall Cards Furnished.

Let Us Give You Full Details by Return Mail.

Meakins Brushes

Bring Your Customers Back

Meakins Brushes sell because there is a brush for every customer's requirements. No time lost inducing them to take something in place of what they want. They know that the bristles will stay in. With Meakins Brushes they have no good work spoiled by bristles adhering to the surface.

With the Meakins line you not only have what is called for, but perfect of its kind—perfect material, perfect workmanship. Altogether, they give satisfactory service to the customer, good profit to the dealer, and assure repeat orders.

Advertising that reaches *your* customers

This year's advertising of the famous Barrett Products will cover Canada like a blanket.

35,000,000 Advertisements. Think of it!

And they will reach consumers of every class, all over the Dominion:

6,500,000 advertisements in leading farm papers going to the farmers of Central and Western Canada. (12 issues, 545,000 circulation each issue)

5,750,000 advertisements in weekly newspapers going to farms and small towns of Quebec and Maritime Provinces. (28 issues, 206,000 circulation each issue)

23,500,000 advertisements in Montreal daily newspapers, covering Montreal City and adjacent territory. (Twice a week, 251,000 circulation each issue)

250,000 advertisements in leading technical magazines reaching railroads, manufacturers, contractors and other large consumers. (12 issues, 20,500 circulation each issue)

These advertisements will be attractive in appearance and filled with strong selling arguments. They will tell why Barrett Products are superior to all others—why they give unfailing satisfaction and save money for the user.

They will bring a big volume of new business to every dealer who is ready to supply the demand.

This is an opportunity you can't afford to miss. If you have not already received a copy of our latest Price List, write for it today.

The well known Barrett Products which will be featured in our big consumer advertising campaign, include:

Everjet Elastic Carbon Paint
Everlastic "Rubber" Roofing
Everlastic Liquid Roofing Cement
Plastic Elastigum Patching Cement
Liquid Elastigum
Creonoid (Fly Oil) Cow Spray and Lice Destroyer

WINNIPEG, VANCOUVER
HALIFAX, N. S.

RUBBERSET

TRADE MARK

Brushes bearing this Trade Mark are Made in Canada

Spring Business

Guarantee
Ironclad and Unchanging
Rubberset Brushes must make good—or WE WILL

There is nothing that is easier to sell in the Spring than paint—and paint means brushes—Rubberset brushes. Nature brightens up in the Spring and man, intuitively, follows Her example.

The high reputation that Rubberset Brushes have brings our dealers a lot of sales, and a lot of profits. But why not force the brush business a little this spring? The paint men tell us that this is going to be a "bumper paint spring." Why not make it a "bumper brush spring" too?

Rubberset Brushes will back up every good thing you say about them. They are properly shaped and trimmed to spread paint evenly, economically and easily—and they do not mar the job by leaving a trail of bristles behind them.

You know our guarantee—"Rubberset Brushes must make good—or WE WILL."

Every Rubberset Brush bears our original trade mark "Rubberset."

That's your guarantee—and your customers' guarantee.

Rubberset Brushes are one of the most profitable quick-selling and satisfactory lines you can handle. We will be glad to answer any communications from you on the subject of Brushes for any purpose

TRADE M MARK

Roofing and Building Papers That Continually Boost Your Store

Building Papers, Tarred Felt, Sheathings and Tar Products, and Wrapping Paper of all kinds that give service in use, reflecting credit on the dealer and inspiring confidence in all the lines he sells—that's the McArthur line.

Drop us a line for an interesting little booklet on Roofing Materials. It will tell you of each one of our lines—reasons why they sell, and serve the consumer so that you hold his future trade.

We cannot tell of all the lines here, but, for instance, "Black Diamond" Tarred Felt is pure wool tarred roofing felt, from selected woollen rags saturated with pure coal tar, producing the most durable roofing felt possible to make.

THE FARMERS ARE THINKING OF SPRAYING NOW

To-morrow may mean a lost opportunity.

Why don't you sell the farmer a Spramotor to-day?

You know that no other spraying method equals the Spramotor method for spraying and for painting or white-washing.

Write to-day for illustrated catalogue. If you are a live-wire dealer we'll want you for our agent—and—you'll want us.

SPRAMOTOR CO. 28 King Street, London, Canada

AGENTS WANTED EVERYWHERE

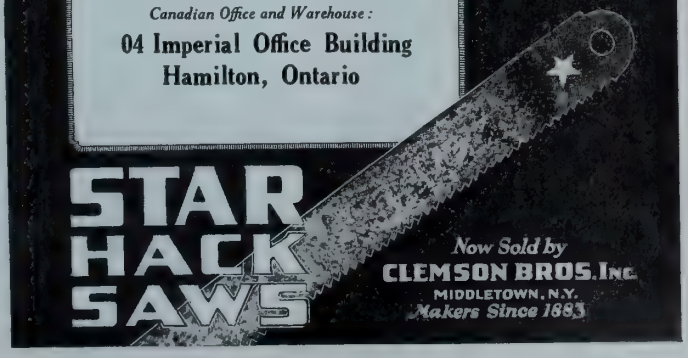
Spramotor

It isn't a SPRAMOTOR unless we made it

BRITISH AND FOREIGN AGENTS, WRITE

Look for the Green Box

Hack Saw users look for the green box when they buy hack saws, to be sure they get the Star.



And so must you if you would have satisfied customers.

Insist on the genuine.

Star Hack Saws are now sold by Clemson Bros., who have made them since the beginning.

Canadian Office and Warehouse:

04 Imperial Office Building
Hamilton, Ontario

The Tools You Display in Your Window

Week after week, month after month. year after year, we are telling your customers about Starrett Tools.

Exactly the same tools you display in your window and in your show case are pictured in the advertising pages of the magazines that Starrett Tool users read—the American Machinist, Canadian Machinery, Machinery, Popular Science Monthly, Popular Mechanics, etc.

Check your stock against the new Starrett Catalog No. 22 "MA" and be sure you have the tools these men need.

Do You Get the Bulk Of the Country Trade?

Did you ever stop to figure out about how many stable brushes are sold in your locality each year? Do the farmers come to **you**, or does John Smith, down the street, gather in most of the Country trade?

If you carry the best Stable Brushes made, it won't take the farmers long to find it out. Every buyer to-day is critical of quality. It pays the merchant to carry the best brands on the market. A high-grade article is not only easier to sell, but it gives better service.

Keystone Bass Stable Brushes

make regular customers for the store that sells them. They are unquestionably superior to all other brands of stable brushes.

These brushes are made of the best quality of strong, tough Bass, fastened into blocks with a long steel wire staple, guaranteed not to come loose. (We were originators of the steel wire fastener). Handles are of the highest grade hard maple. Sizes from 12 inches to 18 inches.

Write us to-day for particulars and prices.

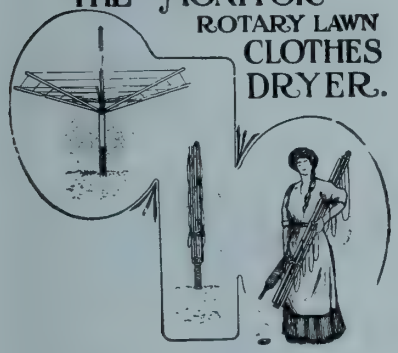
"Seafoam" Electric Washer

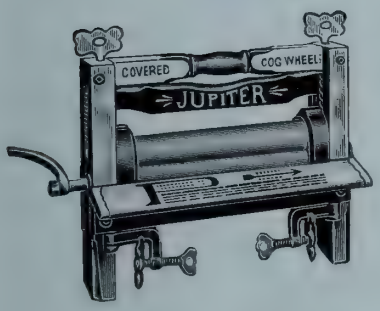
THERE IS NO DULL SEASON FOR

DOWSWELL PRODUCTS



The BICYCLE BENCH Wringer, which accommodates two tubs, has steel ball bearings, covered cog wheels and reversible water board which conducts water into either tub. The frame is of seasoned hard maple which will not warp or crack.

Extra High Grade Rolls, warranted 3 years in family use.



A most complete wringing outfit.

THE MONITOR ROTARY LAWN CLOTHES DRYER.

The MONITOR ROTARY LAWN CLOTHES DRYER is an extremely handy device that saves many steps and much hard labor carrying a heavy clothes basket around the yard through wet and snow. It can be carried out, set up, and taken in by a woman, as it is light in weight though very strong. Hangs a large assorted wash. When taken down leaves the lawn level and clear, stores in a small space, and lines are always clean.

7-ft. arms—150-ft. line.

The JUPITER Wringer, for round or square tubs, is fitted with highest grade rolls, 11 x 1¾ ins., warranted 5 years in family use; steel ball bearings and covered cog wheels. It is the highest grade obtainable, and on account of its long wearing and easy running qualities is the most economical.

Where Disston Quality Is Born

There is something more than a proper mixture of metal put into the crucible when Disston steel is made.

It is an unseen, intangible ingredient—yet as big and real as the tremendous plant in which Disston Saws and Tools are made. The long experience of men whose fathers were Disston steel workers, whose grandfathers worked out the secrets of fine Disston steel generations ago—this is what has made the present quality of Disston steel.

Under the greatest test of all, hard service over a long period of years, the quality born in Disston steel is revealed. The greatest praise of Disston Saws and Tools comes from men who have used them longest, men who write of these tools with a friendliness, and even affection, seldom given to inanimate objects—and there could be no higher tribute.

"FROST RIVER" REFRIGERATORS

The Davidson "Frost River" for many years has been the first choice with everybody who knows its good points. It is made entirely of galvanized steel sheets, the outside finished in beautiful French Grey enamel, while the inside is lined with pure white enamel. The doors are panelled and made of well-seasoned hardwood and fitted with solid brass locks and hinges. Removable rustless tinned wire shelves make for better air circulation and in addition are more sanitary and easier to clean. Large, roomy ice chest ensures greater economy.

The "Frost River" always gives satisfaction and consequently always finds a ready sale.

Full particulars and prices sent on request.

Arrowhead Saws

Vanadium Steel

How you sell saws depends partly on your salesmanship. You can sell a poor saw but once; to-sell saws successfully and build yourself a permanent business you must sell good saws. To give good saws distinction and individuality they must have the desirable selling points of superior saws.

Arrowhead saws have those points; the hang, set, temper and finish are right, and they sell right. Arrowhead saws attract, sell and satisfy your customers. Their satisfactory performance in service creates confidence in your store, and in your other lines of goods.

AHM System

Are You Selling Mileage?

Formerly motorists were content to accept any tire with a familiar name, without much thought or care about service.

Now the same men are buying mileage—buying it with the keenest determination to get the last yard of mileage for every cent invested.

Observing dealers quote this fact as the reason for the persistent and growing demand for Ames Holden "Auto-Shoes," which are miles better in performance than ordinary tires.

How many miles better, may be judged from the fact that the bulk of sales are coming in from the districts where road conditions are worst—where a 10,000-mile performance seems unbelievable.

Then the Ames Holden "Auto-Shoe" guarantee appeals to buyers of mileage. It's such absolute protection against defective material or workmanship. It permits adjustments without argument or red tape.

Altogether there are scores of reasons why you should sell Ames Holden "Auto-Shoes"—sell mileage. The best one from your point of view, being the generous policy which takes care of your interests very largely. Let us tell you about it. Write.

AMES HOLDEN "Grey Sox" and "Red Sox" TUBES Are Reliable.

Biggest Selling Tire Patch *in the Field*

THERE'S no use denying the fact that Locktite outsells every other tire patch on the market.

Motorists know about Locktite—what it is and does—and they want it. Nothing else really satisfies them.

As usual lots of tire patches are going to be sold this spring and summer, and **Locktite will dominate in your section** as it always does.

Are you prepared to get your share of this business?

Stop for a moment and analyze the sales possibilities of Locktite based simply on the number of additional owners who are introduced to Locktite every year.

Think of it—twenty-five of the leading cars include a Locktite Emergency Tire Patching Outfit in every car that leaves the factory. Hundreds, yes thousands of new car owners are thus introduced to the superior advantages of Locktite every day.

The dealer who fails to visualize what this means by getting in line to cash in on this **ready-made** market is passing up one of the best money-making opportunities ever presented in the auto accessory trade.

If you have never handled Locktite, send us a small trial order and then watch it sell, If you are a Locktite dealer now, it is, of course, needless to urge you to order because you know that the demand is there and that **Locktite does sell.** And that is the final answer to the universal standing of Locktite among dealers everywhere.

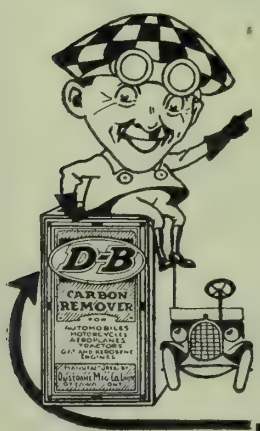
FRASER COMPANY

10 HOSPITAL ST. - - MONTREAL, QUE.



A Proposition To the Trade

If a customer enters your store complaining of engine trouble—caused by a carbonized engine—how would you like to say, "Take a can of

D-B CARBON REMOVER

and try it on your engine; it will not cost you a cent for the trial if it proves unsatisfactory."

If the customer **DOES** return the can as unsatisfactory, WE WILL PAY YOU FOR THE RETAIL VALUE. Therefore, Mr. Dealer, you cannot lose anything, and have lots to gain by stocking up on D-B Carbon Remover.

We will take the chance, because we have absolute confidence in D-B Carbon Remover. All you need to do to get the large profits is to give the can to your customers.

Write us for more particulars.

Auto Jack Says--

D-B Carbon Remover is not injurious to the metal, it pulverizes the carbon at the first explosion and forces it out through the exhaust.

DU PONT THE STANDARD SHOTGUN POWDER

Facts that Every Dealer Should Know about Du Pont

It is a fact that Du Pont Powders have been standard for over a century. Made in great quantities by the world's largest makers of explosives, they have always been known for their fine quality and their uniform performance year in year out.

Other reasons why "Du Pont" has the largest sale of any powder made:

—because it gives the highest velocity.

* * *

—because it gives the closest patterns.

* * *

—because it develops the lowest initial pressure, which means less strain on the gun.

* * *

—because it is the cleanest-burning powder made.

* * *

—because it is waterproof, dependable, and absolutely uniform year in and year out.

* * *

A shell is only as good as the powder it contains.

E. I. du Pont de Nemours & Co., Inc.
Sales Dept.:
Rifle and Shotgun Powders Division
WILMINGTON, DEL.

Concentrate Your Stock

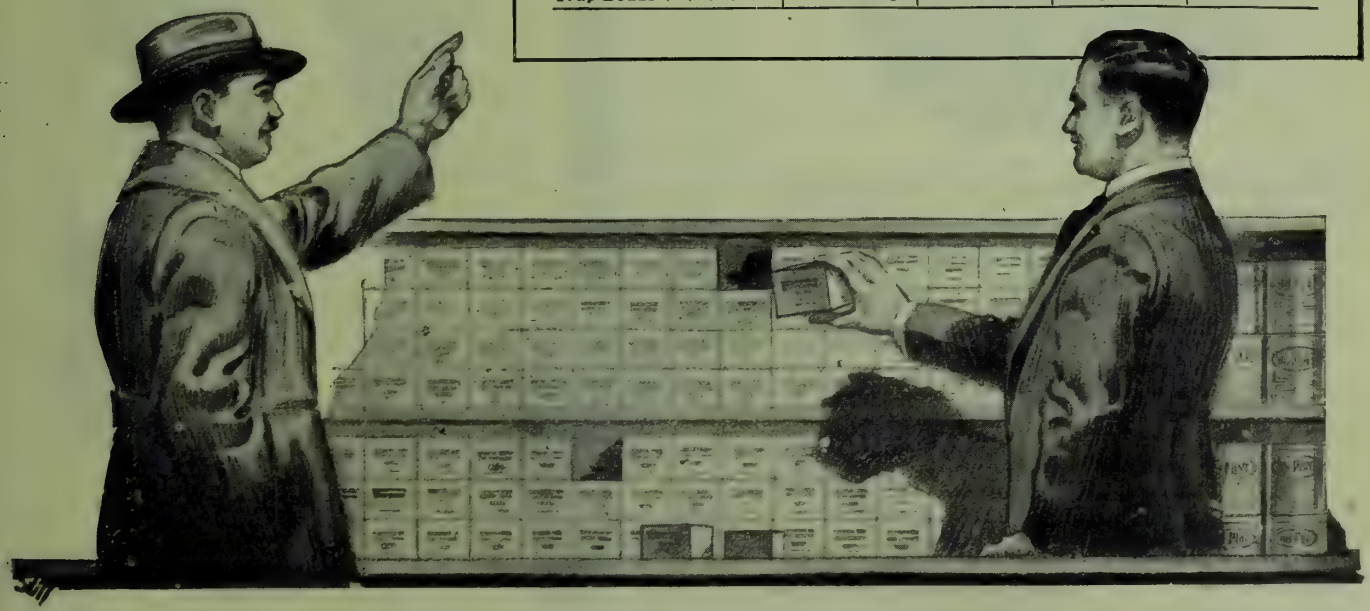
—and speed up your sales of Shotgun Shells

THOUSANDS of dealers have found that the Du Pont Plan of standardizing loads of shotgun shells enables them to achieve at least one, and in many cases two, *extra* turnovers per year. The plan is briefly this:—

Drawing on our one hundred and nineteen years of experience as powder makers, we have selected the loads listed below as those which will give the best results in the field or at the traps.

These are the DU PONT STANDARD LOADS and they will do the work!

They meet the demands of the vast majority of sportsmen who are looking for results and who do not care to experiment. Concentrate your stock on these Standard Loads and you will have fast-selling shells that will move rapidly and give you that extra turnover this year that is so desirable.



Most Shooters Use Du Pont Shotgun Powders

STOCK THEM IN THESE STANDARD LOADS

DU PONT

Standard Twelve Gauge Loads

	DUPONT SMOKELESS Drams	DUPONT BLACK Drams	OUNCES Shot
Large Ducks	3, 3¼ or 3½	3½	1⅛ or 1¼

Homes need Colt protection

YOUR services to your community are like the doctor's, Mr. Dealer. He knows how health is constantly menaced by unseen and neglected dangers, and supplies the means to ward them off.

Surrounding your community are unseen dangers which are neglected until some innocent householder suffers. Don't wait for this to happen. Often a reminder from you that you carry Colt's Fire Arms and a word about the need of home protection with a Colt Automatic Pistol or Revolver, leads to a sale, and a service for which you will be thanked. We are backing you up with national advertising. Do your part. Remember a Colt is the "Best That Money Can Buy." You build better by selling the best.

Again in Demand

The wooden tub is back—the high cost of the metal is largely responsible, but a wooden tub has other advantages.

There is no galvanizing or plating to fall off. No rust to spoil clothes, and hot water retains its heat longer.

Cane's wash tubs will be favored. They last a lifetime and are built with the workmanship that has made Cane's Woodenware popular for over thirty-five years.

Order a supply of Cane's Tubs from your dealer for a source of Good Revenue

BALE TIES

NAILS WIRE

Laidlaw

Time-Tested Efficiency

Laidlaw Bale-Ties are made from Bessemer Steel. Our Ties have been thoroughly tested in general use throughout the Dominion and most of the foreign countries of the world. Practical use has convinced buyers of Laidlaw efficiency. This has made Laidlaw Bale-Ties the

Dominion and World-Wide Choice

Strong, reliable and of practical design, Laidlaw Bale-Ties make good and prevent broken bales and consequent commercial loss. Laidlaw Bale-Ties are made in "Single-Loop" and "Cross-Head" styles of fastening.

Transmission Oil
Auto Oil
Neatsfoot Oil
Tanners' Oil
Lard Oil
Cutting Oil
Lustriene Floor Oil
METEOR Spark Plugs
Boiler Compound
Linseed Oil Soap

and all kinds of Lubricating Oil and Greases, etc.

Velvet Lubricant is suitable for transmission, differential and cup lubrication, does not stiffen up in the cold so as to cause any inconvenience in shifting the gears, and will not become thin in hot weather, having been specially treated to meet the requirements of the varied weather conditions. Coats the gears to make them silent, will work into the smallest openings where oil will travel, and lubricate every bearing perfectly.

"Lubriko" Auto Oil is the most highly refined neutral oil for automobile lubrication, possessing high fire test, so that it retains its body under extreme heat.

After many years' practical experience in oils we produced this brand, and we offer it to dealers, knowing it to be of the highest standard of quality for the lubrication of automobiles, stationary gas engines, motor boats, motor cycles, and all kinds of gas engines, whether air or water cooled. Made in light, medium and heavy consistencies.

Westclox

—that's Big Ben's family name

Tie up with the advertising on these clocks

SLEEP-METER, the America alarm and Pocket Ben are now having their inning in the national Westclox advertising.

These three good-selling numbers occupy Page One this month in the Saturday Evening Post. Other magazines of big circulation are also featuring them.

As a merchant you know what this will mean to you in your store. You know what advertising has done in the past in stimulating direct sales of alarm clocks.

But you will only get the most benefit from this advertising if you let your own windows help you tie up with our publicity.

Display a group of these three Westclox so your customers will be reminded of the advertising they have read when they pass along. You will quickly see the result in the shape of profits to you.

Also, don't forget that many another good-sized sale is frequently made to a customer who is drawn into your store by happening to need an alarm clock and being reminded of something else he needs when he gets inside and sees your other merchandise.

This way, Westclox become salesmen for you while you are selling them.

Vol. XXXIII No. 17 THE MACLEAN PUBLISHING COMPANY, LIMITED PUBLICATION OFFICE: TORONTO, CANADA APRIL 23, 1921

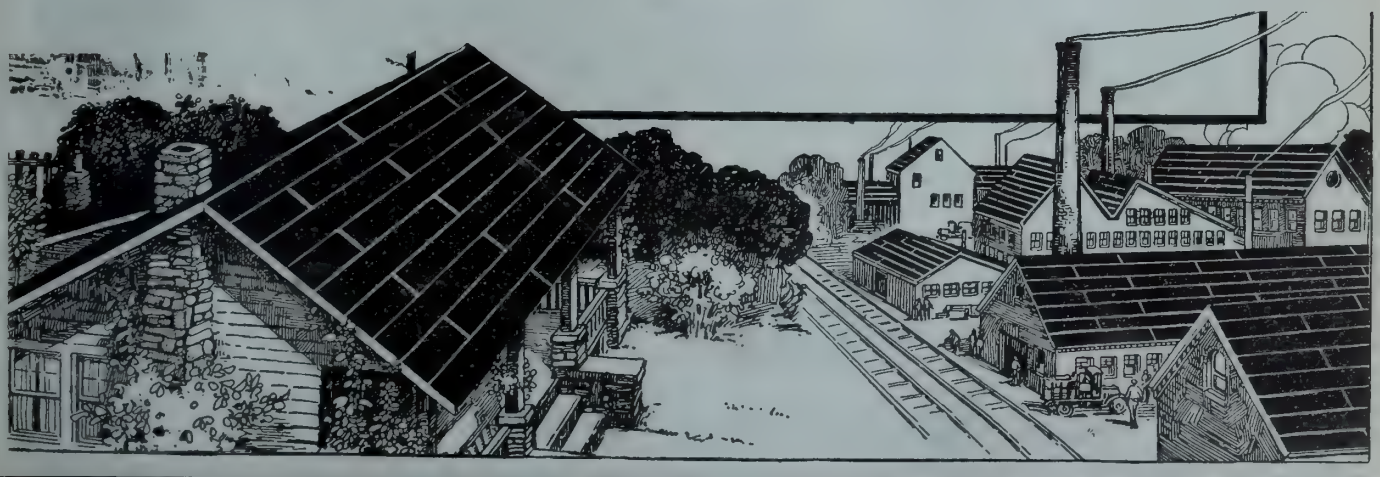
"GOOD MERCHANDISING"
INCLUDES
"PRICE MAINTENANCE"

YOU are in business to make money. "Lazy" merchandise is a drag on your business. Active goods represent big profit possibilities.

But the profit opportunities in any merchandise are also dependent upon "price maintenance."

O-Cedar products rank high in *Both* respects. Their trade popularity is due as much to the ease with which their full selling prices are obtained as to the rapid turnover their steady demand makes possible.

CHANNELL LIMITED
TORONTO



O-Cedar Polish

In Bottles - 30c and 60c.
In Tins - $1.50 to $3.50

UNIVERSAL

The Line that Makes Loyal Customers

Every housewife has a market value. Her trade is worth getting. Her loyalty is worth keeping. It cannot be bought. It must be earned—and deserved. The pleasurable and profitable thing about selling Universal Home Needs is that they never lose caste with trade. There is always the satisfying certainty that one sale will lead to **many.**

The dealer who stocks and features "Universal" products isn't flirting with chance, but building surely and soundly for constancy of customers.

UNIVERSAL
Bread Makers
Food Choppers
Kitchen Cutlery

Show the housewife how you can save her something and you can sell her anything. The Universal Bread Maker saves time and labor in making better bread. The Universal Food Chopper is also a waste stopper. Cuts out waste of bits of food by chopping it for tasty dishes. She wants sharp Kitchen Knives—the sharper the better, which means "Universal." They save time in cutting—spend no time at the knife grinder's.

"Universal" products have thousands of homes to go to. Now is the time to start them on their way. Write for Advertising Material when you need it. There's always plenty. You're always welcome.

Landers, Frary & Clark

The Finest One-Register Furnace on the Market

Jewel Pipeless Furnace

A Successful Heating Appliance

The success is very natural, based, as it is, on exceptional merit, and following where the reliable Jewel Furnaces have already blazed the trail. The efficient Jewel Pipeless has the same splendid qualities that have made the name "Jewel" famous throughout the Dominion.

Real Serviceable Heating

is the primary requirement for homes, schools, churches and other buildings. The Jewel Pipeless gives real, serviceable heating. The Furnace has two casings, the outer casing acts as a Cold Air duct, the inner casing as a Warm Air flue.

The Duplex Register is directly over the furnace. The Outer Section is for admitting *Cold Air*, the Inner Section for delivery of *Warm Air*.

The casings can be made suitable to any cellar.

A postal request will bring full information and prices.

Throughout the British Empire "Gutta Percha" Tires Have Won Great Favor

THESE two extracts from business letters are consonant with the expressions of more than satisfaction we are receiving from our foreign agents. You see the popularity of "Gutta Percha" is not confined to Canada, where we feel safe in saying they are the Dominion's most respected tire, but the rest of the world corroborates the home opinion.

From—
CANADIAN AGENCIES, LIMITED
Kingston, Jamaica, B.W.I.

We expect great things from the Gutta Percha Tire here owing to its increasing prosperity.

From—
THORPE & MARTIENSSEN,
Automobile Engineer,
Johannesburg, South Africa

Our present experience of your tyres tends to strongly conform our opinion that the Gutta Percha Tyre is unquestionably the best tyre in South Africa to-day.

In hot climates and cold climates; in chilly and rough countries, "Gutta Percha" Tires are "The Tires That Give Satisfaction."

Get Your Order in Now--Your Jobber Has

STEWART No. 9

Ball Bearing Shearing Machines

This popular machine meets the two requirements the dealer expects of the products he sells. It moves fast and easy and brings good profits. Stewart Machines attract attention by their fine appearance, arouse interest by the profitable service they give, and convince by their superior selling points.
Tell your customers the machine quickly pays for itself by getting more wool than hand blades. The owner of a Stewart Machine shears more sheep in less time than by old-fashioned hand methods. The wool is removed in one unbroken blanket, with longer and better fibre, grading higher and bringing top prices.

Another means of easy, quick and profitable sales is the Stewart No. 1 Clipping Machine for horses and cows. Clipped horses dry quickly, rest better and work more. They are safer from coughs, colds, heaves and pneumonia. Dairy officials advocate the clipping of cows all over in the spring, and on flanks, udders, and underline once a month to insure clean milk.

Order now—display well and enjoy early sales.
Your jobber sells Stewart Machines.

1. Fulcrum Shoulder
2. Overhanging Cap
3. Adjustable Short Flexure
4. Channeled Guard
5. Micrometric Precision

The New Improved

Gill

Triumphs Again

Gillette Safety Razor

August 31, 1920

The Fulcrum Shoulder and *Overhanging Cap* provide straight edges acting on the blade to produce an Adjustable Short Flexure, which results in a straight and extremely rigid shaving edge in all positions of adjustment.

The *Channeled Guard* underlying the adjustable blade edge enables the adjustment to be changed without sensibly altering the angle at which the razor is held in shaving, and also leaves the entire edge free to the beard while guarded from the face.

All parts are made with *Micrometric Precision* in strict conformity with measurements determined by Gillette technical experts after exhaustive research and thousands of shaving tests.

As a result of these new features, the New Improved Gillette Safety Razor is the finest shaving instrument ever produced.

The distinctive *Diamond Knurling* is used exclusively on the New Improved Gillette Safety Razor.

Window display and Sales

One reason why Gargoyle Mobiloils bring customers

NO one questions the fact that window display helps to sell goods. Roughly there are two methods of using your window. One is to exhibit slow moving goods, the other is to display merchandise on which you can build a steady, *repeat* business.

There is no question as to which method is more productive of results. Slow moving goods are slow because there is little need for them. Goods for which there is already a demand are far quicker to attract new customers.

Hardware merchants find that cans of Gargoyle Mobiloils placed in their window invariably attract automobile owners. These motorists not only need oil, but miscellaneous hardware used around an automobile. Gargoyle Mobiloils thus help hardware dealers to build up steady customers for their slow-moving goods.

Our Chart of Recommendations has the confidence of automobile owners the world over. Hanging on your wall it shows your customers that you are competent to specify the correct grade of Gargoyle Mobiloils for every make of automobile, tractor, truck and motorcycle.

Thousands of hardware merchants have found that Gargoyle Mobiloil brings immediate profits and leads to the sale of many other items. Your business needs Gargoyle Mobiloils.

Why AutoStrop Razor Leads

AutoStrop Razors sell themselves when the salesman demonstrates them. Show the customer how the blade opens for cleaning like the leaf of a book —how the same lever that releases the blade adjusts it for close, medium or light shaving.

The Retailers Find it Their Greatest Money-Maker

WHEN a trade-marked article leads all others of its class in sales, there is a reason for such success. The article must have real merit. It must be superior. It must be backed by superior selling forces.

VALET AutoStrop Razor
—sharpens itself

is backed always by solid and effective advertising to consumers. The British, American and Canadian Magazines all carry AutoStrop Razor publicity. Nearly every newspaper throughout the Dominion tells its readers of the merits of AutoStrop Razor.

The campaign for a big year in 1921 has begun. The advertising appropriation is Big. The plan for selling helps is Big. The record sales of 1920 will be exceeded, because the whole marketing plan is Big. The dealers' profits will be Big.

Advertising is a necessity. Good advertising is effective. But this year's good Advertising will be backed with window displays, booklets, demonstrations and a score of other efforts to help the dealer keep the AutoStrop Razor where it belongs—IN THE LEAD.

577

Publications in Canada carried the Valet AutoStrop Razor Advertisements in 1920

There will be no let-up in 1921. The accumulated impulse of ten years of steady advertising is not enough. New Ideas in publicity have been prepared. The story of the AutoStrop Razor will be told again to every intelligent Canadian reader. Yes—it will be told again and again.

Link Your Store With Hundreds of Homes

EVERY time you place a Miss Simplicity you render a service which will develop business. Every member of the family becomes a regular customer, because of the happiness and pleasure in which they all share through Miss Simplicity. All friends of the family, too, will become live prospects for you.

The reason is simple. Miss Simplicity is an electric washer that fills a big need in the home. Built on liberal lines, made of the finest materials, mechanically perfect, and yet so simple, it appeals instantly and almost sells itself. The actual savings in laundry and doctor's bills made in a single year by Miss Simplicity will more than cover the cost.

This is profitable service to render customers because it creates good will upon which you can capitalize for years. Besides, Miss Simplicity gives you a handsome profit on every sale, while you are protected by our liberal guarantee with every machine.

Miss Simplicity offers the means to link your store with positively hundreds of homes—every home around you that is wired for electric light. Let us get together for better business. Send for our dealer proposition.

We are prepared to assist dealers with attractive advertising material. Full particulars will be sent with our offer.

A Style and Size of Wood Cook for Every Need

Spring is here, the warm weather is getting nearer, the annual housecleaning is at hand and incidentally the large, cumbersome range has to be moved from the winter to the summer kitchen. To meet such an emergency

NOW IS THE TIME

for the DEALER to have on hand a suitable stove,—a stove that would suggest itself to your customer as the very thing they require for their summer kitchen.

Below are a few suggestions for permanent fixtures for the Summer Kitchen or Summer Camp.

The Favorite Warrior

A low-priced Cast Wood Cook Stove of Modern Construction and Design, and Guaranteed to be a Perfect Worker.

Size of Oven, 18x21x12 inches.
Size of Square Top, 24x27.
Size with Reservoir, 24x37.

Length of Wood, 23 inches; Feed Door, 6x7. The Galvanized Reservoir is easily attached or detached and can be changed to a Square Stove in a few seconds.

The Gleaner

A cheap Steel Coal or Wood Cook well put together, neat in appearance and is also especially adapted for Summer Camps or Summer Kitchens.

The Galvanized Reservoir can be detached without the removal of a bolt.

Made in two sizes, Length of Wood 19″. Size of Ovens, 14 x 19 x 10 and 16 x 19 x 10.

For Coal Only, For Wood Only or Both Coal and Wood.

The New Diamond

A large and substantial Stove of ample proportions with an Extra Large Firebox and Top, and is sold at a Moderate Price.

Size of Oven, 22x23x15 inches.
Size of Square Top, 30x31.
Size with Reservoir, 30x45.
Length of Wood, 28 inches.
Size of Feed Door, 7x8.

We always carry a complete line of Wood Cooks in stock, and your orders or enquiries will receive our most prompt attention.

An Announcement to the Trade

We beg to advise that the assets of the Brantford Branch of The McCLARY Manufacturing Company, formerly The Wm. Buck Stove Co., have been taken over by the HAPPY THOUGHT Foundry Company, Limited, who will co-operate with Happy Thought Dealers for their greater mutual benefit.

Our object will be to maintain the high standard of excellence which HAPPY THOUGHT Ranges have always displayed and at the same time we hope to improve the service and from time to time make such additions to the line both in stoves and furnaces as the trade demands.

We trust to receive a liberal share of your patronage, and assure you that at all times your orders will have the best possible attention that we are able to give them.

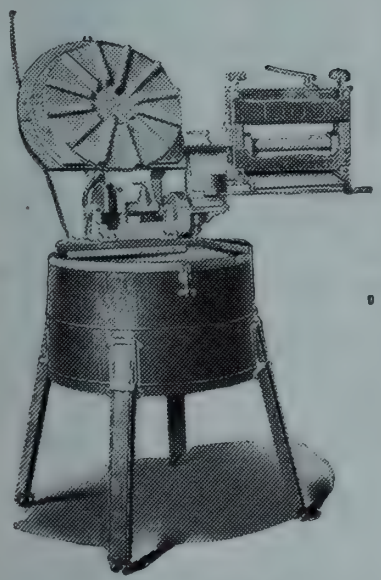
THE NEW IDEA PIPELESS FURNACE

There are many people in your town who would instal a "New Idea Pipeless Furnace" in their home if you pointed out its many advantages. The New Idea Pipeless Furnace, as the name implies, has no pipes, no bulky cold air returns. Floors and walls need not be torn up, and no cellar is too small to accommodate it. Made in three sizes, 518C, 520C, 524C, and designed to suit all heating requirements.

The New Idea Pipeless Furnace is not only suitable for the home, but is the cleanest, cheapest and most efficient way to heat the average store, church, school house, or town hall.

Write us for Pamphlet which fully describes and illustrates this wonderful heating plant.



We also manufacture the famous New Idea Pipe Furnace, Souvenir Stoves and Ranges, and a complete line of builders' hardware.

Money-Making Opportunities like this do not come to you every day

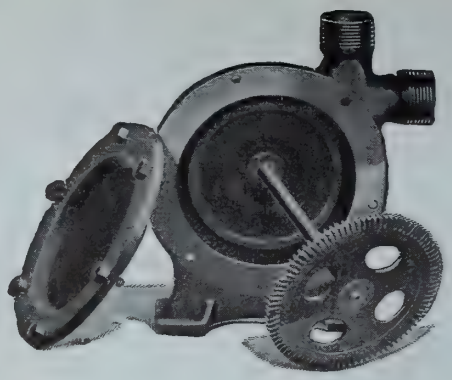
1900
Wood Tub
Electric Washer

WHILE our "1900" Cataract is the leader of the "1900" line, merchants handling our Washers find it a fine thing to be able to offer a lower priced machine that is also operated by electricity.

The "1900" Wood Tub Electric is one they can strongly recommend to those not feeling able to pay the price of the "Cataract."

The design of our Wood Tub Electric Washer is up-to-date; and its washing action far superior to that of the "dolly" type. The tub is of Virginia Cedar—which we know to be superior to any other wood for Washing Machines—a fact on which we have satisfied ourselves, as the result of 20 years' experience in making the leading hand-operated machine, the "1900 Gravity."

The "1900" Wood Tub Electric is very durable—all the materials used being of a quality in keeping with the tub itself; and it is equipped with a reliable "swing" wringer.



This machine offers every chance for quick turnover and good profit.

It is but one of five types of Washers that we make—a quality line throughout; and embracing every type of machine that will successfully wash clothes.

This Is The Pump

When looking at the usual Water System, you have been used to seeing a great big tank, with a complication of wheels and gears and belts and springs close by.

When looking at the Westco Water System, you can look for them, but as they do not exist, you cannot find them.

The

Westco

Tankless Water System

is so efficient because its construction is so simple and its action is so direct.

The **only moving part** is the impeller. This revolves free in the water channel, and therefore is practically wearproof.

The Westco Tankless Water System is one of the best, most profitable lines ever handled by a dealer.

The new systems going on the market are fitted with an

Appliances You Can Sell With Confidence

THE retail merchant who succeeds in winning the confidence of a fair-sized group of customers has taken a long step toward a comfortable business success.

The secret is—the wares the dealer handles. If his wares be all that the public expects, and worth the money spent on them, that dealer—provided he has shrewd business ability and a good merchandising system—is practically sure of eventual success.

In the electrical appliance trade the New Canadian Beauty line is helping many a dealer to quick and sure success, because the New Canadian Beauty line is a ***quality line*** from beginning to end.

Electrical Appliance dealers have found that the New Canadian Beauty line is one that can be sold with every degree of confidence. They back our absolute guarantee with their own sincerest recommendation—***a thing they would not dare risk unless they knew for certain that New Canadian Beauty Irons, Toasters, Grills, Stoves, Percolators, etc., were dependable, and bound to give the service expected.***

The New Canadian Beauty line makes a beautiful window display. Our new window cards are artistic and effective. Our national advertising, to be launched shortly, is especially forceful. Our discount plan is sound and liberal in your interests.

Write to-night for our proposition.

Unwarranted Abuse of Tinsmiths

Inland Revenue Inspectors Threaten Tinsmiths Who Do Not Take Out Manufacturers' License and Make Returns of Sales Tax—High Official of Department at Ottawa Says Tinsmiths Not Liable as Manufacturers Pending Test Case—Some Technical Points Explained

Ottawa, April 21—"Where tinsmiths are selling to consumers they are not asked to collect and pay to the Government the manufacturers' tax until the test case against Ottawa tailoring firm is decided. If the finding of the case is that merchant tailors are not manufacturers, then same will apply to tinsmiths."—Department of Inland Revenue, Ottawa.

THE point brought out in the above official message from a high official of the Department of Inland Revenue at Ottawa, in answer to an enquiry by HARDWARE AND METAL, confirms the previous statements made by this paper as to the status of tinsmiths and is ample justification for hardware merchants who are being informed otherwise by local Inland Revenue iuspectors to take issue with them on this question.

During the past week HARDWARE AND METAL has received a number of enquiries concerning this matter. While it was definitely stated in March 12 issue that tinsmiths were not liable to the manufacturers' license and to collect 2 per cent. sales tax on sales to consumers of lines "manufactured," the recent enquiries have come as result of the fact that Inland Revenue inspectors are telling the trade that the test case at Ottawa against merchant tailors has nothing to do with tinsmiths and that the latter are responsible as manufacturers.

Some indication of the attitude being taken by inspectors is gleaned from the following verbatim report of a conversation between an inspector of the Inland Revenue Department and an Eastern Ontario hardware merchant during this week. The hardware merchant states the officer was exceedingly overbearing, and this is evident from the following conversation:

I. R. O.—Mr. ——, is it?

Merchant—Yes.

I. R. O.—I am from the Inland Revenue Department. I want to see your books.

Merchant—What books do you wish to see?

I. R. O.—I want to see all your books. I have the authority and I am going to see them!

Merchant—That's all right, but in what connection?

I. R. O.—In connection with your tinshop.

Merchant produces book where workmen have entered charges. These have been crossed out as entered on the firm's books.

I. R. O.—You had no right to cross these out in this manner.

Merchant—We have done this ever since we have been in business.

I. R. O.—You had no right to. I can't read them.

Merchant—The workmen didn't write them for you to read.

I. R. O.—Now I will take possession of your office.

Merchant—I will read these charges if it will be of any assistance.

I. R. O.—All right. Produce the ledger in which it is entered.

After some minutes' hunting the item is found and is copied on a paper. The next three items are for cleaning stoves, etc.

I. R. O.—It would take me a week at this rate to get the figures.

I. R. O.—What is your license number.

Merchant—Haven't such a thing.

I. O. R.—You should have. This tax should have been paid since May 19. Our men have been here four or five times trying to get you to make returns.

Merchant—There has never been an officer enter the door or a single letter from the department.

I. R. O.—Any way, you knew you had to pay this.

Merchant—We understood it hinged on the test case to be tried.

I. R. O.—This has no connection with you. It is very funny every other tinsmith has made returns.

Merchant—It is too bad we are the only exception in Canada, as we generally plan to pay what we should.

I. R. O.—I will be back in a few days' time and if returns are not ready, the law will take its course.

EXIT.

Tax on Purchases

An enquiry from another merchant states that he has received notice that his license fee (manufacturers' license) was again due. "I understand that the only difference it would make to me by taking out this license is that I will only have to pay 1 per cent. sales tax on goods purchased by me in place of 2 per

(Continued on page 45)

Independent Mills Now Closing Business

Freight Rates and Wages Factors in Predictions of Further Revisions—Gradual Recovery Expected

THE chief effect of the coming together of independent and Steel Corporation prices by the raising of the former and the lowering of the latter was the closing of business by the independent companies on which they had made quotations below the new level, says the Iron Age.

Thus the bulk of the new orders of the past week has gone to the independents, but at the same time the Steel Corporation has been helped by the reinstatement of business which had gone off its books while it was maintaining Industrial Board prices.

There is no indication that consumers will change their policy of limited buying. Generally they count on further revisions of prices as the result of the expected reduction in freight rates. In addition, the Steel Corporation's policy in respect to wages is admittedly a factor in the determination of future prices.

Published predictions of larger building operations because of the Steel Corporation's reduction of $5 in structural shapes are received with reserve by fabricators. The cut in steel is of small moment in comparison with the high labor scales in all building trades.

In the Pittsburgh district a recovery of 10 per cent. is noted from the extreme low point of operations by the leading producer, but the Steel Corporation percentage in some other districts is lower this week. In the Chicago district the Steel Corporation has about one-third of its mill capacity active, while the average of independent companies there is above 40 per cent.

The new wire schedule represents a reduction by the Steel Corporation from 3.25c. to 3c. on annealed fence wire, but no change in its $3.25 price on wire nails. Some independent producers had sold plain wire at 2.85c. and nails at $3.

Wage reductions in foundries on May 1 and consequent strikes are a further factor of weakness in the foundry iron market, particularly in Central Western and Chicago districts.

Signs are that Germany with a 50 per cent. duty on exports, is finding it difficult to compete with France and Lorraine and fears that an improvement of the mark would be disastrous. How long bonuses and rebates from the German Government can be kept up as an offset to high wages, costs and taxation is a question.

Further Adjustments

Buyers generally are showing a reluctance to accept the new price level at its face value in the apparent belief that further readjustments are probable before stability will have been restored, says the Iron Trade Review. At the same time, the business situation is so swept by cross current that it is doubtful if any price level, no matter how low, could prove immediately effective. In the building trades, for example, to which the steel industry is looking for much tonnage, the wage factor, at this time, far supersedes in importance that of material costs. Plant operations are slightly better among the independent companies reflecting some tonnage driven in when recent advances were made from the lowest levels.

The composite market average of the Iron Trade Review this week is practically unchanged at $43.82, which compares with $43.90 last week.

Production of merchant pig iron so drastically reduced has reached an approximately balanced condition with current shipments and stocks more stationary. The market lacks activity and price strength.

Mere Totals Will Not Be Acceptable

Merchant in Western Ontario Asks for Criticism of Income Tax Returns—Has Not Arrived at Income in the Right Way—Follow Detailed Instructions

A WESTERN Ontario retail general merchant writes:

"I have read your article on making income tax returns, which is very much to the point at the present time. Below I am giving my trading returns. Is this statement correct?"

Total assets	$17,500
Total liabilities, Dec. 31, 1920	5,250
	$12,250
Less net worth, Dec. 31, 1919	$10,050
Net profit or income	$ 2,200
Exemptions	$ 1,150
Balance	$ 1,050

"Is this correct? Do I pay the tax on the balance $1,050?"

Answer.—You have not arrived at your income in the right way and have probably assessed yourself for far more than you should pay, and the income tax commissioner does not desire anyone to pay one cent which is not due.

Now take your income tax paper form TI; turn to page 4 and begin to fill in each item as it appears. Below will be found an example.

Only Way Acceptable

The example as is here shown is the only way the Government will accept your return. Everyone was told they must keep proper books of account last year, and to try to scrape through by merely showing totals of assets and liabilities and the net worth is useless today.

A merchant may have made a large sum on a side deal in real estate on which profit is not liable for income tax, yet in the same year his actual trading account may show a very small margin of profit. Follow the detailed instructions I have given in the two previous articles dealing with the subject. First obtain your forms and begin at once as directed and you cannot possibly go wrong if you make a clean-cut, honest return.

An Example to Follow:

Merchandise sold during year		$24,875
Inventory of stock, Jan. 1st, 1920 (net valuation)	$ 8,200	
Add cost of merchandise bought, including freight	16,000	
	$24,200	
Inventory of stock, December 31st, 1920	6,500	
	$17,700	$17,700
Gross profit		$ 7,175
Commission from Cream Agency		241
		$7,416
Expenses:—		
Wages, $2,350, Rent, $450	$ 2,800	
Advertising, $50, Depreciation on Rigs, $15	65	
Horse Feed, $120, Horse Shoeing, $30	150	
Gas, Oil and Tires, actual figures for Truck	200	
Cartage, $18, Telephone, $70	88	
Office Supplies and Counter Check Books	105	
Interest on Borrowed Capital used in Business	....	
Bank charges, $16, Water Tax (if any) $10	26	
Heating Store, $160, Lighting Store, $48	208	
Tax on Business Premises	16	
Business Tax, $5, Motor Truck License, $10	15	
Insurance on Stock, Fixtures, Horse and Rig	25	
Insurance on Truck, $30, Depreciation on Fixtures, $10	80	
Cost of Wrapping Paper, Bags and Twine	205	
Freight and Express Charges, Outward	55	4,038
Total Net Profits for Year		$ 3,378

Planning Sixth Annual "Bicycle Week"

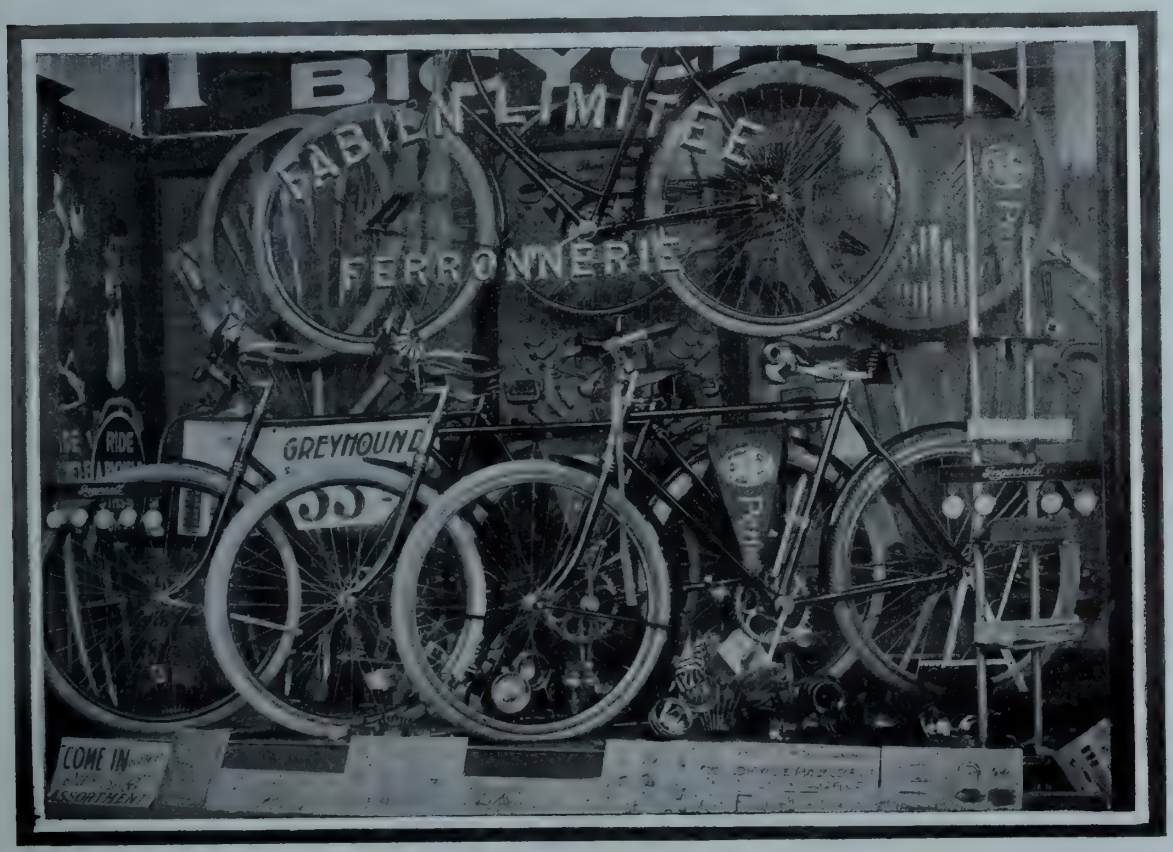
Sixth Annual "Bicycle Week" in Canada Soon to Be Held—Suggestions for Hardware Merchants to Link up With This National Campaign—How the Event Has Been Celebrated in Other Cities in Past Years

CANADA'S sixth annual bicycle week will be held from April 30 to May 7. Already elaborate preparations are under way by manufacturers and bicycle dealers in order to arouse as much enthusiasm over the event as possible and to stimulate trade. Last year "Bicycle Week" reached proportions previously unknown and the hardware trade joined in the campaign to good effect. This year's event is expected to be even more effective and much effort is being expended toward that end.

The occasion this year will be marked by a repetition of many of the events previously held, including bicycle races, parades, advertising and window displays.

Discussing the bicycle situation with B. B. Halliday, sales manager Canada Cycle & Motor Co., West Toronto, Hardware and Metal was informed that trade at present is rather "spotty," being in restricted volume from some districts while other districts are showing large increases in business compared with last year. Taken as a whole business was said to be opening up fairly well though in comparing with last year it must be kept in mind that last year trade opened up exceptionally well. Mr. Halliday stated that Eastern Canada shows up better than the West at the present in respect to bicycle business. He further stated that the closing down of a number of factories in this part of the country had been a factor in curtailing bicycle trade. He stated that extra effort was being put forth as a result of this condition and that by means of advertising, special events such as "bicycle week," etc., a stimulation to business was expected.

Some Important Arguments



There are many good arguments to be used in selling bicycles at present and advantage can be taken of conditions to point out the usefulness of the bicycle. Practically everything is being bought to-day on the basis of utility rather than pleasure or decorative value, so that the point should be emphasized in selling bicycles, as it is in selling other lines. A bicycle is an economical means of transportation which makes its rider independent of other conveyances and in fine weather nothing is more exhilarating or health-giving than riding a bicycle. These points can be emphasized in the advertising, in the displays and in the personal selling effort put forth.

Some suggestions for conducting a "bicycle week" are given herewith as a result of many novel plans followed in other cities during past campaigns. To begin, due notice was given of the approach of the event by the use of large space in the local newspapers, all bicycle dealers co-operating and using space to emphasize the merits of the bicycle. An individual known as "the bicycle man" was employed and his photo was reproduced in the newspapers. During the week he rode about the city on a bicycle, and anyone accosting him with the phrase "I ride a bicycle" was given a prize of $10.

Distribute Pennants

In another city pennants bearing the statement "I ride a bicycle. Do you?" were distributed by the retailers to boys and others entering their stores. Prizes for the best window displays of bicycles and accessories have also been offered as a means of encouragement.

Many cities hold parades with both fancy and dress sections. In one case

How a hardware merchant makes good use of his restricted window display space to show bicycles and accessories. This kind of window display with a few flags, pennants, neatly printed window cards, etc., will help to draw to the store some of the bicycle business expected to result from the annual "Bicycle Week" now being planned.

a first grade bicycle was given as first prize for the best costume.

Recently discussing the effect of "bicycle week" with a hardware merchant who had participated in these events, Hardware and Metal was told that the best results are the cumulative results rather than the immediate effect. The campaigns have been found to be instrumental in getting people to think and a tendency has been noted for trade to be maintained more evenly over the year than was formerly the case. In his advertising this merchant made an appeal to fathers and mothers to buy their children bicycles as a reward for passing examinations to be held shortly.

Extent of Bicycle Industry

The bicycle industry in Canada is rapidly assuming large proportions, and to give the merchant some idea of its extent let it be noted that in many cities and towns there is an average of one bicycle to each family and taking the country as a whole there is a bicycle for approximately every fifteen people. The value of bicycle production runs into millions of dollars. In recent years there is said to have been a considerable increase in the sales by city dealers and it is thought this is the result of intensive effort along the lines suggested.

Steps are being taken by various organizations to encourage bicycle racing in Canada as a means of helping to popularize this means of conveyance. "Bicycle week" has proved a marked success in Canada, so much so that it has been adopted in the United States and the combined efforts of dealers in both countries will continue to make itself felt in increasing the numbers of those who ride bicycles.

Some Effective Appeals

A number of suggestions recently offered to help the dealer sell bicycles include that of appealing to business firms to buy bicycles for delivery boys in order to speed up service. Such sales also carry sales of accessories such as baskets, etc., for carrying parcels. A recent ad suggestion on this point was as follows:

"Speed up your delivery service. Equip your errand boys with bicycles. The initial cost is very low. The actual cost of operation is practically nothing. A bicycle is the most economical mode of transportation in the world. It is always ready to go anywhere, everywhere at a moment's notice. One boy on a bicycle can do the work of two on foot, without the expense of carfare. You please your customers more by giving prompter, more efficient service and you actually save money."

Another ad suggestion is as follows:

THRIFT

Real thrift means wise investment. The purchase of a bicycle is one of the wisest investments a man can make for before the year is over the bicycle has paid for itself in carfares saved and is still ready for several more years of active duty.

The bicycle pays a profit as well—in the form of healthful, moderate outdoor exercise to be obtained as one goes back and forth from his daily task.

Letters Help Sell Wheel Goods

LETTERS have been used to good advantage in increasing sales of bicycles and other wheel goods, especially when used in conjunction with displays and special sales effort. One merchant who has used letters with good results recently addressed the following letter to some hundreds of married women in his district, and the results were said to be beyond expectation:—

Dear Madam:—

Children—whether your own children or your friend's children—look forward to certain times in their lives—times which all parents and friends of the children like to remember. Their Birthdays, their Christmas times, their promotion times—and it is the Oh's; the Ah's, the laughter and delight, and the youthful determination to do better, when rewarded for the good work they have done that gives you the one real joy and pleasure of Life.

Happy, healthy children are a delight to every Home; a necessity to the life and Democracy of a Nation. For Children to be happy and healthy it is necessary that they are strong in mind and body. It is not enough for you to see that they have good books to read, the proper text books to study—but their recreation hour requirements should be looked after with the same keen interest. We specialize in health building and out-door recreation toys—we can help you to bring many a pleasant hour into any child's life regardless of age—our line of toys will fill your every want. There are the Baby Cars, the teenie-weenie wagons and coasters; solid tire and pneumatic tire Velocipedes; miniature automobiles; coaster wagons; Hand-cars with gear drive and brake; and a number of other toys on wheels. Then the very best of all is the Bicycle—the Birthright of every Canadian Boy and Girl. Remember, it will be a distinct pleasure for us to show you the entire line—our salesmen are experts and will gladly give you any information you may desire.

You may not have thought of it—but be sure when buying this line of merchandise that the article fits the child. This can easily be accomplished without knowledge to the child by measuring the child from the crotch to the floor the same as a tailor measures for a pair of trousers. This measurement is all that is necessary to buy any child a toy that will fit.

Our store is conveniently located in the shopping district. When window shopping of an evening, remember it is the one bright spot on —— Street.

Very truly yours,

Hardware Merchant.

Hamilton Plate Mill Commences Production

Hamilton, Ont.—Production of large steel plates is being conducted by Dominion Foundries & Steel, Ltd., now that the new universal plate mill recently installed in the plant at Hamilton has commenced operations.

Representing an investment of one and a half million dollars, C. W. Sherman's announcement as president of the company is of interest to the steel trade. Mr. Sherman stated, while the steel trade was undergoing a process of change at present, he felt that change had run its course. Besides, he had sufficient faith in the future of Canada to instal such costly equipment as, after years of study of the Canadian steel market, he became convinced that what was most sorely needed to take care of domestic requirements was a universal steel plate mill.

Mr. Sherman, referring briefly to the capabilities of the mill again, said that it can turn out billets and blooms from three inches by three inches to eight inches by eight inches thick, and from six inches to forty inches wide. These are now available, while skelp of all sizes and weights, from eight inches upwards, can be made. All sizes and weights of sheet bar sheets can be produced, as well as universal plate from seven inches to forty-one inches, of any thickness and length. Sheared plate up to sixty-six inches in width and of any thickness are procurable. The mill has a capacity of 150,000 tons per year.

An Annual "Spring Hardware Opening"

Early Drive Made on Spring Business by Ingram & Davey, St. Thomas, Ont.—Put on Attractive Bargains to Draw Crowds to All Departments, Then Demonstrators Work Effectively—"Screen Early" Campaign—Increasing Trade in Lubricants.

Some extensive local advertising is done in large space by Ingram & Davey, Ltd., St. Thomas, Ont., in connection with the development of spring business. The large ad. in the centre is a full page used in a local newspaper announcing the annual "spring opening," as outlined in the article herewith. A number of lines for housecleaning, spring sporting goods, paints, tools, farmers' requirements, etc., are dealt with. In the other ads. used in connection with the campaign screens are featured along with garden tools, and in another ad. mechanics' tools and farm implements are shown. The ad. on the right is devoted to information on scientific lubrication, dealing with axle grease, coal oil, cylinder oil, gasoline, etc. The plan of devoting good sized space to the pushing of a certain line in each ad. has been found valuable by this firm. Read the details of how other selling effort is linked up with the spring advertising.

THE tailoring and millinery shops, departmental stores, etc., stage their "annual spring openings" at which new and seasonable lines are shown. Then why should the hardware stores not follow the same plan? There are many lines in a hardware stock which become seasonably active in the spring. so why not make a special demonstration when their time comes to be shown. Thus reasoned Ingram & Davey, Ltd., St. Thomas, Ont., in introducing this plan into their hardware business.

Discussing the matter with Hardware and Metal, G. L. Davey pointed out that for the last thirteen years that store has held an annual spring opening during the latter part of March or first of April, with the idea of getting the people interested in spring lines at an early date. Securing such early interest has been found to be a factor in extending the period of usefulness of such lines as are featured, and thereby increasing sales.

"A few years ago we followed the practice of giving souvenirs in order to get the people into our store," said Mr. Davey, "but we found that a large percentage did not spend the time we desired with our demonstrators and consequently we adopted another plan, namely, that of putting on very attractive bargains which get more people into our store and get them into every department whereby the demonstrators gain a better opportunity of telling their little story about their products."

Using Demonstrators

Mr. Davey stated that for the annual spring opening this year the firm had fifteen demonstrators, who were put in all departments and they interviewed nearly everyone that came into the store throughout the day.

"We have found that our opening does a great deal of good and is a good business starter," said Mr. Davey. "The people see the new lines on display first and when they need that article the first thought that enters their minds is 'Ingram & Davey'—which brings the customer back again."

The local newspaper has for a number of years run a "Paint and Clean-up" week and Ingram & Davey have found it advantageous to link up with this campaign in pushing seasonable lines. The clean-up week started on a Saturday and the ad on garden tools, etc., as shown herewith, was run in the paper on Friday. The cumulative effect of these campaigns is said to be very great where every merchant lends his support and the results are said to have been very satisfactory.

"Screen Early" Campaign

The "screen early" idea is an original one with Ingram & Davey, Ltd.. and it has been carried out with good results.

"The thought we tried to bring home was that by screening early people would 'stop the fly' rather than 'swat the fly'," said Mr. Davey.

Though it was thought to be a little early to advertise screens, the advertising combined with a brief spell of warm weather started business in screen doors

The Only Weekly Hardware Paper in Canada

PUBLISHED EVERY SATURDAY SINCE 1888 BY

The MacLean Publishing Company, Limited

Montreal TORONTO, CANADA Winnipeg

SATURDAY, APRIL 23, 1921

ALREADY an amendment has been introduced at Ottawa to strike out the amendment made last session in regard to the necessity of securing permits to buy or own firearms or weapons.

* * *

IT HAS been suggested that Premier Drury, in calling into conference representatives of all branches of the trade during the past week, had taken a leaf from the notebook of the Dominion Government which brought upon itself a storm of abuse for not consulting those who were to be the object of its edict in regard to taxation matters last year.

* * *

PREMIER DRURY, of Ontario, this week held a conference with retailers, wholesalers and manufacturers to discuss means of improving commercial conditions in the province. There are many ways in which the merchants can help the administration in meeting problems of the day and especially in these times when the greatest economy of all resources must be practised it is encouraging to note this step in the right direction.

Case of Tinsmiths

A GREAT deal of confusion has been caused in connection with the application of taxes to the product of tinsmith shops, owing to the fact that the exact status of this trade has been indefinite. In March 12th issue of Hardware and Metal a statement was published from the Assistant Deputy Minister of Customs and Inland Revenue to the effect that pending the test case being instituted against a tailoring firm in Ottawa to establish whether a retailer could be classed as a manufacturer, tinsmiths and certain other trades would not be responsible for taking out manufacturers' licenses and collecting 2% sales tax from their customers. Despite this assurance a number of letters have been received from hardware merchants during the past week stating that Inland Revenue officers have been overbearing in their dealings with tinsmiths and pay no attention to the above ruling, stating that tinsmiths are not affected by what the tailors' case establishes.

In order to clear up misunderstanding and give tinsmiths and hardware merchants operating tin shops, something to work on, a definite statement from a high official of the Department of Inland Revenue appears in this issue confirming the previous statement. With this assurance these merchants can refrain from taking out or renewing manufacturers' licenses and from collecting any sales tax whatever on their sales. This must not be confused with the sales tax they pay on materials purchased from wholesalers or manufacturers. If a tinsmith classes himself as a retailer he pays 1% on materials bought from wholesalers and 2% on materials bought from manufacturers. He has no part in making returns for this tax, however. This statement should clear up any difficulty and the result of the test case will be made known in Hardware and Metal in a short time. It is due for consideration early next month.

Where Caution Is Needed

MANY attempts have been made at various times, to secure the co-operation of hardware merchants in deals which were of a questionable character and it is therefore in the interests of the trade as a whole and of each merchant individually that very careful consideration be given to any such schemes in which he may be asked to participate. Every plan which is not quite in line with the merchant's regular routine of business may not need to be looked upon suspiciously, but there are generally some earmarks which justify suspicion where the scheme is not above reproach, and these should be watched for.

During the past week a plan for securing the co-operation of the hardware trade in the formation of a company to enter upon a building construction campaign has come to the notice of Hardware and Metal. The matter was gone into in detail and the proposition is outlined fully elsewhere in this issue. While this proposal may be made in good faith yet there are several features about it, not evident at first glance, on which the merchant should be fully informed before he gives his co-operation. He must remember, for example, that as a preferred stockholder he is entitled to no say in the affairs of the company, and that profits, other than the 8 per cent. dividend, are not to be divided until the company is wound up. Obviously this action is not within the power of the preferred stockholders. Another factor is that real estate values are, now, at pretty high levels, and while no one will say that they will decline, yet it is very doubtful if the investment is sufficiently sound to carry $4,800 in mortgages on a house built to-day to sell at the top price of $5,500.

The plan in question seems to have for its object the sale of stock to raise money to build houses, the profits on which will accrue to the officers of the company and the holders of the common stock. Therefore looked upon purely as an investment proposition for the merchant, it is a question of the relative values of 8 per cent. preferred stock. There are many angles to propositions of this kind and they should be carefully considered. The hardware merchant should ask himself if he would invest his own funds in the stock compared with other stocks paying similar returns. The hardware business secured should not enter into the question.

Much Revenue Needed

AS the date for the presentation of the Budget draws nearer, interest is centering on what action the Minister of Finance will recommend to raise the necessary revenue. A glance at some statistics reveals the fact that during the fiscal year it will be necessary to raise more than half the national revenue from taxes by means of new impositions to be outlined, probably by means of a sales tax, business profits tax and income tax. During the past year customs revenue totalled $162,812,000 while inland revenue, consisting chiefly of luxury and sales taxes, yielded $76,441,000. Business Profits taxes yielded $37,601,000 and Income Taxes $38,814,000.

Customs revenue is rapidly declining and if the profits tax is eliminated, as has been suggested, it is evident the Government will have a large sum to raise by a tax on commodities. From present indications it is thought most likely that the recommendation of an adjustment of the present sales tax, will be acted on.

Scheme to Interest Hardware Trade

Toronto Hardware Merchants Approached by Financier and Building Contractor to Take Interest in a Construction Scheme by Selling Them Hardware "At the Market" and Taking Part of Payment in Stock — Interesting Dialogue Reveals Points in Proposition.

A CO-OPERATIVE plan for the construction of houses on a large scale has been introduced to the hardware trade in at least one part of the country within the past week. This plan has many features which require much consideration. The first word received by the hardware trade concerning the scheme consisted of the letter as follows from an investment company addressed to a Toronto hardware merchant:

> "We have been instructed by a large building company that they purpose erecting one hundred houses during the present season. They propose placing the orders for the various supplies with those firms who will assist them in financing the enterprise.
>
> "If your firm would care to tender for any of these supplies and wish to have information regarding same, please let us have your reply at an early date.
>
> "Yours truly."

Upon receipt of this letter the officials of the company were notified by the hardware merchant that he would like full details of the plan, and a conference was arranged, at which Hardware and Metal was in attendance. The plan, briefly, is as follows:

To Sell Some Shares

A financial house and a building contractor have conceived the scheme of building houses on a large scale, forming an incorporated company and selling shares to raise sufficient funds to make a start. The plan, in so far as the hardware trade is concerned, is to get a hardware merchant or group of hardware merchants to supply the hardware for the houses to be built. Part of the payment for such hardware would be in the form of preferred stock in the company. Thus if the hardware in each house totalled $250 and 10 per cent. of it was taken in stock, the hardware merchant would be paid $225 in cash as soon as the hardware was delivered and he would take $25 in preferred stock. The preferred stock is an 8 per cent. cumulative issue with a par value of $10. Of course the hardware merchant could take the whole thing in stock if he wanted to.

The same plan is being followed in securing subscriptions of part of the value of goods supplied, or work done, from bricklayers, plumbers, etc.

What Governs Price of Hardware

"What will govern the price at which the hardware merchant puts in his bid?" asked Hardware and Metal.

"The hardware merchant will have to meet the market price, and we will secure bids from other merchants to confirm it," was the reply, adding that the merchant as a shareholder would be taking money out of his own pocket by quoting too high.

"Ten per cent. of the value of goods supplied in stock would be about equivalent to the merchant's profit on the goods in any case, so that his shares would virtually cost him nothing as the business secured would be in addition to his regular trade," suggested Hardware and Metal.

Upon receiving an affirmative answer to this query Hardware and Metal asked what, then, was the advantage to the investment company of handling the matter in this way. The answer was that in this way the company could sell its stock without any costs for selling and thus save much money for the treasury.

The Plan in Detail

Figured out in detail, the plan is to build five-room houses to sell at $5,500 in Toronto. Fourteen hundred feet of land is said to have been purchased and the total cost to the company of these houses is figured at $4,250, thus allowing $1,250 profit on each house. It is figured that a first mortgage of $2,300 can be raised and with a cash payment of approximately $700 this totals $3,000, leaving $1,250 to be secured for each house. The supscription plan outlined is expected to raise $675 from the various trades, thus leaving only $575 to be secured to complete each house. To secure the money for this, some stock is now being sold. When the houses are sold it is evident that second mortgages for $2,500 will have to be taken on each house for the balance. Thus the company figures at the end of the year, if all the houses are sold at the above figure, that they will have $125,000 in profits and $250,000 in second mortgages in the treasury.

The contractor emphasized the fact that he could build the houses much cheaper than could other builders. On asking how this was accomplished, Hardware and Metal was informed that the paint could be bought direct from one firm and other supplies from other firms, and that no fancy wages would be paid to anybody.

"If you secure the paint and other hardware in this way you are taking business away from the hardware merchants whose support you are seeking," suggested Hardware and Metal.

"Oh, well, if the retail hardware merchant comes in on this he should certainly get the business," was the answer.

"When will the profits be split up among the shareholders?"

"When the company is wound up," was the reply.

"Is the preferred stock held by the hardware merchant of voting power?"

"No, only the common stock," was the reply.

"What is to be done with the common stock?" was asked.

"Oh, that will remain in the treasury, with the exception of what is sold to raise money required to finance the deal," was the answer.

"Therefore the hardware merchant as a preferred shareholder will have no say in the affairs of the company and any share of the profits will therefore be beyond his reach?" suggested Hardware and Metal. The answer was non-committal on this point.

Where Does Merchant Gain?

"If the only evident return to the hardware merchant is 8 per cent., the same as is paid on high-class industrial stocks, it is difficult to see where the merchant stands to gain by this investment," stated Hardware and Metal.

The answer to this was that in view of conditions prevailing to-day real estate is a sounder investment than are the industrial stocks.

The whole proposition seemed to simmer down to a matter of investment and a comparison between investment values. As to the likelihood of the firm showing such a desirable condition of finances at the end of the year after building 100 houses, it must be remembered that a price of $5,500 is being asked for a five-roomed house, that they are being built to the same plan, that mortgages to the extent of $4,800 are being held against a property expected to sell at $5,500. There seems to be little margin in case of depreciation of values and it is doubtful if such second mortgages could ordinarily be secured from any loan company.

Summing the matter up the hardware merchant would naturally like the business he would not otherwise get, but he wants it only if he is assured of his usual profit without any strings attached. Therefore the merchant who was approached offered to handle the proposition on a 6 per cent. basis and not take any stock. This suggestion was not received with much welcome, however, because the investment company wanted to sell stock at no cost to themselves and to secure supplies at as near cost as possible.

News of Western Canada

Dominion R. M. A. Board Will Meet In Winnipeg

Winnipeg, April 19.—The twenty-fifth annual convention of the Dominion board of the Retail Merchants' Association of Canada will be held here August 22, 23, 24 and 25.

Delegates from every province in the Dominion will be present, and the convention will be given over to the discussion of the regular business transacted during the year, and the programme for the next twelve months.

J. A. Banfield, Dominion president of the association, will preside at all sessions. T. M. Trowern, Dominion secretary, will be present.

It is expected that a special meeting of all the members of the Retail Merchants' Associations of Manitoba and Saskatchewan will be held in the city at the same time.

The first day of the convention will be devoted to a conference of the provincial secretaries of the association with the Dominion secretary, E. M. Trowern. Each secretary will submit a report of the activities of his own particular branch.

The following three days will be given over to a general discussion of the business of the Dominion board.

There will be an extensive social programme arranged, and a banquet will be held in one of the large hotels on the last evening of the convention.

Last year the conference was held in Vancouver.

Propose Three Per Cent. Tax at Source of Supply

Moose Jaw, Sask., April 19.—The Retain Merchants' Association of this town favors a three per cent. tax at the source of supply in preference to a one per cent. tax on all turnover as has been proposed. A resolution was made supporting the one per cent. tax, but an amendment favoring a three per cent. tax on the source of supply, namely, the manufacturers and importers, was moved, and when put to a vote carried by a majority of one.

A More Equitable Tax

In support of the amendment it was stated that it was not a fair proposition to put a one per cent. tax on a retail store turning over a $100,000 business at a three or four per cent. profit while another line of business with a turnover of only about $30,000 and a profit of between ten and twenty per cent. escaped with the same tax. In the hardware business, for example, some articles only yielded a very small profit and it would be difficult to add a one per cent. tax on the selling price. Therefore, the merchant would be forced to absorb the tax himself.

The three per cent. tax on the manufacturer on the other hand would be added on to the wholesale price of the goods and thus would be absorbed by the retailer in the selling price of his wares. This would be the more equitable tax of the two, although either would be much better than the present two per cent. sales tax on the manufacturer and one per cent. on the jobber.

The amendment as passed at last night's meeting reads as follows: "We, the Retail Merchants of Moose Jaw, in session last night, recommend that instead of placing the collection of the proposed turnover tax on the retail trade, that it be collected at the source of supply, viz., from the manufacturers and importers, and in this way would be absorbed in the same manner all systems of taxation are absorbed;

Oppose Heavy Expense

"And whereas, collections in the past, such as the Luxury Tax, have been very expensive, we go on record as being opposed to any system of collection which involves the heavy expense of collection that the proposed system of 'turnover tax' obviously would, and we further recommend that a system by which the maximum amount will be collected at the medium cost be adopted."

This resolution was endorsed a short time ago by the retail merchants of Swift Current and Langham.

WESTERN NOTES

Brandon, Man.—N. A. MacDowell, tinsmith, has sold to R. H. Huddlestone.

* * *

Cowichan, B.C.—A. S. Hadden has bought the hardware stock of the late J. H. Smith Co. from Messrs. Kirkpatrick & McLaughlin and will carry on business as Hadden's cash hardware.

Hyas, Sask.—The Manning Co., hardware and furniture, have commenced business.

Hyas, Sask.—J. Newman has sold the hardware section of his business to the Manning Co.

AN "ANNUAL SPRING OPENING"

(Continued from page 39.)

and windows much earlier than usual. Such is the power of effective advertising.

Big Year for Oils

Dealing with the sale of lubricants Mr. Davey stated, "We have always handled a good quantity of different oils, but this year we are out after a bumper year on everything and oils are used in great quantities by city and farm folk. We put in a large window display and ran the ad as shown elsewhere in the automobile section of the local newspaper. The results so far are better than we expected. We made special prices for the week and we are endeavoring to have Ingram & Davey known as the headquarters for all kinds of oils."

This firm believe in the effectiveness of window displays. Speaking on this subject Mr. Davey stated that it costs every merchant a lot of money to have people walk in front of his store, and by putting in an attractive window one stops to see the article that one has already seen advertised, and the windows thereby become a factor in selling.

"We try as much as possible to run a window and an ad on the same thing at the same time," said Mr. Davey, "and we feel confident that we are not only doing a good business now but we are getting our firm better known in the city and district than it ever was."

COMPARE NEW AND OLD FIGURES

Here are the new prices of the United States Steel Corporation, compared with the old:

	New Prices	Industrial Board Prices
4 x 4-in. and heavier billets, per gross ton	$37 00	$38 50
Slabs, per gross ton	38 00	41 00
Sheet bars and small billets, per gross ton	39 00	42 00
Bars, per 100 lbs.	2 10	2 35
Plates, per 100 lbs.	2 20	2 65
Structural shapes, per 100 lbs.	2 20	2 45
Wire rods, per gross ton	48 00	52 00
Plain wire, base	3 00	3 00
Wire nails, per keg, base	3 25	3 25
Tin plate, per base box	6 25	7 00
Blue annealed sheets	3 10	3 55

Grouping Household Hardware Lines

Use of Small Baskets For Displaying 5, 10 and 15-cent Lines Proves Effective, Say Armstrong, Smyth & Dowswell, Regina, Sask.—Customers Questioned Regarding Use of Utensils Before Demonstrations Are Arranged.

DEVOTING a special section to the sale of kitchen utensils, bathroom fittings and the large range of small goods shown in this illustration has been found an effective way of concentrating interest in the Armstrong, Smyth & Dowswell store, Regina, Sask. In the illustration shown herewith wire baskets can be noted inclined at an angle so as to be easily reached, containing a large number of lines of small goods for use in the home. Price tickets are shown on each basket and one set of baskets is grouped containing articles at ten cents each.

Facilitate Handling of Goods

On the doors of the next section a number of bathroom fixtures are shown, including mirrors, towel hangers, tumbler holders, glass shelves, etc. Kitchen utensils are arranged in good order on the shelves above this section. These shelves are placed so that the customer may walk right up to them and handle the various articles with little exertion. It is found that facilitating the handling of the actual goods is responsible for many sales of such lines.

Small Goods Counters

The use of small goods counters at set prices of 5, 10 and 15 cents has helped this store's trade a great deal. Tables are provided on which baskets, similar to those shown in the illustration, are grouped, each bearing plainly marked price tickets. The management is greatly in favor of demonstrations for stimulating business. Frequently household utensils are shown in actual use and it is found that showing these lines in use combined with the freedom allowed customers in handling the goods has secured that close interest in the store which results in bringing in much business not otherwise secured. It also creates a good feeling between customer and merchant and results in much good advertising for the store.

Sound Out Customers

Before demonstrations are arranged a point is made of sounding customers concerning the use of various household utensils, to see if they fully appreciate the value of them and use them to best advantage. If any misapprehension is evident a demonstration is arranged to clear up the difficulty. This is thought to be more effective than sales talk; at any rate it is a good supplement to the latter.

Bulletin re Hardware Possibilities in India

The Department of Trade and Commerce, Ottawa, has issued bulletin No. 898 dealing in detail with the possibilities for hardware and paint trade with India. Illustrations of various lines required in the Indian market are shown. Manufacturers interested in that market may find this bulletin of interest and value.

Grouping household requirements in shelf goods and putting them within easy reach of customers has been found by Armstrong, Smyth & Dowswell, Regina, Sask., to be a good way of securing closer interest as it encourages the handling of the actual goods and brings many questions concerning the use of the various articles. Note the wire baskets containing many items of small goods, all plainly ticketed. Bathroom fittings are displayed on cabinet doors and other kitchen utensils are neatly grouped on shelves within easy reach. Customers are questioned regarding the use of the various utensils and if there is any misapprehension, a demonstration is immediately arranged.

Events in the Trade

Business Changes

Toronto.—D. E. Locke, hardware, has been succeeded by Millard & Tansley.

* * *

Toronto.—Thos. Muir, hardware, has sold to Alex. Levin.

Obituary

W. A. Archibald, member of the staff of the Dominion Oilcloth & Linoleum Co., Ltd., Montreal, passed away this week. For several years he had been in charge of the oils and varnish department.

* * *

After an illness of over three weeks from heart trouble, George McGowan, of Caverhill, Learmont & Co., died at his home, 65 Rushbrook St., Montreal.

Mr. McGowan was in his fifty-second year and had been identified with the above firm for over twenty-five years. He had always taken a prominent part in Oddfellowship circles of the province of Quebec for many years, being a member of the Beaver Lodge for thirty-five years. He was also a member of the Centenary Methodist church. Surviving him are a widow and one daughter.

This is the second respected employee of Caverhill, Learmont & Co. that death has called in the past three weeks.

Incorporations

The General Forgings & Stampings, Ltd., Merritton, Ont., has been incorporated with a capital stock of $900,000 by William S. Morlock, 107 Roxborough Street West; Sydney E. Wedd, 85 Bay Street; Roy B. Whitehead and others, all of Toronto, as provisional directors, to take over as a going concern the plant and business now being carried on by the General Forgings & Stampings, Ltd.

Personal

Mr. Howison, Pilkington Bros., St. Catharines, is in Western Canada on a business trip.

* * *

At a meeting of the directors of the Stanley Steel Co., Hamilton, held this week, Lt.-Col. Harry Hatch was elected vice-president and general manager of the concern. Col. Hatch graduated in mechanical engineering from Queen's University. Previous to the war he was purchasing agent for the Canada Steel Goods Co., of which his father is president. He served with distinction with the 19th battalion in the great world war. On his return he was made assistant superintendent of the Stanley Steel Works at New Britain, Conn. His latest promotion is a most important one for a young man and he will receive many congratulations.

* * *

P. T. Flanagan, H. S. Beecher, D. P. Cotter, F. C. Ritchie, C. H. Edick, P. C. Shaver, W. F. Shaver, G. P. Shortrede, F. A. O'Reilly and V. G. Byers from the Canadian factory of the Gillette Safety Razor Co. of Canada, Ltd., attended the convention in Boston, Mass., last week, where final arrangements were made for the announcement of their new safety razor.

Change of Address

Consolidated Tool Works, Inc., New York, will move on or about May 1 to new quarters at 296 Broadway, where general offices and New York warehouse will be under one roof.

Adds Hardware Stock

A. J. Freiman, Rideau Street, Ottawa, who already operates some thirty departments in his Rideau Street store, has added a kitchen hardware department with a large and up-to-date assortment of everything needed in the kitchen. For the opening special prices were featured on enamelware, wash basins, dish pans, teapots and aluminum tea kettles.

Steel of Canada Annual Meeting

Hamilton. — At the eleventh annual meeting of the Steel Company of Canada it was reported that the company had made profits of $3,924,041.50 during the year, which was considered very satisfactory. This amount remained after deduction was made for repairs, maintenance, improvements and provisions made for inventory reserve and income tax payments.

The following officers were elected:

Directors — Cyrus A. Birge, A. J. Brown, J. H. Duggan, Lloyd Harris, Robert Hobson, Ross H. McMaster, Hon. John Milne, F. G. Osler, Sir Thomas White, K.C.M.G., Hon. Smeaton White, Charles S. Wilcox.

Executive officers: Chas. S. Wilcox, chairman of board; Robert Hobson, president; Ross H. McMaster, vice-president; H. H. Champ, secretary and treasurer; H. S. Alexander, assistant treasurer; Corbett F. Whitton, assistant secretary.

Convention of Quebec R.M.A.

Montreal.—A convention of the Retail Merchants' Association of Canada, for the province of Quebec, will be held in Montreal on June 8, 9 and 10. It is the endeavor of the association to bring all available members in the province together on the above dates, when entertaining and instructive speeches and talks will be given. The work of the association will also be explained very thoroughly. It is felt that there is vast room for improvement, and an increase in membership of the association in Quebec province, and it is hoped that closer co-operation, which is really necessary, will be shown in the future.

Goethals & Co. Will Manage Beaverboard Co.

New York.—The management of the Beaver Board Co. in Buffalo, and its 23 subsidiaries in various sections of the United States and Canada, have been taken over by the firm of George W. Goethals & Co. General C. C. Jamieson, of the Goethals firm, has been elected vice-president and general manager of the Beaver Board Companies, and is working under a one-year contract. G. C. Miller, also of the Goethals firm, is associated with Gen. Jamieson in the operation of the companies. Mr. Miller is also president and general manager of the Tillotson Manufacturing Co., of Pittsfield, Mass.

Stage All Set For Test Case

The stage is all set now for the commencement before the Exchequer Court in Ottawa on Friday, May 6, of the important test case which is to establish whether or not the Government is justified in classifying certain retail merchants as manufacturers and insisting that they pay the two per cent. tax.

The case is being taken primarily against Messrs. Pedrick & Palen, merchant tailors of Ottawa, to decide the standing of merchant tailors, but the decision will have a far-reaching effect. The proceedings will be watched with intense interest by those engaged in other lines of trade as there is no doubt but that the Government's attitude towards retail merchants in general will be influenced by the outcome of the case.

The British American Oil Company purchased a site at Chatham, Ont., this week and work will proceed shortly on the erection of a station for handling oil and gasoline.

Week's Campaign For Bigger Merchants' Association

Montreal. — Commencing on Monday, May 9, and continuing throughout the week, a campaign for a wider and bigger Merchants' Association of Montreal will be staged. The work will be carried out by team work and each member of the teams will be asked to devote two hours each day to the work, and will be given a list of fifteen prospects whom he will ask to get into line for membership.

Joins Niagara Metal Stamping Corporation Staff

Paul J. Driscoll, lately general manager of sales of Tacony Steel Co., and prior to that connected for a number of years with the selling organizations of the U. S. Steel Corporation and of the Lackawanna Steel Co., has become associated with Niagara Metal Stamping Corporation, Niagara Falls, N.Y., manufacturers of hardware and harness specialties, metal letters and figures and light metal stampings. Mr. Driscoll will be located in Philadelphia, with offices also in New York, and will asssume control of the distribution of the company's products in the metropolitan and adjacent territory.

Western Ontario Notes

George Rutherford has joined the sales staff at F. Bladson's hardware store at Burford, Ont.

* * *

W. J. Heaman, hardware merchant at Exeter, after being ill for several days is able to be around again.

* * *

At the annual meeting of the vestry and congregation of St. Thomas' church in Seaforth, H. Edge, hardware merchant, was elected as one of the auditors.

* * *

At the regular meeting of the retail merchants of Chatham, Ont., this week it was decided to close on Thursday afternoon from May until the end of August.

* * *

Southampton ratepayers carried a by-law in connection with raising $20,000 and as a result the firm of Panels, Ltd., of Toronto, formerly the Toronto Veneering Co., will locate there.

* * *

The death occurred at Listowel on Wednesday last of Wm. G. Tatham, aged 72, formerly of Guelph but for many years past in the hardware business at Listowel with his brother Sidford.

* * *

Following an attack of heart weakness the death occurred at his home in Detroit on Tuesday of William A. McGregor, sales manager of the D. M. Ferry & Co. seed firm, Detroit and Windsor. Mr. McGregor had a wide circle of friends in the hardware trade.

Kingston News

Kingston, Ont. — McKelvey & Birch, Ltd., are featuring quite a novel article and the time is most appropriate for it. The firm is turning out fur boxes for the protection of furs from moths, and a big sale is predicted just at this season when furs must be stored. The box is round, five feet high by twenty-four inches across the top, with rack and hooks to hang coats and garments without creasing. The box takes up very little room and is perfectly air-tight and moth-proof. The boxes are made any shape or size to meet requirements and are sold for $8.50.

* * *

McKelvey & Birch, Ltd., have been given the contract to instal the fixtures at the addition recently erected at the Royal Military College. The contract price is $20,000.

* * *

A big batch of vessels are still in port here and hardware merchants have been reaping a harvest in the fitting out of these vessels. This rush will be over the latter part of next week, when it is expected that quite a number of the vessels will clear.

* * *

All the local hardware stores are making special displays of housecleaning necessities.

A line that is being pushed forward by all the hardware men with great vigor is the sale of garbage cans. Kingston has a good garbage collection and the city council passed a by-law requiring every householder to provide proper receptacles and the local hardware men were right on the job in providing the cans that the by-law calls for. Nearly every hardware store is displaying samples of the cans in front of their store.

* * *

Kingston.—A report which should be of interest to hardware men has been secured from the Civic Utilities Commission and it shows that in Kingston there are 3,600 houses wired for electricity and 3,400 equipped with gas. To the dealer supplying electrical and gas fixtures this should be of great value for it shows the market for these goods in the city and it will be an easy matter for him to figure out just how much of the business he is securing.

* * *

Kingston.—A representative of Hardware and Metal had an interesting visit to the plant of the Canada Cutlery Co. recently started here. The company has hundreds of samples of pocket and penknives, each knife bearing the stamp, "Canada Cutlery Company." These are the first knives to bear this trade mark and are also the first pocket knives manufactured entirely in Canada. They are thought to be quite as fine as any similar article ever seen in Kingston. C. A. Eaton, of Toronto, head of the enterprise, says that he has already received orders but he does not care to hire a large staff of men until he has sufficient to keep the plant running continuously. Mr. Eaton is optimistic for the outlook.

Canadian General Electric Plant Enlarged

Owing to the development in the electrical equipment business of the Canadian General Electric Co., it has been found necessary to take over some of the space that has formerly been included in the Allis-Chalmers plant, Toronto.

This will be utilized after the necessary equipment has been secured, some of which will be taken from other plants, for the making of transformers.

J. J. Ashworth, general manager of the Canadian General Electric, intimated that it would take some time to finish making the change, but that when completed the plant would be capable of much greater production of electrical equipment.

UNWARRANTED ABUSE OF TINSMITHS

(Continued from page 35)

cent. if I do not take out a license. Is it compulsory to take out a license? Also is it compulsory for me to oclect two per cent. sales tax on goods I manufacture when I have already paid a tax to the wholesaler on the materials used in these goods? I have one shop at —— and a branch in another town. Is it necssary for me to take out two licenses?

The first part of this inquiry brings up the question of the liability of the tinsmith for sales tax in connection with purchases. If the tinsmith is to be classed as a retailer rather than a manufacturer (and retailer is the category in which he is being classed pending the outcome of the test case), he has to pay a one per cent. tax on materials purchased direct from a wholesaler or two per cent. on purchases of materials direct from a manufacturer. In selling the product of this material he, as a retailer, would not collect any sales tax from the consumer. If the manufacturer's license is taken out by the tinsmith, it is true that he will only have to pay one per cent. on purchases of materials, but as a manufacturer he will have to collect a two per cent. tax on sales of the product of that material and make periodic return for that amount to the Government. Obviously, when the Government agrees to postpone classing tinsmiths as retailers pending the test case, the tinsmith will have less difficulty by classing himself as a retailer than as a manufacturer. Only one license is needed for the business, irrespective of the branches, providing such license is found to be necessary.

Hardware Letter Box

Information on trade topics will be gladly supplied to subscribers through this department.

HENS' NESTS

Webster & Van Male, Welwyn, Sask.—Can you advise us who sells a hen nest in which the egg disappears when laid?

Answer—A nest of this description is sold by firms carrying poultry supplies and can be procured from the following: Wm. Rennie, Ltd., Toronto and Winnipeg; J. A. Simmers, Ltd., 143-151 King St. East, Toronto, Ont.; Keith & Sons, 124 King St. E., Toronto, Ont.

HOME COMFORT RANGE

Robert Roycroft, Shaunavon, Sask.—Can you tell us who make the Home Comfort Range?

Answer—This range is made by the Wrought Iron Range Co., Ltd., 149 West King St., Toronto, Ont.

STORE FIXTURE LADDERS

The Central Hardware & Paint Store.—Kindly give us a list of makers of store fixture ladders?

Answer.—N. Slater, Ltd., Hamilton, Ont.; Beatty Bros., Ltd., Fergus, Ont.; John Calander Mfg. Co., St. Paul, Minn.; F. E. Myers & Bros., Ashland, O.; Milbradt Mfg. Co., 2410 North 10th St., St. Louis, Md.; Bicycle Step Ladder Co., 62 W. Randolph St., Chicago, Ill.; Berger & Co., Philadelphia, Pa.

LAWN RAKES

Lewis Bros., Ltd., Montreal, Que.—Kindly advise us where we could procure steel lawn rakes similar to the Star which used to be made by the Canada Steel Goods Co?

Answer.—Similar rakes are made by Shurly & Dietrich, Ltd., Galt, Ont., and by the Erie Iron Works, St. Thomas, Ont. The following is a list of some of the manufacturers of lawn rakes in Canada and the U.S.: Shurley & Dietrich, Ltd., Galt, Ont.; The Bedford Co., Bedford, Que.; Canada Axe & Harvest Tool Mfg. Co., Montreal, Que.; Erie Iron Works, Ltd., St. Thomas, Ont.; Maple Harvest Tool Co., Tillsonburg, Ont.; Welland Vale Mfg. Co., St. Catharines, Ont.; Rugg Ball Mfg. Co., Ayers, Cliff, Que.; The Cronk & Carrier Mfg. Co., Elmira, N.Y.; The Pull Easy Mfg. Co., Waukesha, Wis.

BLACKHAWK SOCKET WRENCHES

Summer Co., Ltd., Moncton, N.B.—Kindly let us know where we can get the Blackhawk socket wrenches?

Answer.—The Blackhawk socket wrench is made by the American Grinder Mfg. Co., Milwaukee, Wis. The Canadian sales agents are A. H. Fraser & Co., 501 Confederation Life Bldg., Winnipeg, Man.

SELF WRINGING MOPS AND PAILS

Summer Co., Ltd., Moncton, N. B.—Could you inform us who makes self wringing mops and pails similar to those formerly made by the Dana Mfg. Co?

Answer.—The Erie Mop & Wringer Co., Erie, Pa.; The United States Mop Co., Toledo, Ohio; The White Mop & Wringer Co., Fultonville, N. Y.; The Bushnell Novelty Co., Mansfield, Ohio.

WALKER HOT BLAST HEATERS

The Watt Hardware Co., Ltd., Innisfail, Alta.—Kindly say where we can get repairs for the Walker Hot Blast Heater?

Answer.—The stoves formerly made by the Walker Steel Range Co. have been taken over by the Hall Foundry, Ltd., Hespeler, Ont., from whom repairs can be obtained.

QUICK MEAL OIL STOVES

J. H. Bundy, Pickering, Ont.—Kindly let us know where we can get repairs for the Quick-Meal Oil Stove.

Answer.—The Jas. Stewart Mfg. Co., Ltd., Woodstock, Ont.

GAS COCKS

Sumner Company, Moncton, N.B.—Will you inform us who are manufacturers of brass pillar and L burner gas cocks in Canada?

Answer—The James Morrison Brass Mfg. Co., Ltd., Toronto, Ont.

"BRANTFORD" & "WOOD" MOWING MACHINES

James Simmonds, Ltd., Halifax, N.S.—Can you give us the address of the firms making the "Brantford" and "Wood" mowing machines.

Answer.—The Brantford Mowing Machine is made by the Goold, Shapley, Muir Co., Ltd., Brantford, Ont., and the Wood by the Frost & Wood Co., Smiths Falls, Ont. The Frost & Wood Co. is now owned and operated by the Cockshutt Plow Co., of Brantford, Ont.

Catalogs and Booklets

A review of new catalogs, etc., as published by manufacturers, wholesalers and others in the trade for the information of hardware dealers.

NEW ASHDOWN YEAR BOOK

A record for rapid and efficient work is that which has just been completed by the printing department of J. H. Ashdown Hardware Co., Winnipeg, with the completion of a new Year Book, which is now ready for distribution. This catalog was formerly 2,100 pages, but due to recompilation, being set in linotype, and due to the reduction in size of cuts, the new catalog is equally complete and numbers only 900 pages. The catalog was turned out in the record time of five months, and the completed work is a credit to the printing department of the company, which, under the direction of W. S. McDonald, handled all details of the printing.

"MILL SAWS AND SPECIALTIES"

The new revised price list issued by E. C. Atkins & Company, Indianapolis, is not as yet applicable for Canadian business. E. C. Atkins & Company, Hamilton, have in preparation a supplement to their No. 14 catalogue, which will give revised prices on all mill saws, and a number of mill specialties. This will shortly be issued by them.

"TURNING THE DARK CLOUDS INSIDE OUT"

McDonald & Willson, of Toronto, Ont., are manufacturers of the Trojan electric washing machine, and have issued a booklet under above title describing this machine, and point out the many superior features of the Trojan washer. The dark cloud that looms large on the horizon of the average house-wife in these days when domestic help is so hard to find and keep is the family wash. The cloud has a silver lining, it is stated, and may easily be turned inside out by employing the methods modern science offers in the form of the electric washing machine.

GURNEY GAS RANGES

A new "Gurney" Gas Range catalog, No. G211, is just off the press. The Gurney Foundry Co., Ltd., Toronto, Ont., have brought out some very fine catalogs in the past, but in the latest addition to their list they have certainly excelled themselves. The letter press and illustrations are splendidly done, the paper being of good quality and the binding of a tan shade with lettering of silver and black is very effective.

The increase of facilities for manufacturing Gurney stoves by the completion of a new and extensive plant during the past year has enabled the company to add many new types to their line.

Gas ranges, and especially the combination gas and coal range, has rapidly grown in popularity the last few years, and there is hardly any woman who does not appreciate the advantage of being able to maintain in her stove a low coal fire sufficient to keep the oven moderately warm, and at a moment's notice raise it to baking temperature.

Many types of combination ranges are shown including some with independent ovens for coal or wood and gas, in which both fuels may be used at the same time if required. Besides the combination ranges many lines of gas ranges in cabinet style are illustrated as well as single and double ranges, hotel gas ranges, gas water heaters, hot plates, etc.

Most of the ranges shown are trimmed with white or pearl grey enamel which not only adds to the appearance of the range but also makes cleaning easier.. A copy of the catalog may be had by hardware dealers on request.

SHERWIN-WILLIAMS CO., BOOKLET.

A booklet introduced as "Your Prescription" has been prepared for distribution to the trade by the Sherwin-Williams Co. of Canada, Ltd., Montreal. In it are set forth brief statements by W. H. Cottingham, president; W. S. Fallis, vice-president and managing director; R. C. Misson, manager, and other branch officials of the company. These statements emphasize some factor designed to help the trade to a better solution of the difficulties with which they are faced to-day and to extend some helpful suggestions. Some window suggestions are also offered.

NEW MARBLE'S CATALOG

The 1921 trade catalog of the Marble Arms & Manufacturing Company, Gladstone, Michigan, has just been completed. Several new items have been added to the "Marble's" line and the catalog can be secured on request.

Trade Enquiries

Names and addresses of enquirers can be obtained only by those interested in such lines upon application to Hardware and Metal. Please quote reference number when requiring addresses.

2846. **Seeds.**—Inquiry is made for 50 tons of vegetable seeds for Japan. Samples with lowest prices to be sent and particulars quoted.

2843. **Mechanical rubber goods and asbestos packing.**—Firm in Glasgow wish to hear from Canadian manufacturers of mechanical rubber goods and asbestos packing.

2845. **Kitchen utensils.**—Glasgow firm of manufacturers' agents are interested in hearing from Canadian manufacturers of kitchen utensils of enamelware, etc.

2906. **Sporting goods.**—A Genoese firm wish to buy sporting goods in Canada.

2899. **Colours in powder, varnishes, brushes, etc.**—An old-established house in Milan would be glad to consider offers from Canadian firms doing business in colours, varnishes, etc.

2908. **Rubber goods.**—A firm in Milan would like to establish relations with Canadian firms exporting rubber goods.

2909. **Household utensils.**—A very important co-operative society in Milan would be glad to receive offers from Canadian exporters.

2910-2911. **Paints and dyes.**—Two dealers in paints and dyes at Belgrade, Jugo-Slavia, would be interested to receive particulars from Canadian exporters of these lines.

2912. **Trade with Jugo-Slavia.**—A firm in Belgrade, Jugo-Slavia, with an office in New York, would be interested to hear from Canadian exporters desirous of appointing representatives for Jugo-Slavia.

2913. **Hardware and metals.**—A firm in Belgrade, Jugo-Slavia, would be interested to hear from Canadian exporters of hardware, iron and steel, and other metal lines, and agricultural implements.

Twenty Years Ago

Items of interest reprinted from Hardware and Metal of April 27, 1901:

"M. Weichel & Son, hardware dealers, Elmira and Waterloo, Ont., are about as ambitious as they are enterprising. About 20 years ago Mr. Weichel started business in Elmira in a small way and succeeded in building up a good trade. Five years ago the firm opened a branch in Waterloo. They have prepared and are now distributing among their customers a neat memorandum booklet showing why their business has grown."

* * *

"J. B. Cane has bought out Jas. A. Shoeman, hardware, Virden, Man."

* * *

"E. E. Gauvin & Co., hardware dealers, Magog, Que., have been burned out."

* * *

"Arrangements have been made for the establishment of an automobile factory in London, Ont., capitalized at $250,000."

* * *

"J. Trelford, who opened a hardware store in Proton, Ont., some time ago, has secured a good trade."

* * *

"The Farmers' Binder Twine and Agricultural Implement Mfg. Co., of Brantford, Ont., Ltd., has been authorized to increase its share capital from $100,000 to $155,000."

* * *

"Quotations from the Ontario markets are as follows: The shipping rooms of the different wholesalers are the scene of a great deal of activity. A good deal of merchandise is being got ready for shipment by the regular steamship lines plying on the Upper Lakes as soon as they begin running."

* * *

"H. G. Rutledge, who was for over a quarter of a century buyer for M. & L. Samuels, Benjamin & Co., Toronto, has been stricken with paralysis. He is in no immediate danger."

* * *

"E. V. Clergue, promoter of the Sault Ste. Marie enterprises, states that his company, in addition to completing the 600-ton steel plant, are planning for a second iron and steel plant with a capacity of 2,000 tons, which will be ready within eighteen months."

Gillette Co. Adopt Adjustment Policy

Price of Older Design of Gillette Safety Razor Reduced—New Razor Being Marketed—Trade Protected by Adjustment Plan

WITH the announcement made that a new safety razor is being marketed by the Gillette Safety Razor Co., and that prices on the old line are to be reduced, Hardware and Metal inquired as to what becomes of the razors the merchants now have in stock.

An adjustment policy has been established whereby a rebate based on the discounts received at time of purchase will be given, thus the merchant at once becomes protected on his present stock and the number of razors now on hand become the lower priced razors. The older design of Gillette safety razor will still be marketed, but the retail price will be reduced to $3 (6 Gillette blades) and $3.50 (12 Gillette blades).

For example: a retailer has one dozen razors in stock; he fills in a form supplied stating this, and mails it to the Gillette Safety Razor Co. He is sent one dozen of the new improved, and accompanying the invoice will be a credit note covering a rebate on the twelve older designed razors which he can then sell at the reduced price.

Premier Drury Seeks Merchants' Advice

Premier of Ontario Held Conference This Week With Retailers, Wholesalers and Manufacturers to Discuss Commercial Conditions

PREMIER DRURY of Ontario has evidently come to realize the importance of securing information from the trade regarding subjects he is not familiar with. The truth of this assertion is found in the fact that this week he gathered around him for a conference at the Parliament Buildings in Toronto representatives of the Canadian Manufacturers Association, the Association of Wholesalers and the Retail Merchants' Association of Canada, in Ontario. The object of the conference was to discuss the best means of improving the commercial conditions of the province.

The Retail Merchants' Association was represented by four members of the Ontario provincial board, including Henry Watters, of Ottawa, representing Eastern Ontario district.

This is said to be the first time in the history of the province of Ontario when a Premier has called together representatives of these organized bodies to consult with him on matters of provincial trade, and officials of the Retail Merchants' Association say they feel it is a step in the right direction. They say the retail trade of Ontario involves more capital than any other industry, and it can only be understood by those who are in the business.

Scientific Purchasing Being Taught

AT a dinner tendered by the Toronto Purchasing Agents' Association to the visiting executive of the International Purchasing Agents' Association Saturday night tentative arrangements were made for the holding of the annual convention of the Purchasing Agents' Association of Canada in Toronto on May 14.

International President W. L. Chandler stated that scientific purchasing was now being taught in many universities, and that the standardization of commodities had received its first impetus through the association. "Our work as an association," he said, "is the scientific buying of essential commodities, and it is our business to help one another to secure full value for all money expended."

Mr. Chandler deprecated any attempt to take part in a buyers' strike at the present time. "Our work should be constructive, and not destructive," said he, "and our main mission should be to see to it that the wheels of industry are kept whirring without clogging."

The following officers have been elected by the Toronto Purchasing Agents' Association for the ensuing year: President, W. F. Dodd, Canadian Kodak Co., Ltd.; vice-president, W. K. McGuffie, Sheet Metal Products Co., Ltd.; secretary, G. P. Boswick, Boynton and Williams; treasurer, R. M. Sedgwick, Standard Chemical Co., Ltd.; executive committee, F. J. Lucas, Purdy-Mansell Co., Ltd.; E. B. Ross, Dunlop Tire & Rubber Co., Ltd.; J. A. Fraser, Gutta Percha & Rubber Co., Ltd.

New Hardware Goods

OFFERED TO CANADIAN HARDWAREMEN

POLAR EXPRESS FREEZER

The Polar Express all metal ice cream freezer is now being made by the Leslie Tinware Co., Ottawa, Ont. Among the special features and advantages claimed for it by the manufacturers are that it is lighter and easier to handle than a

Polar Express Freezer

heavy wooden tub, weighing as it does only two and a half pounds, it takes up less space, and after freezing the Polar Express can be put away in an ordinary refrigerator, effecting a saving in time and packing. It is also claimed that it means a big saving in ice, using fully one-half less than a wooden freezer, and the ice cream freezes quicker in the metal case than it does in a wooden tub. The Polar Express is said to be strongly made and should any part become broken it can be procured quickly through a dealer or direct from the makers.

NEW TANGLEFOOT PRODUCTS

The O. & W. Thum Co., of Grand Rapids, Mich., are putting out two new Tanglefoot products; namely, Tanglefoot roach powder and Tanglefoot ant powder, and are advertising them, as well as Tanglefoot fly paper, fly ribbon and tree tanglefoot, extensively.

Every sheet of Tanglefoot fly paper now being manufactured carries an advertisement of Tanglefoot roach powder and Tanglefoot ant powder.

Attractive show cards for window display will be sent by mail to the trade on request to the makers.

Thum & Company state that Tanglefoot roach and ant powders have been carefully developed by experiment and test to secure dependable roach and ant exterminators and are recommended only for use against roaches and ants, and that Tanglefoot roach and ant powders are guaranteed to keep at least three years in any climate. They deteriorate slowly, if at all, with age, if stored according to the simple directions appearing on each case, i.e., kept dry.

BISSELL'S TOY CARPET SWEEPERS

After an absence of about three years from the market, there is again a line of toy sweepers bearing this familiar trade name. It seems that it became necessary for the Bissell Company to discontinue their line of toy sweepers during the war in order to properly take care of the demands of their regular carpet sweepers and to produce certain government orders assigned to them.

They state that they have been experimenting for some time to produce a very superior toy sweeper at such a low price that it would have a wide sale, and they seem to have succeeded, for they are now announcing two new models which are described as being most attractive in design and finish and of excellent construction.

These new Bissell toys are made along entirely new lines in many respects and the installation of special machinery and manufacturing processes for big production is counted on to keep the costs down to a point which makes their low prices possible. Each Bissell toy sweeper placed in the home is an ever-present suggestion to the mother for acquiring or continuing the use of the regular Bissell carpet sweeper.

Bissell's Toy Sweeper

One of the models called the "Little Daisy" is 7 inches long with a 24-inch handle and is finished in deep blue. The "Little Queen" is more finely finished in a grain mahogany effect with gilt lettering, etc., and is a little larger.

"SERVICE" BOTTLE CAPPER

A new bottle capper designed for home and store use has been put on the market by the Service Commodities Mfg. Co., 442 North Wells Street, Chicago, Ill. An exclusive feature is claimed for the tapering capping head, made of chilled grey iron, which, it is said, insures perfect capping and long wear. Other features claimed by the makers are the following—operates quickly and easily; quickly adjusted for different sized bottles; does not break bottles or waste caps; need not be screwed to table; non-rusting; has double guide pins, which allow perfect play, and can be operated by a child. There is said to be a large field for bottle cappers, and they are in demand for the home and also by grocers, druggists and confectioners.

"Service" Bottle Capper.

"ARMOROID" TIRE RELINERS

A puncture proof device known as "Armoroid" has been on the market for some years, but the manufacturers have recently made some changes in the construction and with the introduction of new features claim to have greatly improved this device. Armoroid is stated to not only prevent punctures, but also to reinforce the inside fabric of the lining so that the mileage of the tire is increased. Armoroids are built of four layers of gum fabric separated by layers of metal discs, which are specially treated, allowing the rubber to be vulcanized to them, so that they are held permanently in position, thus preventing heat and friction. They fit closely into a tire, being built circular to the exact inside dimensions, and after the tire is worn out they can easily be taken out and put in a new one. They are manufactured by the Armoroid Co., 1381 Queen Street east, Toronto, Ont.

Weekly Hardware Market Reports

STATEMENTS FROM BUYING CENTRES

MARKETS AT A GLANCE

PRICE changes continue on many hardware lines this week. Galvanized wares, including pails, tubs, and garbage cans are reduced in price. Other reductions include plated butts, barrel bolts, shelf brackets, wheelbarrows, drag scrapers, seine twine and coal oil. Lower quotations are made on some makes of wash boards, ratchet braces and steel squares.

A new design has been introduced in a well-known safety razor and the older patterns are being reduced in price. Hockey sticks for fall booking are slightly reduced. A firmer tendency is visible in linseed oil and turpentine, although prices are held unchanged. Little change is shown in basic lines of iron and steel though some slightly lower quotations are reported on sheets, plates and bars. The scrap market remains dull and ingot metals show little increase of activity but are inclined to be firmer.

In the primary steel markets the action of the Steel Corporation in reducing prices has been favorably received, and though it is not expected that it will start a buying movement it is regarded as having brought about a better condition for future business as the market has a definite price basis to work on. It is also felt that building operations will be encouraged by a more stable steel market.

The situation among wholesale and retail hardware merchants continues to show a gradual improvement, and though the heavier lines of hardware are still moving rather slowly seasonable lines are fairly active.

Montreal Markets

MONTREAL, April 21.—The featured change in quotations this week is the reduction on galvanized tubs and pails, these being lowered 25 and 20 per cent. on the light and heavy wares respectively. Many other important declines are also made. Plated butts, barrel bolts and shelf brackets are offered at reduced prices. Wash boards are 10 per cent. cheaper, wheelbarrows of many kinds, and drag scrapers are also lowered. In tools, the P. S. & W. braces and squares will cost less. Hockey sticks for fall delivery are reduced. In the heavier goods, galvanized sheets, both English and U.S. standard show a decline, also bar iron and steel. Ingot metals are firmer. Jobbers report a continued increase in business and most of the spring lines are now forwarded.

Cotton Seine Twine Reduced

Montreal.

A slight reduction has been made on cotton seine twine, and following are present prices: No. 9, 55 cents pound; No. 12, 58 cents pound; Nos. 15 to 60, 54 cents pound; Nos. 72 to 100, 54 cents pound.

Plated Butt Hinges Down

Montreal.

Plated butts are now from 5 to 7 per cent. lower in price. This applies to dull brass, bright brass, antique copper and oxidized plated hinges. Following are quotations on No. 241.

No. 241, 2½x2½, 38c pair; 3x3, 39c; 3½x3½, 40c; 4x4, 52c; 4½x4½, 76c.

Reduction in Barrel Bolts

Montreal.

Barrel bolts will now cost less, a reduction of about 10 per cent. having been made. Following are the new net prices on the commoner selling lines:

No. 406 x 2½ in., $1.70 doz.; 3 in., $2.20; 4 in., $2.30.

No. 1078 x 2½ in., 95c; 3 in., $1.25; 4 in., $1.40; 5 in., $1.70; 6 in., $2 doz.

No. 1076 x 2½ in., $1.35; 3 in., $1.70; 3½ in., $2.40 doz.

Shelf Brackets Now Cost Less

Montreal.

Japanned shelf brackets have been reduced about 5 per cent. on all sizes. This applies to the No. 792 brackets.

30-Gallon Range Boilers Selling

Montreal.

Range boilers are moving fairly well in sorting orders. The thirty gallon boiler, however, is the big seller. Quotations on this size in standard are lowered to $12.50 this week, one manufacturer explaining this was the result of recent price cutting. The prices on all other sizes in both standard and extra heavy are unchanged as follows:

RANGE BOILERS—	Standard	Ex. Heavy
30 gallon	$12 50	$15 00
35 gallon	15 00	17 00
40 gallon	17 00	19 00
52 gallon	24 00	28 00
66 gallon	32 00	38 00
82 gallon	40 00	50 00
100 gallon	50 00	60 00
120 gallon	60 00	70 00

Scrap Market Unchanged

Montreal.

The lower prices quoted recently on waste materials are not yet bringing in business, the market still remains dull. Both ferrous and nonferrous metals were cut, in some cases nearly 50 per cent. Following are present nominal quotations:

DEALERS' BUYING PRICES.

Automobile tires	0 75
Yellow brass	0 05
Red brass	0 08½
Light brass	0 04
Scrap zinc	0 04
Lead, heavy	0 03½
Light copper	0 08
Lead, tea	0 02
Heavy copper	0 10½
Wrought iron, R. Rd., No. 1, per gr. ton	12 00
Malleable scrap (ton)	11 50
Pipe scrap (ton)	8 00
Stove plate, per ton	18 00
Heavy melting steel	8 50
No. 2 busheling	4 00
Boiler plate	0 03
No. 1 machinery cast, per gr. ton	$25.00 28.00

Stoves Continue to Sell

Montreal.

At this season there is always a good amount of moving among tenants, especially in the larger towns and cities, and this has had its results on sales of stoves of practically all kinds. One manufacturer states he has sold an exceptional number of combination gas and coal ranges in the past month. Oil stoves are now being shipped for the summer trade. Fall bookings on cast and steel ranges and heaters have commenced by some firms and they report fair sales,

Prices on all lines are steady since the decline the latter end of March.

Wrought Pipe Sells Well

Montreal.

Sales of wrought iron and steel pipe are now made in good numbers, but continue of the smaller sorting type. List No. 50 is the selling basis, which came into effect on March 28th. The market on piping is in a much healthier state than other allied products of the steel industry, and price cutting has not been nearly as prevalent as on other lines. List No. 50 will be found on current market pages.

Pipe Fittings Remain Unchanged

Montreal.

There has been no change made on the different fittings, with a fair business being done. Stocks are in good shape, being ample in all sizes for any increased activity that is hoped for in the near future. Following are quotations:

Bushings, cast	25%
Do., malleable	25%
Flanges	27%
Plugs	22½%
Flange Unions	20%
Dart unions, black	20%
Do., gal.	add 5%
Nipples, ⅛ to 4 in. close and short	40%
Do., long	50%
Do., 4½ to 8 in., close and short	30%

Couplings, 4 in. and under	20%
Do., 4½ in. and larger	Net list

Pound goods—	Black	Galv.
Class B	0 20	0 28
Class C	0 13	0 20

Add 10%.

Galvanized Tubs Reduced

Montreal.

Galvanized tubs will now sell cheaper, a reduction of 25 per cent. having been made on the light wares and 20 per cent on the heavy. Following are quotations on the three sizes of light tubs; No. 1, $14.88; No. 2, $16.20; No. 3, $18.48.

Reduction in Galvanized Pails

Montreal.

The same reduction as applied to galvanized tubs has been made on galvanized pails, with the following prices now quoted on the lighter stock:

FLARING—No. 11, $5.40 doz.; No. 12, $6; No. 13, $6.84; No. 14, $7.92.

DUFFERIN—No. 12, $4.80 doz.; No. 14, $5.40; No. 16, $6.12.

Wash Boards Down 10 Per Cent.

Montreal.

A reduction of approximately 10 per cent. has been made on glass and Globe wash boards, and the new prices are as follows: Glass, $8.25 dozen; Improved Globe, $5.85 dozen; Twin Beaver $6.55 dozen.

Lead Goods Remain Steady

Montreal.

Although orders continue small in lead products, a fair demand is shown. In the primary markets lead remains quite firm, especially in London. It is thought by some manufacturers that all lines have about reached the bottom, and if not advanced, will continue firm. Zinc sheets are also unchanged, but slightly lower quotations might be expected when spring shipments of these sheets arrive from import. Following are present quotations:

Lead pipe	0 12½
Lead waste	0 13½
Note.—Lead pipe is subject to a discount of 10%.	
CouplingsLead traps and bends	10% off
Lead wool, lb.	0 13½
Lead sheets, 2½ lbs.	0 11
Do., 3 to 3½ lbs. sq. ft., lb.	0 10¾
Do., 4 to 8 lbs.	0 10
Cut sheets ¼c lb. extra and cut sheets to size, ¾c lb. extra.	
Solder, guaranteed, lb.	0 26
Do., strictly, lb.	0 24
Do., commercial, lb.	0 21
Do., wiping, lb.	0 21¾
Do., wire lb.	0 34
Zinc, sheets, casks	0 14
Do., broken lots	0 15½

Wares Fairly Active

Montreal.

Sales on the different wares continue fair, with much more activity shown in the past few weeks. The coming of spring has made dairy supplies a good selling line. Enamel ware and tinware are holding unchanged, while galvanized ware, tubs and pails, are quoted at a decline this week.

Corrugated Sheets More Active

Montreal.

The increase in business on corrugated sheets continues. Merchants are still buying light, but many small orders keep the demand up. Continued open weather will in all probability help the sale from now on. The lightest gauge is still the big selling weight. Quotations are as follows:

CORRUGATED SHEETS—	Per 100 Sq. Ft.
No. 28 gauge	9 50
No. 26 gauge	10 25
No. 24 gauge	16 00
No. 22 gauge	19 00
No. 20 gauge	22 00
No. 18 gauge	28 00

Less 7½%.

Lighter than 24 gauge and wider than 27 inches, 75c a square extra.

Different Wheelbarrows Lowered

Montreal.

Many lines or styles of wheelbarrows are lowered in price this week, the reduction being from 5 to 10 per cent. Following are the new quotations on different brands:

City Garden, $65 doz.; No. 1 Folding Lawn, $83; General Purpose, $83; Common Bolted, $67.25; Sterling No. 2, $181.75 dozen.

Drag Scrapers Lowered

Montreal.

A slight reduction has been made on drag scrapers, and following are quotations on drags with and without runners:

WITHOUT RUNNER—No. 1R, $15.75; No. 2R, $15.25; No. 3R, $14.75 each.

WITH RUNNER.—No. 1P, $14; No. 2P, $13.50; No. 3P, $13.

P. S. & W. Braces Reduced

Montreal.

Carpenters' braces of the Peck, Stow & Wilcox make will now cost less, a reduction of from 10 to 12 per cent. having been made. Following are quotations on this line:

No. 5010, $61.50 per doz.; No. 7008, $64; No. 7010, $65.50; No. 7012, $67.60; No. 8010, $79.75; No. 8012, $91.75.

Galvanized Sheets Down

Montreal.

Both English and United States standard sheets show a decline this week. English quality are lowered 75 cents per 100 pounds on all gauges, and U.S. sheets 50 cents throughout. This reduction, however, is made on present stocks, as a little better feeling exists in the United States fields since the recent adjustment of prices, and a steadier market is expected in the future. The demand for sheets, both black and galvanized, is still backward and not what it should be at this season. Following are quotations:

PLATES—	
10 gauge	6 25
12 gauge	6 30
14 gauge	6 45
16 gauge	6 55
BLACK SHEETS—	
10 gauge	6 50
12 gauge	6 55
14 gauge	6 60
16 gauge	6 80
18-20 gauge	7 95
22-24 gauge	8 00
26 gauge	8 10
28 gauge	8 20

Sheets 36 in. wide, 10c per 100 lbs. extra.

GALVANIZED SHEETS—		
U.S. Standard—		
10¾ oz.	8 75	9 75
28 gauge	8 25	9 25
26 gauge	8 00	9 00
22 to 24 gauge	7 85	8 85
20 gauge	7 65	8 65
18 gauge	7 65	8 65
16 gauge	7 50	8 50
14 gauge	7 50	8 50
12 gauge	7 50	8 50
English Standard—	Queen Head	Fleur-de-Lis
28 gauge	10 00	9 25
26 gauge	9 75	9 00
24 gauge	9 15	8 60
22 gauge	8 80	8 15
18 and 20 gauge	8 10	8 00

NOTE.—These prices are for full bundles, an extra charge of 25c to 35c per 100 lbs. is made for broken lots. These quotations are nominal.

Nails Selling at $4.55 Base

Montreal.

Wire nails are now in fairly active demand, but are still being shipped in small quantities. At even the reduced prices of last week, dealers are not yet buying for supplies in advance. Building has not yet commenced to any great extent in Quebec province, but any activity in this will undoubtedly stimulate sales. Wire nails are $4.55 base, cut nails $5.10.

Hockey Sticks for Fall Lower

Montreal.

Jobbers state that hockey sticks of better grade booked for fall delivery will cost less this year. A reduction of about 10 per cent. is made on the better qualities, while the cheaper ones are practically unchanged.

Bar Iron and Steel Reduced

Montreal.

A reduction of 30 cents per 100 pounds base has been made on bar iron and steel, with refined iron, iron finished machinery steel, tire, toe calk and harrow tooth steel showing a similar decline. Business is still backward on these lines, but shows a gradual improvement. With

the adjustment made on United States quotations last week a steadier market is looked for locally. Stocks are fairly heavy in the jobbers' hands. Following are present quotations:

Common bar iron, 100 lbs.	3 70
Refined iron	5 20
Iron finished machinery steel	3 75
Mild steel	3 70
Band steel	3 70
Single reeled machinery steel	5 75
Spring steel	5 00
Sleighshoe steel	3 70
Tire steel	3 90
Toe calk steel	4 60
Harrow tooth steel	3 85
Mining tool steel, per lb.	0 23
Black Diamond tool and cast steel	0 23

NOTE.—Refined iron is aproximately $1.50 per 100 lbs. over base, but fluctuates owing to unsettled market.
Band steel in scroll bdles., 50c per 100 lbs. extra.
Flats, iron and steel, 3-16 and thinner, 50c per 100 lbs. extra.

Steel and Iron Squares Down

Montreal.

A reduction has been made on steel and iron squares, amounting to about 15 per cent. on the different qualities.

No. 13 Barrel Swing $12 Dozen

Montreal.

A reduction is made on the No. 13 barrel. It is now selling for $12 a dozen, formerly $13.50.

Ingot Metals Slightly Firmer

Montreal.

The tone of the ingot metal market this week is decidedly firmer in most metals, and the sentiment is much more cheerful. Most metals also show an advance in the past week and it looks as if higher prices are in sight.

TIN—Tin had a sharp advance the beginning of the week, gaining £8 on the London market. While some of this has since been lost the market is decidedly firmer, and higher prices are expected. At present there is little tin coming from England on account of the coal strike. Local price one cent higher at 37½ cents.

COPPER—This metal remains firm in London. While there is some irregularity in New York, the tendency in general is for better prices. Electro is quoted at 18 cents, casting 17½ cents.

SPELTER—East St. Louis has shown an advance, this being the first recorded for some time. London also touched the highest point since early February. The German situation tends to discourage exports from there, which has a strengthening effect. Local price is unchanged at 8½ cents.

LEAD—Although statistics go to show that lead is a little higher, there is no sign of weakness yet, and the market is especially firm in London. The future of this metal is very hard to forecast. Locally firmer at 6¾ cents.

ANTIMONY—This metal has not yet reflected the advance on other metals, but its turn will undoubtedly come soon. Chinese is offered at 6½ cents, high grade English at 8½ cents.

ALUMINUM—Aluminum is still dull on the market, with price unchanged at 35 cents.

Toronto Markets

TORONTO, April 21.—Price changes are of a minor nature this week and probably the chief feature is the considerable reduction made in the prices of galvanized pails, wash tubs, etc. Solid sash weights have been reduced in price and other declines include steel squares, ratchet braces, Eagle padlocks and wire clothes lines. Coal oil has declined 2 cents per gallon. Prices have been revised on the Clayton and Lambert line of blow torches and fire pots. A new design in Gillette safety razors is being put on the market and the prices of the older design are being reduced. No quotable changes are made this week in the prices of bar iron and steel, sheets and plates, lead products, wrought pipe, compression goods, or ingot metals. Business still remains particularly quiet in these basic lines although it is showing a slow but gradual improvement in smaller lines. Seasonable lines are moving fairly well and wholesalers report a brisk sale in these lines.

Steel Squares Decline 15 P. C.

Toronto.

There has been a reduction of about 15 per cent. on the price of steel squares.

Wire Clothes Lines Lower

Toronto.

Declines have been made in prices of galvanized wire clothes lines and the following are the new quotations:

WIRE CLOTHES LINES.

No. 17, 50 ft. lengths (per 1,000 ft)	$8 50
100 ft. lengths	7 75
150 ft. lengths	7 75
No. 18 x 50	7 10
100	6 50
No. 19 x 50	6 75
100	5 50
No. 18 in 1,000 ft. coils	6 50
Do., in 1,000 ft. spools	7 15

New Cut Nail Base

Toronto.

As announced last week a decline has been made in the price of cut nails and these are now quoted here at $5.60 per keg, base, f.o.b. warehouse.

Good Gas Range Demand

Toronto.

There is a fairly brisk demand at present for gas ranges and cook stoves as well as for combination ranges, but sales are especially good on the smaller sizes. Stocks are small and manufacturers are, in some cases, unable to keep up with the demand. Prices on these lines are maintained and little change is expected at present.

Wrought Pipe Prices Hold

Toronto.

Not much change in demand for piping is reported. Some slight increases in sales are noted but little buying is being done except for present requirements. No further changes have been made in prices and quotations are as per current market pages. The new United States prices issued by the Steel Corporation on steel pipe show reductions on both black and galvanized from the ¼-inch size up, and vary on different sizes, reaching 6 points on 1-inch to 3-inch galvanized, while the basing discount becomes 62½ instead of 57½.

Solid Sash Weights Reduced

Toronto.

A reduction has been made in the price of solid sash weights and these are now quoted at $4.25 per 100 pounds. Sectional weights remain unchanged.

Eagle Padlocks Are Lower

Toronto.

The Eagle line of padlocks have been reduced in price and the decline, which varies on the different numbers, is in some cases as much as 30 per cent.

Globe Wash Board Reduced

Toronto.

A new price of $5.85 per dozen is made on the Globe washboard. The previous quotation was $6.50.

Baskets in Good Demand

Toronto.

There is a good demand for baskets of various styles and good lines of covered market baskets, clothes baskets and fancy baskets are again on the market. Prices are a trifle lower than they were formerly.

New "C. & L" Torch Prices

Toronto.

Some changes have been made in the list prices of the Clayton and Lambert line of blow torches and fire pots and prices have been adjusted. The following are new prices on some of the best sellers:

CLAYTON & LAMBERT TORCHES— No. 18, $7.70; 31, $9.20; 32, $9.70; 38, $8.80.
FIRE POTS—No. 71, $16.50; 72, $15.00.

Changes in Gillette Razors

Toronto.

An improvement in the design of the Gillette safety razor has been made and is being marketed and the prices on the old line of Gillettes are being reduced. The older design will still be marketed but the retail price will be $3 with one-half dozen blades and $3.50 with one dozen blades. Adjustments will be made whereby a rebate based on discount received at time of purchase will be given so as to protect the trade on present stock which now become lower priced.

Coal Oil Down 2 Cents

Toronto.

There is a reduction of 2 cents per gallon in the price of coal oil this week, but gasoline has not been affected and remains at 38 cents per gallon net for motor grade. The new quotations for coal oil are 25 cents and 28 cents according to grade. An improvement in the demand is noted.

Bar Iron and Steel Quiet

Toronto.

There is not much change in the bar iron and steel market to report. Wholesalers state that business shows very little improvement. On some lines there has been a small increase in activity but consumers are not yet ready to order in any quantity. Some expectations are held that a better feeling will result from the announcement of the Steel Corporation's prices, and that a better buying tendency will be felt. With reference to the cost of producing pig iron it is pointed out that furnace coke is now quotable at $3.50 per net ton at ovens in the United States. This is quite a decline from the price of $18 and $19 paid last summer, and the present quotation is regarded as fully liquidated, with little prospect of going any lower. The only item in pig iron production showing no change is that of freight rates involved in assembling the raw materials, and there seems little prospect of any change in that for some months. Taking all the costs into consideration it is assumed that the present foundry price of pig iron now in the United States will be maintained with little change for some time. No further changes have been made by the wholesalers here on bars and quotations are the following:

Common bar steel, 3-16 in.	$ 4 50
Common bar steel, ¼ in. and heavier	4 00
Common bar iron, 3-16 in	4 50
Common bar iron, ¼ in. and heavier	4 00
Angle base	4 10
Horseshoe iron	6 00
Tire steel	5 95
Band steel	4 50
Spring steel	12 75
Crucible Cast Sheet Steel	35 00
Mining drill steel	23 00
Common Cast Tool Steel	20 00
Sleigh shoe steel	4 50
Norway iron	15 00
Toe caulk iron	6 70
Hoop Steel	6 00

Rope Demand Fitful

Toronto.

There is a considerable sorting up business being done in rope and cordage. The spring booked orders have mostly been forwarded and wholesalers are expecting to see an improvement in the demand as the season advances. Prices are unchanged and are as per market quotation pages.

Garbage Pails Down 15 P. C.

Toronto.

Galvanized iron garbage pails are now about 15 per cent. lower in price. The new discount is list plus 20 per cent. instead of the previous one of list plus 45 per cent.

Galv. Pails and Tubs Lower

Toronto.

A considerable reduction has taken place in the price of galvanized iron pails and tubs. These are now quoted at list plus 20 per cent., making a decline of 25 per cent. in the light ware and 20 per cent. in the heavy ware.

Some Ratchet Braces Lower

Toronto.

A cheap line of ratchet braces is now quoted at a 10 per cent. reduction on the previous price.

Valves and Bibbs Unchanged

Toronto.

Sales on compression work continue light and business is chiefly of the sorting variety. Wholesalers report stocks to be ample for present rate of demand. No changes in prices are recorded and quotations on chief lines are the following:

Compression work, standard	34%
Fuller work, standard	30%
Bath cocks, compression	25%
Do., Fuller	25%
Flatway stop and waste cocks, standard	34%
Roundaway stop and waste cocks, standard	34%
Brass steam cocks, standard	10%
Globe, angle and check valves, standard	5%
J.M.T.	10%
J.M.T. C.	15%
J.M.T. Gate Valves	15%
Gate or straightway	7/10%
Jenkins Globe	10%
Radiator valves, standard	23%
Do., removable disc	38%
Basin Cocks—	
No. 1 and 1, Fuller pattern	30%
Quick opening	28%
Emco J. D. Valves	10%
Emco Check Valves	10%
Webber Gate Valves	15%

Corrugated Sheets Improved

Toronto.

No further changes are reported in prices of galvanized corrugated sheets. The demand continues to gradually improve although sales are not heavy. The following are prevailing quotations:

CORRUGATED SHEETS—	Per 100 Sq. Ft.
No. 28 gauge	9 50
No. 26 gauge	10 25
No. 24 gauge	16 00
No. 22 gauge	19 00
No. 20 gauge	22 00
No. 18 gauge	28 00
Less 7½%.	

Lighter than 24 gauge and wider than 27 inches, 75c a square extra.

Pipe Fittings Are Held

Toronto.

Pipe fittings are being held at the changes announced last week. A slight improvement in sales is noted, but buying is mostly in small sorting up orders. Present stocks of wholesalers are adequate. The following are current quotations:

Cast iron fittings	20%
Plugs, cast iron	27½%
Do., solid	10%
Do., countersunk	net
Bushings	30%
Unions, ¼-in. to 2-in.	40%

Do., long, ⅜ in. to 4 in.	50%
Do., 4½ in. and larger	40%
Do., running thread	20%
Couplings, 4-in. and under	20%

MALLEABLE FITTINGS

	Black.	Galvanized
Class A	0 60	0 75
Class B	0 23	0 32½
Class C	0 15	0 23

Wire Nails Slightly Improve

Toronto.

Wire nails are holding at the reductions reported last week. Sales are showing a small improvement and as building operations increase a better demand is expected. Buying generally has been light and stocks on the whole are stated to be much below normal. The wire nail base is $4.65 per keg.

Some Fry Pans Reduced

Toronto.

One of the lines of steel fry pans of the Acme type is now quoted about 10 per cent. lower.

Mop Wringers Lower

Toronto.

There has been a further decline of about 12½ per cent. in the price of the all steel Reliance mop wringer.

Garden Hose Moving

Toronto.

Rubber garden hose is moving out satisfactorily and orders are said to have been as numerous even if the volume has been lighter than usual. Prices are holding at the declines made early last month.

Lead Products Unchanged

Toronto.

Sales show little variation in lead and zinc products and prices are maintained generally. The demand for lead in the primary markets is very dull, but the market continues firm, helped, it is stated, by the fact that production is being greatly curtailed. The following are wholesalers' quotations here:

Lead pipe, list, per lb.	0 12½
Lead waste pipe, list, per lb.	0 13½
Do., over 8 in., list, per lb.	0 14½
Lead pipe is subject to a discount of	10%.
Lead traps and bends	10%
Lead sheets, 4 to 6 lbs. sq. ft., in rolls, lb.	0 09½
Cut sheets, ½c to ¾c lb. extra and cut sheets to size 1c lb. extra.	
Solder, wire, per lb.	0 34
Do., strictly, lb.	0 24
Do., commercial, lb.	0 22
Do., guaranteed, lb.	0 27
Do., wiping, lb.	0 22
Zinc sheets, per lb.	0 16

Sheet Demand Still Low

Toronto.

While wholesalers state that they have made no changes in sheet prices there is reported to be a tendency to shade prices on some sizes and gauges in an effort to reduce stocks. While there has been a slight improvement in sales the demand is still a long way below normal. It is reported that the new prices fixed on sheets in United States markets by the Steel Corporation will no doubt become general with the independent mills also, and in most cases where recent quotations have been lower than the new Corporation prices they have been withdrawn. The independents

are stated to have a fair amount of business on their books at present and some releases are expected. Following are current quotations here:

PLATES

10 gauge	from $5 00 to $6 00
12 gauge	5 05 6 05
14 gauge	5 10 6 10
16 gauge	5 20 6 20

BLACK SHEETS

14 gauge	5 10 to 6 10
16 gauge	5 20 6 20
18-20 gauge	5 75 6 75
22-24 gauge	5 80 6 80
26 gauge	5 85 6 85
28 gauge	6 00 7 00

Prices shown are for full cases. An extra charge of from 25c per 00 lbs. is made for less than case lots. An extra 10c per 100 lbs. is also charged on sheets 36 in. wide.

GALVANIZED SHEETS

Premier and Apollo

10¾ oz.	8 60 to 9 60
U. S. 28	8 20 9 20
U. S. 26	7 90 8 90
22 and 24	7 75 8 75
18 and 20	7 60 8 60
16	7 45 8 45
12 and 14	7 40 8 40

An extra 40c per 100 lbs. is charged for Keystone brand copper bearing sheets.

An extra is now charged on galvanized sheets, 10¾ oz. and 28 ga., when shipped out in sheets 3 feet wide. The extra charged over prices shown above is 20c per 100 pounds. Other gauges show no change for different widths.

Prices shown are for full cases. An extra charge of 25c per 100 lbs. is made for less than case lots.

Corrugated Fasteners Reduced

Toronto.

A reduction has been made in the price of corrugated fasteners and the plain edged are now quoted at 35 and 10 per cent. off list. The multiplex point or saw edge is now list less 12½ per cent. f.o.b. Toronto.

Scrap Demand Still Weak

Toronto.

The waste market is in practically the same position that it has been in for the past few months and the demand for any particular line has been strictly limited. It is believed that improvement is at hand but trading among dealers has been little affected. The tone in the scrap iron and steel market has continued easy but the reduction in steel prices in the United States is believed to be a step in the right direction and should the steel mills become active a better demand for scrap will be felt. Lead scrap has had some movement but zinc has been dull. The following is an average dealer's buying price in fairly large quantities but is strictly nominal.

WASTE MATERIAL

No. 2 busheling	**$13 00**
Stove plate, per ton	19 00 20 00
Yellow brass	6 50 7 50
Red Brass	10 00
No. 1 machinery cast	24 00 25 00
Heavy melting steel	13 50 14 50
Heavy Copper	10 50 11 00
Scrap zinc	3 75 4 25
Light brass	4 00 4 50
R.Rd. wrought iron, No. 1, gr. ton	13 50 14 50
Scrap pipe	8 00 9 00
Heavy lead pipe	4 00 4 50
Old rubbers, boots and shoes	2 00 2 50
Overseas lumbermen's rubber boots	1 50 2 00
Auto tires	0 50 1 00
Solid tires	0 75 1 25
Tea lead	1 75 2 00

Ingot Demand Still Limited

Toronto.

There is a firmer tendency in ingot metal markets but under consumption is still the chief characteristic of the market. Prices on outside markets have been largely dominated during the greater part of the week by the British labor troubles and have advanced or receded according to the strike developments. Most metals have been dull and neglected and local quotations remain unchanged.

TIN.—Standard spot advanced £8 to £169 on London markets but trading has been narrow and dealers generally preferred to wait until the strike situation has cleared up. Other markets have been dull and irregular and quotations here remain unchanged at 36 cents per pound.

COPPER.—Copper continues to slowly sink and despite drastic curtailment of production this still exceeds consumption. Leading selling agencies in the United States report that inquiries are more numerous although business has shown no material improvement. The local price remains 18 cents for casting copper.

LEAD.—Values have been maintained in the lead markets but demand is still limited and fitful. In United States markets dealers are generally willing to shade official prices and shipments have arrived there from Spain. London markets show fluctuations but are above last week's levels. Prices here are still $6.

SPELTER.—The demand has been intermittent in this and prices are unchanged on domestic and United States markets. London is slightly firmer. Quotations here remain at $7.25.

ANTIMONY.—This metal has been dull and neglected again and no change has been shown in prices, which are held here at 8 to 9 cents.

ALUMINUM.—No alterations have been made in this and markets have been dull but more inquiries are reported. Prices are still 30 cents here.

London Markets

LONDON, April 21.—The chief price changes this week are linseed oil, cut nails, lamp chimneys and lantern globes, galvanized ware, tire tape, wrought washers and Miller padlocks. Window glass is now sold from the new list and discount has been changed. Business here continues good although the spell of cold weather slowed up the sale of many warm weather goods. Collections are reported to be good.

Linseed Oil at 77 Cents

London, Ont.

Linseed oil has declined three cents this week and is quoted at 77 cents for single barrels for raw. The demand has been improving and there is a good sale at the present time for oil. The following are present quotations:

	Raw.	Boiled.
1 to 2 barrels, per Imp. gal.	0 77	0 80
3 to 5 barrels	0 76	0 79
6 to 9 barrels	0 74	0 77

Less barrels, add 15 cts. gal.

Turpentine is Firmer

London, Ont.

There is a firmer tone to the turpentine market and it is expected there will be a new higher price before this report appears in print.

Nail Demand Improving

London, Ont.

The demand for wire nails is improving and better sales are being made each week. The base price remains unchanged from recent decline and is quoted at $4.65 per keg.

Cut Nails Are Down

London, Ont.

A decline has been made in the price of cut nails and the new base price is now $6 per keg.

Small Sales on Glass

London, Ont.

There is not a big movement of window glass at the present and sales are mostly limited to sorting orders. A new list is being used and 50 per cent. is quoted off list prices. The discount for cut lights remains 60 per cent. off cut light list. The following is the case list:

GLASS CASE LIST.

	Single.	Double.
Up to 25 in, per 100 ft. case	$11 00	$16 40
26 to 40 in.	14 00	20 90
41 to 50 in.	15 00	23 00
51 to 60 in.	16 00	24 00
61 to 70 in.	17 00	25 00
71 to 80 in.	.....	27 00
81 to 84 in.	.....	34 00
85 to 90 in.	.....	36 50
91 to 94 in.	.....	37 25
95 to 100 in.	.....	43 75

Lantern Globes Reduced

London, Ont.

New lower prices on lantern globes show a reduction of about 10 per cent. The long and short pattern are quoted as follows:

Long or Short Pattern—1 doz. to case, $1.75 doz.; 3 dozen to case, $1.60; 6 doz. to case, $1.40.

Lower Price Lamp Chimneys

London, Ont.

A decline has taken place in the price of glass lamp chimneys and the new quotations are the following:

LAMP CHIMNEYS—6 doz. to case, O, $10.00 per case; 8 dozen to case, A, $13.00; 6 doz. to case, B, $11.00.

Wrought Iron Washers Lower

London, Ont.

Wrought iron washers are now quoted at 50 per cent. off list in place of 45 per cent., making a decline of 10 per cent.

The usual extras are still charged for small lots.

Tire Tape is Reduced

London, Ont.

New lower prices have been made on tire tape and the new quotations are the following:

1 oz. rolls, 70c lb.; 2 oz. rolls, 70c; ¼ lb. rolls, 67c; ½ lb. rolls, 67c; 1 lb. rolls, 67c.

Reduction on Galvanized Wares

London, Ont.

New prices have been made on galvanized wares, tubs, pails and garbage cans, and the new prices are considerably lower. These are now quoted at list plus 20 per cent. The former discount was plus 50 and 60 per cent. on pails and tubs. New net prices on some of the better selling lines are as follows:

STRAIGHT PAILS—No. 12, $4.80 doz.; No. 14, $5.40; No. 15, $6.12.
FLARING GALVD. PAILS—No. 11, $5.40 doz.; No. 12, $6.00; No. 13, $6.84; No. 14, $7.92.
TUBS—No. 8, $11.10 doz.; No. 1, $14.88; No. 2, $16.20; No 3, $18.48.
GARBAGE PAILS—No. 1, $1.08 each; No. 2, $1.44; No. 3, $1.86; No. 4, $2.74.

Fair Sale of White Lead

London, Ont.

There is a fair sale of white lead in oil at the present time, although orders are not large. The price is unchanged and is as follows:

	Tons.	Less Tons.
Pure, per 100 lbs.	$14 95	$15 30
Elephant, per 100 lbs.	15 45	15 80

Putty Shows No Change

London, Ont.

Sales of putty continue to be seasonable and no changes are made in prices, which are the following:

Standard, 100 lb. drums, $7.05 per 100 lbs.; 25 lb. drums, $7.30.
Pure, 100 lb. drums, $8.55; 25 lb. drums, $8.80.

Miller Padlocks Reduced 20 P.C.

London, Ont.

Miller padlocks are quoted at new lower prices and the reduction figures at about 20 per cent.

Poultry Netting in Demand

London, Ont.

Good sales are being made in poultry netting, and the Canadian make in 1-inch and 2-inch mesh is quoted at list plus 10 per cent.

Screen Wire $3.50 Square

London, Ont.

Screen wire cloth is quoted at $3.50 per 100 square feet in the standard painted black quality. There is a good movement of this line at present.

Spades and Shovels Selling

London, Ont.

Sales on spades and shovels are particularly good at the present time. The net prices figured at 35 per cent. off list on some of the best sellers are the following:

Net Prices on Full Polished.

Black Cat or Star, dozen	$16 60
Fox or Olds, dozen	17 25
Bull Dog or Jones, dozen	19 85

Garden Tools Moving Well

London, Ont.

A good movement of garden tools is reported at the present time here and the following are the selling prices on some of the good sellers figured at 50 and 10 per cent. off list.

COMMON BLUED RAKES — 12-tooth, $7.20 dozen; 14 tooth, $7.65.
WELDLESS STEEL RAKES—12 tooth, $9.00 dozen; 14 tooth, $9.45; 16 tooth, $9.90.
STRAIGHT STEEL RAKES—12 tooth, $10.80 doz.; 14 tooth, $11.70; 16 tooth, $12.60.
CONCAVE STEEL RAKES—12 tooth, $12.60 doz.; 14 tooth, $13.50; 16 tooth, $14.40.
WIRE LAWN RAKES—20 tooth, $13.28 doz.; 24 tooth, $14.18.
BLUED FIELD HOES, $5.85 doz.
SOLID FIELD HOES—$10.35 doz.
SOCKET FIELD HOES—$11.48 doz.
SOLID GARDEN HOES—$9.90 doz.
SOCKET GARDEN HOES—$11.03 doz.
LADIES' HOES—$7.65 doz.
TURNIP HOES—8 in., $9.45 doz.; 9 in., $10.35; 10 in., $11.25.
SPADING FORKS—4 prong D. H., plain, $17.33 doz.; 4 prong D. H. strap, $19.35.

Alabastine Sells Well

London, Ont.

There is a good sale reported on alabastine this spring and the list price is 15 cents per pound less 40 per cent. for less than case lots and 45 per cent. discount for full cases.

New Fitting Prices

London, Ont.

New lower prices are in effect on pipe fittings and are as follows:

MALLEABLE FITTINGS.—Class A, black, 60c lb.; galvanized, 75c lb.; Class B, black, 24c lb.; galvanized, 35c lb.; Class C, black, 15c lb.; galvanized, 24c lb.
CAST IRON FITTINGS—Bushing, 30% off list; plugs, 27½% off list; unions, 40% off list; iron stop cocks, 30% off list.

Winnipeg Markets

WINNIPEG, April 21.—Some important price changes are noted this week and among the lines being quoted lower are the following goods, wire nails, sash cord, cotton wrapping twines, butts, churns, alarm clocks, black and galvanized sheets, Canada plate, annealed and bright wire, barbed wire, malleable and cast iron pipe fittings, galvanized wares, tacks, building papers, lumbering tools and toilet papers. There are also several minor reductions in smaller lines.

Business continues to make a slow but steady improvement and a growing demand is shown for spring lines and general shelf hardware, but heavy lines are still moving very slowly.

Wrapping Twine Down

Winnipeg.

A reduction of 15 to 20 per cent. has been made on wrapping twine, both in balls and cones. Following are the new prices: 3 ply in balls, 40 cents per pound; 4 ply in balls, 43 cents per pound; 3 ply in cones, 45 cents, and 4 ply in cones, 47 cents per pound.

Galvanized Sheets Are Reduced

Winnipeg.

The price of black and galvanized sheets have again been reduced. Stocks are low and the demand is light. Following are the new prices:

BLACK

10 gauge, per 100 lbs.	$7 15
12 gauge, per 100 lbs.	7 15
14 gauge, per 100 lbs.	7 20
16 gauge, per 100 lbs.	7 30
18 and 20 gauge, per 100 lbs.	7 80
22 and 24 gauge, per 100 lbs.	7 85
26 gauge, per 100 lbs.	7 90
28 gauge, per 100 lbs.	8 15

GALVANIZED

10¾ oz., per 100 lbs.	$10 55
28 gauge, per 100 lbs.	10 15
26 gauge, per 100 lbs.	9 55
24 gauge, per 100 lbs.	9 40
22 gauge, per 100 lbs.	9 40
18 and 20 gauge, per 100 lbs.	9 25
16 gauge, per 100 lbs.	9 10

Pipe Fittings Reduced

Winnipeg.

The discounts have been on fittings this week and these now cost less. Stocks are in good shape and the demand is increasing. Following are the new quotations:

MALLEABLE FITTINGS—
Class A, 55 per cent. off.
Class B and C, 65 per cent. off.
Crossovers, 45 per cent. off.
Union Elbows and Tees, 55 per cent. off.
Boiler Elbows and Couplings, 55 per cent. off.
Unions, 35 and 5 per cent. off.
Railing Fittings, 45 per cent. off.
Cast Iron Elbows, Tees, Crosses, Return Bends, Caps and Lock Nuts, 12½ per cent. off.
Reducers, 20 per cent. off.
Bushings, 20 per cent. off.
Plugs, 20 per cent. off.
Flanged Unions, Standard, 12½ per cent. off.
Companion Flanges, 12½ per cent. off.
Branch Tees, 12½ per cent. off.
Drainage Fittings, 25 and 10 per cent. off.
Suspension Bars, 60 per cent. off.
Wrought Couplings, 1 to 4-in., 15 per cent. off.
Wrought Iron Nipples, close and short, 4-in. and smaller, 40 per cent. off; 4½ in. and larger, 30 per cent. off; Long, 4-in. and smaller, 50 per cent. off; 4½-in. and larger, 40 per cent. off.

Churns Are Reduced

Winnipeg.

The price has been lowered again this week on hand and power churns and these are quoted as follows:

HAND CHURNS—No. 0, $7.75 each; 1, $7.85; 2, $8.75; 3, $10.00; 4, $12.00.
POWER CHURNS—No. 0, $9.75; 1, $9.85; 2, $10.75; 3, $12.00; 4, $16.00.

No. 241 Butts Reduced

Winnipeg.

The prices on No. 241 butts have been reduced this week and are as follows:

Antique Copper and Dull Brass Finish—2½ x 2½ in., 39c per pair; 3 x 3, 40c; 3½ x 3½, 42c; 4 x 4, 54c; 4½ x 4½, 79c; 5 x 5, $1.38.

Alarm Clocks Reduced

Winnipeg.

Prices have been reduced on some of the Westclox make of alarm clocks this week and are as follows:

Big Ben, $4 each; Baby Ben, $4; Sleepmeter, $2.40.

Canada Plate Reduced

Winnipeg.

Another reduction has been made in the prices of Canada plate and are as follows:

CANADA PLATE, BLUED—18 x 21, $9.75 per box; 18 x 24, $9.75; 20 x 28, $10.

Galvanized Ware Reduced 25%

Winnipeg.

Discounts have been changed this week on galvanized pails and tubs and the cost is now 25 per cent. lower. Following are the new discounts:

Light Galvanized Pails and Tubs, 31½% adv.
Heavy Galvanized Pails and Tubs, 31½% adv.
Galv. Garbage Pails, 31½% adv.

Galvanized Wire Reduced

Winnipeg.

Prices are reduced this week on galvanized wire and are as follows:

8, $7.25 per 100 lbs.; 9, $6.25; 10, $7.32; 11, $7.45; 12, $6.45; 13, $6.65; 14, $7.80; 15, $8.47; 16, $8.65.

Annealed Wire Reduced

Winnipeg.

Prices have been reduced on bright market and annealed wire in coils. Following are the new quotations:

BRIGHT MARKET—0 to 9, $6.25 per 100 lbs.; 10, $6.31, 11, $6.37; 12, $6.45; 13, $6.55; 14, $6.65; 15, $6.80; 16, $6.95.

ANNEALED—0 to 9, $6.00 per 100 lbs.; 10, $6.06; 11, $6.12; 12, $6.20; 13, $6.30; 14, $6.40; 15, $6.55; 16, $6.70.

Wire Nails Down 25 Cents.

Winnipeg.

The price has been dropped 25 cents per keg on wire nails and the base price now is at Fort William $5.30 and at Winnipeg $6.20 base.

Barb Wire Reduced

Winnipeg.

The price of barbed wire has been reduced this week and is quoted now at the following prices:

Lyman, Winnipeg, $5.00; Ft. William, $4.50.
Glidden, Winnipeg, $4.80; Ft. William, $4.35.
Baker, Winnipeg, $4.70; Ft. William, $4.25.

Linseed Oil Unchanged

Winnipeg.

Linseed oil prices are held unchanged again this week and quotations are $1.05 per gallon for raw and $1.08 for boiled oil in single barrels.

Turpentine Held Unchanged

Winnipeg.

There is no change this week in the price of turpentine and last week's quotation of $1.30 per gallon in barrel lots still holds.

Pittsburgh Markets

PITTSBURGH, April 21.—The slight advances in steel prices begun by independents, as noted last week, became general among the independents not merely in bars, shapes and plates, which were covered by the first advances made, but also in sheets and wire products. Then the United States Steel Corporation began making reductions, the result being that the Corporation and the independents are again on the same basis. The common expression is that the market is "equalized." Roughly speaking, the advances of the independents represented on an average about one-third, and the reductions of the Corporation about two-thirds of the total gap that had separated the two sets of prices.

Neither the independents nor the Steel Corporation made any formal statements as to the cause or causes of their action. One might assume that the Steel Corporation reduced its prices upon finding that it would not take as much reduction as it formerly would have to equalize the market, or one may assume that the independents made their advances from having information that the Corporation had decided to reduce its prices, and as the Corporation would of course reduce its prices to the lowest levels made by independents it would be good policy on the part of the independents to put their prices up so that the Corporation would not have so far to go.

Practically the whole trade is convinced that the latter is what occurred. The independent advance was too sudden to be a mere matter of chance. It looked decidedly as if the independents had word that the Corporation had set a time when it would reduce its prices and hastened to give the Corporation a higher basis on which to work. That the Corporation did plan the matter a trifle in advance is known from the fact that the advances started with a meeting in New York of the subsidiary company presidents, some of whom had to travel long distances to get to the meeting and had to be notified in advance.

Price Changes

The price changes in most of the commodities can be shown in a table, as given below. The Industrial Board prices of March 21, 1919, were those of the Steel Corporation until its present reduction. The second column gives the independent prices prior to the adjustment, while the third column gives the prices to which the independents advanced and the Steel Corporation reduced:

	Industrial Board	Independent	Present
Bars	2.35	1.90–2.00	2.10
Shapes	2.45	2.00–2.10	2.20
Plates	2.65	1.90–2.10	2.20
Black sheets	4.35	3.75	4.00
Blue annealed sheets	3.55	2.80–3.00	3.10

The case of galvanized sheets was different. The Industrial Board price was 5.70c, independents having gone to 4.70c and 4.80c, according to size of order, while they advanced to 5.10c, but the Corporation did not recognize this price, naming instead 5c.

In plain wire there was another difference. The Industrial Board price was 3c, but wire was one of the three or four commodities on which the Corporation made advances in August, 1920, advancing the price to 3.25c. The independents had been quoting 3c and sometimes less, and the Corporation came down to 3c. Nails showed another divergence. They were $3.25 on the Industrial Board schedule, while the independents after going up to $4.25 and higher in 1920 got down to $3 a few weeks ago, and then advanced to $3.25, while the Corporation has reaffirmed that price. Thus nails are the only product remaining on the Industrial Board schedule.

In the products mentioned above the cutting began about February 1. In tubular goods cutting did not appear to any extent until March, and just before the Steel Corporation began making reductions the Steel & Tube Company of America, as noted in last report, made a further cut, making the total about $10 a ton below the Industrial Board or Steel Corporation prices. The independents made no effort to go up from their extreme cut prices, but the Steel Corporation instead of reducing by the same flat amount has made various reductions, which in general may be described as involving five points (a point being approximately $2 a net ton) on sizes 6-inch and under, and four points on sizes 7-inch and over, this applying to standard steel pipe, line pipe and in general to oil country goods. The smaller sizes of standard pipe were reduced less, and ⅛-inch was not reduced at all. Doubtless the independents will now advance on the smaller sizes.

Hoops and bands are reduced by the Steel Corporation from 3.05c to 2.75c. Hot rolled strips are formally quoted by the West Leechburg Steel Company at 2.75c and cold rolled strip at 5.50c.

Effect of Equalization

The Steel Corporation, as a result of its price adjustment, will doubtless have heavier specifications and more releases against suspended orders, from its regular customers, and its operating rate may increase somewhat from the 40 per cent. or thereabouts to which it has declined, from over 90 per cent. at the beginning of the year. The independents cannot expect to book more business than they were booking in the past few weeks, but it seems they rounded up some business that was hanging fire, when they withdrew their lower quotations. The independents have been operating at about 35 per cent. lately, against 30 per cent. in both January and February. These percentages are higher than have been commonly estimated in the trade. For one reason or another the independent mill operations have been underestimated in trade talk for four months or more, while the figures here given are substantially correct.

Already Outselling the

Going After Paint

These windows of John Bishop & Son, Ltd., Brantford, Ontario, illustrate

John Bishop & Son, Ltd., of Brantford, have recently taken on the exclusive sale of Scarfe Paints and Varnishes, and according to Mr. Bishop, this Paint, manufactured by the well-known firm of Scarfe & Company, Limited, is already out-selling the old line four to one. This sale

Gives Important Facts About Painting

W. H. Thorne & Co., Ltd., St. John, N.B., Co-operate With Local Painters in Boosting Paint and Brush Sales and Set Forth Real Facts Showing Relative Costs of Painting—Other Local Effort Toward Increasing Building Activity

W. H. THORNE & Co., Ltd., St. John, N.B., are running a "Clean Up and Paint Up Campaign" and are also linking it up with special displays of brushes and brooms.

For a full week a splendidly trimmed window displayed brooms and brushes for every need, and caused considerable interest to the St. John citizens, because of the fact that the entire display was manufactured in St. John.

No expense was spared in the arranging of this window trim of brushes and brooms, and about a week was spent in making up the backgrounds and framework. The trim has been photographed and will be used as an idea for merchants stocking this line.

This special advertising comes at a most appropriate time when the citizens are taking down their self-feeders and heating arrangements and cleaning up the home for the summer months.

Co-operate with Painters

An important feature in connection with Thornes' campaign is that they are co-operating with the painters, and urging their customers to get in touch with their painters. They are also showing the public by figures that oil, white lead and ready mixed paints have gone down in price, and also that it will cost them a good deal less to paint their buildings than it did early last fall. Thornes are also pointing out the fact that money is easily borrowed on well painted property and greatly increases its value.

Encourages Building

The woodworking companies of St. John are also using large space in the local papers urging the citizens to build now, as lumber prices will go no lower. One firm is urging the public to "Get Out of the Rent Rut" and are offering to advise prospective builders how to finance the deal. This company specializes in a system whereby the builder can pay for his home while he is living in it.

Another firm advertises, "There is but One Home, the Home You Own." This company also emphasizes the fact that

Paint Your Property and Save Repair Bills

Clean Up and Paint Up Campaign

It will cost you less to paint your Buildings now than it did early last fall. Your painter will tell you THAT. Ask him.

Paint increases the value of your Property. Any building with nicely painted exterior, and the interior well painted and varnished, will bring a higher price and sell quicker than if dirty, shabby and smoke-stained. Paint boosts value and is, therefore, a good investment.

Money is easily borrowed on Well Painted Property. Bankers everywhere fully realize that well painted property means thrift on the owner's part, and longer life for the building. Paint protects the surface from wear and weather, keeps wood from decay and metal from rust.

Paint is really Property Insurance, because it protects property from deterioration in value and keeps down repair bills.

Paint is Cheaper Now, because the materials of which it is made have gone down in price. For instance: Raw Oil has decreased in price 50 per cent.; White Lead has decreased in price 25 per cent.; Ready Mixed Paints have decreased in price 20 per cent. since early last fall.

GET IN TOUCH WITH YOUR PAINTER AND LET HIM FIGURE ON THE JOB.

We can supply him with Everything in Paint, Materials and Brushes.

W. H. THORNE & COMPANY, LIMITED
HARDWARE MERCHANTS
ST. JOHN, N. B.

Ad. used by W. H. Thorne & Co., Limited, St. John, N.B., in connection with a local Clean-Up and Paint-Up Campaign. This sets forth some important arguments for the use of paint at this time. It points out that painting can be done at much less cost now than last year, that a coat of paint is good from an investment standpoint and that repair bills can be saved. This ad. was run in large space in the local newspapers and was in conjunction with a window display of paints.

lumber has reached its lowest point. They also call attention to the horrors of moving day, and show that by owning your own home you can secure comfort and a settled feeling which is impossible in the house you rent. One of their large local newspaper advertisements reads, "Mr. Business man and moneyed man, you are responsible for the shortage of houses in St. John; why live in another man's house when you can well afford to live in your own?"

This company have also advertised instances of men earning less than a thousand a year who have been able to finance the building of their own homes.

Messrs. T. McAvity & Sons, Ltd., hardware merchants, are also specializing on paints in their advertising and urging the public to use paint for the decoration of the interior of their homes, this being economical and sanitary, and can be washed with soap and water.

Emerson & Fisher, Ltd., are using large space advertising paints and colors for inside decorations. A large amount of paint advertising is going on in St. John, and the painters expect to have a busy time this spring and summer.

SUCCESSFUL PAINT DEMONSTRATION.

On Thursday, Friday and Saturday of this week a most successful demonstration of a special line of paint and varnish for housework was given at Conn's Hardware in Tillsonburg. The event was well advertised in advance, Mr. Conn taking double column space in the local paper and, in addition to featuring the demonstration, making an offer, through the return of a coupon, of a can of the finish to everyone buying a 25-cent brush. In connection with the demonstration, a very attractive window display was arranged. The demonstration went across with a bang and attracted great numbers of householders not only from the town but from all over the countryside. The women showed particular interest in the work, especially the methods of touching up furniture and finishing rooms, and a large number of cans were sold to them.

HARDWARE MERCHANTS

Store Hours: 8 a.m. to 6 p.m. Open Saturday till 10 p.m.

ST. JOHN, N.B.

Linked up with the campaign for paint selling is the sale of brushes and brooms. W. H. Thorne & Co., St. John, N.B., always find that interest in a number of hardware lines is more or less related at spring housecleaning time and a number of such lines can be featured simultaneously. Attention is also drawn to the display of brushes and brooms in the window.

SOME STRIKING PAINT DISPLAYS

London, Ont.—Two window displays of paints that have been attracting a lot of attention here this week and incidentally pulling a nice volume of business are those of the Cowan hardware and the hardware of John W. Brownlee. The Cowan company has given over both of its large show windows to paints and wall finishes. In one is a very attractively arranged display of paints and varnishes, including a special section for auto finishes. In the centre of the display on the floor of the window is a splendid display of brushes. In the other window a demonstration has been given every day this week of what can be done with a wall finish the firm is handling. A lady demonstrator with a large brush and a number of the tints most adaptable for home use shows by actual application in the window just how easily and quickly it is done. She is surrounded by packages of the goods and the demonstration has not only been the centre of crowds of house owners but it has been a big producer from a turnover standpoint.

John W. Brownlee's paint window consists of an artistic arrangement of cans of paints, paddles, brushes and advertising helps. The brushes are given a very conspicuous place. The name of the firm "Brownlees" is formed in dry colors, striking shades being chosen so as to make them stand out. At vantage points are set various advertising helps and cans of paints and varnishes. The window faces the market square where thousands of farmers gather three days each week and it is said to have brought in a splendid lot of business.

The Weaver Manufacturing Company of Springfield, Ill., will locate a Canadian branch plant at Chatham, Ont., for the manufacture of auto accessories and supplies. Two acres were purchased this week and work on a new factory will be commenced at an early date.

A Complete Paint Line

Considerable Delay In Shipments of Paint

Paint Manufacturers Already Experiencing Difficulty in Forwarding Supplies

Montreal.—During the early months of this year the prediction was made to Hardware and Metal, by a prominent paint manufacturer, that although no shortage of paints and paint specialties would be manifest during the busy painting season, a delay in shipments to merchants would in all probability be brought about by dealers not buying their requirements until the actual demand was in evidence. It is yet early in the season but already complaints from merchants are coming to hand that immediate deliveries are not being made.

The manufacturers state that while they appreciate the just complaints coming from their customers, they are finding it utterly impossible to cope with the situation, and get the goods on the rail the same day or the day following the rush order. One local manufacturer stated to Hardware and Metal this week, "We are now doing an active spring business in paints and varnishes, the volume of which, if continuing, will be well up to the gallonage of last year for this month. The increasing number of smaller rush orders, however, is making it impossible for us to give the service we would like, and every day brings fresh complaints of rush orders being held up."

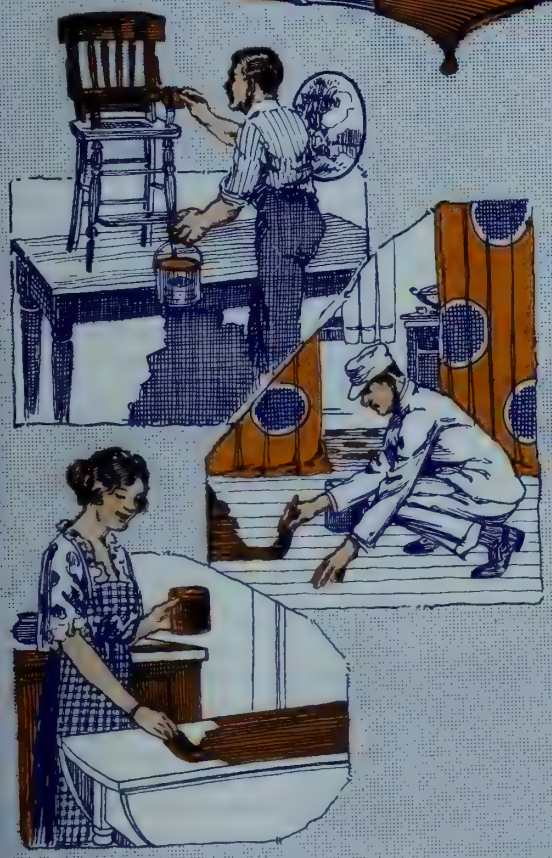
The slogan, "Buy carefully, but buy," is being practised by practically all merchants, and it is believed by manufacturers, jobbers and retailers to be the best method of conducting a business at these times. And there are times, such as are now brought forward in the paint industry, when the full meaning of the above slogan should be well thought out. The season is not yet very far advanced for the painting trade, and merchants would do well to ascertain their requirements, based carefully from other years' demands, and have same forwarded at as early a date as possible, so as to avoid the delay that is really beyond the power of the paint house to prevent.

Make Screw Cutting Tools.—Galt has a new industry in Hi-Speed Tools, Ltd., organized to manufacture screw cutting tools, taps, dies, gauges, standard and special punching, stamping and forming dies. They plan to be in full operation by May 1. The directors are: W. W. Champ, Regina, Sask., president; L. W. O'Connor, Galt, secretary and manager, and J. A. Johnston, Galt., vice-president. Harry Champ is factory manager. The company starts with a staff that has had much experience in this department of tool production. Machinery is now being installed in their temporary factory in a wing of the Perfect Machine building.

Paints and Accessories

London, Ont.—Two very attractive and very seasonable window displays arranged by the Cowan Hardware Co. this week were a big help in boosting turnovers. In one window paints, varnishes and auto finishes were shown. The window was very carefully and very tastefully arranged. At each end on two small stands at the back were shown auto finishes. Right in the center of the display on a board covered with green baize brushes of various sizes were shown. Radiating from these, like the rays of the sun, were cans of paint and at various points the cans were pyramided. Interspersed throughout the window were a large number of colored advertising helps directing attention to the various uses the materials shown could be put.

"We are looking for a big trade this spring in paints," said Manager Thomas Jones to Hardware and Metal, "and we have got away to a splendid start. With warm weather from now on paints will move rapidly and the season promises to be one of the best we have ever had."



In its other window the Cowan Co. had a mixed display of various things required around home for spring cleaning and for household use during the warm weather. In one corner was shown a refrigerator. In another a number of strongly built and attractive looking wicker hampers were featured. In the centre was a stepladder and at various points were shown door mats.

Attractive displays of paints and brushes should be frequently used at present in conjunction with all other effort being put forth by the merchant to increase paint trade. Here is a display with an attractive background built in and three pyramids arranged to show literature, color cards, etc., and the brushes are shown in just sufficient quantity and in just the position which will suggest them as a necessary accessory to the satisfactory job.

FLINT EASIFLOW VARNISH STAIN

Every Merchant wants a leader—here is one

The turn of merchandising events occasionally brings a profitable sales opportunity.

Many Jobbers and Retail Merchants have investigated the Flint Easiflow Varnish Stain Proposition, have seen in it an opportunity for large and profitable sales and have placed their orders for immediate delivery. In justice to yourself, Mr. Hardware Merchant, it will be well for you, too, to investigate.

Our proposition includes Color Cards in which the five stains are shown on actual wood chips and also a very handsome Slat Rack which will be a rare addition to your store.

Easiflow is a genuine high grade product at a low price and is rapidly getting onto the shelves of the hardware stores. Now is the time for you to write us for full information.

Weekly Paint Markets

Montreal

MONTREAL, April 21.—The feature of the paint markets this week is 67 cent raw linseed oil, a further reduction having been made. These figures are not uniform, however, other jobbers maintaining higher quotations, but oil can be purchased at this price. Turpentine is also easier and is quoted three cents lower. Shellac is reduced, while white lead in oil and putty are unchanged. Window glass is practically in the same situation as has been shown in the last two months, namely, very dull and unsettled.

Ready mixed paints, paint specialties and varnishes show an increased activity and manufacturers are already experiencing difficulty in making immediate shipments on rush orders.

Linseed Oil Decline Varies

Montreal.

Quotations on linseed oil are again lowered this week. There is now quite a variation in prices from the different quarters, and quotations below are given with a range. The reduction according to some jobbing houses amounts to 10 cents per gallon, while other sources are maintaining a level of only a 3 cent decline. The market on linseed oil has now dropped to such a figure that all interest for increased business has waned, and both crushers and paint manufacturers are satisfied to let the recent fluctuations have their full sway and await a steadier situation before any orders are sought. There can be little said of the seed market and no one seems willing to form any opinion at present. Following are present quotations:

LINSEED OIL—	Raw		Boiled	
1 to 2 barrels	0 67	0 75	0 69½	0 78
5 to 10 barrels ...	0 65	0 73	0 67½	0 76

Turpentine is Again Easier

Montreal.

A lower level has been reached on turpentine, and quotations are now 87 cents in one barrel lots. While the demand shows a slight improvement, sales are much below what they should be at this season. The recent firming of the Southern market, accompanied by a slight advance, reported last week, has not been long maintained, and this week brings the situation in the South with little improvement. The present quotations are the following:

TURPENTINE—	Per Imp. Gal.
1 barrel lots	0 87
2 to 4 barrel lots	0 84
Broken lots	0 95

Putty Sales Small

Montreal.

With stocks low throughout the country, putty sales are still small. This demonstrates the course that merchants are following, buying only their actual requirements, while in other years the needs of the building trade were bought even before this. Any spurt or activity in putty will be brought about by the activity in building as otherwise the demand is usually light during the spring months. Prices are unchanged as follows:

Standard Putty—	5 ton	1 ton	ton
Bulk barrels, 800 lbs.	$5 00	$5 25	$5 60
Bulk drums, 100 lbs.	6 00	6 25	6 60
Do., or tins, loose, 25 lbs.	6 25	6 50	6 85
Drums or tins, cased, 25 lbs.	7 00	7 25	7 60
1 lb. tins	9 75	10 00	10 35

Pure Linseed Oil Putty, $1.50 per 100 lbs. advance over above prices.

Shellac Again Lowered

Montreal.

A reduction in shellacs, both white and orange, of 30 cents a gallon has been made this week. Orange shellac is now selling at $3.80 in one gallon jugs. A gradual improvement in sales is shown but in line with paints and paint specialties, there is still room for more activity. Following are quotations with the decline.

Orange shellac, in barrels, $3.50; in one gal. jugs, $3.80; white, in barrels, or 5 gal. jugs, $3.85; in one gal. jugs, $4.25.

White Lead Moving Well

Montreal.

White lead continues to sell well and although shipments are small, they are very numerous. Stocks are heavy in the hands of corroders, and a continued increase in sales is hoped for. While there continues a rather unsettled feeling, and talk of concessions being made to secure business, quotations remain unchanged at $14 in five ton lots, $14.50 in one ton lots, and $14.85 in less quantities.

Paint, Paint Specialties, Varnish

Montreal.

There is a continued increase in sales of paint and paint specialties, with a steady market on all lines. The forecast was made in the early months of the year by a paint manufacturer to Hardware and Metal that if dealers waited until the actual painting season was at hand before buying some delay might be experienced in forwarding supplies in the rush periods. Although still early in the painting season, this is beginning to show itself, manufacturers finding it difficult to ship so many rush orders the same day or the day following that on which they are received.

Window Glass Remains Dull

Montreal.

Little improvement is now expected in window glass until after May 1st at least. This date may show some change from the Belgian field. The present demand continues small and the market is practically in a stagnant condition. Later on also the building in Quebec province will be in a more advanced stage, the movement then in all probability will show more activity. Quotations are as reported in our later issues, 50 per cent. off Montreal list.

Toronto

TORONTO, April 21.—The feature of the paint market this week is the firmer tone shown in turpentine and linseed oil markets. For the first time for a considerable period an advance is reported in turpentine prices. Linseed oil is unchanged but from present indications may also be higher before very long. Lower quotations continue to be made on shellacs, but other products of paints and varnishes are holding unchanged. Business is steadily improving, although sales are not large, and it is fairly evident that dealers do not intend for the present to carry normal stocks. Manufacturers appear to be satisfied with this policy and it is conducive to a steady sorting up trade throughout the coming season.

White Lead Sales Improve

Toronto.

Paint manufacturers report an increased demand for white lead in oil and though sales are not as heavy as usual orders are being received more often. Stocks in retailers' hands are stated to be lower than the average and the fact that while it is unlikely to advance any higher for the present and the possibility of lower prices than the present at a later date is said to be the cause of smaller stocks all round and it is believed that any sudden increase in the demand would be difficult to meet. Prices show no changes and quotations will be found on current market pages.

Putty Demand Unchanged

Toronto.

There is very little change in the demand for putty and sales are stated to

Registered Floglaze

be just normal for a quiet season. With any increase in the building construction there should be a better movement in this product. Prices are maintained and show no changes. Quotations are the following:

PUTTY—	Per 100 lbs.
Standard in 100-lb. drums	7 05
Do., 25-lb. irons	7 30
Do., bladders in bbls.	8 30
Do., less quantities	8 55
Pure, in 100-lb. drums	8 55
Do., 25-lb. irons	8 80
Do., bladders in bbls.	9 80

Shellacs Still Falling

Toronto.

Quotations on shellacs continue to decline and the market does not appear to have reached bottom. For orange prices in bulk are $3.25 and $3.75 in one-gallon jugs. White is being quoted at $3.65 and $4.15. These prices are a considerable difference from the high peak reached last season for this product.

Window Glass A Trifle Steadier

Toronto.

There is reported to be a trifle steadier situation to the window glass market. Quotations are more on a level now than they have been for a considerable time. Buying is still largely limited to small orders and consumers are not placing orders for far ahead. The Belgian market while unchanged is displaying a slightly firmer tone and some importers state that there seems less likelihood of a lower tendency than appeared a short time ago. Jobbers are generally using the new list and are quoting 50 per cent. off for case lots. The cut light list is quoted at 60 per cent. off.

Paris Green Moving Slowly

Toronto.

Although a steady sale is being experienced for Paris green the average order is smaller than previous seasons. When the retail sale commences there is a chance of repeat orders being required. Prices are to be found on the current market quotation pages.

Varnishes and Paints

Toronto.

The general report on conditions in prepared paints and varnishes indicates that the spring demand has set in in earnest, and with smaller stocks held by many retailers there has been an increase in the sales of ready mixed paints during the past few weeks. Buying continues to be of a small nature and dealers are ordering for present requirements only. No changes are reported in prices of any products.

Turpentine Slightly Advanced

Toronto.

As was forecast last week there has been an increase in the quotation on turpentine and this week's price is 5 cents higher than the last market report. Savannah markets have shown firmness and prices have advanced there. The undertone is better, although the export demand is below normal. The weather has been good for getting in the new crop until this week when severe storms are reported to have done considerable damage. An improvement is reported in the domestic demand. The new quotations are the folloming:

TURPENTINE—	Per Imp. Gal.
1 barrel lots	0 95
2 to 4 barrel lots	0 95
5 gallon lots	1 10

Firmer Tone in Oil

Toronto.

Prices on linseed oil are held and show no change this week from the low level of 77 cents, but there is a firmer tone to the market and though crushers do not look for much change at present an increase in prices would not be surprising. The flax seed market has fluctuated considerably during the past week or two but with other grain it has recovered to a certain extent. An improvement is reported in the export demand for oil and the home demand is showing up better now. The present quotations on linseed oil are the following:

	Raw.	Boiled.
1 to 2 barrels, per gal.	0 77	0 80
3 to 5 barrels, per gal.	0 76	0 79
6 to 9 barrels, per gal.	0 74	0 77

Less barrels, add 15 cents per gal.

Further Rise in Turpentine Values

More Strength in Turpentine Market—Holders Will Not Sacrifice Holdings—Expect Fluctuations in Rosin Market

THE turpentine situation at London has very materially strengthened this week, spots advancing from their lowest point of 45s per hundredweight to 52s 9d, with a strong undertone and a heavy demand. July-December was quoted Thursday at 51s 6d, approximately 50c at Savannah. The strike has not affected the market. The deliveries from the London stocks have continued very large, aggregating to March 26, 29,359 casks against 20,317 casks for the same time last year, and 12,766 for the same period of 1919, while the stocks of American turpentine had been reduced from 44,201 on January 8 to 24,794 on March 26, says the Naval Stores Review, Savannah, Ga. This steady haul on the supplies has had its effect in infusing more strength in the market, and the fact that the American markets have once or twice reacted and recovered some of their losses has not been without its influence. London is expected to be a buyer on this side for May shipment before long, barring grave disturbance of business from general strikes, and this is not lost on the local situation. The domestic demand, too, seems to be slowly bettering. Receipts may be lessened a bit by the cold of recent nights, but the effect will hardly be conspicuous. April and May do not bring any large volume of fresh offerings from the woods and this gives an additional basis for any bull movements that may be engineered. The dealers, as a rule, have small holdings of turpentine, and the factors show no inclination to sacrifice any of their holdings from the last crop or weaken the improving situation by offering it. The advances on the local market this week from 46½ to 52 cents may be followed by a further rise in values, as things now look.

Rosins

Receipts of pale rosins generally are said to be moderate, producers showing inclination to hold back some of the new crop in the woods. The carried-over rosins from the last crop are being quite firmly held. Only now and then is a small lot offered, one of something over 600 barrels being sold at Savannah this week at about $4 per 280. The rosin market is steady and regarded as liable to fluctuations growing out of differences in dealers' needs for particular grades. Pales were advanced a bit this week, while commons, after being shoved up rather forcibly, were allowed to drop again. American rosins are reported offering very cheaply in London, holders evidently wearying of carrying and preferring to sacrifice them with the new French crop moving across the channel. There is no improvement in the foreign demand for rosins and apparently no stimulus coming from that quarter for the time being. Domestic consumers, while poorly supplied, almost to the point of bare cupboards with many, still buy sparingly, as last season, wehn their excuse was the exceptionally high prices. This year that excuse is entirely absent. The situation as to home demand promises to slowly but steadily improve.

Canadian Hardware Finds Good Market in India

Ottawa.—The current issue of the weekly bulletin of the department of trade and commerce carries the seventh of the series of articles on the markets of India and the middle east, by H. R. Poussette, director of commercial intelligence service. There is stated to be a good market in India for Canadian hardware. One American firm is stated to be selling 1,000,000 lanterns a year in India. Builders' hardware, enamelware, stoves, refrigerators, aluminumware and other articles are needed. Emphasis is laid on the necessity for adequate packing in this market.
